LOTS OF SWEETNESS FROM ACRE OF CANE

This week, U. B. Trayler, living five miles northeast of Wheeler, reports the production of 871/2 gallons of syrup from a measured acre of seeded ribbon cane grown by him. This is considered a very fair yield from that amount of land, but production would have been somewhat higher except for a little hard luck which lost a portion of the raw juice. R. A. Watts, operating a syrup plant in the east part of town, made up the Trayler crop.

TWO COUNTY WPA PROJECTS OK'D

According to word received this week, two county WPA projects have received final and definite approval by federal authorities in Washing-

ton. They are: Precinct 2-Precinct-wide road improvement program. Federal allotment is \$4,147.20, sponsor's share

Precinct 3-Precinct-wide road improvement. Federal fund. \$10,950; sponsor, \$3,123.90.

In each instance these projects embrace repairs and improvements on roads of various kinds. In preeinet 3, R. W. Griswold's bailiwick the project includes rerouting of the road on this side of the bridge north of Magic City and shaving down the hill that so long has been a hindrance to traffic over that route.

While these two have been approved and are theoretically ready to go, no advices have been received as to when actual work may be expected to start. In fact, it is feared that the new method of securing team and grader work, as mentioned in another column of this newspaper, may delay work activities to some

WHEELER BAPTIST CHURCH SPONSORING ALL-CHURCH WEEK OF PRAYER PROGRAM

Beginning Monday night, Oct. 7, the Mary Hill Davis all-church week of prayer for State Missions will be observed in the Wheeler Baptist church. On each of five consecutive nights a brief but attractive program will be given. The programs are expected to be especially beneficial to all members of the church, because through discussions the real meaning of state missions will be brought out. However, a cordial invitation is extended to all who care to attend the services.

The meetings will begin promptly at 7:30 and end at 8:15.

REAL STATESMANSHIP NEEDED

The vast governmental spending of the last few years was started in the belief that industry would be stimulated, purchasing power would be increased, and unemployment reduced within a relatively short time. Then government was to step back into the job of governing, leaving industry to carry the load as usual.

Granting that the theory was honestly believed in by those who adopted it, they cannot be blamed for trying what they thought right and proper. But, as time goes on, it becomes increasingly obvious that the idea of "spending" our way to prosperity has been a failure. Untold billions have been spent. The federal debt, to say nothing of state and local debts, has reached the highest point in history. Public payrolls have likewise reached a record high. Yet published unemployment figures remain as high as at any time in the

It would be bad enough if the spending policy had failed only in its main objective—the solving of the unemployment problem. But, in addition, it is making it increasingly difficult to ever bring back normal come, industry. Many business enterprises are today doing more business than at any time since 1929yet are earning no additional profits, frighten investors, divert money personal fortune; the present proment bonds-and keep unemployment at peak figures.

To remedy this situation governmental costs must be cut to the war bone, and an aggressive budget-balancing program adopted. That is the take the profit out of war, and if were seen today as the highway decourse of real statesmanship—and it this is done, munition corporations partment advertised for bids on a 2565, wherein America from eventual financial start conflicts. ruin.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxines.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

CONVENIENT, ECONOMICAL

Farmers of Wheeler county will find at this mill a ready market for their cotton seed and a supply of whole pressed cotton seed cake or meal at all times. The advantages of a convenient home market for raw material and finished products are too numerous to list here. But this company is glad to be in position to serve its patrons in the county and nearby territory. Then, too, those who do not have cottonseed to sell may buy cake and meal here at fair prices always in line with the market.

SOUNDS REASONABLE

A recent issue of the Ralls Banner came to us full of Lubbock ads. That is one of the best ways in the world to bring local advertisers to their senses. You may argue with them all you wish, but they'll have their heads until hell ain't bigger than a chinch. But just put in a few "foreign" ads and they'll acknowledge that even they read the ads that they have contended people don't read. Then the local merchants actually begin to reason: "Well, if it pays the Lubbock guys to advertise in our darned old local paper, maybe it would pay me."-Brownfield Her-

Supt. Dyer Plans Full Program for School-Community

At the Briscoe schoolhouse there is always something doing, even on Friday and Saturday nights, according to Superintendent Jim H. Dyer. Dyer states that it is his desire to have some form of social entertainment for his students at the schoolhouse every week end.

Plans designate Friday night as a regular date when all school children will be brought in for a program of singing, spelling and ciphering. The first of such programs was held Saturday night in the school auditorium. Dyer is making his plans so that every teacher in the school will be brought into action with these boys and girls; there will be times when we will have 10 teachers giving out spelling at one time.

The schedule will begin with all the children in the auditorium; those who miss will be sent to Miss Owens' room: those missing in her room will be sent to Mr. Scott; thence to Mr. Hale; then to Mr Evans: then to Miss Scott: then to Miss Hubbard; then to Miss Day, and finally to Mrs. Dyer. By this method the children will so place themselves that the groups will be somewhat equalized in ability to spell. Yes, there will be some cash awards offered, which we hope will stimulate a keen interest and create a desire on the part of all to want to learn

The school busses will be sent on their rounds as though it were regular school work. The children are being brought in and will be returned: in some cases, the parents may wish to bring their children, and we are very thankful for this, because we want the parents to come

Over in Hemphill county, at the Glazier high school, Supt. Dyer had seven pupils and patrons alike who spelled every word in the Part II speller, from cover to cover without missing a word. We hope many of the Briscoe boys and girls will be able to do this before we give up.

We invite everyone who is interested in a real constructive program to come; you will not be in our way. Encourage your children by bringing

Rings to Have Standard Emblem

Committee from Four Classes Decides on Design to Be Used for Senior Jewelry

Seniors for the next four years will have a standard emblem on their rings. The contract was drawn by officers of each high school class Tuesday with the Star Engraving company.

Each year the senior class will select the shank pattern and design, on which the emblem representative of Wheeler high school will be placed. This method of adopting a standard emblem is followed by larger high schools over the state.

A committee of three representatives from each class worked out the following design to be symbolic of W. H. S.: A star is at the top to represent the Lone Star state. Wheeler is written across the bottom with H. S. on the sides. The main part of the emblem is divided into two parts, the upper division containing a lamp of knowledge to represent literary work. The lower division is decorated with the head of a mustang to represent athletics.

Those serving on the committees from each class were: Seniors, Mazie Bean, Nerine Young, Junior Jamison; juniors, Orveta Puett, H. E. Young, Dawn Weatherly; sophomores, Irene Hunt, O. D. Connor, Jonnie Lewis; freshmen, Naom Johnson, and Harrison Hall.

N. T. S. T. C. SORORITIES PLEDGE MISS RUTH EWING

Miss Ruth Ewing, grammar grade teacher, was pledged by the Pi Omega Pi and Kappa Delta Pi sororities last summer while she was attending school at N. T. S. T. C., Denton.

The Pi Omega Pi is a national honorary society for business administration majors who are outstanding in that field.

The Kappa Delta Pi is a national honorary society for those who meet Texas High School Press association its requirements in scholarship and citizenship and who secure recommendation from the faculty.

SPONSORS ARE SELECTED

Because of their extra-curricula activities as coaches, Miss Winona Adams and Bob Clark were unable to serve as sponsors of the junior and the sophomore classes.

Robert Mayne was chosen sponsor of the juniors at a meeting held last Tuesday. The sophomores selected Miss Frances Alice Clark, Tuesday of this week. Mr. Mayne teaches sophomore English and history and American history. Miss Clark is the public school music instructor.

4-H CLUB GIRLS REORGANIZE AND ELECT OFFICERS FRIDAY

The 4-H club girls met at the court house last Friday for the purpose of electing new officers and re-organizing. Speakers for the occasion were Mrs. Jim Trout and Miss Viola Jones. All of the club members in Wheeler county were invited to this meeting.

Thirty-eight old and new members from the Wheeler club were present. Officers elected were Martha Shipman, president; Johnie Templeton, vice president; Mildred Todd, pep and song leader; Elva Willard, secretary.

The club is to meet on the second and fourth Fridays of each month. Purpose of this club is to teach the girls better methods of doing things in modern life.

Journalism Class Receives Exchanges

"From Other Branding Irons," the exchange column, makes its first appearance this week. Material for these items is secured through the courtesy of its editor, C. G. Miller, who donates 12 copies of The Wheeler Times each week to be mailed to other schools.

High schools with which The Corral staff has asked to exchange are: Canyon Eagle's Tale, Panhandle Panther Scream, Dalhart Hi-Times, Austin Maroon, Whitewright Reflector, and Taylor Cotton Boll. College papers being mailed to the class each week are Prairie, W. T. S. T. C., Toreador, Texas Tech, Brand, Hardin-Simmons and Lasso, C. I. A.

The Shamrock Texan is being sent to the high school library through the kindness of some unknown donor. In addition to these papers, The Times editor sends up each week high school papers published in weekly papers coming to him on exchange.

Four high school papers on the Wheeler exchange list placed in the last year. The Austin Maroon won first in class I school papers. The Eagle's Tale took first place in high school page published in the local paper and Whitewright Reflector received first. The Taylor Cotton Boll was awarded first in class II.

Senior Class Orders Rings, Invitations

Two of the most important occasions in the life of a senior were crowded into one day Tuesday when this group decided on class rings and invitations.

The Egyptian folder type invitations have a modernistic raised engraving on front and an open work design through which a mustang may be seen. They are being purchased from Inter-Collegiate Press, Inc.

The rings are to be purchased from the Star Engraving company. The seniors of this year chose a ring with four bars on each side to represent four years in high school. The date and a torch is on each side at the outer edge of the emblem.

Three out of every four accidents are accounted for by causes other than speed; intoxication, poor tires, faulty brakes and lack of knowledge in handling a machine. Wrecks resulting in death are 75 per cent greater in the country than in the

Statistics of the "Marylander," house journal of the Maryland Casualty company, prove that the dangerous driving age is from 20 to 24 years and one-half of the victims are pedestrians.

A new course, automobile driving, has been added in the Chicago high schools in an effort to prevent motor casualties through the proper training of youthful drivers in the correct manipulation of vehicles.

Because Texas does not issue driving licenses or require brake tests, instruction in running a car through the medium of the public schools, would be especially beneficial.

If the young people of Wheeler were qualified through training to operate automobiles, the death rate of the community would be greatly lowered. Suggested as instructive lectures to be added to next year's curriculum: object lessons in driving .- B. M. M.

BOOKS BOAST BRIGHT NEW COATS FOR FALL

My, goodness! Did you ever see o many book covers in all of your life?

Last week upon entering the study hall one's eye caught sight of hundreds of book covers everywhere. They were on the floor and on the desks, and the air was so thick with them that one could hardly breathe.

Each cover had to be licked in order to stick, and it seemed that the school was very badly in need of an automatic licker. However, after the mad scramble was over, there were several hundred books with bright new coats to boast of, ready for another year's service.

There was a very unusual thing happening at this time, too. About three-fourths of the students were busy at one time at some occupation besides mischievousness.

Perhaps these students are sympathetic. This cold weather reminded them that winter is approaching and that even books may occasionally feel the biting teeth of Jack Frost.

Home Ec. Initiates Swat Absent Flies

"Say, look at that hair tied in a Bernie Addison, sponsor. knot and does she resemble her grandma, with no 'calcomine' on her face? Just ask me."

"Whoops, pardon me, would you mind keeping that floor-sweeper dress out of people's way? Might kill me if I stumbled again."

"Hit something else, instead of me, with that fly-swatter, 'cause it isn't as light as your head."

These were a few of the sarcastic or otherwise remarks heard last Thursday when future Home Ec. club members were initiated into the organization by wearing an array of garments that would have taxed the ingenuity of a modern style creator.

Hair done high on the head, tied with strips of material or string, put up with combs or braided in pigtails made up the coiffure of the "unpainted ladies."

The assortment of aprons, some of which were lace trimmed, others ruffled, tied with ribbons or overworked with embroidery, or just plain serviceable ones, formed a part of the (almost) martyred girl's garb. Long dresses were the general mode, although thin materials, as well as heavy, prevailed.

But to the consternation and pain of the students the girls carried flyswatters. For one day at least the back-slapper was overwhelmed by a contraption of wire which, wielded forcibly, left no doubt but that the young ladies were "holding their

West Point of the Air

"West Point of the Air," which opens Friday and Saturday at the Rogue theatre is a warm human vehicle for Wallace Beery. The story is played out against a new background which few Americans know anything about, a background of the comedy utmost importance to the United States . . . the huge air college at our own Randolph Field, Texas, Beery, as a grizzly old aviation sergeant, bridges the gap between the days of "flying coffins," as they were called in the early days, to the ultra-efficient flying machines of to-Dear Boys: I would suggest that day. Wallace, in actual life, holds a transport pilots license; and in this picture he flies his own "crate."

In the supporting cast are Robert Young, as the somewhat headstrong son of Wallace; and Maureen O'Sullivan and Rosalind Russell, as the feminine leads who both do outstanding performances. Lewis Stone enacts the part of General Carter,

The fact that crime does not pay is vividly emphasized.

SPORT SLANTS

Well, folks, it looks like we are going to get another swat at the Mobeetie Hornets. Last year we defeated the Hornets 6-0. This year we would like to run the score up to about 60-0. Go get 'um, Mustangs.

The Mustangs had hard luck Friday night when the Memphis Cyclones defeated them 12-6 on the new gridiron at Wheeler. It was the Mustang's second game on Wheeler's fine lighted field. They have won two games and lost one so far this year. Saturday morning here's hoping the Mustangs can boast of three victories and only one defeat.

We football boys are going to use he showers in the new gym the night we play Shamrock. Mr. Robison has promised us that they will penetrations to two for Memphis and be ready for use that night. Will 9 first downs to the visitors' 7. Howthe Mustangs be glad? And how!

Ford attempted the kick than Shamrock had last year. The Shamrock Irishmen have the same heavy line-up that they had last kicked to them. Big Ford got off season.

Coach Bob Clark is getting together a third string of football where Wheeler gained possession of boys. These colts will average about the ball. Big Ford punted the ball 100 pounds per man. He has about to Memphis' safety on the 50-yard 12 men out every afternoon. All third string material came out of the team mates, the safety carried the high school. Coach Clark has ball over for a touchdown, making matched one game with Magic City the tally 6 and 6 at the half. Neither for the second string.

Miss Adams expects to get her speed ball team organized the last of this week or the first of next week, since the ball is due to arrive about that time.

MUSTANGS MEET HORNETS FRIDAY

Much Interest Aroused In Both Communities Over Third Conference Tilt

Friday night at 8 o'clock the Wheeler Mustangs will meet the Mobeetie Hornets on the home field. This game has aroused much interest in all of the communities around Wheeler and Mobeetie.

Last year the Mustangs beat the Hornets 6 to 0. This year both teams have nearly all of their same men back. Both teams are evenly matched and are anxious to win the game. The battle will be packed full of thrills and action and a large attendance is expected at the game. Practically all of the Mobeetie high school will be present, besides a large crowd of the Mobeetie fans.

This will be the third conference game for both Wheeler and Mobeetie. Mobeetie has played three and lost three, while Wheeler has played three and won two. Wheeler has a total of 24 scores, while their opponents have 18. The probable

A Supreme Achievement in Gasoline Chemistry An Amazing Stride Forward in Gasoline Quality

HIS is the story of a new . . . decidedly different . . . decisively superior gasoline.

A gasoline made by a process utterly novel in the petroleum industry.

A process developed, proved, and perfected in the Phillips laboratories and refineries. A process which not only gives you a vastly improved motor fuel, but also plays an important part in conserving our country's valuable petroleum reserves.

Pioneered by Phillips, this miracle of modern chemistry rearranges the atoms of high-explosive vapors and transforms them into stable, high-octane, outstandingly active gasoline.

This is the superlative product which will now enrich and fortify every gallon of Phillips 66.

The result is a gasoline more obedient to your wishes than ever before . . . a gasoline which actually steps up pick-up and peps up power still further ... a gasoline which yields more mileage because

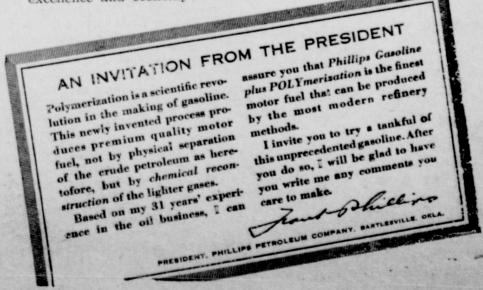

it gives up more of its energy to each piston stroke . . . a gasoline so lively that it sets new records for fast starting.

Note well the name of the process: Polymerization-or POLY, for short. Mark the word well in your memory,

PHILLIPS 77 AVIATION POLYmerized 2c extra per gallon Today's Biggest Value in Premium Gasoline because it is acclaimed as today's greatest advance in gasoline manufacture. Never before in the history of refining has any invention excited so much attention and interest. Again, Phillips has blazed a new trail! Again, Phillips leads in lifting the quality of motor fuel to higher levels of performance and value!

Remember, Phillips 66 is everything it has always been, plus! That "plus" is POLY. Hence, when you Phill-up with Phillips 66 POLYmerized, at no increase in cost, you can confidently expect that this greater gasoline will set new standards of service and value for your money.

Inevitably, this sensational gasoline will be the talk of motordom. It is now obtainable at all Phillips 66 Stations. Why not be among the first to try a tankful, and benefit from its unrivaled excellence and economy?

Dahlias of every color, size and shape, can be found in the yard of Mr. and Mrs. Paul Macina of Pakan They are in abundance; thousands of them. The school house, many homes and the home agent's office are being made more liveable by beautiful vases of dahlias from this yard. Although dahlias are predominant at present, the yard has many other attractions for all seasons of the year. Even on coldest winter days, it has evergreens to

Yards like this don't happen in Wheeler county. It takes planning and a lot of hard work to keep them growing more beautiful in years like the last three in this county. The Macinas have been working for sev-cina is vice president of the Pakan Home Demonstration club.

"I was Wardrobe Demonstrator this year and while I did not win a place in the County Contest, I did win a nice clothes closet for my work and that repaid me for all my effort," wrote Gevena McNeil of the Briscoe 4-H club, in her history. She continued, "The closet I built last year was too small and unsatisfac-
