CERTIFICATE AWARDED: Joe Slater, Supervising Inspector for the Texas Commission on Jail Standards is shown here presenting County Sheriff Doyle Ramsey (left) and County Judge Wendell Morgan (second from left) with a certificate showing the

Wheeler County Jail is in compliance with the Texas Jail Standards. In presenting the certificate, Mr. Slater commented, "on behalf of the Texas Commission on Jail Standards the Wheeler County officials, Judge Wendell Morgan, the four County Com-

missioners, Elmer Harrison, Bill Atherton, Clois Hanner and Ernest Henderson, and Sheriff Doyle Ramsey and his staff are to be commended on this splendid accomplishment. This is not due to anyone person but to all working together.

The voters should be proud to have elected officials who have been able to achieve this result at minimum costs.

Having achieved compliance with the Texas Jail Standards and with continued operation at this level you can be assured that frivolous complaints and lawsuits will not be looked upon favorably by the Federal Courts. Compliance with the laws of the State of Texas serves to protect you as these rules and statutes have been tested and upheld on numerous occasions by the Federal Courts.

I would like to add my congratulations to these officials it is a pleasure to work with them."

Consumers urged to buy Bearcat Scanners before May 15

United States—Consumer products, held reporters, should receive the action are —to be eligible, purchase must be made by 5/15/81.

Bearcat Scanners have always paid off with excitement.
 Even this newspaper can't match the police with which you get the news about fires, police action and other emergencies. Because with a Bearcat Scanner, you hear the news as it happens.
 Chances are, the reporters in town are tuning into a Bearcat Scanner right now for the news in tomorrow's paper.
 And you could be hearing it now, too. If you had a Bearcat Scanner.
 More than that. You'd also hear the kinds of things you'd never read about in any paper.
 And right now, Bearcat Scanners pay off even more. Buy any one of these popular models between April 1 and May 15, 1981, and you could get up to a \$25 rebate from the manufacturer.
 Ask for full details when you come in.
 Now, isn't this the best news you've read all day?

Bearcat 210XL New version of the BC 210—the Bearcat programmable scanner that started it all. 18 channels, 6 bands, nearly twice the scanning capacity as before.

FOR A SMALL MONTHLY CHARGE, SHE COULD'VE ANSWERED IT BY THE DRYER.

Every time Barbara Phillips' phone rings, it's long distance—the distance from her to her phone, that is.
 If you spend a lot of time running to the phone, maybe you're in the running for an extension phone. For much less than you'd expect, you can start reaching for your phone. Whether you're stuck in the laundry room, glued to the TV or deep in sleep.
 What's more, you know you've got a phone that's as reliable as the phone company. So the next time you run to the phone, call your General Telephone business office. And make it the last time.

NUMB ARMS, LEGS Danger Signals

There may be misalignment of vertebrae in the spine causing pressure on nerves, yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, tightness, hot spots, cold spots, crawling sensations, electric shock sensations, stinging, burning, and others.

Here are nine critical symptoms involving back pain or strange sensations which are usually the forerunners of more serious conditions. Any one of these usually spells back trouble.

- (1) Paresthesias (see above)
- (2) Headaches
- (3) Painful joints
- (4) Numbness in the arms or hands
- (5) Loss of sleep
- (6) Stiffness in the neck
- (7) Pain between the shoulders
- (8) Stiffness or pain in lower back
- (9) Numbness or pain in the legs.

These signals indicate that your body is being robbed of normal nerve function. Until this function is restored, you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will become. Don't wait! Should you experience any of these danger signals... call for in depth consultation in Layman's terms.
