Rangers Enjoy Two Game Win Streak

Improper scoring records resulted in a disagreement between the Full Pints and Half Pints last Thursday night. The two teams finally decided to call the game a draw. Following the girls game the fast climbing Rangers were stopped 7-6 by the Braves.

Friday night the game between the Braves and Mobeetie was called because of rain.

Monday night saw the Cardinals easily outscore the league leading Yankees 10-6. The second game of the evening was a last inning thriller between the Braves and the Rangers. Joe Rogers' Rangers won the game in the last inning 14-13.

The Thunderbirds downed the Yankees 15-4 Tuesday night and for the second time in a week the Rangers came through in the last

inning to win. They defeated Mobeetie 12-11.

Team members credit their new found winning streak to Duaine Barber, who just joined the Rangers this week. Barber has been doing an excellent job on the mound as well as hitting two of the longest home runs of the season.

FARM WHEAT ALLOTMENTS MAILED TO GROWERS

Wheat growers of Wheeler County received their 1960 acreage allotments through the mail about July 8, 1959.

There is a total of 361 farms with 1960 wheat acreage allotments in the county having a combined acreage of 22,885 acres. These allotments are being mailed at this time so farmers will have them in advance of the July 23 referendum, at which growers

throughout the country will decide whether to market their 1960 wheat under the same quota system that has been in effect for several years.

The 1960 farm allotment will be about the same in most cases as it was last year. It represents the individual farm's share of the national wheat allotment, which will continue next year at the minimum of 55 million acres per-

mitted by law.

If marketing quotas go into effect for the 1960 wheat crop as a result of two-thirds approval in the coming referendum, the allotment becomes a factor in determining compliance with marketing quotas. The farmer who keeps within his allotment may market his entire wheat production without penalty. The farmer (Continued on Page 8 No. 4)

How well do you know your county officers? Since most political campaigning is done through newspapers and on radio these days I wonder if we might not be like the old farmer in the joke I

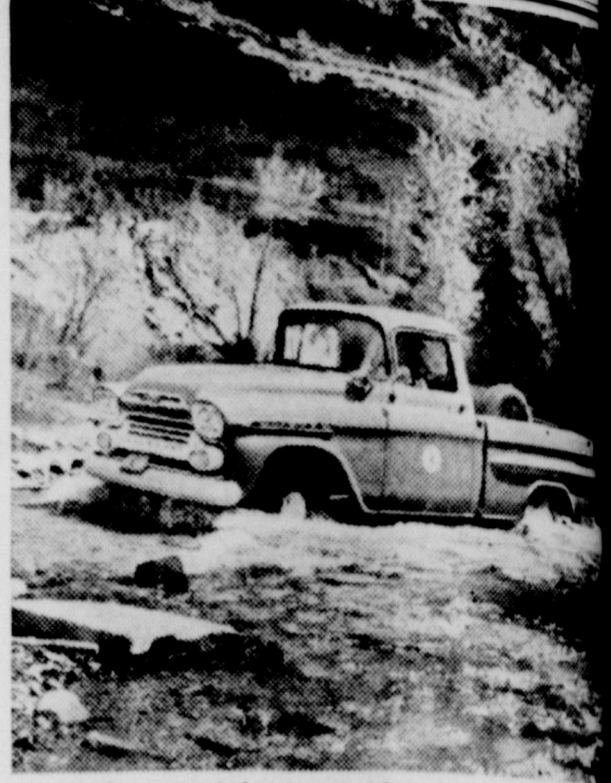

read once. A dusty, shrewd-looking man descended from his wagon outside a farmers house. "Fine piece of land you have here," he exclaimed. "You are right there," replied the farmer. "It's the best piece of land to be found in the county."

THE WHEELER TIMES, WHEELER, TEXAS
Thursday, July 16, 1959

"Bit too high a figure for a poor man, I reckon," asked the stranger. "It's worth every penny of \$500 per acre," answered the farmer with an eye for business. "You thinking of buying in these parts?" said the stranger. "Some notes in a new tax assessor."

Up a steep mud-choked wash—Positraction pays off!

Through a mountain stream—deep in Avintaquin Canyon

NO MOUNTAIN CAT, MISTER...

That's a Chevy with Positraction!

That 3134 Fleetside has the sure-footed ways of a big western brush cat. Roams through high brush country that would buck the life out of most trucks. Crosses streams without benefit of a bridge. Climbs talus grades where pylon won't even grow. But that's all routine for this Chevy, equipped with Positraction rear axle. It's hard at it every day for the Utah Fish and Game commission. Figure about 60,000 miles of mountaineering before this Chevy is traded. And yet the

district officer who drives it would bet his badge the tie rods won't even need replacing!

Out in that wild, climbing Utah country, Chevy's suspension and frame and brakes, its Positraction rear axle and Thriftmaster 6 power are proving themselves under rougher conditions than most test engineers could dream up. They're proving that Chevrolet's advanced engineering and design ideas pay off—in spades—when the going gets especially mean and dirty.

Positraction, of course, is a big plus on this job, providing the sure grip needed to dig through mud, snow, loose sand, whatever comes along. Could be that a Positraction-equipped 1/2-ton pickup is the answer for your area of operation. Or maybe a 4-wheel drive Chevy. We've got trucks that specialize in getting in and out of any kind of country. Talk to your dealer about your needs. He'll show you what tough trucks are made of.

Agent Attends School in Ft. Collins, Colorado

Bryan Swaim, County Agent, has just returned from a three weeks training school for Extension Agents at the Colorado State University, Ft. Collins, Colorado. Swaim said he received credit in two courses, Principles in the

Development of Agricultural Policy and Organization and Development of Extension Programs which would count on his master's degree. He said they received four hours lecture each day and a equal number of hours in the library doing research each day. A very well organized program was planned and there was something to do at all times. The weather was similar to here except it was somewhat cooler of a night, but it was about as warm up in the day. Swaim said he sure thanked the Commissioner's Court for allowing him to accept the scholarship and receive this advance training which he thinks will help him plan a better program of extension work in Wheeler County.

From all the Newspaper reports we are shore gettin to be Kissin Cousins to them Boishevies. They are invited over to a Dominno Game at the Capitol then they would be escorted over to some other doins and then scotted plum across country to a Corn Huskin or Mellon Pickin. Them birds know more about what is goin on in our country than we do. I see where one of them hard to get birds has changed his mind and wants to come over and see how we get by with so much with so little. Dont guess he has heard about the fall Budget Terms we have. One of my Bootlegin Kinfolk and I wuz talkin about keep things sort of quit and he told me he shore wasnt in accord with the Government with their ideas of it. He said he had to be careful who he invited over to have a Toddy or who knew about his business. Some of the ones that seemed most interested was the ones that had the least money and the biggest mouths. Gettin back to them Rusky's, I am in favor of telling all them Tater Eaters to go jump in the lake and if necessary markin the spot. How about you?

There were over 300 friends and relatives called during the open house with loads of beautiful gifts.

Carey Dysart was born in Ellis County February 9, 1889, came to Mobeetie October 6, 1916 where they have made their home. This has been a changing life as Mr. Dysart says he will take the present rather than the past, and prefers the present conveniences than the frontier days.

Mr. Dysart has been a stock farmer all his life until four years ago when he retired.

Mrs. Minnie Lee (Kessler) Dysart was born October 6, 1889 near Roanoke, Virginia. Mr. and Mrs. Dysart were married by the late Rev. J. W. Hembree in the

who is over his allotment will ordinarily be subject to a penalty on the normal production of his excess acres.

An exception to this general rule is that any farmer may produce up to 15 acres of wheat without penalty. Also, a farmer with an allotment of less than 30 acres may apply for a feed wheat exemption and, if it is approved, may produce up to 30 acres of wheat to be used on the farm where grown.

The farmer who complies with his wheat allotment is eligible for price support, either with or without marketing quotas in effect. The acreage allotment is also a factor in Soil Bank compliance and the determination of future wheat allotments.

Compliance with the allotment is required of any farmer participating in the Conservation Reserve of the Soil Bank. The farmer who exceeds his allotment, produces more than 15 acres of wheat and is not participating in the feed wheat program is ineligible for Conservation Reserve payments.

For purposes of establishing future allotments, the farmer who complies with his 1960 wheat allotment receives credit for his full wheat base and thus gets credit for the acreage diverted from wheat. The farmer who exceeds his allotment receives no credit for the diverted acreage unless he stores his excess wheat under marketing quota regulations or delivers it to the government.

Any farmer who has questions about his 1960 wheat allotment should take them up with the staff of the county office as soon as possible after the allotment is received.

brides home June 27, 1909 near Wellington, Texas. Six guests were present who were at their wedding 50 years ago, the best man, C. A. Kessler, who is the brides brother, and the bridesmaid, (Miss Edna Farbis), Mrs. C. A. Kessler.

There were four ministers and one missionary present. Before the crowd separated they had two hymns sang by their son Elwyn and grandson Carlend Savage with Mrs. Burkham at the piano. This surely did finish the day off in a wonderful way.

CARD OF THANKS

We would like to sincerely thank each person who made it possible for us to take our trip to the mountains in New Mexico. Each one that didn't get to go, missed a fun packed trip and a wonderful time at the Bownens cabin. We realize that without the help of many people, our trip would have been impossible. To everyone who helped with our transportation, food, and many other things, we say "Thanks."
