VOL. 37

BIG SPRING, TEXAS, FRIDAY, JUNE 19, 1942

NO. 36

## Menace To U.S. Is Reduced For Time, Stimson Asserts

WASHINGTON, June 18 (AP)—Secretary of War Stimson said today the losses inflicted on the Japanese in the Pacific had temporarily but substantially reduced the threat of an attack on the Pacific coast which he has repeatedly said might be expected.

War and navy department information is, he said, that the Japanese thus far had made only a "very small landing" in the Aleutian Islands off Alaska but he stressed that fog and unfavorable weather obscured developments in the North Pacific.

## New Soldiers To Get Plenty Of Practice

WASHINGTON, June 18 (AP)—Four months of intensive war time field maneuvers, stressing desert and jungle fighting and joint operations by air and ground forces, will open for a large portion of the expanding army July 15.

Secretary Stimson announced this schedule today. Six army corps, each of two or more divisions, will undergo the training, in the south and west.

Aimed at providing "the most thorough training ever developed for American troops," the maneuvers will help condition troops "both mentally and physically for the job that lies ahead," the war secretary said.

The schedule for the maneuvers, Stimson said, was arranged so that use of air and armor forces would not conflict in the different areas. Only more seasoned troops will take part.

The schedule:  
Second army corps, July 15-September 6, Carolina area.  
Eighth army corps, August 3-September 20, Louisiana area.  
First army corps, August 17-October 11, Carolina area.  
Seventh army corps, August 24-October 18, desert training center.  
Third army corps, September 14-November 8, Camp Forrest, Tenn.  
Fourth army corps, September 21-November 8, Louisiana area.

## Efforts Renewed For Ceiling Subsidies

WASHINGTON, June 18 (AP)—The administration today renewed efforts to obtain legislation permitting payment of government subsidies to keep price control ceilings intact in the face of rising production and transportation costs.

Senator Brown (D-Mich) said he would confer with Price Administrator Leon Henderson and Secretary of Commerce Jesse Jones next week on a bill designed to permit the government to help finance the production and distribution of certain vital commodities, such as sugar, gasoline and coal, that otherwise could not be sold in some areas at a profit.

## TRIALS TO RESUME

BELIN (From German Broadcasts), June 18 (AP)—France's Riom war guilt trials are expected to be resumed in about two months according to dispatches from Vichy today.

## Bergen Really Can Afford To Pay Charlie 75c Week

PHILADELPHIA, June 18 (AP)—Edgar Bergen, who lives "dumpty" friend, Charlie McCarthy, has been pleading for an increase in a

## Axis Uses New Rocket Bomb

LONDON, June 18 (AP)—Axis planes participating in the great sea-air battle in the Mediterranean this week were reported today to have employed a new type rocket bomb characterized by technical authorities as the most important innovation since the introduction of the magnetic mine.

Some experts went so far as to say that because of its terrific penetrating power and high potential accuracy the new weapon might result in development of a technique that would supersede dive-bombing.

The rocket bomb reported used by the axis planes, described as the aerial equivalent of a high caliber artillery shell, apparently is similar to bombs which Russian Stormovik aircraft recently have been reported employing with great effect against Nazi tanks on the eastern front.

Self-propelled, the new bombs are attached to the under side of the wings and are aimed by pointing the plane's nose directly at the target.

When discharged they leave a trail of sparks like the tail of a comet.

**Where Allies Struck**—British convoys which fought through to Malta and Tobruk under heavy axis air and naval attacks delivered necessary supplies for considerable cost. London announced, despite engagements with Italian air and naval units. In one engagement an Italian naval force, sighted south of Taranto and attacked (1) by U. S. bombers and RAF striking (white arrows) from Malta and Africa, was turned back with heavy losses. Another Italian force south of Pantelleria (2) was hard hit by Royal Navy torpedo planes and the RAF.

## War Expenditures Now At Rate Of Billion A Week

WASHINGTON, June 18 (AP)—Budget Director Harold D. Smith revealed today that America's arms factories are rolling so fast now that government war expenditures have climbed to approximately \$1,000,000,000 per week.

"That shows," he said in an interview, "how we are going into action against the axis."  
The accelerated pace of war production, Smith continued, "assures our hitting on the nose our estimate of \$35,000,000,000 of war expenditures for the fiscal year which ends this month."  
He said the pace also made possible his estimate that \$70,000,000,000 would be spent for war in the coming fiscal year.

Treasury expenditures for war purposes alone, Smith explained, have climbed steadily from \$409,400,000 in the week before Pearl Harbor to \$844,100,000 last week.

The \$1,000,000,000 a week pace not only is the biggest spending figure in American history, but it also overshadows every other belligerent's cost. Sir Kingsley Wood, chancellor of the British exchequer, said yesterday that his country was spending \$337,000,000 a week. German, Russian and other totals also are lower although exact figures are not available. Foreign money totals, however, are not necessarily comparable to American figures because of differences in resources and price levels.

Not counting about \$6,000,000,000 of other federal expenses that have to be paid for, the current fiscal year's war costs will be about twice as big as all federal tax revenues, estimated by Smith at \$12,700,000,000. Sales of war bonds and regular government securities finance the balance.

## Added Excise Taxes Slated

WASHINGTON, June 18 (AP)—A sales tax was conceded by its advocates today to have only an outside chance of approval as the house ways and means committee began putting the finishing touches on a tax bill which probably will produce about \$6,650,000,000 in new revenue.

Hoping to end its work in a week, the committee still has to vote formally on a sales tax and two other subjects—a post-war credit for corporations which pay excess profits taxes, and withholding of individual income taxes at the source.

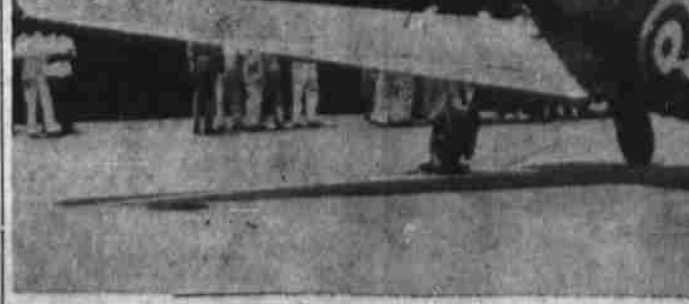

The administration was reported to be exerting terrific pressure against what sales tax sentiment remained in the committee, and one of those who has been advocating it to make up the difference between the present bill and the treasury's revised \$8,700,000,000 tax goal observed "it looks like we're locked."

The current committee trend toward increased selective excise taxes instead of a general retail sales tax was emphasized yesterday when the bill's total revenue from that source was boosted \$408,000,000 to \$711,000,000.

The largest gain approved tentatively was a 5 per cent tax on transportation of freight and express by common carriers, estimated to produce \$300,000,000.

## FRENCHMAN WOUNDED

VICHY, France, June 18 (AP)—State's Attorney Falk was wounded seriously yesterday afternoon by the explosion of a package which was handed to him just as a court session opened at Beaune. Authorities blamed someone bent on personal vengeance.

**Messerschmitt 'Bombards' New York**—This Nazi Messerschmitt, piloted by Major Elmer McKesson of Richmond, Va., "bombed" New York with leaflets urging the purchase of war bonds. Here, it is at LaGuardia airport after the flight. The plane, bearing swastikas but also RAF markings to prevent erroneous identification, was brought to the U. S. by England, where it was shot down. The pilot was killed and the plane landed safely and was salvaged.

## REDS AT SEVASTOPOL, BRITISH IN LIBYA FACE GRAVE THREATS

### U. S. Bomber Command For China Set Up

Col. Caleb Haynes Is Chief; Japan's Invasion Unchecked

CHUNGKING, June 18 (AP)—Col. Caleb V. Haynes has been appointed chief of the American bomber command in China, it was announced today.

Just where and when the new American force would go into action naturally was a military secret.

(It was not disclosed what force would comprise the American bomber command in China. There have been reports that United States air units and personnel had arrived there, but these were without confirmation. Already operating in China are Big Gen. Claire L. Chennault's Flying Tigers—the American volunteer group with the Chinese air force—but these are scheduled to be taken back into the army air force July 4).

Col. Haynes recently led personally the aerial evacuation of Burma. While stationed in India as commander of the Assam-Burma-China ferrying command, he repeatedly risked his life to fly gasoline to the American volunteer group of fliers in Burma and bring out refugees and military personnel.

The news from the China fighting front again was dark. Chinese headquarters acknowledged that Japan's invasion armies now had seized all but 60 miles of the 460-mile Chekiang-Kiangsi railway which feeds supplies into the heart of China.

This offensive is an important part of the Japanese campaign to tighten their cordon around the still free regions of southern China and thereby strangle Gen. Chiang's war-time capital at Chungking.

Informed Chungking quarters said they believed Japan might attack Russian Siberia before the summer is over, but declared that at the moment the Japanese were concentrating on reinforcing their air strength in the China and Burma theatres.

Chinese army intelligence reports indicated that Japanese had now massed 500 planes in Burma—perhaps for an attack on India or on far southwest China—and had increased the number actually in China to 800.

### 3,000,000 Dutchmen To Be Transferred

MOSCOW, June 18 (AP)—A German plan for the transfer of 3,000,000 Dutchmen to Nazi-occupied districts of eastern Europe is part of a vast scheme for resettlement of the conquered peoples with the aim of opening choice areas for Germans and weakening resistance to the forces of occupation. Tass reported in a Geneva dispatch today.

### War Bond Prize For Top Rubber Collector

COLEMAN, June 18 (AP)—A \$25 war bond, purchased by the Lions club, will be the prize for the individual who brings in the most scrap rubber from this county. Here were the collection figures reported Thursday noon: Gulf Oil 1,400, Humber 2,600, Sinclair 1,000, Magnolia 1,000, Phillips 100, Cosden 2,855, Texaco 5,622. Howard County Refining Co. 11,180, Firestone 800, Charles Morris (scrap dealer) 18,436.

To participate in the urgent rubber salvage campaign, take your old rubber goods, whatever character, to your service station and sell them for a cent a pound. If you wish to give the rubber, stations may accept the gift on behalf of any of four war-time relief agencies, or leave beside your garbage can so that the city may collect and convert to civilian defense funds. Boy Scouts of troop No. 3 (call 2020) and No. 7 (Alex Belkirk at 2000) also are collecting.

### Ft. Worth Base For Air Corps Supply

FORT WORTH, June 18 (AP)—Selection of Fort Worth as the administrative center for a supply system for United States army air forces based in six southern and southwestern states was announced yesterday.

## GERMANS PUSH INTO PORT'S INNER RING; BRITONS WITHDRAW

By ROGER D. GREENE, Associated Press War Editor

Grave new threats to the British armies in North Africa and the Russian defenders of Sevastopol were reported today as the German high command asserted that Nazi troops had driven into Sevastopol's immediate defense ring and had split the British Libyan armies into two parts.

A bulletin from Adolf Hitler's field headquarters said the German siege armies storming Sevastopol, the last big Soviet stronghold in the Crimea, had captured Fort Maxim Gorky and driven within two miles of the harbor entrance.

The communique described Fort Maxim Gorky as "the most modern and strongest bastion of the whole fortress."

While the Germans pictured the great Black Sea citadel as crumbling under the battering of shock troops, bombers and big siege guns, Soviet dispatches declared that close artillery fire had thrown back wave after wave of tank-led Nazi attacks.

"The enemy attempted by every means to break through our defense, but failed," said Pravda, official newspaper of the communist party.

"All enemy attacks were successfully beaten off with heavy losses. . . . Even tanks did not help the Germans; they retired, being unable to stand our artillery fire. . . ."

Besides capturing Fort Maxim Gorky in the main fortifications north of the city, the axis assault forces also drove back stubborn Red army troops on the southern fortifications, the Hitler command said.

In the Libyan desert struggle, British imperial headquarters acknowledged that British troops had withdrawn from two key defense points at Sidi Rezegh and El Adem.

The German high command said the British forces had been split into two parts.

One part has fallen back on Tobruk, while strong German and Italian tank formations are pursuing other British forces fleeing in the direction of Bardia, the high command said.

Sidi Rezegh is 25 miles southwest of Tobruk and 60 miles from the Egyptian frontier; El Adem is 18 miles due south of Tobruk.

An Italian war bulletin disclosed that aerial reconnaissance disclosed the British were beginning a general withdrawal toward the Egyptian frontier.

Last year, the British withstood eight months of violent siege at the Mediterranean coastal fortress until relieved by a new expeditionary force striking out of Egypt.

The Reuters (British news agency) correspondent at Cairo, headquarters of Gen. Sir Claude Auchinleck's imperial command, said Tobruk was "practically surrounded," with the coastal road the only route left open to the east.

Despite axis armored supremacy, the British declared they still maintained superiority in the air. The setback at two vital points on the half-moon front apparently meant that the British were now falling back on Tobruk's main defense works, where British Tommies, Australians, New Zealanders and Indian troops made history with their stand against axis siege armies last year.

The fascist command said axis warplanes were blasting at British troops and lines of communications between El Adem and the Egyptian border, apparently seeking to prevent the arrival of reinforcements from the east or a retreat from the area toward Egypt.

On the Kharkov front, Soviet dispatches said new attacks in Field Marshal Fedor von Bock's week-old offensive were bloodily repulsed.

"The enemy left 600 men killed on the battlefield, nine damaged tanks and a large quantity of arms," a Soviet communique reported. An earlier communique listed 1,500 German casualties and 15 tanks destroyed.

### Airport Outlet To Be Changed

Plans are almost complete for narrowing the entrance of the road leading from highway 80 to the airport, according to County Judge Walton Morrison.

At present the entrance is much wider than needed, and the action is being taken as a money saving measure. By keeping the road entrance up to its present width it would be necessary to purchase potential business property.

Blueprints of the proposed plans have been turned over to the state highway department and property holders along the right of way have been consulted.

No further action has been taken concerning the new road by Sento Mountain to the airport.

### Conference On Housing Set Monday

Chamber of commerce officials tentatively set Monday at 3 p. m. as the time for informal meeting looking toward construction of badly needed housing units here.

H. L. Willeford, Lubbock, evaluator for the district FHA office, said on a brief visit here Thursday morning, that either he or J. A. Raley, in charge of the Lubbock office, probably would be on hand to answer questions raised by would-be builders.

At the same time, chamber officials were planning to invite organizers of corporations in surrounding areas so that they may answer questions put by those interested in a similar procedure here.

Willeford said that while getting materials was always difficult in current times that he believed that "if the War Production Board went into your case and awarded you 70 housing units (as was the case in declaring the city as a 'critical' housing area), you will be able to get materials for that many units."

Should there be a failure locally to provide for the housing units, Willeford indicated that other builders in the territory were anxious to come in and install as many of the units as possible. One concern, he ventured, had materials on hand to build some 30 houses.

Local lumber companies had materials for around 30 to 35 houses, a survey showed.

## Mexico Helps In Sub Search

By The Associated Press

News of aid to the United States in the war on axis submarines came from Mexico City today, with the announcement that Mexican patrol planes are scouring the Gulf of Mexico and the Pacific under orders to "sink on sight" all providing undersea boats.

While the officially-announced toll of ship sinkings since Pearl Harbor remained at 376 in the Atlantic and adjacent waters, Gen. Robert Fierro, chief of Mexico's military aviation, said: "Our pilots are winging far out to sea, searching for the enemy everywhere. We have no news of any encounters yet, but our fliers hope it will not be long before they have an opportunity to fire their machine guns and loose their bombs against an enemy."

Mexico declared war on the axis powers three weeks ago.

Fierro said 12 modern patrol planes have reached Mexico in recent days and already are in service. Acknowledging difficulty in obtaining more ships speedily from the United States, he said Mexico is expanding its own manufacturing and repair facilities.

The torpedoing of an unidentified allied merchantman was disclosed late last night with the landing of 14 survivors at an eastern Canadian port.

## Safety Class Exams July 6

Nine more class meetings remain before final exams in the industrial safety class being held evenings at the high school under direction of King Sides.

Final tests will be taken on July 6th and those in class who successfully pass the course will receive certificates from the sponsor college, Texas Tech.

The course, which is sponsored jointly by the United States office of education and the Department of Labor through the national committee for conservation of manpower, includes 32 lessons. There are ten men and two women enrolled and meeting each Monday, Wednesday and Friday at 7:30 o'clock.

Visits to several plants including an oil mill, printing office, creamery, airport, high school, highway warehouse and machine shops have been made during the class for inspection and study of safety methods.

Lessons in the course include study of safety movements, the psychology of safety, safeguarding machinery and correct lighting. The enrollees studied machine maintenance, house-keeping, protective clothing and equipment and eye injuries. Study of explosives, electrical hazards, health diet and first aid are all included in the course.

### Draft Signup May Be Done In Advance

Arrangements have been completed for advance registration of 15 and 16 year old youths who will not be here on June 30 for the fifth nation-wide selective service registration, Bruce Frazier, chief clerk for the local board, said Thursday.

### Club Objectives Discussed At Kiwanis Meet

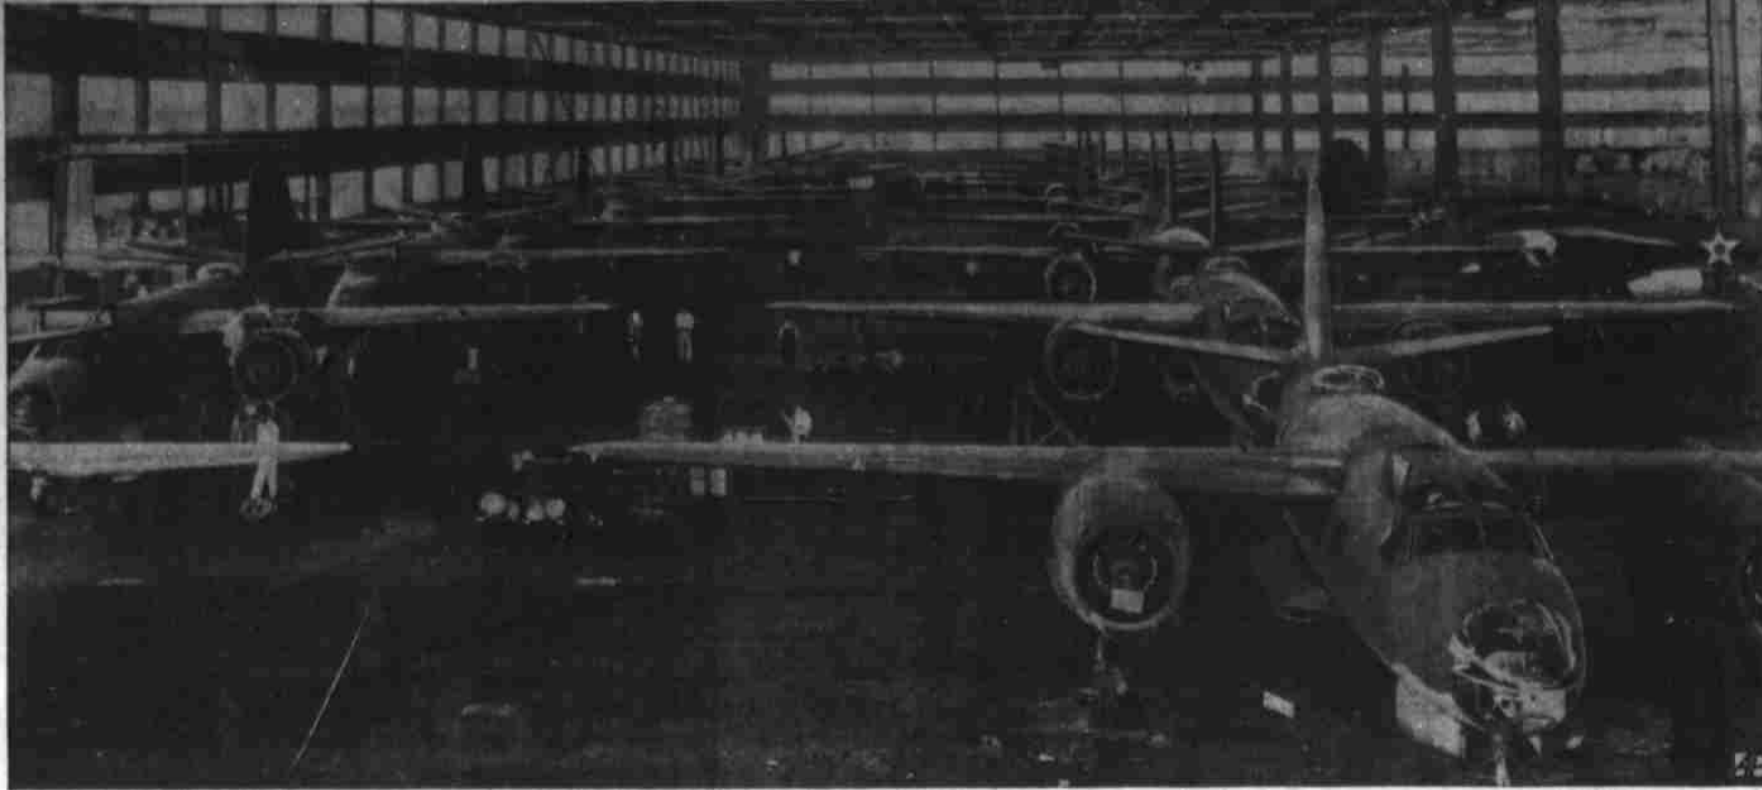

Scope of the Kiwanis objectives was disclosed Thursday at club members staged a Kiwanis education program in which six brief addresses were heard.

### Local Officers At Angelo Parley

Five local officers were in San Angelo Thursday to attend a law enforcement officers clinic conducted by the Federal Bureau of Identification.

### Wayne E. Hamilton Succumbs Here

Wayne E. Hamilton, 16, succumbed Wednesday night in a local hospital. He is the grandson of R. O. Marrett of El Paso.

SIGHT FOR ALLIED EYES TO SEE—Powerful Army B-26 medium bombers are getting their final touches at a Baltimore plant of the Glenn L. Martin company, which is under mass production in a speed-up for defense.

### B. L. Petty Is Death Victim

Benjamin Lee Petty, 78 years old, succumbed at a local hospital Thursday morning following a nine months illness.

Mr. Petty was born December 28, 1863, in McKinney, Collin county, and came to Howard county in 1890.

Eight grandchildren survive, including Cecil Mason and Ocie Mason, Mrs. Thelma Sheppard, J. W. and Nelson Lee, L. J. and Murray Lee, and J. C. Petty, all of Big Spring.

Five stepchildren survive and will be here for the funeral services. These include H. C. Stalcup of Lubbock, L. E. Stalcup of California, E. T. Stalcup of Colorado City, Mrs. M. L. Hayworth of Big Spring, and Mrs. Edna Wilkinson of Big Spring.

### Here 'n There

Take it from Pvt. Robert Winlow, Co. E, 36th Armored Reg., Ft. Knox, Ky., the armored force is the swiftest place in the service.

After several years of disuse, Hillcrest swimming pool is being refilled. St. Terras is to operate the pool and said it would be ready for swimmers this weekend.

Men who miss out or who are too old to qualify for aviation cadet still have a chance to become glider pilots, Sgt. Troy Gibson, army recruiting officer, reminded Thursday.

Word from Private Hugh Dunagan, who is now stationed temporarily at Fort Sill, Okla., is that he is liking the army all right and has met a lot of swell fellows at the camp.

### USO Is Near \$4200 Quota

Ben LeFever, county chairman, Thursday issued what he hoped would be "a final appeal" to contribute to the USO fund.

Some funds came in from outlying sections where it had been collected but not reported. The chairman urged that if there were more like this that it be sent in immediately.

Steadily the renewed traffic enforcement campaign is bearing fruits. This week 18 traffic tickets have been paid in city court.

C. E. Talbot reports that their son, Elmer Talbot, who is in Panama, says things sometime get mighty wet there for a West Texas boy.

Selective service board members—George White, chairman, T. C. Thomas and H. C. Hooser—have received certificates of appreciation for their services.

### Another Call For Negro Selectees

Another call for negro selectees during July has been received by the Howard county selective service board, it was announced Thursday.

Thus far, the board has been fortunate in having negroes volunteer to fill quotas, said Bruce Frazier, chief clerk, who was hopeful that this quota would prove no exception.

The U. S. uses about 9,000 tons of cigarette paper a year.

### Weather Forecast

U. S. Department of Commerce Weather Bureau

WEST TEXAS—Quite warm again this afternoon and tonight; widely scattered thunderstorms in extreme north portion of Panhandle.

### Public Records

Building Permits Myrtle Baibes to move a box house from outside the city limits to W. 4th street, cost \$35.

### Mrs. Neill Brought Home From Dallas

Mrs. Florine Neill, daughter of Mrs. D. B. Cox, was brought to Big Spring Wednesday by Nalley ambulance from Dallas where she has been critically ill in the Medical Arts hospital.

### Farm Marketing Income in 1941

was about ten billion dollars, a substantial increase over 1940's.

### THE MORE GRAIN INCLUDED IN THE COW'S RATION, THE MORE MILK THE COW PRODUCES.

### Sea Fight Reported Near Colombia

BOGOTA, Colombia, June 18 (AP) Newspapers here printed reports today that cannonading was heard last night off the Colombian coast and they expressed the belief that United States destroyers were battling axis submarines.

### Eleven More Days On Ceiling Lists

FORT WORTH, June 18 (AP)—Retail merchants have only 11 more days in which to file their price ceiling lists covering more than 400 "cost of living" commodities.

### Cowper Clinic And Hospital

Mrs. M. H. Dubrow of Foran underwent major surgery Tuesday night.

was about ten billion dollars, a substantial increase over 1940's.

### THE MORE GRAIN INCLUDED IN THE COW'S RATION, THE MORE MILK THE COW PRODUCES.

### Living Costs At Standstill

WASHINGTON, June 18 (AP) — Price Administrator Leon Henderson reported today that, for the first time since November, 1940, the steady rise in living costs had come to a standstill—actually, declining slightly—and he credited the government's over-all ceiling on retail prices.

Henderson declared that a special survey of 21 cities, made by the bureau of labor statistics for the period from May 15 to June 2, showed that "if we are really serious about it, the battle against inflation can be won."

From the outbreak of the war in Europe until imposition of the general maximum price regulation May 18, the cost of living had climbed 17 1/2 per cent, his office said.

The survey showed the greatest reported decline came in rents, which OPA reported had dropped 13 per cent as the result of or in anticipation of rent freezing regulations.

Clothing prices also declined 1-2 of 1 per cent while food prices increased 2-10 of 1 per cent. The ceiling prices must be backstopped, Henderson said, by a reduction in consumer buying power, including increased savings, more purchases of war bonds, higher taxes, and stabilization of wages and farm prices.

### Cowper Clinic And Hospital

Mrs. M. H. Dubrow of Foran underwent major surgery Tuesday night.

Mr. and Mrs. E. B. Rogers are parents of a daughter born Wednesday.

A son weighing eight and a half pounds was born to Mr. and Mrs. C. C. Brewster Wednesday.

Master Lynn Lawler, son of Mr. and Mrs. O. W. Lawler, underwent surgery Thursday morning.

Mrs. J. T. Irwin has been admitted for medical care.

### Sea Fight Reported Near Colombia

BOGOTA, Colombia, June 18 (AP) Newspapers here printed reports today that cannonading was heard last night off the Colombian coast and they expressed the belief that United States destroyers were battling axis submarines.

### Eleven More Days On Ceiling Lists

FORT WORTH, June 18 (AP)—Retail merchants have only 11 more days in which to file their price ceiling lists covering more than 400 "cost of living" commodities.

These lists must be prepared by the merchants and filed by July 1 with the county war price and rationing boards, McGee said, pointing out that the two important steps for a merchant in the price ceiling program are the posting of a price ceiling list in his store, and filing of the list with the county office.

# Jap Loses 10 To Our One In Coral Sea And Midway Battles

## We'll Deliver Harder Blows, Nimitz Says

PEARL HARBOR, June 15 (AP)—American air power exacted a stunning toll of 10 Japanese men and planes for every one lost by the United States in the Coral Sea and Midway Island battles and rapidly is being bulked for even greater sledgehammer blows.

Admiral Chester W. Nimitz made the cheering disclosures yesterday aboard a fighting ship in an address to his Pacific fleet during which he urged the heroic veterans of the two titanic sea-air fights "to hold the line until our reinforcements are ready to take over."

Acknowledging that losses to United States carrier air groups have been heavy since the war opened, due to initial Japanese air superiority, the commander-in-chief of the Pacific fleet strongly hinted that the picture was changing rapidly.

Whereas the personnel on aircraft carriers had to fight on with little rest or relief in the first stages of the war, Admiral Nimitz said "it will soon be possible to organize additional carrier groups and to rotate them."

"Although we feel keenly the loss of many fine officers and men, we take pride in knowing they gave their lives to turn back grave threats to our country," he declared.

"We can take satisfaction in the knowledge that in every meeting with the enemy since Dec. 7 his losses have greatly exceeded ours, and that in the Coral Sea and Midway actions his personnel losses were at least ten times greater than ours, and his plane losses in almost the same ratio.

"We are greatly increasing our battle strength. Our ships, planes and pilots are being added in constantly increasing numbers."

Admiral Nimitz praised the teamwork of the army, navy and marines in achieving the Midway victory, and announced medal awards to personnel of the aviation corps and the submarines.

But he pointed out that air power has played the leading role both in the Coral Sea and off Midway "and will continue to do so as the war progresses."

"The Coral Sea and Midway battles are the first in history in which great aerial duels were fought by carrier fleets," he added.

"Our air groups have proved, by their skill and courage, the superiority of our forces. They have shown that in our ships, in our planes and in personnel is the stuff that makes for victory."

## Rommel: Germany's Desert Daredevil

Wide World Features  
Blond, blue-eyed Marshal Erwin Rommel, commander of the Afrika Corps, holds Hitler's friendship, and the professional respect of British military strategists.

MARSHAL ERWIN ROMMEL

The 51-year-old fighting commander goes with them in Africa as he did in Australia, Poland and France, a gold-braced dress cap on his head, his face clean shaven, his eyes sparkling with excitement.

He is a military opportunist, clever at exploiting the breaks like a smart quarterback. He goes with his front line units in armored car, plane and motorcycle, calling signals by radio, shouting orders, spurring laggards by his energetic presence, standing erect and defiant under fire. He has been described as boastful and addicted to twitting prisoners about their bad strategy.

Rommel learned military discipline at the Danzig War Academy, became a lieutenant in the Kaiser's old Prussian army in 1910. His obvious distrust of Italian soldiers may date from 1917. Rommel chased them on horseback at Cimolais, on bicycle through Bajon Gorge, forded the Plavre river in pursuit. Captured in house-to-house fighting before Langones, he escaped and was promoted to captain.

When Rommel was put in charge of the panzer division for the attack on France, he rode inside an armored car. He found the columns tangled up when centrifugal force

slew the heavy cars around on close-clipped curves. Thereafter, under Rommel's orders, panzer drivers stuck to the middle of the road and the columns rolled smoothly and quickly without traffic jams over the Low Countries and France.

Ability to relax and two-hour naps give him an incredible capacity for hard work. Each night over a glass of red wine he plans his maneuvers and orders for the next day. Next morning he rides in the front line to see they are carried out, checking map centers and attack points from a memory as accurate as his headquarters charts.

Rommel is married, has one daughter. After soldiering, his principal interest is photography. He poses for photographs by his men and has escaped capture and death by seconds because he stopped to snap battle scenes and spectacular explosions. Although he was wounded at the Argonne in 1914, his men are turning him into a bullet-proof legend.

## Benefits For War Victims Advanced

WASHINGTON, June 15 (AP)—With full administration approval, Senator Pepper (D-Fla.) sought senate action today on a broad measure designed to provide government benefit payments for the civilian victims of warfare in the United States and its possessions, including military bases all over the world.

Despite republican efforts to narrow the measure's scope, Pepper predicted early approval by the senate in its present form.

Providing monthly cash payments for the injury, disability, death or enemy detention of civilians, the measure would establish the machinery for co-ordinated relief of wartime civilian distress on an emergency basis in areas which had suffered from bombing or other attacks.

As now provided, the widow of

a citizen killed or detained by the enemy could receive monthly compensation ranging from \$30 to \$85, depending on the number of her children.

Disability payments to injured persons would range from \$10 to \$85 a month, depending on the extent of injuries, but no payments would be made for less than one-third disability.

## Scouts Advised To Rush Applications For Summer Camp

Boy Scouts who are planning on attending the council camping expedition at Philmont Scout Ranch near Cimarron, N. M., were advised today to hurry the applications for an exploration trip while in the mountain region.

During the regular camping period, July 14-22, there is to be an exploration trip open to scouts of 15 years and over who have passed rigid physical examinations. Applications for this special trip must be in the council office at Sweetwater before July

since only 15 beds can be accommodated.

Scout officials said they anticipated that around 100 boys would attend the regular camp in the picturesque northern New Mexico country.

## BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking gross waste and poisonous waste out of the blood. They help most people pass about 2 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. This causes many aches, backaches, rheumatic pains, leg pains, loss of energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smearing and burning sometimes shows that something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will keep the 15 miles of kidney tubes fresh and free of poisonous waste from the blood. Get Doan's Pills.

## Truman Calls For Changes In WPB; Criticizes Delays

WASHINGTON, June 15 (AP)—A demand for changes in men and methods of the war production board came today from Chairman Truman (D-Mo.) of the special senate committee investigating national defense as he issued a report criticizing what the committee termed "damaging delay" in the conversion of major civilian industries to war purposes.

"The WPA has not fully measured up to this responsibility," Truman said in a statement.

He went on to say that "fulfillment of this responsibility will require a change in both the organization and personnel of some branches and divisions in the WPB."

The 22-page printed report upheld part of the charges made against WPB by Robert P. Guthrie, who resigned March 14 from the WPB executive staff with a protest that some dollar-a-year men had impeded the war production program because of private interests.

Recommending additional restrictions on business executives now serving in the war production effort, the senate committee said it believed that "the Guthrie case points to the conclusion that certain dollar-a-year men within the bureau of industry branches (of WPB) are unable to divorce themselves from their subconscious

Machine Speeds Up Aviation Exams  
WASHINGTON, June 15 (AP)—The navy has turned out a quiz machine to test aviation cadets on aircraft and ship identification.

When a control button is pressed, a question card pops out of a small window. The cadet studies the question and then presses one of a row of buttons corresponding to a variety of possible answers. A light panel flashes "correct" or "incorrect."

The cadet is scored both on the accuracy and speed of his answer.

gravitation to their own industries."

The senate conclusions differed widely from an earlier report by a house military affairs subcommittee which commended efforts of the dollar-a-year men and said Guthrie's charges lacked proof other than an evidence of sharp differences of opinion among war production officials.

## Drying Methods Listed For Food Preservation

Drying is coming back under the press of war as a means of preserving food, and farmers who are accustomed only to putting up a few shelled beans may be in for some surprises.

To begin with, food drying now is so exacting a process that the job probably will have to be turned over to the wife.

Drying today means drying. There's no limit to what can be put up—fruits, vegetables and certain cereals and root foods. Apples, pears, peaches, apricots, cherries, plums, figs, dates, berries, sweet corn, mature beans and peas, sweet potatoes, green snap beans, okra, asparagus, greens, etc., all may be stored well in this manner.

According to Winifred Jones, food preservation specialist for the Texas A. & M. extension service, the best process for drying foods now involves blanching the item in most cases. Blanching, however, is better stated as steaming, the currently favored procedure which follows washing and precedes the actual drying.

Vegetables and some fruits require this step. To prevent discoloration and loss of certain flavor, some fruits are subjected to a solution of tannic acid and some to salt and vinegar before starting drying operations.

While the sun is still perhaps the most economical means of drying food, it no longer is the only or the best. Today the washed and blanched food is placed over a heated surface, a stove plate or the oven and subjected to proven temperatures. Usually these range from 100 up to the top of 150. By starting slowly and increasing the temperature, foods dry from the inside out and the process is thus hastened.

When properly and completely dried, fruits lose their stickiness and under finger pressure tend to resume their original dried form. Well dried vegetables may be fairly accurately told by the "test."

There is an amazing loss of weight and volume. Green snap beans will shrink to almost nothingness—or 25 pounds into scarcely two and a half pounds of the dried product. Corn shrinks to bird pebble size, and beans look scarcely bigger than shot.

Consequently, space requirements for storage are small. Any small compartment that is cool and dry will do.

When the time comes for a varied meal, haul out a handful of dried vegetables and fruits, soak in water and watch for a miracle in restoration. Corn, beans and other items swell back to almost fresh fullness, resume color of freshly picked food and present fairly good flavor.

Use of soft water—of which there is extremely little in this country—works wonders in restoring tenderness to products.

Drying may not be the best method, and indeed Miss Jones says it ranks behind freezing, canning and fresh storage in quality, but when one can't get cans, jars and rubbers and sugar, then drying comes in handy. All the new tricks and short cuts may be learned from Forstilla Johnson, county home demonstration agent.

**MONTGOMERY WARD**

*We're off for a Happy Week-End!*

**OUR NEW PLAY CLOTHES ARE SO COMFORTABLE—SO GAY—AND IT'S SURPRISING HOW MUCH WE SAVED AT WARDS!**

**MEN'S SLACK SUITS**

## How To 'Stretch' Sugar Supplies In Food Preservation

By FONTALIA JOHNSON

Interest of homemakers now centers around canning of fruits and making the sugar allowance go as far as possible. Miss Winifred Jones, food preservation specialist, gives the following suggestions for "stretching" sugar.

By careful planning the homemaker can meet the needs of the family food preservation budget, despite the limited amount of sugar she can obtain. A new OPA regulation allows home canners to obtain one pound of sugar for every four quarts of finished canned fruit. An additional pound per year for each person in the family may be obtained for making jams, jellies, preserves, and fruit butters.

Stretch your sugar allowance by: Thinner syrups for canning fruits and fruit juices will have to be used; it will be necessary to dry some fruits; fewer jars of preserves and jams than usual will be made; and jelly—as the least nutritious of the list—should be made last after the remainder of the budget has been filled.

By using corn syrup or honey the limited amount of sugar can be made to go farther. Both of these can be substituted for some or all of the sugar in almost all of your favorite recipes.

Corn syrup: Corn syrup is quite good for canning because it doesn't mask the flavor of the fruit. To make a light syrup use 1-2 cup corn syrup to 1-2 cup water. Other directions in canning fruit are given in B-85, Canning Fruits and Vegetables, which may be secured from Fontalia Johnson, home demonstration agent. Corn syrup is fair in making preserves and jams when it is used with an equal amount of sugar. It is not so good for jelly because it takes longer to jelly and is then somewhat sticky.

Honey for canning: When honey is diluted sufficiently it is good for canning. About 3-4 cup of water and 1-4 cup of honey make a good syrup for canning most fruits. First, bring the water to the boiling point, add honey and stir. Again let come to good boil, remove scum and pour over fruit. Follow other directions for processing in B-85.

For preserves and sweet pickles: Honey is much better in preserves and jams than in jelly. If possible, use at least one-third sugar and two-thirds honey for preserves. Honey is especially good in sweet pickles, probably better than plain sugar.

For jelly: Honey makes a good texture of jelly. Substitute it for sugar—cup for cup. The color of the jelly is darker, however, and it takes a minute longer to cook. The flavor is in most cases strong with honey. If it is necessary to use honey in making jelly, it is best to use one-half sugar and one-half honey. Be sure to use a large kettle because honey foams considerably and there is danger of its boiling over.

Consider the cost: When bought, honey is two and one-half or three times as expensive as sugar, and corn syrup is about twice as expensive.

How to make invert sugar: A Florida experiment station scientist recommends making invert sugar to make it go farther. To do this, mix one cup of sugar and 14 tablespoons of water. Add 1-4 teaspoon of tartaric acid (which you can get at any drug store). Cover this sugar, water and tartaric acid mixture and boil gently for 30 minutes. Allow it to cool. Then you have invert sugar syrup. Each cup is equal sweetening to a cup of sugar. In other words it is about 1-4 times as sweet as the same weight in plain sugar.

Use of invert sugar: This syrup is excellent to use in canning, and it may be diluted one-half syrup and one-half water. It is also good in sweetening fruits, cereals, ice cream and beverages.

Before you throw in the sponge on this rubber deal, perhaps a "refresher" course on what contains rubber might revive your spirits.

Most households will come under some part of a list of more than three score common items, each containing enough rubber to make them worth salvaging.

Compiled by an oil company, the following list may be of help to many:

Rubber shoes, rubbers, bike pedals, fruit jar rubbers, nursing bottle caps, rubber balls, rubber bands, baby bathtubs, rubber belts and belting, rubber boots, rubber corset foundations, rubber covered cords, rubber covered wire, rubber dolls, rubber gloves, rubber heels and soles, rubber hoses (garden, gasoline, washing machine, etc.), rubber mats and

"I've worked out a budget on his salary. But he'd better propose pretty quick!"

## HERE ARE RUBBER ITEMS THAT ARE WORTH SALVAGING

flooring, rubber plugs, rubber sheets, rubber sink sets, rubber soap dishes, rubber stamps and type set, rubber stoppers, rubber tape.

Tires and tubes, rubber gaskets from drums and cans, rubber boats, rubber rain coats, rubber rain cushions, rubber hose washers, lawn mower tires, bicycle tires, hot water bags and hospital supplies, syringes, galoshes, bathing caps, rubber bathing suits, garters, golf balls, rubber collars, rubber brushes, football and basketball bladders, rubber aprons, rubber pants, rubber bands, rubber gun ammunition, rubber playthings, etc.

Welded Wedding

TACOMA, June 18. (AP)—Brrrrr! Boom! Clang! Want the wedding bells.

On the marriage license application Robert W. Harkins listed his occupation as shipfitter.

His bride-to-be, Betty Barrington, said she was a riveter.

## Farmers Urged To Cooperate In Use Of Their Trucks

The Howard county USDA war board this week urged farmers to comply with the spirit of the ODT order restricting transportation by making the best possible use of their trucks.

The board urged pooling of facilities, best possible care of equipment—especially tires, and elimination of all unnecessary driving.

Farm trucks are exempt from the office of defense transportation order requiring truckers to carry at least a three-quarters load on all return trips. L. H. Thomas, chairman of the board, explained, but farmers are expected to comply with the order voluntarily insofar as possible.

"There's no sense in several folks living in one vicinity making separate trips to town when all could have gone together," Thomas declared. "We don't intend to force farmers to save their tires and equipment by pooling facilities, but we feel that they will all do their part if they understand the situation."

## Insect Situation Not Serious In County Now

County Agent O. P. Griffin made trips through both the northern and southern parts of the county this week, investigating the insect situation in crops.

According to Griffin, the cotton flea hopper is well under control in areas visited. There are a few to be found, but they are not in sufficient quantities to cause alarm. Some of the older cotton now making squares appears to have had a slight infestation about ten days ago, but few squares were killed in the terminal bud.

Unless the lady bird beetles play out, the lice and flea hoppers can be kept down, Griffin said. He advises farmers to look over their cotton at least once a week for dead squares in the terminal bud. If there should happen to be some locality with flea hoppers, they can be controlled with dusting sulphur.

Grasshoppers in the southern part of the county, which two weeks ago were feared to be jumping a bunch of grapes. Since France no longer exports wine, South Africa vineyards prosper.

Rice is one of the main articles of diet for a large part of Venezuela's population, according to the department of commerce.

SWIM at Hillcrest—West Highway.

A TASTE—Janette Stofber, whose father owns a vineyard near Capetown, South Africa, tastes a bunch of grapes. Since France no longer exports wine, South Africa vineyards prosper.

## Rich Rubber Lode Uncovered And Chicagoans Rush To Reclaim It

CHICAGO, June 18. (AP)—City-bred prospectors excitedly dug through a rich vein of scrap rubber yesterday to work the most wealth from their claims before the vein's estimated yield of 400 tons was exhausted or their blisters broke.

The rubber lode was discovered Monday on Chicago's near North side at the site of an old rubber scrap pile that had been covered with earth after repeated fires several years ago.

News of the bonanza spread quickly across back fences. Men, women and children hurried in with picks, spades or just tough, sagger fingers to tear into the vein covering an area 50 by 100 feet and 8 feet deep.

Families staked out old claims with rotting pillars for markers. Some prospectors brought their lunches so as to waste no time.

Diggers turned up scores of rubber truck tires, each weighing 58 pounds, hundreds of inner tubes, rubber horseshoes, fire hoses, galoshes and scraps.

Two-wheeled carts, baby carriages, wagons, bushel baskets, bags and pails were used to haul the diggings to nearby gasoline stations where it was assayed and bought for a penny a pound.

The site is owned by the First National Bank which gave diggers permission to remove the rubber.

## Squatters Club Rents Quarter

WILSON, N. C., June 18. (AP)—For 10 years a group of men met from time to time in front of Harry Walls' tailor shop and talked of the weather, politics and world problems. In the winter, they sat inside. They called themselves the Squatters Club.

Walls moved away and the men, afraid a new proprietor might not like their company, chipped in and rented his shop quarters.

Now there'll be no business there except talking.

## NAZI GENERAL DIES

MUNICH, (From German Broadcast) June 18. (AP)—Major General Adolf Huesenlein, 60, head of the Nazi motor corps, died today after a long illness.

Chickens are selling in the public markets in the republic of Panama as high as \$2.50 each, the department of commerce reports.

## Tires Retrieved From Deep Canyon

PRESCOTT, Ariz., June 18. (AP)—For many years a service station disposed of old tires by rolling them into a 1,000-foot deep canyon.

Now the proprietor has hired eight boys with burros to bring them back.

They've brought up seven tons.

### Shop at Your Convenience

## Low Prices EVERY DAY

# at Safeway

*The prices in this ad are effective Friday, Saturday, Monday, Tuesday, Wednesday and Thursday, June 19th to June 25th, inclusive.*

You do not have to wait until Friday or Saturday to do your shopping at a saving. You can visit your Safeway Store any day in the week and get the same fine quality foods at the same low prices.

Why not avoid the rush and shop on the day most convenient to you?

Due to their perishable nature, dairy and farm products and fruits and vegetables are subject to price change because of market and weather conditions.

Second Prize **\$500 BOND**

And 140 more prizes—each a \$25 Bond (All prizes stated are Maturity Value)

For writing last line to this **EASY VEGETOLE JINGLE**

Since Star Lard and shortening in tin are gone till the Axis gives in—Vegetole I'll be buying, For all baking and frying.

SEE FREE ENTRY BLANK BELOW. CONTEST CLOSING JULY 12, 1942

SO LONG, PAL! I'M OFF TO JOIN OUR FIGHTING FORCES

I'LL TAKE YOUR PLACE WITH THE FOLKS AT HOME

**PURPOSE OF CONTEST:** To induce you to discover Texturated VEGETOLE, the only shortening that comes in the economical self-measuring carton!

**HOW TO WIN A \$1000 BOND!** Think of the thrill of owning a \$1000 U.S. War Bond!... your chance for real security... money that's piling up interest for you and helping Uncle Sam at the same time! It may be yours this easy way!...

**EASY TO WIN...** Get your whole family in on this big Vegetole Jingle Contest. Even a child may win. All you do for a try at the \$1000 War Bond and the 141 other prizes is to write a last line to the jingle above. It's easy, it's fun, it only takes a few minutes!

**ONCE YOU'VE TRIED VEGETOLE,** you'll find last lines come easy. Vegetole not only makes wonderful cakes and deep fried foods—it makes prize-winning pie and biscuit! And Vegetole is the only shortening that comes in a self-measuring carton. You just slice yourself a cup—or half a cup—without using a measure. Vegetole is Texturated, too—that means it's pre-creamed so it makes finer textured, lighter pastries.

**BUY VEGETOLE... AND ENTER NOW!**—Send in as many last lines as you want... just be sure each one is accompanied by the "Money-back Guarantee" seal (or facsimile) from a Vegetole carton.

**HINTS ON WRITING LAST LINES!** Read the jingle over several times, then think of all the words you can that rhyme with "in" and "tin". Use one of these words for the last word in your last line. For example: "That will simply delight slimy tin."

Send in all your last lines... The one you think can't win may bring you the \$1000 bond. Fill out and send your entry today!

**EASY RULES**

- Simply write or print your "last line" on the entry blank or on any ordinary sheet of paper. Use sufficient words to complete the jingle and make sure the last word in your last line rhymes with "in" or "tin". Print your name and address and the name of the store from which you purchased Vegetole on your entry.
- Mail to Vegetole Judge, P. O. Box 610-A, Chicago, Illinois. Your entry must be postmarked before midnight, July 12, 1942. Send as many entries as you wish, but with each send the "Money-back Guarantee" seal (or facsimile) from a Vegetole carton.
- There will be 142 prizes in this contest: 1st prize—\$1000 U.S. War Bond; 2nd prize—\$500 U.S. War Bond; and 140 prizes—each a \$25 U.S. War Bond.
- Entries will be judged for uniqueness, suitability and aptness. Decisions of the judges will be final. Duplicate prizes in case of ties. No entries returned. Entries, contents and lists thereof become property of Armour and Company.
- Any resident of the continental United States may compete, except employees of Armour and Company, newspaper, advertising agency and their families. Contest subject to federal, state and local regulations.
- All prize winners will be notified by mail approximately 30 days after the contest closes. Complete list of all winners will be sent on request after August 1.

Since Star Lard and shortening in tin are gone till the Axis gives in—Vegetole I'll be buying, For all baking and frying.

# BIG SPRING BUSINESS and PROFESSIONAL ACTIVITIES

THESE FIRMS AND INDIVIDUALS OFFER HIGHEST TYPE SERVICE AND VALUES

## Food And Service Best At Cap Rock

Food and drink that satisfies, served with the kind of friendliness that makes it taste still better, is the stock-in-trade of Cap Rock Cafe.

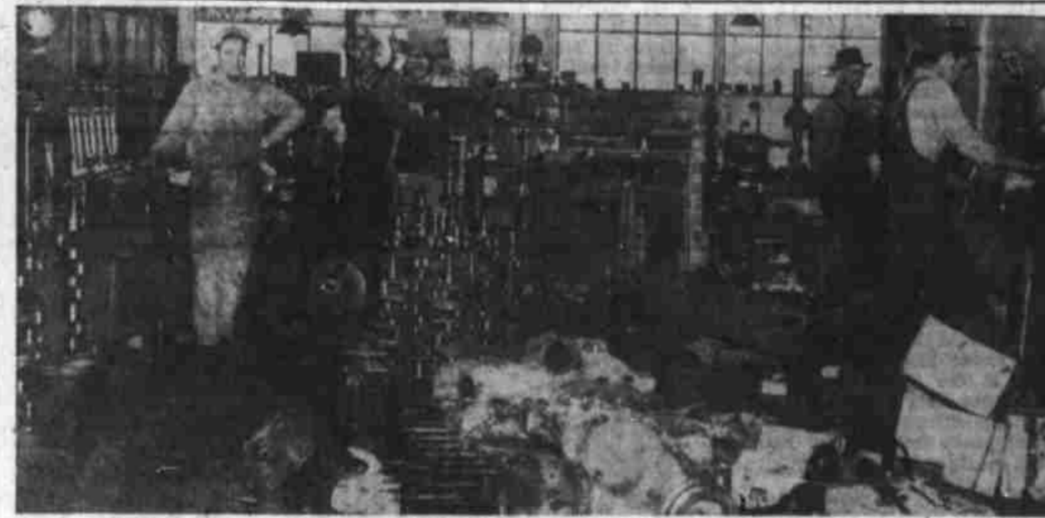

Garland E. McMahan is proprietor of this popular eating place, just at the crest of the hill on the Lamesa highway. He has been in the cafe business a good many years and knows what it takes to please the folks.

pride, but this does not mean that other items on the menu are slighted. His sandwiches have a reputation for their tastiness, and his beer is always cold. A good assortment of wine and ale is also offered.

To eat delicious food in cool, pleasant surroundings with courteous and friendly service, the public is invited to visit Cap Rock Cafe. It's open every day from 7 a. m. until midnight.

Quality Used Furniture is shown here in a view of a section of the Rix Furniture Exchange. At left is Ellis Corum, manager, and at right is L. A. Pickle. A subsidiary of Rix Furniture company, the exchange offers bargains in used and repaired furniture. (Photo by Kelsey).

Harry Lester's Specialty—Harry Lester's Auto store carries a complete line of automobiles in the same line is his well-equipped machine shop, a part of which is pictured above. Motor repairing, crankshaft grinding and brake drum turning are among the many services offered by the shop. Shown in the picture are four specialists employed in the shop, left to right: Willie D. Lovelace, Dewey Phelan, Howard Lester and David Smith. (Photo by Kelsey).

## Harry Lester Offers Many Services

Twenty-one years of the highest type of automotive service in Big Spring is the record of the Harry Lester Auto Supply house.

Not only does Lester carry a complete line of automobile and machine parts and replacements, but he operates a complete machine shop, where practically any type of mechanical work is done with outstanding efficiency.

The machine shop specializes in grinding shafts, lining and reaming main bearings, grinding pressure plates, and brake drum service.

Harry Lester Auto Supply is distributor for Perfect Circle piston rings, recognized as the highest quality, Thompson valves, pistons and chassis parts.

Auto Lite and Delco Remy ignition service are also features of their business.

In addition to these major phases of automotive service, Harry Lester carries one of the most complete stocks of smaller parts in West Texas. If anything needed in this line is obtainable, Harry Lester has it.

A force of experienced employees stand ready to assist customers in their mechanical problems.

## Working Women Favor Youth Beauty Shop

In a downtown location which appeals to working women, the Youth Beauty shop, owned and managed by Mrs. Jimmy Eason, has prospered for 13 years in Big Spring.

The shop is now located in the Douglass hotel building where Mrs. Eason moved some year and four months ago. Before that the shop was located at the old Toby store for three years.

The Youth Beauty shop specializes in permanent waving, in hair styles and manicures. But in addition to the beauty shop, Mrs. Eason has the Merle Norman beauty products agency where customers may become acquainted with the cosmetics.

The most modern equipment is used in the beauty parlor and Mrs. Eason is assisted by two experienced operators. Opal Chapman has been with the shop for two years and Mary Nell Smitherman since the first of the year.

Since so many of Mrs. Eason's customers are women who are busy working during the day, many of their appointments are made for the evening. And getting through and keeping appointments on time so the customers have no long waits, is another keystone of the success of the shop.

Mrs. Eason can point to many of her present customers who were among the first to come to her shop twelve years ago. Now they and some of their children are among the many patrons who come to the shop for their beauty work.

# Editorial - - Results Of Twin Campaigning

Collaboration of W. Lee O'Daniel, candidate for re-election to United States Senate, and Hal Collins, making his initial bid for the office of Governor of Texas, is quite comical. It is not to say an eagle, if you will excuse our French. Both are experienced radioactors, both are poets, of a sort. O'Daniel's rhyming in his rhyme while Collins relies on prose. Their joint appeal to the voters, though for different offices, will be a feature of the campaign.

Citizens in towns they visit will have to lay down their occupations but once, farmers will need to come to town only one time, to hear how these two candidates propose

to serve their country. It will be something like two chickens in every pot or two cars in every garage, though perhaps not quite equal to the three-ring circus. It is a combination that is calculated to draw crowds wherever they appear.

Real purpose of the forensic association is said to be the conserving of rubber and gasoline, a most commendable idea, and one that will have its appeal to some people. Whether this double attraction will result in votes for both men or either, will not be known until later in July, when the ballots are counted. It is an unusual association and may have some unusual

effects. Some friends of other candidates in the hectic Senatorial election assert that O'Daniel was elected by votes cast for him in West Texas, which section wanted to get him out so Coke Stevenson could be Governor. If that was true (and it is not unbelievable) how will that section vote now that the Senator is teamed with a Stevenson opponent?

That is just one of the complications that appear to be connected with the dual campaign. There will be others, which will develop as the campaign goes into the home stretch, and which promises to give Texas her usual political excitement, second perhaps only to the war.

# Heavy Demand Continues For Canning Sugar

Howard county families are putting up that food for freedom, as is evidenced by the land office business being done in the county ration board on canning sugar days.

Two days in each week, Monday and Friday, are set aside by the board to issue canning sugar, and the task has become so great that it is practically impossible for the board to carry on any other business on those days.

As workers in the office report in the morning of canning sugar days, a lengthy line of applicants invariably awaits them. The workers enter and begin issuing certificates, trying to dispense with the rush as best they can.

After two or three hours, and the line has not diminished in size, all other work is pushed to one side as the ration board workers prepare for a full day of canning sugar rationing. Not only will it take up their full working day, but often runs over two or three hours past closing time.

An exceptionally large group was on hand Monday morning, long before time for the office to open. It seems that a number of families chose to spend that Sunday afternoon of leisure getting fruits ready for canning.

Occasionally one popped up with a bandaged finger, the result of a sharp knife used in preparing the fruit for the can. Everyone was in a hurry, because that fruit just won't keep for long.

However, just as the board was all settled for the day, it was discovered that a package, supposedly containing a thousand canning sugar certificates, had something else enclosed. As the supply of certificates dwindled, the nervous tension among the workers became terrific. But there was a solution. A message was sent to the Midland board and a new supply was soon on its way.

# Vacation Bible Schools Set Attendance Mark This Year

The vacation Bible school season, now hurrying toward its climax, already has eclipsed local records for attendance, a survey of participating churches showed Tuesday.

Seven Big Spring churches reported an aggregate of 1,073 children enrolled, possibly one out of every three or four children of the vacation Bible school age.

Several other churches, including the First Presbyterian, Church of the Nazarene, North Nolan Baptist, Mission and possibly more, have their schools set for later in the summer.

More than 200 youngsters have completed their training, and well over 800 will finish in exercises set Friday when parents will view their handiwork. Several picnic sessions also are planned for the day.

The Church of Christ, with an enrollment of 122, the St. Thomas Catholic church with 49 enrolled, and the Mesley Memorial Methodist church with around 60 listed have completed their course of study.

Churches to conclude training programs this week are the First Methodist with 75, First Christian with 75, First Baptist with 144, East Fourth Baptist with 198 and Sacred Heart church with 350.

Programs are basically the same

for most of the schools - Bible study, handicraft, games, social interludes, needlecraft and other activities occupying young minds and hands.

# Highway Dept. Garden Features Giant Hibiscus

A flowering hibiscus is just one of the results that careful gardening can bring despite West Texas' arid soil. At least, out at the State Highway department headquarters, a second hibiscus has bloomed this year and the plant is loaded down with buds.

The plants were brought here from Snyder by Sam McComb two years ago and show no ill effects of being transplanted.

The hibiscus is a purple-pink in color and measures seven inches across the center which makes it unusual in size as well as beauty.

In addition to the hibiscus, the highway department's garden would make any housewife despair of her gardening efforts. Zinnias and blue bonnets and other flowers of commoner type grow just as plentifully as the unusual flowers.

The department is even experimenting with guayule, the plant that is supposed to contain a substitute for rubber. So far, the plants seem to be thriving.

The highway department keeps one man on all the time to tend the garden and lawn and bent grass yards make the department yard a beauty spot on the highway.

And in the fall, the department ought to be able to stage a chrysanthemum show by itself for one side of the garden is devoted to chrysanthemum plants.

Thousands of bewildered citizens are asking: what is behind it all? I have talked to dozens of government officials and observers, some of them guilty of contributing to these very confusions. None, perhaps, has been able to give the whole answer, but the sum of their observations certainly is part of it.

In the first place, statistical information which used to be available to the whole world is now restricted and for military reasons can not be given even to all those officials whose departments are interested.

A man who can't get hold of all the details on next weekend

# Woody Adds To Pistol Honors

STANTON, June 16 - National Champion Jesse N. Woody and the Kansas City police team managed to garner a share of the prizes in the first round of the Texas State Pistol matches at Zilker park range in Austin Saturday. Woody set the national record of 296x300 on the same range two months ago. This time he came away from the shoot with the state pistol championship of 284x300. Harold Cline, San Antonio was second with 279x300.

Woody, besides winning matches No. 1 and No. 4, was first master in the second match and in the seventh match, second master in the third match and first marksmen in the sixth match. To top that performance he led the El Paso pistol team with a score of 286 for a four man victory over the Kansas City police team which was second in the only team match of Saturday's shooting. His record: winner match No. 1 25-yard slow fire, 190; winner, twenty-five yards, .22 calibre rapid fire 200; winner .22 calibre national course, slow fire, 95x100, rapid fire 97, 292x300; 45 calibre rapid fire 193x200; .22 calibre aggregate, 881x 900; rapid fire aggregate 1060x 1200; all round championship 2954x 2700; Texas state pistol championship 284x300.

# Legion Names Five Delegates

Appointing delegates to the fifth divisional district meeting in Abilene July 11 and 12 was business for the American Legion members who met in session Monday night at the Settles hotel.

Delegates will include Charlie Sullivan, C. L. Rowe, Dale Thompson, L. B. Dempsey and Bruce Frazer.

Cliff Wiley, captain of the Texas Defense guard here, made a patriotic talk to the ex-service men. L. Batten, who is stationed here with the glider school, was a guest speaker and discussed ways and means that ex-service men could help entertain the soldiers to be stationed here with the Big Spring Flying school.

There were 20 persons present.

# Man About Manhattan - - Dempsey Knows How To Kid 'Em

By GEORGE TUCKER

NEW YORK - It's like this... A woman who will never see 60 again is having dinner with her husband and with some guests in Jack Dempsey's restaurant on Broadway... After awhile the Mauler comes in and the woman leaves her table and goes up to him... "Mr. Dempsey," she says, "will you shake hands with me? I once saw you fight when I was a little kid." Dempsey takes her hand and gallantly says, "Why, Madam, you're still a kid."

Three sailors pause in front of a studio in 6th avenue, and gaze at the photographs that crowd the windows... They are joined after awhile by a couple of soldiers and presently, they represent the snake's head of a long line of gobs and soldiers, waiting to have their pictures taken, at 10 cents a throw... These pictures are for their girls' back home, and for their families... The windows in front of the studios are all crowded now, with photographs of guys in uniform... You see wide, honest wheatfield grins... You see guys

# Washington Daybook - - CONTRADICTIONS, PLUS

By JACK STINNETT

WASHINGTON - One of the mysteries of the war effort, even to some of the most observant veterans on the capital scene, has been the many, many contradictions in official statements on almost every phase of defense.

It started as far back as the first gasoline rationing threat on the eastern seaboard, when it involved available tank cars, tankers, gasoline stocks and consumption, and a good many other statistics that Americans have prided themselves on having so accurately at their fingertips that any sophomoric economist or engineering student could add them up and get the right answer.

It spread to the shipbuilding program and the possible conversion of the automobile industry to war production. For more than a year, this wildfire of contradiction has run amok in the aluminum and rubber production possibilities.

In recent weeks the President has intimated that some solution to the tire problem may be worked out before we are reduced to running on our rims. A New Jersey manufacturer testified before a congressional committee that he had a formula for making all the recaptured tires necessary to keep all the cars in the country rolling and that formula would need only reclaimed rubber and two ounces per tire of natural rubber. Other high government officials in position to know declare that only nation-wide gas rationing will save us from a tire shortage disaster.

A friend of mine, a Washington newspaper man, wrote a book called "Confusion on the Potomac." It was published three days before Pearl Harbor. It contained political viewpoints that made it unpopular after Pearl Harbor.

He should have scrapped the book, saved the mass of conflicting statements that have been issued from the offices of official Washington since the national defense effort really got under way.

weather, even though his business depends greatly on it, is going to have to rely some on his corns or that old wound on the shinbone. To some extent, that is how it has had to be with some government officials.

In the second place, the war, production, shortages, diplomacy and a good many other things have developed too fast for even the heartiest mental digestion. Today's truths become tomorrow's errors.

No democracy has ever moved as fast as the United States is moving today. It may have to move even faster. It would be a miracle if such movement didn't create contradictions.

# Hollywood Sights and Sounds - - No Curtain For Barrymore

By ROBBIN COONS

HOLLYWOOD - He's twinkling yet. Twinkling, and taking a curtain call. With a low, deep bow and a courtly gesture, he's taking a curtain call for an unparalleled 60-year run in a great role - John Barrymore.

You don't have to be a dabbler in the metaphysical to know that. You need only to have known more that was. Proof? A picture called "Playmates," in which John Barrymore, the 'clown,' had occasion to recite a bit of Shakespeare. It was a bit of Shakespeare in the midst of clowning, of comedy. The camera caught what happened: Barrymore, the clown, cried.

The critics, some of them, called it a maudlin scene. Perhaps it was. It happened as it was filmed, and the tears were not in the script. It may be that the sequence should have been cut. But it was true, and those who self-righteously condemned the John Barrymore of the later days may still take so-

laced in it.

But I think John Barrymore, himself, if he ever saw that scene on the screen, must have passed it off with a wisecrack - or a cynical belch.

There was never a man who lived so gaily, so completely, for the shining moment. Nor a man who took the control of the actor's greatest asset, front.

The first time I saw John Barrymore he was still John the Magnificent. Nearing 60, he was still the Great Lover, the Great Profile. He paraded magnificently, in his doublet and hose for "General Crack," discouraging with dignity and never a flash of ribald humor. This was the actor playing a part, a role in which there was no room for an outsider, even John Barrymore, to intrude.

A few years later the clown, the self-debunker, the chronic creator of comedy relief headlines, had

taken over. Once I went up on the hill, to that typically Barrymorean house with its totem poles, its tropical bird sanctuary, its roamy lounge-bar full of old western souvenirs. I had been asked for lunch. There wasn't any. John explained that he'd just fired all the servants. With no more ado, and graciously, he offered to share his own lunch - which was quite liquid. It turned into a memorable interview, at which I heard most of the vast repertory of John's yarns, gleefully told, and came away with virtually nothing that was printable.

A couple of days before his death, John had been told that this was it - final curtain time. "You stay around," he told an attendant, "and I'll give you the damndest death scene you ever saw."

That was John, looking back on a full rich performance, cocking an eye at a long anticipated, unfamiliar script.

# Coloradoan Enters Officer Training

COLORADO CITY, June 17 - The first Mitchell county man to enter the service as a volunteer officers candidate is A. E. Lain, who left this week with a group of selectees for Camp Barkeley for induction.

Lain, an ex-A. & M. student and a citizen of Colorado City since 1938 as an employee of Shell Pipeline company.

His wife and child will live in Arizona until he completes his V. O. C. training.

# July Fourth Celebration Here Planned

Full observance of the nation's Independence Day on a scale in keeping with spirit of the holiday in wartime, appeared assured Saturday, with announcement from Retail Merchants association that stores consigned would close their doors on July Fourth.

The day always has been one of those on which Big Spring merchants suspend business activities, and they are planning to continue the custom this year, even though the Fourth comes on Saturday.

# Man Struck In Head, Robbed

Officers in this area were notified Monday to be on the alert for one or two men as suspects in the robbery of W. L. Hambrick here early today.

Hambrick reported to police that he was struck in the head and relieved of his car and of \$149 in cash. He described his assailant as a man about 25 years of age, weighing around 145 pounds and possessing dark hair.

# Soil Conservation Charter Received

Charter for expanding the local soil conservation district to include Midland county has been received, E. T. O'Daniel of the Martin-Howard district board reported Tuesday.

The revised instrument now shows all of Midland county in the district along with all of Martin county, all of Howard county except a notch out of the southeastern quarter which lies in the North Concho watershed, and the northwest quarter of Glasscock county.

# Moral Fitness Drive For All Nation Urged By FD

WASHINGTON, June 11 (AP)—President Roosevelt called on the nation today to engage in a concerted drive for "total physical and moral fitness," with particular emphasis on elimination of "redlight" districts in war industry areas.

In a letter to Paul V. McNutt, director of the office of defense health and welfare, the president declared that such districts contributed a major part of the venereal disease infection found in army camps and naval stations.

# The U. S. Looks Good To Him—Tom Collins Tells Of Rescue Work By Transport Plane In Far East

To really appreciate the United States, you ought to spend seven months in Africa, according to Tom F. Collins, former Big Spring man, who is now a pilot for Pan-American-Africa Ltd.

Collins, son of Mr. and Mrs. O. D. Collins of San Angelo, was here Tuesday afternoon for a brief visit. He is home on short leave of absence after seeing duty as rescue pilot in war zones.

# Service Held For R. L. Laws

Funeral services for R. L. Laws, former Big Spring youth, who met death in a traffic mishap in Chicago, were conducted at the Eberly chapel at 4 p. m. Sunday, with Byron Fullerton, minister of the Church of Christ, in charge.

# Motion Pictures To Be Shown Wardens

A special motion picture program for air raid wardens of the city and county will be held in the city auditorium June 24 at 8 p. m.

The three-hour program is to be given by the Texas Department of Public Safety. Pictures of actual bombing raids are to be shown, and the work of air raid wardens while the raids are in progress and after they are completed will be emphasized.

Industrial areas, with the full cooperation of federal, state and local governments, business and industry, the medical profession, schools, and churches.

# Fullerton To Accept Place At Sherman

Announcement was made at the service Sunday that Byron Fullerton, minister of the Church of Christ here since May, 1941, had resigned his place to accept a similar place with the church at Sherman.

The church at Sherman has approximately 1,000 members, and the move represents an advancement for Mr. Fullerton. He and Mrs. Fullerton plan to move to Sherman between the fifth and tenth of July. He will occupy the pulpit here three more Sundays.

# Warden-Firemen Course Started

Tuesday night about 30 men and women met in the city courtroom for the beginning of the second training for air raid wardens and auxiliary firemen.

# Brotherhood In Informal Meet

East Fourth Baptist laymen Monday evening "rolled and stacked" their own in an informal program that marked the regular monthly Brotherhood meeting.

Address of the evening was given by the Rev. P. D. (Dick) O'Brien, First Baptist pastor, and there were several musical numbers.

# Personal Items From Coahoma

COAHOMA, June 17—Mr. and Mrs. Ralph Davis and daughter, Patay Joe, of Goldsmith were visitors in the home of Mr. and Mrs. Vance Davis.

Mr. and Mrs. Sam McDonald and family will spend the next two weeks on vacation and will visit relatives in Walters and Colgate, Okla., and then visit her mother, Mrs. M. E. Gispie of Kaufman.

# Land Measuring Work Under Way

According to reports from the local AAA offices, land measuring work in the county has been started in several areas.

# Wheat Allotment Put At Minimum For Next Year

WASHINGTON, June 17 (AP)—The agriculture department announced today a 25,000,000-acre 1943 national wheat planting allotment—the minimum permitted under the farm law—but asked that a portion of the allotment be planted to other crops more urgently needed in the war effort.

A reduction below the allotment was asked, the department said, because the country will be going into the 1943 crop year with approximately a two-year wheat supply.

# We're Getting Ahead In War, Club Is Told

"The advantage is changing and changing fast," declared Judge James T. Brooks before the Lions club Wednesday in answer to the war question of "how are we doing."

This, the speaker warned, did not mean that the war was won, for he cautioned that it could be lost. There will be no middle ground in the struggle, he added.

# Flag Day Brings Vows Of Victory

A large crowd of Howard countyans paid homage to the Stars and Stripes Sunday evening at the courthouse lawn in a Flag Day parade and program sponsored by the American Legion and the Veterans of Foreign Wars.

A parade preceded the program at 6:45 o'clock and included the highway patrol, massed colors, drum corps, American Legion and Veterans of Foreign Wars, Texas Defense Guard, Civil Air Patrol, Red Cross, Air Raid Wardens, service clubs.

# Rites Said For Colorado Man

COLORED CITY, June 13 (SpI)—With the Rev. A. E. Travis pastor, officiating, funeral services were held at 6 o'clock Friday afternoon at the First Baptist church for Thurman Uddell Moore, 34, of Colorado City.

# Here 'n There

J. L. Miller rigged him up a power system for his bicycle using a three-quarter horse power washing machine motor. Mounted on a scrap metal frame, he attached a small tractor wheel and used some levers from a cultivator.

# Contract Awarded For P. O. Painting

Joe Steinberg, Dallas, has been confirmed as the successful bidder on the Big Spring federal postoffice building painting job. Postmaster Nat Shick has been advised.

# New Boy Scout Executive Is Appointed

Ben W. Newhouser, formerly of Hermleigh, has been selected as field executive of the Buffalo Trail council to succeed Stanley A. Mate, it was announced Wednesday from council headquarters in Sweetwater.

He will be assigned to the Snyder, Big Spring, Colorado City and Midland districts.

# Farm Labor Survey Made

Due to an expected shortage of farm labor, especially at harvest time, the county agent's office is conducting a survey this week to determine the labor needs of the county's farms.

County Agent O. P. Griffin said he had planned to send out questionnaires to the farmers and ranchers sometime in July, but decided to do so a month early after attending the selective service meeting in San Angelo this week.

# Junior Red Cross Members Aid In Rag Collection

All members of the Junior Red Cross are urged to help in a campaign collecting clean white rags, which is being started on a large scale in Big Spring.

# Building Blanks Received Here

Application blanks, only enough for copies for each lumber yard operating here, have been received as guides for anticipated new building programs.

# WAR TIME SCHEDULE CHANGE Effective Sunday, June 21st

War time activities have necessitated a slight lengthening of some of our passenger train schedules.

In most instances the change will amount to only a few minutes. In some cases schedules will be earlier, and some will be later.

# Vincent Community Reunion Called Off

Annual Vincent community reunion, customarily held on the third Sunday in June each year, has been cancelled this year.

# Land Measuring Work Under Way

According to reports from the local AAA offices, land measuring work in the county has been started in several areas.

# Wheat Allotment Put At Minimum For Next Year

WASHINGTON, June 17 (AP)—The agriculture department announced today a 25,000,000-acre 1943 national wheat planting allotment—the minimum permitted under the farm law—but asked that a portion of the allotment be planted to other crops more urgently needed in the war effort.

# Land Measuring Work Under Way

According to reports from the local AAA offices, land measuring work in the county has been started in several areas.

### Glasscock County Girl Due To Show Profit From Rabbit-Raising Hobby

Having passed the experimental stage, Miss Harry Ethel Hubbell, Glasscock county farm girl, is ready to turn her hobby into a small business with profitable promise.

It all started about two years ago. She never had any experience raising rabbits, but she decided she wanted to try this as a hobby. Unlike most folks, Harry Ethel wrote to Washington, D. C., and to other points getting all information she could about rabbits. First she secured a lone doe on July 1, 1941 at a cost of 50 cents. Since then she has increased her holdings to 10 bucks and does of the chinchilla and New Zealand hare breeds. From this bunch she sold a buck, used one for food and lost two does by death. Thus she has six adult rabbits at a cost of \$5.50. Her only other expense has been for equipment. Hutches were made from wooden boxes which she got from a grocery and scraps from a lumber yard. Hardware, cloth for bottom of the hutches and

small mesh netting to go around the hutches cost \$3.00. For water fountains she used one pound coffee cans. Food has been no item as yet, for rabbits readily eat farm products. In summer she feeds weeds, which she washes, a maize or hegarri head. In the winter Harry Ethel feeds a bundle (with heads) of sudan, or hegarri. Each week she gives the hares orange, grapefruit or lemon peelings and has found they also like banana skins and onions. Brer Rabbit, however, draws the line at a persimmon.

The easiest, as it were, is a handful of mesquite leaves. Sanitation is the big requirement in rabbit raising, according to Harry Ethel. Hutches and water cans must be cleaned daily, and the hutch should get a brisk rub with a steel wool brush. Quite frequently both hutch and can should be disinfected, and in the summer the hutch should be kept cool.

At the present, she has nine little rabbits four weeks old and figures each doe should litter four times during the year, giving her four rabbits successfully raised. Thus she ought to have 70 to 80 hares ready for the market, returning around \$35 on her capital investment of \$5.50.

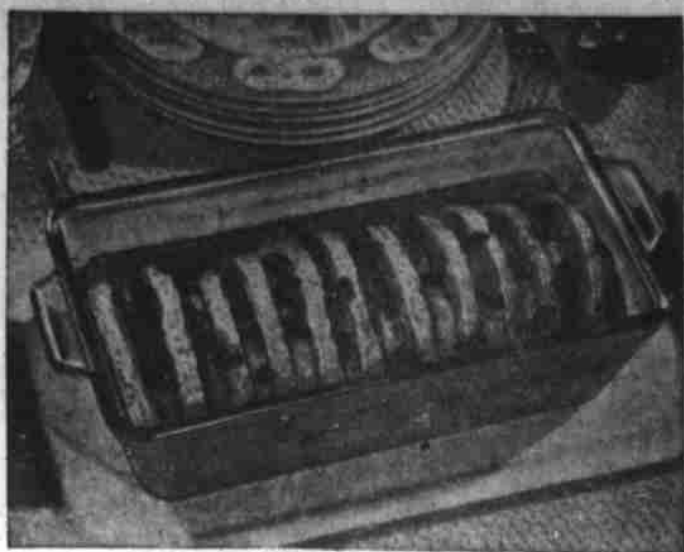

It's easy, she says, requires little time, little cost and in the absence of feed costs, ought to be encouraging to other farm youngsters.

### \$5,000 Contest Is Announced By Armour Company

Armour and company has announced the opening of "Vegetable's Big Victory Jingle Contest" with 142 prizes in War Bonds totaling \$5,000 in maturity value. The grand prize is a \$1,000 bond. In discussing the contest, one of the sales officials of Armour and company said: "The jingles are easy—and since this contest is just for the people in the Southern section of the country, everyone has a good chance to win. Somebody down here is going to get a big thrill when they win that thousand dollar bond."

Anyone can enter the contest by following the simple rules on the entry blank, which may be obtained at any store where Vegetable shortening is sold. Contestants for the 142 prizes in War Bonds are urged to get their entries in at once.

Cuba which formerly produced from 25 to 40 million coconuts annually now has a yield of only from 2 to 3 million, says the department of commerce.

## Ham 'n Pineapple

### SCORE AGAIN

ALTHOUGH ham and Pineapple have been "going together" in the hands of good cooks for years, there are still new ways to combine the traditional twosome. One of the very newest is to arrange alternate slices of juicy Canned Pineapple and cured boneless butt in a loaf pan, cover with a raisin sauce made with the syrup drained from the Pineapple, and bake until tender. It's a prize in any man's language.

In selecting a boneless butt for such a purpose, it is best to choose one that is uniformly large throughout, rather than one which is chunky at one end and tapering at the other. The largest size of Canned Pineapple Slices, which is as large as the standard size of a 2-pound boneless pork butt, will work admirably. These slices come 4 or 8 to a can, depending on the size of the container, and need only to be drained before using.

This ham and Pineapple dish capitalizes on easy service. Since the meat is sliced into serving-size pieces as part of the preparation of the dish, all the person who serves must do is to lift the slices onto the plates and spoon out the tangy, Pineapple Raisin sauce. On occasions where "the guest helps himself" is the prevailing rule, no hostess need fear that even the most unhandy guest will have difficulty in serving himself from this delicious "Slices-In-Sauce" combination. Not when it is as well-loved a flavor twosome as ham with Pineapple!

And in feeding a mixed group of

people, there is no hostess who will not feel more peace of mind because she knows that the food she has planned and prepared is as universally liked as are the uniquely refreshing flavor of Canned Pineapple and the rosy tender slices of well-cured pork. Directions for preparing the dish are given below.

### BAKED HAM AND PINEAPPLE SLICES (Makes 8 servings)

- 10 slices Hawaiian Canned Pineapple (3 15-ounce cans)
  - 1 boneless smoked butt (about 2 pounds)
  - 1/2 cup brown sugar (firmly packed)
  - 1 1/2 tablespoons cornstarch
  - 1/2 cup liquid (syrup drained from Pineapple slices and water)
  - 3 tablespoons vinegar
  - 1/4 cup raisins
- Drain Pineapple Slices and reserve the syrup. Add water to make 1/2 cup. Cut the smoked butt in slices of the same thickness as the Pineapple Slices. Arrange Pineapple and ham slices alternately in a loaf pan. Bake in a moderate oven (350° F.) for 30 minutes. Meanwhile, mix the brown sugar and cornstarch in a saucepan. Add the Pineapple syrup and water mixture and vinegar and cook until the sauce thickens (about 5 minutes). Add raisins and pour over the ham and Pineapple Slices. Bake 30 minutes more, or until the ham is tender. Serve hot.

### Dodge-Denman Outpost Below 2400 In Lime

Ray Oil Co. No. 1 Willard Road, mile north outpost for the Dodge-Denman pool in eastern Howard county, drilled ahead Thursday below 2,400 feet in lime with no shows.

This, however, was short of the pay zone ordinarily found in the area. Location is in the southeast corner of the east 80 acres of the southeast quarter of section 27-30-12b, T&P.

Reports increased that Gulf Oil Corp. was planning on another wildcat deep test on its 6,120-acre block in Sterling county. Its No. 1-C W. L. Foster, three miles south and east of Sterling City, was abandoned recently at 8,117 feet in Ellenburger, lower Ordovician dolomite, where it flowed 175 barrels sulphur water hourly when agitated. This test was in section 28-12, SPRR.

In Martin county the Magnolia No. 1 E. B. Powell, projected wildcat 7,700-foot test, was reported pushing ahead below 3,630 feet in anhydrite. Location is eight miles north of Stanton in section 18-35, T&P.

Borden county's deep test, the Ed McAdams, at No. 1 W. D. Johnson, Jr., section 35-32-15b, T&P, had restored lost rotary circulation and was drilling steadily ahead at 4,928 feet in lime.

### 10th Member Quits Legislative Post For Defense Work

AUSTIN, June 18. (AP)—The resignation of State Representative S. F. Weatherford of Kaufman was on Governor Coke Stevenson's desk today, the 10th resignation from the house since the war began.

Weatherford resigned to accept employment with an aircraft manufacturer at Long Beach, Calif. Numerous other house members have quit to enter the military service or defense work.

Special elections to fill all vacancies—including one in the senate—have been ordered for July 26, concurrent with the state democratic primary election. This was ordered by the governor in order to cut down some of the expense of a special election.

The governor has asserted the special elections do not mean that he contemplates a special session of the legislature.

### Knott Group Takes Sunday School Work

KNOTT, June 18.—Attending the Sunday school study course at the Prairie View Baptist church during the week were the pastor, Rev. Cecil Rhodes and wife and sons, Joe and Morris; Mrs. Herschel Smith, Mr. and Mrs. J. T. Gross and children, Doris and Donald; Mrs. Roy Phillips, Mrs. E. C. Sanders, Mrs. Oscar Smith and Mrs. L. J. Burrow. Rev. Rhodes and Rev. Blair Morris taught the book, "Personal Factors in Character Building." Another book will be studied at the Knott church next month.

Weekend visitors of Mr. and Mrs. Edgar Althart and Mr. and Mrs. Johnnie Althart were their niece, Mrs. Dan Dillard, and Mr. Dillard of Dallas.

Twila Frances Phillips spent the weekend with her grandmother, Mrs. J. W. Phillips, in Big Spring.

Juanita Brown, daughter of Mr. and Mrs. J. E. Brown, has enrolled for the summer semester in Big Spring high school.

Mr. and Mrs. Rainey and daughter, Mrs. E. Brown, visited Mrs. Eugenia Rainey and in the J. J. Jones home recently.

### Armored Divisions To Be Increased

DALLAS, June 18. (AP)—Major Gen. Jacob L. Devers, commanding officer of the armored forces, Fort Knox, Ky., said today that an increase in armored divisions of the U. S. army could be expected right away.

Such divisions now number eight. "There's plenty coming up," said General Devers, but any further announcement should come from Washington.

With his aide and pilot General Devers arrived late yesterday from an inspection of the sixth armored division at Camp Chaffee, Fort Smith, Ark. He said his party would go from Dallas to Camp Hood, near Temple.

### Horse Training Is Not So Simple

COLUMBUS, O. — The silent art of pulling milk wagons is a hard one to revive.

Horses are not difficult to find, according to George L. Harper, divisional engineer for the Borden dairy company, but teaching them to work between the shafts in city traffic is a patience-wracking process.

After you "learn them the old tricks" it's a problem to find wagons—and if you get the wagons you have to manufacture your own gear.

Horse blankets, harness, and nose-bags are nearly as hard to obtain as the shoes. Antique shops have been ransacked for old style oil lanterns for the early-morning milk rounds.

The dairy has assembled a weird assortment of odds and ends from junkyards and warehouses. The company is manufacturing wagons by hand, using scrapped auto wheels, hand-made shafts, and brakes forged in company shops.

Engineer Harper says the old saw, "Get a horse," is not as funny as it used to be. He can list 57 reasons why milkmen are still delivering by truck.

## New Sealing Lids

That Make Folger Coffee Jars

## Ideal for Home Canning

THESE NEW SEALING LIDS AND FOLGER JARS SAVE RUBBER, METAL AND GLASS FOR UNCLE SAM-- AND SAVE MONEY FOR YOU!

They're the new No. 63 Thrif-T-Lids... thin metal discs edged with sealed-in rubber to give an air-tight seal for pressure cooker, water bath, oven or open kettle canning. They work just like 2-piece lids you may have used. But now you buy only this one piece—and use it under the Folger cap that comes with the coffee. They're for sale at most grocers. With these new No. 63 Thrif-T-Lids, Folger jars make the most streamlined, efficient and economical canning jars in America!

Now at Most Grocers

NO JARS TO BUY. Just save and use your empty Folger jars and caps. They're the new-type coffee jars—streamlined to save glass—lighter, yet stronger and better than old-style Mason jars. And they're more attractive in design.

DON'T LET YOUR EYES POOL YOU—there's less than 1/4 inch difference in the opening of Folger's new type jar and old style Mason jars. So you can pack any kind of fruit and vegetable in the Folger jar easily and economically.

NO RUBBER RINGS, NO MASON JAR CAPS TO BUY. Instead, just place rubber-saving No. 63 Thrif-T-Lid on the jar opening. Then screw on the Folger cap (that comes with the coffee). You save that much extra rubber and metal for Uncle Sam.

Join the Thousands Changing to Folger's Deliciously Different Mountain-Grown Coffee... and Save the Jars and Caps for Canning!

You have two good reasons for switching to Folger's now! You'll not only be giving your family better-tasting coffee—but you'll also be able to can this summer in a way that will help conserve vital materials for America—and save money for you!

### Thrillingly Different Coffee!

The vast bulk of the world's coffee is lowland grown, but Folger's is mountain-grown on high volcanic plateaus where nature grows a far richer flavor and tang into the coffee berries. Flavor so much more vigorous—

many women tell us they can use 1/4 less of Folger's than of other brands they've tried—and get better-tasting coffee in the bargain!

And remember—you'll be getting these useful new-type glass jars at no extra cost when you buy your Folger's! So you'll only need the No. 63 Thrif-T-Lids for complete home canning equipment! They're for sale at most grocers—so get them without delay.

Then this summer you can do your canning in the most efficient and most economical way ever known! So start saving jars and caps now—switch to Folger's today!

Folger's coffee is 3 grades Vacuum Packed in glass jars. REGULAR, DEEP BREWED, PULVERIZED.
