THE WHEELER TIMES

SINGLE COPY 20¢

CHAT WITH EDITOR By Louis C. Stas

Wheeler received much needed rain early Sunday morning, causing the temperatures to drop. The official rainfall for Wheeler was 1.42 inches; some reports in town were 1.75".

Everyone was not as for- and nursing a shellacking from funate in the amount of rain received. A strip of land south and west of Wheeler measured on 0.7". Cecil Pierce reports it can be raining in town but the pavement is dry by the time he passes the cemetery. James Verden and Hyland Weaver farm in the same dry area.

If you are wondering who to sank for the rain, Phillip Gaines feels he and Larry Finsterwald are responsible. They both cut their hay just before the shower.

Ed Smith recently celebrated his birthday; he was 97. This man lives by himself and when he gets ready to go somewhere, he walks. A visit with this man will brighten

your day. It is a little late, but Happy Birthday Mr. Smith.

-cwe-We have another senior citizen following right behind Mr. Smith. Golda McIlhany will observe her 95th next Tuesday, September 20. Mrs. McIlhany makes her home at the Wheeler Care Center and participates in most of the activities of the center, including oil painting classes.

Mrs. McIlhany compiled a 9-3 short story of her life for the grandchildren and is in the New Admissions process of making notes of 9-6 incidents she recalls involving each of her grandchildren during their adolescences. She has three grandchildren, two 9-7 great-grandchildren and a world of friends.

The Stas family stayed home 9-9 this weekend and let the family visit us. We did venture to Canadian Saturday evening, to help Troy Lee Bradstreet, Mt., celebrate his first birthday, As is tradition, he had a birthday cake to himself. 9-10 Grandma Arnold baked and decorated a small cake for Troy Lee. The cake was placed on the highchair in front of the honoree; with cameras rolling 9-12 and bulbs flashing, he "dug in". My mother makes sure such of her grandchildren their first birthday

cake. I understand Troy Lee is 9-7 going to have another party when Grandma Bradstreet gets home from Houston later this month.

Inter'al Direct **Distance Dial**

Wheeler customers can now let their telephone systems do the work for them when dialing international calls.

The local central office in Wheeler has recently been upgraded with the necessary equipment to provide automatic dialing for interner tional calls.

Customers can simply dial in the numbers and the local central office will process the call quickly and efficiently. It will automatically notify the system of the appropriate billing information.

In the past, customers had to dial local operators, who turn dialed the overseas operator who then placed the call, causing long waiting periods in placing calls. The new international dial-

Talked to Mattie Jackson Friday she and Barbara Williams were making chili sauce, Mattie had took 2 trips lately, Diana Rose got a van. she took Mattie and Effie to see Hazel Helton at Plainview, I believe she saw Hazels Sister's Martha, Millie and Aree, Diane took little Kelly, she had a ball in this van going and coming.

Pat and Alberta Helton brought Cora Helton to see Mattie yesterday. Cora was going to stay with Mattie while Pat and Alberta went on to Reydon to see her mother, Mrs. Hartly, but Mattie was not at home.

Last week Mattie went with Don and Bernice Zollar up to Peabody, Kansas to see Bill's brother, Guy Jackson, Mattie stopped and stayed with some friends Alvin and Vera Roades they had a nice garden, they had peas, but did not know you could eat them green, they let them dry then picked and cooked, so Mattie gathered some green and cooked them. They really liked the taste of them. Sounds like some of my town dood-in-laws never saw a garden or knew how it grew,

THE REASON FOR MAN

Genesis 1:26, "And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the

OSTEEN

In previous articles I stated that the universe was created because of the earth. The Bible states that the universe exists in order to have influence on the earth. Why does the earth exist? Last week, I said in my article here that the Bible teaches that this planet exists to be the home of God's crowning part of Creation man. So, why does man exist? Why did God create this creature, the crown of all His creation?

Refer to the Bible verse quoted

above, as well as the rest of chapters 1 - 3 of Genesis to find that God created man to be His under-ruler and to have someone He could have fellowship with. The Word of God teaches that man was created just a little lower than God - in the God class, we might say. God wanted to have children. This man had astounding intellectual abilities. He was perfect in the beginning. Then, he fell from grace, so to speak. God did not create an ameba or a tadpole to fellowship with. He created a man who was actually a god, an under-ruler over His creation. It is such a crime to teach children that evolution is how we happened because that places God's creation at the lowest of all levels and then assumes that that creation evolved to higher levels more and more,

without God. Therefore, God is not needed, God is not concerned with mankind, God will not save us, man must save himself since he without God has climbed to such heights. Evolution elevates man to be God Almighty with no need of a superior Creator instead of telling the truth that man was created as an under-ruler, a sub-god (so to speak) for the purpose of fellowshipping and working with God Almighty. Man exists because of the Father-heart of God.

Oh, aren't we having glorious weather? The good rain Saturday night and that Norther last night (Monday)! We just should be so grateful!

At the Library Saturday afternoon, I met another person who had suffered from the disaster, Alicia. Mrs. Ray Ellison, with her husband, from Houston visited with their son, Don, last week. There was so much divestation around their house that they came here to get a long breath before going to work. The rees and shrubs have been uprooted and must be cleared away. Besides there was no electricity at their place. "But", says Mrs. Ellisor, "We were so much more fortunate than some."

Elva Wood and Ida Farmer drove South last week and returned on Monday. Ida visited her son, Glen in Midland and Elva visited her son,

Mrs. J. O. Sims had as her guests last week, Mr. and Mrs. Onie Sims from California. Later in the week her granddaughters, Sue and Linda visited her.
