The effort of most of the students was really appreciated to make this year's fair a success.

FIRST PLACE: Seventh Division: Amy Ivey, left, and Tammy Gallagher worked together on the project which won them first place in the seventh grade division at Wheeler's Science Fair. "Soil,

Plant Types" was the subject of the project; seeds were planted and cared for six types of soil. With equal amounts of water and light, the observer is shown the affect soil has on plant growth.

BEST OF SHOW: For her exhibit, "The Hurricane Generator", Shonda Miller was awarded the "Best of Show" award at Wheeler Junior High's Annual Science Fair. The exhibit showed the elements and conditions necessary for the development of a hurricane; with the exhibit in operation, one could actually watch a hurricane form. Kenneth Wyatt Will Address Greenbelt Co-op April 27th

Dr. Kenneth Wyatt, noted artist, author, and speaker will address Greenbelt Electric Co-operative's Annual Membership Meeting, Friday, April 27, at 2 p.m. at the Bura Handley Community Center in Wellington, Texas. Registration begins at 1:30 p.m.

Five grand prizes of \$100 energy credits to be applied to a member's electric bill head a long list of door prizes that includes a free gift for each member who registers at the meeting. Wyatt, first president of the Texas Cowboy Artist Association, and winner of many cultural and civic awards, began his distinguished career as a minister. His current calling is an "Artist, speaker, and author, primarily a western artist working in oils, watercolor, pencil, pastel, charcoal and sculpture." But it is difficult to decide if he is most respected for his artistic gift or his 'gift of gab'.

He received high honors at numerous Texas Cowboy Artists annual shows; he has been an after-dinner speaker for the Knife and Fork Clubs. He held nine Methodist pastorates in Texas between 1944 and 1967, the first at only 14 years of age. His work in art has produced prints, Christmas cards, greeting cards, note cards, limited edition prints, and bronze sculptures, in addition to originals.

Jim Morriss, General Manager of Texas Electric Cooperatives, will serve as master of

ceremonies at the meeting. All members are urged to attend. No reservations are needed, and the press is cordially invited. For more information, contact David Pruitt, Greenbelt Electric manager, at 447-2536.

CWE CHAT WITH EDITOR

By Louis C. Stas

It was back to Dallas for the Texas-Oklahoma District Key Club Convention this weekend. Fourteen young men, Jim Wright, and I left Friday morning in three vehicles for the trip. We arrived in Dallas at the Hyatt-Regency around 3 p.m.

At this convention, the young people see democracy in action with the operation of their organization. In addition to the meetings for entertainment and the presentation of awards, caucusses are held for the organization's political candidates to campaign. The leaders for the coming year are elected by ballot on Sunday morning and the officers are installed Sunday at noon.

The finalists in talent, oratory and essay writing are presented Saturday night along with the Key Club Sweetheart candidates.

It was an enjoyable three days. The return trip Sunday evening was uneventful; nothing like last year.

The second annual Wheeler Junior High Science Fair was held Wednesday, Thursday, and Friday of last week. It was worth the time to see the exhibits entered by the students. Many of these projects represented a lot of work and the students are to be commended for the end result.

The fifth annual Guys and Dolls Pageant will be held next Thursday evening, April 26. This affair always proves enjoyable, especially for parents and grandchildren. The age limits are "walking" thru

Care Center Comments

By Laura Guthrie

The first thing I noticed when I peeped into the office door today, was a lovely golden hand and a sparkling diamond on the left hand of Cherry, Mr. Hyatt's secretary. Sure enough, she told me she had taken a few hours off last Thursday, April 12th, and she and Mike Johnson of McLean had exchanged wedding vows. The couple will live in McLean but Cherry will continue to work at the Care Center. We wish for her all the good things of life, and congratulate the groom.

In a visit with Mr. and Mrs. Troy Lance, I found them set up in a comfortable, cozy room with some personal things around—such as a clock on the wall and vases of flowers. The Lances have lived in Shamrock, but are not able to live in their home again, it was for sale. Close friends took over and sold the house and contents, reserving a few things the Lances asked to be brought to them. They are very grateful to such helpful friends.

On Monday, Lowell and Louise Pendleton of Stinnett, visited with his dad, Chessie Pendleton and his aunt, Nora Patterson.

Lucy Neal's son visited her Sunday. He also visited the Lances.

Icyl Littrell says she's trying to look like a Hollywood movie character these days, and indeed, she was wearing very dark glasses that covered a big portion of her face. There's a reason for that. She has had eye surgery—and there's more coming up.

Mrs. Christner has been going to High Plains Hospital in Amarillo for eye treatment. She visited Icyl while she was there.

Mr. and Mrs. Jack Roach of Shamrock visited Sunday with friends in the Center. Mrs. Mary Bledsoe and Mrs. Christner were on their list.

Mrs. Greta Thompson brought a huge cake to the Birthday party last week. Her dad, Oscar Pitman, was one of the birthday people. Boyd Thompson and family visited with the grandparents, the Pitmans, on Saturday.

Pauline Ford Montgomery of Perryton, and Max and Betty Baird of Crosbyton visited with Mrs. Mary Bledsoe on Sunday.

Mable McCaslin of Borger is a new resident of the Care Center. She is the mother of R.J. Smith and James L. of Wheeler, Vinson of Briscoe, and Sherman of Shamrock.

Ruth Miles visited her mother, Aline Holt, today (Monday) and helped with shampooing and curling her hair.

Lola Shira has returned from the local hospital. Mrs. Ruth Coates is still in Amarillo hospital. In the local hospital, are Jewel West, Oscar Pitman, Golda McIlhany, Sue Ivey, Ethel Herd, and Mildred Hamilton.

Another new resident is Floyd Burgess of Amarillo.

Top O' Texas CowBelles

Top O' Texas CowBelles met April 9, 1984, at 11:30 A.M. at the Biarritz Club in Pampa with 22 members and guests present. Towns represented were: Pampa, Canadian, Panhandle, Shamrock, Groom, White Deer, McLean, Wheeler, and Miami. Members from Wheeler were: Amelia Sims, Anita Brown, Brooke Vise, and Vida Brown.

Reports were given on the success of the style show and on the Texas CowBelle mid-year meeting.

Name tags will be ordered for all members desiring them to be used when officially representing CowBelles.

The Tri-State Fair booth was discussed. We will cooperate with other CowBelle locals. It will be held the first week in September.

CowBelles meet the second Monday of each month and would welcome all ladies allied with the beef industry.

fair last week. Out of all the experiments, Shonda Miller was awarded a blue ribbon for best experiment in the show, and for the top exhibit in the eighth grade. Shonda's experiment showed how hurricanes come about. First place in the seventh grade class went to Tammy Gallagher and Amy Ivey for their experiments with plants. Dave Johnson received top honors in the sixth grade. His experiment was a "firebox" showing the three things necessary for a fire to take place. Sponsors for the event were jr. high science teachers, Coach Warren Bessly, Coach Ronnie Karcher, and Coach Mike Newland. This was the second year for the event at W.J.H.

Anyone who enjoys eating M & M's will want to talk to one of the high school cheerleaders. The squad is selling boxes of plain or peanut M & M's at fifty cents a box. Money from the project will go to help finance cheerleading camp, and for their uniforms.

The Wheeler High School Key Club traveled to Dallas this past weekend for District convention. President of the club is Sid Whiteley, a senior at W.H.S. The officers for next year are as follows: President,

Darren Grimes; Vice-President, Robert Meadows; Secretary, Jay Kinnard; and Treasurer, Randy Horton. Kiwanis sponsor for the Key Club is Mr. Jim Wright.

Student Council elections were held at Wheeler High School last Monday. Hopefully, I will be able to post the results in my next column. Here are the officers as elected last year by the student body of W.H.S.: President, Sidney Whiteley; Vice President, Russell Bradstreet; Secretary, Treasurer, Becky Crockett; Flag Bearers, Kristi Pierce and Sherri Shelton; Chaplain, Andrea McGaughey; Song leader, Angie Bailey; Pianist, Lori Lee. Two representatives from each of the four high school classes are also on the student council.

Early last Thursday at 6:30 a.m., seven of us set out in the school Suburban and later on at about 8:30 a.m., five others

came. All in all, even though no one qualified for the state U.I.L. meet, the trip was great fun with loads of surprises. Those people who went on the trip were as follows: Stacy Adams, Informative Speaking; Kristi Pierce, Shorthand; Angie Bailey, Science; Jay Kinnard, Number Sense; Augie Hennard, Ready Writing; Katrina Krug, Ready Writing; Melanie Dutton, Debate; Katie Jackson, Debate; and Lyndol Loyd, Editorial and Feature Writing in Journalism. Sponsors for the trip were Eddie Richardson, Elaine Martin, and Rhonda Blanchard. Mrs. Woollard and Mrs. Wiley, W.H.S. Home Ec. teachers, went to the state F.H.A. convention this past Wednesday, Thursday and Friday with a few students. The convention was held at San Antonio, Texas.

Now, maybe you know what's happening at W.H.S.!

Mobeetie Delays Computer

In an effort to get the most of a warranty, Mobeetie school officials will delay awarding bids on a computer system until the beginning of the next school year. Mobeetie school board was to have opened and awarded bids on a computer system at its regular meeting Thursday night but chose to wait until later in the summer after a computer class room is built.

The classroom will be a 20 x 25 foot addition to the home economics classroom.

We are going to wait until about August and watch prices Mr. Mickey, the school superintendent, said. That way they will be able to get full use of a 90 day warranty. They hope to have the classroom finished by August 1st.

Mr. Mickey said he felt they could save money by doing it later because the computer prices are so competitive.

After putting through seven bids for construction of the computer classroom, trustees approved the low bid from Mobeetie builder C.W. Burch. The bids varied from \$17,045 to \$7,900.

In other business, Mobeetie trustees voted their disapproval of recommendations made by the Texas select committee on public education. Area schools were sent a letter from the Texas association asking them to comment on the controversial proposals made by electronics magnate H. Ross Perot.

Mr. Mickey reported that among the SCOPE proposals the Mobeetie board members particularly disagreed with were to cut funding for vocational programs, lengthening the school day and year, pre-kindergarten schooling, and a statewide achievement test for students.

Trustees also hired two Oklahomans to teaching positions. Debra Finsterwald was hired to teach social studies and to coach some girls' sports, and Rolanda Meadows was hired to teach secondary science. Both are graduates of Southwestern Oklahoma State University.

building housing for teachers although trustees talked about faculty housing with two contractors at the meeting.

In other business, trustees re-employed the Region XVI co-op program, hired faculty aids and canvassed results of the Saturday school board election.

Incumbents Glen D. Hodges and James Batton re-assumed their positions on the board. The other current members The current officers, President Hodges, Vice-president Paul Hathaway, and Secretary Batton will serve another term.

Political Rally
On Saturday, April 14th, 7:00 p.m., a rally was held in the Mobeetie High School Gymnasium for everyone to meet candidates in county

offices. The last time a rally was held in Mobeetie was in 1976.

The rally was sponsored by the Mobeetie Volunteer Fire Department, and featured candidates for Wheeler county offices as well as state representative J.W. (Buck) Buchanan from Dumas.

Each candidate spoke for five minutes and was followed by a bake sale allowing the candidates and people to become better acquainted.

Mobeetie Loses U.I.L.
After a long month of practice and wishful thinking, Mobeetie High School was beaten out of the one act play competition Thursday at Levelland. Mobeetie is very proud of our school as they also went this far in 1983 so kids we are very proud of you.

In the play, "After Midnight Before Dawn", it deals with four prisoners who are duped into committing their souls to the devil.

Student player Diane Moffett was named to the Regional All Star Cast for her portrayal of one of the prisoners. Tina Densberger received honorable mention for her performance.

Mobeetie Appoints Aldermen and Mayor
Mobeetie city officials elected Greg Estes and Dale Hathaway as city aldermen.

Estes and Hathaway were sworn in at a special meeting on Tuesday night. Incumbent council member Don Moore was the only candidate to file in the election.

The council members decided on April 12th to appoint Leona House for mayor.

What happens. . .

. . . if your child disappears? The first 30 minutes are the most important to find the child.

Kidnapping children is getting to be a major problem in our country. I want to prepare for this situation. As your next Sheriff, I will have a road block and search system that can be set up in 5 minutes (this can be done). This will take man power. I have not talked to a volunteer fireman or private citizen that is not willing to help. Whatever it takes, that's the way it will be.

Our communities are small in our country. Together we can make them safer. I don't want our county taken advantage of. As your sheriff, I will do whatever it takes to prevent one of our children from being a target. I will see that an educational program will be in every school two times a year. This will help our children protect themselves as much as possible. I have four children of my own, one still at home.

We, as parents, need to be educated to the tactics that lure our children. I feel there are many things that need to be changed, and so many things that need to be added to the sheriff's office. I am willing to work hard, hand in hand, with the people of Wheeler county.

With your vote May 5th, we can together protect our children.

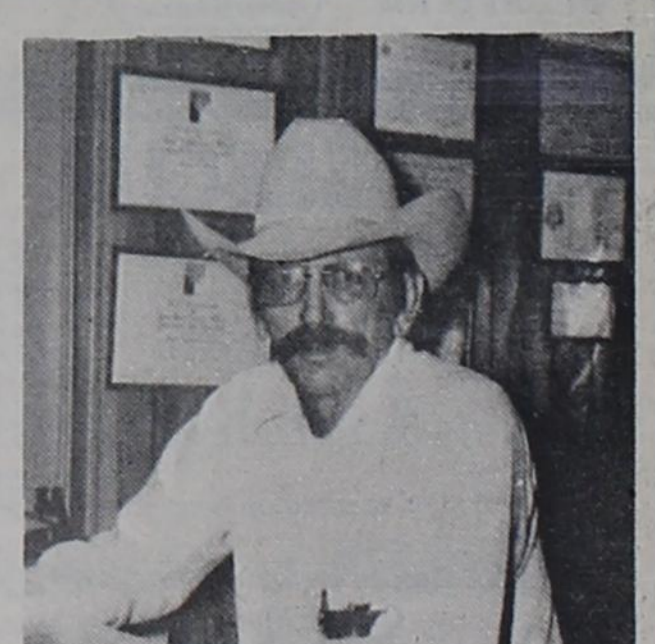

Something to think about: A person walks up to your child and says, "Your father had a heart attack; your mom wants me to take you to the hospital right now. Would your child go?"

This is one of the many ways that can wipe out all the teachings we give to our children. I want to be your sheriff. Each of you, young or old, are important to me.

Your vote and influence appreciated.

Sweetwater News

By Mrs. Joe Flowers
Seems April is the hardest month of all to get through. The worst blizzard ever came howling in on the 6th back in 1938. We burned fence posts to keep warm.

April 9th some 37 years ago, a killer tornado blew us away. Already we've had Friday the 13th this year. And, oh my, the 16th. Uncle Sam has been looking over everybody's shoulders to be sure we kick in enough. And of course, we've had to send an estimate payment for this quarter. Can't win for losing. Well, it seems like the old boy is in desperate straits. Maybe he needs it as bad as we do.

We got slaphappy and took in three greenhouses last week. Stopped by Braum's for a hamburger. There sat our neighbors Pauline and Royce Roberts. They'd been out to Merritt to a ballgame where Sayre trounced their team. Were back eating ice cream to comfort their injured feelings.

Also saw Laveda Shelton. She is finally recovered from injuries suffered in a fall and back working for Penneys.

The good thing about April is Easter. As we go to church to celebrate the resurrection of the Savior, don't forget they have church every week, not just Christmas and Easter. A Happy Holiday to all of you.

Tommy LeGrand is home after having surgery at OKC. Loretta Killingsworth and Alberta LeGrand spent some time on the farm helping their dad Walter Fourier. Seems he has been sort of under the weather after tangling with a cow.

Mr. and Mrs. Danny Miller have a new baby girl named Danielle Jo. Grandparents are Woodrow and Leona Miller, Mr. and Mrs. Charles Thornton. Great grandparents are

Mr. and Mrs. Dave Thornton and Clara Ballew.

Some 20 of the Kitchen Band went to Town Hall Estates last Monday. We missed the month before on account of the flu. Were really glad to see everyone again.

The Band was saddened to learn of the death of a former member, Betty Cover. Services were at Erick Monday. She had been in ill health a long time.

The Band goes to Thomas April 16, to give Lela Lakey a party. They also plan to attend the celebration at Mangum, May 11th.

We're having onions and asparagus from the garden. One thing about gardening, if you're not having fun, forget it.

Wheeler Co. Appraisal Dist.

Marilyn Copeland, chief appraiser for Wheeler County Appraisal District, reminds district residents that those

property owners required to render their taxable property for taxation must file these statements with the appraisal office before May 1.

Rendering property is a method through which a property owner reports or lists the taxable property he owned or managed on January 1, 1984. It is also the means by which a taxpayer is allowed to record his opinion of his property's value.

The Texas Property Tax Code is specific in listing property which must be rendered to the chief appraiser for taxation.

A taxpayer must render all taxable personal property used for the production of income if, on January 1 of the tax year, he owns the property or manages and controls it. Examples include business vehicles, office furniture and fixtures, and inventories.

Tax law also requires banks located in Texas to file a statement listing assets and liabilities.

The chief appraiser may also require a person to render any other taxable property that he owns or manages and controls on January 1. The chief appraiser will deliver written notice that a rendition statement is required and attach the appropriate form.

Even when not required, any property owner may voluntarily file a rendition with the appraisal district.

According to Copeland, rendition statements are filed with the chief appraiser of the appraisal district in which the property is located.

Any taxpayer who believes that his property's value has decreased during the preceding tax year, for any reason other than normal depreciation, may submit a "report of decreased value" to the chief appraiser. This report describes the property involved and states the nature and cause of the decrease.

Forms for rendition and the report of decreased value may be obtained from the Wheeler County Appraisal District office. Anyone filing a rendition or report must include all the information requested on the form, and it must be signed by the property owner or an authorized individual.

When rendering property, it is not necessary to state a market value for it, Copeland said. However, a taxpayer may include his opinion of its market value and thus be assured of official notification in case the appraisal office places a greater value on the property.

Copeland also said that renditions and property reports are confidential and not open to public inspection.

The forms should be filed with Copeland before May 1 at the appraisal district office at the corner of Courthouse Square, Wheeler, Texas. For more information, call 826-5900.

They sell that stuff at the store. There's nothing cheap about home-raised stuff. For one thing, my rat got tired of warfarin' and ate 300 foot of soaker hose. Another thing, gardens need rain every week and it just rains in Oklahoma every month or so.

Mr. and Mrs. Evan Fuchs visited Thursday night with Hortense Madden.

The Mayfield Community meeting was last Thursday night with a potluck supper. Ed Ivester of Sayre was out to discuss the Old German Cemetery known as Salem. A committee was appointed to see what they could do about future care of the cemetery.

Mr. Ivester said it was old enough to be eligible for an historical marker. There is money in the Sayre bank from past donations. Also two acres of mineral rights released.

Birdie Whipkey was voted president of the board, Mary

Bollen, secretary; Esther Dickey, Ruby Sutton, and Betty Blevins, members. Mae Welch and her daughter were down from Briscoe.

Mr. and Mrs. Harvey Banks and Marjorie of Old Glory, Texas, were out to spend the weekend with the Truman Alexanders. Also visited other relatives, Jerry, Lisa, and children were Sunday visitors.

Jerry and Lisa took little Joel to OKC for his checkup. He received a good report.

Everyone there is all excited getting their stock ready for the dairy show at Cheyenne. Truman has some racing stock near Sayre and stays busy seeing about them.

Mr. and Mrs. Elec Atchley, Sue Keathley, and Donnaleta Fuchs went to Amarillo to be with Wilma Smith of Shamrock during her surgery.

Saw a good bumper sticker - Too old to work and too young to die. Guess that was their answer to Gov. Lamm.

He really was lambasted about what he said but I don't think he quite meant it as the media said. It's to their benefit to make the bad worse and the good better.

We all know that, quite often, miracle drugs and machines are used to keep people alive only to suffer and they may not even have enough mind to know they are alive.

Long ago, babies were left out over night in the weather. The weak and afflicted died. The Eskimo old folks got on icebergs and were swept out to sea. The southern natives

would give their old a jug of water and take them to the wilds where they would sit under a tree till death claimed them. Of course, that was thousands of years ago. We are much more civilized now.

The Baptist church is having a revival with Bro. Walter Knox as evangelist and Dale Rowland song leader.

Mr. and Mrs. Howard Dickey had lunch Saturday with Erdice Nichols at Sayre. Howard mowed her lawn. They visited Fanny Fourier at Town Hall.

Sam Alexander has moved back to the farm from Elk.

Handling Your Own Consumer Complaints
Consumers mean business for stores, companies and services. They also mean business about having their complaints resolved.

Even in today's complex market place, consumers should expect quality products and services at fair prices. But when something goes wrong, you need to let the company

know about your problem. This is the fastest way to get your complaint resolved. It also gives the company a chance to keep your business and gain new customers by learning from mistakes. Most companies welcome this opportunity.

Handling your own complaint is easy if you take the following steps:

Identify the problem and what you believe would be a fair settlement. Do you want your money back? Would you like the product repaired? Will an exchange do?

Gather documentation regarding your complaint. Sales receipts, repair orders, warranties, cancelled checks, or contracts will back up your complaint and help the company solve your problem.

Go back to where you made the purchase. Contact the person who sold you the item or performed the service. Explain the problem and what action you would like taken. That person is not helpful, ask for the supervisor or manager and repeat your complaint. A large percentage of consumer problems are resolved at this level. Chances are yours will be too.

Don't give up, if you are not satisfied with the response. If the company operates nationally or the product is a national brand, write a letter to the person responsible for consumer complaints at the company's headquarters.

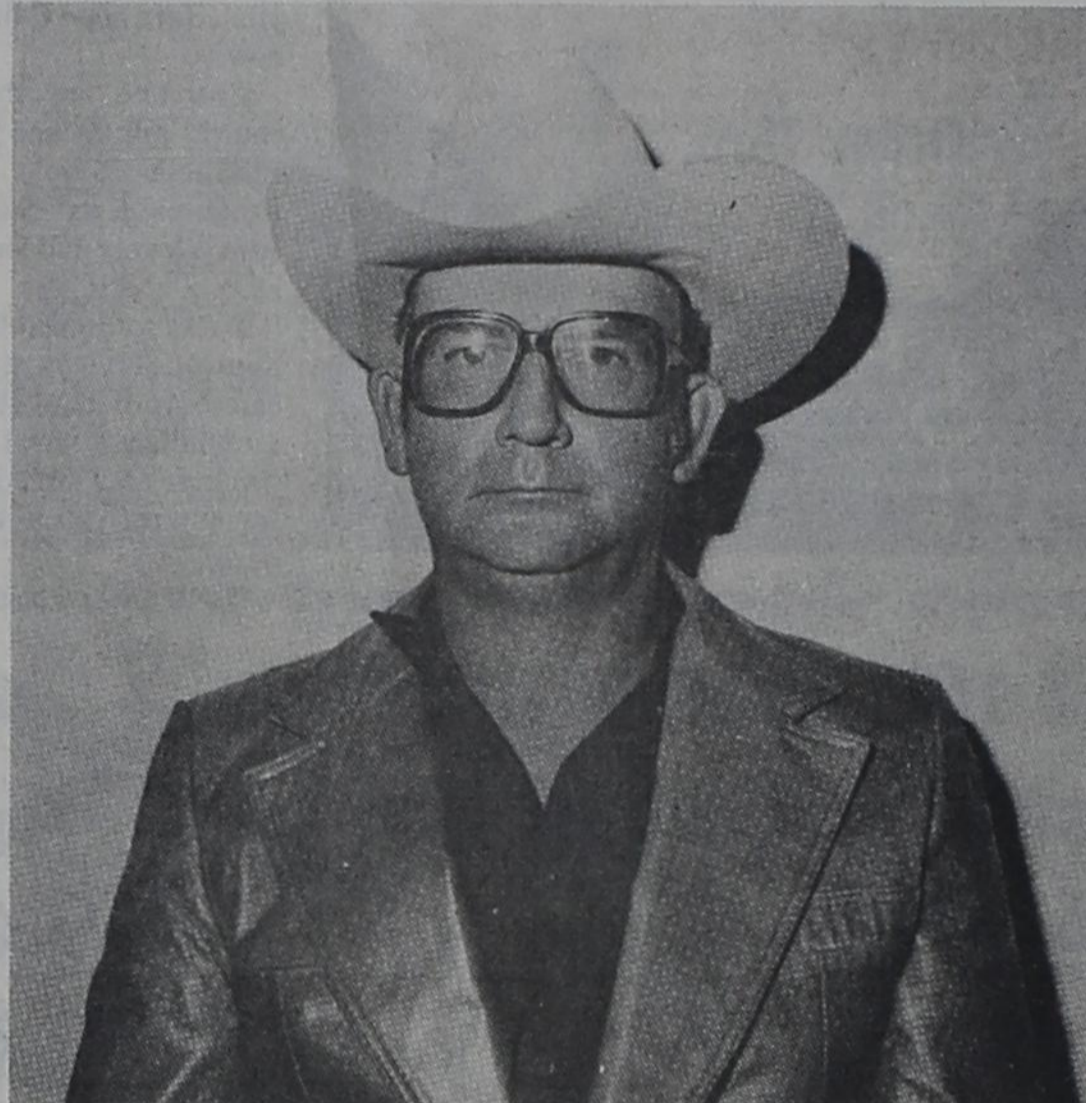

After that, contact an industry dispute program; the Better Business Bureau, or a local or state government office. In Texas, contact Maria Mercado, Assistant Attorney General, Consumer Protection Division, Office of Attorney General, 806 Broadway, Suite 312, Lubbock, Texas, 79401; (806) 747-5238.

Finally, contact a trade association or agency of the Federal government if your complaint has not been satisfactorily resolved. Your last resort is a small claims court or private lawyer.

A free consumer handbook containing information about complaint resolution and names and addresses of public and private organizations may be obtained by writing to: Handbook, Consumer Information Center, Pueblo, Colorado 81009.

Educational programs conducted by the Texas Agricultural Extension Service served people of all ages regardless of socio-economic level, race, color, sex, religion, or national origin.

WHAT IS TAX RENDITION?

This public service message from the State Property Tax Board, local taxing authorities and this newspaper explains the process.

Rendition is the method through which a taxpayer reports or lists the taxable property he owned or managed and controlled on January 1 of the current tax year. It is also the means by which a taxpayer is allowed to record his own opinion of what the value of that property should be.

Not every taxpayer is required to file a rendition, but there are important reasons why a taxpayer may wish to do so.

Renditions must be filed: (1) for all tangible personal property used for the production of income; or (2) on any other taxable property if required by the chief appraiser.

Renditions may be filed by any taxpayer who wishes to preserve certain valuable rights.

Even if you aren't required to prepare and file a rendition on your property, there are several good reasons why you should do so:

- As previously noted, by filing a rendition, you have placed into the record your own opinion as to the value of your property.
- You create a responsibility on the part of the chief appraiser and the appraisal review board to notify you if they intend to increase the value of your property by any amount over what you have rendered. Further, you have the right to protest to the appraisal review board either the increase in value or any other decision affecting the taxability of your property.
- You place your correct mailing address on record, thus ensuring receipt of tax

statements. If your statement goes to an inaccurate or old address, you may be liable for penalty and interest if your taxes are paid late.

In addition to a rendition, you also may file a special report called a report of decreased value if the value of your property decreased during the preceding tax year for any reason other than normal depreciation. The appraisal office will view the property and verify any reported change in appraised value and its cause and nature.

Renditions and other property reports should be filed with the county appraisal district office at any time from January 1 through April 30.

Rendition forms for various types of property, as well as other property report forms, are available from the appraisal district office. Your appraisal district can also give you a free copy of the Taxpayers' Rights, Remedies, Responsibilities pamphlet which explains exemptions, appeal rights, and other details of the local property tax system in Texas. Or, contact the State Property Tax Board in Austin.

The Old Mobeetie Association had their regular monthly meeting on Thursday, the twelfth of April, in the First State Bank of Mobeetie at 6:00 P.M.

The meeting was called to order by the president, Secretary Austin Caldwell, read the minutes of the last meeting and they were approved as read. Treasurer gave a report that Sallie Harris had sold three Bicentennial coins, giving the museum a deposit of \$11.00 for March.

Jap Bailey reported that Bob Galmor had gone to Pampa and purchased a tool storage house for the museum at the cost of \$691.60. It was to be delivered Friday, the 13th. The wind had blown the former house apart and scattered it over the yard. Members present were Bob Galmor, Jap Bailey, Goldie and Ernest Gordon, Louise Hogan, Austin and Bernice Caldwell, and Sallie Harris.

The group voted to meet at 7:00 in May at the Bank. Mark your calendar and come. We need all of you present each month.

After the meeting adjourned, Dave LeCage and his assistant met the Caldwell's and Sallie at the Stagecoach Restaurant to discuss the Blue Grass Music Festival. Sallie had the historical stories ready and presented them to Dave for the magazine published each summer to give visitors. This year the music weekend will be 27-28-29 of July. They will meet with us again in May.

By Wanda Walker

What a great country we are privileged to live in. I feel with all its problems, it is still the best society and government in this present world. If we all pull together and allow God to lead us, we can continue to stand as a powerful and purposeful government.

Peace in the world at any cost is not peace at all, just compromise. Some things are too important to compromise. We must be willing to stand up and fight for our freedoms that were bought by blood. If we choose our leaders wisely and stand behind them instead of tearing them apart, we can still be the strong America that was once founded upon Bible principles. Our nation can never be any better than its citizens as individuals. We must get our priorities straightened out.

There is proof that there is less crime and less addiction to drugs in strong, morally minded families. Care and concern for others is necessary to help heal the wounds of our societies that have turned away from Godly principles and yielded their minds and bodies to the temporary prince of this world, which is Satan.

Studies show that irreparable damage has been done to the brain and other organs of the bodies of our young people over the last twenty years by excessive amounts of chemicals taken into their bodies through alcohol, drugs, nicotine and caffeine. It is a known fact that alcohol is the number one drug problem in America. It affects people of all ages, whether it is them or a family member that is addicted.

Everything God created was good, but man has misused, abused, and over-indulged to such an extent, that things have become harmful and dangerous that were intended for our benefit.

Nicotine from the tobacco plant has been found to be an effective pesticide because it is a fast acting poison. Its depressant action on vital nerve centers is useful in the destruction of insect pest. In former times, tobacco was used extensively in medical practice for its nicotine content as a strong sedative.

Caffeine can be used for headaches, to stimulate kidney function. By hyperdermic injection, it is used to stimulate circulation and respiration (it functions thus as an antidote for barbiturate and morphine poisoning). When used in moderation, caffeine-containing beverages appear to be harmless to the consumer.

The key to all things is moderation or abstinence. The word of God still has the answers to life's problems. One spirit directed many writers to give answers to past, present, and future needs.

There are evil spirits that try to prevent us from being over-comers in this life and do everything in their power to keep us from inheriting eternal life.

Satan leads a vast number of fallen angels that took sides with him against God long ago. They have been given power over the world to deceive all that do not love God with all their mind, body, and soul.

God is over the whole universe. Only a short time will He allow Satan to rule over the world. One day is as a thousand and to the Lord one thousand is as a day to him. Satan knows he has only a short time and he is doing everything in his power to deceive people. He knows that he is judged already, and he plans to take everyone with him that he can. He comes as an angel of light sometimes and at other times he causes fear.

Our country must know its enemy before it can defend itself. A disrespect for leaders is one of his effective tools. A disrespect for God's laws and commandments is another

thoughts. We must continually say, "Not my will, but thine be done". Another is the world and all its enticements. As Satan has been allowed to rule over the world for the past six thousand years, or six days in God's sight, it is full of every abomination against God.

The children are no longer allowed to pray and learn from

the Bible during school. The morals that the founding fathers of this country based the governing laws on, are no longer respected or even taught.

Wake up, America. Are you willing to believe in and fight verbally and physically if necessary for our freedoms that God intended for us to have.

Mr. and Mrs. Bruce Harrison and Rev. and Mrs. Oscar Welch of Wheeler spent several days at Proctor Lake near DeLeon, Texas, fishing and relaxing.

county offices are 10.25 per cent on loans made for operating purposes and 10.75 per cent on loans made for real estate purposes.

Economic emergency loans are authorized for bona fide farmers and ranchers who are directly and primarily engaged in, and expect to continue in, agricultural production, are unable to get sufficient credit from their regular lenders, and need credit to maintain viable farming operations. FmHA can loan up to \$400,000 to any one borrower under the economic emergency program.

Permitted use of loan funds include financing of 1984 crop production, purchasing essential livestock, feed and equipment, and paying delinquent installments on farm and real estate debts if a lender is demanding payment.

Scoliosis Screening

A scoliosis screening program will be conducted in the Wheeler Public Schools.

Scoliosis is a lateral curvature of the spine, most commonly found during the adolescent growth period. It is estimated that between five and ten percent of school children have a curvature in varying degrees.

The purpose of scoliosis screening is the early detection and referral of spinal variations which may or may not be progressive. If detected early, a vertebral curvature may be controlled.

All students grades five through nine will be screened. Any spinal deviation of a student will be referred for follow-up care by a physician.

The Care Center Auxiliary held its regular meeting Tuesday morning. In the absence of President Rosemary Vise, the vice-President, Mary Jones, presided. Secretary Paula Britt read the minutes, and Treasurer Mary Britt gave financial reports of expenditures of the month, including the purchase of a T.V. set for the sunroom. She also reported that residents had told her how much they enjoy it.

A donation of T.V. stands to private rooms was discussed, also a motion carried to use Blue W stamps to provide card tables and chair. (See notice in another page of the Times.)

Two new members were present. Mrs. Verna Fillingim and her daughter-in-law Chris Fillingim. These members volunteered to work in the beauty shop where they are so needed.

We encourage other women to volunteer. There's always a place for service.

Donations for auxiliary use will be given space in The Times.

Here & There

By Laura Guthrie
How You Can Tell When It's Going To Be A Rotten Day
You wake up face down on the pavement.
You put your bra on backward, and it fits better.
You call Suicide Prevention, and they put you on hold.
You see a Sixty Minutes news team waiting in your office.
Your birthday cake collapses from the weight of the candles.
You turn on the news, and they're showing emergency routes out of the city.
Your twin sister forgot your birthday.
You wake up and discover your waterbed broke and then realize you don't have a waterbed.
Your car horn goes off accidentally and remains stuck as you follow a group of Hell's Angels on the freeway.
Your boss tells you not to bother to take off your coat.
The bird singing outside your window is a buzzard.
You walk to work and find your dress is stuck in back of your pantyhose.

[From The Lamplighter]
Whoops! I've done it! I've sprayed this big yard with DDT. When I wake in the morning (if I wake) I'll sure be disappointed if this place doesn't look as brown as the sands of the Sahara—with just a few twigs of grass peeking out—looking sick. And I'm pooped! I'm lame and half my back is stiff. My feet are sore from padding around for 4 1/2 hours without once sitting awhile in the rocking chair. My palms are blistered from pumping pressure into that spray can. I've had a hot bubbly bath but think I still smell like weed killer. I sure hope that I and my grass survive.

While I was spraying out front, a woman walked down the sidewalk and spoke. For a second, I wasn't sure about her (being so absorbed in my job). But then I recognized her. Bonnie Holt, who was my neighbor for years. She and husband Robert live in Dallas now. They are visiting with their daughter, Mary Meadows and her family. They haven't visited here for a year, due to health problems—including Robert's broken leg. While here they will visit and attend some social functions in Pampa and Amarillo and stop back by Mary's before going home. Bonnie looks well and she says Robert is recovering nicely.

Annie Martin has recently been in Dallas for two weeks visiting with her granddaughter, Beverly Morris, and her great granddaughter, Angela.

Mr. and Mrs. Gateley from Tipton, Oklahoma, visited with their son Chris and his family on Sunday.

Jon and Judy Wolcott of Mobeetie visited with the Chester Joneses who live in the Kelton Community, on Saturday.

Lowell and Louise Pendleton from Stinnett visited the first of the week with his parents, Ruby and Cheesie Pendleton, and other relatives.

Our Librarian, Jenny Britt, is scheduled to meet other librarians in Amarillo this week for a three-day workshop. Anna Green, the Assistant Librarian, has a scheduled meeting in Clarendon on Wednesday. I'll make an effort to keep the books moving on Wednesday afternoon.

Mrs. Hestell Killingsworth has returned from a bus tour through the Southern states. She went with a group of senior adults from the First Baptist Church of Pampa.

Brewer Celebrates 85th Birthday

Mrs. Mary Brewer, formerly of Mobeetie and now living in Amarillo, was honored on her 85th birthday. Hostesses for the dinner party were her son and his wife, Orvel and Rosa Brewer of Pampa. A granddaughter, Polly Alexander of Perryton made the beautiful cake. It was quite a joyful sound with all the loved ones and friends singing, "Happy Birthday". It truly was a happy day for Mary and her family.

Those attending were: Rodney Brewer of T.T.U., Lubbock; A.J., Lindy, Jace and Marci Brewer of Blair, Ok.

Letters From The Panhandle

Judy Wolcott

DEAR FOLKS:

Did you try to call us Saturday? We were all over at the Wheeler track for the Kelton School Pee Wee Track Meet. Allison, Briscoe, Kelton, and Mobeetie were the schools taking part in the meet, which was for grades kindergarten through sixth.

Lots of parents and older students were there as helpers to make sure each child got to his event at the right time. Most kids entered five events, and everyone was given a black and gold participation ribbon for each event (unless he placed and was awarded a colored one).

We were proud of Bill and Andy. They each placed in two events in the finals. Next week, the winners for all four schools will be in the paper.

Saturday was a beautiful sunny day, but of course, we had some wind. The meet lasted all day; so by the time we got home, our hair was plastered up in weird angles, our teeth felt gritty, and we had sand in our underwear. Not since our last visit to Galveston Beach, have we been so "sanded".

Greg and Brad both competed in the district track meet at Booker Tuesday. They didn't do well, and came home with awful sunburns to add insult to injury, or vice versa.

Monday night, Jon and I went into Pampa for a meeting at St. Vincent's. Jon wore a sportcoat, slacks, and tie, and I wore my "good" brown suit. It was fun to be out by

ourselves all dressed up.

After the meeting, we stopped at McDonald's for coffee and a danish. Some sweet young girl waited on us, and a few minutes later appeared at our table, handed us two little cards, and said, "Next time, coffee's on us." We thanked her and went back to our conversation. (You know, we hardly ever run out of things to talk about.) When we got out to the car, I looked at the cards. They proclaimed us members of "The Golden Arches Club"—free coffee or cokes at each visit, for people 55 and older! Oh, Dear, I didn't feel almost twenty years older! It must have been Jon's premature gray hair, and the fact that I am overweight, or under-tall.

Gee, it's hard to believe that it's Easter week. I always think back at holiday times to my memories as a child. —And they are good ones.

The added church services helped us realize more thoroughly the basics of our faith as Christians.

The shopping trips garnered something new for each of us seven children. I remember Kathy and I in those fuzzy, pastel, acrylic jackets. I can still feel the elastic band of my straw boater digging into the flesh under my chin, and the swish of its ribbon streamers across my shoulders as I'd turn my head. Then there was my gap-toothed smile reflected in brand new black patent leather shoes.

Sometimes, we would see real bunnies outside near Easter and speculate about the Easter Bunny. The Easter egg hunts in Grandma's garden were one of the highlights of the day. We would dart among the trees, bushes, daffodils, and pink and purple asters, searching for eggs. Usually, one of the older ones would take some of the 'found' eggs, and rehide them, which made the hunt last all the longer. Was that just a ploy to tire us out?

It seems like you spent a lot of time in the kitchen those days, Mom. You'd let us help color the eggs. There was the smell of vinegar and hot water stinging our nostrils as we impatiently crunched the dye tablets with our spoons. We would fight over the little metal dippers, and giggle as we decorated the eggs with a wax pencil and colorful little stickers.

Then there was your specialty, the breads and rolls and cakes. Crusty, brown braided French bread shaped into crosses, or wreaths with several colored eggs tucked in on top.

My favorite Easter foods were the ham with its' spicysweet aroma, studded with cloves, and covered with a sticky glaze of mustard, brown sugar, and pineapple juice; and the buns you made with white frosting and coconut which, for Easter, was tinted green to form a nest for tiny jelly bean eggs.

I'm not the baker you are though, so I'll be making a modern version of 'nests'. Here's the recipe in case you'd like to add it to your collection:

Crispy Mallow Nests
3 T. margarine
2 T. creamy peanut butter
3 C. mini-marshmallows
1 can (5 oz.) chow mein noodles
M & M Peanut Candies

Melt together margarine and peanut butter in 3-qt. saucepan over low heat. Add marshmallows; stir occasionally until marshmallows are

Friday, 7:00 a.m. to 6:00 p.m., during the school year. School districts should provide students in pre-kindergarten to middle school classes a seven-hour academic day plus a two-hour period of time for Agency-approved enrichment programs that would be optional except for those who need or desire tutorial assistance. For grades middle school through 12, a seven-hour school day should be used for academic experiences plus a two hour after the academic block allotted for Agency-approved life enriching activities. Each school district should provide for not less than 185 days of instruction for students. A common school calendar should be adopted state-wide. School should start on the first Tuesday after Labor Day. The Board should conduct a study to determine the advantages of increasing the number of school days to 220 for implementation over a five-year period. School districts should provide an optional pre-kindergarten grade education for children beginning at age 4. Compulsory school attendance should begin at age 5. The state should fund full day kindergarten for the full academic school year for all children in public schools in the state of Texas to the same extent it funds programs in other grades.

6. Early Childhood Education
School should provide for the developmental needs and early learning experiences of children, beginning at birth, is vital to their future educational success. Academic achievement has its foundation in quality early childhood care and education. Additionally, the State should mandate that public schools be required to provide parenthood education to all parents of potential students beginning at birth of the child (parental participation in these programs is optional).

I think spring has finally arrived. Tuesday was a beautiful, warm day without wind. Wednesday started out at 46 degrees and looks to be a repeat of Tuesday; makes a person want to be outside.

school districts for the educational program, should be directly dependent on each district's property wealth per student ADA.

4. Discipline Management Programs in Public Schools
The Texas Education Agency shall review and approve a variety of discipline management programs to be implemented by school districts. School districts shall adopt an Agency approved discipline management program by 1986. Schools shall develop a Student Code of Conduct that is clearly defined and enforced.

Parental responsibility will be an integral part of the discipline management program such as:

1. the presence of a parent or guardian to enroll a student in each school year;
2. a minimum of two parent/teacher conferences during the school year;
3. parent training workshops for home reinforcement of student study skills and specific curriculum objectives;
4. written acknowledgement by the parents that they understand and accept all of the above.

ative Buchanan, and Governor Mark White.

1. State Board of Education
The State Board of Education will consist of nine members, including a chairman, appointed by the Governor with Senate confirmation for staggered six-year terms, effective September 1, 1984. The Board will establish a strengthened accreditation process and set clear standards for teacher education programs. The Board will provide for intermediate sanctions for non-performing institutions. The Board will adopt rules which limit participation in extracurricular activities, and limit scheduling of events to times that do not regularly interfere with schools academic delivery or students' preparation for class. Finally, the University Interscholastic League (UIL) will be placed under the supervision of the Board.

2. Texas Education Agency
The Texas Education Agency will implement the following revised intermediate sanctions for local school boards who do not meet State accreditation standards.

1. Notification to administrators and an accreditation
2. Public notification to the local board.
3. Appointment of a monitor who will join with the board in its activities.
4. Appointment of a master who will administer the affairs of the district.
5. Non-accreditation and removal of State funds from the district.

The Texas Education Agency will implement the following options for non-delivery or changing districts which will include:

1. Models for administrative and instructional cooperatives.
2. Models and financial arrangements for K-6, K-8 feeder districts.
3. Models which will preserve a local campus and local oversight if districts are consolidated.

3. Finance
The allocation of state education funds to Texas public schools will be equalized, streamlined and based on a calculation of what it actually costs to provide a basic, quality education, in accordance with funding principles. State dollars should be sent to local school districts on a per student (ADA) basis through a basic grant system. All actual state dollars received by local

school districts for the educational program, should be directly dependent on each district's property wealth per student ADA.

Parental responsibility will be an integral part of the discipline management program such as:

1. the presence of a parent or guardian to enroll a student in each school year;
 2. a minimum of two parent/teacher conferences during the school year;
 3. parent training workshops for home reinforcement of student study skills and specific curriculum objectives;
 4. written acknowledgement by the parents that they understand and accept all of the above.
