## CWE CHAT WITH EDITOR

By Louis C. Stas

When the cold front came through Saturday, it didn't take it long to get cold. We were in Elk City with the temperature at 51 degrees. When we arrived in Hinton a short time later, the temperature was 21. I have had reports of a -4 during the night Saturday for the Wheeler area.

Audra Bean described the wind that accompanied the cold front Saturday as a "lazy wind"—one that goes right through you, too lazy to tell around.

When they start telling the wind chill temperature with these fronts, it really makes you shiver.

## VIEWPOINT OF AN OPPONENT

TO THE EDITOR:

First let me preface the following remarks by stating that I am writing this on the eve of the election but it will not be printed until after the election, so this is not intended to sway anyone's vote. Neither is it intended to discuss the relative merit or lack thereof of the Sweetwater Creek Project.

I think if myself as a level-headed, rational person; and I try to make allowances for what is said during heated debates or political contests. But after this last exchange in the Wheeler Times, I am angry.

YES, I OPPOSE THE SWEETWATER CREEK DAM PROJECT.

My opposition has been determined, but not bitter. I am a college graduate, a registered professional engineer, a rancher and heir to tradition of a family which has been in Wheeler County since 1900. I have tried to explore the information being released by both sides of this issue. I base my judgements on my experiences as a rancher, engineer and resident of Wheeler County, and on the traditions passed to me by my parents and grandparents. There are hundreds of Wheeler County residents who oppose this particular project whose backgrounds may be different from my own but whose credentials and abilities to chose are just as valid as my own. On behalf of these people, if I may, I wish to express our resentment at being labeled subversive (this inference is my own) representatives of "oil and gas interests", of being

accused of having no concern for the future of Wheeler County, and of being called liars and distortionists. Just because we hold a different view does not mean that the "pro" side is right and we are wrong (or vice versa). What I believe to be fact, someone supporting the project may wish to dispute. But the reverse is also true. What a supporter of the project believes to be correct beyond any doubt, I, if through a different interpretation feel it to be in error, have the right to an opposing view. I am sure that neither side has a corner on the 100% absolute truth.

YES, I CARE ABOUT THE FUTURE OF WHEELER COUNTY. I want the tradition and heritage of my children and grandchildren to be richer and better than what was given me. That is why, when I see something which I perceive is not the best course to follow, I oppose it. I am thankful for the right to do so.

We are relatives, neighbors and friends on the opposing sides of an issue. I hope we can still keep it friendly.

Sincerely,  
 Bob Stiles

Congratulations to the students listed on the honor rolls for the third six weeks. We have had the lists for two or three weeks, but I decided to hold them for a time when I had front page space. One Thursday morning while addressing papers, Tony Jackson, commented on my putting sports on the front page and the honor rolls just anywhere in the paper. This remark struck a nerve, since I am the one usually stressing academics.

GARDENER  
TIPS**

Whether you like your potatoes baked, boiled or fried, you're apt to enjoy them even more if you grow your own.

If you live in the southernmost part of the state, now is the time to plant. In Central Texas, plant around the middle of February, and in March if you live in North Texas.

When purchasing potatoes for planting, be sure you buy only certified seed potatoes. Don't try planting those bought at the grocery store because most of them are treated with chemicals to prevent sprouting.

Some of the best potato varieties for Texas are Red LaSoda, Kennebec and Norgold Russet.

Before planting, cut the seed potatoes into 2-ounce pieces containing at least one "eye." Let the seed pieces dry for several days and dust them with a fungicide containing captan.

**What's Happening at W.H.S.?**  
By Lyndol Loyd

Seems like there is something new or different happening every week at W.H.S.

This week at W.H.S. one of those happenings was the announcement of the Most Handsome and Most Beautiful of the 1985 Senior Class.

The winners are as follows: Most Handsome—Joel Dodd, Most Beautiful—Susie Parker, first runners-up—Draton Childress and Becky Crockett, second runners-up—Darren Grimes and Sonya Hill, 3rd runners-up—Russell Bradstreet and Angie Bailey. The winners were selected by the fine arts department of West Texas State University as done in the past years.

The seventh grade girls speech class presented their play "The Happy Scarecrow" last week once in the day and once at night. Both performances were very good. The Thursday Review Club of Wheeler even came to watch as one of their contributions to the arts. The seventh grade speech class of Mrs. Hardcastle's also presented a play last week and did a very fine job. The play was a western boys rendition of a "Cinderella" spoof.

The W.H.S. and W.J.H.S. basketball teams were out in full force last week and with winning streaks all the way around. It started with the W.J.H. colts traveling to Kelton and winning both of their games with ease. Then the high school varsity teams played host to Kelton High School. The girls won their game by nearly thirty points, but the exciting game of the night was the boys which had only a two point difference at the half, but the Mustangs came back to win by nearly thirty points also. Then on Friday, Samnorwood became the victim if two Mustang victories.

Mrs. Porter received quite a surprise on Friday as one of her English classes gave her a surprise birthday party. Now, there is only one other problem all of the other teachers are going to expect them.

Now, Maybe you know more about What's Happening at W.H.S.!

Kelton and will start at 7:00 p.m. Basketball King and Queen will be crowned at half-time of the boys game. High School boys and girls are candidates for queen and king.

Saturday January 26, is Briscoe Booster Day to help with the sale of show animals at the stock show in February. There will be a pancake supper from 4:30—6:30 followed by many games and activities for all ages. Let's all come and have fun with and help support our kids with their F.F.A. and 4—H projects.

Mrs. Lee Lackey spent Monday night with her daughter, Rita and David Pearson and Dallas and Lindsey and they all attended the ballgame at Briscoe.

Briscoe Jr. High played Miami Monday night and won both games, but they were pretty close, especially

the girls. Boys score was Briscoe 30 and Miami 18. Congratulations!

Happy Birthday to James Light, on January 27, Ricky Gatlin on January 28 Tina Currie and Donald Stuckey on January 30 and Amanda Childress on February 1.

Happy Anniversary to Mack and Gay Purcell on January 31, Joe and Nelda Dukes and Joe and Sherry Wagoner on February 1, and David and Phyllis Hefley on February 2.

Glad Joe Dukes is feeling better and out to ballgames some. Who knows, God and Joe and the doctors may lick that cancer yet. Keep praying. We know God can.

Lois Meadows needs crisco plastic lids and ones for 2 lb. coffee cans to help with craft projects at the Abraham home.

Aaron Laverty went to Dallas early

Monday for a three day evangelism conference. Some of speakers were to be Dr. Criswell, Charles Swindell and others.

Velma Forbes, Peggy Thompson and I had a nice visit with Goldie and Ernest Gordon Monday. Also visiting and helping the Gordons was a new neighbor, Sandy McClintock, who lives on the VanZant Ranch with her husband and small son, Patrick. Sandy also works for Home Health Care and is such a pleasant person. I believe God sent her to them. We felt so sad to see how Goldie suffers. She has always been such an unselfish, caring person, doing good things for others. Now she has one leg with bad sores that won't heal because she is diabetic and her body is rejecting a metal plate put in there earlier. The other leg has no knee cap so walking is agony, as is sitting. Let's all pray that God will take away the pain and heal her body and surround her and Ernie with His love as Ernie tries to help all he can but is a small man and not very strong himself. We were neighbors to Ernie's family near Corn Valley when I was a kid, "a few years ago."

We had an exciting game with Briscoe H.S. and Miami girls Tuesday night Briscoe trailed Miami five to eleven points most of the game. In the last quarter, our girls got "hot" and finally beat them 54 to 53, I think. That was quite a game! Our Boys did not fare as well. They were badly out-classed but kept trying and working. Better luck next time!

Briscoe Home Demonstration Club met at Martha Meek Home Tuesday.

I heard Pat Graham got to go to the Super Bowl in California. Now, wasn't that super?

Vicky Nelson went to Amarillo Thursday with her sister, Cathy Harrison and mother, Shirley Jolly. They always have a great time together.

Kathy Meek of Canyon spent the weekend with Evelyn Meek. Other Saturday visitors were Sandra Meek of Canyon and Mark and Annette Meek and Caleb and Jocelyn. On Sunday John C. Vise visited.

Evelyn Meek visited at Grant Meek home on Sunday and the Rest Home at Wheeler one day. She also visited Jewell Holloman and Fannie Mae Bradstreet. Also at Fannie's were Paul and Cordie Shumate and Claudie and Ina Mae playing 88.

Tom and Alice Bell Helton visited her sister, Lela Adcock and boys Tuesday. Wednesday they went to Pampa and visited Adell McNeill. Adell had recent eye surgery but is doing pretty well.

Monday the Heltons went by and got Marsha Mitchell at Shamrock and on to Sayre to get Joyce Smith and they all shopped and visited in Sayre and Elk City.

Tom and Alice Bell visited Marie Gudgeal at Mobeettie recently. Visiting the Heltons Friday were Dale and Lisa and boys of Wheeler. Terry Lewallen visited Wednesday night. They heard from nearly all their children during the week. They really enjoyed their children and friends. They also went to Mrs. Williams when she lived at Briscoe many years ago before she lost her husband and children.

Congratulations to Chuck and Phoebe Hartline on the birth of their

new baby girl, Tamera Dawn, on January 18, at 4:10 a.m. at Pampa Hospital. She weighed 7 lbs. 13 oz. and is 21 inches long and has a brother, Aaron, 18 months. Grandparents are J.P. and Martha Meek and Garland and Pat Hartline of Chickasha, Okla. Garland and Pat and J.P. and Martha visited them at the hospital.

Esther Brown and Jaculyn went to Amarillo Friday with Marki Laughlin of Higgins, an old friend of many years. Bea Ogle kept Keith and Mandy Ratliff. Justin visited Ty Ferguson over night Friday and Jill

Brown visited us.  
Lots of sickness especially among school children. Hope all are soon better. Sorry to hear Juanita Prater and Rita Grayson in Wheeler Hospital. Aaron Lowerty is sick to preach Sunday night. Hope he is soon better. We missed him.  
Nice to have Birdella Roberts for a weekend visitor. Other Saturday supper guests were Dennis and Peggy Thompson and boys. Joe and Sherry Wagoner and Shawna visited Sunday. Also Kimberly Cook. Always enjoy them all.

Lee and Esther Brown met Murel and Loreta Hazel in Pampa Saturday night for supper. They were celebrating Muriel and Esther's birthdays. Kids all stayed home.  
Melody Ratliff enjoyed visiting Frances Hickman, Saturday night. Mandy and Keith Ratliff spent the night with Granny Reames. Sue, Bob and Kevin and Melody have been sick.

Sincere Sympathy to the family of Barney Gatlin in his death.  
Sunday dinner guests at J.P. Meek home were Dennis and Peggy Thompson and Jeff and Kelly.

**Erosion On The Grandfield**

**SOIL SERIES**

Wheeler County is composed of 34 soil different soil series. Of the 34 series, the most abundant is the Grandfield series. Almost 27% of Wheeler County is included in the Grandfield series. The Grandfield series lies in three main layers. The surface layer is a fine sandy loam about 8 inches thick. The subsurface layer is a sandy clay loam to a depth of about 40 inches. The underlying layer is a fine sandy loam and a loamy fine sand.

The subsurface layer is tighter than the surface or underlying layers and restricts water percolation into the soil. As precipitation falls, it is readily absorbed by the surface layer but slowly absorbed by the subsurface layer. The surface layer eventually becomes super-saturated and slushy. Additional rainfall causes the soil to erode with the runoff water. The erosion occurs as gullies, sheet erosion, or a combination of the two.

As gullies develop, water concentrates in the channel and begins to erode through the subsurface layer. The gully eventually erodes through the subsurface layer to the less restrictive underlying layer. From there the gully will erode up the hill, sometimes to within a few feet of the top.

Erosion of this kind is difficult and expensive to control after it begins. The best way to prevent erosion of this sort is to maintain a good grass cover. The grass helps hold the soil and help rain percolate deeper into the soil.

If you need help with erosion problems, contact your local Soil Conservation Service.

## PUBLIC NOTICE

In accordance with the Public Utility Regulatory Act and the Rules of the Public Utility Commission of Texas, AT&T Communications of the Southwest, Inc. (AT&T Communications) gives notice to all of its Texas customers that a new procedure for long distance billing was made effective on an interim basis on August 6, 1984 in Docket No. 5800.

The procedure referred to is "Rate Period Specific Billing" and it applies to all message telephone service (AT&T Long Distance calls) including non-REACH OUT Texas calls with the State of Texas. This new procedure effects all AT&T Long Distance customers. All intraLATA long distance calls and all interstate long distance calls are currently billed using this procedure.

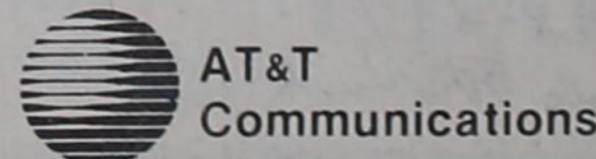

Under this procedure, customers are billed a specific charge for long distance calls according to the rate or rates in effect throughout the time of each call. If a call begins in one rate period and extends into a different rate period, the customer will be charged whatever rate is in effect for each portion of the call.

For example, if a customer places a call at 4:58 p.m. on a weekday and talks for ten minutes, the first two minutes of the call would be charged at the full weekday rate which extends from 8:00 a.m. to 5:00 p.m. The remaining eight minutes of the call would be billed at the evening rate which extends from 5:00 p.m. to 11:00 p.m. and includes a 25% discount. If Rate Period Specific Billing were not in effect, the entire call would have been billed at the higher day rate. Calls which extend from the evening rate period (25% discount) to the night and weekend rate period (40% discount) or from the night and weekend rate period (40% discount) to the day rate period (no discount) would also be billed according to the actual minutes of use during each rate period.

AT&T Communications anticipates a minimal increase of approximately .02% in its revenues or approximately \$250,000 annually.

A complete copy of the "Rate Period Specific Billing" tariff is on file with the Texas Public Utility Commission.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

 The school election is Tuesday with Eb Atkinson, Leroy Hagerman, and Jesse Taylor on the ticket for the school board. Come out and support the school. Understand we have some 20 potential kindergarteners which could put our enrollment to 200 plus. Lets hope that no one moves away. We have such a nice school that it is a pity we don't have several hundred students to enjoy it.

 Mr. and Mrs. Melvin McIntyre visited us Tuesday.  
 Talked to the Frank Flowers in CA. He is home from the hospital and

doing well. Will be off work a week to recuperate.  
 I sure am glad we got the Super Bowl played and the President sworn in. I heard him say last week that the

Social Security fund was running ahead with plenty of money. Then his financial man came on to tell how they just had to do away with Colas and such, cut the help to the small businesses and quit this farm help. Going to be a long time till 88. The Ok. oil industry has its pants scared off and is in Wash. D.C. protesting. I'd be more in favor of the Star Wars deal if he hadn't said that as soon as we got it working, we'd give it to Russia. We'd be better off to worry more about chemical and germ warfare. That's one of Russia's favorite

From Page 5 means of eliminating enemies. Mr. and Mrs. Leonard Smith and boys of Clinton came out Saturday bringing dinner and spent the day with Ray and Doris Smith.

They'd had a letter from Ida Carr. She is doing well at Mt. View. Living in a trailer house near her daughter.

C.B. Crook is still in an OKC hospital last report. Lawson Smith is home from the Amarillo hospital. Bill Cotts is a patient in Sayre Hospital.

Mr. and Mrs. Arnel Lee Bryan and Shirley of Pampa were down Saturday to cut wood. They and the Albert Bryans had supper with Leonard and Lois.

Betty Sites, Eva Atkinson, Sally Sites, Sheila and Megan, went back Saturday to get things for the 4-H's demonstrations.

Friends and relatives are invited to a reception February 3 at the Sweetwater Baptist Church honoring Howard and Esther Dickey on their 50th anniversary. Time is from 2 to 4. Hosts are their daughters and husbands Mr. and Mrs. Don Mears of Shamrock, Tx, Dr. and Mrs. Ken Mattox of Houston.

Joe had a birthday on the 18th. Says he's plenty nine and holding.

The band went to Town Hall Monday. Laurence Perkins is a new resident there. His sister and husband Gweany and Roy Butler were expected this weekend from CA.

Emily Maddoux of Albuquerque has been here visiting Flossie Maddoux and Lila Atwood as she attended to business.

I've been a little fretted. One of my favorite stores is having a game deal. The deal says free markers each time you go to the store—purchase not necessary. We bought a goodly bunch and the clerk handed me one marker. I told her we wanted one for each adult. She muttered it was against the rules but finally gave each of us one. I haven't been back so guess I won't win anything. Never did get but a dollar in all I've worried with.

I so think the clerks should read the rules and abide by them with good grace. No use antagonizing customers. Too many stores.

Groceries are getting cheaper. The last we bought only cost \$8 a bag.

There's been a number of breakins in the neighborhood recently. Makes a person scared to leave home.

Juanita Coffey visited Saturday with Hortense Madden.

Looks like Okies are really going to live it up. Pari-mutual betting, liquor by the drink, Lottery. No telling what else they will dream up. Anything but cutting down on the spending. Wonder what went with that \$400 million surplus we had a little while ago?

We had 13 redbirds out eating seeds yesterday. The dog found a dead woodpecker. Don't know if the cold got it or he actually caught it. Can't have that.

Chatted with the Alex Ewings. Their son from Tyler had been to see them with his family.

Got a foreign Christmas card mailed plain mail in Nov. Took two months.

Wednesday with Mary Brewer in the Coronado Nursing Home. They reported she was doing fine playing Bingo and visiting with her new friends.

Doug and Doris Whaley visited Friday and Saturday in Guthrie with their daughter and families. They watched their grandchildren show their sheep.

Jane Seitz sister Johnny Hood from Lefors has been ill in the Coronado Community Hospital. Sure hope by now she is much better.

Keith and Becky Langley from Odessa recently spent the weekend with this grandparents Carol and Elaine Langley and Greg.

Fannie West from Pampa spent Monday night with her sister Elnita Atkins. Tuesday they went to Pampa and shopped.

Tuesday Alvern and Dorsie Hutchinson ate dinner with Orville Greenhouse. Wednesday Alvern and Orville went to Borger and visited Pearl Morris and Jewel Holt.

**THANK YOU**  
Our sincere appreciation to all our friends and neighbors who brought food, sent flowers and encouraged us during the loss of our loved one. Each little thought meant so much to us. The memories we shared were priceless and will long be remembered.  
A "Special Thanks" to Pastor Harold W. Moore and Mr. and Mrs. Raymond Burks.  
**The Douglas Family**

**CARD OF THANKS**  
We wish to thank our chairman, Tommy Puryear and family for the months of hard work, sweat, harsh words he had to endure prior to each election of the Sweetwater Creek project.  
Also for the good letters who gave due consideration to Wheeler County as a whole in saving our necks from deep debt. Also for many others who spent much time in campaigning and other ways.  
We noticed there never was any money allotted in the \$30,000,000 to pay land owners for their land and property that was scary to say the least.  
If we had a population of twenty to thirty thousand people it would be another thought but deep debts for a much smaller population over a long term can also be a terrible burden on Wheeler County — Enough Said!  
Thanks a million

terminated limit, review your shopping cart. Eliminate the non-essential items and replace them with the things you need. Then re-calculate the cost of the items in your cart.  
**LARGER ISN'T ALWAYS BETTER**  
Items sold in bulk quantities tend to be cheaper than those sold in smaller packages. Large packages size—often called "economy", "giant", "bargain", or "thrifty"—may mean extra savings. However, if a smaller size happens to be on sale, the UNIT PRICE of the product may actually be lower in that smaller size package. In this case, the rule "largest is cheapest", does not apply. Use unit pricing as a guideline. But also buy only those sizes which your family can store and use within a reasonable time.  
**TRY QUANTITY BUYING**  
Every household spends a substantial amount of money on household products, paper products, cleaning supplies and health and beauty aids. You can save money by making a standardized list of all products your family uses. Note the prices you have paid in the past so you can watch for specials. Consider buying cleaning products and paper supplies from commercial suppliers instead of retail stores. For example, a brand name window cleaner sold at an industrial supply store costs.

### Becham Farm 1 Plans Meeting

Beckham Farm 1 invites all area farmers to attend a meeting at the Erick High School Cafeteria on Thursday, January 24 at 7:00 P.M. to discuss the 1985 crop season.

An explanation of the program being offered at Beckham Farm 1—what crops they are looking for in 1985; what part the farmer plays in the program; what Beckham Farm 1 will be responsible for; cost projections for various crops, etc—will be presented at the meeting.

Farmers will be given ample opportunity to ask questions and will also be able to sign with the program at this time.

The plant at Beckham Farm 1 was constructed to handle 5000 acres of fresh vegetable when operations reach full capacity. It will handle a large variety, including cabbage, squash, okra, turnips, spinach, carrots, broccoli, snap green beans and cantaloupe. More vegetables will be added as land becomes available. Farmers will be shown how to incorporate these new crops into their farming program, thus gaining a new source of income.

Further details of the meeting can be obtained by calling 405/526-3495 during office hours.

potatoes for Texas, growing bell peppers with field-grown, bare-root transplants, disease controls, the Tex fresh promotion program and the field grading and packing of onions.

The educational conference begins at 8:30 a.m. at the Hereford Community Center, 100 Avenue C at Park Avenue and adjourns at 4:30 p.m. The \$5 registration included the barbecue lunch. Many interesting exhibits will be staged by agribusiness people who will also provide valuable door prizes.

Co-sponsors with the Council are the Texas Agricultural Extension Service, the Deaf Smith County Vegetable Corps Committee, Texas University and the Texas Agricultural Experiment Station.

"This program deals with every major concern of our Texas vegetable growers from the development of new markets for Texas potatoes, to new more productive planting systems for onions and futuristic onion breeding techniques," said Dr. Roland E. Roberts, Extension vegetable specialist. Growers will be updated on new developments in the vegetable industry and get to talk with many people who are working to help them to profit from vegetables, Roberts said.

Texas A&M University scientists will report research results on increasing onion yields while maintaining large bulb size, gaining access to new potato markets, onion varieties that do not bolt even when fall seeded, and irrigation systems that save labor, machine costs and increase yields. Texas Tech University scientists will report research results on growing herbs for spices and essential oils and the implications of interspecific onion crosses in upgrading onion varieties.

A very useful technique for the successful production of early bell peppers from grower-produced bare-root transplants will be described in detail by Extension vegetable specialist Roland Roberts. Bill Weeks, executive vice president of the Texas Citrus & Vegetable Growers Association will discuss legislative matters of vital concern to Texas vegetable growers, multicrop multiperil crop insurance, transportation, labor, pesticide regulations and the progress of the marketing agreement.

The vegetable marketing outlook for 1985 will be analyzed by Gordon Powell, Extension fruit and vegetable marketing specialist, College Station. Paula Trott Fouchek, who directs the TexFresh program will describe the exciting progress that she made in acquainting U.S. produce buyers and consumers with Texas sweet onions and Texas russet and red potatoes. Effective controls for diseases attacking High Plains potatoes, onions, and peppers will be detailed by Robert Berry, Extension plant pathologist.

"Everyone who is in the business of growing and marketing Texas vegetables will profit from the information that we will present at this conference," said Truman Touchstone of Dimmitt, president of the growers and shippers council.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, or natural origin.

## Here & There

By Laura Guthrie

There is a remodeling job going on at our Post Office. It seems there may not be a need for more boxes, but a relocation of some that are already in use will make a better working arrangement.

The weather has been too disagreeable for much to be going on, but a few stout souls get out and go.

Tessie Clark, Tony and Ben Griffin attended the funeral of an old friend, Dink Douglas, in Shamrock Saturday.

Cecil Clark is improving from his illness that has kept him down for the last few weeks. He goes to the courthouse once in a while to see that all goes well there.

Last week Bobbye Hill and her daughters, Melissa and Sonya, her mother, Roberta Adams, and her mother-in-law, Ester Hill made a trip to Amarillo to do some shopping.

On Tuesday Anna Green and Betty McNeil made a business trip to Amarillo. I kept the Library for them that day.

Chester Jones was away from the office for a couple of days this week. He and his wife, Vivian, made a trip to San Antonio.

You know, I just happened to think, that spring is approaching. That means Dandelions. I read something on the subject not long ago. It went like this: How about a worldwide movement for the recognition of the dandelion? For many years it has been looked upon with scorn and disdain. If suddenly the poor dandelion should become popular and something of real value, it would probably disappear from circulation. If there was a bounty of one cent apiece, how much would your lawn be worth? Whoops!

June is coming too. The month for Brides. (However I believe there are to be a few brides before June.) I have heard that Marriage may be inspired by music, soft words and perfume, but its security is Manifest in work, consideration and well fried bacon.

## SCLERODERMA

As a scleroderma patient who has suffered alone for too many years with a disease that few people have ever heard of, I am attempting to locate others who suffer from scleroderma (systemic sclerosis).

My New Year's resolution is to correspond with as many scleroderma patients as possible. Doctors tell me there are 300,000 of us. Perhaps your readers can assist me in locating others like myself. I can be reached at 21 Brennan Street, 721, Watsonville, Ca. 95076.

Thank You,  
Diane Williams

## SCS Celebrates 50th Anniversary

A new slide show honoring the 50th anniversary of the USDA Soil Conservation Service is now available through your local SCS office. The SCS was created by an act of Congress and signed into law by President Roosevelt on April 27, 1935.

Lavon Williams, District Conservationist for SCS at Wheeler said the 16 minute slide presentation, which includes a cassette tape, is suitable for use by service clubs or agriculture groups. The presentation is titled "The First Fifty Years". "We do not have a set from our Area Office at Pampa. Therefore, we need to request it well in advance of the proposed show date. I can also borrow the equipment necessary to present the show. Any interested individual or group can contact me at 826-5640 in Wheeler," Williams concluded.

This month's 4-H meeting was opened by Kristi Finsterwald. Following the opening, was the prayer led by Rochelle Rives, The Pledge Of Allegiance led by Michele Coates, and the 4-H Pledge, which was led by Angie Martin. We discussed the business of our bake sale, and we would like to thank the people who bought our baked goods. We would like to thank Donnetta Dollar for refreshments and we would like to show our appreciation to Mr. Daughtry for the film he showed us on fires and fire safety. Our next meeting is February 4th. We would like to encourage all 4-H members to try their best to come to the meetings. So that's the 4-H news!
