Waters Dean At Pampa Center

Clarendon College has announced the resignation of Loyd Waters from the college. Waters is currently serving as the Dean of Clarendon College-Pampa Center and will leave the Center effective July 1 to enter private business in Clovis, New Mexico.

Kenneth Vaughn, President of Clarendon College, has named Bill Balcom of Pampa to replace Waters as Dean of the Pampa Center. Balcom has served as principal of Baker Elementary School in Pampa for the past two years and has been a part time faculty member for Clarendon College the past four years.

"The decision to leave Clarendon College did not come easy," stated Waters. "The Pampa Center means a lot to me and the cooperation we have received from everyone in Pampa has made the development of the Pampa Center most pleasurable, Pampa is a progressive city that is full of a lot of nice people. feel very fortunate to have had the opportunity to be a part of the Pampa Center for the past six months.

Balcom and his family moved to Pampa five years ago to assume duties with Pampa I.S.D. as assistant football coach and a teacher of physical education. Waters stated that Clarendon College was very fortunate to obtain a person such as Balcom to futher develop and direct the educational facility at Pampa.

Termites cause wood decay and damage that threaten home upkeep.

Termite Varieties "Subterranean" of "ground nesting" termites are a serious

problem in Texas. Subterranean termites live in colonies in the ground and require moisture to survive. The and basement walls, worker termites attack damp -along openings where pipes wood which is in contact with the enter walls, and ground. They may build earthen tunnels from the ground up to the pipes. wood. They will sometimes completely eat away the inside of a piece of wood while leaving the walls. Check all joints where outside surface intact.

How To Check For Termites Homeowners can follow these steps to check for termites:

(1) Check for termites at least twice a year.

(2) During the spring the summer (termite matting season) call an exterminator to identify large numbers of flying insects that you cannot identify.

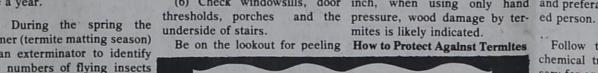

(3) Look for earthen tunnels in the following locations:

-along masonry foundation

-along the surface of metal

Foster Whaley, State Representative 66th, legislative district, announced today that on Monday, June 24, 1979, starting at 10 a.m. a meeting will be held at the Clarendon Junior College Auditorium for the purpose of up-dating all school personnel & retired teachers in the 66th. District of changes brought about by recent legislation passed by the 66th Legislature. Representative Whaley said there will be some of the foremost authorities on School Legislation from Austin on the program. They include Leonard Prewitt, Executive Director, Teacher Retirement System of Texas; Raymond Bynum, Associate Commissioner for Finance, Texas Education Agency; and Jim Hooser, Director of Government Realtions, TSTA.

All school superintendents, school Tax assessors, teachers, retired teachers, local TSTA president, and school board members are invited. Topics to be covered include the recently passed school finance bill (SB 350), the appropriations bill and HB 1060--the act that implemented the tax relief amendment passed last November. Other topics will cover far reaching changes made in the teacher retirement system.

Those planning to attend are asked to notify their local school superintendent so that he may give an estimate to Representative Whaley in Pampa for the purpose of planning the noon meal. The program should end by 3:30 p.m., June 25.

farmer's search for ways to maintain yields in the wake of fuel shortage and very high prices, Lavon Williams, District Conservationist for the Soil Conservation Service) in Wheeler says. Minimum tillage, including no-till is proving to be the most promising fuel saver for farmers. "This practice, "says Williams, "has especially high potential for feed grains, food grains and cotton - those crops most in demand on todays world

Switching from conventional to minimum tillage conserves about five gallons of fuel per acre per year. Since Texas farmers used minimum tillage on about 476,000 acres last year, some 2.4 million gallons of fuel were USDA predicts that saved. twenty years from now, minimum tillage could save some 850 millions of fuel annually.

"Although we can save a substantial amount of fuel using our current technology," Williams said," USDA plus many private groups are researching ways to save even more."

Williams appeals to all farmers to stay abreast of continuing research on all fuel saving methods and their possible benefits and drawbacks while applying our current technology.

Leo Lamb was a neighbor and friend as well as schoolmate to both my brother Jim Swam and I. Long ago and yet it seems like only yesterday-we took different roads home from that little country school of Corn Valley; But I'm sure the little frail bodies all looked the same as they lunged against the cold winds or the more frequentley terrible dust storms of the thirtys, whose sting and taste of sand were to remain in our memoires forever. Sad? Not really. We were a happy lot. Learning more from the other grades that were in the that anyone may come and take same room than from our regular grade we made the most of it. We excelled in sports, learned

ed to learn right from wrong. Going our different paths of life its always been good to hear kind and wonderful things of those that one grows up with. Laura Guthrie, Co-ordinator Ones ego sometimes tends to usher the question to our minds "Did I contribute anything toward their being that wonderful person?" While I'm sure I had nothing to do with shaping the mold of Leo's life its been Loyd Waters, Dean of the heartwarming throughout the Pampa Center, has announced years to hear what a kind, honest will offer upper level courses at and how he had a special knack of It was always extremely pleasing WTSU has scheduled two clas- to hear that he and Bonnie had accomplishment.
