Wheeler Merchants Sponsor Great Trades Day Campaign

Attractive Spring Event Starts Friday, March 1, Ends Saturday, May 4

Under leadership of a committee headed by Ernest Lee, Melvin and Don Fisher, 40 Wheeler merchants this week joined in a co-ordinated trades day campaign and will program to attract shoppers to Wheeler as a trading point.

A number of features of great interest to the buying public is incorporated in the 65-day drive, which starts tomorrow, Friday, March 1, and ends Saturday, May 4.

During this time, Wheeler merchants plan to offer from week to week, special prices on many lines of merchandise, as well as other inducements to people of Wheeler and nearby territory.

Special days during the 9-weeks drive will be observed. They are as follows:

- Thursday, March 9,
- Friday, March 23,
- Saturday, April 6,
- Sunday, April 20, and
- Monday, May 4, which marks the end of the present campaign. On each of the above dates, Wheeler merchants plan to entertain huge crowds of shoppers, attracted here by outstanding bargains and the cordial invitation extended by the merchants "shop in Wheeler."

Of course, the big day of the whole drive will be May 4, when it is confidently expected that Wheeler will attract its largest crowd in many a day. In comparison with activities in other towns of similar size and some of the largest in the Panhandle, Wheeler's united effort is noteworthy. The spirit of co-operation and industry prevailing among the retail business interests is highly commendable. While comparisons are made or less odious a check-up will show that a higher percentage of participation is evident here than in other towns of any size in the county.

The Wheeler Times this week prepared and printed 5,000 large blue-page circulars for the 65-day campaign sponsored by the local merchants. These circulars give full particulars of the program much more completely than space will permit here. Wheeler visitors are urged to ask any merchant for one of the circulars or for information about the campaign.

These circulars will be distributed to the individual homes, that everyone may have full and complete knowledge of what Wheeler is doing in its trade territory and of the advantages to be found in buying in Wheeler.

Worley Stricken by Appendicitis

Eugene Worley, Shamrock, state representative from this district, suffered an attack of acute appendicitis Friday in Austin. Following his lapse in the house of representatives, he was taken to a hospital where his condition was considered critical. Later reports stated he underwent an emergency operation in the shape and his condition was improved.

The Times received a letter Friday from Worley in which he pointed out that he was endeavoring to fulfill campaign promises to the letter. He recently introduced a bill calling for an increase of from 10 to 15 per cent on horse racing and giving the state a larger percentage of receipts. Worley also expects to place state funded expert cotton classifiers in the department of agriculture, making their services available to all farmers interested in securing a better price for their cotton.

Worley has made a very creditable showing in his first term thus far. A Wheeler county friend will return with regret of his illness and hope for a speedy recovery.

Study Club Meeting

The Wednesday Study club met Feb. 27, with Mrs. M. L. Gunter hostess and Mrs. E. T. Cosper leader. Subject of the program was "Texas Literature, 1890 to 1934." The following topics were presented: Some Modern Texas Poets; Selected Poems, by J. M. Proter; Some Famous Prose Authors Who Have Written About Texas, by Mrs. W. L. Williams; Texas goes in "The Golden Cocoon," by Mrs. I. Joss; review of "The Wind" by its author, Mrs. Buck Britt; reading, "Repertoire," by Mrs. Cora Hill.

GOOD CITIZENSHIP MEET MONDAY NIGHT

The Times has been authorized to publish the following announcement: "All citizens of Wheeler county who are interested in good citizenship are asked to meet at the district court room in the court house at Wheeler on Monday night, March 4, at 8 o'clock to discuss the advisability of organizing a group for the promotion of good citizenship in Wheeler county."

County School Folk Favor Library Idea

Trustees and Teachers Endorse Plan at Meeting Here Last Saturday

That a central library appeals strongly to school people, both trustees and teachers, was shown at the meetings held here Saturday when resolutions were passed at a meeting of rural school trustees and at a similar gathering of teachers, endorsing the idea. It is expected that the library would be of great help to the public schools, as well as a convenience to the general public.

Sentiment favored asking the county commissioners to make a reasonable appropriation for establishing a library.

The trustees resolution said, "Be it resolved that we are in favor of a county library to supplant the present method of school libraries, said library to be under the control of the department of education of Wheeler county, and favor the commissioners' court providing a room in the court house for such an institution, and that the commissioners' court make reasonable appropriations for the care and management of same."

The teachers' resolution embodied practically the same sentiment. E. C. Smith of Magic City, G. L. Braxton of Twitty and F. A. Mooney of Kelton signed the resolution for the county trustees, while W. W. Brister, A. S. Wharton and Roscoe G. Morgan were the resolutions committee for the teachers.

"A county library could be established on an appropriation of \$300 to \$400 by the commissioners," declared B. T. Rucker, county superintendent.

"This fund," he explained, "would be augmented by state funds now provided for library purposes, on the basis of \$10 per year per school room. By having a centrally located county library instead of small, widely scattered ones as at present, duplication of books could be eliminated, enabling those in charge to purchase many times the number of books with the same amount of money."

Both groups attracted a splendid attendance, Saturday, with many fine talks concerning educational questions in the county being offered.

Miss Roma Newkirk Married Feb. 16th

Miss Roma Newkirk, formerly of Wheeler, and Mr. Carl McCoy of Amarillo were united in marriage on Saturday, Feb. 16, in Amarillo by Rev. Slim Duncan, pastor of the North Baptist church, in the presence of intimate friends and relatives.

Mrs. McCoy is the attractive daughter of Mr. and Mrs. L. W. Newkirk of Wheeler, where she attended school and lived until a year ago.

Mr. McCoy is the son of Mr. and Mrs. W. E. McCoy of Amarillo. The happy couple will make their home in Amarillo at the La Von apartments, 508 North Taylor. McCoy is employed at the Amarillo broom factory.

Wooldridge Lumber Co. Has New Manager

Beginning Friday of this week, the local yard of the Wooldridge Lumber company will have a new manager, J. E. Wilson, who was manager of the yard at Shamrock until the fire which wiped out the plant in July, will succeed G. C. Austin at the Wheeler yard. Wilson has been connected with the company some 21 years.

Austin, who has spent 20 years with the Wooldridge organization and has been in charge here approximately three years, severs his connection with the company, according to reports. Austin has not announced his future plans, but with his family is moving this week to Shamrock, where they will make their home.

Mr. and Mrs. M. W. Graves and children of Briscoe were in Wheeler Tuesday evening on business.

Livestock and Cured Meat Show Winners

Many Entries in County Event at Shamrock Saturday—Local Woman is Champion

Reports from the Wheeler county livestock, cured meat and canned goods show, held in Shamrock last Saturday, indicate a good list of entries in the livestock division and a large list in the other divisions. The livestock group was headed by the baby beef show of 4-H club members. Several exhibitors from outside the county had entries. A calf entered by G. C. Whatley of Groom won grand championship and a silver cup given by the Shamrock Cotton Oil company, also a cash prize for best in its division. Second place went to a calf bred by Phil Stewart of Deaf Smith county and fed by J. T. Whatley of Groom. An entry by Lewis Ellison of Shamrock placed highest for Wheeler county calves.

An auction of Wheeler county calves was held Saturday afternoon. Among the Wheeler county boys exhibiting, besides Ellison were Herbert Whitener, James Passons, James Tucker, Rayford Purnell, J. C. Scroggs, Leroy Lamb and James Morgan. There may have been others whose names The Times was unable to get.

County winners in the Hereford cattle division included H. H. Reeves, Shamrock; W. L. Williams & Son, Wheeler; James Morgan, Wheeler; Lewis Ellison, Shamrock; Herbert Whitener, Wheeler, and R. D. Purnell, Wheeler.

In the horse and mule division, county winners were White Whitley, Kelton; J. A. Bryant, Wheeler; W. E. Sheegog, Twitty; Dale Thompson, Twitty, and James Ray Tindall, Twitty, besides several Shamrock exhibitors.

Keen interest was shown in the cured meat and canned goods division, with 49 entries in the former and 109 in the latter. A Wheeler woman, Mrs. Jess Crowder, member of the Busy Bee Home Demonstration club, won grand championship in this section. She took seven first places, seven second places and one third place, receiving a grand champion ribbon, presented by the Shamrock Chamber of Commerce.

THIS YEAR'S CORN-HOG SIGNUP TO END MARCH 11

According to advices from the county agent's office, Monday, March 11, marks the closing date for this year's corn-hog signup campaign. It is said that prospects are bright for an increased registration over that of last year.

Records show that 305 county farmer-stockmen signed the corn and hog reduction program in 1934. It is expected that from 450 to 500 signers will be listed this year.

MANY "OPENINGS" OCCUR SATURDAY

Possessing something of the flavor of an oil town in boom days, several advertisements in this issue of The Times announce "formal" or other "openings" for Saturday.

Among the group is noted the H. & M. Grocery, a new enterprise backed by A. P. Houston and Ray McPherson. Their location is in the Lee building at the southwest corner of the square. Free coffee, cookies and cakes will be served to visitors.

The Clay & Beasley Funeral Home, located in the C. H. Clay building, near the southeast corner of the square, extends an invitation to visit their open house reception Saturday and inspect the conveniently arranged quarters, stock and equipment. Favors will be given visitors.

Then to complete the list, the Wheeler Poultry & Eggs, next to Mac's service station, will have a formal opening Saturday, to get acquainted and display its line of groceries, feeds, etc. Coffee and cakes will be served to customers and friends.

SUNDAY NIGHT'S STORM MAROONS JOWETT COUPLE

Mr. and Mrs. Floyd P. Adams of Jowett motored Sunday to Cheyenne, Okla., to attend the funeral of a friend, Mrs. Hodges. While they were returning that night by way of Allison their car became stalled in the sand three miles east of the town. They were marooned by the raging norther and forced to remain in the car from 9 in the evening until 6 o'clock Monday morning, when they were rescued by Mr. and Mrs. Levett, who live on a farm in that vicinity.

Jim Hyatt, employe of Beal's tailor shop, who supplied the above information, received word Thursday that Mr. and Mrs. Adams suffered no ill effects from their exposure.

Kelton's New Stage Curtain Now Placed

Several members of the Kelton independent school district board and supporters of the school were in Wheeler today. Among special news items of the community was a report that their new stage curtain for the recently completed auditorium-gymnasium has been installed.

The school board, faculty, students—in fact the whole community—is justly proud of the new equipment. They wish to thank all advertisers who took space on the curtain, thereby making the fixture possible.

4-H club boys and girls—94 of them—of Wharton county went to the woods in January and brought back 147 native shrubs which they used with 32 other shrubs to beautify the Wharton county fair grounds. A landscape plan was used to guide the planting.

Mr. and Mrs. Wheeler Carwile and his sister, Miss Melleye Carwile of Mobeetie, were Monday business callers in Wheeler. Their mother, Mrs. J. S. Carwile, and children made their home in Gray county until last April when they bought the Martin ranch, located two and a half miles east of Mobeetie.

An average gain of 542 pounds for the 27 4-H club calves being fed out in Menard county sets a record for the 209 day feeding period reports Frank Newsom, agricultural agent, who thinks his boys are smart to have defied the drouth so successfully. The ration, changed from time to time, was largely corn, barley, oats, sweet feed and cotton seed cake.

BIRTHS

Mr. and Mrs. Chester Lewis are the proud parents of a baby boy, born Tuesday, Feb. 26, at 12:55 p. m.

Cotton Certificate Pool Money Arrives

Advance Payment of 2c per Pound Brings \$101,777 to Wheeler County Farmers

As announced in The Times some weeks ago, an advance payment of 2 cents per pound has been allowed by directors of the national cotton certificate pool. Payment of that amount reached Wheeler county early this week in the form of checks aggregating a grand total of \$101,777.20.

Benefit accrued to 2,036 farmers in this payment which represents the sale of surplus certificates from last year's crop. Under the Bankhead plan, each grower was allowed a certain number of tax-free pounds of cotton in 1934. Due to the drouth very few Wheeler county farmers grew enough cotton to equal their certificates, leaving them with surplus certificates.

They were permitted and encouraged to pledge these certificates in the federal pool, the government selling them for 4 cents a pound to growers in localities where production exceeded the quota. Checks received this week represent 2 cents per pound on all certificates pledged in the pool.

According to County Agent Tarter, approximately \$70,700 of the 2 cent payment is yet due Wheeler county farmers. Later on, sometime about April it is thought, the remainder of money realized from certificate sales at 4 cents per pound, less handling expenses, will be available.

The agent's office reported today that 96 more corn-hog checks, totaling \$2,885, arrived this morning.

Car License Plates May Be Put On Now

Under a new amendment to the statutes, car license plates may now be used on the vehicle for which they are purchased, without waiting until April 1, as provided under the former law. This is according to information received by John H. Templeton, county assessor-collector. But there is a provision which has caused some confusion, hence this explanation.

Any new or unregistered vehicle placed in service during the month of March must first have a 1934 license tag for the length of time it is used preceding April 1. This 1934 tag need not be put on the vehicle if the 1935 tag is purchased at the same time. The 1934 plates may be thrown away and the 1935 tags attached. But the law specifically requires that a last year's tag for the remainder of the license year up to April 1 must be purchased. In fact, the law will not permit Templeton's office to issue 1935 plates until it is shown that plates have been bought for 1934.

MONEY FOR MATERIAL AND EQUIPMENT DISCONTINUED

Shortage of relief funds has caused the Texas Relief commission to discontinue temporarily the practice of allowing funds for material and equipment on work relief projects, it was announced by Adam R. Johnson, state administrator.

"Until further notice," Johnson said, "projects will be approved only on the basis of the relief commission furnishing budgetary labor and the usual supervision."

This action has caused the number of projects approved daily to drop to approximately one-third the number approved under the former arrangement by which the relief commission paid for non-personal services a sum equal to 10 per cent of the budgetary labor costs.

Although the new ruling applies to general construction projects, it does not affect rural rehabilitation, relief service and production projects, and officials urged administrators to proceed with gardening and sewing room programs without delay.

Johnson said all counties would be notified immediately at such time as sufficient funds are available to warrant the return to policies formerly prevailing in connection with work relief activities.

WHEELER COUPLE WED

Miss Ruth Vogies and Mr. Bud Dixon, both of Wheeler, were married Saturday, Feb. 23, at the Assembly of God parsonage by Rev. Alvin Walls with only intimate friends and relatives present. They left immediately for Gladewater, where they will make their home.

Ernest Lee and E. T. Scott of Amarillo made a business trip Wednesday to Hollis, Okla.

TRUCKS MAY GET A "BREAK"

Indications are that the motor transportation industry in Texas may at last get a "break" and the fair hearing to which it has so long been entitled. Such indications are contained in a communication from Austin, where, through the activities of Senator Frank Rawlings of Fort Worth, the trucking relief bill is assured a hearing in the Texas senate. Efforts of Rawlings and his colleagues are centered on raising the load limit for trucks and insuring highway safety.

One of the chief aims, Rawlings said, was to promote the maximum in highway safety, and pointed out that users of commercial motor vehicles had incorporated provisions for the greatest safety after conferring with leading Texas club women who have been taking an active part in the movement to correct laws prohibiting operators from making a fair earning.

Club women, alert to enhance safeguards on the roads, have expressed anxiousness that truck legislation be based on engineering advice instead of demands of rail competitors. He declared that the size of the load was not a safety factor at all. "Everybody admits there is a place in the economic structure for truck transportation. There is no doubt about that. Lots of merchants and other shippers are so situated that they cannot vie for business unless they have this type of service."

"I don't think any competitor," Rawlings continued, "should be permitted to grind down another because it occupies a position of power. If truck transportation is going to be here—and there is absolute necessity for it—then let's be fair with it."

He waded forcibly into opposition arguments that heavier loads than 7,000 pounds would do injury to state highways.

"You will not get the Texas highway commission to say that it is unable to build highways that won't bear up under more than 7,000 pounds. If the highway commissioners ever go on record to that effect, federal aid would be stopped immediately."

If it were not almost tragic it would certainly be funny to see truckmen coming out of adjoining states with reasonable loads in those states only to be "pinched" by the first Texas constable or other minor official who thinks he can get a fee when the men who are trying to make an honest living are haled before some justice of the peace. It is time such a comedy was ended.

If the highways of Oklahoma, Kansas, Colorado, New Mexico and other nearby states will stand a given load, then Texas roads will do likewise. If they won't, then fix them so they will. Perhaps some of those states do not have at work the sinister opposition to the trucking industry that is found in Texas.

FALLACY OF "FREE MONEY"

The American public has come to look on the federal government as a financial Santa Claus, which goes on forever distributing the bounty of "free money" for one purpose or another. One of the proudest boasts of many elected officials is that they have been able to get this appropriation or that for their state.

Current plans call for an expenditure of some five billion dollars for public works by the federal government. Much of this great sum will be distributed to the states, to spend for roads, relief, dams, public buildings or some other public purpose. When the money has been spent, citizens will look at the imposing courthouse or superhighway or whatever it has created and think happily that it cost them nothing—that magical forces at play in Washington produced the money out of the air and kindly passed it on.

Well, that five billion dollars will be raised through the sale of federal bonds. These bonds amount to a mortgage on every piece of property in the nation—every home, farm, factory, or investment. If the five billion dollars is divided by the number of congressional districts in the country, the share for each district amounts to about twelve million dollars. Every nickel of that money must be paid back by the American people through taxation—and they must pay, in addition, many hundreds of millions more in interest on the government bonds. Probably few congressional districts would burden themselves with a twelve million dollar bond issue if it were proposed to vote such a debt against the district.

Unhappily, there is no such thing as a financial Santa Claus—the tax money put in our stockings is taken out of our pocketbooks—plus interest.

36,000 AUTOMOBILE "MURDERS"

The president of the United States, in letters to the governors of the 48 states, has urged the enactment of uniform regulation of traffic, and intensified safety educational campaigns.

There is no good argument against uniform traffic legislation and regulation in the face of the fact that the killing record of automobiles last year touched the 36,000 mark.

Think of it! Thirty-six thousand lives snuffed out by automobiles in one year. Why should there be any argument about uniform traffic laws and the need of co-operation between states to eliminate such a disgraceful record as this?

Take a specific example: Why should one city be allowed, as at present, to maintain three different types of "stop" signals at intersections, thus confusing both its own drivers and those from other states? Legislators could work on a "life saving" program such as this to the benefit of every man, woman and child in the country.

A WOMAN DISTRICT JUDGE

The appointment of Mrs. Sarah T. Hughes, former legislator, to the post of district judge in one of the districts of Dallas county, is applauded in some quarters and derided in others. Senator Westerfield's cry that the place of a woman is in the home was only the blunder of a maddened political enemy. No speech that could have been made for Mrs. Hughes could have more certainly assured her appointment.

One objection to her was that, as a legislator, she had a part in creating the job to which she very little later accepted appointment. It is questionable whether the appointment is constitutional on this ground, we are told.

But the really worthwhile objection to the appointment of Mrs. Hughes is that the selection of a representative to succeed her at Austin will cost the taxpayers \$7,000. Plenty of good timber was available in Dallas without entailing this expense. But the taxpayer is about the last to have consideration in matters

of this kind.—Floyd County Heberian.

CRIPPLED CHILDREN

In the future we will not be so hot for the president's birthday ball affair that carries with it the alibi that proceeds will go for the benefit of crippled children. Inquiries concerning the possible entrance of children in the Warm Springs hospital for treatment prove that the cost is beyond the average man's pocketbook for room, board and medical attention.

Thousands have been under the impression all along that the millions of dollars raised from the balls were to pay the expenses of patients who were unable because of a poverty stricken condition, to pay for the service.

Texas raised thousands of dollars, but that money should have been turned over to the Shriner hospital at Dallas where hundreds of cripples have been cured, and where the money is needed and used in a most worthy cause.—Donley County Leader.

Our Exchanges

Items of interest culled from newspapers on The Times' exchange list.

Texas has about as much use for an industrial commission as a mule driver in the army has for religion. In the face of the tax situation in this state at the present time, and prospects of further tax increase, even cash bonuses would tempt industries to locate within our borders. It will be a big task to hold on to what few industries we already possess.—Graham Crackers, State Line Tribune.

Walter Jones, sheriff of Hemphill county, and his parents, Mr. and Mrs. D. Jones, are in an Oklahoma City hospital recovering from injuries sustained in an automobile accident near Lexington, Friday afternoon. The elder Jones is suffering from a broken pelvis and is said to be doing "fairly well." Sheriff Jones and his mother are cut and bruised. Mrs. Jones is said to be more seriously injured than her son. W. J. Weiss of Cleveland, Okla., occupant of another car, died several hours after the crash. The cars met head-on half a mile north of Lexington, 40 miles south of Oklahoma City.—Canadian Record.

There is more competition between towns nowadays than among individuals. No town can afford to neglect certain fundamental business conditions and expect to keep pace with its competitor. And, not only must a town keep abreast of the times in every way possible, but it must have co-operation from its own citizens. There must be a measure of loyalty to local institutions, if any town is to survive.—McLean News.

Work on another highway project, one that has lain dormant for several years, was renewed last week with the visit to this city of George Briggs, manager of the Board of City Development, and Gilmore Nunn, manager of the Daily News, Pampa. The proposal calls for a north and south highway jointly between Perryton and Spearman on the north and Miami and Pampa on the south, with a bridge over the Canadian river in north Roberts county.—Ochiltree County Herald.

The Wheeler Times has installed a modern Intertype machine. Editor C. G. Miller is enjoying a nice business at Wheeler, since starting the paper a little more than one year ago. He has one of the finest newspaper presses to be found in West Texas.—Miami Chief.

Recent statistics show that crime is costing the United States annually upwards of twelve billion dollars—more than the entire annual cost of the relief program. How foolish we are to seek to legalize and foster the liquor business, the gambling racket, and all those attendant evils which are responsible for the greatest bulk of the twelve billions crime bill.—Clarendon News.

Tabulations showed Collingsworth county to have collected a total of \$86,070.38 in state, county, common school and poll taxes for 1934, a figure of more than 60 per cent of the taxes due for 1934, according to reports today. The total amount of taxes due for 1934 was \$141,785.04, according to reports, and leaves a total of \$55,714.66 due from 1934 taxes.—Wellington Leader.

Bridge Replacements

Of course the best way to avoid losing teeth is to take care of them and by having them examined every few months. But in case this is not done and teeth are lost, by all means, they should be replaced in some manner.

When one or more teeth have been removed those adjoining it, or them, often grow out of line. Those of the opposite jaw which formerly contacted the missing teeth often grow out and become very much longer than the other teeth on account of having none to contact. Hence all teeth near a vacancy are subject to loss for the lack of proper usage.

After a vacancy has existed for some time it is more difficult to bridge it over on account of the opposite teeth having grown out of position and also the ones on each side of the vacancy having grown in the course of least resistance. In a case of this kind perfection is much harder to reach than it is in a case where the surrounding teeth are in normal position.

Another good reason for immediate replacement of teeth that have been lost through neglect, or by necessity, is that teeth require exercise to remain normal the same as any other part of the body. A tooth standing in the jaw without exercise is similar to an arm standing in one position without exercise. When this is done the tooth, or teeth, will accumulate filth on and around them and grow out of their socket. This growing is caused by nature. When a tooth is not used and has no opposite tooth to contact it becomes a foreign substance as far as nature is concerned and therefore nature pushes it out of the way.

There are many different forms of bridgework. Some better than others. A stationary bridge is one where the adjoining teeth are used as abutments as you would use the banks of a river for anchorage. These abutments are made in different forms, gold inlays, gold crowns, etc. The removable bridge is the most sensible and the most sanitary one used today. It naturally necessitates a larger fee but on account of having more advantages than any other it is the best method known at this time. It is made by using the adjoining teeth as pillars on and around which to anchor the replaced teeth. This is done by clamping them to where the bridge rests equally on the gum and the abutment teeth. Being removable it is sanitary and the abutment teeth are not molested as they are in stationary bridgework.

There are cases in which the removable bridge cannot be applied. But in the majority of cases involving posterior teeth where too much time does not lapse to cause ill alignment, they can be made successfully.

It is just as important to have every tooth in the arch as it is to have both eyes, both ears, eight fingers and two thumbs, both kidneys, etc. The great misplacement of the value of teeth has been caused by force of habit and through neglect which brings about a condition of a half shod condition. There is absolutely no just reason for this condition. It is just as much of an impossibility for a person to properly masticate food with a part of their teeth as it is to properly perform any other bodily requirement with a part of its organs.

Some Stew

If you have people with big appetites to cook for—and not much time to prepare things, don't get in a stew. Stay out of it. You can do better on the outside, just stirring it occasionally, for it is a simple matter if you have the proper canned ingredients. Here are some excellent stews for cold days:

With Dumplings Or With Rice
Beef Stew with Dumplings: Sauté gently twelve small onions in two tablespoons of drippings for a few minutes. Add two large potatoes cut in chunks and sauté a few minutes longer. Add two cups boiling water, two teaspoons salt, one-eighth teaspoon pepper and two teaspoons kitchen bouquet. Cook until the potatoes and onions are almost tender. Add two cups of canned tomatoes and the contents of a 12-ounce can of roast beef in large pieces. Mix two tablespoons flour with two tablespoons cold water and add, a little at a time, to thicken the stew. Cook for about five minutes. Then drop on top of the stew, soft baking-powder biscuit dough which has been made with shortening. Cover tightly and steam for twelve minutes. This serves six persons.

Chicken and Mushroom Stew with Rice: Sauté mushrooms from two 8-ounce cans (reserving the liquor) in four tablespoons of butter for five minutes. Melt two tablespoons of butter, add two tablespoons chopped onion and sauté for three minutes. Then add one tablespoon curry powder and four tablespoons flour. Stir until smooth. Add the mushroom liquor slowly, then add two cups milk, stirring constantly until creamy and thick. Add one teaspoon lemon juice and season to taste with salt. Add to the mushrooms, and then add the chicken from a 12-ounce can. Stew the mixture very gently for five to ten minutes. Pour out onto a platter and surround with a border of fluffy boiled rice. This serves six persons liberally.*

- Baked Carrots and Peas 16c
- Apple Sauce Relish 13c
- Corn Sticks 12c
- Baked Custard 17c
- Coffee 7c

Baked Carrots and Peas: Slice or dice two carrots and place in buttered dish with one-fourth teaspoon salt and a few grains of pepper. Add one-half cup liquor from one No. 1 can of peas. Cover and bake one hour in a moderate oven—375 degrees. Fifteen minutes before removing from the oven, add the drained peas from the No. 1 can. Add two tablespoons butter just before serving. This is also a delicious luncheon dish.

Apple Sauce Relish: Mix one cup of canned apple sauce and three tablespoons horseradish. Chill. Just before serving fold in one-third cup of cream which has been whipped. Serve as a relish with the pork chops.*

MISS SCOTT ENTERTAINS CIVICS CLASS WEDNESDAY

Wednesday night, Feb. 20, Miss Ima Scott, instructor of the high school civics class, entertained them with a social at her boarding place, Miss Kate McCarroll's home.

Games of 42 were played and Bernard Wilson and Daphne Young were crowned champions. Lois Aderholt received the prize for making the greatest number of "84" hands.

Delicious refreshments of jello, cookies and hot chocolate were served to Vetha Carver, Mardell Tipps, Daphne Young, Lois Aderholt, Mr. and Mrs. R. G. Russ, Leonard Fulks, Joe Puryear, Bernard Wilson and the hostesses Miss Ima Scott and Miss Adda Mae Carmack.

Everyone reported a very nice time; however, Bernard looked as if he had had a little trouble before the party.

One Act Play Try-Outs Will Be Held March 8

Mrs. Smith, who is sponsoring the one-act play, announces that try-outs for this event will be held on March 8. There are two characters for each part; the judges will select the one who is best suited to the part, but in case of illness or other misfortune the other person will perform.

Sport News

The Briscoe basketball boys and girls went to Kelton Friday night, Feb. 22, to play ball. The girls played the first game and at the half the scores were 8-9 in their favor. During the last half the Briscoe girls seemed to be able to find the goal and when game ended they were victorious by seven points. The score was 23-16.

The boys played a fast and exciting game but were unable to cope with the fast moving Kelton team. They were defeated by a score of 30-11.

Saturday night the Samnorwood girls came to Briscoe and played the Briscoe girls. The Briscoe girls were defeated by a score of 23-15. We enjoyed playing with them and admired their splendid sportsmanship and hope to have more games in the coming season.

The Briscoe boys played the Briscoe ex-students and were defeated. The score was 16-26. Those two games ended the basketball season for the Briscoe teams; however, we can say that the season was enjoyed by all the players.

Tennis to Start Soon

There will soon be three tennis courts ready for use. Two will be outside courts and the gym will also be used for tennis. The boys are working on the outside courts so they are looking very nice. Those who are trying out for girls' tennis are: Daphne Young, Lois Aderholt, Lorene Treadwell, Dorothy Lohberger, Mardell Tipps, Winifred Barnes, Ruby Hefley, Geneva McNeil and Margaret McCarroll.

Boys are: Lewis Cain, Ocie Pace, Clifford Austin, Wiley McCray and Hesper Young.

Many Old People On State Relief Rolls

There are more than 40,000 persons 65 years old or older on the relief rolls of the state, results of a survey conducted by relief authorities have revealed. A study of relief cases for the month of December, 1934, showed 41,787 persons in that age classification receiving public aid.

More than half, or 24,697, were white persons; 12,303 were negroes; 4,787 were Mexicans.

Of the total, 23,856 were men, 17,931 were women. There were 9,499 single men and 9,879 single women reported. Married couples, both 65 years old or older, on the relief rolls totalled 6,358, while there were 9,693 married couples recorded in which either the man or woman had reached the age of 65.

Similar statistics were compiled on relief clients 70 years old and older. There were 24,832 such clients in December.

Bexar county had the greatest number of clients in the 65-year-old classification, 2,357. Harris county had 2,348, but Dallas county had the surprisingly low total of 813.

Relief funds required to care for these more than 40,000 relief clients in December amounted to \$328,078.50, administrators reported.

Results of the survey will be presented to the state board of control and will be available to legislators interested in drafting social security legislation, Adam R. Johnson, state relief director, said.

In Gollad county nine boys are co-operating in a demonstration in which 23 pigs have been put on feed in a splendid location with access to plenty of green pasture. They will have self-feeders, constructed the A and M way, and shelled corn combined with protein supplement will be the ration. Local bankers have set up a revolving fund to help the boys finance the venture and the Gollad rotary club has underwritten it for them.

4-H club girls in Gregg county have taken up yard improvement work with enthusiasm. Each club has a demonstrator who will beautify her whole yard while all other girls are co-operators and have as their goals cleaning their yards of all rubbish, starting a cutting bed to grow shrubs for later planting around the house, and making a flower bed of annuals.

Peas In A Pod

IT'S all wrong—this propaganda about peas in a pod being alike. It must be tiresome, if one is a twin, to hear continually, "they're alike as two peas in a pod." Actually twins are probably more alike than any two peas in the pod.

For the fact of the matter is that peas in a pod aren't alike. They differ in size and sometimes in shape. Even the taste may vary, if you are a real connoisseur of taste.

Peas As You Like Them

But in a can—that's different. It would be far more correct to say "alike as two peas in a can."

For usually peas are sieved to size before canning, so that you can have tiny peas for your vegetable soups, larger peas for your vegetable salads, and whatever kind of peas you prefer in your pea soup. And as for the taste, that too is always the same, providing you buy the same grade of peas.

Recipes for peas needn't be alike either. There are plenty of delicious ones that are different. For example:

Pea Puff with Pineapple: Drain peas from a No. 2 can and press through a sieve. Make a thick white sauce of four tablespoons butter, four tablespoons flour, one cup of milk and the pea pulp. Season to taste with salt and pepper. Add three well-beaten egg yolks and fold in the stiffly-beaten whites of the three eggs. Pour into a buttered baking dish and set in a pan of hot water. Bake in a moderate oven—350 to 375 degrees—until it is set and a delicate brown color (about twenty-five to thirty minutes). While this is baking, cook two tablespoons butter and one cup of canned crushed pineapple together until thick and rich. Spread this over the baked puff and serve at once. This serves eight persons.

Double Program

What a treat for movie fans! Buck Jones and Ken Maynard will both be at the Rogue for Friday and Saturday and Saturday Matinee. Ken comes in the feature picture, "Guns of Justice", and Buck will be here in the first chapter of the continued piece, "The Red Rider". In addition to these two favorite stars there will be a good two reel comedy, entitled "No Contest". The Red Rider will continue to be shown at the Rogue for a period of 15 weeks, in addition to the regular programs. This is by way of extra entertainment, at no advance in admission prices.

Sweet Adeline

Sweet Adeline, Warner Bros. new musical spectacle and said to be the most pretentious of all their gigantic specials, opens at the Rogue theatre Monday and Tuesday with Irene Dunne in the title role.

Unique dance numbers are staged by Bob Conolly on mammoth sets with scores of Hollywood's most beautiful girls taking part.

The picture is laid in the glamorous period of the gay nineties with the Broadway theatrical world as the

setting. Irene Dunne has the role of a singer in her father's famous Hoboken beer garden which is the rendezvous of theatrical folk and New York's young bloods and men about town. Donald Wood plays opposite her in the romantic role with Louis

Cathern as his rival. Four of the film's colorful entered comedians are said to picture a hilarious comedy which is unequalled. They include Herbert, Nydia Westman and Joseph Cawthorne.

Faculty Play Attended Well In Spite of Storm

High School Library, Athletic Fund Get \$10 each—\$13.45 To Buy Books for Grammar Grades

In spite of the sandstorm which blew up just before 7:30, "Fuller's Folly", the faculty play presented last Thursday night in the high school auditorium was attended by a large crowd.

A total of \$33.45 was cleared from the sale of tickets. Of this amount, \$10 will be spent improving the high school library. The grammar grade library will be given \$13.45 and the remaining \$10 will be placed in the athletic fund.

Judging from favorable comments heard about the play, Mrs. J. L. Gilmore proved her ability as director. The comedy was furnished by Supt. J. L. Gilmore, foreman of a ranch, and Mrs. C. J. Meek and Mrs. G. O. McCrohan, city folk forced to remain in the country for a short time.

Coach Bob Clark surprised the crowd as well as the faculty with a thrilling Indian war dance. He had refused to demonstrate his dancing skill at any of the practices. Miss Kathryn Bowers and Miss Ruth Ewing turned out to be model sweethearts. Prin. C. B. Witt showed that he could act well the part of a judge and C. J. Meek made a perfect city cowboy.

Each of the teachers assisted in some way with presenting the play. Miss Winona Adams took up tickets, Gordon Whitener, taking the place of his wife, Mrs. Whitener, sold tickets, Mrs. C. C. Crowder and Mrs. Lloyd Davidson recorded the votes of parents for various classes, and Miss Bernie Addison played popular pieces before the play and between the first and second act.

Martha Alice Wiley and Myrl Jeter gave a Spanish dance in costume between the second and third acts.

SENIOR BALL GIRLS HAVE GROUP PICTURE TAKEN

Using the trophy won at the Kelton tournament in each of the sittings, the senior basketball girls had their pictures taken last Wednesday afternoon at the Addison studio.

The three poses taken were a bust, a kneeling, and a standing view. Each picture is priced at 25 cents.

Those appearing in each photograph are Laney Mae Tillman, Wilma Tinney, Julia Lou Tinney, Beatrice Miller, Nerine Young, Dorothy Burgess, Gladys Warren, Fay Ficke, Mazie Bean, Helen Gilmore, Clarice Robertson, Zinna Mae Holley and Miss Winona Adams, coach.

TENNIS COURT IS REPAIRED

Members of the Tennis club have repaired the court, which is now in fair shape, according to Miss Bernie Addison, coach.

New tapes have been put down on the court, and it has also been rolled several times. Workouts started this week.

Those who helped repair the court are: Curtis Weeks, H. E. Young, Amos Page, Earl Sivage, Martha Alice Wiley, Parlee Clay and Miss

4-H CLUBS MEET MARCH 2

For the purpose of observing the birthday of the Lone Star State, all members of the 4-H clubs in Wheeler county will meet in the club room at the court house Saturday, March 2 for a celebration. It will also serve as their quarterly gathering.

Each group will prepare an historical stunt to present before the group. Prizes of \$2, \$1.50 and \$1 will be offered for the three best stunts.

Individual clubs can also compete for the prizes.

W. H. S. Boy Gets Beef Show Prize

Two Wheeler high school boys, Herbert Whitener and James Passons, placed at the annual Wheeler County Livestock and Cured Meat show held at Shamrock Saturday.

Herbert won sixth prize which was awarded \$1.00, and James received twelfth place. Forty baby beeves were entered.

The livestock show was sponsored by the Shamrock Chamber of Commerce, which offered prizes totaling \$50.00.

Some of the out-of-town visitors attending the show were: Wilbur C. Hawk, president of the Tri-State Fair and general manager of the News-Globe; Gene Howe (old honest Tact); Mason King of the News-Globe; Ted Taylor, secretary-manager of the Tri-State Fair, and R. H. Muir, an Amarillo cowman.

NAMES OF EX-STUDENTS APPEAR IN NEWS-GLOBE

Several ex-students of Wheeler high school had their names in the various school notes of colleges last Sunday in the Amarillo Sunday News Globe.

From Texas Tech Topics: "Peeping between the ropes at the recent boxing bouts between Tech and the Canyon Buffs, what did we see but Stina "Sugar" Cain and Clinton Meek wearing the gloves for Canyon. Both boys formerly attended Amarillo college and the Amarilloans were somewhat confused as to whom they should root for."

C. I. A. Items stated that Jackie McCrohan, Wheeler, attended the annual sophomore dance held at the college gymnasium last Saturday.

Campus Activities at Canyon say that G. L. Stanley, president of the club, attended a meeting of the Young Democrats club held in Amarillo, Feb. 16.

Texas Activities included this note: "It is rumored that an Amarillo club or the Panhandle club is about to be organized by Amarillo and Panhandle students in the university. Let's hope the rumor is correct, for that truly would be fine for the Amarillo students." This would probably include Max Wiley of Wheeler.

McMurry News includes Wendell Meek's name in the list of men who played in the last cage game of the season for the Indians.

Lorene, Irene and Evelyn Mincher were in Amarillo Friday afternoon.

Fern George visited her grandpa-

BOYS ENTER STOCK SHOW

James Passons and Herbert Whitener will enter calves in the Amarillo Fat Stock show which will be held from March 4-9. Herbert has a calf that placed sixth in the show at Shamrock last week.

There will be a silver trophy cup awarded to the boy or girl whose calf places first at the fair. The winner's name, with other information will be engraved on the prize. The cup is 12 inches tall.

The winner will have permanent possession of the trophy.

Plans Go Forward for Home Ec. Meet

The district meeting of the Home Economics clubs will be held at the school house on March 2, beginning at 9:30 with registration in the hall of the high school building. Talks will be made by the president of the Wheeler Home Economics club, Ida Belle Davis, by Supt. J. L. Gilmore and by the mayor, R. D. Holt.

The two main speakers of the day will be Miss Esther Sorenson, district supervisor, and Mrs. Gladys Armstrong, head of the Home Economics department of Amarillo. Other speakers will be Dr. H. E. Nicholson and Dr. F. N. Reynolds.

One feature of the day will be the stunts presented by every club in the district. Beginning at 12:45 and continuing until 3:00. Another will be the banquet given in the basement of the Methodist church.

Wheeler club's colors of pink and white will be carried out in the decorations at the banquet and the meetings held at the school house. Misses Ruby Lee Williams and Estelle Harris will supervise preparation of the banquet.

Because of illness of the sponsor, Mrs. Gordon Whitener, Estelle Scott and Ida Belle Davis will have charge of preparations for the district meeting.

According to Estelle Scott, all the directors and at least two or three representatives are expected from each club in the district.

DEBATE PRELIMINARIES TO BE HELD NEXT WEEK

Preliminaries for both the girls' and the boys' debating teams will be held in the high school auditorium the first of next week. Those who will take part are: boys, Theodore Conner, Billy Noah, and Travis Jones; girls, Mamie Lee Starkey, Fay Ficke, Myrl Jeter and Aline Buchanan.

The judges, time, and sides have not been decided, according to Miss Ruth Ewing, coach. Both teams will debate the Briscoe teams the first of next week.

SENIORS WIN HALF HOLIDAY

Members of the senior class won a half holiday because they got the largest number of parents out for the faculty play, given last Thursday night.

No definite date has been set for the occasion but it is expected to be in the near future. The class will probably have some sort of entertain-

Boys Begin Preparation for County Track Meet

First Day Sees About 20 Men Reporting for Practice—Several More Expected to Come Out

Workouts in preparation for the county track meet to be held in March began last Wednesday. Approximately twenty boys reported the first day and several more are expected to report soon. Both senior and junior track candidates began their daily routine in order to be in condition for the meet.

Coach Bob Clark states that prospects do not look so promising now because several have not reported for training yet. He also says that this week will be the last week that the boys may come out and expect to enter in the county meet. This is done because they would not have time to get in shape if they started at a later date.

Those who reported Wednesday were: Ford Newkirk, O. D. Connor, Dudley Callan, J. R. Burke, Wallace Pendleton, Herbert Whitener, Carlisle Robison, Jack Tate, Derwood Lewis, Marion Moore, Neil Hale, Marvin Montgomery, Clowes Jones, Guy Robison, Charles Red and Junior Jamison.

Coach Clark is very capable of training boys for track, having coached two years at Howard college, Birmingham, Ala., and having served one year as assistant coach at the University of Alabama. While in college he was an outstanding trackman. His main events were the 100 yard dash, which he ran in 9.8 seconds, the 220 yard dash in 22.5 seconds; 220 yard low hurdles in 24.2 seconds; running broad jump 23 feet, and running the first lap of a mile relay in 51 seconds. Clark has forty-eight medals won in track. He has held track records in Kansas, Oklahoma and Texas.

Track and field is one of the best forms of sport, according to coach Clark. He says it is best because of the following reasons:

1. It serves or can serve the greatest number.
2. It is most profitable from development and postural standpoint.
3. It requires most inexpensive equipment of all sports.
4. It accommodates more different types of material.
5. It is the most natural of all sports.
6. It is the cleanest from sportsmanship standpoint.
7. It emphasizes most clean living and thinking.
8. It requires most exacting conditioning.
9. It is fundamental to all sports.
10. It demands the most painstaking technique of form.
11. It easily permits inter-sectional competition and interest.
12. It is a national sport.

Banquet Nets \$6 for Home Ec. Club

By having some of the club girls donate milk, butter, and eggs, \$6 was cleared at the football banquet held in the high school building last Monday night. Crepe paper and balloons for decorations and groceries were bought with some of the money made

NINETY-NINE YEARS

The state of Texas is getting along in years. Ninety-nine years ago tomorrow (Saturday) the leading statesmen and citizens of Texas met at Washington on the banks of the Brazos del Dios (arms of God) to decide an important question. The Mexicans had been abusing the Texans until they could stand it no longer. Therefore on March 2, 1836, Gen. Sam Houston's birthday, the Texans in a fireless shed signed the Declaration of Independence. Of the 58 signers, General Sam Houston was the John Hancock of the occasion, a bold autograph placed on an important document by a bold man. All the signers were fairly young because the average age was 38.

Little do we realize the significance of that paper. It was the starting of the Lone Star State. Before this could be realized the Alamo fell and the Goliad protectors were massacred. For the Texans the outlook was dreary until news came of San Jacinto. Houston had defeated Santa Anna!

In this day of peace we can not imagine the hardships the founders of Texas went through. It would be interesting to read about these men and appreciate their deeds. After all, they laid the foundation for the largest and richest state in the union.—T. C.

BOOST FOR THE CENTENNIAL

The first celebration of Texas that will attract national interest will be held as the Texas Centennial celebration in 1936 if appropriations are granted by the legislature. This is the only body that can carry through such a plan. It will be the celebration of the 100th Anniversary of Texas Independence.

The available school fund will be benefited to the extent of at least \$1,000,000 by the increase in the tax receipts, and the revenue fund would realize this much more. If as many visitors attend as is expected, other business enterprises in the state would amount to approximately \$275,000,000. This would help the state in recovering from its indebtedness because it would mean great employment and investment. This estimate was made by the Texas Centennial commission, which made a study of the celebrations in various parts of the United States during the past 70 years.

times as many tourists as Colorado attracts in one year without any celebration.

The state is expecting several million dollars from the celebration of which they plan to spend one and a quarter million dollars for the buildings and furnishings at the Dallas exposition, three quarters of a million for advertising, and one million for aiding other parts of the state to carry on their celebrations.

The increase in the school fund by taxation is expected from the taxes placed on gasoline, cigarettes, and other things of this sort. Other increases will be received from the gross payment receipts of the telegraph companies, express companies, public utilities, Pullman companies, car line companies, and telephone companies.

Texas schools have been celebrating March 2 as the anniversary of Texas Independence for the past 99 years and the celebration next year will probably be the greatest of all. When the appropriation is granted and some of the plans are put into action, \$20,000,000 will go to arrange for this big Dallas exposition. Several other millions will be spent in preparation of other celebrations in the state held in connection with the Centennial Celebration.

Here's hoping that the appropriation will be granted and the work carried out with the greatest success of any celebration held in the United States.—F. F.

HARDEST PUPILS FEAR TO BRAVE SANDSTORM

Sand in my mouth, Sand in my ears, Sand in my nose, And sand down my collar.

That's a very good piece of poetry to go with the Panhandle sandstorms that have been raging here lately. In fact, the sand was so bad the hardest students dared not come to school Monday for fear that the boulders rolling across the country might outrun them.

One boy arriving at the school house said, after spitting out a mouthful of sand, "I tell you this is the worst one I have ever seen. I had to stop five times to get rocks out of my shoes; gravel didn't count because I was getting pretty cold and had to hurry before I froze."

GRAMMAR GRADES WILL PRESENT FREE PROGRAM

Members of the grammar grades will present a program in the high school auditorium on Friday night, March 1, which is to be one hour and forty minutes long. It is free to the public.

One of the main features will be a pie eating contest in which every grade will take part. They are divided into groups in order to make the matches as nearly as possible even. The first and second will compete, the third and fourth, and the fifth, sixth and seventh.

Every grade in the grammar school will have a 20 minute entertainment. Coach Bob Clark, supervisor of the program, urges all of the parents to attend the event.

Journalism Class to Visit Plant

Members of the Wheeler high school journalism class will visit the Wheeler Times news plant...

Texas, Our Texas

Texas occupies all of the continent of North America, except a small part set aside for the United States, Canada and Mexico. Texas owns the north half of the Rio Grande, one of the few rivers in the world with one bank wet and the other dry. Texas is bounded on the north by twenty-five or thirty states, on the east by all the oceans except the Pacific, on the south by the Gulf of Mexico and South America, and on the west by the Pacific ocean and the rest of the world! Underneath Texas they have at this writing, been down only 8,000 feet or so for oil, and up in the air Texas has in Guadalupe Peak, 9,500 feet above sea level, the highest hill in the United States east of the Rockies!

Texas is so big that the people in Brownsville call the residents of Texarkana and Dallas Yankees, and the citizens of El Paso speak of the residents of Texarkana as being "effete" easterners". It is farther from El Paso to Texarkana than it is from Chicago to New York, and Texarkana is closer to Milwaukee by airline than it is to El Paso. (Try this on your Rand-McNally). The United States with Texas left out would look like a three-legged Boston terrier.

The chief occupation of the people of the state of Texas is to try to keep from making all the money in the world, and at that the wealth of Texas increased 539% between 1900 and 1927. At one time Texas was SO WILD that not even the law of gravitation was obeyed. The chief pursuit of the Texans was Indians and Mexicans, but now it is crop records and oil production. It is so healthful in Texas that out in Eastland a Horned Frog lived 30 years sealed in a cornerstone without food, air or water!

The word "Texas" is of Indian origin and means "Friends", and the Texas people are that way yet, unless you make a slam at their state.

If your front gate is not at least eighteen miles from your front door, you do not belong to society as constituted in Texas. Down on the King Ranch the front gate is 150 miles from the front porch and the owner is thinking of moving the house back so as not to be annoyed by passing automobiles!

Other Texas landlords have whole mountain ranges on their ranches, and one Texan has forty miles of navigable river on his farm.

If the proportion of cultivated land in Texas were the same as in Illinois the value of Texas crops would equal that of the other 47 states combined. If all the people in the United States were to move to Texas, it still would not be more densely populated than is Massachusetts. Texas has land enough to supply every man, woman and child in the whole world a tract 20 x 200 feet and have enough left for all the armies of the world to march around five abreast!

To move the Texas corn crop would take a string of box cars longer than the distance between New York and San Francisco. If the 1,500,000 tons of sulphur mined in Texas annually were in the hands of Satanic Majesty they would solve his fuel problem. If all the cotton grown in Texas was bailed and built into a stairway, it would reach the Pearly Gates!

If all the hogs in Texas were one hog, he could dig the Panama Canal in three roots and one grunt!

moon and with his tail brush the mist off the aurora borealis.—(Author Unknown) The Wichitan.

REPORTER SEES TEXAS AS IT APPEARS IN 2036

Let us picture ourselves a hundred years from now, say about 2036, a hundred years after Texas' first centennial celebration. Things are going to be quite different from the way they are today. We will say that Texas is having a bi-centennial celebration in Houston. We are now ready to go to Houston by air express. Here we go. Picture yourself climbing into a large rocketship with several hundred other men and women. The clothes of the passengers are the first queer thing you notice. There is not very much you can say about their dress for they do not wear very many clothes. They are, as you notice, dressed very much like our comic strip character Buck Rogers.

As you enter the rocket ship and take your seat the air locks are closed and you are told to fasten your safety belts. For a moment all is still then there are a series of explosions. You feel the ship buck forward and you are on your way. You do not get a chance to get a view of the scenery as you go along on your journey because of the terrific speed at which you are traveling. You are going at a slow rate of speed, however, compared with the other ships you see whiz past you.

After a very short time you feel the motion of the ship slowing down and in a few minutes you come to a stop.

When you step out of the ship you notice there are lights everywhere. You know that when you left Amarillo it was only 7:00 o'clock in the morning. You speak to one of your fellow passengers about it. He only laughs and says, "Don't you know that we are in Dallas and there are seven more streets above us?"

You enter a streamlined street car with the other passengers and are on your way to the heart of the city before you know it. There are several queer things to look at as you travel about the city. There are no cafes or lunch counters, no theatres and very few business houses. These are only large factories for making your food, which is only a few small pills a day, and hotels and warehouses for rocket ships.

You turn on your television radio in front of you and see and hear the president of the United States giving an address, welcoming you to the great state of Texas as it will be 100 years from now.

This Time Last Year

The Home Economics club, with its sponsor, gave a party Friday night, Feb. 23, at the American Legion Hall. The occasion was in honor of George Washington's birthday.

Miss Sibyl Thomas, state home economics department inspector, praised that part of Wheeler high school when she visited it last Thursday.

The junior class had a meeting Friday afternoon for the purpose of ordering belt buckles and bracelets or pins.

The faculty met last week and worked out a chapel program for the second semester.

The Spanish club met in the high school auditorium last Friday and decided to attend the motion picture show at the Wheeler Theatre.

Sport Slants

By a Mustang

I suppose you recall my saying something last week about getting a lighted football field. You might not have believed me; most likely you did not. If you had attended the banquet last Monday night you would never doubt my word again. Dr. Nicholson promised the football team of next year a lighted football field. Yes, a real honest-to-goodness lighted gridiron. He also said that it looked as if Wheeler would get a gymnasium too. Oh, boy! It sure seems like some of my dreams are going to come true.

I have been giving my opinion on football, track, and every other sport but I have not once said anything about the girls' basketball team. Well, it is their turn now. I will bet my old plug hat that Wheeler has the best girls' team in the county next year. They did not have a bad one this year, either.

All of the regulars will be back next year and most of the reserves. Only three out of the entire squad will not be back next year. The Tiney sisters will be here for another year. Beatrice Miller should have two more years of basketball. Laney Mae Tillman, captain and jump center of this year's team will be in school again as tall as ever. Gladys Warren and Nerine Young will be back to finish out the starting lineup. Mark my word, folks, you will hear and read plenty about these six girls next year.

Now to try to fulfill my promise about some more dope on track. It looks right now as if Wheeler should win in county track this year. If you could watch a track workout some afternoon you would agree with me, too. There are several of the track candidates that can toss the discus and the shot about a hundred yards and can make a jackrabbit catch air any day of the week. If you don't believe me just come up and see us some time.

REV. ALAMO STARKEY IS ASSISTING AS TEACHER

For the next few days the Rev. Alamo Starkey will assist Mrs. Gordon Whitener, who has been ill, by teaching biology and keeping study hall for her. Mrs. Whitener will continue to meet her morning home economics classes.

Rev. Starkey has attended Hardin-Simmons university at Abilene, Texas, for three years. He spent five years of his life in Wheeler.

Monday was the first day of school teaching that he has ever experienced. "I think that it will be interesting. I'm going to like it fine", he said when asked how he liked his new job.

SAGE BLOOMS

A Panhandle Sandstorm

If we are at any time sitting in the house with the doors and the windows open enjoying the weather we may as well not say anything, for if we do we cause a great deal of excitement. A strong blast of wind, disguised by sand, will suddenly burst through the house, carrying papers from one room to another and scattering dirt from one end of the house to the other. The occupant will have to scurry from one room to another shutting doors or windows and picking up the papers. Sometimes there are shoes, clothes and bicycles left out of doors and these must be brought in to keep them from blowing away.

The most convenient time for a sandstorm is on washday. Every housekeeper dreads such a storm on that day. It is not unusual for the wet clothes to change color while the men, women and children of the house run frantically from the house to the clothes line and back to try to get the clothes in before they turn from white to dark brown and from yellow to black.

The sand usually starts after dinner unless it has been blowing all night and continues next day. The wind shrieks and howls all night and those who are fortunate enough to go to sleep are almost choked by the dust. The mother must get out of bed at least three times a night to see that the children are still covered and each time she finds them well covered—with sand. She must go back to her room and get the sand off her feet before she gets back in bed and tries to go to sleep again.

The same thing happens again about every three hours. Then she must get up and get the scoop and shovel her way to the kitchen to get breakfast.

After breakfast everyone must find a broom, a dust rag, or a mop, and the fun begins. The windows must be swept off, the furniture all dusted, the floor swept, dust mopped, mopped with water and oil mopped. The cleaning usually takes all day and it isn't easy to get anyone to help because everybody else is doing the same thing. At night you thank the Lord that the house is clean again when—what was that, the wind? Yes! Here comes another sandstorm.

BOTH JUNIOR QUINTETS LOSE IN COUNTY TOURNEY

Neither the junior boys or girls placed in the county tournament which was held in Shamrock Friday and Saturday. Both lost the first game they played. The girls played Kelton junior girls Friday night and were defeated by a score of 15 to 7. The junior boys played the Mobeetie boys Friday night in a game that was rough and slow. The final score was 16 to 13 in Mobeetie's favor.

Both the boys and girls teams of Kelton won the meet. The boys defeating Shamrock in the finals. The Kelton girls won a close game with Mobeetie girls for the championship.

Windstorm Damages School Building

The terrific windstorm last Sunday blew 200 square feet of roofing from the high school building. Repairs were started on it Tuesday. Damage was estimated at \$15.

Coach Clark makes a good "heap big chief" if the faculty play audience is taken as an authority.

How did you like the breeze last Sunday?

There were still a couple of acres of sand left in the school house Monday in spite of the fact that it had been dusted once.

The senior class has 17 members, nine girls and eight boys.

Oddities: Boys working on tennis court; Troy "acting up" at Mobeetie; Ford and Wilton wanting to go to a theatre party at Kelton; seniors wanting school to hurry and turn out; Son changing to a talkative boy.

The school house roof was almost blown off by the wind. Parts of the tar roofing littered the school ground.

Jonnie, why are you so popular with Shamrock boys? Three of them make it look pretty bad.

Nerine, Mac was also in Shamrock Friday night.

What is the matter, boys, can't you take it? The track team needs building up with more of you guys as material.

The fire the other night caused quite a commotion. Mrs. Gilmore woke up the family screaming, and the Jones boys had to stamp fire all night.

Doesn't LaVeau look Romeoish-like in "Doc's" brown stitched felt? Red and brown do look nice together, you know.

Bits of Early-Day History About Texas

(This is one of a series of articles taken from the Bexar archives at the University of Texas. This collection, considered the greatest single historical treasure on the North American continent, has been catalogued and is now being translated by the university and supplied to the press for publication).

SERIES I, NO. 6

Fierce recriminations followed close upon the heels of famine and poverty among the little band of Canary Islanders who made up the civil settlement at San Antonio de Bexar 200 years ago. Official records of the Spanish government for the Department of Texas, the center of which was at San Antonio, are now deposited at the University of Texas. These Bexar Archives, as the records are known, reveal all too plainly the lack of ordinary necessities of living, the exorbitant prices charged for what few commodities were available, the inadequacy of the whole system of management in the governmental machinery. Only three small groups of settlers—those at San Antonio, those at Los Adays and those at La Bahia—inhabited the territory of Texas. These were widely separated, and their facilities for defense against the Indians, for warding off foreign aggression, and for obtaining aid in any crisis from the government were pitifully weak.

Juan Leal Goraz, named the first alcalde or mayor, who it was hoped could settle all disputes among the Islanders, became the stormy petrel of the band. His arbitrary decisions, his unjust punishments of those who dared to question his rulings, led to a state of near civil war. The right of appeal to the governor and to the viceroy was invoked by the aggrieved parties and the trouble spread alarmingly. Each hidalgo maintained his personal "rights" most valiantly.

The following document, which has just been translated by university translators, reveals one such incident. An attorney sought redress from the viceroy for his clients, who, he alleged, were wrongfully imprisoned by the governor; the viceroy granted the release of the prisoners; he allowed another colonist to go to Saltillo for medical treatment, at the same time forbidding him to go to Vera Cruz on penalty of imprisonment as a deserter.

The document reads:

"I, Fr. Juan Antonio de Bizarron y Eguyarreta, Archbishop of the Cathedral of Mexico, Member of your Majesty's Council, Viceroy, Governor and Captain General of the Provinces of this New Spain, and President of the Royal Audiencia do declare that a petition of the following tenor was presented before me:

"In behalf of Martin Lorenzo de Armas, second alcalde; Juan Curbelo, alderman; and Francisco Xavier de Arocha, notary public and secretary of the municipal council for the Villa de San Fernando, Province of Texas and New Phillipines, I, Joaquin Miguel de Anzares, appear before your excellency, according to the best form of legal procedure, and declare that, through the influence and persuasion of Don Manuel de Sandoval, present governor of that province, Juan Leal Goraz, first alcalde, did ar-

them as prisoners under guard in the royal presidio of San Fernando de Bexar, where they were kept without any explanation whatever. He claimed that they had been legally summoned to a meeting of the council but this is not true. Besides they had good reason for not attending. They had not received a legal summons on the previous day as he states, but had merely been notified by a child who was not over nine years old.

In spite of this, my clients left their crops in which they were compelled to work because of their abject poverty, and went home to dress properly in order to go to the meeting at the house of the first alcalde, where the council was held. This also was in violation of the law. Upon meeting certain persons who had attended the council, they were informed that the said body had been directed not to pay a certain sum which they all owed to Captain Joseph de Urrutia. They felt that it was unfair to repudiate a just debt but they returned to their homes. Whereupon, the said first alcalde immediately appeared to arrest them on the pretext that they had defied the summons he had issued.

As a matter of fact, this warrant had been issued because of the fury of the governor rather than for any other cause whatsoever. He was angry because the residents of that villa had previously decided to present a petition asking the aforesaid Captain Urrutia to pay them for their corn at the rate of three pesos a bushel, when there had been a previous contract that he was to pay them only two pesos. The aforesaid governor ordered the secretary to draw up the petition in question. The secretary replied that he did not have the power to do this; while the governor insisted that his command was sufficient. Knowing the governor's high temper and his revengeful spirit, the secretary feared the injury he might do him and felt compelled to draw the papers against the aforementioned Captain Urrutia.

Therefore, it can be inferred that the meeting was directed to repudiate the debt through the influence of the governor and that my clients were arrested because they did not attend. The second alcalde was put in prison; he had his badge of office with him and he protested that an insult was being offered to the royal insignia. The governor told the first alcalde not to worry, because he would protect him. For this reason my clients have been unable to obtain a redress from the governor.

This has caused them to be kept in jail for a period of more than four or five months without any recourse whatsoever because of the difficulty of appealing to your Excellency, due to the great distance between that province and this court and because of the abject poverty of my clients who could not secure a hearing even though they presented three written petitions regarding their imprisonment, for during this time their crops have been lost and their families have been exposed to starvation.

I am, therefore, compelled to beg Your Excellency to render justice by providing for the issuance of an order that will authorize any reliable person who knows how to read and write to go with witnesses and notify the aforesaid alcalde to release my

der to provide that, if he does not do so, the person who serves the notice shall require him to show cause for this imprisonment within twenty-four hours. If this is not done, I beg of you to have this fact recorded and sent to Your Excellency. In this way my clients will secure reparation for the damages, delays and injuries they have sustained. I therefore beg Your Excellency to issue said order and to have the matter brought to the attention of the auditor of war. I ask for justice, judgment, cost, etc."

Attorney, Vargas Machaca, Juachin de Anzurez.

"Whereupon, I, the said viceroy, referred the above request to the auditor of war and, agreeing with the opinion he expresses I do by those present order Captain Joseph de Urrutia, and in his inability to act, any other person that knows how to read and write to go with witnesses and notify the man who was first alcalde to release the petitioners immediately. If he does not obey, then the captain, or his substitute who serves the order, shall do so. At the same time, the bearer of the writ shall demand to see the charges made against the persons above mentioned.

If the alcalde does not show these charges, the bearer of the order shall make an affidavit thereto. This statement shall then be forwarded to this captaincy general, together with record of what was done regarding the release. In view thereof I will decide what is proper and just as to the petition of Don Vizente Alvarez Traviezo to go to Saltillo for medical treatment, and the petition of the citizens and residents of the villa de San Fernando, and the request of the Governor, Don Manuel de Sandoval, for instructions concerning the price of corn and other grain. I have decided (with the approval of the auditor general of war) that the captains and soldiers who buy grain from the above mentioned inhabitants of the town must pay them at the current market price, with drafts as has been done by Captain Urrutia.

In the sale of vegetables and fruits from their orchards, they are to give preference to the captains of three presidios of San Antonio, Los Adays, and Bahia del Espiritu Santo, so that, by this arrangement, these presidios will not lack the necessities and the citizens will not have to

seek purchasers beyond the confines of that region. As for the permit requested by Traviezo, (for visiting Saltillo for medical treatment) I have decided to grant it in spite of the inconveniences pointed out by the governor. I have, however, issued orders for special precautions to be taken at Vera Cruz, so that, in case he goes to that city, the authorities can arrest him and proceed against him as a deserter. In order that all these provisions may be observed, kept, and executed inviolably, I order the present decision kept in mind."

Mexico, January 24, 1736

Juan Antonio, Archbishop of Mexico by command of His Excellency Antonio de Avies.

Following issuance of this order Juan Leal Goraz, alcalde, was called up before captain Joseph de Urrutia and required to take an oath to abide by all the provisions of the order, including releasing the imprisoned colonists. The order was presented to the governor, and he, although protesting that "the statements made in the petition by the parties concerned are untrue, and were alleged and claimed merely to secure the said superior order," agreed to "give punctual obedience thereto." He ordered that complete transcripts of all records pertaining to the case be made and copies placed with the viceroy and in the local files. It finally developed that the order commissioning Don Joseph de Urrutia as captain of the presidio with authority to serve a writ ordering release of the imprisoned men, was "lost." Without this document the case was incomplete and thus, after five months' imprisonment for the three plaintiffs and eight months delay in the settlement of the case, the whole matter had to be dropped because of the loss of a single vitally important paper.

Though the contact between the colonists and local officials was at a standstill, the bitterness remained, and discord was bound to ensue.

Regular services throughout the week. Church services at the morning hour on Feb. 24 were well attended. Several visitors were present, for which we were thankful.

Sermon subjects for March 2: Morning—"Parental Duties, Parental Influence and Parental Privileges." We believe this subject is food for the consideration of every parent and that it is of more importance than the gold standard, depression, taxes, the Lindbergh case, a new constitution for Texas, "hot oil" and many others too numerous to mention. Every parent in and near Wheeler who is not attending church elsewhere, is invited to hear this discussion.

The preacher has no desire to be startling, but desires to discuss this subject in the light of Bible truth. "The entrance of thy word giveth light." Ps. 119:130.

J. T. Trayler left Wednesday for Hollis, Okla., to make a short visit. Bennie Wileman returned Friday from a short business trip to Ardmore, Okla.

The junior class of Allison high school entertained the senior class and faculty members with a mock banquet on Wednesday evening, Feb. 20. The menu consisted of the following: cocktail—bluing water with a feather in it; vegetable salad—onions, beans and cabbage, all raw; chicken and dressing—a picture of a chicken putting on clothes; macaroni and cheese—uncooked macaroni; ice cream and cake—ice with cream poured over it and cotton seed cake.

At the close real punch and cookies were served and greatly appreciated by everyone present. Speeches by the seniors were interesting and appropriate. Later several games were played in the gymnasium. Everyone seemed to have an enjoyable evening although those who ate supper before coming to the banquet had a decided advantage over the others.

CLUB NOTES

Happenings of interest by and for Home Demonstration Club Women of the County.

Mountain View 4-H club met at 10:30 a. m. Tuesday, Feb. 26. The house was called to order by the president, Betty Henderson. The pledge, prayer and motto were repeated. Minutes of the last meeting were read by the secretary, Estell Seitz. Miss Jones gave a demonstration on how to work a buttonhole. Estell Seitz reseated a chair since the last meeting. The next meeting will be at Wheeler Saturday, March 2.—GERTRUDE NEWMAN, Reporter.

By changing the door in her closet, Mrs. F. G. Dorsey, wardrobe demonstrator in the Magic City Home Demonstration club, made it possible to add two extension rods on which to hang her clothes instead of hanging them on nails on the sides of her closet, which is eight feet wide and four feet long.

After changing the door from one end and putting it in the center, Mrs. Dorsey then lined the inside of her closet with pasteboard boxes, added two six-foot shelves and an eight-foot one out of old lumber found about the place; a dirty clothes hamper six feet long, two feet wide and 18 inches high.

Another convenience that the closet has is a mirror on the door and a shelf for cosmetics, so that one may dress completely without leaving the closet.

Mrs. Dorsey states that she plans to paper the closet, add more shelves and a shoe rack before it is complete.
