"THIEF IN THE NIGHT" TO BE SHOWN SUNDAY EVE.

A Thief In The Night, a unique film on Bible prophecy, will be shown at Christian Center Sunday in the 7:30 p.m. service. The Mark IV film vividly portrays what could happen when Jesus Christ returns.

The story follows Patty, a young woman living only for her own interests. Even though Christ and His salvation are presented to her, she listens only after being left behind at the Lord's return. At that point she looks back on how God had worked in her husband's life while she had rejected God's plan of salvation. The action mounts as Patty, now aware that Christ has taken all Christians as the Bible foretold, attempts to hide from the power of UNITE. She flees to her former pastor, Rev. Turner, who now realizes that he too had misinterpreted the Bible. Unable to escape, they are both captured and imprisoned.

Nanny Abernethy Rites Are Read

Mrs. Pearl "Nannie" Abernethy, 87, died Sunday, June 25, 1978.

Services were Tuesday, June 27, 1978 at 10:30 a.m. tomorrow in Kelton Baptist Church with the Rev. James Connor, pastor, and the Rev. Bill Rushing, minister of Lela Baptist Church, officiating. Burial was in Kelton Cemetery by Richardson Funeral Home.

Mrs. Abernethy was born in Montague County. She came to Wheeler County from Memphis in 1948. She married Carl Abernethy in August 1908 at Saint Joe. He died in 1963. She was a member of Kelton Baptist Church.

She is survived by a daughter, Mrs. Collene Mitchell of Abilene; four sons, Louis H. of Wheeler, E. T. "Dink" of Lubbock, F. C. of Amarillo and Garland C. of Twitty; three brothers, Newton Langford of Las Cruces, N. M., Jim Langford of Oklahoma City, Oklahoma and Luther Langford of California; 17 grandchildren, 47 great-grandchildren and 9 great-great-grandchildren.

SSU GOLF SEMINAR
David Henry (left) of Watonga claimed the low gross score and Alton Lohberger, Allison, Texas the low net score trophy in the Men's C Flight of tournament play climaxing the Southwestern State University Golf Seminar in Weatherford. Henry also took first place in the tournament putting contest. More than 30 persons were enrolled in the annual seminar held on the Weatherford Golf Course.

Latinos To Appear Sat., July 1

The Latinos, headquartered in Oklahoma City, Oklahoma are an inspired, dynamic, Gospel Singing Group, bringing anointed Gospel music at its best. Traveling world-wide, they will be presenting a program of Gospel in song at the following location: Sweetwater High School, July 1, 1978 at 8:00 p.m. in Sweetwater, Oklahoma.

The Latinos are a Christian group dedicated to the ministry of proclaiming the Gospel in song. This group will stir you as they play, sing, and testify of their experience with Jesus Christ. Their unique arrangements blended with the beauty of four latin voices assured them of the very successful beginning they have experienced.

Whether in concert, churches, high schools, colleges, universities, fairs, or television appearances, the audience is overwhelmed by the enthusiasm and anointing of the Latinos. Across

the U.S.A., Canada, Europe, and all of Latin America they have appeared in many leading television programs and being bilingual they put their emphasis on missionary work.

For the second time the Latinos are invited to Jesus '78, one of the biggest Jesus Festivals in the world. Other appearances include television tapings for CBN's 700 Club, the PTL Club, and the Spanish version of the PTL Club. By this means of mass communications their ministry is reaching thousands in countries they have visited.

Harold Velasquez is the emcee and Preacher for the Group. He has been singing with the Latinos for several years now and has an inspiring testimony of the many blessings that God has bestowed upon him. He composes songs for the Group and has amazed people all over the country with his young and exciting approach to his audience of all ages. Everyone is welcome to come.

Ladies Swimming

Tuesday morning are reserved for the ladies at the Wheeler Municipal Swimming Pool. The hours are 11:00 a.m. to 1 p.m.

Ladies day will be changed to Thursday next week, since Tuesday is a holiday, July 4.

For the rest of the summer, the ladies are invited to come down for a refreshing dip in the local pool.

Dedication Planned
Laura Guthrie
It is almost unforgivable that anyone should make the same mistake over and over. But I have done it. I must correct it now. Harold and Pat Hardcastle do not live in Sherman. They live in Vernon and have all the time. I did at one time think they had moved to Sherman, but they had not. I tried to correct myself last week—but made the same error. Please foregive me, Pat and Harold.

Annie Martin is another person who has been on the receiving end of a kindly gesture. Her grandchildren, Beverly (Martin) and Russell Morris of Dallas, were here a week or so ago, and out of their goodness and generosity painted Annie's house. (That is quite a job) Then the great-granddaughter, Angela stayed with Annie and will be here for a few weeks.

Our good friend Clara (Marshall) Vickers and her husband Eli of Lubbock spent last Friday with Friends here. Their headquarters were at the Adrian Risner home, but a lot of us got to visit briefly with them. Hope they can come again for a longer visit. Clara's daughter, Laura was also here but she was tied up with her "set". I did not get to see her.

J. F. Cook and his wife Alma, of Hurley, N. M. spent Saturday with his sister, Mary Finsterwald. They had been to Wichita Falls and other points, visiting relatives. Sunday they went to Pampa where they would spend the night with another sister, Lolete Byers, and then make their way back to New Mexico.

Clara Holmes left Wednesday for her home in Albuquerque. She has been here with her brother Milton and Katie Finsterwald, and visited other relatives. I think she had to go home to rest. Her friends kept her on the go, besides Katie and had to see that she got around. Then this is the season for green beans and apricots. At Katie's house these things had to be taken care of. I'm sure Clara came on for her part of it. We will be looking forward to her coming again.

My family, Cork and Lydia Guthrie and family of Perryton, were down for an overnight stay last week. In the evening they visited with their children, Bobby and Shevon Guthrie in Shamrock.

The Don Carltons, along with Bobby and Shevon Guthrie were Sunday luncheon guests of mother and grandmother, Lucille Burgess.

Jean Gore of Amarillo visited with her sister, Bernice and Percy Farmer this week. Jean's son, Kenneth Sanders and family, who live in Wisconsin also visited with the Farmers. In the evening a brother, Mr. and Mrs. Cecil Bailey visited with them.

Zinnia Bailey is in Amarillo with her daughter, Charline Luttrell, who has recently undergone surgery.

Rex and Wanda Newkirk and daughter Jana of Delta, Colorado are visiting with Wanda's parents, Mr. and Mrs. Tillman Clemens. Rex is a local boy, I've known since he was very small, along with his parents and the other children. Rex was such a lively lad. From what I can find out, he is still very lively. He is pastor of the Calvary Baptist in Delta. His church had established a satellite church at Cedar Edge, where his assistant pastor serves as pastor. He tells me that the Kelton Baptist Church, near Wheeler, helps support this mission. Jim Newkirk, a son of Rex and Wanda, is also here. He is pastor of the Baptist Church at Arcadia, Oklahoma. He is doing a far reaching work thru his tracts which he personally designs and publishes.

Sweetwater Bake, Rummage Sale

The Meridian Extension Homemakers club will hold a Bake Sale and Rummage Sale Friday from 9:00 until 5:00 at Keathley Corner at Sweetwater, Oklahoma.

Allison Baptists

The First Baptist Church of Allison, sets date of July 7-9 for a weekend revival and dedication of new church facilities, which includes a new sanctuary and educational building.

Services will be at 7:30 p.m. and 11:00 Sunday morning. The dedication services will be at 2:30 Sunday afternoon.

Speaker for the revival will be Jack Taylor, president of demissions in Christian living. All former pastors and church members are invited.

Wanda Jackson will also take part in the services. Ronnie Chadwick is pastor.

Square Dance Lessons Planned

Square Dance lessons will be offered at Ky's Old Barn if enough people show interest. A total of 12 to 16 couples are needed.

If you square danced before, it will be necessary to take the lessons to pick up the new calls.

The cost of the lessons will be \$1.50 per person per lesson. The course will involve 15 lessons.

Young people from the 5th grade are eligible provided they have a partner.

If you are interested in learning to square dance, contact Topaz Kyseth at 826-5970 or Louis Stas at 826-3123. Leave your name and number so you can be contacted when a date is set to start lessons.

Citizen Arrested On Drug Charge

Jerry Joe Stevenson, 33, was arrested Saturday, June 24, at his home in Mobeetie. At the time of the arrest by the Wheeler County Sheriff's department, Stevenson had a 3 lb. coffee can of marijuana in his possession. Stevenson was taken to county court and charged with possession of marijuana. He posted the \$2,000 cash bond and was released.

BLOOD PRESSURE CLINIC

There will be a free Blood Pressure Clinic for all Wheeler County residents regardless of age, Thursday, July 6. It will take place in the south end of the old Nicholson Memorial Hospital on Canadian Street from 9:30-12:00 A.M.

This clinic is sponsored by the Retired Senior Volunteer Program and the Texas Agriculture Extension Service.

Those needing a ride can call Inez Wright at 826-3239.

BURGLARIES BEING INVESTIGATED

Wheeler County Sheriff, Doyle Ramsey, reports the investigation of four burglaries during the past week. Two Wheeler businesses were burglarized along with two houses—one in Wheeler and one at Magic City.

L. & F. Repair suffered the greatest loss in the four burglaries. The loss in merchandise and change was estimated at \$1,000.

Frank and Leona Coates discovered the burglary when they opened for business Monday morning. Items taken included an indash 8-track tape player with AM-FM radio, two CB radios and a new RCA portable television—AC/DC.

Raymond's Drive-In was entered during the night Saturday or early Sunday. Nothing was taken in the burglary as far as could be determined.

Some clothing stored at 1127 S. Main in Wheeler was taken when the vacant house was entered sometime after Wednesday.

A vacant house at Magic City used for storage was entered and the burglars carried off some guns. The doors on two deep freezers open and the contents thawed.

CLEARED AWAY: Work began last week to clear away the burned-out hull of a building in the 100 block of South Alan L. Bean Boulevard. It certainly helps the looks of the town when structures such as this are removed. Dan Luttrell owns this property.

LET "PROS" SHOOT FIREWORKS TO KEEP JULY 4TH SAFE

Although Fourth of July celebrations promise to be "bigger and better than ever" this year, the head of the National Fire Protection Association (NFPA) caution, "Let only the pros handle the fireworks!"

NFPA's Model State Fireworks Law, adopted in many-but not all-states, forbids individual use of fireworks except toy paper and/or plastic caps. The Model Law permits use of fireworks only in outdoor public displays put on by pyrotechnic specialists.

This means, NFPA President Charles S. Morgan points out, that fireworks of all types, including sparklers, should not be used by the general public.

"There are no such things as 'safe' fireworks," Mr. Morgan emphasized. "Only when everyone knows this fact and takes it seriously will there be an end to Independence Day tragedies from these so-called toys."

Leading the list of major injuries caused by fireworks, according to NFPA studies, are impairment or loss of eyesight; deafness; and loss of fingers and hands. Other effects can be severe burns, cuts and abrasions as well as broken bones. And each year a few people lose their lives in fireworks accidents.

Young children must be told and told again never to pick up a firecracker if they find one-not even in their own yard-and never to accept one if it is offered to them, Mr. Morgan advises. Parents should know where and with what their children are playing at all times, particularly around July Fourth.

On the basis of studies made by NFPA, it's important to warn youngsters not to try to move in for a better look when others are handling fireworks. Statistics show that well over half the victims of fireworks accidents are on-lookers or merely passing by when hurt.

SPARKS TREACHEROUS

Although sparklers are considered safe by many parents who let even small children play with them, Mr. Morgan notes that sparklers can approach a temperature of 2000 degrees F. and remain hot long after they stop throwing off sparks. Sparklers have been the cause of major burns to people and major fires in homes, have caused blindness and even death, and each year cause an estimated 600 injuries around the Fourth of July.

"Vastly improved enforcement of fireworks control laws is needed throughout the nation," the NFPA President explains. In order for both the NFPA Model State Fireworks Law and Federal regulations to do their job of safeguarding the public, it's necessary to stop illegal fireworks traffic and reduce the number of fireworks injuries.

Both have been increasing at a rapid rate.

PERSONAL

Carlene Britten of Groom spent two weeks with her grandparents, Mr. and Mrs. Fred Wood.

Mrs. Shackelford Has 85th Birthday

Sunday, June 18, Mrs. C. A. Bright honored her mother, Mrs. Ethel Shackelford with a birthday dinner in the Old Mobeetie Jail, celebrating the lady's eighty-fifth birthday.

Local Firemen Fight Hay Fire

The Wheeler Volunteer Fire Department was called to the Gary Miller residence 1 mile south of Wheeler afternoon to extinguish several bales of lovegrass. Thirty bales of hay and the baler were damaged by the fire.

Miller was in the process of baling the lovegrass when something caught in the baler. One bale of hay was in the baler when it caught fire; the object had been caught long enough that last several bales were smoldering. The belts on the baler had to be replaced and the rollers were damaged, but were not replaced.

The first call for the firemen was at 3:00 p.m. and they were again called later in the afternoon.

The loss was estimated to be around \$600.

LOWERY-BRADSTREET

VOWS ARE EXCHANGED

Miss Donna Lowery and Bradley Bradstreet exchanged vows in a double ring ceremony June 10, 1978 at the First Baptist Church, Wheeler, Texas.

After being given in marriage by the bride's father, the Rev. Jerry Hogan united the two.

The organist was Mrs. Sylvia Lee. Standing up with the bride and groom were the maid of honor, Miss Carolyn Steen and the Best Man, Dennis Blake.

"Savior Like A Shepherd Lead Us" was sung by Carolyn Steen preceding the ceremony. Ushers were Terry Tidwell and Steve Wallace, friends of the groom. Registering guests was Cathy Andis, friend of the bride.

Donna's colors were yellow

and white, and her bouquet was an arrangement of Daisies enclosing a small white bible. Donna presented her mother, and mother-in-law a long stemmed red rose, preceding and following the vows.

The attendants in the wedding wore corages, each a different color daisy, while the maid of honor carried an assortment of variegated daisies.

The bride's dress was made by Mrs. Mary Andis. It was a long white satin formal with an empire waist enhanced by long button lace cuffs and a dainty square neck. Her train was short, with a crown of white beads connecting it to the veil. Donna wore a lace garter abover her knee which Bradley threw after the wedding. Donna threw her bouquet to an anxious line of single girls.

Mrs. Dolores Simmons made a three tiered white cake trimmed in a bright yellow. Those helping at the reception were Miss Teresa Hefley, Miss Denise Westmoreland, Miss Brenda Williams, and Mrs. Delinda Tidwell, all friends of the bride.

The bride's parents are Mr. and Mrs. Herman Lowery, Wheeler. The groom's parents are Mr. and Mrs. Coy Bradstreet, Wheeler. The newly married couple spent their honeymoon in six flags. Their residence is already established in Wheeler where Bradley is employed by Robco Construction, and Donna is working in the Abstract Office.

CARD OF THANKS

We would like to say thank you to our friends and neighbors who were so kind during the illness and passing of our beloved mother and grandmother. To the pastor, to Bro. Bill Rushing, to the ones who sang, to the ladies who prepared the meal and for the beautiful flowers, we say thanks again. May God richly bless each one of you.

Ground Is Alive
Did you know that the ground under your feet is alive? It is. Or it should be. Nature is very active in the soil. Why all this activity? Because it takes a lot of work to make soil productive. The fuel for all this activity is something that scientists call organic matter.
Most of us don't give it much thought, but organic matter... humus, litter, call it what you will... is probably the most valuable constituent of productive soil. Organic matter in the soil is made up of living and dead plants and animals... plant roots, manure, crop residues, fungi, bacteria, worms, and insects.
Organic matter supports these bacteria and other living organisms. It also helps bring soil minerals into solution, increases water-holding capacity, improves aeration, regulates soil temperature, helps control erosion, and serves as an important source of certain plant food elements.
The Soil Conservation Service has some good recommendations for maintaining and replenishing organic matter. These practices include growing cover crops and turning under green manure crops, manure spreading, use of crop residues, practicing minimum tillage, and controlling erosion.
With the heavy machinery used on the farm today, cultivated soil tends to compact, and form a hard crust or "plow pan" that prevents rapid infiltration of rain or irrigation water. Consequently, a lot of water is wasted by running off the surface instead of being absorbed by the soil. Good management of soil organic matter is necessary to prevent this water waste and erosion.
The Soil Conservation Service reminds you that the soil is the basis of life. And if it keeps us alive, we must do our best to keep the soil alive.

CONSUMER ACTION
Call toll-free "hot-lines" to solve problems quickly and conveniently without spending a dime.
Here's a list of eleven helpful hot-line numbers to keep by the phone:
Consumer Product Safety Commission: 1-800-638-2666. Call this toll-free number to report a potentially dangerous product or a product-related injury.
Also, request free fact sheets on a wide range of products.
The CPSC investigates all kinds of products, from toothpicks to tricycles—but, they don't regulate the safety of cars, boats, airplanes, food, cosmetics or drugs.
Solar Hot-Line: 1-800-523-2929. Dial this number for information and brochures on solar heating and cooling.
The National Solar Heating and Cooling Information Center staffs this line.
Housing Discrimination Hot-Line: 1-800-424-8590. This toll-free number is provided by the Department of Housing and Urban Development. They in-

vestigate charges of housing discrimination based on race, color, sex or national origin.
But, the hot-line cannot help if the discrimination is based on marital status.
Auto Safety Hot-Line: 1-800-424-9393. Call this number to find out whether a car has ever been recalled because of safety defects.
Also, report hazardous aspects of a car and request free brochures and fact sheets.
This hot-line is staffed by the National Highway Traffic Safety Administration.
Lawyer Referral Service: 1-800-252-9690. This service provided by the State Bar of Texas—will provide the name of a local attorney who specializes in a particular problem.
Then, call that lawyer and set up a 30-minute consultation for a nominal fee.
Appliance Hot-Line: 1-800-621-0477. The Major Appliance Consumer Action Panel (MACP) provides this number for people with unresolved complaints about refrigerators, ovens and other large appliances.
The panel suggests first trying to settle the problem at the local level—but, if still not satisfied, give them a call.
Education Hot-Line: 1-800-638-6700. This hot-line is staffed by the Office of Education, Department of Health, Education and Welfare for information on federal grants for undergraduate college students.
Operation Venus: 1-800-523-1885. For questions about venereal disease, call this hot-line. They'll give the name of a local

free testing clinic.
Travelers Hot-Line: 1-800-323-4180. Dial this number for information on travel anywhere in the United States or its possessions.
The U.S. Travel Service will give a run-down of accommodations and attractions at the spot you'd like to visit.
They also send free travel brochure.
Hearing Aid Help-Line: 1-800-424-8576. Call the Better Hearing Institute's toll-free number for information on hearing disabilities. They give referral to local doctors, clinics and hearing aid dealers.
Moving Hot-line: 1-800-424-9312. Call the Interstate Commerce Commission for general information about transporting household goods and assistance with loss and damage claims.

RESOLVING MAIL ORDER PROBLEMS
Be your won mail order book-keeper.
Take notes and learn your rights. That way it is easier to get what you pay for by mail.
Mail order firms must forward merchandise within thirty days—or the stated time, and the customer must be notified of any delay, according to a Federal Trade Commission ruling.
If the delivery cannot be made as originally promised, the customer may demand a refund.
However, it is the customer's responsibility to cancel, and to state the exact amount of expected refund.
When ordering by mail, write the address of the company on the payment check, as well as description and any identifying number of the purchase.
Then the cancelled check is a permanent record and proof of payment.
If the order doesn't arrive,

write to the company to make sure they received the order. If they do not answer within 30 days, write to the U. S. Post Office or the Direct Mail/Marketing Association.
To begin the trace, be sure to include date of the order, amount involved, and a copy of any

correspondence between you and the company.
Consumers may write to: Consumer Advocate's Office, U. S. Postal Service, Washington, D. C. 20201—or Direct Mail Marketing Association, 6 East 43rd Street, New York, N. Y. 10017.

(City Seal)

A RESOLUTION AND ORDER by the City Council of the City of Wheeler, Texas, calling a bond election to be held within said City, making provision for the conduct of the election and other provisions incident and related to the purpose of this resolution and order.

WHEREAS, the City Council of Wheeler, Texas, has determined that an election should be held to ascertain whether said governing body shall be authorized to issue bonds of said City, in the amount and for the purpose hereinafter mentioned; therefore,

BE IT RESOLVED AND ORDERED BY THE CITY COUNCIL OF THE CITY OF WHEELER, TEXAS:

SECTION 1: That an election be held on the 8th day of July, 1978, which date is not less than fifteen (15) nor more than ninety (90) days from the date of the adoption hereof, at which election the following proposition shall be submitted:

"SHALL the City Council of the City of Wheeler, Texas, be authorized to issue \$300,000 general obligation bonds of said City for the purpose of constructing street improvements; said bonds to be issued in one or more installments, to mature serially over a period of years not to exceed FORTY(40) years from their date, to be issued and sold at any price or prices and to bear interest at any rate or rates as shall be determined within the discretion of the City Council at the time of issuance, and shall there be levied, assessed and collected annually ad valorem taxes on all taxable property in the City sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

SECTION 2: That paper ballots shall be used for said election, which ballots shall be prepared in accordance with the V.A.T.S. Election Code so as to permit the electors to vote "FOR" or "AGAINST" the aforesaid proposition which shall be set forth in substantially the following form:

"THE ISSUANCE OF \$300,000 GENERAL OBLIGATION STREET IMPROVEMENT BONDS"

The word "FOR" and beneath it the word "AGAINST" shall be made to appear on the left of the proposition. A square shall be printed on the left of each of the words "FOR" and "AGAINST", and each elector shall place an "X" in the square beside the statement indicating the way he wishes to vote.

SECTION 3: That the entire City of Wheeler, Texas, shall constitute one election precinct for this election and the High School Cafeteria, 101 East 2nd Street in said City is hereby designated as the polling place.

On election day, the polls shall be open from 7:00 A.M. to 7:00 P.M.

SECTION 4: That the following named persons are hereby appointed officers of the election:

MRS. LAURA GUTHRIE Presiding Judge
MRS. MARY FINSTERWALD Alternate Presiding Judge

The Presiding Judge shall appoint not less than two (2) more than three (3) qualified clerks to serve and assist in holding said election; provided that if the Presiding Judge herein appointed actually serves, the Alternate Presiding Judge shall be one of the clerks.

Absentee voting shall be conducted at the City Secretary's office in the City Hall, in accordance with the provisions of V.A.T.S. Election Code, Chapter 5.

SECTION 5: That all resident qualified electors of the City shall be permitted to vote at said election. This election shall be held and conducted in accordance with the Texas Election Code except as modified by Chapter 1 of Title 22, V.A.T.C.S., and as may be required by law, all election materials and proceedings shall be printed in both English and Spanish.

SECTION 6: That a substantial copy of this resolution and order shall serve as proper notice of said election. Said notice, including a Spanish translation thereof, shall be posted in the election precinct and at the City Hall not less than fourteen (14) full days prior to the date on which said election is to be held, and be published on the same day in each of two successive weeks in a newspaper of general circulation in said City, the first of said publications to be made not less than fourteen (14) full days prior to the date set for said election.

PASSED AND APPROVED, this the 19th day of June, 1978.

Alcalde, Ciudad de Wheeler, Texas

Secretario Municipal, Ciudad de Wheeler, Texas
(Sello de la ciudad)

UNA RESOLUCION Y DECRETO por el Concejo Municipal de la Ciudad de Wheeler, Texas, declarando una elección de bonos a tomar lugar dentro de dicha Ciudad, estableciendo medidas para dirigir la elección y otras estipulaciones que acompañen o que sean pertinentes al proposito de esta resolución y decreto.

VISTO QUE, el Concejo Municipal de la Ciudad de Wheeler, Texas, ha determinado que se debe llevar a cabo una elección para determinar si dicho cuerpo gobernante deberá ser autorizado a emitir bonos de dicha Ciudad por un total y con el fin más adelante mencionado; por consiguiente ahora,

SE RESUELVE Y SE DECRETA POR EL CONCEJO MUNICIPAL DE LA CIUDAD DE WHEELER, TEXAS:

SECCION 1: Que una elección tome lugar el día 8 de julio de 1978 fecha que no sea menos de quince (15) días antes ni más de noventa (90) días después de la fecha de aprobación de esto; en cuya elección la siguiente proposición será presentada:

"Deberá el Concejo Municipal de la Ciudad de Wheeler, Texas, ser autorizado a emitir bonos de obligación general de dicha ciudad por un total de \$300,000 para construir mejoras de calles; dichos bonos a ser emitidos en una o más series, a madurar en forma escalonada por un periodo no mayor de CUARENTA (40) años a partir de la fecha de emisión, a ser emitidos y vendidos al precio o precios y a devengar interés al porcentaje o porcentajes a ser determinado a voluntad del Concejo Municipal a partir de emisión; y habrá de ser gravados, tasados y anualmente cobrados los impuestos según el valor de todas las propiedades imponibles en la ciudad para pagar el interés anual y crear suficientes fondos de amortización para rescatar dichos bonos cuando los mismos vengán?"

SECCION 2: Que balotas electorales de papel sean usadas en dicha elección, las cuales balotas serán preparadas de acuerdo con el Código Electoral, V.A.T.S. de manera de permitir que los electores voten "EN PRO" o "EN CONTRA" a la mencionada proposición que será básicamente presentada de la siguiente manera:

"LA EMISION DE \$300,000 EN BONOS DE OBLIGACION GENERAL PARA MEJORAS DE CALLES"

Las palabras "EN PRO" y bajo ellas las palabras "EN CONTRA" serán puestas a la izquierda de la proposición. Un cuadrado será dibujado a la izquierda de las palabras "EN PRO" y "EN CONTRA", y cada votante pondrá una "X" en el cuadrado al lado de la proposición indicando como desea votar.

SECCION 3: Que toda la Ciudad de Wheeler, Texas, forme un recinto electoral para dicha elección y se designa por este medio la Cafeteria de la Escuela Secundaria, 101 East 2nd Street de dicha ciudad como lugar para votar.

Durante el día de elección, los lugares para votar estarán abiertos desde las 7:00 de la mañana hasta las 7:00 de la noche.

SECCION 4: Que las siguientes personas por este medio sean nombradas para servir los cargos de oficiales de la elección:

SRA. LAURA GUTHRIE Juez Actuante
SRA. MARY FINSTERWALD Juez Actuante Suplente

El juez actuante nombrará no menos de dos (2) ni más de tres (3) oficiales calificados para trabajar y ayudar en dicha elección; con tal que si el juez actuante aquí dentro nombrado desempeña sus funciones, el juez actuante suplente será uno de los oficiales.

La oficina del Secretario Municipal en la Casa Municipal se designa como lugar para Registrar los votos absentistas, de acuerdo con las estipulaciones en el capítulo 5 del Código Electoral, V.A.T.S.

SECCION 5: Que a todos los residentes con derecho a votar de la ciudad les será permitido votar en dicha elección. Esta elección será dirigida y tendrá lugar de acuerdo con las estipulaciones del Código Electoral de Texas fuera de las modificaciones hechas en el capítulo 1 de Título 22, V.A.T.C.S.; y como pueda ser requerido por la ley, los materiales y los procedimientos electorales para esta elección serán impresos en inglés y en español.

SECCION 6: Que una copia fidedigna de esta resolución y decreto servirá como aviso adecuado de dicha elección. Dicho aviso, incluyendo una traducción al español de esto, será fijado en el recinto electoral y en la Casa Municipal no menos de catorce (14) días antes de la fecha establecida para dicha elección, y será publicado el mismo día de dos semanas sucesivas, en un periódico de circulación general en dicha ciudad, la primera de dichas publicaciones a ser hecha no menos de catorce (14) días antes de la fecha establecida para dicha elección.

PASADO Y APROBADO, este día 19 de junio de 1978.

TIPPS-MADDOX VOWS EXCHANGED JUNE NINTH CEREMONY IN WHEELER

In a double ring ceremony performed by Rev. Jerry Hogan, June 9, 7 p.m. in the First Baptist Church, Wheeler, Texas, Tammy Gaylene Tipps and Jimmy Ray Maddox were united in marriage. The bride is the daughter of Mr. and Mrs. Dean Tipps of Briscoe. The bridegroom is the son of Mr. and Mrs. Bob Maddox also of Briscoe.

The church decoration included baskets of yellow daisies and yellow glads with baby's breath and lime green bows, placed before yellow candelabras entwined with ivy with lime green bows.

Cynthia and Roberta Maddox, sisters of the groom were the candlelighters. They wore lime green dresses trimmed in yellow. Mrs. Sylvia Lee played "We've Only Just Begun" and the traditional wedding music.

Given in marriage by her father the bride was attired in a formal gown of white satin covered with lace. The bodice was covered with lace and pearls. The skirt featured inserts of lace and pearls. The dress was fashioned with a high neckline and long sleeves of lace and

pearls. The matching fingertip veil in two tiers was adorned with lace edging which matched the bridal gown and was attached to a lace covered pearl and sequin headpiece. The bride carried a bouquet of white daisies with baby's breath and an orchid center.

Phoebe Hartline was her matron of honor. She wore a dress of yellow chiffon trimmed in lime green and a yellow hat. She carried a bouquet of yellow daisies and baby's breath.

Shonda Meek was flower girl and wore a yellow chiffon dress trimmed in lime green and a green hairpiece.

Keith Horn served as best man. Ben Meadows as ring bearer.

The brides brothers Dwight and Terry Tipps served as ushers.

Rolanda Hill registered the guest.

Following the ceremony the brides parents were hosts for a reception.

The four tier wedding cake was decorated with yellow and white daisies with a staircase accented with daisies and candles. Lime

green punch was served. The centerpiece was of yellow daisies and baby's breath. Those serving were Brenda Meadows and Trisha Hand.

For her travel attire Mrs. Maddox chose a four piece pantsuit of light blue. She wore the orchid lifted from her bouquet. Following a trip to Oklahoma City, Oklahoma. Mr. and Mrs. Maddox will be at home in the Briscoe community where he is employed by Dennis Hefley.

Ada Lou Lester Attends Meeting

Postmaster, Ada Lou Lester, of Mobeetie, along with 13 other Texas Panhandle postmasters were among more than 300 attending the 42nd annual convention of the Texas Chapter of NAPUS (National Association of Postmasters of the United States) June 11-14, in downtown Dallas.

The convention was held at the Baker Hotel, and postmasters and officers-in-charge from every sector of the vast State were in attendance and participated in the convention.

More than 1200 of the slightly-more-than 1500 postmasters in Texas are members of NAPUS. Nationally, more than 27,000 of the nearly 30,000 postmasters are NAPUS.

Presiding over the convention was Willard S. Thomas, president of the Texas chapter, from Weatherford. Dallas Postmaster James V. Lusby was host postmaster. (Postmaster Lusby, significantly, will unveil the gigantic new, \$30 million Dallas Post Office in August of this year. The new post office is located on 37.5 acres of land and is expected to be one of the finest postal facilities in the nation.)

Much of the preparation prior to the state NAPUS convention and the smooth conduct of the convention can be traced to the efforts of the two postmasters assisting postmaster Thomas as coordinator and technician, Claud Erwin and Eddie Morrow, of Rocksprings and Bridgeport, respectively.

The June 11-14 meeting attracted some truly "Heavy-weight" speakers. Climaxing the convention was Tom Costin, postmaster from Lynn, Massachusetts, and a former national president of the postmasters' organization. Costin has long been mentioned as a possible postmaster general, particularly if the post is again filled by a presidential appointment. Postmaster Costin spoke at the banquet June 14 which ended the convention.

Joining postmaster Costin in Dallas was Postmaster Joyce Turney, president of NAPUS, nationally. Postmaster Turney, on leave of absence from her south Pasadena Post Office for the next two years of NAPUS leadership in Washington, D. C., is the first elected woman to lean NAPUS. She is an attorney as well as postmaster, having earned her law degree in night school while being a big-city postmaster during the days.

Other featured speakers at the convention included James C. Curtis, director of mail processing for the southern region (of which Texas Post Offices are a part); Joe Bruning, district manager of the East Texas District (one of three district managers having jurisdiction over Texas Postmasters); R. L. Jackson, regional chief postal inspector for the southern region; and Ed Jendrusch, Jr., postmaster of Falls City, regional Vice-president (elected NAPUS representative serving on the national board, representing Texas and Louisiana).

Another special speaker was a departure from the usual postal-oriented talk. A long-time friend of President Thomas, retired general James F. Hollingsworth, offered a ringing, stinging argument in favor of adequate national defense training and equipment. General Hollingsworth was recently featured in a television special, "ABC Close-up", in which he cautioned the U. S. about what he considers weaknesses in our defense posture.

Texas is represented on the national board of NAPUS by postmasters who gave reports to the Texas Convention. They were: Teal Adkins of Beeville, Communications Chairman; Marie Johnson of Vidor, JEP Chairman; and Chris Gilbert of Grand Saline, Postmaster development. Claud Erwin is secretary of the NAPIUS credit union.

Hunting Decision Rights Appealed

Judge Newt Cox received a copy of an opinion from the Court of Criminal Appeals in Austin: Randolph Dewayne Eslin, Appellant vs. The State of Texas, Appellee, which affirmed the original judgment.

A complaint against Eslin, a member of a three party hunting group, for the offense of criminal trespass was filed by Coy Stevens in J. P. Court on December 1, 1975, which was during the 1975 hunting season.

On September 8, 1976, the case was appealed to County Court for a trial de novo. Robert D. McCutcheon, a practicing attorney from Perryton, Texas, was appointed as County Judge Pro Tem. A jury verdict found Eslin guilty of the charge and assessed him a \$200.00 fine.

In April of 1977, the judgment was appealed to the Court of Criminal Appeals in Austin. In their opinion delivered May 31, 1978 by Panel No. 2, composed of Presiding Judge Onion, Judge Dally and Judge Vollers, they upheld the jury verdict and stated: "While undoubtedly the evidence could have been better developed, we conclude that the evidence is sufficient to establish that Stevens was the 'owner' as alleged in the complaint. See V.T.C.A., Penal Code, 1.07(34)" and further stated "Much testimony was produced about the ownership of the Canadian River bottom, by the State and the Distance of the fence from the river bottom, etc. Nevertheless, the evidence shows without dispute that the area where appellant was apprehended was indeed fenced in area and was not a part of the river bottom. We conclude that the evidence is sufficient to support the jury's verdict."

Lovegrass Management

Proper pasture management is very important on weeping lovegrass. A very critical period for lovegrass is during the month of July. During this period soil moisture is generally low and evaporation rates are high. Growth of lovegrass will slow down and even stop during this period. The grass can be damaged by over grazing at this time and also the forage is generally of lower quality.

A plan is needed to control grazing during this period of reduced growth. This plan should include a method determine when action is needed. The easiest method to use is the stubble height. For lovegrass a 6" average height is best. Cattle should be moved when lovegrass reaches this height. Also a plan is needed as to what is to be done with the cattle when they are moved. Hopefully more grass available. If not cattle numbers can be reduced or extra grass can be leased.

This plan should be set up for the entire year. This is needed in cas of prolonged drought of other adverse conditions. If the Soil Conservation Service can be of help on any areas of pasture management please call or come by the office in Wheeler.

He also spoke to the convention. Texas NAPUS officers elected for the year beginning June 14, 1978 were confort postmaster G. W. "Dub" Haney, president; postmaster Mary Mndrup of Grand Prairie, executive Vice-president; and postmaster Cecil Stripling of Dale, first Vice-president. Other officers elected were Postmaster Bill Brooks of Sterling City, Texas, Secretary-Treasurer; and postmaster Bill Kennedy of Woodsboro, Texas, Editor.

Frank Phillips Has Pre-Counseling

In an effort to facilitate registration at Frank Phillips College for both the student and the office of registration, a pre-counseling program has been planned for the week of July 31 through August 4.

A pre-registration counseling time and date will be set for the student immediately following receipt of the following information from the student: 1. Pre-registration application; 2. High School transcript; 3. Completed health forms; and 4. ACT scores.

The pre-counseling requests will be processed on a first-come, first served basis.

Together with the pre-counseling time and date, the FPC office of registration will send to the student a packet of information cards to be completed and brought to the counselor at the designated time of appointment.

The student should be prepared to pay tuition and fees to the FPC business office on the date of the assigned pre-registration time.

Pre-registration forms may be obtained from Mrs. Maxine Brown, director of the office of registration.

George Washington was the only president to be elected unanimously by the Electoral College.

Book Review

"The Memoirs of Richard Nixon" is the autobiography of Richard Nixon, the thirty-seventh president of the United States. Before him only, six men who held the office wrote comprehensive memoirs. Now, here is Richard Nixon's self-portrait: a major work of autobiography, an extraordinary historical document, an intensely personal memoir. He begins his story with his earliest recollections of a rural California boyhood and continues through the moment he and his family left the White House for the last time. Richard

Cattle Grub Control Is Due

Now is the time cattlemen can obtain the best results in combating a pest that costs the Texas livestock industry several million dollars each year, the cattle grub.

Losses from the grub occur at all levels in the cattle production and marketing chain, Dr. Carl Patrick, area Extension entomologist, noted.

"The cow-calf producer is concerned about reduced milk production and resulting reduced weaning weights of calves," Patrick said. "The feeder suffers losses as a result of reduced gains and lower prices for 'grubby' animals. The packer who buys and slaughters 'grubby' animals realized hide loss, carcass trim and lowered carcass value."

The cattle grub begins to lay its eggs in late winter and early spring as a heel fly, the Extension entomologist noted. The heel fly lays its eggs on the cattle, causing a "gadding" response in the animals.

The eggs deposited on the cattle hatch in from two to six days and the small larvae penetrate the skin. They then begin to migrate through the body of the animal, first to the esophageal tissues and, eventually, to the back.

After reaching the back, the larvae cut breathing holes in the skin and continue their development to mature larvae, or grubs, resulting in warbles in the backs of the infested animals. Upon reaching maturity, the grubs emerge from the animal's back, fall to the soil to pupate, and emerge a few weeks later as adults.

The cycle takes approximately a year. Cattle grubs can be effectively controlled through the use of systemic insecticides, Patrick said. Best results are obtained when animals are treated as soon as possible after termination of heel fly activity and when grubs are small.

"This time occurs in late May and June in most areas of Texas," the entomologist said. The systemic insecticides can be administered as dips, sprays, pour-ons, spot-ons, mineral mixes and feed mixes, he said. The types and names under which they are marketed include: Dips—Co-Ral or Ruelene; sprays—Co-Ral, Rulene, Prolate, or Neguvon; pour-ons—Co-Ral, Ruelene, Warbex, Tiguvon, Prolate, or Neguvon; spot-ons—Spotton; mineral mixes—Rid-Ezy; and feed mixes—Trolene, or Famphur Feed Premix.

Before purchasing and using these insecticides, cattlemen should read the label and read precautions and restrictions, Patrick stressed. "None of these can be used on lactating dairy animals, some are not recommended for certain breeds, some are not used on animals under a certain age, use of some is not recommended if animals are sick or under stress, and frequency of applications are indicated on the label," he said.

ACCEPTING BIDS
The Mobeetie Independent School District will open bids for the sale of a 1969 Chevrolet, V-8, 24-passenger school bus at 8:00 P.M. on July 10, 1978, in the Superintendent's Office in the Mobeetie School Building. Good tires, good engine, less than 50,000 miles. The bus can be inspected at the school. Send bids and inquires to Bob Mickey, Superintendent, Mobeetie ISD, Box 197, Mobeetie, Texas 79061.

BETA SIGMA PHI DONATES STAMPS
Beta Sigma Phi donated stamps to the Wheeler County Girl Scouts for their March service project. This donation is to be given every year. The stamps will be used toward the purchasing of camping equipment. Anita Brown is the local counselor.

Nixon's is the story of a life of conflict and contrasts, of supreme happiness and anguished sorrow. It is the story of a man who chose to lead his life in public, but who remained a private person. Never before have we been able to share with such immediacy in the thoughts and feelings of a working President.

"Eagle Fur", by Robert Newton Peck, is an enthralling novel about a sixteen year old orphan boy in the wilds of pioneer Canada. It is 1754, and the French and Indian War is brewing across the North American continent. Young Abbott Coe—without family or friends—arrives at Fort Albany to begin his life (wearing an iron collar) as indentured bondservant to Skinner Benet, fur trader and representative of the far flung Hudson's Bay Company. Benet is hard, but as rigorous with himself as he is with others. And not unjust. And Abbott begins to respect his master, for Benet proves to be both generous and brilliant at teaching him the skills lore and discipline necessary to survive on a bleak and savage frontier. Abbott Coe's world begins to widen through the friendship of the brave patrician soldier from Scotland, Ensign Overn McKee, and through his feelings, which he finds difficult to control, for the Indian girl, Doe, who belongs to Benet.

Mosquito Control Around Home

Wheeler—The recent rainy period has brought a mosquito problem to many communities of the Texas Panhandle. Hordes of mosquitoes have been reported biting residents, especially in eastern Panhandle communities.

"Mosquitoes can develop wherever standing water is available," Joe Don King, Wheeler County Extension Agent, said. "Old tires, tin cans, birdbaths or roadside ditches all can hold enough water to provide breeding sites for mosquitoes."

If mosquitoes are a problem where you live, the county agent said, the first thing to do is to eliminate their breeding sites. Empty old tires and place them where they cannot collect additional water. Change the water in birdbaths each week. Drain any standing water.

"If there is standing water that serves as a breeding site but cannot be eliminated, treatment with a larvicide will be necessary," King said. "One of the most effective larvicides is No. 2 diesel oil with a biodegradable spreader, applied at a rate of 20 gallons per surface acre of water."

"Abate, malathion or Dursban applied to standing water at labeled rates also are effective larvicides," King said. But he cautioned that labels should be read carefully to determine the hazards these insecticides pose to applicators, fish and animals that may use the water.

Control of adult mosquitoes offers the most immediate relief. Inside the home, aerosol bombs containing pyrethrins offer quick knockdown of adult mosquitoes, the Extension agent said. The killing effect of pyrethrins is short-lived, so frequent applications will be necessary to control adult mosquitoes inside the house. The "pest strip" offers effective indoor control for long periods. "One pest strip for each average size room is necessary to control mosquitoes," King said.

"Persons who are active where mosquitoes are a problem should use repellents," the Extension agent advised. "These repellents will protect you from biting mosquitoes for from one to three hours, depending upon your type of activity."

Adult mosquitoes around the home can best be controlled by space or residual treatments of insecticides such as malathion, dibrom, methoxychlor, or dursban, he suggested. Space treatments, generally fogs, have very little residual activity and require repeating at frequent intervals. Space treatment should be done during the cool hours of the night or early morning and when wind velocity is less than five miles an hour.

Residual treatment applied as mists or sprays to the sites of adult mosquitoes gives longer lasting control than space treatments, King noted. These should be applied to vegetation, eaves of roofs, under porches and similar shaded areas where adult mosquitoes rest by day.

"The hot, dry summer weather that is normal for the Texas Panhandle should dry out these temporary pools of water and give people some eventual relief from these biting mosquitoes," King said.

JAMIESON FAMILY MOVES TO EDMOND

By Maurine Dunkerson
Herald Staff Writer

Phillipians 1:6—Belong confident of this very thing, that he who hath begun a good work in you will perform it until the day of Jesus Christ;

I want to follow the Lord in everything I do", said Jim Jamieson as he explained about moving to Edmond, and entering a ministry training school.

The Jamieson family, Jim, Tillie, Tina, Todd and Tiffany have sold their house and moved to Edmond the first week in June. He has entered the Metrochurch School of Ministry in the fall.

The Metrochurch was founded in October of 1975 by Richard Hogue in Edmond and is acclaimed by Christian leaders throughout the nation as "one of the fastest growing churches in America". At this time there are over 2600 members. They instituted two schools of learning, the Metrochurch School of Ministry and the MetroSchool.

He sold his part of the real estate firm in September of 1977, "because this is what the Lord wanted me to do." At that time it came to him that the Lord wanted him to give up something that he really loved and this was the real estate firm.

"At one time I really intended on being a millionaire," said Jim. "I wanted to be recognized by everyone as a local boy that really amounted to something financially, but God changed my want to's."

From September until January he was effected by the fact that the Lord hadn't given him the direction for his life. In his

Humans Pose Wildlife Threat
Many People are enjoying the springtime on picnics, while fishing, or, just hiking in Texas, but young wildlife can be harmed if picked-up or handled by the well-meaning individual.

The best reason to leave wildlife alone is state laws governing the possession, sale or barter, and confinement of both game and non-game animals, birds, and endangered species such as the horned toad.

Capturing young wildlife in the wild results in problems for both the person possessing the wildlife and the Texas Parks and Wildlife Department.

Many times, serious, unexpected problems arise from unqualified attempts to domesticate creatures which nature intended to be wild and free. Most people attempting to pen or confine these young of the wild do so with a sense of compassion for the apparent "lost" animal or bird. In reality, the parent or parents are most likely near by watching as you handle or even injure their young. Some wild parents will not accept their offspring back if human scent is left on the young.

Opportunities for the wildlife young to learn to survive in the out-of-doors is lost if not taught by their natural parents. These birds and animals fail to learn who their natural enemies are and how to defend themselves against attack.

Both "well-meaning" adults and children are often bitten by wild "pets" in captivity and usually it is the children receiving the worst of the deal. Some wild animals and birds carry harmful or deadly diseases such as virus, ticks, tetanus, or tularemia which can be transferred to humans or domestic pets.

Information about what to do with wildlife "pets" is available by contacting your nearest Texas game warden or any P&WD office.

Metrochurch School of Ministry opened with an enrollment of approximately 30 young men who are attending from across the nation. This is the realization of a dream that Pastor Hogue conceived for the purpose of training mature spiritual leadership to pastor churches of this generation. While other colleges and seminaries concentrate on mental and classroom instruction, M.S.M., directed by Dr. James Mahoney, concentrates on apprenticeships for developing the individuals through supervised internship programs.

Jim and his family moved to Guymon in February of 1964. He worked for A & M Construction and Real Estate for nine years and then in 1972 formed his own real estate firm plus going into the insurance business.

He sold his part of the real estate firm in September of 1977, "because this is what the Lord wanted me to do." At that time it came to him that the Lord wanted him to give up something that he really loved and this was the real estate firm.

"At one time I really intended on being a millionaire," said Jim. "I wanted to be recognized by everyone as a local boy that really amounted to something financially, but God changed my want to's."

Social Security Aids Education
Social Security benefits are underwriting a college education for thousands of young Americans. It is a parent's receiving disability or retirement social security, unmarried children between the ages of 18 and 22 can receive student benefits if they are attending school on a full-time basis. The benefit can be as much as ½ of the parent's benefit when the parent is living or ¾ of the parent's benefit if the parent is deceased.

Starting in 1974 student benefits became payable directly to the student. This is convenient for the student but it places responsibility for over-payments directly on the student.

Overpayments occur when students fail to report changes that affect their entitlement to social security. Terminating events include marriage, dropping out of school, changing to a non-accredited course of instruction and earning more in wages and/or self-employment than is allowed.

Since student benefits are dependent on parent's entitlement to benefits, a student can also be overpaid if his/her disabled or retired parent returns to work and fails to notify Social Security.

Overpayments can be a real burden to a young person trying to get established in life. If you are a student receiving Social Security, be sure you understand your reporting responsibility and report changes immediately to your nearest Social Security Office.

"I felt as if I had walked into a big, black hole in the wall, but we had to put our faith and trust in the Lord."

"Because of growth patterns that has to take place sometimes we have to wait on the Lord to show the direction," he continued.

Late in January he was led to the conclusion that the Lord wanted him to help bring people to know Jesus Christ. "There will be a learning period and then you will prosper," said the still small voice within. As Jim said, "the prospering would be in the lives of others and not financially."

The Bible says "My sheep shall know my voice," and Jim knew whose voice was calling to him.

In March he went on a Lay Witness Mission to Edmond of the Metrochurch. He was sent a brochure and just stuck it in his pocket but within a few days he read and then reread the part about a school of ministry. On his way back from visiting PTL in North Carolina, he stopped in Edmond and visited the school and the church. From there on everything fell into place.

He came home, told his wife, Tillie, about the school and although she had been reluctant to become a ministers wife, she was ready to go now. In fact the first words she said were, "when do we leave." Well, they discussed with their children because it had to be a 100 percent family effort. With in two weeks everyone agreed this was where they should go.

Plans are complete for the 32nd Annual Top O' Texas Rodeo to be held in Pampa, July 13-15, with performances at 8:00 p.m.

Beutler and Sons of Elk City, Oklahoma, are returning to Pampa to produce this years rodeo. Don Endsley of Conway, Arkansas will be at the microphone describing the action.

This year's featured attraction will be Larry Mahan, "King of the Rodeo." Each night Larry will ride a bucking horse at the rodeo, appear with his band in the arena each night, and play for dances in the National Guard Armory building on the rodeo grounds.

Rodeo clowns come in all shapes and sizes and have to be agile, quick and fearless. Frank Rhodes and Joey Stewart are all of these. They will have some of the top specialty acts on the rodeo circuit to entertain you each evening.

Entries for PRCA and GRA members will open July 7th, 12:00 noon and close July 10th, 12:00 noon. To enter call the Central Entry Office. Local entries will be taken at the Rodeo Office in the Chamber of Commerce from June 26 until July 9, 12:00 noon.

Two free pancake breakfasts will be held for the public. One on Thursday morning, July 13, in downtown Pampa and the other on Friday morning, July 14 in the Coronado Center parking lot.

Only one variety of mushroom is grown commercially in the U.S. It can range from dark brown to pure white. Differences are negligible, but the darker ones are firmer, better for skewering, less easily bruised and—some believe—more flavorful.

Library News

Lana Bradstreet, Librarian, reports that six new books about horses by Walter Farley have been added to the Junior Fiction Section of the Wheeler Public Library. She also stated that other books of this series will be added later.

Children's straight or folding chairs are needed in the Junior Section of the library. If your children have outgrown their small chairs, a donation of them will be greatly appreciated.

If you have guests during the summer, don't fail to take them to see your library. It is one that everyone should see to appreciate.

Have you checked out a book, a tape, or a picture lately?

They have purchased a home in Edmond. Jim will be attending school in the mornings, working in the afternoon with a real estate firm owned and operated by Christian friends along with his insurance business. The only thing left to do is sell their home in Guymon.

"The people of Guymon have been very kind to us and this will always be our home town, our home base so to speak. We hope that they will better understand what has happened in our lives and why," said Jim.

He went on to comment about his son's death and how as a result his life was turned around and he was led to Christ.

Everyone in the community will miss Jim and his happy smile and hearty handshake.

Tillie is the daughter of the Late Roe Green.

Top Of Texas Rodeo Time

The rodeo parade will be held Saturday, July 15 at 10:30 a.m. and be followed by a Pony Express Tournament at 1:00 p.m. in the rodeo arena.

The Kid Pony Show with events for children through age fifteen will be held Monday, Tuesday and Wednesday evenings, July 10, 11 and 12 at 7:00 p.m. Children in that age range are invited to participate.

Reserved seats for the rodeo performances may be secured by calling 806/669-3241 or by writing Box 1942, Pampa, Texas.
