Shivers vs. Johnson Issue In Conventions

The Democratic precinct conventions to be held at every voting box in Wheeler county at 10 o'clock Saturday morning, May 5, are more important than usual, and eligible voters are urged to familiarize themselves with the issues at stake.

All qualified voters are eligible to attend the conventions. At stake in precinct elections being held all over the state is the leadership of the Democratic party in Texas. The two candidates for the state chairman are Gov. Allan Shivers and U.S. Senator Lyndon Johnson.

Friends of each candidate are seeking to control the precinct conventions on May 5 the county conventions on May 8, and later the state Democratic convention which will name delegates to the Democratic National convention where friends of Senator Johnson hope to present his name as a favorite son candidate for President of the United States.

All that is necessary for a qualified voter to take part in a precinct convention is to be at the regular precinct voting place at 10 o'clock Saturday morning. Election of precinct officers, including delegates to the county convention, will be the principal business. Friends of Senator Johnson and Governor Shivers will vote for delegates pledged to support their choice of the two men.

The Wheeler County Democratic convention will be held in the district courtroom at Wheeler at 10 a.m., Tuesday, May 8.

SEASON OPENS AT LOCAL PARK SUNDAY, MAY 6

The baseball season opens officially here this Sunday afternoon at 3 p.m. when Morgans of Amarillo, invade the local park for the first home game of the season.

The Wheeler team made its first appearance of the season in a game last Sunday with Rath Blackhaws of Amarillo and were defeated by a score of 8 to 1. The Mackhaws team composed mostly of Junior College boys, were too well organized and had too much practice this season, for the Independents to handle. A spokesman for the Independents said this week that Wheeler had a good team but were lacking hits. A little more batting practice seemed to be the answer last week.

Morgan's is a team with a large percentage of Air Force players. (Continued on last page)

MUSIC WEEK BE OBSERVED HERE

National Music Week will be observed here May 6-13, according to an announcement made this week by Mrs. Lee Guthrie, spokeswoman for the four local Federated Women's Clubs sponsoring the event. A program of both vocal and instrumental music will be presented at the First Baptist Church in Wheeler on Tuesday night, May 8, she stated. The musical program will contain varied numbers which will be of interest to and appreciated by the entire audience. Mrs. Guthrie stated in inviting the public to attend and enjoy the program.

"Music Keeps Life in Tune" is the keynote selected for National Music Week to be celebrated by more than 3,500 communities throughout the United States between May 6 and 13, the 33rd annual observance.

The two main objectives of Music Week are: to stimulate year-round interest in music and music education; and to advance specific local music projects of permanent social and cultural value. The promotion of wider acquaintance with good music by the American composer has always been a basic endeavor of the National Committee.

The public is urged to attend the program at the First Baptist Church in Wheeler at 8 p.m., Tuesday, May 8.

Unofficial Returns; Water 169 to 78; Sewer 171 to 75

These unofficial returns will be canvassed at the next regular session of the city council and if they are found to be legally correct the council will proceed with the development of the improvements.

The approval of the two bond issues Tuesday by the voters of Wheeler shows an undying faith in the progress of our town. It is wonderful to live in a country where the expression of one's personal feelings can be expressed and differences settled by the majority vote of the populace of a given community.

The next step in the progress of the development is to make detailed plans of the development and submit them to the State Insurance Commission for their approval. This is necessary that Wheeler may receive full credit for the improvements in the calculation of future insurance rates in our city.

After the detailed plans have been approved they will be submitted to contractors for bids and the work contracts let. Site for the water well is now being determined.

The chamber of commerce-backed issue brought out a record vote. As a result of Tuesday's vote, civic leaders say the city of Wheeler is in a favorable position to grow and that efforts will be concentrated on attracting new residents.

WHEELER PUPILS ATTEND SHOW IN OKLAHOMA CITY

Last Thursday morning about 6 o'clock a caravan of two school buses and 16 private cars left Wheeler headed for the Atoms For Peace show in Oklahoma City. The local Chamber of Commerce had provided badges for each of the school children and adults making the trip which said, "I AM FROM WHEELER, TEXAS." These badges were worn throughout the long day at the exposition grounds.

The caravan arrived about 10 a.m. and the group wandered around seeing the sights until 11:30, at which time they all re-assembled with their assigned instructors and attended the showing of Atoms For Peace in sections of about 15 to the group. After this the girls mostly attended the style and cotton show with the boys taking in the agricultural exhibits.

That evening some of the cars and one bus returned to Wheeler with the other bus load and about half the cars remaining for the night show and the Holiday on Ice performance.

SOAKING RAIN COMES MONDAY UNANNOUNCED

Wheeler county got a soaking rain Monday night that put broad grins on the faces of farmers and stockmen, most of whom were nearing the point of desperation.

Wheeler gauges showed two and one-half inches from a steady downpour which started about 11 o'clock and lasted several hours.

Shamrock reported five inches, Kelson four inches and Corn Valley two and one-fourth. Precipitation was highest in the Briscoe area where some measurements were a low as one-half inch.

Strong wind and strong winds accompanied another downpour in Wheeler again Tuesday night when gauges in Wheeler showed from 1.75 to better than 2.5 inches of rain. Winds were estimated up to about 60 miles an hour.

Heavy hail was reported in the Twitty area around seven o'clock Tuesday night. Windows were knocked out of homes and cars were dented and windshields broken in the storm.

SENIORS CLASS PRESENTS PLAY

The Senior Class of '56 will present to the public "One Foot in Heaven," in the school gymnasium. "One Foot in Heaven" is the answer to something different for which a class and director are always looking when selecting a play for high school production. The play has enough humor, and yet such worthy theme, that it is an appealing challenge to any group.

Vigorous Rev. Spence and his gentle, attractive wife; their minister son; his pretty sister; the friendly doctor, Hartzell's sweetheart; the football captain; and his sister; and various members of (Continued on last page)

Championship play-off between the four top teams of the league to start August 19.

Wheeler Milk Prices Hiked 1¢ May First

The price of milk to many consumers went up a cent a quart last Tuesday May 1, according to an announcement made by Chapman Dairy, distributor of Borden's products in the Wheeler area.

In making the announcement, Mr. Chapman said it would apply to all grades, types of containers, and quantities.

Dance Recital To Be Presented Here

Mrs. Shelly Yates, dance instructor here, will present her pupils at the Wheeler Grade School Auditorium at 8 o'clock Friday Evening, May 11. Both tap and Ballerina dancing will be exhibited. The public is cordially invited to attend. There will be no admission charge.

MAY 6-12 SOIL CONSERVATION DISTRICTS WEEK

The week of May 6-12 is Soil Conservation Districts Week. In many parts of the country civic clubs, churches, schools, the press and others will be reminding us of our dependence on and obligation to the soil. May 6 is Soil Stewardship Sunday. At this time, we need to be reminded of the responsibilities that go with land ownership.

Not long ago, most of our natural resources were over used. A few far seeing individuals advocated conservation and proper use. The American public first became concerned about the forests. Most lumber companies followed a policy of cut over and move on. A trail of ghost towns resulted. Through the organized efforts of lumbermen associations with the help of State and Federal Forestry Services, practically all our wood products now come from timber farms. The current growth of trees on these farms is equal to or greater than the amount removed. By wise use, our timber supply is slowly growing instead of shrinking.

Conservation of soil has had the same slow growth. Scattered individual efforts have failed to produce results. Organized effort in soil conservation is little more than 15 years old. In that time, about 2700 Soil Conservation Districts have been organized. (Continued on last page)

C. J. VAN ZANDT GIVES SOIL USE

C. J. Van Zandt led the discussion at the Implement Dealers-Soil Conservation District meeting at the High School Ag. building on April 23. The subject was announced as beef cattle but the discussion was mostly on grass and pastures. The general opinion was that there is no profit in cattle without good pastures. Van Zandt pointed out that 57 per cent of this district is now in grass and about 10 per cent more should be in grass as it is not now paying the cost of operations on cash crops.

THREE WHEELER GIRLS IN SHAMROCK RECITAL

Mrs. Jack Young will present her music pupils in recital at Clark Auditorium in Shamrock Monday night, May 7. Three Wheeler pupils, Annette Hutchison, Phyllis Callan and Elaine McCasland, will participate in the program. The public is cordially invited to attend the recital.

EXPLORERS TO HOLD ACTIVITY

The Southern District will hold its first District wide Explorer activity on May 4 and 5 in Shamrock. It will be an Explorer Sports Rodeo and will have representatives from all the Explorer Posts and the Explorers in the Troops of the District. Men and boys from Memphis, Hedley, Clarendon, Wellington, Wheeler and Shamrock will participate, according to Bill Eller, District Scout Executive.

Events scheduled to take place at the Rodeo are Archery, Rifle Marksmanship, Mo-Skeet-O, Plug Casting, Cross Country Team Relay and an Obstacle Course. Most of the preparation that has gone into the setting up of the activities has been done by Jack Stone and G. P. Davis of Shamrock. Post No. 76 of Shamrock will act as Host for the event.

There is a blanket invitation (Continued on last page)

KIWANIS NOTES

Sorry we missed the notes last
 week. However it was not be-
 cause of a lack of anything to
 write about. We had 11 visitors
 including the group from Vega who
 brought us the Traveling Plaque.
 C. J. and Earl introduced Kiwanis
 Klips, a club bulletin, that we
 hope to see every second week.
 We think it was good so come
 again fellows.

The Traveling Plaque, accom-
 panied by five Kiwanis from our
 club traveled to San Jacinto last
 Thursday. Had a good interclub
 visit with that club.

Tonight is director's meeting
 and all you fellows who need a
 make-up don't forget you can get
 one by attending this meeting.
 There are several items that need
 discussion at the same time.

The Ballot Battalion functioned
 again in the election last Tues-
 day. It is good for these com-
 mittees to really do their assigned
 jobs as the more we put into
 Kiwanis the more service to the
 community the club will be.

Secretary Rives asks that com-
 mittee chairmen remember their
 monthly reports of activities.

"DRIVING THROUGH THE YEARS"
 The story of the Motor Car
CAR VALUES - YESTERDAY AND TODAY

The automobile is one of the 'best buys for your
 money' more so today than ever before

Back in 1925, a car was expected to last 6 1/2 years,
 and reach a mileage of about 25,000 miles. In 1953,
 a car would last 13 1/2 years, run 122,000 miles.

The same car in 1915 took 4,260 hours of work to buy. In
 1955 the average worker needs work only 1,300 hours
 to accumulate enough earnings for a car.

In 1915, a car could seat two people up front and three
 as a tight fit in the back seat; today, three people sit
 comfortably in any seat, have a glorious panoramic
 view through wrap-around windshield and clear
 sides.

SIX SPRING HEIFERS

Jake Allen who lives south west of Mobeetie has six spring heifers that he is sure proud of. And believe me they sure look like they will pour the milk when they come fresh. These heifers are Jake's own breeding. Mr. Allen began adding Purina Bulky Las to the heifers' feed about the first of the year and he said that it has really paid off in the condition of these heifers as well as the other cows and heifers that have freshened since he started adding Bulky-Las to their rations.

Jake is also feeding Purina Cow-Chow and Bulky Las with his home grown feed to his milking herd.

Oh, by the way! I liked to have forgotten to say anything about how well pleased Jake is about the way his cows have cleaned up after freshening, since he started feeding Bulky-Las to his dry cows and heifers. Jake likes this as well as the milk flow.

GOOD RANGE MANAGEMENT IMPORTANT TO PULLETS

Here are some hints which should help you get good pullets from the range next fall.

Weather permitting, move pullets to range when 6 to 8 weeks old. Provide at least an acre of good pasture per 100 pullets.

One 10' x 12' range shelter should be provided for each 100 birds. Depending on breed, allow for 5 to 8 inches of roost space and 3 inches of feeder space per pullet.

Be sure to provide at least 3-5 gallon founts per 100 birds. Range shelters, feed hoppers, water founts should be moved frequently to prevent concentration of droppings, thereby preventing killing of range grasses and spreading of disease.

Before using range shelters each year be sure to clean and disinfect with Purina Insect Oil to

control lice, mites and disease germs.

UP TO 3 DOZEN EXTRA EGGS BY CHRISTMAS

We say grow pullets on the tried and proven Purina Program and you should get up to 3 dozen extra eggs by Christmas Day. At 40 cents that means \$1.20 per bird or \$120 per hundred birds.

Last year more than 1,000 farm ladies received more than 60% more eggs than average during the months when prices were highest. They did it on the Purina Program.

Whether your chicks are just started or they are 4 to 6 weeks old, we urge you to inquire about the Purina Plan that will help you grow them out at little out-of-pocket cost.

HEALTH HINT

Keep a bottle of fast acting Purina Chick-R-Mycin ready to use instantly should you hear wheezing, rattles or see droopy birds. Just add to drinking water for 3 days and watch it work on CRD. Fast action keeps mortality from rising. Bloody droppings in the litter are a strong indication your chickens have Cecal Coelitis. If so, use Purina Sulf-Nox according to directions on label. Low cost but effective — another product of Purina Research.

John, the last prophet of the Bible, dreamed of a place where there would be no night. There is such a place. We live in an X-ray world. While we may not be conscious of it, a light is forever falling upon us. God's light falls upon this man. *Brother, you could not make it alone! We must have Him.* How foolish of anyone to try to walk in darkness... to walk alone. Why, you can't do it. *Even the way to church is lighted with His presence when you head that way.* God watches over His children, and doesn't that make you glad? Look at the friendly, ever watchful eye of God pictured on our one dollar bill. He is watching over the destinies of our America. He will guide the steps of His children, if they allow Him... will you?

CHRISTIANITY IS THE ROAD to the solution of the perplexing problems of the hour.

THE CHURCHES and their messages are the guide posts on this road.

THE PUBLIC SPIRITED FIRMS listed on this page urge church support and attendance—thus working toward a greater and more spiritual community in which to live and raise our families.

576,000 acres with 340,000 acres in grass, 51,000 acres of marginal land, and 185,000 acres of land either in cultivation or suitable for same. There will be no more land available in Wheeler County and the only way we can increase yields is to make better use of the land we have, Mr. Van Zandt said.

It was agreed that most of our pastures need rest and better grazing management if the per acre income is to be raised. Some of the suggestions for increasing grass cover and resting pastures were brush control, seeding temporary pastures such as sudan, seeding permanent pasture in low producing land, use of ensilage to build feed reserves and use of more hay crops.

Dr. Range of Shamrock called attention to a great increase in vitamin and mineral deficiency diseases and an increase in internal parasites caused by overgrazed pastures. A little rest for the pastures is all that is needed to control costly livestock pests, he said.

MUSIC WEEK IN SHAMROCK

Opening program of Annual Music Week in Shamrock will be a Vesper Service Sunday after noon, May 6, at 4:30 p.m. in the First Methodist Church.

The program, in cooperation with National Music Week, May 6-13, is sponsored each year by the Thursday Fine Arts Club.

Guest artists will present the Vesper program Sunday afternoon. They are Rebecca King, violinist, daughter of Mr. and Mrs. R. Y. King of Clarendon, who is a student in Clarendon College.

Margaret Heiny, of Amarillo who studied both organ and piano in St. Louis and Chicago where she was a student in Sherwood School. She has appeared in recital in St. Louis, Chicago, Modesto, Calif., San Francisco, and is many towns in Texas Oklahoma, Kansas and New Mexico. She is well known teacher in the Panhandle area.

Brent Flenniken, who is a voice teacher in his hometown of Amarillo, was the singing star in "Oklahoma," for two-and one-half years in its long Chicago run. Earlier, Flenniken appeared in other musical shows in New York and Chicago.

The program should be a rare treat, and the public is cordially invited to attend.

4-H BOYS ARE WTSC WINNERS

Wheeler County 4-H club boys were winners in several contests in the District 1 elimination that were held at West Texas State College last Saturday. The winning teams will represent Wheeler County at the State 4-H Contests during the State 4-H Round-up and judging in June.

Jerry Lackey and Garland Moort both from the Kelton 4-H Club placed first in the Dairy Demonstration contest. This is the second year in a row for these boys to win this contest.

Dale Wofford and Jim Hill both from Wheeler and members of the Wheeler County Wide 4-H Club placed first in the crops judging contest. This is the first year for both of these boys to judge on the field crops as they have been members of the 4-H land judging team.

Jim Teegerstrom of the Shamrock 4-H Club placed first in the Public Speaking contest on a speech that he wrote entitled, "Our Heritage — The Soil". Miss Katherine Harbour, speech teacher in Shamrock High School gave Jim his training in speech.

The Wheeler County 4-H rifle team placed second to the Gray County 4-H Rifle team in the rifle shooting. The Wheeler County team was made up of Malcolm Belote, Roland Miles, of Wheeler and Larry Anderson and Charlie Lang of Kelton.

The range team from Wheeler County 4-H clubs will also represent Wheeler County in the state contests and members will be selected from Roland Mills, Malcolm Belote, Bob Martin, Dean Sims, Charlie Lang and Larry Anderson, with the top four members making the team & the other two going to the Round-up as 4-H delegates from Wheeler County.

triets have been voted into being in the United States. These districts are the basis of a continuing soil conservation program. Their first job was to convince city people of their dependence on the land. It is a fact that a majority of agricultural communities are living on the produce of eroding land. The ability of this land to produce is being reduced every year. No permanent community can be built on such a shaky foundation.

How many farms in your community are improving in yield over the years? How many are producing as much as they did 20 years ago? It is good business to build roads, power lines, telephone lines and other improvements to land that is rapidly going out of production?

The results that we have already seen in other kinds of conservation prove that the job can be done. We already have proof that it cannot be done by a few individuals. The only way to make every little bit, count is to combine those bits through your Soil Conservation District.

A lot of weeks have been set aside to commemorate one thing or another. It is doubtful if any of them directly effect as many people as Soil Conservation District Week.

came the main topic of discussion during the closing bond campaign, with opposition developing before the election.

Both proponents and opponents of the measure expressed their views at the turnout of voters. It has been estimated there were more than 450 eligible voters present.

The \$110,000 bond for "improvements" and \$49,000 for sanitary improvement and extension of the sewer system was presented to the City of Wheeler by the Wheeler Chamber of Commerce which took that recently annexed territory into its sewer service as other sections of the city. Civic leaders all agreed on the necessity for expansion of the sewer service if the community was to be presently offering water service.

It was the contention of the measure that publicity was not given to be served by new sewer lines; and that study was given to effects of the measure.
