CWE CHAT WITH EDITOR

By Louis C. Stas

We continue with hot and dry weather. The temperatures have been 100° or better.

What few clouds form are soon gone.

The Old Mobeetie Music Festival is fast approaching. And there will be plenty of shade. The dates are July 28-29 and 30.

We have some more information on some of the bands to be performing at Mobeetie. Pictures of these bands were not made available to the paper.

Something fast approaching is the opening of school; that will be here before we know it.

We have the results of the surveys filled out in connection with the presentation of the plans for Community Building/Library/Storm Shelter. These can be found elsewhere in the Times.

Work on the project is underway.

Dorcie, the granddaughter, went on stage this past weekend with The Gillette Brothers. She sang one song and played 'the bones'.

The banjo player has not made her debut yet.

We made a quick trip to Wichita

Judge Steve Emmert Receives State Bar Presidential Commendation

Hon. Steven R. Emmert of Wheeler, received a Presidential Commendation from State Bar of Texas President Eduardo Rodriguez for leadership in improving justice in Texas and for being among the first judges in the state who have met the standards of certification of special competence. Emmert, Judge of the 31st District Court, was among 146 individual graduates of the Texas College for Judicial Studies to receive such a Commendation at the State Bar of Texas Annual Meeting held in Austin, June 15th and 16th.

President Rodriguez also presented the Texas Center for the Judiciary with a Presidential Citation for providing outstanding edu-

cational opportunities to the judges of the State, and noted that exceptional recognition was deserved for the Texas Center's leadership in increasing the specialized competence of Texas judges through establishing standards of certification in the fields of Appellate, Civil, Criminal, Family, Juvenile, and General Jurisdiction through the Texas College for Judicial Studies.

The Texas College for Judicial Studies is a multi-year program curriculum designed to provide advanced educational opportunities to judges who desire to improve their adjudication skills and acquire more knowledge in their jurisdictional specialization. The Texas Center for the Judiciary, an Austin-based non-profit judicial education group, developed the College curriculum. Judges who currently serve on the bench of a Texas county court at law, district, or appellate court with four years of judicial experience were invited to apply for admission to the College.

"We are honored to receive this recognition from President Rodriguez and the State Bar of Texas," said Mari Kay Bickett, Executive Director of the Texas Center for the Judiciary. "We developed the Texas College for Judicial Studies to allow judges to have the opportunity to obtain advanced, specialized training in their jurisdictional area so they can excel on the bench. The creation of the College is in keeping with our mission statement at the Texas Center - *Judicial Excellence Through Education.*"

In the past several weeks there have been several power outages. What a tremendous frustration. I don't mind doing without air conditioning for a little while. I don't mind the house being dark because there are candles and flashlights. I don't mind having the television turned off. I don't mind not being able to use the microwave, electric stove, or any other electrical appliance for a bit. The power has never been off long enough to ruin the food in the refrigerator or freezer so that is not a big deal either. But what does bother me is when the power comes back on and I have to reset all of those clocks throughout our house. Although this is not an official count, I think that we have at least 100 clocks in our house.
The number of clocks may be a bit of a bad joke, but our reliance upon the clock is definitely not. We are a people who treasure time. Be at work on time. Get to school on time. Start worship services on time. We know the precise time of our favorite shows. If we say we will meet someone somewhere at a specific time we had better be there. Other cultures in this world have different impressions on time. Some will show up an hour early for a meeting at 10:00 whereas others interpret that to mean that they'll show up sometime after 10:00, even if it is hours later.
Regardless of time concerns, remember that our time is in God's hands. James 4:13-15: "Now listen, you who say, 'Today or tomorrow we will go to this or that city, spend a year there, carry on business and make money.' Why, you do not even know what will happen tomorrow. What is your life? You are a mist that appears for a little while and then vanishes. Instead, you ought to say, 'If it is the Lord's will, we will live and do this or that.'"

History repeats itself all through our lives and now it is my turn again. Why not? Twenty years ago, my late husband was rushed to the hospital with extreme pain which turned out to be kidney stones - lots of them. Now my Forrest Frosty Glenn has decided to do the same thing only he kicked up the pain a notch. He was fine yesterday, but in horrible pain at 3 am. He waited until 5 am to wake me and just one look told me to get him to the hospital in Canadian fast. And you know how fast Californians drive! He was in so much pain that he forgot that I had never driven to Canadian before, but luckily I headed north which was the right way. Even found a brand new road to drive on. Glenn said to be sure to watch for deer as it was just getting daylight, so I thought I was doing fine until he said, "There is one right on your side of the road!" It was about 10 feet from my car and luckily it did not move or I would have "gathered one" as Glenn would say. On the way home this evening, I saw the wild turkeys that Eddy likes to collect on his windshield. I think I was going too fast for them to take aim at me. The Hemphill County Hospital has a wonderful staff and Glenn is getting excellent care so I think he will enjoy his stay with them. Kind of like a vacation with nothing to do but stay in bed. He may even get to go to Amarillo in a couple of days for another vacation which may include an operation of some kind to remove his problem. Now that may be a challenge for me to get to Amarillo and back. Glenn has driven me there a few hundred times but never the same way. Oh well, I am the person that use to drive in the fast lane in Los Angeles and elsewhere in rush hour traffic and fight the summer visitors in San Clemente for parking spots, so what could Amarillo do to me?

I waited for my birthday present - a new chicken house that was being built in Elk City for over 3 weeks. It was promised that I would have it in 7 to 10 days. I waited for 2 weeks and called the steel company about it and got the answer that it was setting in their yard. I said, "Fine, but it is not setting in my yard so when was it going to be delivered." The answer was next Friday night. Did not come. Another call with a promise it would be delivered on Monday. Did not come. Another call informed Glenn that it was loaded on the truck and we would have it that night. Another call informed me that it had rained and they could not deliver a metal building in the rain! I guess it might melt. Who knows!! The last call I made was to ask if it would be here today as promised. He said no, so this southern woman said he could keep it. Why is it so hard to get workers or repairmen or builders in this area. I want a bigger patio, but have given up because no one will come out here to see what I want. Eddy and Shelia Walker got new carpet for their home and I

figured a miracle had happened to get someone out here to install it. In California you can get 3 estimates from 150 miles away in less than a week, they do a great job at a fair price when they say they will do it, they get it done. Maybe it has something to do with the oil boom, but we all know it will not last forever. Maybe if we are still here when the bust comes, we will get someone to build us a bigger patio. Stranger things have happened.

With love to all of you from Betty Boydston.

Another beautiful week in the Texas Panhandle. I think we are all convinced that summer has definitely arrived. The heat is really getting to most of us. Be sure and watch that every one drinks enough fluids during this hot, dry spell. Especially the youngsters that enjoy playing outside and forget to drink enough to keep their going strong. They don't realize

they can dehydrate so easily. The symptoms are a lot like a flu bug sometimes. Sometimes it appears with a headache, stomach cramps, dizziness, muscle cramps, clammy skin and pale-ness. Because of the heat and excessive sweating you may notice one or more in a person or child. A quart of water along with a teaspoon of salt in it helps get the body a little evened out if you don't have any Gatorade on hand. Just get them in the shade, or in the house and cool off with a rag dipped in tepid water and a fan when possible. Our elderly seniors need to be sure and keep their fluid in take up and stay out of the hot sun for long periods of time. All of you that have to work out in this hot weather please be very careful and observant.

It was so good to talk to Kellie May last week. They have had a very busy summer and shows no signs of letting up anytime soon, as lot of you have. Where does the time go? Right after school was out in May, they went to Arizona to visit family and help prepare for her niece's wedding. Peyton and Shelton always enjoy visiting and playing with their cousins. They wear themselves out and usually sleep most of the way home. This time the return trip wasn't so quiet, as they brought home the twins with them for a couple of weeks of playing and sight seeing. One week Jackie Don and Kellie took all of the youngsters to Red River, New Mexico. It was an exciting week! They all had a great time. Soon after they returned from New Mexico Kellie, Peyton and Shelton

took the girls to Amarillo and put the girls on a plane back home. It was really quiet around the May home for a few days. Shelton did very well on the Arizona trip and the Red River trip. His last complete check up and x-rays were quite good, but they are watching a place on a lung that was a little suspicious. They are just waiting to get in to see Shelton's pediatrician for a second opinion. She was the one that found Shelton's problem the first time after seeing several doctors before she got to the source of things. They have two opinions right now, but they haven't done another x-ray yet for the comparison. Please keep Shelton in your prayers. Friday night Shelton and several members of the family and several friends took time off from their family reunion to walk at Shamrock for the Relay for Life. That is such a heart touching, life experience. Something you don't soon forget. We have so many heroes battling one form or another of cancer. They are such an inspiration to everyone. This year little Martin Lopez of Wheeler is in about the same stage of his treatments as Shelton was last year. He made the walk under his own steam, with that beautiful smile when he completed his lap. Martin is only eight and fighting childhood leukemia. They have made so many strides in curing this horrible disease. They are having very good luck in getting this type of control in remission and can almost say a cure. Too bad they can't find a drug that isn't so hard on a person while it is trying to rid the body of all those raging cancer cells. Hope they find a cure very soon for all types of cancer.

Jackie Don May and Kent McNeely will soon be taking part of their vacation time to go to Firefighters School through A&M at College Station. It is an excellent school and works towards the hours for Kent to be a certified fire fighter, and Jackie Don to get his certification to be a level two trainer. It's very reassuring to know that the people protecting us and our property are well trained and educated in the most efficient ways to protect our community in a disaster. Last springs wild fires did plenty of damage but without the training and quick response and the alertness of every fire fighter, things would have been a lot worse. Thanks to all of you for taking time away from your families and find time to volunteer your time and talents, to be on 24 hour call to protect all of us.

Hope you had a wonderful birthday, Iva Richardson. Marsha and Leola were planning on taking Iva to Elk City for a birthday dinner on Friday. Marsha also had a doctors appointment to check on her ankle. They had planned to eat early, but had lots of interference and were going to have to wait until after her appointment. When they got to the doctors office they were informed that it would be a little while as the doctor was in an emergency surgery at the hospital. Thanks to the "to the people they know", aka Barbara Richardson, they had plenty of time to go enjoy Iva's birthday dinner while in the hospital with Barbara they got to meet Dakota James. He was hired by a landscaping company that their employees need to have a series of shots before they go to work, so they know their tetanus shots and such are all current. Never know what they are going to get into. He is the son of Shannon James, and the grandson, of Bill and Lena Ruth James. They used to live here and had the cafe on main street before Sallie Adcock had it. We miss them all. Uncle Billy and Aunt Kathy stay busy and live in Elk City too. They all actually live a few miles west of town on highway 6. We miss ya'll.

On Saturday, July 15th, the Thornton-Marriot Family had their family reunion at Sayre, OK, on Saturday, July 15th. There was a good turnout and lots of visiting with the cousins. Dale and Barbara Richardson of Elk City, OK, Jimmy and Patsy Richardson, of Erick, OK, Marsha Richardson, of Erick, OK, Leola Stuart, of Mobeetie, TX and Phoebe of Lubbock, Eddie and Amy Richardson of Wheeler, took advantage of the afternoon to get caught up with family and friends. Dale had worked with Leroy Hoffman for years in the trucking industry. They found out that, through the years and sharing information about the Doxey community, great-grandparent and half sisters and brothers of the great-grandfathers, they are "long, lost cousins". Lots of similar stories of neighbors too. Leola was very lucky to meet a distant cousin, Dorothy, that they had not seen each other since Leola was about 13 years old. They had a lot of fun getting caught up. On the way home from Sayre, Leola stopped by to visit with Mrs. Bulah Stuart and took her some garden fresh okra, squash, and cucumbers. Mrs. Stuart was so appreciative of the wonderful treats. Tina Densberger is living in Shamrock and working at Allsup's. She and her parents have offered Leola some of the harvest of their garden. Every one is quite well at the present. On Sunday there was another branch of the Marriot family tree at the Shamrock Inn for their annual family reunion. In recent years the group has gotten smaller and smaller. This years outrageous gas prices sure put a

dampener on family get-togethers for many of us. Those attending had a great visit. Dale had a couple of special, old family pictures reprinted and blown up, in the family auction. Everybody was wanting them. He also had a special picture for Aunt Vitula. Leola's family brac is from Lee and Viola Marriot. Of course lots of pictures were taken. This year the new owners wouldn't let them use the pool like they used to. With new insurance policies and all it took the fun out of the reunion for the younger children and young adults that got hot and "bored".

Sunday Leola heard from all three of her boys and their families. It was so good to hear from them, just unusual for them to all call on the same day. Guess they were just trying to see how the reunions went and what all they had to miss this year.

We picked up Michael and Brianna Mayfield in Yukon, Oklahoma on Thursday so they can spend about 10 days with us before Brianna has to have her tonsils out. Jeff Mayfield has spent the biggest part of three weeks in Colorado on a couple of jobs for Hanover. They are working over by Weston. He came home to Pampa Saturday night, to try and get ready to go to a measurement school in Kilgore. When he gets back from that, they should have all the equipment for two more units ready to be set and get cranked up. Friday morning on their way to work they saw a full grown mountain lion only about 50 yards from them. Then on Saturday morning they saw about a 350 pound black bear sauntering around. They decided to stay in the truck. Beautiful country and amazing wild life. It was as hot at 9:30 p.m. in Borger when they came through as it was about 5:00 p.m. in Trinidad. It was fun playing canasta with the "fun bunch" at Jo Reddings on Monday (17th). Others present were Bobbie Horn, Lou Dean Douthit, Charlene Rainey, Joyce Perkins, Leola Farris, Jo Redding and Virginia Puryear. Leola and Jo Redding gave everybody a run for their money. Eked out the win of the day. Jo served a delicious cappuccino cheese cake.

Monday Jackie and Fred Thrasher were in Amarillo for her last appointment with Dr. Dixon. They had dinner at the Cracker Barrel with Pat and the kids. Tony had conference calls and meetings out at the TA Truck stop most of the day. Jordan had spent the weekend with a friend and her family at Lake Greenbelt. They had a blast, swimming, tubing and Jordan learned to water ski. Tony and Pat took Joshua to see the movie "Cars". He really enjoyed it and had to tell Pee Paw about it. Congratulations to Pat Goodnature. She finally got the job that she has been waiting along time for with the Amarillo School District. Good things come to those that wait.

Have a great week. Try to stay cool, or at least comfortable.

Station. Lots of rides and video games, go carts and bumper cars that Hannah enjoyed and Holly went with her—like a couple of little kids. They got back home to Mobeetie Wednesday night. Randy and Carol mostly watched at Oklahoma City, while the girls had fun.

Glad to hear that Betty Tally and husband, Sid, of Miami are doing better. Keep praying for them.

Chad and Shonda Harrison now live at Van Buren, Ark. They will be moving to Ithaca, New York in August for Chad's job. Their daughter, Kylie, 2, has been visiting grandparents, Gayle and Terry Lewallen. Other grandparents, Cathy and Frank Hooper got to see Kylie.

Pastor Dennis Williams of Wheeler Baptist Church helped Earl and Betty Husted with Sing-a-long, Communion, message and special song at Wheeler Care Center Tuesday. Several residents out to enjoy church. Rosalie played the piano—good job. Also there, Joyce Woods from Shamrock and Emma Williams and Verna, helping with singing. Tuesday morning's church at 10:00 a.m. at Care Center each Tuesday. Some residents there were Howard Surber, Wilma Barker, Wayne Stanton, Opal Hutchison, Dorothy Walker, Aline Frisbee, Norma Bowerman, Vera Barnes, Neta Young, Ruth Jackson, Dorothy Hink, Reba Wofford and others. Visitors always welcome.

Sorry to hear Charlie Bartram from Wheeler Care Center had fallen and broke a leg between his hip and knee. Think they had to put a plate in. Charlie is the father of Betty Rogers and kin to Dutch Elliott. Remember Charlie in your prayers and his family. Charlie is now back at Wheeler Care Center.

George Gandy is doing some better. He enjoys the good meals from meals on Wheels. Visiting George Saturday were Preston (Butch) and Carol Glazner from Lubbock. Mike and Mary Gandy from Pampa and Elaine Ouadt from Wheeler. George still has some sore places on the right side of his head that makes it kinda hard to stoop. Butch and Carol (Gandy) also visited Preston and Elsie Glazner. Elaine has been very helpful to George and Preston and Elsie.

Jackie Cummings thinks she is doing much better and enjoys working out in the yard some. Nephew Charles Starr from Amarillo came and took Jackie to Amarillo for her chemo treatment Thursday. 2 more to go. They always have such a good visit and shopped some at Wal-Mart and got ice cream at Braums. Bonne Davidson always brings her a good dinner on Sunday. Charles Starr calls every day. Cindy Bradstreet brought grandchildren, Miles and Jenna Keith for a visit to Jackie's Saturday. She has always loved little kids.

Allison Graddy from Wichita Falls spent a week with grandparents, Ray and Glenda Hudson. Also visiting were Patrick Hudson and Steven Fraley. They play games and had fun. Glenda and Allison also made cookies and had a tea party one day. They also celebrated her birthday a little early (12 years) with ice cream and a cake with candles. Some others

there were Rodney Hudson and Hayden and Keri, Sonya Hudson and Patrick, Cheryl Fraley and Steven and Ray and Glenda.

Friday Glenda and Allison left about 4:30 a.m. to go to Skellytown to a drug screening job. From there they went on to Amarillo and did a little shopping and then Glenda took Allison to Childress to meet her mom, Jennifer Graddy. Glenda stopped in Shamrock on the way back to join Ray at the Relay for Life for cancer survivors. They ate supper at the Shamrock football field. They enjoyed seeing good friends, Harry and Christine Maretts there. The Maretts sell Santa Gertrudes cattle. They enjoy getting together about once a week.

Progressive Supper

Over 30 from Wheeler Baptist Church enjoyed riding in the new van and an older one Thursday night for supper. Mike Bryant drove the new van and Buddy Sparks the older one. First stop was the Royce Marion home where Claudia and Kaylee and Michael Killingsworth had prepared Melon balls, dips and other goodies. Next stop was the home of Ed and Laurel Hershman for salads. Next stop was at the Wheeler Baptist Fellowship Hall for chicken spaghetti and other goodies. The last stop was for dessert at the home of Pastor Dennis and Emma Williams and John and Justin. Some others in the party were Beverly Bryant and Josh, Ray and Mae Brazeal, Joe and Ann Ellison, Jim and Nikki Calderon, Gwen McCain, Wesley and Helen Steen, Maxene Crawford, Ella Mae Wood, Leona Coates, Katie Gallardo and Kayla and Vanessa, Marie Baker, Betty Howard, Verna Fillingim, Ned Burrell and Artie Tidwell.

Lots of delicious food and good fellowship. A fun time.

The electricity went off this Monday afternoon and was off nearly an hour. Thankful I wasn't on oxygen or had to go anywhere. The garage door doesn't work when electricity is off. At least I couldn't manually open it.

Glad to hear that Pastor Dennis Williams checked out pretty well at Dr. Russell Burns office. There will be more tests, but looks good this Monday afternoon. Keep praying for Dennis. Dr. Burns thought more exercise would help handle the stress. "Our God is an awesome God; He reigns".

Keep praying for Arvid Sword. Dennis and Emma also visited Arvid. Having more trouble with fluid build up. Arvid was to have a new defibrillator on Tuesday morning.

Dennis and Emma also got out of the doctor's office in time to go to the funeral for Dewey Lewis, Ann Killingsworth's dad in Amarillo Monday. God bless you all and comfort you.

W.O. Jones has been in Wheeler Hospital a few days with a touch of pneumonia. Remember W.O. in your prayers. Niece Brenda Dickinson from Canadian had visited W.O.

Nice to have a call from Thelma Clay Coym from Reydon. Always good to visit. She had an infected leg that was bothering her and was red and had had some pus in it. Pray for Thelma. She was going to two doctors Thursday. Glad to hear that her shingles had healed

up. Nice to see Peggy Chandler and Ruth Tucker at Thriftway Monday and get to visit a little.

"The love of God so rich and pure, it reaches to the highest mountain. It shall forever more endure the saints and angels' song."

Cosmel Trip

Joyce Perkins and her three daughters: Tina Deger from Ft. Worth; Becky Shirley from Caldwell and Teri Seitz from Wylie, Tex., flew to Cosmel, Mexico, for a great three days together there. Joyce enjoyed playing in the ocean, picking up shells and watching and visiting with her girls. Also going were granddaughters

"The Boys Next Door" To Be At Sayre

Looking into the minds and hearts of the mentally challenged in today's society, the Sayre Main Street Theatre proudly presents The Boys Next Door.

Reservations for the comedy can be made by calling Sayre Floral (580) 928-3355.

Production dates are Thursday through Saturday evening, July 27, 28, and 29 at 7:30 pm with one Sunday matinee, July 30, at 2:30 pm. All shows will be at the Sayre First Christian Church, 1601 N. 4th Street. Tickets are \$8.

Written by Tom Griffin, The Boys Next Door will touch the hearts of its audience as four roommates of a halfway house for mentally challenged adults present us with an overall picture of their world. These four men live together under the supervision of a caring, but over-worked social worker. All the characters are trying to find happiness and live in harmony in their own way.

"It's a gentle, fun play, and the ensemble cast works every minute toward an outstanding production," Patt Ward Curtin, professional guest director explained.

"Not only is this comedy in progress, but plans are underway to refurbish the historic Stovall Movie Theatre, so it's an exciting summer," Curtin added.

"Main Street, Mike Blevins, Mike Mathews, and the Sayre Theatre Board are all working toward that goal. They've received several siz-

able donations but they will have to have a lot more so all individual businesses are encouraged to donate."

"We'll gladly accept donations or money raising events of any kind," Mathews said. "Earlier in the summer, we partnered with Don and LaNelda Hughes and presented "Oklahoma Music Celebration," an Oklahoma Centennial project.

"The audience loved it, but it will take lots of money and lots of community support to restore the old Stovall."

Mathews said donations can be brought to Sayre Floral, Main Street.

The Boys Next Door production, or mailed to 205 E. Main, Sayre, Oklahoma.

"This theatre deserves its own performance space. Plus it will be a wonderful, intimate venue for all live productions and civic event," Curtin said.

Cast members for the show include: Charlie Burns, Cody Carnahan, Joe Mohr, Mary Lakey, Baylee Lakey, Colleen Taylor, Sarah Stephens, Nelda Tucker, Patti Macumber, Gavin Conkling, Matt Swint, and Mike Mathews. "An invaluable source of support has been Sagebrush, Inc. They've loaned us furniture, helped us haul items, and given us permission to use their service locations for several photo opportunities," Curtin added.

For People At Risk For Skin Cancer

U-V Protective Film Provide Protection

The time spent traveling in the car puts drivers at risk for skin cancer. The first ever in vitro study showing that window film on glass protects against photoaging, skin cancer and ocular damage was presented this spring by Eric R. Bernstein, M.D., at the annual meeting of American Society for Laser Medicine and Surgery. The in vitro testing of glass fitted with LLumar UVShield(R) window film reduced transmitted radiation of all UVA and UVB frequencies by 99.6 percent.

UVA rays can easily penetrate car windows, making both drivers and passengers susceptible to skin damage and skin cancer. This is especially significant since car travel is at an all time high. Nearly 10 million American commuters now spend more than an hour driving to work each day -- up 50 percent from 1990. And, 3.4 million of those 10 million people travel more than 90 minutes one way. With more than 90% of all skin cancers caused by sun exposure, these so-called "extreme commuters" need to take special precautions to protect themselves while driving.

"Most people do not realize their skin is not fully protected when they are behind glass," said Will-

iam Morsion, MD, Chairman of The Skin Cancer Foundation's Photobiology Committee. "UV-protective film is an effective way to reduce exposure to rays while driving."

Babies and children are especially at risk because they sit in the back in car seats where none of the glass offers UVA protection.

Professional installation of UV-protective films is usually required. Look in the yellow pages under "glass tinting" or "glass coatings" for a dealer near you. Laws on auto glass are based on visible light transmission and vary from the Foundation's Seal of Recommendation which ensures that a sun protection product is safe and effective. For more information about the Seal, visit www.skincancer.org.

The Skin Cancer Foundation is the only global nonprofit organization solely devoted to the prevention, detection and treatment of skin cancer. The mission of The Skin Cancer Foundation is to reduce the incidence of skin cancer through the promotion of prevention, early detection, and effective treatment of skin cancer.
