## Skyrockets will do Friday

The 7:30 kickoff will begin district play for the Mustangs and Skyrockets and it is a big, big game for both clubs in that Mustangs and Wellington a loss will certainly damper the championship hopes of the loser and this year's race in District 2-AA promises to be a nail biter all the way.

The Mustangs had an open date last week and the Skyrockets were defeated by the powerful Quanah Indians to set the stage for the Nicholson Field encounter.

Wellington has been an up and down club this season but you can put all that in the trash for this week because the Skyrockets will be sky high for the Mustangs and it will behoove the Mustangs to get in the same frame of mind.

This will be the first game Pair Injured In in five years for these two long standing foes and Wellington would like nothing better than to drop the Mustangs from their #5 ranking in the state.

Led by the speedy and tough running of Tim Anderson and Darrell Thomas, the Skyrockets combine their powerful running attack with timely

your Congressman "I want to personally thank you for your splendid support in defeating the President's

Hospital Cost Containment Bill. Your being aware of the effort of Texas Hospitals in trying to hold down cost on a voluntary basis justifies the defeat of this legislation."

Billy W. Robertson, Vernon Administrator, Wilbarger General Hospital

"Your vote was definitely a vote to save untold millions of dollars energy-wise and also

a vote to reduce governmental red-tape interference with everyone's lives. . . . " A. Curtis Neal, Amarillo

"Just a note to express my appreciation for your support of my bill to exempt independent producers from the windfall profits tax. I firmly believe this . . . will greatly benefit our efforts to solve the energy crisis."

Congressman Kent Hance, Lubbock

C. T. Howell, President, Amarillo Senior

"The Amarillo Senior Citizens Association wishes to thank you for your attention and kindness concerning our efforts and difficulties in clearing the mass of paperwork for our pending project."

Citizens Association

"... 'thank you' for the effort and service rendered by you on behalf of the people of this County and area pertaining to the approval of the Federal Aeronautics Administration of \$175,000 to be used in 1980 towards the renovation of the airport facility here ... approval of funding will enhance the safety of those who must use the facility."

Charlie Bell, County Judge, Foard County

"I am sure you were instrumental in helping get the Farmlands Emergency Crude Allocation approved. It will help to stabilize our source of supply for the coming summer months."

> Lyle M. Robinson, General Manager Swisher Electric Cooperative, Tulia

"We notice with great pleasure that the full committee passed the agricultural appropriations bill for next fiscal year with funds for research Extension and the West Texas boll weevil program . . . There is no doubt in our mind that your good efforts both in the subcommittee and the full committee must share a major responsibility for this positive action."

H. E. Dean, Plains Cotton Growers, Inc.

"I want to express my personal thanks to you again for your support of the bill to curb the powers of the Federal Trade Commission ... I would again ask you for your support in this matter which in my view is vital to the free enterprise system."

Dr. Jerry R. Broadway, Wichita Falls "... announcement that Sheppard Air Force Base had been selected for the EuroNATO Joint Jet Pilot Training Program . . . was certainly welcome news. This

program will have a considerable effect upon Sheppard, as it will now become the

largest pilot training facility . . . the influx of about 320 students per year with their

families, will also provide a substantial boost to the financial situation in the City." James T. Montgomery, Director Squadron Adoption Program, Sheppard Air Force Base

There are circumstances when it should be possible to terminate an unwanted pregnancy. (Ed. Note:

Supports taxpayer funding of abortions.) Balance the budget. Then do something about lagging productivity by selective tax cuts to stimulate savings and investment

Indexing for inflation is preferble to across-theboard tax cuts. To stimulate capital information, rates should be reduced on savings and investment

I am a strong supporter of the Equal Rights

My basic thesis is that our real strength as a country lies not in a frowning coastline or in bristling bat-

tlements, but in the spirit of the people to be free. My feelings is that if SALT II is in our interest - and I believe it is - then let's ratify it.

Sanctions against the Soviets for their actions are essential to show that the United States can inflict pain or have cooperative relations.

I am opposed to a peacetime draft for women.

(Anderson's office stated that he would under no circumstances sign discharge petition #7 which would bring the voluntary school prayer amendment to a House vote.)

### JIMMY CARTER

I do not favor amendments to the Constitution that would totally outlaw all abortions, or which would

give the states local options. Continue administration policies of wage and price guidelines, regulatory reform and restraints on government spending.

Only if the economy goes into a severe downturn will a tax cut be sought. Even then, a cut should be both anti-recessionary and anti-inflationary

strategic forces, and our defense alliances. It is of vital importance to our country. SALT is a process in which we hope to continue the limitation of strategic arms, which is in our nation's interest.

U.S. sanctions against the Soviet invasion of Afghanistan have shown the Russians they cannot freely invade others, and in the long run it will serve the cause of peace.

FOOTBALL From Page 1

passing behind a big and quick forward wall.

Anderson has broken for long touchdown runs all season and opponents defense cannot key him all the way or the diminutive Thomas, who weighs in at 128 lbs., will pop one for the distance.

To counter the Mustangs offense, Wellington will use a basic split 6 defense and they will stunt a lot out of this defense and also the others that they will use at times.

"Wellington has a real fine ball club and they are really physical," Coach Joe Allen said after watching the rockets play last week. "Welington is way better than anyone we have played to date and it will take great effort and playing our best to beat them but our kids are anxious for Friday night to get here."

Willie Valencia, who received a badly sprained foot in the Boys Ranch game, should be ready for at least some action as he has responded well to treatement the last week. If Valencia is ready to go, the Mustangs will field the same offensive and defensive units that have carved out their 4-0 record for the year.

With district play beginning with the Wellington game, the kickoffs for the rest of the year will be at 7:30 PM.
