persons killed, 23 persons injured, and an estimated property damage of

*As of July 3, there had been a total of 1,360 fatal crashes in Texas taking the lives of 1, 288 persons," the Sergeant stated. Thisis 174 more traffic deaths than for the same period of 1963. If traffic deaths continue at the present rate, 1964 will become the most deady year in Texas history for traffic fatalities, not only exceeding the 1963 all time high of 2,729 deaths but

The veteran Patrol Supervisor stated "This is not just a probability, but a pos sible reality, unless the motoring public becomes more thoughtful in regard to complying with traffic laws which would break the n's ing trend."
