

### Japs Flood China With Worthless Paper Currency

Tokyo Press Reports Amount \$54,000,000 In US Dollars

By RUSSELL BRINES  
TOKYO, Oct. 16 (AP) — Printing presses backed by Japanese bayonets deluged China with now-worthless currency adding up to about \$4,000,000,000, U.S. dollars in face value, the Tokyo newspaper Asahi said today.

The figure was the first to be published indicating the degree of financial plundering of Japanese-occupied territories by Nipponese militarists. It was disclosed by the newspaper in its demands on the imperial government to curb inflation.

Notes totaling 4,000,000,000,000 yuan were issued by the Central Reserve Bank of China, financial agency backed by the Japanese militarists, the newspaper said.

This sum, at the official rate of five yuan to one yen, equalled 800,000,000,000 yen, or nearly 20 times the war-time homeland note output of the Bank of Japan, which contributed much to inflation in Nippon. The current rate is 15 yen to one U.S. dollar.

American authorities have declined to announce figures until their survey is completed.

But the actual plundering implied by the size of the China bank's note issue must be doubled to evaluate the total of militaristic financial profits. When the notes were first issued they were arbitrarily discounted at one for two former Chinese yuan, thereby halving all bank accounts and other assets based on the former yuan.

The notes probably are the largest, but by no means the sole part, of worthless wartime lurchery which the Japanese issued without a single ounce of gold backing.

Other banks were established for North and South China, Malaya, the Netherlands East Indies, the Philippines, Indo-China and Siam, in addition to the long-existing note issuing banks in Manchuria, Korea and Formosa.

Officials were pleased with deposits today for the Howard County Victory chest campaign when a few workers turned in \$2,772, said G. H. Hayward, chairman of the special gifts committee.

The annual brings the total to date to \$4,586.50.

Hayward asked that other workers turn their collections in as soon as possible. The goal is \$29,780.

H. D. Norris said that the majority of city block chairman were soliciting Tuesday and every effort will be made to get the job done in the least possible time.

Norris said, "It is most essential that everyone donate to this drive since it covers not only the National War Fund, but also Boy Scouts, Girl Scouts and Salvation Army." This is the only drive for Big Spring this winter with the exception of the annual Red Cross drive in March.

Employees are being asked to give two days' pay. Donators may designate any agency they would like their money given to.

Area Dial System Scheduled For 1946

W. D. Berry of Southwestern Bell Telephone company said Tuesday that it will probably be after the first of the year before the telephone dial system is completely installed at Knott and Ackery communities.

Original plans were to have the system set in by Nov. 20 but equipment was delayed. Berry said work is being done on the lines at the present.

A new building has already been finished at Ackery and the Knott building is pending because the desired location has not been secured.

Meat Rationing May Be Decided Shortly

DALLAS, Oct. 16 (AP) — The fate of meat rationing is expected to be announced within two weeks or less, according to Bob Trigg, of the regional office of Price Administration food rationing here.

### Dutch Minister Blames British For Indonesia

LONDON, Oct. 16 (AP) — The Hilversum radio said tonight that the Dutch minister of overseas territory had blamed the British for a "mistake" in policy in Indonesia and announced that Holland was ready to negotiate with revolutionists in the rich colonial empire islands.

Prof. H. A. Logemann, the minister, was quoted also as telling the Dutch lower house that Holland would "do all in its power" to send troops to Indonesia to restore order and was "watching with anxiety the very slow pace of the British authorities."

More British troops were reported to have landed during the day on Java, focal point of the disturbances.

Earlier, the Free Indonesia radio said that reports that the "Indonesian republic" had declared war on Holland were completely false.

The Netherlands news agency Aneta reported Saturday that the Indonesian peoples' army of the Soekarno nationalist movement had issued a proclamation declaring war on all Dutch, Eurasians and Amboneses.

The Free Indonesia radio broadcast this purported statement from the "republic," contradicting the Aneta dispatch.

"All news circulating abroad that it has declared war on Holland is false and untrue. The reports are only the evil provocations of foreign agents who are trying to discredit the Indonesian republic. The Indonesian republic wishes to emphasize their policy which is to respect the principles of peace, humanity and justice."

The All-India radio said the two British brigades on Java would be built up to a full division. Lt. Gen. Sir William J. Slim of the South-east Asia Command was reported to have approved military plans for dealing with the situation on Java.

Area Guests Invited To Voller Dinner

Several guests are being invited from Sweetwater, Abilene, Roscoe, Loraine, Colorado City, Stanton, Midland and Odessa to attend the dinner to be given in honor of W. G. Voller, president of the Texas & Pacific Railway company, Oct. 23 at the Settles.

Reservations for local men should be turned into the chamber of commerce office as soon as possible so that officials may be able to estimate the number of turkeys needed for the meal.

The dinner is to be at 7 p. m. in the Settles ballroom.

SAN FRANCISCO, Oct. 16 (AP) — Admiral Halsey, warmly welcomed home from the wars, said today that the peace must be a military one if it is to last.

### Military Leader Calls Argentine Crisis "Revolt"

Avalos Denies "Strong Man" Role, Rules By Orders Of Army

By LAURENCE F. STUNTZ  
BUENOS AIRES, Oct. 16 (AP) — War Minister Gen. Eduardo Avalos, leader of the army movement which overthrew the military rule of Col. Juan Peron, disavowed the role of strong man today, asserting he merely was carrying out army orders in the revision of Argentina's government.

In an interview with the Associated Press Avalos called the overthrow of Peron, vice president, war minister and labor minister under President Gen. Edelmir Farrell, a "revolution."

Losers in the political upset continued to be routed out of a government post as civilian leaders weighed offers to enter a government still headed by a military president. The offers were made by a civilian, General Prosecutor Juan Alvarez, named interior minister by Farrell and given a free hand to form a "cabinet of notables."

Bluff, bulky Avalos, who gives the impression of being a warm personality with a direct and unassuming mind, said simply: "I am not the boss."

"I am carrying out the orders of officers of the army," he declared. Several prominent civilians have been approached by the 67-year-old Alvarez, who himself still was undecided last night about accepting the interior ministry. His first effort, a tender of the foreign ministry portfolio to Tomas Lebron, former ambassador to London, met with failure. Vice Admiral Verengo Lima, navy minister, meanwhile has taken over the duties of acting foreign minister.

Reported still pondering offers were Alberto Hueyo, finance minister under President Augustin Justo, and Antonio Vaquer, chairman of the Argentine center of engineers.

Workers Striking At Texas Textile Mills

HILLSBORO, Oct. 16 (AP) — C. Niles, Hillsboro, Texas representative of the Textile Workers Union (CIO) said today workers have struck at two Texas textile mills.

Niles said the second shift of union employes failed to return to work after their lunch period last night at the Mexia cotton mill, and employes of the Itasca Cotton Manufacturing Company did not report to work for the first shift today.

He estimated there were approximately 200 workers in each of the mills.

Youth Suffers Severe Injury

J. W. Holt, 10, suffered extensive maceration of his left leg when he fell in a seed conveyor at the Big Spring Cotton Oil company Monday afternoon. The boy was playing with his brother and another child when the accident occurred in the seed house.

He is the son of Mrs. Cec. Holt, 504 Presidio, and was reported as doing fairly well this afternoon.

High School Traffic Patrol Opens Today

The high school traffic patrol went into action this morning under the direction of the police department, A. G. Mitchell, chief of police, and Officer Jack Harrison said.

Harrison said that the boys in charge of the patrol will appreciate cooperation given them by the citizens. Automobile drivers are asked to stop at the drop of the yellow flag until the children cross the street.

Sixteen high school boys are in charge of the patrol.

No Action Planned On 10-Day Coal Mine Strike

By NORMAN WALKER  
WASHINGTON, Oct. 16 (AP) — The government counted as a failure today its 10-day efforts to settle the soft coal strike, but it had no plans for immediate action.

Hope was revived, meanwhile, for a new approach to the broader reconversion wage-price problem.

Secretary of Labor Schwellenbach last night wound up "subject to call" his fruitless negotiations with bituminous operators and John L. Lewis over the mine foremen's unionization issue.

The labor secretary said his settlement attempt — with 200,000 miners idle and half the nation's normal soft coal production closed down—had collapsed. But he still had hopes, he told reporters, for some solution.

He added that for the time being the government has no intention of seizing the closed mines.

Of the wage-price subject, President Truman was reported "very receptive" to a recommendation from War Labor Board members that he set up a new three-sided group to devise a reconversion pattern.

It was learned that the WLB members themselves demurred from accepting a presidential invitation to establish such a yardstick.

WLB's position was that as a war agency, already well along in carrying out White House orders to liquidate, it lacked the prestige necessary to frame and carry out a new formula. WLB wrote and enforced the war "Little Steel" formula, which limited basic wage increases to 15 per cent above January, 1941, levels.

Under the agency's recommendation, Mr. Truman would create a new group with the same industry-labor-public representation as WLB, but with added weight because of its specific assignment.

The WLB feeling was reported to be that this body might have its wage-price policy ready for consideration by the labor-management conference scheduled to meet here Nov. 5.

## Eisenhower Bases Opinion Informally

WASHINGTON, Oct. 16 (AP) — General Eisenhower said today "informal reports indicate a fair and impartially supervised election in Berlin would not support the present community party dominance" of the city's government.

The general put into his second monthly report on military government in the American zone of occupation a critique on politics in Germany—including those in the Russian zone.

Eisenhower declared that one of the political devices fostered by the communists in Berlin—a bloc of parties—would have no welcome in the American zone.

Here is what he had to say about Berlin, where the Allied control authority has its headquarters and where the four allied powers have four zones:

"Four organized parties exist there. They were granted permission by the Soviet military authorities to organize and so were functioning when United States forces occupied the U. S. sector of Berlin. The four parties are the communist party, the social democratic party, the Christian-democratic union, and the liberal democratic party.

"The first two are well organized, active and have a basis of former members on which to build. The latter two groups have new parties, though drawing support from middle class, conservative bourgeois elements formerly associated with the centrum, the German democratic party, and the German people's party. They are less well organized and less active than the Marxist parties. This is the communist party of Germany holds a majority of the strategic posts in the Berlin magistrats and in the administrations of the Berlin municipalities. Informal reports indicate that a fair and impartially supervised election in Berlin would not support the present communist party dominance of posts but would reveal relatively strong support going to the social democrats and the Christian-democratic union, in that order.

"The four parties in Berlin joined, on the initiative of the communist party, in a united front 'political bloc' intended to unify their policies on all important matters. This joint political organization continued throughout the month under review (August) and succeeded in formulating surface uniformity on major questions, with some evidence of dissent dissatisfaction, especially on the part of the two conservative parties. The device of a political bloc will not be encouraged in the U. S. zone, as it runs counter to traditional American concepts of political activity and vigorous political life in a democratic sense."

Other Americans viewed the world's largest anti-aircraft gun and were told "we couldn't get the hang of the mass fire control principle." A Japanese general displayed Japan's newest and largest tank and admitted it never was used because the Japanese couldn't get bugs out of it.

American naval authorities found the same zeal for confession of ineptitude when they took over two of the world's largest submarines — 5,700-ton undersea monsters with 50,000-mile cruising range.

"We never could sink anything with them," explained the Japanese officer in charge.

As the Americans, who entered Japan with less than a division and disarmed a nation with 4,000,000 fighting men on the ground, continued to extend their occupation grasp, one of the world's migrations was underway, almost unnoticed, as a million and a half Koreans in Japan sought to get back home.

House Enters Debate On Neco Appearing In Constitution Hall

WASHINGTON, Oct. 16 (AP) — The controversy over denial of Constitution Hall for the appearance of a negro musician broke onto the house floor today in bitter debate.

At one point, Speaker Rayburn (D-Tex) had to caution the gallery against "demonstration."

The flareup began when Rep. Rankin (D-Miss) declared that attacks on the Daughters of the American Revolution, owner of the hall, are of "communistic" origin.

"We have come to a hell of a pass," he shouted as the galleries applauded vigorously.

Strikes Hit Lowest Total Of Month As Future Still Gloomy

By The Associated Press  
The nation's labor disputes, numbering at least 135, kept some 385,000 workers from their jobs today, the lowest total this month, but the general labor picture was not bright.

The darkest cloud came out of Washington in the form of Secretary of Labor Schwellenbach's announcement of the collapse of the conference to settle the critical soft coal strike.

In New York City, where a 16-day strike of AFL longshoremen has virtually paralyzed shipping in the world's biggest harbor, there was reported violence within the union ranks and by CIO unionists, as extra police were ordered to the waterfront.

On the bright side was the resumption of service to some 1,000-000 New England bus and trolley riders as buses, under control of the commonwealth of Massachusetts, began rolling after a three-day strike of 1,800 eastern Massachusetts street railway employes.

Violence was reported in the 16-day old strike of dockworkers in New York harbor, which has virtually halted all out-bound shipping, and hundreds of extra police were ordered to patrol duty along the big waterfront. The additional squads of police came after rival factions within the AFL International Longshoremen's association charged each other with violence and use of "goons" as intimidators. Mayor La Guardia warned there will be no rough stuff on the waterfront.

Police estimated that more than 5,000 of the estimated 35,000 strikers returned yesterday and the War Shipping Administration said work was in progress on 59 ships, including 16 troopships.

President Joseph P. Ryan, of the Longshoremen union, who is seeking to end the walkout, said strikers returning to their jobs had been molested by "goons" he identified as members of CIO maritime and longshoremen's unions.

In Hollywood, an eight month old AFL jurisdictional dispute continued, but Eric Johnson, new president of the Motion Picture Producers and Distributors of America, stepped in. Johnston, named yesterday to represent movie producers in moves for settlement of strikes, was to confer with a federal conciliator today.

Scattered fighting was reported yesterday between pickets and non-strikers as Johnston met with officials of major studios.

Representatives of AFL lumber workers in the Pacific northwest planned to meet with operators today to discuss their demands for a \$1.10 hourly minimum wage for the industry. The hikes have been granted by seven employers, lowering the strike lines, which once totaled 61,000.

## Japan To Begin Long, Hard Road Back To Society

TOKYO, Oct. 16 (AP) — New Japan, poverty-stricken and spiritually crushed, officially without vestige of an armed force for the first time in history and without standing among nations, began the long road back to acceptance in the society of the world today.

Politicians and militarists whose lives had been dedicated to the growth of the stolen empire struggled to revise the constitution for a peaceful Japan in which the government would serve rather than dominate the people, and to outdo each other in cooperation with the conquering occupation forces.

More than 500 members of the new Nippon working masses party, freed now from fear of the dread "thought police," distributed handbills calling for the mass suicide of the former ruling classes of Japan, then jubilantly demonstrated before General MacArthur's headquarters.

Their Japanese banners, as they paraded past the imperial palace moat, dealt not with the problems of empire, however. They asked MacArthur to tell the government to give them more bread.

Evidence of what General MacArthur had in mind yesterday, when in his broadcast announcing completion of Japanese demobilization he referred to the "humiliation and finality of this surrender," was developed in stories of self-abatement of military men.

American officers sorting details of the former Nipponese fighting machine have encountered scores of such cases.

American artillery officers were shown an undamaged coastal gun by a bowing Japanese officer. "This was one of our best weapons, we never fired it," he asserted.

Other Americans viewed the world's largest anti-aircraft gun and were told "we couldn't get the hang of the mass fire control principle." A Japanese general displayed Japan's newest and largest tank and admitted it never was used because the Japanese couldn't get bugs out of it.

American naval authorities found the same zeal for confession of ineptitude when they took over two of the world's largest submarines — 5,700-ton undersea monsters with 50,000-mile cruising range.

"We never could sink anything with them," explained the Japanese officer in charge.

The flareup began when Rep. Rankin (D-Miss) declared that attacks on the Daughters of the American Revolution, owner of the hall, are of "communistic" origin.

"We have come to a hell of a pass," he shouted as the galleries applauded vigorously.

Siding against Rankin, Rep. Coffee (D-Wash) told the house he deplored "drawing of the color line" in the use of the hall which, he said, enjoys freedom from taxes.

Gallery applause also greeted his speech, and Rayburn admonished the spectators that house rules prohibit demonstrations in the galleries.

Roll It Home, Please

LINCOLN, Ill., Oct. 16 (AP)—Tires still are among the items on the scarcity list, so when Ray Clapper, a tire dealer, lost one off a truck load the other day he marked it up as tough luck.

But Clapper got a letter from Mrs. Cora Steller of Aurora, Ill., saying she found a tire with his name on it, and "how should she ship it, please?"

Mrs. and Mrs. M. H. Kelly have as their guest, their sister-in-law, Mrs. W. R. Kelly of Kilgore.

NEED BULBS? KEEP Spares on Hand

Are you short of lamp bulbs? Chances are there are at least three empty sockets in your lamps, lighting fixtures or wall bracket lamps. Now is the time to fill those sockets with new, low priced lamp bulbs that are more efficient than ever. Your neighborhood grocery store, drug store, electrical appliance store or any other store which sells lamp bulbs now has ample stocks of all sizes of bulbs on hand. Count your empty sockets and plan to fill them all with proper size bulbs.

Buy lamp bulbs by the carton — keep extras on hand for emergencies.

Nearly all stores sell bulbs — buy 'em when you shop

PIN-WORMS GO! New Treatment Gets Real Results

People don't like to talk about Pin-Worm infection. Sometimes they are too embarrassed to mention the tormenting rectal itching. And in many cases they have not known of any effective way to deal with this pest that lives inside the human body.

Today, thanks to a special, medically recognized drug (gentian violet), a highly effective treatment has been made possible. This drug is the vital ingredient in P-W, the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son.

The small, easy-to-take P-W tablets act in a special way to remove Pin-Worms. So if you suspect Pin-Worms in your child or yourself, ask your druggist for a package of JAYNE'S P-W right away, and follow the directions. Satisfaction guaranteed or your money back. It's easy to remember: P-W for Pin-Worms!

**Lost: One House, Last Seen Moving On Wheels**

By JACK RUTLEDGE Associated Press Staff

The next time the little woman chides you for misplacing something, remind her of Homer Moreland.

Mr. Moreland lost his house. Mr. Moreland lives in Progresso. He contracted for a moving firm to transfer his home to Weslaco. It failed to arrive on time so he got in his car and went out to look for it.

He drove off the pavement and his car was promptly and firmly stuck in the mud. It had been raining heavily.

Well, he tried again next day. Still no house. Finally, in what must have been something bordering on desperation, Mr. Moreland hired an airplane.

From the air he soon spotted it. His house had bogged down in the mud, too. Whit George of Italy, Tex., has

been sort of upset. He didn't lose his house, but he's losing a lot of time.

When the government decided it was time to change from war time to standard time Mr. George obediently set his clock back an hour. The thing has been running in reverse ever since, he complains. He explains that it positively refuses to go forward under the new order, and no one has been able to fix it.

Quite without meaning to do so, Miss Ethel Hillman of Dallas confuses visitors in the chamber of commerce.

The very efficient Miss Hillman will tell visitors that her boss, Mr. Ben Critz, is talking on the telephone, is in conference, or maybe just reading a copy of True Detective.

and not seeing Mr. Critz, will become very suspicious of Miss Hillman.

But she does it with mirrors. She has an unobtrusive mirror on her desk, arranged at just the right angle to see what Mr. Critz is doing.

Mulberry leaves are the exclusive food of silkworms.

# Houses Keep Warmer For Users Of Butane

Warm houses for the winter have been assured by L. I. Stewart, agent for butane gas in Big Spring. Stewart said that after Nov. 1, gas tanks of all sizes will be available and that pipe is always easily accessible for installation. All equipment is now obtainable, for the setting up of new plants.

The dealer said that the new gas being produced by Butane at the present time is much improved over that of previous years. He explained that where the old type gas required a certain amount in the tank to keep it coming through the pipes, the new gas can be used to the last ounce. The new fuel supplies its own pressure, and vaporized immediately, since it holds its pressure until it is all used. Stewart added that the new gas is completely odorless, thus eliminating objections which some users had expressed.

The new Electrolux refrigerators will be here by the first of the year, Stewart announced. These refrigerators are run completely by gas, and have been found ideal by users who live in the country, and practical by town dwellers.

Electrical equipment will be in the store soon after the first of the year, at the latest, and orders have already been placed with manufacturers for all types of electrically operated household appliances. Stewart expressed a hope that they would be here before that time. As for electrical repair, Stewart declared that although repairmen are still unavailable, a repair shop for electrical appliances will be opened around the first of the year.

Christmas goods are already coming in, and for the children's Yuletide season, Stewart suggested that parents come in and see his stock of toys. He declared that toys this Christmas are still of wooden construction, primarily, but that there are some steel and metal ones.

Stewart's also has received a variety of dishes which would make appreciated Christmas gifts, either in floral or plain patterns, in fiesta ware or more subdued colors.

Also suggested for gifts are the lamps which are now on display. Stewart's has them in either table or floor models in numerous styles.

For the best in appliances and the most thoughtful of gifts, shoppers are advised to look over the stocks at the L. I. Stewart Appliance store at 213 1-2 West Third street.

# Thornton's Food Store Moves Into New Home

Thornton's Food Store has moved into its new location at 1005 Eleventh Place, all complete with new modern facilities and equipment. Their new home is 50' by 40' and is 2,400 square feet, including additional storing space.

Jesse Thornton, owner, says they moved Sept. 25 from their previous building at 1000 Eleventh Place. The owner claims the store may also now boast of a practically complete new stock in all its shelves.

Thornton proudly announced that added features include ice cream, frozen foods, magazines, enlarged school supply department and drug department. A new ten foot meat case was supplied for the meat department and a large 30 foot self-serve refrigerator was installed.

This enlarged neighborhood store has been placed where it can be quickly found by each new customer.

Thornton's Food Store has another attractive offer for its telephone customers. A limited amount of delivery service is maintained by calling 1302. Deliveries are made twice daily for calls before 11 a. m. and 5:30 p. m. with no extra charge.

Besides the owner, a staff of four is ready to serve customers and suggest to them what they might need. They are Mrs. H. L. Eason, J. W. Morgan, Donald McAdams and Mrs. Jesse Thornton.

## Dabney In States, To Be In Hospital

Mr. and Mrs. George W. Dabney have learned that their son, Cpl. Chesney Dabney, arrived by plane in New York three days ago.

Cpl. Dabney, an infantryman, served in the occupation armies in the European theater, and had been under treatment in a Paris hospital for some time. He informed his parents that he would fly to Beaumont hospital in El Paso for further treatment.

Another son, First Sgt. George Dabney, Jr., is still in Europe, serving with the Ninth army as an engineer. Both men have been overseas for more than a year.

## Four ESC Hospitals To Cease Operation

**NEW ORLEANS, La., Oct. 16 (AP)**—Four army hospitals in the Eighth Service Command will cease operations in the near future, Col. P. U. Phur, commanding officer of Lagarde General hospital here, said yesterday.

Phur named the hospitals as Lagarde; Harmon General hospital, Longview, Tex.; Ashburn General hospital, McKinney, Tex., and Glennan General hospital, Okmulgee, Okla. He said he had received this information from the office of the surgeon general in Washington.

## Odessa Moves Up A Notch In High Football Ratings

**Scots Replace Wichita Falls In Top Spot**

By HAROLD V. RATLIFF  
Associated Press Sports Editor

DALLAS, Oct. 16 (AP)—Results of the past week made a few changes in the rankings of the Texas schoolboy football teams.

Highland Park (Dallas) finally reached full strength and showed it was as good as everyone thought back before the season opened by crushing a pretty good Sherman team 45-6.

Lufkin, Waco, Goose Creek, Marshall, Amarillo and Odessa all gained in prestige but Wichita Falls, last week's leader, faded somewhat when it was able to beat

often-defeated Graham only 19-12.

Here are the rankings from this corner for the week:

1. Highland Park.
2. Waco.
3. Lufkin.
4. Marshall.
5. Amarillo.
6. Goose Creek.
7. Odessa.
8. Wichita Falls.
9. Austin.
10. Pampa.

The second ten: Plainview, Paris, Breckenridge, Brownwood, Brownsville, Milby (Houston), Cleburne, Port Arthur, Sunset (Dallas), Corpus Christi.

Next in line: North Side (Fort Worth), Crozier Tech (Dallas), Jeff Davis (Houston), San Jacinto (Houston), Galveston, Electra, Temple.

## Compare Byron Gillory With Jack Crain

AUSTIN, Oct. 16 (AP)—Byron Gillory didn't do any passing in high school football; he was too busy making long touchdown runs.

But when he came to the University of Texas this year, Coach D. X. Bible, on the lookout for somebody who could throw the ball, tried the little guy. He took to it like a duck to water. So today they are describing him as a combination of Jack Crain and Pete Layden. If you know Southwest conference football, you'll recognize those names readily enough. Crain was the greatest running back the conference ever saw; Layden was one of its greatest passers.

Forty-five thousand fans Saturday saw what Assistant Coach Blair Cherry, who coaches the backs, meant when he called Gillory a Crain-Layden combination. The 140-pound speedster not only turned in a great brand of running but his passing beat Oklahoma and kept Texas in the ranks of the undefeated and untied. Gillory turned in the amazing feat of throwing ten passes and completing nine for 100 yards.

Gillory has played in only two games this season. A lame ankle kept him out of the other two. But he has thrown 14 passes and connected with 11 for 129 yards in those two outings and in one game he played only a few minutes. He also has carried the ball 20 times for 68 yards.

John Tarleton Plowboys, each winless and scoreless in two games, play each other, meeting at Arlington Friday night.

Southwestern journeys to Ruston, La., to play Louisiana Tech. West Texas State, which has dropped four straight games, rests this week.

## Funeral For Party Leader Held Up

DALLAS, Oct. 16 (AP)—Funeral arrangements for Walter Sherwood Bramlett, 72, chairman of the Dallas county democratic executive committee, have been delayed pending the return of his wife from a visit in Milwaukee.

Bramlett was found dead at his home here yesterday by a client who had called to see the attorney. Justice of the Peace W. L. Sterrett said a heart attack was the cause of death.

## Raiders Clash With Baylor

Ten of the eleven Texas colleges playing football this year have games this week with only one inter-sectional tilt on the schedule.

Five members of the Southwest conference will be engaged in family squabbles with Texas, the only undefeated team remaining, traveling to Little Rock to play Arkansas. Rice meets Southern Methodist at Dallas and Texas A. & M. clashes with Texas Christian at Fort Worth.

Baylor meets Texas Tech at the Border conference at Lubbock. The North Texas Aggies and

## Texas Manages To Keep Place In Top Ten

By HAROLD CLAASSEN  
NEW YORK, Oct. 16 (AP)—The same five teams that dominated last week's Associated Press poll to determine the best college eleven in the country hold sway in the tabulations compiled today with Army retaining first place in the Big Ten.

The Cadets garnered 90 nominations for the top spot on the 105 ballots, allowing only 14 for Navy and one for Ohio State.

Army, with 1,035 points, was followed by Navy, Notre Dame, Ohio State and Minnesota in that order, duplicating their rankings of last week. Ten points are given for each first place vote, nine for second, etc. All critics who did not place the West Pointers first on their ticket ranked the Cadets second.

Alabama moved up from seventh to sixth place and Pennsylvania, 49 to 0 victor over North Carolina, hopped from 13th place a week ago to seventh while Indiana and Texas, eighth and 10th respectively, kept those places in the present counting.

Purdue, whose Bollermakers crushed Iowa, 40 to 0, shot from the 15th slot of seven days ago, to ninth this week.

Michigan, ninth in the previous listing, skidded to 13th, following its defeat by Army, while Southern California, lone west coast power a week ago, spun from sixth to 14th in the 33 to 6 defeat by the San Diego Naval outfit.

Ohio State and Purdue appear to have the toughest battle to retain their rankings this weekend as the loser almost certain to become a discard in the Big Ten title race.

Army shouldn't have too much trouble in keeping its prestige, playing the Melville, R. I., torpedo boat aggregation at West Point.

Navy meets Georgia Tech in an arc-light contest at Baltimore.

The leading teams, ranked on a basis of 10 points for each first place vote, nine for second, etc. (First place votes in parenthesis):

Team	W.	L.	T.	Pts.	Op.
Army (90)	1	0	0	1,035	1,035
Navy (14)	1	0	0	803	803
Notre Dame	1	0	0	768	768
Ohio State (1)	1	0	0	655	655
Minnesota	1	0	0	581	581
Alabama	1	0	0	511	511
Pennsylvania	1	0	0	310	310
Indiana	1	0	0	292	292
Purdue	1	0	0	184	184
Texas	1	0	0	117	117
Second ten: 11—St. Mary's, 114; 12—Georgia 113; 13—Michigan 94; 14—Southern California 45; 15—Duke 40; 17—Columbia 27; 18—Tulsa 24; 19—Holy Cross 22; 20—Mississippi State 18.					

Honorable mention: Tennessee 12; Washington 8; UCLA 6; Wake Forest 5; Virginia, Mississippi and Illinois 4; Louisiana and Baylor 2; Missouri and North Carolina 1.

## Cowhands Clash With North 11 Wednesday

First-round winners in the Ward school football league come to grips Wednesday afternoon at Steer stadium when the West Cowhands meet North Ward.

The Waddies showed unusual power in subduing South Ward last week, 14-0, while the North Siders succeeded in edging East Ward, 7-0, Monday, in a bout delayed from last week.

The North-West argument will get underway at about 5:30 Wednesday afternoon the third of three games scheduled for that day.

Other arrangements will dispatch South Ward into action against College Heights at 4 o'clock and the East Siders back into play against Central Ward at 4:45.

College Heights, the 1944 champions, were fought to a 7-all deadlock by Central in last week's opener.

## Texan Defeated Cochran, 5-4

FORT SMITH, Ark., Oct. 16 (AP) Bob Cochran of St. Louis is the new champion of the Hardscrabble invitation golf tournament after his defeat yesterday of H. M. Selby of Houston, Tex., 5 and 4.

Both Cochran and Selby turned in a 4 over par 75 on the first 18 holes, but Cochran took and held the lead after the 19th.

Cotton, though no longer heading the list in acreage in South Carolina, still holds first place in total crop value.

With ANGUS LECESTER  
Miller Harris, the greatest hitter to ever grace a Big Spring baseball diamond, hasn't seen much of the national pastime since 1940 but he got into a softball game in Honolulu last year and clouted out a brace of home runs.

Years ago, Miller—who stands up to the plate in a style reminiscent of Babe Ruth—was considered one of the finest prospects in the country. Connie Mack's ivory hunters used to follow him around.

Another Howard county gift to the diamond, Tom Hutto of Cosahoma and Big Spring, hasn't had much time for the sport in recent years. Now a captain and liaison officer with the Fourth Armored Corps, Hutto got back to the States from Italy only last Thursday.

Tom, who made a great name for himself as a basketball forward and a baseball first sacker at Texas A&M college several years ago, was in the professional diamond ranks for a couple of seasons.

His uncle, Louie Hutto, who died last week, was one of the most rabid baseball fans this part of the country ever knew. "Uncle Louie," as he was familiarly known by everyone, rarely missed a game when the Big Spring club was active in the WT-NM league.

Harold Akey, formerly the teaching pro at the Big Spring Municipal golf course and the lad who taught Ben Hogan and By Nelson the fundamentals of the game, has been signed as professional and manager of the San Angelo country club.

The laconic Akey, who knows his horticulture as well as his golf shots, was here from 1937 until 1943. He followed his brother, Charles, who, they say, is quite an airman.

When Harold arrived here, the Munny had but nine holes. He supervised the addition of the other nine and planted bent grass greens.

Bob Flowers, the third of four brothers that made football history

at Big Spring high school in the late 20's and through the 30's, writes in from Green Bay, Wis., that he's playing enough for the professional Packers of that city to "make his letter." He's spelling Nebraska's Charles Brock at the pivot post.

Bob went to the Packers last year despite the fact that he did not have college experience. His playing weight is now in the neighborhood of 220 pounds and Roland Schwarzenbach, who saw the Packers perform earlier in the season, says Robin is right at home with the pros.

Flowers served as captain of the 1934 Big Spring Steers. He later enrolled at Texas University but did not hang around long enough to play football.

Bob saw plenty of action last Sunday as the Packers were suffering a surprise 27-14 licking at the hands of the Cleveland Rams in Green Bay. For the information of friends who would like to write him, he is living at the Astor hotel in Green Bay.

Bob's younger brother, Sam, was supposed to play for Ellington Field's eleven this autumn. As a center, Samuel rated All-American mention for Rice Institute the year he and Olie Cordill helped win the Cotton Bowl game from Colorado University, Whizzer White, et al., by a 2-14 count.

Tiger Jack, first of the Flowers clan and a Steer captain in the late 20's, is now in the oil business while Bill, the No. 2 son and great star of the 1930 and '31 Big Spring teams, who later captained the Tulane University team, has been flying for the US Army Air Force.

Cow Waddies' Days Of \$30-And-Chuck Gone Forever; He's In The Chips Now

NEW YORK, Oct. 16 (AP)—Down in the old corral at 49th St. and Eighth avenue there's not a bookmaker in sight these October evenings although 200 assorted cowhands are drawing a \$2,000,000 gate and slicing up \$145,825 in prize money. The rodeo is back in town, showing the sharpies off Jacobs Beach under a deluge of 10-gallon hats, Texas draws and clanking spurs. Across the street from Madison Square Garden, where the biggest horse opera in the world is holding forth until November 4, the lounging cowhands sit cross-legged on the marble floor of the Belvederes hotel lobby and spin tall tales about the wild west. A \$27.50-a-week clerk in a downtown department store might turn up his nose at such a wildcat way of living but this is no ordinary grubstake these men of the west are chasing. Hank Miles, a former jockey on the "big apple" who won the Gold Cup and Brooklyn handicap on Dark Secret 10 or 12 years ago, sets you right on that count when he said: "We boys do pretty good for ourselves. If a boy has a good year he makes himself about \$7,500 and there's some who do more than that. Guess the high is about \$15,000. A fellow who don't win \$3,000 or more don't stick around this game long. "What happens when we get hurt? We just take care of ourselves, have to pay our own way. Have to pay our own entry fees too." Foghorn Clancy, the gravel-throated press agent, explained that cowboys paid fees ranging from \$20 in the wild horse race to \$150 in the steer wrestling and calf roping competition. The "boys" come from all over the country and range in age from 55-year-old Mike Hastings, a former Texan who now is a foreman on a dude ranch at Peekskill, N. Y., to 17-year-old Billy Lawrence of Boulder, Colo. There's also Turk Greenough of Red Lodge, Mont., who married Sally Rand; Pete Kerscher of Dublin, Tex., a GI on a 45-day furlough; Herb Dahl of Gene Autry, Okla., and an occasional amateur from Brooklyn who usually retires after one matinee. Toots Mansfield of Rankin and Big Spring, Tex., president of the Cowhands' Union, has picked up over \$5,000 in one type of competition this season but the overall leader in the year-long standings is Bud Linderman of Red Lodge, Louis Brooks of Sweetwater, Tex., champ for the last two years, is not competing in New York. After the Garden run, the show moves to Boston and then the livestock, owned by the World Championship Rodeo Corporation, will be shipped back to the home base at Dublin, Tex.

Wacoans' Pierce Pares SW Backs

By The Associated Press Sammie Pierce, the big Baylor halfback, has moved back into first place among ball-carriers in the Southwest conference. Pierce held the spot through the first week of play but was supplanted by Preston Smith, Texas A. & M. fullback, the next two. But the Baylor freshman's work against Arkansas shoved him back up and he now leads with 368 yards net in 39 carries, according to conference statistics announced today by James H. Stewart, executive secretary. Smith is in second place with 350 yards on 64 runs and Rob Goode of A. & M. has moved from fifth to third with 218 on 50 carries. Leon Joslin, Texas Christian freshman, still is the leading passer although he didn't play last week. Joslin has 364 yards on 25 completions out of 43 attempts. Jack Price of Baylor moved into second with 270 yards on 20 connections out of 34 and Dave Moon of Southern Methodist pulled into third place with 239 on 14 completions in 32 throws. Jim Pilyer of Texas continues to pace the punters. His average now is 39 yards even. Howard Maley of Southern Methodist, who averaged 44.5 yards on eight boots against Oklahoma A. & M. last week, moved from eighth to second place with an average of 38.7. In team statistics Texas still is out in front with 1,279 yards rushing and passing while Baylor has come from fourth to third with 1,171 yards. Baylor has the top defensive record—giving the opposition an average of 105 yards running and passing but A. & M.'s pass defense still leads. The Aggies have allowed only six completions in 32 attempts against them.

Headon Collision Mars Longhorn Drill Monday

John Dibrell's Big Spring high school football Steers, with an "0 and 2" count built up against them in District Three play, yesterday gave hint they wanted to rid themselves of the shackles of the family's dungeon. Prepping for the Friday joust outing that could either leave them hopelessly mired in the cellar or pull them out in front of the B. E. McCollum's charges, the homelings spent long hours in their Monday afternoon session polishing an offensive that wasn't clicking on all cylinders in last week's bout with Lamesa. A slight mishap marred the day's proceedings. In a mixup of signals, Billy Coleman neglected to go on siding when Reed Collins launched a blocking cruise. The two crashed headon and the vibrations that resulted even shook the press-box high atop the bleachers. Conn Isaacs, Dibrell's aide-de-camp, carried the boys to town for a checkup and found nothing has been misplaced. Both the youngsters will be out again today. NEW YORK, Oct. 16 (AP)—War Dept.: Maybe Michigan's Fritz Crisler thought it was only polite to answer a question, but he probably let himself in for a pack of trouble when he told New York football writers yesterday that Army's Glenn Davis and Doc Blanchard are a better pair of backs than Ohio State's Sarringhaus and Dick Fisher. . . . Evil Of Selfishness

Here is something that may stir you to thought: "The most obvious fact in the United States today is that business men, laborers, farmers, politicians—all of us—are trying to escape the natural consequence of a long and terrible war . . . We are shouting for easy living, despite the fact that we are faced with ruin if we do not work very hard . . . Again the accent is on personal profit above everything else. Our nation rode to the financial crest of a war boom over the bodies of a million men who gave all they had in mortal conflict for the sake of the spiritual treasures of civilization, and now it proposes to stay on that easy living crest by hook or crook.

"This spectacle should bring fear to the hearts of the thoughtful—fear for all mankind." And who can argue that this does not put the finger on the pulse of our troubles? What else is the matter other than individuals, groups and blocks, regardless of what their source of livelihood, trying to attain its ends irrespective of what may happen. It is the monster evil of selfishness, singularly and collectively. Until we are done with it, our troubles will come and go, waxing greater with each return.

Teamwork From The Stands

Several Big Spring football fans have instituted what is called a "Monday Quarterbacks" club in order to indulge in the fascinating pastime of second guessing. In the first session they cursed and discussed plays, commented on outstanding individual play, teamwork, etc. and even put the gimlet eye on some officiating.

All in all, it provided some fun. But the reason we mention it is because the Monday Quarterbacks are interested in more than that. They want to see a football team that will win a few games—but they want to see it arrived at in a wholesome manner. They spent more time airing suggestions of how to pep up the boys, get them and keep them in top condition and full of fire.

It would be helpful to the team and to community spirit in general, we believe, if more people would take time out to slap the youngsters on the back, assure them that they are being watched on and off the field and that we want to help them

MacArthur's epitaph for broken Japan is so starkly realistic that it brings one up with a jolt: "This ends its military might and its military influence in international affairs. It no longer reckons as a world power, either large or small." This perishes an evil power which for almost a hundred years increasingly dominated the Orient until finally greed impelled it to overreach itself. We have realized that Japan has suffered complete defeat, but we are so close to this epochal event that it is difficult to sense its immensity.

Nippon has been utterly smashed. She has been flung into the oblivion from which she emerged, almost within the memory of living man.

Now that's a fact of tremendous import. It means that a vacuum has been created in the Orient. Something must rush in to fill that vacuum. That is, some other people will in due course take its place. Who will it be?

The probabilities are that for a considerable period the influence of the big three—America, Russia and Britain—will control the situation. China is a logical successor, but it will be long before she could assume the crown, for she is terribly weak in all categories excepting one—magnificent spirit.

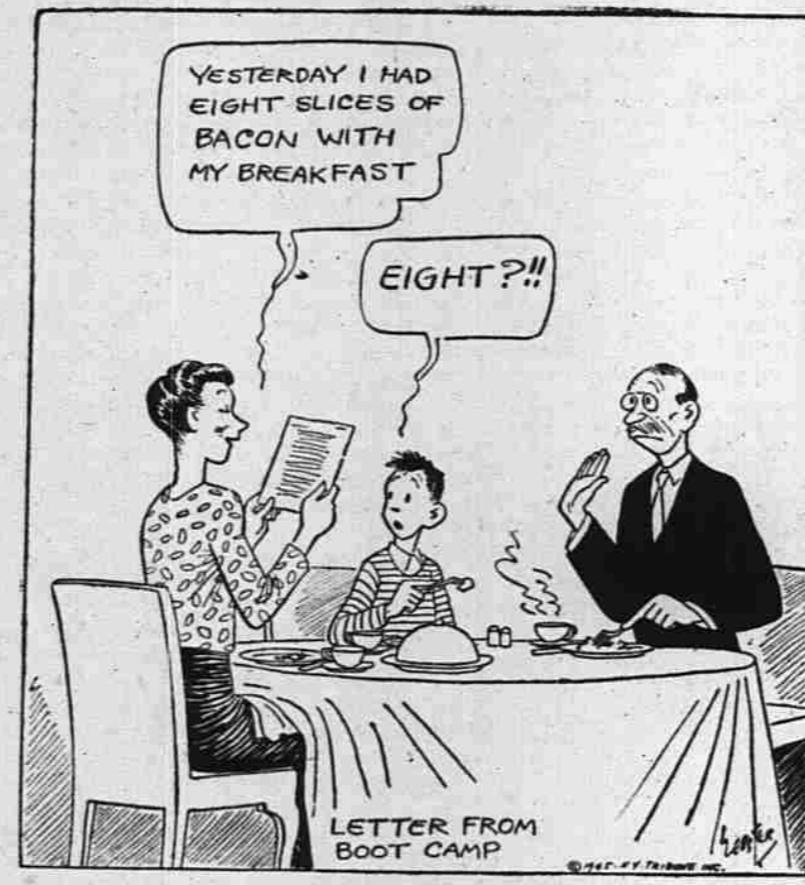

But before we accept this as a finality we should stop and ask ourselves whether there is any other Asiatic power which might interfere.

There's Russia. The Soviet Union is extending its influence methodically in the Asiatic sphere. Japan's defeat is rendering this far easier.

This is no time for prophesy as to what will come out of the Oriental melting-pot, but we shall indeed be short-sighted if we don't recognize that Russia may be the power which will rush into the vacuum created by Japan's elimination.

get the job done. In other words, engender a little teamwork between the folks in the stands and the young men on the field.

Life's Darkest Moment

With The AEF: Nightclubbing In Riot-Torn Java

By HAL BOYLE

BATAVIA, Java (AP)—Nightclubbing in riot-torn Java is like spending a noisy evening in the Lone Star saloon back in gold-dust days of the American wild west.

You can expect anything from brass knuckles to Mickey Finns, and if your only souvenir is a hangover you can figure you came out ahead.

Batavia's nightclub proprietors haven't got around yet to using canal water in their drinks. The most popular concoctions are a skull-cracking brandy that appears to have been distilled from Japanese pine-needle gasoline, and a dubious cocktail mixed with equal parts of cherry flavoring, saccharine and some high-voltage ingredient that smells like mothballs soaked in vinegar and coconut juice.

When these two brews are indiscriminately mixed in the stomachs of Java's cosmopolitan nightclub set, brawls ensue which make this island's daytime struggle for independence from Dutch

rule look like an ordinary lodge election.

There is only one war in the daytime—that's more or less between the natives and the Dutch. But at night—you can choose from half a dozen wars among as many nationalists. The wise man plays the role of bystander—but you have to be fast on your feet.

At present only two real nightclubs are open. The third, which catered largely to Japanese soldiers off duty, had to turn itself into a "day club" to save its remaining fixtures from demolition.

The remaining nightclubs are at Barbary coast level in quality and Stork club level in price. They feature dim, colored lights, tinpan orchestras and both white and Eurasian "common" girls hired for their ability to drink customers under the table.

Their clientele consists of former Dutch internees, Eurasians, British soldiers and sailors and American merchant seamen, a few local tired businessmen and wealthy natives and a number of castaway German submarine crewmen it is a highly explosive mixture.

ATOM SCIENTISTS WORRY, TOO

By JACK STINNETT

WASHINGTON—In discussions of the world control of atomic bombs, it is surprising that the opinions of the scientists who still are working on the bombs are being given so little attention.

Rep. Walter H. Judd (R-Minn.) has laid one report from a group of these scientists before his colleagues, but few so far have incorporated any of the conclusions of the laboratory men into their public arguments.

Except for occasional outbursts by some Congressmen and other public officials who declare we should or shouldn't keep the bomb as a U. S. "strategic" secret, Congress seems willing to wait until the President lays the problem squarely before it.

Even then, there probably will be some buck-passing between the legislative and executive branches. "The scientists who created the atomic bomb," says Rep. Judd, "have spent sleepless nights on what to do with their brain child." And the scientists themselves reiterate this, pointing out that because of the secrecy surrounding its development they have been spending sleepless nights a good deal longer than those who only learned of its horrible force when the first bomb was dropped over Hiroshima.

The scientists who have elected to remain anonymous in making their report set forth their conclusions with direct laboratory logic. They state simply that the United States has four alternatives in control of the atomic bomb and then proceed to show what is wrong with each one.

(1) Disregard the atomic bomb altogether in our formation of foreign policy. Arguments for this are simply that the atomic bombs will not in the long run change the basic nature of war or conquest, and that eventually science will develop an adequate defense against them.

To this latter, the scientists say unequivocally they can "offer no hope of a specific defense against the atomic bomb." They point out also that neither moral sanctions nor fear of retaliation has ever kept a power from using any weapon in its march of conquest. (The latter did prevent use of gas in the late war, but for reasons that wouldn't apply to the atomic bomb.)

(2) Keep our secret; control raw materials and build bigger and better bombs.

To this, the scientists say simply that any nation can find the secret for itself in two to five years; that the raw materials (especially uranium) are scattered all over the world; and that after a minimum number of bombs are constructed, bigger and better ones are just so much useless surplus.

(3) Conquer the world before anybody else can develop the bombs. This is against everything that the United States has fought and bled for and may be dismissed as unthinkable.

(4) Turn atomic power over to international control. The scientists recognize the difficulties ahead in this policy, especially that in so doing the United States will have to sacrifice some of its national sovereignty. But those are the possibilities in a nutshell. Take your pick, the scientists say.

Since 1896, there have been 21 major earthquakes in Japan, each of which has killed more than 1,000 persons.

Scientists Riled Over Censorship

By DREW PEARSON

WASHINGTON — Resentment is rising among the scientists who developed the atomic bomb over rigid censorship. This secrecy goes far beyond revealing how the bomb operates, but actually applies to any discussion of international agreements or politics regarding the bomb.

To stop such discussion, the army has issued one of the most stiff-necked orders in peacetime history, curbing civilian discussion. On the stationery of the Carbide and Carbon Chemicals corporation, Oak Ridge, Tenn., but signed by the executive officer in charge for the army, the censorship directive reads:

"There will be no discussion or speculation on the following subjects:

"A. International agreements beyond the presidential releases. "B. Post-war usage of the principle. "C. Post-war use of present facilities. "D. Medical speculation. "E. Relative importance of various methods of plants of their relative functions or efficiency."

Some of the scientists who materially contributed to the development of the atomic bomb were refugees fleeing Germany because freedom of discussion had vanished. While none of them want to reveal any actual military secrets, they definitely feel that they have a right to discuss the purely academic and political question of "post-war usage of the principle" of the atom, and whether it should or should not be given to other countries, etc.

As a result, many of the scientists are boiling mad, and wondering whether they should have given their time and energy to this invention after all.

Gen. Leslie Groves, the man now insisting on so much secrecy, never wanted to develop the bomb in the first place. A lot of high-powered publicity has been made about General Groves' great contribution to the bomb, but scientists say that at first he was the hardest man of all to convince that the idea would really work.

Capital Chaff Harold McGrath, ex-governor of Rhode Island, now solicitor general of the United States, went to Dallas, Tex., the other day to participate in a big home-coming for his chief, Attorney General Tom Clark. McGrath revelled in Texas hospitality, though was a bit nervous over the revolver shots. Joked over the fact that his state is the smallest in the union, McGrath replied: "At least Texas and Rhode Island put together are bigger than any other state." . . . Says Publisher Bob Smith of the Los Angeles

News: "Truman is absolutely impartial between the east and west in making appointments. First he appoints a man from Kansas City and then he appoints one from St. Louis." . . . On Sept. 10, Secretary of the Navy James Forrestal stated that the total size of the U. S. Navy was 3,389,000 men. Seven days later, Sept. 17, Adm. Lou Denfeld, in charge of navy personnel, told the house naval affairs committee that the navy totaled 3,415,000 men. In other words, at a time when men were supposed to be discharged, the navy increased 26,000 men in one week.

Senator Trapped Trustful, hard-working Senator Glenn Taylor of Idaho, the former cowboy singer, certainly walked into a slick trap in Los Angeles the other day. He called his estranged daughter on the phone and she asked him to come to see her at the newspaper office where she works. He complied.

When he arrived, he did not notice that all the shades were drawn on the windows, obviously a set-up for a concealed camera. And while his daughter kept him standing in an awkward pose, the hidden camera did a beautiful job.

His daughter invited him to come into the office of the managing editor where they could talk. The senator, unfamiliar with newspaper offices, didn't realize that minor newspaper employees don't casually take over an empty managing editor's office for private conferences. So he went along. While there, a dictaphone transcript was made of his conversation.

It made a grand story in the paper next day. Note—Real fact is that when Taylor sent his daughter a Christmas present some years ago, she sent it back with a snooty letter, obviously dictated by Taylor's estranged wife, saying: "Mother gives me much better presents than yours." Now, after nearly 20 years of separation, ex-wife and daughter are suing. Taylor, a first-terminer, has made a good record in the senate.

Hannegan's Shenanigans Without any of the fanfare which once surrounded amiable Big Jim Farley, Postmaster General Bob Hannegan has been doing one of the best political jobs of supporting the White House Washington has seen in years.

Farley used to do a skillful job of winning badly needed votes on Capitol Hill, but Hannegan is outshining the old master. His job of winning senate confirmation for ex-Congressman Ray McKeough of Illinois was nothing short of a miracle. McKeough, who represented the CIO Political Action Committee in the middle west during the last campaign, was nominated to be a maritime commissioner. This immediately aroused AFL opposition. In the senate commerce committee, McKeough lost out by a substantial majority. Many wrote off his case as hopeless.

But Hannegan went to work. He button-holed everybody. He backed Senator Theodore Bilbo of Mississippi up against a tree at the Jefferson Island party and won his vote. He had a special luncheon for Senator Patrick McCarran of Nevada plus AFL leaders but did not quite get McCarran's vote. He even had the nerve to tackle ultra-reactionary Senator Harry Byrd of Virginia, who said he would like to oblige, but couldn't.

However, Hannegan did win the vote of Tydings of Maryland who a few days before had walked out of a CIO meeting after a lot of mutual name-calling. And thanks to Hannegan's tireless campaign, McKeough was confirmed, despite the fact that every republican save three (Langer of North Dakota, Morse of Oregon and La Follette of Wisconsin) voted against him.

Note—Chief difference between Hannegan and Farley is that Farley towards the end was working for himself; Hannegan is all-out for Truman.

Hollywood—

Sinatra, Frank, Becomes Earnest

By BOB THOMAS

HOLLYWOOD — Frank Sinatra is a determined young man and he is continuing his project of fighting intolerance. He is fighting it where his word is most respected—among the kids.

"I was out to Alexander Hamilton high school in the west end of Los Angeles yesterday," he told me after his radio broadcast.

"We had a very good meeting. Out there the problem is pretty simple because intolerance is directed mainly against the Jewish people. But you take some places in New York City where you have Jews, Negroes, Italians, and all kinds of nationalities—that's when the problem really gets tough."

Frank described how he conducted the program before his high school audiences. "I lay it on the line very simply to them. Nothing profound at all—just in simple, human terms. And I try to keep it as light as possible and throw in a laugh now and then. For instance, I usually tell them something like this: "You know, kids, there are all kinds of people who make up our country. There are Protestants and Catholics and Jews. There are Negroes and Irishmen and Italians and Poles. There are big guys and little guys, fat guys and skinny guys like me. . . ."

"Somehow, that never fails to get a laugh. . . ."

He said he inevitably finds his audiences courteous and rapt. "Usually there's a time when they start moving forward in their seats and hanging attentively on the seat in front of them. That's

really gratifying."

After Frank talks to the students, he has a question period. "And that's when I really get into hot water. Man, the questions those kids can think up! I'll never forget one of them. It was in New York. A little Italian boy got up and asked me, 'What'll I do when a guy comes up to me and says, 'You're a dirty—?'"

"That one floored me. I had to stall for time by making a few remarks that got laughs. When I had time to think it over, I told him something like this: "Look—you can't hit the guy because that's the Fascistic way of doing things and we fought the war to get rid of Fascism. So you'll have to do things the American way—reason with him. And then I'd review some of the things I'd spoken about earlier."

"Do you ever sing for them?" I asked.

"I do whatever they want. Sometimes I can get through without singing. That makes me feel pretty good, although I wouldn't mind it if I thought they wanted me to sing. Once in a while, I just about finish when someone yells, 'How about a song?'"

"I always take a pianist along with me in case that happens. You know—like the guy who wasn't prepared to sing, but just happened to bring some sheet music along with him."

Scouters Form Their Own Troop

Rev. Dick O'Brien will be scoutmaster of Troop 569, an organization for scout leaders only, it was decided at a meeting of the new troop in the First Baptist church Sunday afternoon.

H. D. Norris will be senior patrol leader and W. D. Wilbanks, scribe. Seventeen scoutmasters are included in the membership. Three patrols were organized. Roadrunners, with Elra Phillips as patrol leader, has the following membership: the Rev. O'Brien, Mr. Rodman, game leader, Mr. Campbell, assistant patrol leader, and Mr. Johnson, patrol scribe.

The Owl patrol will be led by Arnold Seydler with R. C. Williams, assistant leader, M. E. Boatman, master, W. D. Wilbanks, troop scribe, B. Perkins, cheer master, and Dewey Stewart, patrol scribe.

Lion Patrol will be led by Cecil Nabors with T. L. McGee, John Albers, Charles Watson and George Melear as members.

The Rev. O'Brien opened the meeting Sunday with songs. He also made a talk on "Boys" and Elra Phillips made one on "Duties."

Next Sunday at 2 p. m. an investiture ceremony and explanation of patrol methods.

Group Of Cadets Smart Under New Discharge Orders

An estimated 25 to 30 per cent of cadets at the Big Spring Bomber school are smarting under orders which blocks their discharge under a program which permits other cadets to return to civilian status.

The orders, it was understood from unofficial reports, stem from a regulation regarding cadet discharges and on which the military has decreed "no publicity."

Excluded from discharge are cadets who volunteered for the training from some other branch or status other than that of having initiated military training as a cadet. There are other exceptions, according to the unconfirmed reports, but the crux is in the distinction between training and background.

Effective date of the order, it was learned, is scheduled before the end of the week. Those not discharged presumably would revert to enlisted status and assigned to permanent party, although length of service, points, etc., might exceed many of those eligible for discharge.

**Marine Recruiters Here To Interview Possible Applicants**

A recruiting team of the United States Marine Corps is stopping in Big Spring today and tomorrow to interview men seeking a career in that branch of the service.

A desk in the U.S. Army Recruiting Office in the basement of the Post Office has been commandeered for business. Patrons can gain audience with recruiters with the Marines were required to 5:30 p. m. Wednesday.

Men unable to call during those hours can contact S-Sgt. Ralph Kaffra, in charge of the unit, after closing time at the Settles hotel.

Males between the ages of 17 and 32 are currently being accepted by the peace-time Marine Corps.

Respective Leathernecks can now enlist in that branch of the armed forces for a period of three years according to an announcement made recently by Capt. John F. Gheen, officer in charge of this recruiting district's headquarters at El Paso.

Previously, those desiring service with the Marines were required to volunteer for four years. Marines who re-enlist are also offered a choice of three or four year re-enlistments, according to Capt. Gheen.

Applicants who are accepted will, in addition, be able to avail themselves of the education program through the MC Institute.

**Recommendations From Advisory Unit Eventually To Be Directives**

By GRAHAM HOVEY  
(Substituting for James Marlow)  
WASHINGTON, Oct. 16 (AP)—A week from today, an allied Far Eastern Advisory commission will be established in Washington.

Its main job: To make recommendations on how Japan can best carry out its surrender agreements. Some people think the United States agreed to establish the commission because the Russians complained about the way General MacArthur was running things in Tokyo. Others believe the commission will govern Japan in place of MacArthur.

Both groups are wrong.

First of all, Russia never has lodged a complaint about MacArthur's Tokyo administration. Nor has any other government.

And Secretary of State Byrnes first proposed the commission to Russia, Britain and China August 21—right after the Japanese surrender.

Finally, MacArthur will remain the boss in Tokyo. The commission can't send him a single directive. It will not even send its recommendations to him; they'll go to the governments represented on the commission.

Well, then, will the commission's work be just "window dressing?"

Is it intended to give an appearance of international teamwork while the U. S., through MacArthur, continues to crack the whip alone?

Some persons think so. They note that the U. S. has specified Washington as headquarters for the commission—some 7,000 miles from Tokyo.

Government officials, however, reject this view. After all, they say, if most of our Pacific allies want a certain job done in Japan, we certainly will not hold out against them.

If, for example, nearly all commission members vote to try Emperor Hirohito as a war criminal, it's a good bet he'll be tried. Thus, a "recommendation" eventually could become a "directive."

At first, the commission may be primarily a handy agency through which individual Pacific allies can squawk about anything they might not like in MacArthur's administration.

Its importance seems likely to grow rapidly, however, when the so-called "military" phase of the occupation of Japan ends and it becomes necessary to establish long-range policies for that country.

**Navy Sunday Will Honor Lost At Sea**

Navy Sunday has been designated for Oct. 21 and will be a special day of tribute to the men in all the services who lost their lives at sea in the defense of the United States.

The Navy League is asking the American people everywhere to send one flower to one of the designated ports nearest their own community in time to arrive before midnight on Oct. 20. The League suggests that wherever possible the flower sent be either home grown or wild, and in no case should the expenditure exceed a modest sum. The closest port for Big Spring is Senior Chaplain, Naval Air Training Center, Corpus Christi, Texas.

All flowers received by these chaplains will be placed on naval vessels, and following appropriate all-faith ceremonies at the respective docksides, a ship will proceed to sea from each port and when the vessel reaches a point beyond the sight of land the flowers will be scattered on the waters.

**'The True Glory' No Ordinary Film**

"The True Glory" being presented at the Ritz theatre Thursday under sponsorship of the VFW and auxiliary for benefit of the Howard County Victory Chest, is no ordinary documentary film.

You have the word of Liberty magazine for this, for in the current issue "The True Glory," which shows here Thursday, that it is a means by which "we can all see, hear and at least partly feel the drama and scope of the bloody slugging match that lasted from D-Day to V-E Day.

According to Liberty, the show is summed up effectively in General Dwight Eisenhower's preface—"Teamwork wins wars... all the way down the line from the G.I. and the Tommy... to us brass hats."

Combat cameramen and reporters are responsible for the filming of the victory chronicle and for its extra punch that lifts it from the realm of ordinary documents to one that is alive and vivid. Typical is the comment by a negro soldier on Gen. Patton's Third Army: "Appeared somebody let the rabbit out of the hat. What a rabbit—with pearl-handled revolvers."

Comments from men keep it moving, and in the end a G.I. gazes out over a stretch blanketed with white crosses: "There wouldn't be any loose talk about the next war if everybody could see this."

Tickets are being sold by the VFW auxiliary and are on sale at the Ritz box office.

**American Legion To Organize Negro Post**

AUSTIN, Oct. 16 (AP)—Plans have been completed by the Texas department, American Legion, for organization of negro posts, a policy authorized by the department convention in Fort Worth last month.

The detailed plans were perfected at a two-day meeting of the executive committee which ended here yesterday. Adjutant Harry Rader said that no applications for organizing negro posts have been received but some are expected.

**Awarding Of Medals Set For Homecoming**

WICHITA FALLS, Oct. 16 (AP)—Ceremonies at the homecoming of Texas' 131st Battalion here Oct. 28-29, will include honors to two Congressional Medal of Honor winners from Texas.

Mrs. Ann Oakes Fowler, widow of Lt. Thomas W. Fowler of Wichita Falls, will receive the honors for her husband who was killed in 1944 while leading a drive on Rome. Lieutenant Fowler was the first tank officer to receive the Medal of Honor. His 19-month-old son, Thomas Weldon Fowler, Jr., also will be present.

**Buried Cache Found In Japanese Hideout**

TOKYO, Oct. 16 (AP)—American division troops have located a cache of Japanese silver bars valued at \$1,100,000, it was announced today.

The silver, buried in an underground room about 100 miles from Tokyo, was found by a small detachment.

The soldiers started their search after receiving a tip from intelligence officers that a store of silver was hidden in the vicinity of an abandoned machine shop at Haratsuka, near a naval ordnance plant.

The soldiers searched the area for hours and were about to give up when Sgt. George W. King of Murphysboro, Ill., who was poking around with a stick struck a solid object under a pile of rubble.

The soldiers obtained shovels and located a trap door leading to an underground room about seven by twelve feet.

Stacked in the room were 110 90-pound bars of silver. They were stamped with the Osaka imperial mint stamp.

**Several To Attend Methodist Conference**

Several Big Spring persons are planning to attend the Northwest Texas Conference of the Methodist churches Nov. 7-12 at the St. Paul's Methodist church in Abilene.

M. E. Ooley was elected lay delegate from the First church and R. E. Satterwhite is reserve delegate. Rev. H. C. Smith and Rev. James W. Swafford, accompanied by representatives from Young People's department, are planning to attend.

Wesley Memorial church will elect one delegate and one alternate at the Fourth Quarterly Conference Oct. 24 to attend the Conference with Rev. W. L. Porterfield.

**He's the Sole Owner of the Business Now**

Yes, Mr. Johnson is the sole owner of the business now. But he wouldn't be, if he hadn't invested in Southwestern Life Insurance. His business, you see, began as a partnership; a business that started from scratch, and blossomed into a thriving enterprise. And just at its peak, Mr. Johnson's partner lost his life in an accident.

Fortunate for Mr. Johnson, he and his partner had wisely arranged through Southwestern Life Insurance that either survivor should have the right to purchase the deceased's interest—and, equally as important, the money to do it with. That's how Mr. Johnson became sole owner of the business... and how he has arranged for his heirs to carry on when he gets ready to quit.

Death is the greatest single hazard any business faces. Business insurance offers the most effective method of offsetting the losses, ironing out complications and solving the problems of readjustment that death causes. Through Southwestern Life Insurance, you can do for your business just what Mr. Johnson did. You can have the ready cash, when you need it, to replace a key man, buy out your partner's widow, strengthen the financial structure of your business. Assure the future of that business today with Southwestern Life Insurance.
