Cory Cornett, Salutatorian, is the 14 year-old son of Mr. and Mrs. Bob McCain and Major and Mrs. Wes Cornett. During his years at Wheeler Junior High, Cory has participated in football, basketball, and tennis. He has been very active in U.I.L. literary events, placing in the district meets in expository writing and impromtu speaking. He has been a member of the student council for three years, and he is a member of the Wheeler Mustang Band. Cory was an honor student in the seventh grade last year.

It was believed to have been around young men were traveling north on Farm-to-Market Road 592. Approximately 3 miles north of Kelton, just before the Sweetwater Creek bridge, the highway makes a slight turn to the right. At this point, Grayson apparently lost control of the pickup.

Due to the isolated area in which the accident happened and the lack of traffic the victims were not discovered until close to 7 a.m., when a crew from Wheeler drove past on their way to work.

Grayson, a junior at Allison, was scheduled to leave Saturday with his class and the seniors for a trip to Hawaii. It was not possible for the class to postpone the trip, so a 7:00 p.m. memorial service was held Saturday evening, May 11, 1985 at Wright Funeral Home.

Funeral services for the Grayson youth were held at 2:30 p.m. Monday in the Allison School, with the Rev. Ronnie Chadwick, pastor of the First Baptist Church, officiating.

Burial was in Wheeler Cemetery by Wright Funeral Directors.

He was born Feb. 3, 1968 in Dumas. He moved with his family from Dumas to Allison in 1976. He was a junior at Allison High School, where he participated in basketball and the FFA program. He was a member of the First Baptist Church.

Survivors include his parents; two brothers, Kirby Lynn Norrell of Amarillo and Terry Eugene Norrell of La Port; one sister, Loretta Sue Eslinger of Dumas; and his grandfather, Earl Lancaster of Bula.

Pallbearers were O.D. Coulter, Jr., Jimmy Donaldson, Johnny Grayson, Terry Grayson, Jim Bob Hall, Carter Trew.

This "old dog" is beginning to wonder if he can be taught new tricks, and it looks like there are a lot of new tricks to be learned before this "machine" can be mastered.

The discontinuation of the making of stencils for addresser has forced a change in the mailing procedure for the paper. The method we are using has been good for some 20 years and as far as I am concerned should be good for 100 more. But, times are changing and we must also.

When the equipment was delivered, Delbert came to the rescue and used his experience with computers and "set it all up". Then he and Jane both have been called over for consultation from time to time.

Patricia and Marie have yet to attempt to learn.

Mona Gwen was at Thriftway the other day. She had just returned from Austin and was trying to tell me her grandchildren were the greatest. You can guess my reaction to that.

-cwe We spent the "Mother's Day" weekend in Hinton, Okla., with both mothers and the grandchildren. Part of my activities was lifeguard duty; Jennifer and Ronal, Jr. were having a good time.

I wondered if Roberta Adams might question the safety of the youngsters with me as lifeguard. Some 18 years ago it was her duty to teach this "rock" how to stay on top of the water; and a few times I thought we both might drown.

I notice Mrs. Flowers refered to the dry windy weather they have been having. With all the rain we have gotten the past month or so, it is interesting to notice the drought such a short distance away.

# The 18 heifers that have been fed by

4-H & FFA members in Wheeler, Gray, and Hemphill Counties in the Wheeler County Terminal Fed Heifer Program will be on exhibit beginning at 4:00 P.M., Thursday, May 16 at Beef Cattle Company, west of Wheeler.

The live evaluation of the heifers will be conducted by Bill Thorne, manager of XIT Feeders at Dalhart. Thorne will evaluate each of the 9 pens from their worth to the packer. He will discuss the amount of finish, as well as the probable quality grade and yield grade.

Area cattlemen and others interested in the beef cattle industry are invited to attend and see the type of job the young feeders have done. Feeders include: Todd Baize, Ronny Pepper, Todd Helton, Elizabeth Stiles, Robert Stiles, and Tommy Velasquez from Wheeler County; Tres Hess from Gray County, and

Jason Abraham and Luke Thrasher from Hemphill County.

The feeding period began December 29, and will conclude 140 days later on May 16. The heifers, in pens of two head each, have been fed a custom mixed ration under feedlot conditions. On December 29, they were weighted and processed at Beef Cattle Company. They were weighed and re-implanted at Wheeler Feed Yards on March 9, 70 days into the program.

At the halfway point, the heifers had an average daily gain of 2.66 pounds, the average feed conversion was 7.1:1 and the average cost of gain was \$56.85.

After the exhibition, the heifers will be trucked to Amarillo where they will be slaughtered and sold on the rail.

The carcasses will be evaluated and final placings in the program will be determined on the basis of feed conversion, cost of grain, carcass rank, record book, and test scores.

All Citizens are urged to attend this meeting, held in the Mobeetie City Hall on the corner of Fourth and Wheeler Streets in Mobeetie. For further information, please contact telephone #845-3581 or telephone #845-2472.

Some financial experts say hatten down the hatches and prepare for worst. I don't know how best to prepare but do remember that people who didn't owe money fared a lot better during the Great Depression than those who owed their soul to the company store or local bank.

- Electrical cords should not be spliced or taped. Repair by shortening them or replace them entirely.
- Beware of exposed wires.
- Don't touch portable appliances (coffee makers, radios, hair dryers, etc.) with wet hands or while standing or sitting in water.
- Don't post signs on utility poles. A lineman hitting a nail with his cleat could slip and fall. Also, nails can snag protective gloves and destroy their insulation value.

Old business was the setting out of more trees. The Blue Grass Musical group of Amarillo had purchased 30 trees and came down Friday and set them out Saturday. What a great help to our grove that was deterating. We are very grateful for their generous offer of adding to our grove, and doing the work.

Sallie gave the cost of sending out letters of request for membership as a means of adding to our funds. Austin Caldwell suggested we table this question until another meeting his

Of all the Mothers Day celebrations the one held for Pauline Hooker was the most outstanding. There were 39 of her family who came and 22 who were unable to come. They all brought covered dishes and attended church at the Methodist Church. Those who attended were: Bill and Mearline Scott and Ginger Freitas and children Crystal and Monica Lewman, Lisa and Cassidy Patton, Brenda, Wayne an Brandy Long, Russell Scott, Lava Prater, Robert Scott, Jack, Joyce and Jennifer McIntire all of Amarillo. Mack and Peggy Shelton from Spearman. Loretta, Audrey and Jennie Brillhart form Perryton, Don and Inez Moore, Mark, Wanda and Justin Hefley, Gene, Sue, Cindy and Leslie Harrison and friend Joe Gerley and Doyle Johnson.

motion, it carried. Since funds are low now it was decided to do the essential repair on Masonic Hall now and finish it later.

#### MOBEETIE **School Activities**

Due to the many requests about the happening at the school I shall try to answer some of the questions.

Meeting James Moffett was rehired as Vocational Agricultural teacher for the year 1985-86.

Other teachers who were hired were Batton, Mabel Tabor, Kay Wilhelmina Sherell, Gaye Hale, Dianne Johnson, Belinda Masters, Rolanda Meadows and Debra Finsterwald for 1985-86.

This is one time when I don't envy the school trustees as they are having to wrestle with the problem of building 4 new rooms on to the school house and get teachers.

The board will hold a special meeting to take care of the difference between the architect who is designing these additions.

The school will need to increase its curriculum and staff to meet the new state requirements and add the four rooms. The classrooms and a corridor would be built along the north side of the present school house. The estimate of the construction would be \$180,000 but it is hoped the cost could be held to \$125,000 the architect estimates the cost of \$30 to \$40 per square foot.

In addition to new classrooms the school will have to hire new teachers music, art, or foreign languages subjects the school doesn't have now. Mobeetie is trying to work with Briscoe with the teacher working half time with each school district.

Trustees also received Texas Assessment of Basic Skills test given 5-2 to the 3rd, 5th and 9th grade classes. They were tested in math, reading 5-6 and basic grammer skills. Mr. Mickey Ne was proud the way the scores turned out.

All the six graders who took the test mastered spelling, captilization, reading, and writing whole numbers 5-9 and the order of whole numbers. The low percentages were in addition and identifing main ideas of stories.

Any one volunteering to help appreciated. We wish to find someone temporarily to keep our museum open until the Maddox are able to return, call 826-3289 if interested.

Meeting adjourned at 8:00.

## **PUBLIC NOTICE**

AT&T Communications of the Southwest, Inc. ("AT&T Communications"), in accordance with the Public Utility Regulatory Act and the rules of the Public Utility Commission of Texas ("PUC") hereby gives notice of its intent to implement a new schedule of rates for its services. The new rates will be effective May 14, 1985, unless otherwise determined by the PUC. All customers and classes of customers would be affected by the proposed rates.

AT&T Communications has filed a reprice of its tariffs designed to more closely recover access and other costs for WATS and 800 Service and all private line services including Channel Services, Foreign Exchange (FX), DATAPHONE\* Digital Service, and OCC Facilities.

Also proposed is the institution of a charge for Directory Assistance to begin to recover access costs incurred for such service and increases in rates for operator assisted AT&T Long Distance calls. The initial minute charge for all AT&T Long Distance calls and additional minute rates for AT&T Long Distance calls 51 miles or less are proposed for increases to reflect the access charges approved by the PUC for such calls.

The proposed new rates for all services would result in an increase in adjusted test period revenues of \$139 million or 12.7 percent.

A complete copy of the proposed tariffs are on file with the Texas Public Utility Commission.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

SALUTATORIAN: Dixie Ann Harris, daughter of Mr. and Mrs. J. R. Harris has been named co-salutatorian of the Elk City Junior High School. #### Hanner

Clois was born in Wise County, Texas. Mr. and Mrs. W.J. Hanner moved to Wheeler County from Wise County in 1930. Mr. and Mrs. George Reneau moved to Heald Community from Mobeetie in 1918.

From Page 1

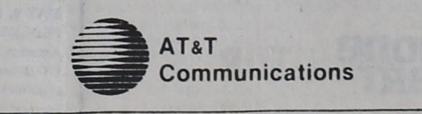

Clois and Grace are both graduates of McLean High School, he with the class of 1933, and she with the class of 1935.

Clois Hanner and Grace Reneau were married in the home of Grace's parents in the Heald Community on May 26, 1935. They have lived in Wheeler County all of their married lives. They are the parents of three daughters, Martha Pepper of Borger, Nelda Newman of Seminole, and Glenda Adams of Shamrock. They have eight grandchildren, and one great grandchild.

Clois is County Commissioner of Precinct #3, Wheeler County, an office he has held for the past thirty years. They are both active members of Lela Baptist Church, and members of O.E.S. Chapter #384 Shamrock, and Clois is a 32nd Degree Mason. They have both held the office of Worthy Matron and Worthy Patron in O.E.S., and Clois was Worshipful Master of Shamrock Masonic Lodge in 1961-62. Grace was Activities Director at Care Inn of Shamrock for five years, and does volunteer work. She is a member of the Times Study Club. Clois is a charter member of Shamrock Sheriff's Possee, and has worked closely with the St. Patrick's Association, and is a member of the Shamrock Chamber of Commerce. Some birthdays I remember right of Claude Edmond Parker May 20th, Charlene Rainey May 21, Garry Parker May 31st, Sarah Ault, 9th, Scotty Wayne Parker 15th, Diana Parker 21st.

More showers Monday night, I don't know how much.

Heard on T.V. some school kids had to ride 78 miles to school 78 miles back home. Took 31/2 hours to go 78 miles in Alpine Mountain they had to catch bus at 4:30 in morning. Poor little kids, on school bus that long each day to ride.

Friday, well we got our telephone going this morning. We was out since Wednesday around noon. Now we felt like we were thousand miles away from everyone. Tried to get Zetha, her phone was out. Everyone decided we were gone somewhere.

He who Kneels to Pray will not stumble.

Saturday, 11 looks like a ideal day. If that wind don't get up.

Mac, Lora and April Purcell went to Canacian Saturday to visit his folks. Gene and Bobbie Purcell. Gaye and Joshua went on a class party to Pampa skating and eat out at Pizza Inn. The 1st and 2nd grades are all going.

Bill and Neta Ault is eating dinner today with Claude and Mable said Eddie Bates has gone to Hawaii with Allison seniors on their trip. Linda Bates was at Claudes Friday getting Eddie off.

A new thing or I never heard of it till last week. Debby Clark had little x cuts on front of her eyes, that flattens your eye. She can see with out her contact lens. She has 15/20 sight in her bad eye may need to have that done to my eyes.

Ted and Scotty Parker of Dumas came Saturday to spend the weekend they brought the lawn mower, was I glad and tickled. Grass had took our yard. They worked all evening on it.

Other visitors were Leroy and Janice Parker, Angie and Katie, Zetha Daughtry came Sunday.

Scotty brought me a clipping out of Dumas paper, where Ida Lee Hamilton, 72, passed away recently. Scotty did not know exactly how far back, it did not say when in the write up. She use to live at Allison or in Allison Community. I went to school with her in 5 to 7 grade near Eldorado Okla. at a little school called Saye. She had lived in Dumas 25 years. She belonged to the First Street Church of Christ. She had 3 sons living; William of Dumas, Raymond of Dallas, Pete of Bigelow, Ark.; three daughters Wilma of Little Rock Ark., Marilda Adams and Betty Florine Dickerson both of Amarillo. She had 28 grandchildren, 19 great grandchildren. Our sympathy goes out to all her children and grandchildren. A lot in Allison and Briscoe will remember Ida. Briscoe and Allison were saddened by the death of the Grayson boy and the injurys of the Lane boy from the pickup wrecking Friday night at a curve between Allison and the 9 mile store South. The pickup burned, but the two boys had been thrown clean, Leon Lane watched it burn, I was told, the accident they figured was around 2. Oil field workers found them, how sad, our sympathy goes out to the Erskin Grayson family, our wish for Leon Lane to have a quick recovery.

Funeral for Grayson was at 2 p.m. visitors visited in Care Center in Monday at Baptist Church I think in Wheeler with Nora Hiltbrunner. Allison.

## Wheeler Seniors

## **Citizens Meet**

The Wheeler Senior Citizens met Monday night, May 6th, for a covered dish supper. The only birthday person was Paul Shumate.

After the delicious supper the president, Mary Finsterwald, called the meeting to order. Elva Wood read the minutes of last meeting. There was no old business. The new business was for Helen Sabbe to buy the outdoor carpet for the front porch and for Eli Sabbe to get the air conditioning ready for summer.

The building was decorated with May Day baskets filled with Iris and roses. Jack Hayes had the program. Games of eightyeight and dominoes were played.

Those present were: Jack and Doris Hays, Eli and Helen Sabbe, Lloyd Davidson, Paul Shumate, Elva Wood, Mary Finsterwald, Garnet Gunter, Eunice Treadwell, Fannie Mae Bradstreet, Jewell Holloman, Pet Sims, Rozena Horn, Hestell Killingsworth, Opal Davidson, Iona May.

## Wheat Field Day **Scheduled May 23**

The annual Wheat Field Day to be conducted at the USDA Conservation and Production Research Laboratory located west of Bushland. The field day will start at 1:00 p.m. on May 23, 1985. Wheat research at Bushland looks especially good this year because of above average rains according to Dr. B.A. Stewart, Director of the Research Laboratory. Field tours Wheeler was chosen to play lineman to research plots will begin after a few remarks by Dr. Stewart and Bill Texas Wheat Producers Association.

New wheat varities, including TAM 107, TAM 108, and several experimental lines, on both irrigated and dryland, will be featured at the event. Research on irrigation of wheat, no-tillage production of wheat, and grazing of wheat also will be shown and discussed with field day visitors. Participants at the field day will receive a publication describing all phases of wheat research being conducted at the research laboratory. Wheat is the number one crop in Texas primarily because of outstanding research done by Dr. Kenneth Porter, Texas Agricultural Experiment Station Wheat Breeder at Bushland. This field day is a good opportunity to view his research, see future varities, and learn new techniques for producing wheat. Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, or national origin.

## **Planned Grazing System For Livestock**

Grassland and other forage that were grazed short during last year's drought are in a weakened condition and will recover faster if managed properly during the current growing season. Producers who sold their livestock last year should develop a grazing plan that considers the needs of these weakened plants before new herds are purchased. The better range plants are in a weakened condition rest these plants receive this year, the faster they will regain their productivity. Producers who are socking back to take some of the grazing pressure now should stock at a lower rate for at off of grassland until later in the year. least one year to give the grass a Improved pastures can be fertilized to chance to get ahead of the livestock.

**Now Hear This!** The Best Way To Hide A

**Hearing Problem** 

If you think you can hide a hearing problem, the only one you're fooling is yourself. You give yourself away each time you ask people to repeat themselves, each time you tilt your head and strain to hear, each time you misunderstand what somebody else says.

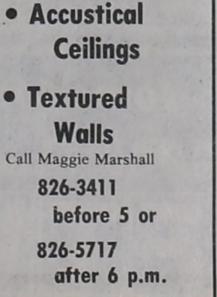

The best way I know of to hide a hearing problem is by doing something about it! If you suspect you have a hear ing problem, find out for sure by coming in to our Beltone office for a hearing test. The test is free and there's absolutely no obligation. Beltone Electronics Corporation has been helping people to hear better for more than 44 years.
