TAX HINTS

The Pampa office of the Internal Revenue Service reminded all taxpayers subject to the withholding tax today that it is extremely important for them to keep employers advised of all changes in their exemptions.

W. C. Bowen, Administrative Officer of IRS at Pampa warned taxpayers that "One of the common difficulties experienced by the Service is straightening out erroneous withholding tax certificates."

Keeping one's employer posted concerning exemption status benefits both the employer and Revenue Service, Mr. Bowen pointed out. It enables the employer to maintain accurate records in both his own bookkeeping accounts and in his payment of these taxes to IRS. The Revenue Service is enabled to make more quickly accurate analysis of the taxpayers' return.

If a taxpayer's exemptions have changed, he should obtain at once a new certificate (Form W-4), fill it out and return to his employer. This should be done immediately especially when dependency changes have an application to the current year.

Such factors, as marriage, divorce, the birth of a child or assumption of a recognized dependent may alter an individual's tax

status. Taxpayers who find that their withholding brackets does not satisfy their indebtedness may if they wish reduce or omit exemption claims to increase withholding deductions to an annual total figure approximately satisfying their tax owed. Similarly, persons with small additional incomes beyond that on which tax is withheld may follow this practice to avoid heavy tax payments at the April 15 deadline each year.

The district Revenue office will provide information for those who cannot obtain it otherwise, Mr. Bowen said.

Save Tax Headache In The Year 1957

There is no time like the present to start a procedure that will aid you with next year's income tax calculations. That is to maintain a record of your income and outgo. Such a record can be simple and brief but it may save you tax dollars and many hours of work in filling out tax forms.

The average man who works for a wage or salary doesn't have to concern himself about keeping books and records — at least so he thinks. His employer keeps a reliable record of his earnings and Uncle Sam looks primarily to the employer for information on his earnings and for the withholding of various taxes out of his wages. But whether or not you run a

Remember Me! MARCH OF DIMES MAILER today!

business for your own, you have a partner who each year is claiming a substantial interest in your personal income. And the law requires that you keep books for him in case he ever asks for an accounting.

Perhaps you own your home or are paying it out in installments. It's likely that some day you may sell that house. When you do

you'll want to be able to prove whether you realized a gain or a loss on that sale. If a gain in capital resulted, it probably will add to your income tax. If a loss was suffered, it probably will reduce your income tax.

You may have made certain capital improvements on the house while you lived in it, but unless you can show what out-of-pocket expense you incurred while making them, you may not get credit for them in your cost basis so as to prove that you had no capital gain or that you had a loss.

It may be that you are receiving an annuity on an insurance policy. If so, do you know how much that policy costs you and how much of that cost you have recovered tax-free to date?

There are many kinds of transactions you enter into that may some day affect the computation of your personal income tax. The best proof of the cost of anything you've purchased is a receipted bill or canceled check. If one of these pieces of evidence relates to any transaction that may effect your income in later years, it's a good idea to keep it. Your "partner" may some day ask to see it.

Wheeler County Soil Conservation District News

The Board of Supervisors of the Wheeler Soil Conservation District have released annual report for 1956. The district closed the fiscal year with total assets of \$8,519.52 including rental and visual aid equipment.

Engineering practices applied by district cooperators during 1956 include 1 mile of diversions, 5 ponds, 2 sprinkler irrigation systems and 52 miles of terraces.

Rangeland practices applied include 22,351 acres of proper use of grass, 19,278 acres of deferred grazing, 5,080 acres of grass seeding and 5,723 acres of brush control.

Cropland practices include 2,336 acres of contour farming, 1309 acres of cover crops, 567 acres of hay and pasture crops such as alfalfa, 115 acres of strip cropping, and 970 acres of stubble mulching. All these practices were applied for the first time in 1956. The figures do not include work done prior to 1956 and still on the land.

The Board acknowledged assistance received throughout the year from the following sources.

Financial help from the First National Bank of Wheeler and the First National Bank of Shamrock.

Assistance with the educational

program from the Implement Dealers of Wheeler and Shamrock.

Programs that promoted soil conservation by the ministers of the district and by the Wheeler Kiwanis Club.

News stories of the district carried through the year by the Wheeler Times and the Shamrock Texan.

Technical help and advice to cooperators from the Soil Conservation Service.

Financial help with conservation practices from A.C.P. and the Soil Bank.

Educational help and advice from the Extension Service.

Meeting facilities furnished by the Wheeler High School Vocational Agriculture Department.

Assistance in maintaining and looking after district equipment from Wheeler, Mobeetie and Shamrock Vocational Agriculture students and teachers and the same help from Marl Jaco.

Assistance of various kinds from

Wheeler County Veterans Vocational Schools.

Mr. and Mrs. Thomas Roy Hutton and children of Canyon, visitors Thursday, with relatives and around Briscoe.

Cliffere Sivage was a Sunday guest of Oleta Dickerson.

Walter Brannon, Smokey Dyson, Billy and George Robertson were in Briscoe, Saturday night.

Mary McCarroll spent Sunday in the home of Dorothy Reaves.

as 601 RS 610, Texas 611, Texas 620, RS 650 and Texas 660, are the best of several hundred produced and tested during the past 20 years at the Lubbock and Chillicothe stations. Tests were conducted last year throughout Texas and all have thus been grown under limited field demonstrations. The plant breeders for the Texas Station say still better hybrids with improved adaptation to various growing conditions can be expected in the near future.

Farmers are advised to plant one or more of the hybrids adapted to their areas and to make comparisons with standard varieties. Further, it is suggested, that only certified hybrid seed be planted as insurance that seed planted are correctly labeled.

Planting seed of these seven hybrids are white, but the grain produced will be red. In general, the higher the hybrid number, the later in its maturity, but none is as late as Plainsman. Yields 20 to 40 percent greater than varieties of the same maturity under most conditions can be expected. The plants show superior seedling vigor, rapid growth and uniform height and maturity. Since the hybrids have larger heads and often slightly taller than the varieties, occasionally more lodging may occur in the hybrids. Cultural practices for the sorghum hybrids are the same as recommended for sorghum varieties.

Detailed information on each of the seven hybrids is given in L-310, Grain Sorghum Hybrids. It is available from the Agricultural Information Office, College Station, Texas.

Meek, H. E. Nicholson, Sr., Shelby Pettit, George Porter, Madge Porter, Frank Walker, H. M. Wiley, Max Wiley, Frank O. Wofford, Harry Wofford, P. E. Yarbrough, and Darrell Taylor.

Mrs. Lee Guthrie Hostess To Study Club

Mrs. Lee Guthrie was hostess when The Wednesday Study Club met on January 9th.

Mrs. H. M. Wiley was director of the Driver Education program. Many common driving faults were brought out in a clever skit, "I Didn't Look," written by Mrs. Wiley. Other participants in the skit were Mrs. Frank Walker and Mrs. Cora Hyatt. The program was concluded with a quiz stressing the importance of "Knowing Your Traffic Laws" led by Mrs. T. M. Britt.

Mrs. Harry Wofford, club president, presided at the business session. Members were reminded that the sixtieth anniversary of Federation in Texas would be observed at the next meeting, January 23rd. This meeting will be in the President's home and the project will be money for Headquarters' Maintenance Fund.

The hostess served a lovely refreshment plate to Mesdames, Harold Nicholson, Jr., T. M. Britt, R. Wm. Brown, Fred Farmer, Cora Hyatt, L. C. Lafin, M. McIlhany, C. J.

LOCAL NEWS ITEMS

Mrs. Frank Hyatt was sick last week with the flu.

MOBEETIE NEWS

(Continued from page one)

Molly Seitz in the afternoon.

Lt. and Mrs. Kenneth Pierce of the Amarillo Air Base are the proud parents of a baby daughter, weighing 7 lbs and 2 ounces. The little lady has been named Carol Fayne and has a big brother Darden Wayne two and one half years of age. Mr. and Mrs. H. L. Flanagan of Mobeetie are the maternal grandparents.

A special travel program will be given by the Blue Bonnet Study Club of Thursday evening at 7:30 in the Fellowship Hall of the First Methodist Church in Mobeetie. H. S. Wilbur of Canadian will be the guest speaker for the evening, showing slides of his trip to Canada and Hawaii.

Sunday dinner guests in the home of Rev. and Mrs. Gene Grace were his parents who live in Lubbock.

Mr. and Mrs. H. L. Flanagan visited their daughter and family Lt. and Mrs. Kenneth Pierce in Amarillo, Sunday afternoon. The grandson, Darden Wayne, returned home with them for a visit.

Rev. and Mrs. Gene Grace are in Ft. Worth this week where he is attending a Baptist Conference. Mrs. Grace is visiting with relatives.

Superintendent L. R. Reaves and B. M. Rogers attended to business in Austin, last week.

Mr. and Mrs. Carl Alexander and daughter of Borger, visited the lady's parents Mr. and Mrs. R. C. Carter last week end. While here they also visited his sister, Mr. and Mrs. Lester Leonard.

Mr. and Mrs. Edgar Lester and son James spent last week end in Paducah with her mother Mrs. Tucker. Mrs. Tucker spent the holidays with the Lesters.

Mr. and Mrs. Jerry Simpson of Pampa visited their parents, Mr. and Mrs. Byron Simpson, Clinton, Jimmy and Melba Gene, and Mr. and Mrs. Willard Godwin and son Jay, Sunday.

Mr. and Mrs. K. S. Corse recently visited their son and family Mr. and Mrs. Wallace Corse, Lee, Vicki and Joe in Sunray.

Mr. and Mrs. Len Myers of Borger visited Sunday with her parents, Mr. and Mrs. S. G. Burns and his mother Mrs. Eva Myers.

Mr. and Mrs. R. W. Beck, Bill and Paula of Miami and Mrs. C. J. Trusty of Lefors, visited their parents, Mr. and Mrs. M. S. Beck Sunday. They also visited their brother and family, Mr. and Mrs. O. G. Beck and Glynda, while

here.

Alvis T. Burke who is employed at Liberal, Kans., spent the week end at home with his family. Two sons, Mr. and Mrs. Delton Burke of Amarillo and Arthur Don Burke of Pampa also spent the week end in the Burke home.

Mr. and Mrs. S. B. Hooker and son Jimmy visited in Fritch and Stinnet, Sunday. In the afternoon they attended a pre-nuptial shower in honor of Miss Margaret Martin, who is soon to be married to their son, Harold Hooker.

Mr. and Mrs. Jack Teague and son Jackie attended to business in Pampa, Saturday.

Grady W. Harris attended to business in Missouri, last week.

Mrs. Rosa Bryant went to Oklahoma City, Saturday where she will stay for a while with a niece, Mrs. Hulsey, who is soon to undergo an eye operation.

Mr. and Mrs. C. A. Dysart are visiting in Amarillo this week with their children, Mr. and Mrs. Art McPherson and Mr. and Mrs. Norman Dysart and family.

Mr. and Mrs. Jimmy Coward and baby son of Borger, visited last week end with his parents, Mr. and Mrs. Walter Coward, Sandra and Gene.

Marion Totty and Wendeli Seitz, students at W.T.S.C. in Canyon spent last week end with their parents, the Frank Totty's and C. L. Seitz.

Mrs. Herk Atkins spent three days in Amarillo last week where she was called to the bedside of her baby grandson, who was very ill in an Amarillo hospital. He has been released from the hospital and is recovering nicely, this week.

Airman and Mrs. Bobby Don Galmor and sons are visiting a few days with their parents, the Bob Galmor's in Mobeetie and the L. D. McCauley's in Whitedeer.

Mr. and Mrs. Jim Selby visited her brother and family, Mr. and Mrs. Johnny Murrell and girls, Judy and Nancy, Saturday in Pampa.

Mr. and Mrs. Raymond Williams of Amarillo, visited her mother Mrs. Susan Gary, Sunday.

Mr. and Mrs. C. R. Murrell visited Mrs. Sara Lutrel in Groom, Wednesday last week. Aunt Sara is making her home with a niece, Mrs. Juanita Meingart of that city.

Mrs. Claude Parker and her daughters Mrs. Byron Simpson and Mrs. Eugene Gudgel were Pampa shoppers, Friday.

Mr. and Mrs. B. Barham spent the week end visiting relatives in Oklahoma.

SCHOOL MENU

JANUARY 21-25

MONDAY
Ham and Cheese Sandwiches, Pork and Beans, Carrot Sticks, Cookies & Fruit and Milk.

TUESDAY
Irish Stew, Lima Beans, Celery Hearts, Relish, Corn Bread, Butter, Milk and Burnt Sugar Cake.

WEDNESDAY
Pork Roast, Cream Corn, Black-eyed Peas, Home Made Rolls, Butter, Milk and Apricot Marmalade.

THURSDAY
Chilli Beans, Steamed Rice, Crackers, Bread, Cheese, Milk and Peach Cobbler.

FRIDAY
Pork & Potato Hash, Green Beans, Cabbage Salad, Pickles, Bread, Butter, Milk and Pineapple Cake.

KIWANIS NOTES

Lieutenant Governor John Rust of Borger and W. A. Rankin of Pampa were the guests at the regular weekly meeting of the Wheeler Kiwanis Club held last Monday in Fellowship Hall.

An inter-club with the Borger Club was scheduled for Thursday, January 17. Meet at the north side of the courthouse at 4 p.m. if you can attend this night inter-club.

P. E. again provided an excellent program in the work of the Texas Game and Fish Department as brought by Richard DeArment.

Mr. DeArment gave us several enlightening facts about both the status of plant life and wild game in the Wheeler County area.

Locals

Mr. and Mrs. Alton Nations and daughters, Kay, Joan and Linda visited his parents, the O. Nations Sunday.

Mr. and Mrs. O. Lewis and Mr. and Mrs. Doc Liles had dinner with Mr. and Mrs. Dick Sherwood in Shamrock Sunday.

C. L. Laffin and wife, of Miami visited a short while in the home of his father, Carl Laffins Sunday.

Mrs. Truitt Jennings and boys visited her daughter and her par-

ents, Mr. and Mrs. W. O. Pringle, in Altus over the week end.

Mr. and Mrs. Cecil Edwards and son of Pampa, visited with Mr. and Mrs. Wayne Edwards and sons, Sunday.

Mr. and Mrs. D. O. Beene, Mr. and Mrs. Amos May, Mr. and Mrs. R. B. Mann, Mr. and Mrs. Lewis Lancaster and Katherine, and Miss Dorothy Greenhouse were guests of Mr. and Mrs. Fred Farmer at a 42 party one night last week.

One of our business men, Frar Wofford had Happy Birthday party to him Monday morning, as he came in to his place of business.

Rev. Darrell Taylor, Pastor of the Baptist Church in Wheeler, has resigned, effective January 13.

Mr. and Mrs. Charles Hubbard and family of Amarillo, were week end visitors with relatives and friends in Wheeler.

Mr. and Mrs. Ben Helton and children were visitors in Shamrock Saturday.

SAFE DRIVERS SAVE

\$...if

a bill now before the Legislature is passed. That bill is a flexible rating law for casualty (including automobile insurance).

Many economically-operated insurance companies are in a position to charge rates substantially lower than those of companies with more expensive types of operation.

Thus, it will mean that the insurance buyer can shop around and get the best buy for his insurance dollar—something he cannot now do.

More importantly, it will mean that the careful drivers will no longer have to subsidize the careless driver.

Texas Delegation In Congress To Sponsor Drouth Relief Feed Program

Members of the Texas Delegation in Congress today presented a bill for relief to the drought-stricken Southwestern Area. This bill was jointly sponsored by Wright Patman, George Mahon, Bob Poage, O. C. Fisher, Olin Teague, Omar Burleson, Clark Thompson, Homer Thornberry, Walter Rogers, Frank Ikard, John Dowdy, Martin Dies, Jack Brooks, Joe Kilgore, J. T. Rutherford, Jim Wright, and John Young. Senator Lyndon B. Johnson of Texas, Majority Leader of the Senate, introduced an identical bill in the Senate.

This Texas plan is to be outlined this afternoon in the House by the sponsoring members. The plan was outlined by Congressman Bob Poage, ranking Democratic Member of the House Committee on Agriculture, to be as follows: "This is a two-fold approach to the drought problem. As an immediate assistance, the proposal specifically instructs the Secretary of Agriculture to assist in providing protein feed concentrates (cottonseed cake). We believe that an immediate supply of protein cake is essential to the maintenance of the range herds of the pasture area of the Southwest. We think that it is far cheaper than

the feeding of hay or of grain for which assistance is now available under the present program. We base this belief on the established practice of the livestock industry of the Southwest which has for many years relied on protein cake to carry herds through the winter.

"The second section of this program is much more far-reaching and envisions an extensive Soil Conservation Program through the use of a deferred grazing program. Under present conditions the average little stockman finds his pastures almost completely denuded, but with the coming of the slightest rain, he will be under great pressure to put livestock back on whatever grass may grow. He owes money on his land; he owes the bank; he probably owes a grocery bill. He has no way of meeting these obligations except to put stock on his land.

At the same time, he knows that to stock this land before the grass has had a chance to recover from the effects of the drought will result in still further deterioration of the turf. In fact, the history of many sections of the world indicates that large areas of once productive grasslands have been changed into desert simply by over grazing pastures at a time when they needed to recover from drought.

The present disaster in the Southwest could well become a permanent condition unless we profit by the experiences of the past and provide a program which will enable the land owners to give the land a chance to recover. We believe that we have offered such a program in this bill. This bill would require the Department of Agriculture to make payments to land owners who will

agree to defer the use of their depleted pasture lands for periods of not less than twelve months. This program shall become effective immediately in the drought disaster area and shall continue for a period of three years after the drought has broken.

The bill provides for payments at the normal rental value of the land. This would enable thousands of stockmen to take the steps which they know to be sound from a conservation standpoint but which they cannot afford to take in the absence of some Government program.

"This program is offered to be of assistance to the entire Southwest area stricken by the drought, and it is hoped that all of the Members of Congress from the area will join in supporting it."

A copy of the bill is attached. **A BILL TO ESTABLISH A DEFERRED GRAZING PROGRAM AND A PROTEIN FEED PROGRAM AS PARTS OF THE RELIEF AVAILABLE TO DROUGHT STRICKEN AREAS UNDER P. L. 875, 81st CONGRESS, AND FOR OTHER PURPOSES.**

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

That notwithstanding any other provision of law, in connection with any major disaster due to drought determined by the President to warrant assistance by the Federal Government under Public Law 875, 81st Congress, as amended, the President is authorized and directed as part of the assistance provided pursuant to such Act to formulate and carry out, through the facilities of the Department of

Agriculture, a deferred grazing program in any county affected by such disaster in which grazing is determined to be a substantial factor in agricultural production. Such program shall be applicable only to land which is normally used for grazing and with respect to which it is determined that deferment of grazing is desirable for the protection of the land. Such program in any county shall be made available to farmers and ranchers immediately, and shall remain available for a period of not less than three years after the termination of such county as a major disaster area.

Sec 2. The program shall provide for payment for deferred grazing to farmers and ranchers at such rate or rates not less than the average annual rental value of grazing land in the county as will induce sufficient participation in the program to accomplish its objective, taking into consideration the grazing capacity of the land, the funds available for carrying out the program, and any other relevant factors. No payment shall be made under the program of the deferred grazing is for a period of less than twelve consecutive months, or if it is determined that a shift of livestock from the deferred areas to other parts of the farm or ranch results in overgrazing non-deferred areas. Payments to any person for deferred grazing on land in any one county shall not exceed \$5,000 for any one year.

Sec 3. The program authorized herein may include such terms and conditions, in addition to those specifically provided for herein, as are determined desirable to effectuate its purposes and to facilitate practical administration. The program authorized herein for any county shall be in addition to, and not in substitution of, other programs in such county authorized by any other law, except that no payment shall be made on the

"Look, I can use my hands again!"
 JOIN THE MARCH OF DIMES IN JANUARY

combination thereof, and in the amount recommended by the State extension service which, with other feed available will provide the minimum subsistence ration for the basic herd of livestock. The Secretary may utilize the personnel, facilities, property, and funds of any agency of the United States Department of Agriculture, including Commodity Credit Corporation, for carrying out these functions and shall reimburse the agencies so utilized for the value of any commodities furnished which are not paid for by the farmers or ranchmen, and for costs and administrative expenses necessary in performing such functions.

Mr. and Mrs. C. R. Goodrich of Oklahoma City, and Mr. and Mrs. Lou Price of Amarillo were guests of the Isaac Carter's over the week end.

Mr. and Mrs. Carl Laflin to Miami Sunday to visit parents, Mr. and Mrs. L. J. Lin who celebrated their wedding anniversary Sunday.

WILEY'S

Stop dreaming... PRICE IT!

The Chieftain costs less than a lot of the "low-priced" cars yet delivers MORE POWER - MORE WHEELBASE - MORE ROOM!

Think this big, brawny beauty would fetch a fancy figure? Not the Chieftain. It's made to order for wishful thinkers—priced right down there with the strictly budget jobs! Surprised? You'll be even more so when you look over the long list of premium features in this brilliant newcomer. Under that glamorous garb, for example, is a big, rock-rugged X-member frame, riding solidly atop a whopping 122-inch wheelbase! Cushioning each wheel is Level-Line Ride, Pontiac's new dimension in suspension, bringing you the smoothest, safest ride you've ever known. And up front is the deep-chested new 347 cu. in., 10 to 1 compression ratio Strato-Streak V-8 engine—as sweet a performer as ever came down the pike! So, come on, stop dreaming! Come in and have a look at this big and beautiful automobile's eye-rubbing price! Size it up! We're willing to wager your next step will be into a Pontiac Chieftain!

NASH APPLIANCE & SUPPLY CO.
 115 WEST OKLAHOMA
 WHEELER, TEXAS

The Highlander, new budget-priced Maytag automatic washer just now being placed on the market at Nash Appliance & Supply, brings famous Maytag quality styling within reach of economy-minded young Americans. The entirely new washer has been engineered from the bottom up by a Maytag research team whose goal was to develop an efficient, high quality automatic washer to be marketed in a price bracket never before served by the Maytag automatic washer line. Although completely new mechanical design, the Highlander, pictured above with matching Air-Flow clothes dryer, retains popular basic Maytag features, while adding the exclusives of its own.

KNOW YOUR TRAFFIC LAWS

For the past eighteen years experience has shown that the Texas Safety Association is right. It reveals that many Texas drivers are ignorant about traffic laws. Here are some of the misconceptions — your score:

1. Driver on the right always has the right-of-way at an intersection. Not so; Texas law states that the car entering the intersection from the left has the right-of-way. If two cars approach the intersection from different directions and are approximately the same distance from the vehicle on the left, the driver of the vehicle on the right shall yield the right-of-way to the vehicle on the left.

2. Pedestrians must yield to cars at intersections where there are no traffic lights. Wrong! The law

gives pedestrians the right-of-way with certain limitations, at all marked crosswalks.

3. When a school bus stops to pick up or discharge children, you have to stop if you are behind it and traveling in the same direction. This is only partly correct. Texas law requires you to stop in such cases no matter in which direction you are driving.

4. You don't have to stop on a yellow when a traffic signal is changing from green to red. Wrong! The Caution, or yellow light is a signal that the red or Stop signal will be exhibited immediately thereafter and vehicular traffic shall not enter or be crossing the intersection when the red or Stop signal is exhibited.

5. You can make a turn any time as long as you signal. That's incorrect. To make a turn, you have to be in the proper lane and you are required to signal at least 100 feet before you turn.

6. You may pass any time you

see an opening. Wrong again. Texas law says that you have to give a car coming from the opposite direction at least 100 feet clearance after you have passed. You cannot pass at all when approaching within 100 feet of a bridge, viaduct or tunnel; or traversing an intersection or railroad crossing. The passing laws, of course, contain many other specific limitations.

7. Drivers must watch out for pedestrians walking on the roadway. This is a good idea, but the law says a pedestrian must walk on the left side of the road or on the left shoulder. It is also illegal to walk in a roadway if a sidewalk is provided.

Mr. and Mrs. Don Gipson have moved to Shamrock, where he has employment.

Miss Blanche Grainger and Dr. Mary Lou McIlhenny are visiting in Comanche, Texas, this week.

GREAT PLAINS PROGRAM TO BE STEPPED-UP

State Conservationist H. N. Smith of the U. S. Soil Conservation Service this week announced plans to take quick action to put into effect the stepped-up Great Plains program in this state.

Smith said that he has called a conference of state leaders of agricultural programs and agencies in Texas for January 11 at College Station to blueprint the plan of action on the farm and range lands of the 85 counties in that portion of the state.

Administrative responsibility for and leadership in the Great Plains program was recently placed on the Soil Conservation Service by Secretary of Agriculture Ezra T. Benson.

Smith pointed out that Secretary Benson's order provided for the combining of the resources of the Department of Agriculture's various agencies in a step-by-step process for making long-time adjustments in land use, cropping systems, and in the treatment of cultivated lands and range, under the climatic hazards of the Great Plains.

The Great Plains program, brought into being by Public Law 1021 only last August, is designed to give farmers & ranches, in the Great Plains area of the 10 involved states, both immediate and long-range help in the use of their land within its capabilities, Smith pointed out.

He explained that Public Law 1021 authorized an appropriation

of not over \$150 million for a 15-year period. Funds to aid farmers and ranchers are expected to be available after July 1, 1957. Expenditures may not exceed \$25 million in any one year.

The program will apply in counties to be designated by the Secretary of Agriculture in portions of Colorado, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas and Wyoming. "The continued drought in these states has emphasized the need for such a program to help develop a more stable farm and ranch economy in this region," Smith said.

Wind erosion conditions in the Great Plains area of Texas are serious with 403,000 acres damaged during October and November. Approximately 6,500,000 acres in a 68 county area of northwest Texas are in condition to be damaged by wind erosion this winter and spring, Smith announced.

He emphasized that the Great Plains program is not an annual or disaster type program nor does it replace any other existing agricultural program.

"This is a way to an enduring agriculture based on the capabilities of land and geared to the climatic hazards that we all know are ever-present in this important area," he said. "It is not a production adjustment or an income supplement program. It is a voluntary program with long-term assurance of needed financial help for a complete soil and water conservation plan applied to individual farms and ranches."

"The program," Smith added, "will point up the responsibility of local people in fitting their agriculture to the capabilities of the land and the hazards of climate. This responsibility is shared by

farmers and ranchers, soil conservationists, county committees, county commissioners and by all other groups, urban and rural, interested in the economy and the development of their home areas."

INSULATION NOT NEW

Although mineral wool was not used widely as insulation for homes until after 1927, it was being produced commercially in the U.S. when General Grant was president. Its earliest use was as insulation for boilers and steam engines in 1840. Shortly after the Civil War mineral wool was installed in the floors and walls of railroad cars to add to the comfort of passengers.

PINE WINDOWS TESTED

Window units of ponderosa pine are pre-fitted at the factory where they must pass tests for air infiltration and where weatherstripping is precisely installed. The wood also is treated chemically to resist warping, shrinking and swelling.

BILLIONS FOR REPAIRS

Surveys show that home-owners are spending more than \$6,600,000,000 each year for home improvements, including remodeling and repairs.

STICKING LOCK FIXED

A door lock that sticks often can be made to work smoothly by puffing powdered graphite into the lock and the latch.

Guests in the A. T. Sartor home Wednesday were Mr. and Mrs. Earl Taylor and Mr. and Mrs. Joe Taylor of Colorado Springs, Colo., and Mrs. Lillian Wright of Pampa.

Mr. and Mrs. Ted Atwood and children of Pampa, were visitors in the home of Mr. and Mrs. Floyd Atherton Sunday.

City Council —

(Continued from page one)

Commission for the past 5 years. Also another book showing rates paid for gas in other towns over the state, especially calling our attention to various ones but not to our neighboring towns where rates are not as high as in some places.

Mr. Wiley stated that we probably would not be able to understand these reports and offered as stated in last weeks Times, to persuade us to have an auditor examine these books.

At the present time the City Council does not favor the idea of paying an auditor to do this, but shall expect the Gas Company to explain or clarify and answer any question put to them, in a manner that can be understood.

Everything is going up in price, no doubt the Wheeler Gas Co., is entitled to some raise in rates, so long as it is a reasonable raise. Their books show a loss each year for the past 5 years, except in the year 1953, they show a profit of \$432.22.

Showing an average yearly loss for the past 5 years is \$3,551.29 or a total loss in the past 5 years of \$17,756.47, by way of salaries and other means, and show a loss in business.

As stated before your Council recognizes the fact that some raise in rates is probably justified and will endeavor to the best of their ability to make some agreement with them when they decide to tell us what they want.

Gas Company —

replaced. And for this and like replacements we have spent over \$40,000.00 the past year, and to complete the work we are doing will cost another \$10,000.00.

"We are glad to secure and furnish such information, as we consider it a part of our duty to the community as well as to our subscribers.

"Across the entire top of the front page of its Monday January 14th issue, the Amarillo Daily News says that some of the large corporations selling Texas gas in the north-east, are getting as high as \$2.42 per M. for domestic gas. During the past year the Life magazine printed a map of the gas lines bringing gas to the north-east, and stated that in Boston, domestic gas was selling above \$3.00 per M.

"Further information is that certain of the companies operating the larger lines to the north-east, say they can transport such gas as cheap as ten cents per thousand feet per thousand miles. If such is the case, it would seem that cheap gas in the Panhandle is a thing of the past.

"Another pertinent fact is that our gas company sells so little gas it would not be profitable for us to operate a stripping plant; and the gas we use is what the industry terms raw gas. Raw gas has from 1050 to 1200 heat units per thousand feet. After being stripped of its gasoline, propane and butane content, the gas going east can test as low as 750 heat units per thousand feet. This means that the gas sold in the east, in some cases can have a third less heat value than the gas we use.

"For the information of its customers the gas company is printing at its expense elsewhere in this issue, a list of the Texas towns paying an average of above 80c per M for domestic gas."

W. A. Carlton —

(Continued from page one)

1889, in Murray, Ark. He had lived in Wheeler County since 1928, coming here from his home state. Surviving are: two daughters and two sons, Mrs. Helen Morgan, Amarillo; and Mrs. Venita Mooring, Houston; Johnny Carlton, Amarillo; and Woody Carlton, Twitty; and five grandchildren.

New Truck Tax —

(Continued from page one)

first used, the taxpayer must file a return on regular Form 2290 (Rev. Jan. 1957) before the end of the next month. For example, a return on Form 2290 (Rev. Jan. 1957) will be due on or before January 31, 1967, for vehicles first used in December 1956. Copies of forms may be obtained from the district director.

To Our Gas Customers!

In view of the fact we are preparing to ask the City Council for a radical rate increase, for your information publish below a list of the Texas towns paying approximately 80c, 90c and \$1.00 or more per thousand for domestic gas, as shown by the 1955 Ry. Comm. annual report.

The 110 towns paying approximately \$1.00.

Of the 825 Texas towns supervised by the Railroad Commission, only 252 are paying less for gas than the 572 set out above.

Upon investigation you will find some extenuating circumstances which account for the lower rate in these 253 towns, such as:

- A. Close proximity to, or surrounded by an abundant supply of gas.
- B. Large population of town or towns served.
- C. Large sales of commercial and industrial gas by the company supplying gas.
- D. Gas supplied from a near-by transportation line with large consumption in the towns it is primarily built to serve.

Unfortunately our town comes under none of the above classifications.

- A. Our remote gas supply, discovered 33 years ago, has been rapidly depleted, we are having to extend our lines further into the field to secure gas.
- B. Ours is a small town with small houses, as we build better houses

and insulate our old houses against heat and cold, we cut our consumption to a minimum.

C. We once sold gas to power two gins, an ice plant and a seed oil mill. We now have no commercial or industrial load of nature.

D. We are near no large transportation line from which cheap gas can be secured. The contemplated line north of us has its full capacity contracted for in towns north and east where gas can be sold as high as \$2.00 per thousand.

From the information furnished above, any understanding person should easily see why we are unable to furnish gas at a fixed during the depression years of the early nineteen thirties; men worked for 25c to 50c per hour and \$20.00 would buy a supply of groceries.

Sincerely

Wheeler Gas Company
