And the rain and the promise of more rain continues. Such a nice spring we have been having.

-cwe-Graduations are over and school is out for a short time. It will seem very short for some.

-cwe-We left Thursday morning, early, and headed for Huntsville to spend the weekend with Cathi and Dorcie; the 'boys' were gone for an engagement in vkyoming

-cwe-While in Huntsville, we attended the end of school assembly for Dorie's school. She received recognition for having had All A's for the quarter and year.

-cwe-With the Memorial Holiday being Monday, we remained at the ranch until Monday morning and arrived back in Wheeler late Monday evening

-cwe-Of course we stopped in Sherman and OKC on the way back to see the two 'bunches'

-cwe-

Remember the rodeo this weekend at Wheeler. Each performance, Friday and Saturday starts at 8:00.

-cwe-

And, of course, don't forget the Ex-Student/Teacher reunion to be June 9. Activities start Friday evening with the 'Open Mike' at the park. Sounds like something you won't want to miss.

-cwe-Garth Nash is to be incharge of the program at the park. I am sure we will see lots of local or former

local talent. -cwe-Cards were not played Monday evening. We got home in time, but

Landowner Considerations for Wind Farm Leases Finding Out About Wind Farm

Leases Are You Interested In Wind Farm Leases?

Wind Farm Leases for Landown-

Landowners and Ag Producers from across the state are making it their business to learn more about the development and ben-

efits of wind farm leases. On Thursday, May 31st at 10 a.m., the North Rolling Plains Resource Conservation and Development (RC&D) and First Ag Credit, will co-host a meeting in Pampa at the Pampa Chamber of Commerce Building 200 North

Ballard Street (Intersection of Kingsmill and Ballard Streets). Landowners interested in wind energy are encouraged to attend the meeting. Presenters will provide information about the environmental, ecologic, economic im-

pacts and other general concerns for wind energy utilization. The primary purpose of the meeting is to discuss items land-

owners and ag producers should consider when leasing their land for wind farm development.

Rod Wetsel and Frank Horak, authors of a booklet titled "Wind Facts: A

Landowners Guide", will give an

overview of current wind farm de-

and discuss what landowners should look for in leases.

### The View of a Southern Woman ... Southern California that is.

When Glenn Forrest Frosty was a kid here in Allison, Texas, he was quite the hunter. His grandmother did not approve in the least and did not want her birds Cambri Moore, Jayton Smith, Kala shot or harmed. I believe it was his late brother, Clifton, that was the other great white hunter and fisherman so, between the two of them, I am surprised there was a bird or fish left within a 50-mile radius. Cliff taught Glenn how to hunt and fish, but never could teach him how to quietly sneak up on an animal. Glenn said Cliff could get right up on an animal because he walked so quietly. Now Glenn is just the opposite and could not sneak up on a dead horse. I swear you can hear him coming a mile away. Since our marriage, he has become a bird lover and feeds our backyard birds every day. Quite a change from the man of Xavier Garza, Esther Gonzalez, yesterday! The finches get thistle seeds and the rest of them get Ivan Lopez, Mauricio Lopez, Ky sunflower seeds and wild bird Markham, Johana Pacheco, Ryan seeds. At that day ye shall know that I am in my Father, and ye in me, and I in you. He that hath my commandments, and keepeth them, he it is that loveth me: and he that loveth me shall be loved of my Father, and I will love him, and will manifest myself to him. Judas saith unto him, not Iscariot, Lord, how is it that thou wilt manifest thyself unto us, and not unto the world? Jesus answered and said unto him, If a man love me, he will keep my words; and my Father will love him, and we will come unto him, and make our abode with him. He that loveth me but keepeth not my sayings: and the word which ye hear is not mine, but the Father's which sent me. These things have I spoken unto you, being yet present with you. But the Comforter, which is the Holy Ghost, whom the Father will send in my name, he shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you. Peace I leave with you, my peace I give unto you; not as the world giveth, give I unto you, Let not your heart be troubled, neither let it be afraid. John 14:20-

Praise ye the Lord. Praise God in his sanctuary: praise him in the firmament of his power. Praise him for his mighty acts: praise him according to his excellent greatness. Praise him with the sound of the trumpet: praise him with the psaltery and harp, Praise him with the timbrel and dance: praise him with stringed instruments and organs. Praise him upon the loud cymbals: praise him upon the high sounding cymbals. Let every thing that hath breath praise the Lord. Praise ye the Lord. Psalm 150:1-

way it has been for almost four gears until last week. He saw one Roger Miller Museum on that feeder so he watched the squirrel climb that slim metal Will Present Musical pole. After a threat of death, (I love our squirrels) he bought some Vaseline and greased the pole. As we watched him, that squirrel jumped from a large flower pot to near the top of the pole only to slowly slide down to the grass. He tried again and down he went. By now, he was wearing the Vaseline on his tummy, so Glenn had to regrease the pole, but it did no good. Now, Glenn was ready for the shotgun, but no way would I let him do that,

When we bought this place back in 2003, he was happy because now we would have wild animals in our back yard to watch and I said, "no killing them." Of course, I did not know that we would have coyotes, badgers, skunks and opossums. I thought we might see a Bambi-type fawn or wild turkey now and then. Now, there are sometimes over 70 huge turkeys and 4 to 8 deer pawing up the grass and ground. The raccoons are into the fish ponds and a huge owl sits on top of our chicken house waiting for a meal. Also, snakes that eat chicken eggs before they hatch. That snake lost his life last year. I was even attacked by our own huge rooster, Big Al (now deceased). Henry still is on the attack when he sees Glenn and he loves for me to carry him around the yard and talk to him. Goldie is still sitting on the nest and finally one of the hens laid her an egg in her nest, and if she can last another 18 days, she may be a mother after all. I doubt if she will let the baby out of the nest...ever. Oh well, such is life on this Texas paradise? With love to all of you out there, Betty

They live on the east side of town and graduation was on the west side. Tanya called to remind them to bring the umbrellas as it was already raining. But, by the time they all got over there, it was just misting and messy. Chad and Jarrod were so helpful and such gentlemen, helping Granny and Nanny Mom maneuver the stadium seating. All those steps and being wet is a challenge. It's so refreshing to see such well-mannered young adults. They were raised right. By the time they got seated, it was just cloudy. Todd's graduation was the highlight of a great week. Todd and his best friend, John, were having a great time. As a graduation gift, both families are getting together and taking the boys on a cruise. Todd and John are really looking

of happy, excited young adults is being planned, as several family members will be joining them for a super celebration. Sorry the doctor appointment didn't turn out better. Wish there was an easy fix. The Lawton Stuarts really enjoy having Granny (Leola Stuart) and Pampa, is home from Iraq for Nanny Mom (Peggy Dunn) come spend time with them. They It's so good to see Ada Lou baked several dozen cookie's in a variety of flavors for the graduation reception at Ronnie and Tanya's. John and his parents didn't get to make the reception because they were enjoying their pointment and they could help family. But the Stuarts saved them some tasty treats. Chad and Tina Stuart have moved to Duncan, OK. They got to come over almost every night for supper and visiting. Saturday night, it got quite scary Tanya had gone ahead and saved for all of them. Chad and Tinahad gone on home. Tina's boys were at home with her mother, but they were concerned with the rains and storms. The streets were flooded in their area. They tried to go down a couple of blocks and come in the back way, but that definitely wasn't the thing to do either. They found themselves floating down the road, going places they didn't want to be. Chad finally got some control and managed to get Tina close to the back door of the house and was able to get her to the safety of the house. He was floating again and had Ronnie on the cell phone. Chad ended up half in a parking lot and half in the road, but was able to get out and get to safety. They later retrieved the car. An experience that will not soon be forgotten. Thank goodness, Tina's 13 year old and 8 year old had chosen to stay with their grandmother instead of going to graduation. Jarrid is living in Marlow and made several trips over during the week to visit with his grandmothers and enjoy the rest of his family. He made very sure that he was there the night that Granny and Nanny Mom made meatloaf and all of the trim-

Please keep Todd in your prayers; after they get back from the graduation cruise, Todd has surgery scheduled for June 18 to correct a blockage and take care of some other sinus problems. Friday morning during the dark thirty hours, Todd and Lori came by and spent a few hours. They had a truckload of vehicles to go to Los Angeles, CA. Lori had an appointment at the Pampa hospital to have a sonogram early Friday morning. They got in here about 2:00 A.M. and had to be in Pampa by 8:45. Then, it was on to Amarillo to meet Todd and Robert. Robert had to go over to the VA for blood work. As soon as we got that over with, we went to feed the tortured two some. Both of them having been NPOed for their tests was not appreciated. We met Lori's parents, Ron and Phyllis Jackson of Amarillo, and Uncle Moe (Maurice) and Aunt June from Topeka, Kansas. Buns Over Texas makes a pretty good burger and the visiting was great. Bob had a doctor appointment after lunch. We were so surprised to see our good friend from Hereford, Jim Ash. He was in to verify some stuff and to go check on their new apartment there in Amarillo. They hoped to be moved by the 15th of June. He and wife, Alice, have had a lot of health problems this year, so seemed like the perfect time to move closer to their doctors. It's so hard to find dependable people to do yard work and the upkeep on their house is more than either of them can handle. Hope you enjoy your new home and your new neighbors. They already know that there is a group that gets together almost every afternoon for cards and dominoes. These senior villages are great. Todd, Lori, Ron, Phyllis, Moe and June were all attending a party on Friday evening to honor Mark and Angie Jackson and help them celebrate their 25th wedding anniversary. It was going to be quite an event. Mark is Lori's brother, Saturday, Mark and Angie were leaving on a cruise. Todd and Lori were on their way west to deliver the load of cars. This is the busy season for the car hauling business, so they were very lucky to get a chance to get by for doctor's appointments and the family celebra-

fer, Erica and Jayden came by to get us and we were off to Fort Cobb Lake. We all spent the weekend at the homes of Nelson and Cindy Medley and J. D. McCoy and son, Larry. Jennifer and I met Michelle Sherwood and Michael and Brianna Mayfield at the 101 exit near Hinton, OK. The weather was very cooperative, but the fish weren't. Everyone seemed to have fun and had a great visit. We share a little camping area with a family from the Borger area, Ashley and Wade Randall and their five children, along with his sister and her two children and friends. So much for a quiet cove. All the children seemed to really have fun, though, that is, until the water snakes made their appearance and then the water games were over. Monday we took Michael and Brianna back to El Reno. They are enjoying their new home and looking forward to going to Canton Lake next weekend as Michelle's sister from Oregon will be in with her family. They are getting the pontoon boat ready as

you read this. Don't forget to tune in to the Children's Miracle Network Telethon this weekend on Channel 4. They do so much good for all of the children of the Panhandle area. The money raised will be kept here in the Panhandle and used for helping with financial aid for the critically ill, education on many diseases and treatments and research. Saturday, sometime between 7:00 and 7:45 P.M., Shelton May will be presenting the foundation with a check from the Mobeetie and Wheeler area. The volunteer fire department here in Mobeetie will be out in full force going from door to door collecting donations in honor of Shelton May. Please open your hearts and pocketbooks to this good cause. Many of our area children have benefited from the Children's Miracle Network. Our youth are our future and they deserve the best care possible. Any donation, even just pennies, pooled all together, can make a world of difference for some child. The Mobeetie Volunteer Fire Department will be in Amarillo Saturday night showing their support for Shelton and the area children already benefiting from the Network. Shelton and Mom, Kellie, will be telling their story on the Network Telethon and also on a couple of radio stations also promoting and supporting the Network. Shelton is a good spokesperson and ex-

They have access to a fantastic support system for the children and the parents and rest of the family during their struggles to become healthy, happy youngsters. Tune in any time during the telethon to meet some of these very special children and families. Praise God for all of our healthy children that have been spared the pain and struggles of disabilities and major illnesses.

Hope you all got a chance to enjoy the Memorial Day weekend. Just another chance to be reminded of all the sacrifices our veterans have made to give us the privilege of all the freedoms we enjoy and democracy. Our ancestors worked hard to provide a better life style for all of us, too. I hope we all appreciate it more when we consider the alternatives. Have a great week.
