

C OF C PLANS PROJECTS FOR REST OF YEAR

The Wheeler Chamber of Commerce held a meeting at Nora's Cafe here Monday night to plan the work of the organization for the remainder of the year. Several propositions were discussed and plans were laid for two projects for the organization.

The first project to receive action by the Wheeler Chamber of Commerce will be that of attempting to extend the city limits of Wheeler out to include territory which, it is generally believed, should be incorporated into the city. The population figure for the city would be much more impressive if all those who live actually within the city were included in the city and could be counted as such. There are also other advantages both to those inside and outside the city limits to having territory immediately adjoining the city annexed.

Another project the Chamber of Commerce decided to sponsor in the immediate future is that of getting a traffic signal light of some sort placed on the highway at the southeast corner of the Wheeler Hospital.

The group discussed the possibility of sponsoring some sort of an annual celebration or attraction of some sort and research was started on the idea that was presented to the group by Frank Wofford. The event suggested was that of an annual field trials for bird dogs.

The group also decided to secure a location for a large sign at a point a few miles south of Elk City, Oklahoma, where motorists will be invited to leave 66 and come due West on the highway which will come through Sweetwater and Wheeler then on to Pampa, Borger, Amarillo and all points west and northwest of here.

MCDONALD BOY HIT BY TRAIN MON. MORNING

Richard McDonald was seriously injured Monday morning around 10:00 o'clock when the farm tractor or which he was driving was hit by the one-car train on the Santa Fe Railroad at a crossing on the T. A. Treadwell place a few miles east of Briscoe.

Richard was rushed to the Wheeler Hospital by his grandfather, T. A. Treadwell, where he was treated for a fracture to his left leg, skull fracture, severe neck sprain and multiple contusions and abrasions. Dr. Harold Nicholson reported today that young McDonald is responding exceptionally well to treatment and is coming out from under the brain concussion caused by the skull fracture nicely and probably will be able to be released from the hospital late next week.

Richard McDonald is the 14-year-old grandson of Mr. and Mrs. T. A. Treadwell and Mr. and Mrs. Frank McDonald all of the Briscoe community.

At the time of the accident, young McDonald was driving the tractor across the railroad to where his grandfather, T. A. Treadwell, was waiting for him and he was to hitch onto a farm implement of some sort and start doing some work, according to reports.

The International Harvester tractor which Richard was driving was completely demolished with the front end of the machine being left on the south side of the tracks and the rear part on the north side of the tracks and a small piece of the machine scattered for several yards down the tracks.

Fellowship Night To Be Observed June 4

The monthly Family Night Fellowship will meet on Wednesday night, June 4, at the Methodist Church. The group will share a fellowship meal brought in by each family then enjoy an entertaining program. Harold Nash and Archie Hibler will show films that they took of the Galilee service they held recently at Silver Lake. Following this a quiz program will be held between the men and women. The quiz will be on Wheeler and Wheeler County. Everyone is invited to come and participate in the fellowship.

Decoration Day was first proclaimed in 1868 by the then Grand Commander of the Grand Army of the Republic. The purpose of the observance was stated in that proclamation to be an opportunity to decorate the graves of the soldiers who were killed in the Civil War.

Since 1868 the name of this particular holiday has been changed from Decoration Day to Memorial Day, and the purpose of the observance has been extended to include the decoration of the graves of all soldiers who died in the defense of their country, and the date of the observance has been adopted by almost all of the states of the United States as May 30th.

It behooves us, the living, to pause long enough to remember the dead on specific occasions; keeping in mind that all the dead have aided in some way toward making this the greatest nation on earth. During such observance our gratitude should be audibly expressed and specifically shown, not only to the dead but to the Almighty and Everliving God for His patience, His grace, and His loving kindness toward us.

Now therefore by the authority vested in me under the law, I hereby proclaim Friday, May 30th, 1952, as Memorial Day Holiday and urge the citizens of this municipality to fittingly observe the memory of our dead.

Done at Wheeler, Texas, this 29th day of May, 1952.

R. H. Forrester
Mayor

DAVID JOHNSON

CARMALETA BROWN

RICHARD BROWN

Pictured above are three members of the Wheeler High School graduating class of this year who received various honors at graduating exercises which were held at the Wheeler Gymnasium last Friday night. Miss Carmaleta Brown and Richard Brown were the recipients of the Babe Ruth Sportsmanship award which is presented annually to the senior boy and girl selected by the student body and faculty. David "Teedie" Johnson was awarded the Pampa Daily news trophy as the outstanding athlete of the year in the Wheeler schools. Besides these awards, Miss Brown and Mary Bob Denson Laycock received several scholarships as result of their being valedictorian and salutatorian respectively. Jamie Clark was given a merit award for outstanding achievement during his high school career.

T. D. HELMS PASSES TUES.

Thomas Douglas Helms, 55 years old, of Twitty died at 8 o'clock Tuesday morning in a Wheeler hospital where he had been seriously ill for the past two weeks.

Mr. Helms had spent most of his life in Wheeler. He moved to Twitty in 1950 and had been employed as superintendent of the oil mill there. He was born in Bardwell.

Funeral services were held at 10 o'clock Wednesday morning in the Clay Funeral Home Chapel in Shamrock. Rev. Harold W. Turner, minister of the Twitty Church of Christ, officiated.

The body is being taken to Waxahachie where services will be conducted at 10 o'clock Friday morning at Saxon-Boze-Mitchell Funeral Home with Rev. L. S. Rainey officiating. Burial will be in the Myrtle Cemetery at Ennis.

Survivors include his wife of Twitty; three daughters, Mrs. Robert Dethridge, Los Angeles, Mrs. Edward Kennedy, Ennis, and Kitie Jean Helms, Twitty; three sons, John Thomas Helms, Jerry (Continued on Last Page).

Three More Local Landowners Sells Half Royalty At Good Price

Royalty transactions conducted this week include the sale of three more tracts of minerals at fairly attractive prices. Transactions this week bring the number of tracts purchased to a total of five.

Those who have sold half minerals under their property this week include:

J. C. Moore, Jr. sold half interest in the east 360 acres of Section 1, Block A-5 at a reported base price of \$90.00 per acre.

Cliff Sivage sold half interest in 240 acres at a reported price of \$60.00 per acre.

John Barr sold half interest in 320 acres at a reported price of \$75.00 per acre.

Ernie Jacobs, brother of Mrs. McCracken, who lives northwest of Wheeler at the McCracken Lake, is reported to be in a very serious condition at the Highland General Hospital in Pampa.

Mrs. A. E. Connell, employee at the Wheeler Hospital, has been ill this week.

Laurie L. Bush Laid to Rest

Funeral services for Laurie Lee Bush, small daughter of Mr. and Mrs. Paul Bush, were conducted at the Wheeler Baptist Church Wednesday afternoon at 3:00 o'clock with Rev. M. B. Smith, pastor, officiating.

Little Laurie Lee, who was born in Amarillo September 11, 1951, was 8 months and 16 days old at the time of her passing. Death came Tuesday afternoon shortly before 3:00 o'clock.

Survivors include the parents, Mr. and Mrs. Paul E. Bush of Wheeler; the maternal grandmother, Mrs. Ola Barry of Wheeler, the paternal grandparents, Mr. and Mrs. T. P. Bailey of Amarillo, and the paternal great grandparents, Mr. and Mrs. Frank Bush of Anaheim, Calif.

Those serving as pall bearers were Thomas Daughtry, W. D. Mitchell, A. Deisher and J. C. Howell.

Interment was in the Wheeler Cemetery with Kirk-Mason Funeral Home in charge of arrangements.

Three Local Firms Burglarized Early Thursday Morning

WHEELER LOSES TO MOBETTIE, TO PLAY AGAIN

The Wheeler nine in the Salt Fork League dropped their first contest of the season, a heartbreaker, to a high class Mobeettie nine by a count of 8 to 9 in a contest which was played on the Mobeettie diamond last Sunday afternoon in almost perfect baseball weather.

The same teams will meet on the Wheeler American Legion Diamond Sunday afternoon beginning at 3:00 p.m. and the Wheeler lads will have a chance to square things with the high-powered Mobeettie crew. A large crowd of spectators from both Wheeler and Mobeettie are expected to be on hand to back their respective teams.

The Wheeler nine got off to a three run lead in the first inning Sunday but this lasted only until the third inning as the Mobeettie crew scored once in the initial frame and twice in the third then went ahead with a single run in the fourth and scored two more in the fifth to go ahead by 6 to 3 with two more in the fifth.

Wheeler picked up one run each in the sixth and eighth innings while Mobeettie added two in the eighth to make the score 8 to 5 then in the top of the ninth Wheeler scored three runs when Maurice Pettit, first up, beat out a slow rolling bunt for a hit, J. Cain followed with a single, Bill Price singled to fill the bases, Richard Gaines struck out, Bud (Continued on Last Page)

SCHEDULE FOR SOFTBALL PLAY IS ANNOUNCED

Some play has been going on under the lights at the new softball diamond at the Kiwanis Field in the City Park almost every available night since the lights were first turned on about two weeks ago but no leagues have been drawn up and consequently no schedules have been issued.

As of this writing, no leagues have been organized, but several groups have organized teams and a schedule of play has been announced for next week by Tom Seay who is in charge of arranging schedules for local play.

Tom Seay asks that all managers contact him regarding scheduling of contests for week of June 9 through 14 before June 5.

Otherwise schedules will be made up without assistance or advice of managers.

Schedule for contests of Friday night of this week and Monday, Tuesday, Thursday and Friday nights of next week follow:

FRIDAY NIGHT, MAY 30

6:30 to 7:30 Games between two teams of Wheeler Boys 8 to 13 Years Old.
7:30 to 8:30 Goad's Loafers vs. Shamrock Carbon Black Team.
8:30 to 9:30 Veteran's D. E. Class vs. G. I. Agriculture Class.

MONDAY NIGHT, JUNE 2

6:30 to 7:30 Game between two teams of Wheeler Boys 8 to 13 Years Old.
7:30 to 8:30 Working Girls vs. High School Girls.

TUESDAY NIGHT, JUNE 3

6:30 to 7:30 Working Girls vs. High School Girls, practice.
7:30 to 8:30 Game between two teams of Wheeler Boys 8 to 13 Years Old.

WEDNESDAY NIGHT, JUNE 4

6:30 to 7:30 Game between two teams of Wheeler Boys 8 to 13 Years Old.
7:30 to 8:30 Jowett Power Plant vs. Veteran's D. E. Class.

THURSDAY NIGHT, JUNE 5

6:30 to 7:30 Game between two teams of Wheeler Boys 8 to 13 Years Old.
7:30 to 8:30 G. I. Agriculture Class vs. Wheeler High School Boys.

FRIDAY NIGHT, JUNE 6

6:30 to 7:30 Game between two teams of Wheeler Boys 8 to 13 Years Old.
7:30 to 8:30 G. I. Agriculture Class vs. Wheeler High School Boys.
8:30 to 9:30 Goad's Loafers vs. Mobeettie High School Boys.

Three local firms were burglarized Wednesday night or early Thursday morning it was reported this morning as they opened for business. Sheriff Bus Dorman stated that the robberies most likely took place some time between midnight Wednesday and daylight Thursday morning since he was around town about 12:00 o'clock midnight last night and saw no signs of any disturbance of any sort.

Firms burglarized included the Holt Brothers Lumber Co., Miller's Cleaners and H. B. Grider's Watch and Jewelry Repair Shop which is located in the building with Miller's Cleaners. The firm reporting the highest loss from the burglary was, quite naturally, the jewelry store.

The thieves apparently entered the Holt Bros. Lumber Co. store first gaining entrance by breaking out a window pane and forcing the screen off then opening the entire window so they could climb in. After going through the office of the lumber company in the search for their cash and being unable to find same, the culprits took tools with which to break into the other building they entered.

So far as Manager Glenn Hibbits of the lumber yard could determine the items missing from his stock included: 1 brace, 1 expansion bit, 2 coping saws, 1 16-oz. claw hammer and 4 or 5 chisels and punches.

After leaving the lumber yard, the thieves gained entrance to the tailor shop building by cutting a hole in a back door and lifting a bolt which was holding the door from the inside. Once in the tailor shop they wrecked their safe which was unlocked, then took its contents out and scattered them over the floor in an effort to find the firm's money; however, all the money they got was approximately 100 pennies which had been left in the cash register.

Hardest hit of the three was H. B. Grider who lost five new watches and a quantity of new watch bands and watch chains. Mr. Grider estimated his loss at between \$250.00 and \$300.00.

None of the jeweler's tools or none of the clothing was taken from the tailor shop as far as the proprietors could ascertain early today.

SANDERS INFANT BURIED FRIDAY

Funeral services for Larry Glenn Sanders, infant son of Mr. and Mrs. Lindon Sanders, were held at the Kirk-Mason Funeral Parlor last Friday afternoon at 3:00 o'clock with Rev. M. B. Smith, pastor of the Wheeler Baptist Church, officiating.

The little boy was born prematurely on May 22 and passed away on May 23, 1952 at a local hospital.

Survivors include the parents, Mr. and Mrs. Lindon Sanders, the paternal grandparents, Mr. and Mrs. Murray Sanders, and the maternal grandparents, Mr. and Mrs. Lloyd Childress, all of Wheeler.

Interment was in the Wheeler Cemetery with Kirk-Mason Funeral Home in charge of arrangements.

Editorial

1952'S GRADUATES

The schools and colleges of the nation are discharging their duty with vigor and the advent of commencement brings many young men and women to the threshold of the great venture of life.

For a number of years they have pursued the paths of learning, seeking up information and experience through various school years and now, at last, they are to receive their diploma and step into the world of adventure.

They will find a world different from the environment in which they have been

nurtured. There will be no assignment of particular tasks, with no one to crowning the efforts of those who think and do well. In the world of school, meticulous performance is not always crowned with success and laurels.

The high schools of Wheeler County are graduating a fine crop of young men and women. Many of them will continue their education at college but some will not have that privilege. They will go forth immediately to seek their economic fortunes in business endeavor, battling the various forces that operate in the struggle for profits.

None of our graduates who have the opportunity of attending college are fortunate, only if they make use of the additional educational advantages that come to them. Certainly, the training that college life affords is worth what it costs, in time and money, but these benefits do not flow automatically into the being of the student—they must be earned by individual endeavor.

The graduates who have no chance to continue their studies in college or special schools need not accept any inferiority complex in regard to their classmates who study longer. While it is not to be denied that some advantages accrue to college-trained individuals, this is not conclusive in the struggle that engaged adults in the business of their existence.

The Wheeler Times wishes to congratulate the students of our high schools who complete their course this year and, at the same time, to extend congratulations to those of this county who are completing their college course. May all of them play the game of life fairly, earning just rewards and enjoying in the similar successes of their fellowmen.

DANGER IN WATER SPORTS

Summer brings vacation days, with most of the people of the nation spending more and more time in the outdoors. Unfortunately, some of these outings, which should bring pleasure and relaxation to everyone, result in tragedies that bring sorrow to happy families.

Many accidents are attributed to carelessness in the water. The surf attracts millions with available floodings, to venture some individuals go out too far. Inland lakes, ponds and rivers provide their victims, with non-swimmers occasionally getting into deep water with fatal consequences.

Accidents take a terrible toll of life in this country every year. It is well, therefore, to caution everyone about the dangers that lurk in water, known as well as unknown. Parents, who read this article, might permit it to remind them to give a warning to their children, with particular emphasis upon the need of caution in the water.

Each election year, at this time, the politicians continue to say they alone can save us from worse fates than those which have overtaken us since the last election.

WATCH FOR THESE SYMPTOMS

IT MAY—OR MAY NOT—BE POLIO

CALL YOUR DOCTOR PROMPTLY

If it is Polio, get in touch with your local chapter of THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

HERE ARE SYMPTOMS OF POLIO listed by the National Foundation for Infantile Paralysis. They may—or may not—mean polio. Call your doctor and then, if help is needed, contact your local chapter of the National Foundation. When polio is around, these precautions are recommended: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay in cold water too long or sit around in wet clothes. Avoid becoming chilled. Always wash hands before eating.

The wise woman looks before she marries and overlooks afterwards.

A bachelor is a guy who doesn't believe it is unlucky to postpone a wedding, so long as you keep on postponing it.

SOIL CONDITIONS ARE IMPROVED DESPITE DROUTH

Soil improvement through the use of legumes and a seed improvement program including the principal crops produced in the state are listed by the agronomist for the Texas Agricultural Extension Service as major achievements for 1951.

Their annual reports shows that despite the severe drouth, Texas farmers plowed under for soil improvement 1,513,398 acres of legumes with an estimated value of more than \$15 million. A total of 44,452,400 pounds of legume seed were harvested and their value was in excess of \$5.5 million. Principal seed crops were sweet-clover, hairy vetch, alfalfa and singlary peas.

The agronomists report that last year's hybrid corn contest was somewhat on the record smashing order. Nine out of the 15 prize winners had included legumes in their crop rotation. Eight contestants in Red River County produced in excess of 100 bushels of corn an acre. The 165.4 bushels produced by Harold Watkins, a 4-H boy, say the agronomists was the highest officially recorded yield ever made in Texas. His contest acre was planted on land where Austrian winter peas had been plowed under the year before and he used liberal amounts of fertilizer.

Reports received from the counties show that a total of 49 adults and juniors produced more than 100 bushels of corn per acre last year.

Demonstrations were used to show the value of foundation and certified planting seed. In 1941 when seed of adapted Texas corn hybrids first became available less than one percent of the corn acreage was planted to hybrids. In 1951, 65 percent of the Texas corn acreage was planted to hybrids. The increased production from the 1,546,000 acres planted to hybrids in 1951 was estimated at five bushels per acre over open polli-

The National Cotton Council reported the pattern is available for children six months to one year.

nated corn and at \$1.50 per bushel amounted to \$11,590,000.

The agronomists credit several practices with increasing corn yields in the state including the use of legumes and fertilizers, closer spacing of the plants, improving cultural methods and of course planting adapted corn hybrids.

County agricultural agents last year supervised demonstrations involving Comanche, Westar, Quantah, Wichita and Triumph wheats; Mustang, New Nortex and Fultex oats and Wintex, Texan and Coliad barleys. The new Coliad barley in early tests has shown much promise as a grazing crop in south Texas. The newer varieties of

DON'T LET FLIES ROB YOU OF DAIRY PROFITS

Purina Dairy Spray is a contact killer and repellent against stable flies, horn flies, house flies, mosquitoes and many other insects. Killing action is maintained for several hours after application. It's good for milk-room use, too.

Purina Lin-Dairy Spray The government approved Lindane for spraying in and around dairy buildings. Effective for flies, lice and sarcoptic mange mites. Applied under pressure, Purina Lin-Dairy Spray gives lasting control of several weeks.

grain sorghums Redbine 60 and 66 and Combine kafir 60 were widely used by farm demonstrators. Golden and B-2851 were the commonly used varieties of flax tested.

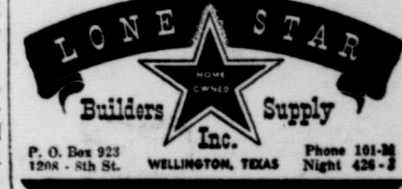

A tabulation of all county reports show that 6,114 field crop demonstrations involving 378,484 acres were completed during 1951. The increased value of the crops produced on these demonstration acres over crops produced by non-demonstrations in the same acre was set at \$9.5 million. That increase, points out the agronomists, was due to the use of better seed which gave higher yields and better quality crops, liberal use of fertilizers, improved cultural and harvesting practices and the soil improvement work already done by the demonstrators.

4-H club boys, 3,113 of them, conducted field crop demonstrations on 19,185 acres and produced crops valued at almost \$1.3 million.

A Model's Life Takes In The Kitchen Routine

Patricia Stevens, who discovers gorgeous girls for magazine cover pictures and advertisements, reports that her slickest chicks are wives and mothers who come straight from the family wash to their modeling assignments.

"We'd had some criticism that our models, in the washing machine ads, were too pretty and well-groomed to pose as believable home-makers," said Miss Stevens. "So I ran a survey and found that, first, most of my models are married; second, most of them do their own washing; and, third, that the girl whose picture had been responsible for most of the criticism had come to the studio directly from finishing a two-weeks washing for her family of four."

Easy These Days

With all the new push-button appliances, Miss Stevens pointed out, the days when mother wound up looking as if she, too, had been put through the wringer have vanished with the scrub-board and starch boiler.

Miss Stevens' championing of domestic glamour elicited swift support from M. R. Wilson, sales manager for Thor Corporation, who said he intends to give away a \$39.50 cosmetic kit to every woman who buys a washer.

One Touch of Glamour

"Today's modern home-making tools should give every woman enough time to cultivate her beauty, and—if she has the natural attributes—to earn extra income from modeling," he said.

"Of course, we can't guarantee that an automatic washer and a good cosmetic kit can make every woman a successful model, but they certainly will add feminine glamour around the house—and for this, husbands, too, will be grateful."

Professional model and model-homemaker — Joyce Thoresen plays both roles beautifully! As Mrs. Jack Curran she does all of her housework, the family wash and the care of son, Michael, 22-months old.

N. D. Ware, Jr. Is Graduate From A&M

Nicholas Ware, Jr. of Wheeler was among nearly 1,300 Aggies receiving undergraduate—or advanced degrees May 26 in spring commencement rites at Oklahoma A&M college, Stillwater.

He earned a B. S. degree in Commerce. He completed his work in January.

Graduates, including those who completed their work in January, received diplomas from Dr. O. S. William, A&M president. The commencement address was delivered by Dr. W. Earl Armstrong, an Aggie who is now serving in Washington with the Federal Security Agency's Office of Education.

Commencement Monday morning followed a round of traditional events on the Stillwater campus Sunday, including the annual alumni reunion dinner, a reception honoring seniors and their

parents, and the baccalaureate services.

Ware was unable to attend the graduation exercises in person.

New WSCS Officers Installed At Meeting

Installation of officers in W.S.C.S. for the coming year was conducted by Rev. Darra Egger, pastor, Monday, May 26.

The organization will meet only the first Monday of July and August.

Meetings through June are to be held in the member's homes. Mrs. Dorsey Hutchison will be hostess June 2.

Recommendation was made that a request be made for the assistance of the church at large in increasing the interest and attendance of W.S.C.S. Plans were made to recruit every Methodist woman as an active member of W.S.C.S. The harvest is white—the laborers are few.

Antidote for That Stain
the Turn of This Dial

A quick spin and glance at her Thor Stain Removal Guide turns this homemaker that the way to remove gum from a boy's shirt is: "Chill with ice till gum rolls into ball, then scrape off with a blunt knife. Sponge with carbon tetrachloride. Wash in warm suds."

How, how can I ever get that out? Such is the familiar cry of the homemaker, disconcerted by the latest blot upon some of the family wardrobe or the family linen.

Realizing this, the Thor Corporation has devised a "spinner removal guide" as a time-saving, fabric-saving and money-saving first aid for the spotted and stained garment.

The guide is in a compact and handy spin-dial form and is simple in construction and simple to operate. It gives the method for the removal of 26 household-variety stains such as: cream, fruit juice, alcoholic beverages, soft drinks, bubble gum, egg, nail polish, lipstick, mercuriochrome and even stains resulting from junior's attempt to make a bat-

ton stand at the back fence. For example, to remove blood stains, the homemaker first spins the stain removal guide to the type of stain and there appears in a "window" on the dial the following prescription:

"Soak fresh stains in cold water until stain turns light brown. Wash in warm suds. If stain is stubborn, add 2 tps. of ammonia to each gallon of water used and soak 15 minutes. On colored material, test ammonia solution on inconspicuous portion of colored material before using. Wash."

The stain removal guide is available for 10 cents, which sum goes to meeting the cost of handling and mailing, upon written request to Department WSH, Thor Corporation, Chicago 50, Illinois.

KIWANIS NOTES

By Dr. C. C. Merritt

It looks good to see all youngsters playing ball out on the new ball grounds in the park. The leaders must be things well organized. And it really makes it seem like a sure thing. We are happy about it.

With the planned program for Monday, our time will be used in discussion and by a couple of pumbers. Frank He's a good singer accompanied at the piano by his sweetheart, Glenna. It will be better. And Glenna is a sweet sweetheart.

Had six guests, J. D. Kent, Oklahoma City, an oil man, W. S. Fannon and E. Lloyd of Pampa. Now three were Wheeler. We sorta dislike to tell you they were for these should members and not just any way if I give their names. It may be that the sense

of guilt will soften them up sufficiently that their consciences may lead them in the right paths to membership in the Wheeler Kiwanis Club. But, if not, come on any time, boys, and just be our honored guests. Carroll Pettit, Virgil Jamison and Joe Rogers just happened to be their names. We enjoy all our guests. They make us very happy.

The club will have to lay the grounds for another project. What shall it be?

NOT SO DUMB

Farmer (pulling with one mule): "Giddap Pete! Giddap Barney! Giddap Johnny! Giddap Ralph!"
Stranger: "How many names does that mule have?"
Farmer: "His name's Pete, but he don't know his own strength, so I put blinders on him, yell a lot of names, and he thinks other mules are helping him."

The way to make your dreams come true is to wake up and get busy.

Sanitation is the number one item in a successful fly control program. Insecticides should be used as a supplement.

SANITATION IS NO. ONE ITEM IN FLY CONTROL

Sanitation is the number one item in a successful fly control program. Insecticidal treatment is of little or no value unless a thorough job of cleaning up all fly breeding places is done, says A. C. Gunter, entomologist for the Texas Agricultural Extension Service.

It is a known fact, emphasizes the specialist, that flies carry the germs of many diseases and with

the increasing amount of pollution in the state, it is more important than ever to get rid of the flies early.

Gunter says DDT is not giving good results, try a 2 percent chlordane household spray. It should get the flies as well as other insect pests that are bothersome in and around the house.

Premises should be kept clean at all times. Keep garbage in covered containers and be sure the lids are in place. Clean up and destroy breeding places around the farmstead and don't expect insecticides to do the entire job. They'll help, says Gunter, but there is nothing that can be substituted for cleanliness. Mix liberal amounts of sanitation with smaller amounts of

insecticides and use them to keep flies under control.

One treatment is not enough. If complete control is to be maintained, regular checks must be made to see that breeding places are not reestablished and insecticides used to get those that go visiting without an invitation. Remember, says the specialist, about the only safe fly to have around the place is a dead one and the use of insecticides and strict sanitation practices in and around the home will keep fly numbers at a minimum.

4-H club members in every section of Texas are studying shrubs and their uses as a part of their 4-H training program.

"Whoops," said Jeff with a sheepish grin. "Now I'm in for it." My favorite, if sometimes clumsy, spouse had just spilled a cup of hot coffee smack on our prize end table.

"Oh, think nothing of it," I replied airily. "You," said Jeff, "are either sick, want a new hat, or need something fixed around here. You told me you polished all your furniture today and you're not crying about repolishing the table."

"Don't need to," I answered. "If you can stand the shock, times have changed. I'll just wipe it up with a damp cloth."

Then I launched into the story of my big discovery. I had been complaining in my local grocery store about the thousand and one assorted polishes and waxes needed to keep a house shining and about the general ineffectiveness of the whole batch. The clerk introduced me to a new polish that, amazingly enough, can be applied to furniture AND porcelain AND metal AND enamel surfaces. De-Glo is the name of the new wonder-worker which protects while it polishes almost as easily as dusting, leaving a glass-like, water-repellent coating which lasts with a hand-rubbed look for months. Hot liquids as well as sticky finger prints can easily be removed with a damp cloth without removing the furniture's luster. The secret lies in the fact that the revolutionary polish contains aluminum, a compound developed during the last war and first used to protect precision instruments, to insulate delicate electrical equipment, and to waterproof ignition systems. Now I can proceed happily through every room in the house with only one bottle of polish firmly in hand, cleaning and protecting everything in sight from mahogany table to Venetian blinds, to stove and refrigerator and what have you.

The only trouble is, it's a little more difficult now to wheedle a new hat from Jeff; maybe I'll have to let him break a dish.

You ought to hear our boy sing "Shortenin' Bread." He renders it a slice at a time.

Days lost from preventable farm accidents can create a labor crisis on most any farm or ranch in the state. Don't let it happen on your farm. Warm the State Farm and Ranch Safety Committee.

Society

Mrs. Fillingim Hostess To Home Demo Club

The Pleasant Valley H. D. Club met May 21 in the home of Mrs. Willis Fillingim.

"Sweet Hour of Prayer" was sung by the group. Timely topic, "Article of our First Ladies" and those who hope to be "First Ladies", was given by Mrs. Willis Fillingim.

President, Mrs. Florence Dodd, informed the club members of decisions made at the Council meeting held Tuesday, May 20, of the county wide recreation entertainment to be at the M. K. Schoolhouse June 6. All club women and their families are invited.

Mrs. Forrest Vise, secretary, read another letter to the club from a patient in the State Hos-

pital in Abilene. She also displayed a picture of the patient.

Treasurer, Mrs. Claude Barker, displayed a nice white shirt that she had been instructed to buy for the members to send to another patient in the State Hospital at Abilene. Each club member added a gift to send. The Club voted to help cheer three members in the hospital this year.

Mrs. Perriman Martin gave a very interesting talk on the H. D. women District meeting held at Pampa April 8.

With Mrs. Forrest Vise acting as auctioneer, the club women had a very amusing auction sale. Mrs. Claude Barker acted as treasurer and reported the sale netted a nice little sum to be used for club expenses.

The Briscoe 4-H girls, Anna Dell, Evelyn and Ruth Fillingim and Carol Jean Delashaw, assisted the hostess, Mrs. Fillingim, with the refreshments that were served to: Mesdames, Perriman Martin, a guest; Florence Dodd, Claude Barker, Doyle Rogers, Tom Delashaw, Leon Fillingim, Clifford Hefley, Forrest Vise, Gaddy Vise and I. G. Fillingim.

June 4 meeting will be at the home of Mrs. Gaddy Vise. H. D. girls from the Canadian girls will assist with the entertainment. All Club members are urged to be present. Your Club needs you.

Wide Advances in Defrosting Mark Latest Refrigerators.

A push-button device for automatic defrosting in seven to ten minutes.

Technology and science are making the homemaker's tasks easier every year.

At The American Furniture Mart in Chicago, refrigerator models, more glamorous and more functional than ever, were introduced for the 1952 market.

Designed to give more interior storage space with less over-all footage, the new line offers many labor-saving devices, automatic defrosting, door shelves, butter conditioners, and even colored interiors.

Work of Few Minutes

Admiral Corporation has introduced "Flash Defrosting" in 9 and 11 cu. ft. models. This device, exclusive with Admiral, enables the homemaker to press a button for automatic defrosting in seven to ten minutes. Once defrosted the refrigeration cycle automatically begins again. This process simplifies the cleaning job, too, because the homemaker is right there to remove excess moisture and to clean out the interior.

The 11 ft. refrigerator with "Flash Defrosting" has a full-width freezer unit across the top which holds 60 pounds of frozen foods. Cooling coils across top and bottom provide extra large

surfaces for fast freezing of ice cubes and desserts.

A full-width drawer under the freezing unit provides additional low temperature space for foods or ice cubes. A removable hand-tray in the freezer drawer permits the lifting of all foods at one time. This lightweight plastic tray also may be used as a server.

Other New Things

A two-door dual-temp refrigerator also has been added to the Admiral line. This 12.2 cu. ft. model is the largest of its type, yet is only six inches wider and nine inches higher than the smallest of the new refrigerators. Seventy-seven pounds of frozen foods may be stored in its separate home freezer and in the freezer-door shelf which provides additional room for frozen juices or packaged vegetables. The unit is available with white or glacier blue interior with gold color trim, a butter conditioner and an ultra-violet lamp.

Another Admiral development is a completely automatic defrosting system which permits defrosting either day or night, whenever necessary, and automatically disposes of excess moisture.

PUCKETT'S RECIPE OF THE WEEK
By Mary Lee Taylor
Savory Pork Steaks
Broadcast: May 31, 1952

2 Tablespoons flour
1 teaspoon salt
1/2 cup Paprika
1/4 teaspoon pepper
4 slices pork shoulder steak (1 lb.)
2 Tablespoons hot fat
1 cup sliced onion

1 cup liquid off lima beans or water
1/2 cup Pet Milk No. 303 can lima beans
2 tomatoes, cut in wedges

Mix flour, salt, paprika and pepper. Pound flour mixture into both sides of steaks. Brown on both sides in fat. Drain fat from skillet. Add the onion and vegetable liquid. Cover and cook over medium heat about 45 minutes, or until meat is tender. Remove meat to warm platter. Mix rest of flour with milk and stir into skillet with lima beans and tomatoes. Heat slowly 10 minutes. Serve hot vegetables with steaks. Makes 4 servings.

LETTER TO THE EDITOR

I have been listening to the radio and have noticed that many of the radio preachers are sponsoring a movement to have a great revival throughout the Christian world beginning in October. This movement is to have the support and cooperation of all the leading orthodox denominations. This movement, I think, is and should be highly commendable. But why wait till October?

Jesus said, as recorded in the gospel of St. John, Chapter 4, verse 25, "Say not ye there are yet four months and then cometh the harvest? Behold I say unto you lift up your eyes and look on the fields; for they are white already to harvest."

It will be just fine to have a great revival in October, but October may be too late. I'm sure it will be for many of our boys who are fighting and dying in Korea. It also will be too late for many who are passing away daily without Christ and without hope in either this world or the next.

Yes, we need a revival and we need it now!

P. A. Clepper

LINE UP with BEAR

This BEAR identifies OUR STATION

FAMOUS Happy Bear is the outstanding symbol of safety inspection and correction equipment for all motor vehicles. This nationally known Bear trade-mark identifies our authorized Bear equipped stations. It is your guarantee that all safety inspection and correction work on your car will be handled carefully and accurately.

Hard steering, excessive tire wear and wander are signs of a misaligned front end. These troubles can be quickly and accurately corrected on our Bear Equipment. Drive in today for a safety inspection.

Potatoes Not Essential To Good Nutrition

By Frances B. Stanton, Home Demonstration Agent

Recommended Dietary Allowances have been set up by the Food and Nutrition Board of the National Research Council. These give a liberal factor of safety. The minimum requirements for the average adult have been estimated to be as follows:

Protein	70 gm.	Thiamine	1 mg.
Calcium	75 gm.	Riboflavin	2 mg.
Phosphorus	75 gm.	Niacin	10 mg.
Iron	10 gm.	Ascorbic Acid	30 mg.
Vitamin A	4000 units	Vitamin D	400 units

Let us see what percent of our daily requirements we get from potatoes as compared with some of our common foods. First let us take enriched white bread, which is commonly served at most every meal and then yellow corn which is used as a starchy vegetable to substitute for potatoes.

White Potatoes (1 small)	White Enriched Bread (2 slices)	Yellow Corn (1/2 c. Canned)
Protein	3%	6%
Calcium	2%	4%
Phosphorus	8%	4%
Iron	7%	9%
Vitamin A	1%	5%
Thiamine	10%	12%
Riboflavin	3%	4%
Niacin	11%	11%
Ascorbic Acid	40%	0%
Total Calories	85	181

Beans, Dried Lima (1/2 c. cooked)	Turnips, White (2 3 c. cooked)	Sweet Potatoes (1 small)
Protein	16%	3%
Calcium	5%	4%
Phosphorus	28%	7%
Iron	41%	5%
Vitamin A	1%	125%
Thiamine	28%	10%
Riboflavin	20%	4%
Niacin	8%	8%
Ascorbic Acid	0%	50%
Total Calories	184	125

The foods listed are classed as energy foods, and energy signifies work. The energy requirements is the most variable of all, for it varies according to sex, age, height, and weight of the individual, and the person's activity.

When the food eaten supplies more energy than the body expends this surplus becomes a source of fat. When the food eaten does not supply enough energy material to meet the energy expended, any reserve of body fat is drawn upon for this energy.

Right now, the scarcity of the potato may lead us to select a more adequate diet for our needs and help us to break away from tradition by putting him in his place along with rice, macaroni, and the rest of his kin.

State Maintains Staff For Your Protection

How much is a year of health protection worth to you?

How much is it worth to you to have maintained a staff of experts to control flies, mosquitoes, rats, and disease-bearing vermin. How much is it worth to conduct those well child conferences and supervise immunization in your town?

How much is it worth to you to know that your food supply is protected and that it is fit for human consumption?

How much is it worth to insure that your city water supply isn't full of contamination? Those public nurses who teach expectant mothers how to handle themselves

and their new babies—what are their services worth to you as an individual?

Would you say all this is worth more per year than the cost of a single pack of cigarettes?

That's exactly what Texans are paying for health services today—20 cents a year per capita. And there are many other services besides those mentioned.

It isn't enough to pay for the sort of health protection State Health Officer Geo. W. Cox would like to see Texans have. Out of every tax dollar collected in this state, about one cent is spent on the protection of public health.

"Too much economy in health work is dangerous," the health official cautioned.

With the expenditure of fifty cents per capita, Texas could approach the national average in this country, Dr. Cox said. As things stand today, Texas is near the bottom among the states in the amount spent for health work.

"When you cripple a health department by fund cutting, you end up with more—rather than less—expense. Money put into public health is repaid many times over in reduced sickness and lives saved," Dr. Cox said.

LEGAL NOTICE

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: I. E. Horwitz, individually and as an agent and officer of the Keystone Pipe and Supply Company; Frank Seliger, Louis Seliger, and Maurice Seliger, the latter three named persons doing business as Fanhandle Pipe and Supply Company; G. D. Davis; Mrs. H. Russel, individually and as the executrix of the estate of H. Russel, deceased; C. B. Christie; C. L. Hickman; H. L. Graham; the last three named being partners in the Christie Hickman Drilling Co., a co-partnership; J. A. Mead, individually and as Trustee for Roberts County, Texas; Roberts County, a body politic and corporate; Frank Raso; and U. M. Simon, trustee, defendants: GREETINGS:

You are hereby commanded to appear before the Honorable 31st Judicial District Court of Wheeler County at the Court House thereof, in Wheeler, Texas, at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 7th day of July, A.D. 1952, then and there to answer Plaintiffs' 3rd Amended Original Petition filed in said Court, on the 23rd day of May, A.D. 1952, in this cause, numbered 4137 on the docket of said Court and styled A. N. Williams, et al. plaintiffs, vs. I. E. Horwitz et al. defendants. A brief statement of the nature of this suit is as follows, to-wit:

OUT NOT IN

The owner of a corner saloon was sleeping peacefully at 3 o'clock in the morning when his phone rang. "What time does your saloon open?"

"Eleven o'clock," growled the saloonkeeper, slamming down the phone.

A minute later the phone rang again. The same voice asked: "What time did you say your saloon opened?"

"Eleven o'clock damn it," roared the owner, "and you won't get in a minute before."

"Who wants to get in?" asked a very hurt voice. "I want to get out."

HER MIND

A woman may turn to anything she pleases, foaming suds at a wash tub, may compose a poem for the family irons. A dust cloth is helpless to keep thoughts on dust cloud in the bluest of her living room.

Last year Texas had under more than a half acre of legume their soil improved. They harvested 44,000 of legume seed from left for seed crops both was in excess

Church Directory Attend the Church of Your Choice Sunday...

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are making religion a character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

© Williams Newspaper Features
P. O. Box 211, Ft. Worth, Tex.

Who can measure the length of a thought! Especially the thought of a child! A good thought is like the acorn, which becomes the Live Oak tree, which may live for a thousand years. Some thoughts are much longer than that. Aristotle urged upon men the 'golden mean,' and many business men today are following him; he lived three hundred years before the beginning of our era. The decalogue, or Ten Commandments, are long thoughts about how women and men should live. Perhaps the thoughts stirring in this child's mind have been dropped there by a parent or by a teacher or by a neighbor. Isn't it rather wonderful that you and I can start a train of thinking and of living, in a child, that may go on forever? How long is "forever?" That is how long some thoughts are.

Can you remember a word spoken to you in the long ago? Some of us treasure what seemed a chance thought passed to us by a careful teacher many years ago. When the soil is right and a mind is eager to know, seeds are precious. Have you learned a lesson that you count of great value? Do you wish that someone had passed it to you when you were young? Then why not do for some other child what you wish had been done for you? Would you not like to live forever in the esteem of another? Perhaps the child is our opportunity for some worthwhile immortality. Help her leave for posterity some long thoughts. What a pity that a good thought or a bit of wisdom we have garnered through many years should die with us! It does not need to die. The child near you is the good soil into which you may drop the good seed thought. "A sower went forth to sow." Every woman and every man is a sower. Is the seed good that we sow? What will the harvest be for the thoughts we are putting into the minds of retentive childhood? Your thoughts and mine may become inspiring or discouraging thoughts to these precious persons that we love. Is it important then that we think straight, clean, sweet, kind, loving thoughts? These should be long thoughts. Attend your church regularly.

WHS Class Of

(Continued from Page 1)
Dorothy Esslinger Holdeman was married in June following the graduation. She now lives in a newly constructed home on South Main St.

Neil Laycock worked at Clay Food Store for awhile and is now helping his dad with the farming. J. T. Johnson married Edwina Brown early last fall and is engaged in farming and ranching west of town.

Sue Farmer Mize now lives in Okla. and is employed with the telephone company there. Charlotte Weatherly is an employee at the Wheeler Times.

Martha Hastings and Garland Parks have attended college at W.T.S.C. at Canyon for two years and both plan to continue their education there next term. Gene Hubbard also attended college at W.T.S.C. before entering the Army. George Hibbitts has attended college at Abilene Christian College, Abilene since graduation.

Margaret Holdeman Weatherly wound up her high school career with the highest scholastic average in the class but did not qualify for the valedictory award because she had not attended high school at Wheeler the full four years.

Emogene Reid Zybach was chosen valedictorian of the class by reason of her average being the highest average of any member of the class who had attended school at Wheeler during their entire high school career.

Joann Richerson Frye was chosen salutatorian of the '50 graduating class of Wheeler High School.

Baby Davis Brown, who makes her home in Shamrock where she is employed, was the first girl to receive the Babe Ruth Sportsmanship Foundation award here.

Corby Robertson had the honor of being presented with the first Babe Ruth Sportsmanship Foundation award for a boy in the Wheeler High School.

Wheeler Loses

(Continued from Page 1)
Yampool was safe on a fielder's choice which scored Pettit and got Cain coming into third. Chester Bowles then cleaned the bases with a tremendous triple. Red Richerson was purposely passed. Even Pete Burton grounded out second to first to end the inning.

WHITWORTHS ATTEND FALL STYLE SHOWING

Dallas, Texas, May 26, 1952. Mr. and Mrs. Lee Whitworth of Wheeler, Texas attended the Fall and Back to School Fashion Market of the American Fashion Association in Dallas during the week of May 25 to 30.

More than five thousand buyers from seventeen states filled the Dallas hotels to capacity during the five day event.

The high light of the week was the presentation of "The Seven Keys to Fashion" by the Dallas Fashion Arts, Inc. Two breakfast clinics were staged in the Grand Ballroom of the Adolphus Hotel, on Tuesday, May 27 and Wednesday, May 28. More than 1000 lines of women's and children's wear were displayed in the Adolphus, Baker and Blue Bonnet Hotels.

Commenting on the importance of fashion in apparel selling, Mrs. Evelyn Lambert, General Chairman of the Fashion Clinic said: "The merchant who deals in apparel now realizes more keenly than ever before that fashion is the major weapon to be used in conquering competition. Easter sales forewarned that customers are drawing purse strings a shade tighter. This trend was observed by manufacturers who have gone all out to give merchants something new to present, with closely priced values. Fashion then becomes the deciding factor in the eyes of the customer. Fashion thrives on change and will not be standardized. The question as to whether or not fashion will be a good investment for the merchant, and which will cost him money because of an impulsive decision in favor of a silhouette that didn't strike the fancy of enough customers. The question looms bigger than ever for fall 1952, because this is a vintage year when the seven new fibers discovered since nylon have been spun into miracle blends. Furthermore, the threat that the American woman isn't going to buy unless she is offered something new enough to be genuinely exciting, has placed more pressure on the imagination of creative talent."

Review Club Entertains Families With Picnic
The Thursday Review Club members and their families enjoyed a picnic at Gageby Creek Thursday night, May 22.

Following a softball game the group ate a picnic lunch.

Present for the occasion were: Mr. and Mrs. Earl Barnes and family, Mr. and Mrs. Carroll Pettit, Mr. and Mrs. Bob McNeil and family, Mrs. Doc Williams and son, Mrs. Cecil Richerson, Jr. and daughters, Mr. and Mrs. Harvey Wright, Mr. and Mrs. J. C. Howell and daughter, Mr. and Mrs. Gene Hall, Mr. and Mrs. Roy Ford and son, Mr. and Mrs. Thurman Rives and family.

Wheeler Whisperings
By J. C. Howell

We had a nice quiet meeting of the Wheeler Chamber of Commerce out at Nora's Cafe last Monday night, and when we say quiet we mean just that because there wasn't enough of the members out there to cause very much fuss. There were only three retail merchants on hand, Grainger McIlhany, Frank Wofford and Carl Laffin; one service station man, Jack Garrison; two public utilities men, Watson Burgess and Max Willey; one doctor, C. C. Merritt; the mayor, R. H. Forrest; and the officers, C. B. Kirk, J. C. Howell and Tom Seay.

Some have refused to pay their dues in the organization because they say it don't do anything or they want to know what it is going to do before they pay in; so they were given a chance and invited to come out and help plan the work of the organization for the rest of the year, but how many of them showed up. We believe that if merchants are going to do business in a town they should want to see it grow so their business would grow and we know that if a town grows there must be some effort put forth on the part of the people who make it up. One of the best ways to put forth effort to try to make a town grow and thrive is to subscribe to and help your chamber of commerce.

We are going to make our debut as a softball played Friday night, if you really want to see a show come out and watch it.

Wreck Victims Reported To Be Improving Nicely

According to a report from Dr. Harold Nicholson at the Wheeler Hospital all three of the victims of the head-on auto collision which occurred Sunday night, May 18, are improving nicely with one of them having already been released, a second probably to be released Friday and the third doing fine but due to be confined to the hospital for quite some time due to the nature of her injuries.

Don Powell was released last Sunday. Johnny Carlton is probably due to be released Friday and Mrs. Don Powell is improving but must be confined to the hospital for several weeks due to the nature of her injuries.

GENEROUS HUSBAND

"I believe my husband is the most generous man on earth." "How's that?" "Well, I gave him a dozen of the loveliest lies for Christmas, and he took them right down and gave them to the Salvation Army."
