equipment was set up in Allison and films were shown there on Saturday nights.

Laura recalls that Saturday evenings in Wheeler in those days "were really something". The stores were open late so people could come into own for the day. They would see the early show, do their grocery shopping, and come back late for the "preview" before returning home.

Al Jolson and Ruby Keeler were the big stars of the day. Later, at the height of its popularity, Gene Autry, Lana Turner and Fred Astaire, were the drawing cards. Mrs. Guthrie says that adults especially enjoyed seeing Sonja Henning skate, and the children liked the scary 3-D movies. Special

3-D glasses were handed out to the kids, and they would

feels that this was due in part to the fact that the producers were no longer putting out the type of movie the people wanted. Also, with many young people driving their own cars, whole families did not attend the movies together.

In 1958, the Guthries set up a cable TV system in Wheeler which Laura and Corky ran after the loss of her husband until 1976.

The Guthrie's had one son, Marion Lee (Corky) who passed away in July of 1980, in his line of duty as a police officer in Canadian.

Laura just keeps busy every moment. In addition to her "Here and There" column, she also writes "Care Center Comments". When the Wheeler Care Center opened last February, Laura attended its opening workshops. She visits her friends at the Center, does mending of bedpads, etc, and is active in the Auxiliary.

Mrs. Guthrie belongs to the Wednesday Study Club. An avid reader, she works at the Wheeler Library on Saturdays. On Sundays, she can be found teaching Sunday School class at the Baptist Church.

When we finished our coffee, we took a tour around Laura's home. The house (that grew like Topsy) is widespread and comfortable, with evidence of Laura's love of sewing in several rooms. She makes many of her own clothes, and

is in much demand for the beautiful work she does. By her chair in the living room. sits a box of her latest handiwork-Christmas surprises for

### Briscoe Basketball

The high school girls team consists of 8 members, one Junior Carol Watson, two sophmores Tonya Gilmer and Lee Ann Shepler, five freshmen Christy Zybach, Kristi Hefley, Jennifer Brown, Lisa Hickman and Kim Russell.

The girls are quite young for a varsity ball club but they are showing a lot of hustle and Desire. By the time district play starts, I think we will be in position to surprise the opposition. We are looking forward to a very interesting

season and our major goal is to improve with every ball game. The brand of ball that the girls will play should make it very interesting for the fans to watch.

The Briscoe boys also have 8 members on the varsity squad, of whom four are seniors; Keith Meek, Mark Meadows, Mike Lehman and Rodney Hudson. We are looking to these seniors to guide the club. We have two juniors. Darren Hefley and Gary Hall.

Well, for instance, let's look at a phone that will be used on a party-line. Since customers share a common line to the telephone company switching office, each

phone has it's own special ringing-cycle setting which allows the phone to know when it should ring on the party-line.

#### Even if you have a 'Private Line', you still may have problems.

Single-line customers may also have special dialing or ringing requirements that are not apparent. So, they purchase a new phone and sadly discover that it won't work. This is especially true for customers who may be

considering a cordless telephone or even a universal dialing telephone, a clock radio that offers telephone access capability or any other special telephone service.

#### Trading in your dial phone could be asking for trouble.

The joy of owning your very own 'Touch Tone' phone could turn into tragedy if your phone line is designated for a dial or pulse phone. A pushbutton 'pulse' phone will work on most lines, since it also duplicates the signal of a regular dial phone. However, a

'Touch Tone' phone emits a 'beeping' tone that requires special equipment to recognize the signal. Some dial phones, even if you have Touch Call Service, are not compatable under certain circumstances.

So, if you decide to buy a new telephone, take the time to stop by your neighborhood GTE Phone Mart and see if your particular line has any special limitations. It could possibly save you a lot of frustration and money.

To insure that you will purchase a quality sewing machine, investigate the different brands, buy from a reputable dealer with good ervice, and ask the opinion of friends who are accomplished sewers.

One important area to investigate is the type of service you can expect from both the manufacturer and the dealer. This is especially important for beginner sewers. Ask the following questions to determine service coverage:

Is the dealer a factory authorized representative?

Will dealers service the sewing machines in other cities, in case you move?

I didn't get a letter out to you last week because of Brad's illness. He is still not back to school, but he seems to be a little better. It was such a relief to get him home from the hospital. We spent a lot of time on the road between Mobeetie and Pampa those days.

Early one 'foggy morning, two coyotes darted across the road in front of us, and up into a pasture. A bull was grazing there, and he didn't blink and eye at his visitors. However, all 3 animals stopped and stared at the two humans in their territory. We've seen lots of wildlife lately. Last week, we saw several does and two bucks in a field near Wheeler. The weather has been beautiful sunny and 60 degrees. Quite a change from that snowy day in Michigan 14 years ago today, when Jon and I drove 25 miles through a driving snow storm for the birth of our second child. We weren't sure we'd make it to the hospital in time - but we did; an hour later, Gregory Jon was born. He was a small baby, with hair like platinum fuzzy and non-existent eyebrows. Today he stands taller than me, with a big smile, wearing his new birthday outfit-a matching Nike sweatshirt and pants. Now, what was that about lacy

people to a party in Pampa at Skate Town. Monday night is the night Christian Organizations, can have parties there and only hymns are played. First the kids ate at the Taco Villa. Everyone had a good time and wanted to go back again but I think sponsors, Larry Bacon, Larry and Kimberley Johnston, Gary and Carolyn May and Melbe Darnell were so stiff and sore they

thought they awhile.

Well Mobeetie School has now had another homecoming and I've decided they are really just a huge family reunion. I never saw so much hugging and happiness just to see each other again in my life. Of course it's very sad because some of the classes honored had very few left in them because of death. Everyone at the homecoming seemed to have a wonderful time.

Sue Keathley took Elec and Beulah Atchley to OKC where her dad saw his doctor. Got a fine report.

Hear that our friend Hobart Mayes won a stereo set in a contest at K-Mart. Think he won a lawnmower last year. He'd better be sending back all those sweepstakes deals, lucky as that. Gertrude Garrett and Birdie Whipkey took in the Honey Fair Day at Erick, then went on the Elk to spend some time admiring the treasures at the County Dove. They especially liked the beautiful quilts.
