SWIMMING POOL

That is the question that Mayor Thomas Daughtry is asking the farmers, ranchers, housewives. businessmen and civic clubs of Wheeler.

In a report from Hassie and Green consulting engineers, the proposed Wheeler swimming pool can be built for \$30,000. This will include a 75 by 50 ft. pool that ranges from 3 to 10 feet deep. The pool will be equipped with a filter.

The bath house will be standard size required for the type pool planned for Wheeler. The proposed location for the pool will be just north of the softball field in Wheeler

Daughtry said the city can finance the remaining \$20,000 and can repay the money within ten years without raising the taxes. This is possible, due to the fact that other city obligations will pay out soon, and the surplus money can be used to pay for the pool.

Mayor Daughtry pointed out that the response received from the proposed plan will greatly determine whether or not Whe will build a pool. "We must re \$10,000 and must feel that building a swimming pool is what the majority of Wheeler residents want," he said.

There's plenty to see in Texas, wherever you may roam on a holiday jaunt or on a vacation trip. Clockwise from the lower left hand corner, some of the impressive sights to see in Texas are: The Big Bend, some of the most striking scenery in the state; Guadalupe Peak, highest point in Texas at 8,751 feet; the Palo Duro Canyon, camping grounds for Indian tribes in frontier days; East Texas oil fields,

biggest of them all; the 570-foot San Jacinto Monument, commemorating decisive battle of Texas history; Gulf Coast Beaches, some of the finest in the world; the Alamo, "Cradle of Texas Liberty," and in the center of the state, Texas Longhorn Cavern, biggest cave in the state and third largest in the world, one of Texas' most spectacular natural wonders. Sightseeing is fun in Texas.

No great institution or enterprise can survive and succeed for very long that ignores the fact of God, and man's responsibility to Him. George Washington recognized this when he knelt in the snow at Valley Forge and prayer God to direct him as he lead the American Colonists in their quest from the yoke of a foreign nation. L. Outdoors at night is fun when your patio or barbecue area is lighted . . . fun for the entire family. Yard lighting costs little to install, little to operate, yet gives big returns in fun, relaxation and evening contentment. Light your outdoor area now . . . be ready for pleasant, cool spring nights.

Public Service

Look what you've been missing if you haven't driven a 58 FORD

You just can't appreciate all the wonderful things that have been done to make driving more fun . . . until you've checked out in a shiny 58 Ford!

The fee begins with the simple act of getting into the car. Only "yesterday" it was stoop down or knock off your hat. Now that has been changed. There's room for you and your hat inside the 58 Ford.

Even before you start the engine, notice how much more you can see. Full-Circle visibility lets you see where you're going ... see what's coming . . . see to park!

How touch the starter. Observe how smoothly your engine idles. That's because each Ford engine is built with painstaking care. Each V-8 is electronically balanced while operating under its own power. No other car in Ford's field goes to such lengths to bring you an engine that will operate smoothly . . . dependably . . . efficiently. (If your pick is a thrifty Six, you can't buy a more powerful, more modern 6-cylinder passenger-car engine than Ford's 145-borsepower Mileage Maker Six.)

Ease down now on the throttle and you'll take off with all the dash and verve of a Thunderbird! For after all, the 58 Ford offers you the Thunderbird's own transmission and enginel Team Ford's Cruise-O-Matic Drive with a Thunderbirdpowered V-8 engine, and save up to 15% on gasoline. It's like getting back 15¢ on every gas dollar!

Notice how bumps lose their bounce with Ford's softer-riding suspension system. Notice how Ford's exclusive Automatic Ride Control combines Angle-Poised Ball-Joint front suspension with long, tailored-to-weight rear springs so that you ride level . . . corner level . . . enjoy a "big car feel."

And Fort gloss you more—much more in the way of riding comfort. Ford seats are wide—sofa-wide. You sit in a relaxed, natural position with Ford's Auto Posture Control.

Always a leader to selety, Ford again pioneered new features to protect you. New Safety-Twin taillights, for example, keep you safer because they give betts warning to cars behind you. And only Ford offers you famous Lifeguard be sign—the whole family of safety features. designed to protect you should an accident occur.

About 10:45 last Monday night fire was discovered in the Palace But always knows my age. Barber Shop. It had gained considerable headway when discovered and before many people were on the some the blaze was breaking through the roof.

Ernest Lee gave the first alarm and in a short time about 100 or more people had gathered. While part of them set to work to save goods from the Drug Store and Woffords, others began fighting fire at the vacant lot South of the City Cafe. The blaze was checked but the North wall of the Produce was charred.
