THE COUNTY SEAT NEWSPAPER

Canning Folk Banquet Hosts

Held Tuesday Evening at Relief Kitchen to Show Achievements

It might be appropriately designated as a sort of "achievement day" was held at the relief canning in Wheeler Tuesday evening. W. Veale, county administrator, Mrs. C. B. Witt, county canning project supervisor, were hosts at dinner, which was given in honor of county commissioner's court, to kitchen supervisors and co-supervisors. Newspaper men of the county were especially invited guests. Food served was obtained from the kitchen and put up by the kitchens and used expressly to demonstrate quality. The relief fund was reimbursed for supplies used. Excellent menu included roast turkey, peas, greens, yams, butter, jelly and coffee. This was followed with a dessert of cream, whipped cream and cake. A delicious repast proved a revenue to the diners. In its appearance, taste and substantial qualities.

Miss Jones introduced the various in her own inimitable manner, dispersing her remarks with pleasantries and good-natured raillery. After the invocation, pronounced by W. Veale, Mr. Tarter, W. Veale made the home address, to which County Commissioner W. M. McMurtry responded. Mrs. Witt, as county supervisor of canning project, offered a report on the work. She declared that 22,000 of these are No. 3 cans. The total number canned, 10,381, retained as toll by the plants, stored for disbursement to famines relief rolls this winter.

Her report also disclosed that 70 people have been afforded employment in the project, thus benefiting 400 persons. Total cash expenditures by the two plants amount to \$2,590.90, including supervisor's salary.

Project to Continue
Mrs. Witt announced that approval has been obtained for continuance of the canning plants another 12 weeks. The supervisor indicated that she would constitute the main item of preservation during that period. She expects a heavy run at the plants.

During his commentary on the project, Mr. Veale asserted that for his years and he felt that the results attained fully justified his previous arguments in favor of a county canning plant.

He took occasion to pay high tribute to Miss Jones, Mrs. Witt, their assistants and the commissioners court for the splendid co-operation which has prevailed. He also explained briefly some of the difficulties encountered by a county administrator and pointed out that his actions were made in conformity to orders from higher-ups, rather than his own preferences.

Those attending Tuesday night's dinner were: W. Veale, Mrs. C. B. Witt, Miss Viola Jones, Judge W. M. McMurtry, O. W. Elliott, Mobeetie, D. W. Wells, D. G. Sims, C. A. Whiteser and G. W. Hefley, commissioners; Leona Crossland, kitchen supervisor; Wheeler; Louise Risian, kitchen supervisor, Shamrock; C. G. Miller, Jake Tarter, Wheeler; Albert Cooper and Arval Montgomery, Shamrock.

LANDOWNERS SUE LONE STAR GAS COMPANY

Alleging breach of contract in payment for gas taken from property under their control, four suits against the Lone Star Gas company were filed in district court here yesterday. The plaintiffs, who live in the Lela and Pagan communities, are Michael Mertell, John Turnbow, A. H. Finley and T. E. Trostle. They ask sums of approximately \$5,000 each.

The petition recites that according to the lease, they are to receive not less than 10 cents per 1,000 cubic feet of gas for the one-eighth interest sold or used from wells. The complaint sets forth that the Lone Star company has refused to pay more than 2 cents per 1,000 feet.

DID IT FROST? SOME SAY YES, SOME SAY NO

Since the chilly weather of Saturday night, when vegetation was badly nipped, some argument has arisen as to whether frost or freeze did the job. Inquiry has found champions of both. Probably there were traces of frost, but no question exists regarding a freeze, because ice was observed next morning. To vindicate the integrity of Messrs. Holt & Kite, forecasters deluxe, The Times declares the damage resulted from freeze.

A cordial invitation is extended to the public to attend all services.

The public will soon be invited to attend the opening date at the new amusement place.

Briscoe Club Members In Achievement Tour

Party of 36 Visit Five Homes on Community Inspection Trip to Demonstrations

An achievement day tour formed the chief interest at the club meeting at Briscoe, Tuesday, Oct. 30, when 36 4-H and Home Demonstration club members left from the school house at 2:00 o'clock to visit six different demonstrations that afternoon.

The group left the school house in four cars and the Standlee school bus. They all stopped at Fay Hamner's home and assembled in the living room, repeated the motto and pledge and sang, "Uh and a Little Bit More;" then Fay told the story of her accomplishment and took the visitors in four at a time to see her clothes closet.

Next the group went to Fay Wilson's, seated themselves in her living room and heard the story of her wardrobe, then looked at it.

A wardrobe demonstration project of Mrs. S. N. Oats was inspected by the club trippers.

Nellie B. Candler's pantry was the next demonstration. As the guests arrived at her home she led them down into the large basement and told her story to them there, while they were looking at the finished product. 705 containers of 107 varieties of canned foods were displayed on the pantry shelves. After the demonstration the group returned to the front porch where they were served punch and cake. It was then 3:45 o'clock and the 4-H girls had to be back in the school by 4:00. As they filed out to leave, each was given a "snicker" bar of candy by Mrs. Candler, Nellie B's mother.

It was not time for the women to go home. They went to Mrs. Bob Greenhouse's and met in her large living room for a business meeting. Mrs. Greenhouse read the story of her pantry to them and took them to see her demonstration.

After the pantry demonstration the club gave the home agent a handkerchief shower. Next the party went to Mrs. J. L. Smith's home. After she had shown them her wardrobe they adjourned at 5:00 o'clock.

Mobeetie, an Indian Name for Sweetwater

Wheeler County Town Is One of Three in State Named for Sweet Water

According to an article sent out for publication by the Centennial commission at Dallas to publicize the statewide celebration in 1936, Texas has three towns named for their pure, sweet water: Auga Dulce, Mobeetie and Sweetwater. Auga Dulce is a Spanish word meaning sweet water, and Mobeetie is an Indian word significant of the same.

Mobeetie and Sweetwater, down in Nolan county, both were called "Sweetwater" in early days, and applied for this designation as their post offices at about the same time. Mobeetie was a little behind with its application and so took its original Indian appellation, but the creek on which the town borders still is known as Sweetwater creek.

Efforts are being made by the Wheeler county advisory board to obtain state aid for the restoration of old Fort Elliott, near Mobeetie, and a local celebration as a part of the Centennial event. The board, of which Mrs. D. F. Spruill of Shamrock, is chairman, has asked for an appropriation with which to rebuild the historic fort. The chairman received a letter, the latter part of last week, from Representative John Puryear, pledging his assistance in securing the appropriation.

Until further notice, Cox is authorized to solicit and collect for subscriptions to The Wheeler Times.

FUNDAMENTAL OBJECTIVES OF BOY SCOUT MOVEMENT

1. Is education teaching him how to take care of himself—to be physically strong, mentally awake and morally straight through the practice of Scout oath and law and passing tests.
2. Constructively employs his leisure time by giving him something worthwhile to do in his hours of play. Scouting is a program that is interesting to him, that teaches while he plays. He will "learn by doing," and with adult guidance.
3. Means clean, wholesome association with other boys and men, teaching him companionship and cooperation with others.
4. Is highly religious but non-sectarian, urging him to attend his own church or Sunday school and to practice its teachings.
5. Is truly patriotic, and is not connected in any way with the army or navy. Though it is non-military, it teaches loyalty to home and country and respect to flag.
6. Teaches service to others through the daily "good turn."
7. Teaches good citizenship by giving the Scout as a boy an opportunity to practice citizenship, by emphasizing the responsibility of citizenship rather than the rights of citizenship, through organized service.
8. Develops character through fellowship with men of character—the Scoutmaster and other Scout leaders. "Character is caught not taught."
9. Trains for leadership by giving boys practice in leadership.
10. Guides his recreational reading by suggesting wholesome books and by publishing at a popular price a clean, constructive magazine for boys, prepared so boys like it. This is the "Boy's Life."
11. Costs you nothing but an annual registration fee of 50 cents and perhaps troop dues of a few pennies per week which the boy himself should earn. Likewise it is best for the boy to earn his uniform and insignia, which are not obligatory, but are highly desirable.

Ben Parks of Allison, was in Wheeler Wednesday on business.

Mrs. J. J. Long of Perryton, who was a house guest of Mrs. W. H. Ellis at Mobeetie, had the following friends visit her Sunday afternoon: Mrs. F. P. Heare and daughter, Mary Belle, Mrs. Geo. B. Dunn, Mrs. John Dunn and children, Mobeetie; Mr. and Mrs. Roy Mathers, Miami; Mrs. W. D. Lee, Mr. and Mrs. Harlan McDowell and daughter, White Deer; Mrs. Ernest Lee, Wheeler; Mrs. R. P. Morris and daughter, Canadian, and Mrs. Robert Mitchell, Pampa.

WOULDN'T IT BE NICE—

If Postmaster General Farley would retain that "dumb stenographer" who "approved" Upton Sinclair's candidacy until she, he or it could summon us to a fat federal job in Washington at a nice salary?

A SPECTACLE SORELY MISSED

In this changing age if there is one thing we miss more than any other on our streets in the fall of the year, it is the dozens of cotton wagons standing around with freshly ginned bales, with happy farmers showing their samples to vying street buyers.

This era of cotton buying in the seed by the gins, who are owned by the cotton mills, is, to our way of thinking, detrimental to the farmer, the merchant, the ginner and the country at large.

We pine for a Newer New Deal which will bring back the street buyer, competitive bidding and staple sold on its merits. It would be better for all of us.—Clarendon News.

Tush, tush, brother, you should remember that "competitive," "competition," and the rest of the declensions are taboo and that cotton is a scarce article in Texas this year, thanks to Mr. Bankhead and Old Jupiter Pluvius.

BLAME IT ON THE AUTO

The following extracts from the front page of one of the largest circulated weekly papers is worth a moment's thought.

"Many earnest students of affairs have reached the solemn conclusion that the automobile is the main agency of evil which has gotten this country into the hole. Installment buying and joy-riding have left a trail of death and trouble in the wake of a modern invention which should have been employed for the benefit of humanity, and not its financial and moral ruin.

"Installment selling is at the root of our troubles. Luxuries can be bought on time, while necessities are sold only for cash. We have 130,000,000 population, the largest percentage of them broke. Only 17 per cent of our population is now paying an income tax. Still we try to operate 24,000,000 passenger cars, and 2,500,000 more are being sold this year. Just before the crash, the auto manufacturers made 5,500,000 motor vehicles in a single year. This is ridiculous, when one stops to think that it represents perhaps as many as there are in the entire world outside of this country. The writer says, 'I have seen young men in our own community who owned as many as five autos within a period of ten years, and with no need at all from a business standpoint.'

"Last fall I talked with a man who owes me and who has paid no taxes, interest, insurance or anything else of the sort for several years. He said he didn't know how he was going to get through the winter on account of lack of money to buy coal. Then he got a job on a CCC project, and last spring bought a car costing not less than \$400, although he had paid nothing on his debts. He has gotten most every kind of federal loan that is available. Now, I ask you, who is buying his car?

"We have in our community families who are not eating enough, so they can keep the car going; some who are going without underwear, to keep the car going. They put off the grocery man, the hardware man, their house rent, and everything they can—because if they fail to meet the payments on the car the seller will come and get it. They can't buy gas and tires on credit, so pay for them and beat their other bills. Is it right?"

THE AMERICAN SPIRIT

To a great many citizens, Americanism is just a word. They pay it lip service—but they have a very poor knowledge of its actual meaning.

Real Americanism is a spirit. It is that spirit which inspired the founders of the country—a spirit of unselfishness, self sacrifice, iron-clad character. It gave us liberty of church, of press, of political belief. It freed us from intolerable monarchic domination and established a

nation where the government was to exist for the individual, not the individual for the government.

Today, the American spirit stands for these things precisely as it did in the past. They are as important today as ever, and perhaps more important. The public is beleaguered from many sides by those who would effect sudden and irrevocable change in the very foundation stones of our government. The advocates of Fascism, Communism, dictatorship and other theories are always active—and there is danger that they may seem persuasive to a people struggling with great, yet temporary problems.

The public cannot be too strongly warned against seeking temporary benefits at the expense of permanent principles. Even the worst of depressions pass—and we will be a sad nation indeed, if after this one passes, we find that we have lost constitutional guarantees of corporate and individual freedom that have made us great.

NEED SPIRIT OF PIONEERS

The government has been pouring out relief funds for two years. There has been an emergency and it was imperative that relief be given millions of people. In this land of plenty no one should go hungry nor be cold for lack of clothes.

But the public relief has been abused, and it is high time that men and women for their own future welfare take stock of their situation. We do not want to have our people become improvident and shiftless dependents.

Relief workers report that it has been difficult or even impossible to induce some persons who are asking for public relief to go to the exertion of planting a garden or canning vegetables or fruits. Men have been hired to grow community gardens, and women are to be paid for their services in canning the vegetables from these gardens. The canned goods will then be given to the people who are in need of food next winter. The garden and canning projects are commendable enterprises.

But according to reports there are men and women who have the physical strength to plant and care for gardens and the produce from them who simply neglected to do so through shiftlessness. These people will have to be fed; they cannot be allowed to starve, but the brunt of public opinion should bear down heavily on them. It is disgraceful for a person to ask for public charity or to take feed and supplies from public relief agencies who does not actually need them.

The greatest recovery program that could be launched in this country would be to arouse the latent spark of pride in self-support. It is demoralizing to have thousands of people in this state maintained by public charity.

We need more of the spirit of the pioneers.

TAX-LIMITING AMENDMENT AROUSES MUCH OPPOSITION

Seeing in the so-called tax-limiting constitutional amendment a grave menace to public education, to the highway program, to poor relief and to the small taxpayer, one of the most imposing arrays of opposition ever assembled in Texas against an amendment is marshalling forces in every corner of the state.

The amendment, one of those to be voted upon Nov. 6, proposes to restrict state (not including local) collections and expenditures from taxes, licenses, permits and fees to a total of \$22.50 per inhabitant per biennium.

School teachers, women's clubs, parents, motorists, business and civic leaders interested in highway development, county and school officials, relief workers and small home-owners are campaigning to impress upon the electorate what the amendment really means.

The Democratic party of Texas, at its Galveston convention, Sept. 11, furnished the spearhead of the attack by recommending to the voters "that this amendment be defeated," because it is un-democratic, would shift tax burdens to small taxpayers, would menace poor relief and federal highway aid, and "threatens the continuation on existing bases of state aid to local units for school and roads."

Texas school teachers, through their state president, J. O. Loftin have said: "Inevitably, the state would reduce its aid to counties and local districts for building highways and maintaining schools and roads. The scholastic apportionment and rural aid funds for schools are especially endangered. The local tax burden of the average taxpayer would be increased."

"The joker in the proposal," added Dr. L. H. Hubbard, president of C. I. A., "is that it does not seek also to limit county, city and school district

taxes, which are the taxes the average person in Texas finds it difficult to pay. This is not a tax-limiting, but a tax-shifting proposal." Adds Eula Lee Carter, president of the honor society for women teachers, Delta Kappa Gamma: "This amendment would not apply on local taxation, but it would tend greatly to increase local taxes."

The Texas Federation of Women's clubs entered the fight with this salvo from its president, Mrs. Volney Taylor: "The limitation of general taxes on the basis of population is unprecedented in the United States." And Gladys E. Morgan, state president of the American Association of University Women, put her forces into the drive with, "Certainly in regard to this amendment, the slogan of friends of education should be, 'It shall not pass!'"

Declared the Texas Good Roads association through its president, W. O. Huggins: "The net result of this amendment would be a crippled school system and a crippled highway program, or else a heavier total tax burden upon the average man and the average community."

Our Exchanges

Items of interest culled from newspapers on The Times' exchange list.

Potter County Relief board in a meeting Monday afternoon passed an unanimous resolution that the five members resign in a body, leaving the way clear for the state board of control to set up a new organization in accordance with the recent legislation. County Relief Administrator Gaines D. Whitsett followed the action of the board members and tendered his resignation that night.—Tulia Herald.

An exchange laments the fact that a woman was acquitted on a charge of killing her husband. While I am not particularly strong for the ruthless killing of husbands, it is my opinion that there are a number of the specie who deserve extermination, and that the wife of one of these who ends his earthly existence should be given a pension rather than a prison term.—Pampa Advocate.

Miss Shesha Fizzle says the art of love making has not changed a bit. She read in her school history where a young lady in Greece two thousand years ago sat up and listened to a lyre all night.—Donley County Leader.

We have heard many voters state that they would scratch every one of the eight proposed constitutional amendments which are to be voted on in the general election, Nov. 6. The reason for this is all the amendments contain a "joker" and are so worded that they do not convey their real meaning. There is one proposed amendment especially that should be voted against and which is to the detriment of our public school system. It reads thusly: "The amendment of Section 3 of Article VIII of the State Constitution providing for the levying and collection of taxes and fixing the maximum amount thereof

At a meeting of the Adobe Walls Boy Scout Council in Pampa Monday night a new district was formed with Wellington as central headquarters and plans were made for more extensive Scouting activities in this section. The new district will serve Collingsworth, Hall, and Wheeler counties and areas included in the section; the area will probably be known as the Wellington district.—Wellington Leader.

Olin Reed at first was charged in a complaint, signed by Mrs. Hill with assault in attempt to murder. Following the death of Hill, that charge was dropped when a charge of murder was made in a complaint, also signed by Mrs. Hill. Reed's bond has been fixed at \$3,500, to await action by the grand jury.—Canadian Record.

"PASSING THE BUCK"

"Passing the Buck," is an expression that means one person letting the others do the hard work and blaming his mistakes on another person. An example of this policy is in a football game where the backfield passes the buck to the line in explanation of a poor game. A person who is always letting someone else do his work is practicing this policy. For his benefit he should train himself to the abolishment of it.

Anyone who has other people to do his work lowers himself in the estimation of his classmates. When a student of this type develops into manhood he will depend on someone all of his life. The boy or girl who is independent and never passes the buck has a feeling that he has accomplished something and can look the world in the face. If you are guilty of "passing the buck," try putting it in your own pocket for a change.—T. C.

"The seventh grade students have made a great improvement in all class work as well as at play. In geography they are studying Europe, salt maps will be made of Europe," states Principal Bob Clark.

"The sixth grade class has started a current event book. The topics covered are Mexico, political developments of the European countries, and such other events as are unusual or interesting to the class. The purpose of this project is to encourage the pupils to read the newspapers and acquaint themselves with those subjects of national importance. It should also enable them to select material that is interesting, important and educational in preference to that which merely pertains to murder and crimes," says Miss Ewing.

"The fifth grade boys and girls are collecting pictures of birds and are going to put them on posters and hang them in the room. Our room decorations for this six weeks are to be "Our Bird Friends." Every six weeks we are to have a different subject for room decorations," said Mrs. McCrohan.

SAGE BLOOMS

Wheeler, Texas, Oct. 30, 1934

Dear Jane:

Charles Dickens said, "Cheerfulness and content are great beautifiers and are famous preservers of youthful looks," so cheer-up. Your leg won't be broken always and the doctor said you could return to school next Monday.

I suppose you knew the seniors had a party last Friday night. I have something to tell you about it that no one knows but me. I will come over tonight before I go to Lou's party.

Our "flashy" Mustangs beat Canadian 19-0 in a football game at Canadian last Friday. They certainly fooled me!

When I come tonight, I will bring you "The Light That Failed." I am sure you will enjoy this book. It is written by Kipling, one of our required authors. I will not tell you anything about it so it will all be new.

HALLOWE'EN IS FILLED WITH ENTERTAINMENTS

Hallowe'en seems to be filled with more parties than ever before in Wheeler. Four parties were given by local high school students. Those who gave them were: Mazie Bean, Loula Clarke and Gladys Warren and the senior class had one in the American Legion hall.

There were 19 at the junior class party given in Mazie Bean's home Friday night. She served punch and cookies as refreshments.

The senior class was entertained with a Hallowe'en party at the Legion hall on Friday night. There were 16 present. Apples and lemonade, roasted peanuts and sandwiches were served.

Loula Clarke gave a party for some of her friends Tuesday night. Refreshments of hot chocolate, cookies and candy were served to the 25 that were present.

Gladys Warren gave a party in her home Tuesday night for some of her friends. There were about 26 there. She served cookies.

CARNIVAL OF P-T-A TAKES IN \$46.49

The sum of \$46.49 was taken in at the carnival sponsored Wednesday night by the Parent-Teachers association. The proceeds will be used to buy equipment for the school.

At 7:30 the free program opened in the auditorium. Several of the students gave readings and songs and there were short stunts played by business men, teachers and pupils.

After the program, the sideshows began. These included a prize fight, "42" tables, and beauty parlor for the boys. The house of horrors was in the basement. There were booths of candy, novelties, cake, pie, gum, peanuts and popcorn. In the auditorium Bob Clark's magic show was held. Sideshows included freak shows and fortune telling booths. In the office was a store, where numbers were drawn and merchandise with corresponding numbers was given. A guessing game was also featured in the office. Another game played by the merry-makers was bingo.

The prize fight in a side room ended when Mike de Bite knocked Bozo the Great for a loop.

Boys who visited the beauty parlor were "beautified" by the use of lipstick and paint. A fish pond was located in the hall. A penny a fish was the price.

BROKEN NOSES, BRUISES CALL FOR MANY EXCUSES

Black eyes and broken noses seem to be popular with boys of the high school. Various excuses are made for such misfortunes as these. The old alibi is "I got up in the dark and ran into the door," etc., this will not do to tell many times. One of the newest and queerest excuse is "I got my black eye playing snap." Now isn't that a queer one?

Some swear that their black eyes and broken noses were obtained while playing football. Of all things! Football is not rough. All that happens is that some player falls down and about forty or fifty heavier than he is pile on top of him.

People will always wonder if things happen as they are told to have happened. Oh! well, such is life.

Senior Class Has Only 15 Enrolled

Showing the smallest enrollment of any other graduating class in several years, the seniors have only 15 members enrolled at this time. Five others plan to join this class at mid-term.

Theodore Conner is president; Carlisle Robison, vice president; Florine Guynes, secretary; Travis Jones, treasurer, and Mack Shirley, sergeant-at-arms. Miss Winona Adams is sponsor of this class. Pink and blue were chosen class colors, and pink carnation is class flower. Their motto is "Don't try dying, but die trying."

The seniors have had seven class meetings this year in which they organized, chose class colors, flower and motto, selected rings, invitation cards and pins, elected Mrs. John Conner as class mother, and planned a Hallowe'en party which was given at the American Legion hall last Friday.

Loula Clark entertained her classmates with a Hallowe'en party Tuesday night.

The members of the class are planning to sell subscriptions for the McCall's magazine, from which they will receive fifty per cent of every sale. They plan to use the money toward a trip to Carlsbad Cavern on Senior day.

Those enrolled as seniors are: Loula Clark, Wilton Callan, La Veau Cole, Theodore Conner, Cosette Crofford, Ida Belle Davis, Rutha Belle Farris, Helen Gilmore, Florene Guynes, Jack Guynes, Nettie Vee Jamison, Travis Jones, Carlisle Robison, Mack Shirley and Mamie Lee Starkey.

Those who will be seniors at mid-term are: Fay Ficke, Earl Sivage, A. B. Turner, Curtis Weeks, Ford Newkirk, Laney Mae Tillman and Zinna Mae Holley.

REV. PHILLIPS GIVES TALK

High school assembly opened Wednesday morning with R. H. Forrester introducing the chief speaker, the Rev. O. E. Phillips of Abilene, who is holding a meeting at the Church of Christ.

Mr. Phillips stated that one should keep his mind open to receive the truth but remember that not all things are true. Some pupils, he said, are like a joke he heard once about the man who was dead and did not know it. The pupils who do not study their lessons or try to learn, are dead and don't know it.

Those visiting assembly were; R. H. Forrester, Rev. O. E. Phillips, Mrs. R. D. Underwood and Mrs. Jim Trout.

Movie Chatter

By a Rogue

Trumpet Blows

George Raft, Adolph Menjou and Frances Drake come to the Rogue theatre Friday-Saturday in "Trumpet Blows," depicting the glory that was old Spain's. It is a story that carries plenty of punch and wallop. It is fast moving and thrilling, and has a good story in the background. George Raft plays the part of the dashing toreador, or bull fighter, recalling the days of this popular sport in Spain and Old Mexico.

Also, a fine short subject, "Paree Paree," taken from the screen success "50 Million Frenchmen," will be shown in conjunction.

Melody in Spring
Here is the picture we have all been waiting for. "Melody in Spring" is one of those sweet, lively musical comedies that all theatre-goers are so fond of seeing. It has youth, romance, popular melody, comedy and just the right amount of story. One glance at the cast is enough to satisfy the most discriminating that here is ONE musical that will please. Lanny Ross, Ann Sothorn, Charles Ruggles and Mary Boland head the list. The management of the Rogue theatre especially invites the public to witness this performance on Monday or Tuesday night. Satisfaction is assured. Also, "Pilgrim Days," the first of the new "See America First," short subjects to be released.

There was a wheel race between the sixth and seventh grade boys, the bear race between the little boys were the ball-rolling contest between the seventh grade boys and the girls. V-8 Leadership Is Based on Engine Facts and Records

Some things about an automobile are more or less a matter of opinion. But when it comes to the engine, you are dealing with the hard facts of power and its application. Either you have V-8 power or you don't have it. You should know that experience and the records of performance are definitely in favor of the V-8 type engine. You need not depend on words—the record speaks for itself. It is something you can see as you "Watch the Fords Go By." Something you will realize even more fully when you drive the Ford V-8 yourself.

Only the FORD gives you a V-8 engine unless you pay \$2500 or more!

A. C. WOOD

PREACHER, TEACHER, JURIST

Recent acceptance by Rev. A. C. Wood of the pastorate of Bethel Baptist church affords an opportunity to publish the following sketch of his life, especially as related to his ministerial work.—The Editor.

A. C. Wood was born on July 3, 1875, in Wood county, Texas, on a farm near Quitman, the county seat. His early education was in the rural schools. He began teaching at the age of 17. At the age of 18 he entered the Sam Houston Institute at Huntsville, Texas, where he graduated in June, 1897, representing his class at the commencement exercises.

He followed teaching, supplemented with some farming until 1905, when, at the age of 30 he entered the ministry. For two years he was pastor of the Baptist church at Quitman, Texas, the county seat of Wood county, giving half time to that church. At the same time he was pastor of five country churches. From Quitman he went to Oklahoma, where he was engaged a few months in evangelistic work. He was called to the First Baptist church at Walters, Okla., in the early fall of 1907, where he continued until February, 1912. From Walters, he went to Arizona as missionary under the Home Missionary Society of New York, remaining in that work for two years. He taught school one session in Arizona while doing mission work, having been requested to take the school by parties that were not connected in any way with the Baptist denomination.

He returned to Texas in 1914 and became pastor at Como, Texas. During his five years residence at Como, he put in five years pastoring churches, two of which were at Como, and four years teaching, three of which were as superintendent of the

Como schools. From Como, he went to Hughes Springs, Texas, as superintendent of the schools at that place. He came to Wheeler county in the summer of 1920, as pastor of the Baptist church and is principal of the Wheeler school. He served the church as pastor for nearly two years. He continued teaching and preaching to country churches until 1925, when he became county judge and ex-officio county superintendent, having been elected in the 1924 election. He continued his preaching to country churches all during the four years he was in office. It was during his term of office that the present court house was built and the road bonds were voted, and a number of schoolhouses were built.

After leaving the office of county judge, he has taught school, attended law school at Cumberland university, where he was elected president of the class, and has practiced law, and is still practicing law in Wheeler. His office at present is at his residence. He is at present teaching at Lacost Grove, pastoring the Baptist church at Corn Valley and at Bethel, to which church he has lately been called. He has as an evidence of his application as a student the degrees of Bachelor of Pedagogy, Bachelor of Laws and Bachelor of Oratory.

A. C. Wood was married to Miss Kate McReynolds in 1898, near the present town of Hammon, Okla. To this union was born nine children, four boys and five girls, all of whom are living but one, a baby boy. The youngest is a boy of nearly 19, who is attending John Tarleton college. Nearly all the children have their degrees, and all but two have taught school. Mrs. Wood died five years ago.
