# **Two Precinct Places**

Win First Places In Second Primary Saturday

Although a fair ballot was recorded all over the county in Saturday's run-off primary for only two state candidates, interest in the election was keen in precinct 1 and 3, the two county contests. In each of these, a heavy vote, comparatively speaking, was polled.

D. G. (Doug) Sims of Mobeetie was successful over W. W. Adams, incumbent for the past two years, ending ranged. in December. Sims is a former county commissioner from that precinct, losing the place two years ago to

An oddity found in the returns shows that Sims beat Adams this time exactly the same number of votes that gave Adams the place over Sims two years ago. The margin each time was 28 counters. The vote by boxes was:

Sims-Mobeetie 362, Briscoe 32, Wheeler 71, Corn Valley 52. Total,

Adams-Mobeetie 154, Briscoe 74, Wheeler 224, Corn Valley 37, Total,

Montgomery Beats Wells

ery pitted against Charley Wells, the former was successful, garnering 402 tallies to 295 for Wells, leaving a margin of 107.

Thus the next commissioner's court of Wheeler county will have two new members when it assumes office early in January. Three members of the body had no concern in the run-off. County Judge Puett was chosen with- business man, motored Sunday eveout opposition; Jim Trout in Precinct ning, August 23, to Sayre, Okla., and No. 2, incumbent, prevailed over a were quietly married by S. P. Austin, lone adversary, and George Hefley in minister of the Church of Christ, at No. 4, succeeded in eliminating three the parsonage of the church. Attendopponents in the July primary. Nothing definite in either instance J. Beasley, pioneer Wheeler lady, and Reaming Job Resumed has developed, so far as The Times is well known in this community, has been able to learn.

Thompson, McDonald Win

commissioner, received 1,667 to 319 ald of Ellis county totaled 1,208 votes future home. to 647 for George B. Terrell of Ellis county. Each of the above high men were favored by the state electorate.

# **Council Defers Action**

Informal Declaration Made Tuesday by Rodgers to Quit as Head of City Body

Tuesday. No action on the subject column. was taken. The opinion was expressed by at least one member that a more formal resignation than an oral statement would be necessary to command official recognition.

Discussion was had on the question of employing a city secretary to succeed C. R. Weatherly, whose resignation is anticipated soon.

Other matters of general city interest were discussed. J. M. Lawrence was selected to sign disbursement checks of city funds.

In a statement to a Times reporter Tuesday, Rodgers declared that his business affairs would not permit proper attention to duties of the office without incurring a loss to him; that the signified intention of the remaining taxpayers who had not paid delinquent city taxes to do so accomplished the purpose of his incumbency and that he deemed it best to withdraw from the office.

### "SON" JONES MAKES ESCAPE FROM PRISON FARM FRIDAY

Press dispatches from Huntsville, dated Friday, carried news of the escape that day of "Son" Jones from the retrieve prison farm. Last January Jones was sept up for a 15-year term by a district court jury here on the charge of complicity in robbery of the Allison State bank.

A companion, by the name of Weeks, who made the break for freedom with Jones, was shot down by members of a prison pursuit squad.

Up to noon today, Sheriff Raymond Waters had received no report of Jones' re-capture.

FARMER AND SON BARBECUE DATE IS TOMORROW NIGHT

Decided In Run-Off As mentioned at some length in this paper last week, tomorrow evening at the Kelly brothers ranch is the time and place for a barbecue Sims In No. 1, Montgomery In No. 3, and picnic for Wheeler county farmers and their sons. Five o'clock in the afternoon is assembly hour, with supper planned at 7. Those attendimplements and a little food to supcultural association.

Every farmer and son or sons, duction are invited. An elaborate friends, are proud of the young men.

beeves instead of one in the barbecue.

## LET'S SUPPORT A WHEELER BAND!

At the suggestion of a taxpaying fellow-citizen, and because this paper believes wholeheartedly in the project, The Times offers these observations regarding support of a municipal band in Wheeler.

No enterprise can long exist nor progress at all without financial aid. The local band organization has made splendid progress to date. Now it has reached the stage where assistance is needed in order for it to move forward and become the kind of representative of which every citizen may fall

Its accomplishments thus far, together with the record of similar efforts in the past (such as Wheeler's band of a few years ago making the highest grade test at Amarillo for six months old bands and winning .. gold medal for nearest perfection in all classes) is proof of what can again be done here.

The Times believes a director should be paid sufficient salary to live decently and devote his whole time and effort to the job. It believes there are talented children of the community who should be discreetly helped to gain a place in the organization; with tuition fees or an instrument, for instance. I believes that many boys and girls, while expending their time and energy with a band, would have far less inclination to fall into activities of questionable nature.

How to raise funds for this purpose? Certainly not by "solicitation" of the "business men." Although in its modest way The Times is one of the lesser of

these, it unhesitatingly asserts that the "business men" of

Wheeler-like many other towns-are "solicited" to death. Therefore, it is proposed (even though the tax situation locally is somewhat tense just now) that a levy of sufficient amount to substantially aid the band be included in the city tax budget. This is done in many progressive communities.

Why not here? What do you think?

# COUNTY GROWS

Huge Watermelons in Dry Year.

Watermelons that weigh 60 pounds each-grown in Wheeler county during the season of 1936 -might make a subject for Ripley's Believe It or Not Column, declares Miss Viola Jones, county home demonstration agent. Yet that is what actually happened on two different farms not more than five miles east of Shamrock. she asserts.

Mrs. T. V. Wade served six large, delicious melons to about 30 guests at the China Flat Home Demonstration club meeting at the Wade home needed or not. on Wednesday, August 26. Plenty of good red meat remained in each melon when they ceased tasting good to the crowd. One melon measured 231/2 inches in diameter.

without a bit of irrigation, questions states Cliff Weatherly, local agent. were asked until the following information was revealed:

month and is then turned under. The now and Monday, August 31. first melons are planted about April 15, and three weeks later another planting is made. One vine is left in each hill and all imperfect melons are pruned away as soon as they begin taking shape, leaving not more than two or three melons to each vine. The vines are well cultivated and produce delicious melons.

Mrs. Wade says the secret of growing this type of watermelons in a dry season like the present is careful preparation of the soil, good cultivation, and severe pruning; and above all, one must have a seed from good variety.

By using this method, Ivan Walraven has had, this summer, all the watermelons weighing from 50 to 60 pounds that his family could use and has also sold \$10 worth from a half acre patch.

## Bring County Fugitive Back from California

Deputy Sheriff W. O. Deweese and son, George Deweese, deputy constable, returned Monday night from San Jose, Calif., where they took charge of G. B. Harris, who had been held for local authorities. Harris was indicted jointly with J. W. Miller on a charge of theft of personal property by the grand jury of the November term, 1935, district court, in session at Wheeler.

Miller was tried before a jury and received a sentence of two years in the penitentiary. Harris made a get-away before officers could apprehend him. Both men claimed Shamrock as their home.

HIGH GRADE FARM CROP

Despite the dry weather and other obstacles incident to the current growing season, The Times office Mustang Stomp Ground window contains two displays of high grade farm crops.

Monday morning, Lee Tinney, living five miles south of Wheeler, brought in a sample stalk of cotton from his field. The plant measures Yesterday The Times received word loaded with large bolls, squares and

## ANOTHER HOPPER STORY-EVER BIGGER AND BIGGER

Readers of The Times are asked to indulge one more installment of grasshopper "tall tales." This one covers considerable territory, being taken from a Santa Fe, N. Mex., newspaper brought back by a Wheeler vacation party of which the irrepressible Holt Green was a member. As will be seen, it is the brainchild of a sojourner in Old Mizzou, where the heat may have been partly to blame. It reads:

From Warrensburg, Mo., with the mercury at 110 in the shade and perspiration dripping from his fingers, Glenn Brill sends a photograph of a one ton grasshopper 20 feet long being hauled out of Missouri on a truck.

"I shot this varmint," says Brill, "Six miles NE by S from Warrensburg, and it took a 30-30 to bring him down. We lasso the danged things and drag them to a hitching post, put a saddle on them and let the kids ride.

"When I got home, believe it or not, there was a grandfather hopper sitting in my chair in the living room reading the Kansas City Star and petting the dog. Some of the politicos out here snag them, paint on their wings, 'Landon for President' and turn

them loose again." Mr. and Mrs. Brill had just reached home again after a motor trip to Santa Fe.

## SPECIMENS BROUGHT IN Club Fair Chooses **Downtown Location**

Makes Change from School Gym to Store Building—Dates Are September 11-12

According to Mrs. Jim Trout, counabout 40 inches in height and is well cil chairman, the women's home demonstration and 4-H girls county club fair will be held in the vacant Tuesday morning, Grady Richard- Ernest Lee building, at the southdone to afford greater convenience to This grain was grown on the Horgo to Neosho every Saturday night by spring and early summer rains.

D Freight trains nowadays act like express specials. New freight schedules are so fast, I sometimes wonder if everything has to be delivered day before yesterday.

Many of our passenger trains are running faster schedules, too. Well, one thing is sure. We make faster runs, but the first railroad commandment is still 'Safety First." That's one rule they won't change.

Western railroads and allied industries provided jobs for 750,000 workers last year. Some of them live in our town. Good neighbors. Passenger fares are now the

lowest in history with substantial reductions on round trips And no more surcharge for riding in sleeping cars.

This new Free pick-up-and-delivery of less than carload freight-I heard some traveling salesmen talking about it on the train yesterday. They said it saves shippers a lot of money and centers all responsibility on the railroad. The railroad picks up the freight at shipper's door and delivers to receiver's door. Of course, local delivery men get the haul from door-to-car and car-to-door at both ends. The railroad handles the whole transaction.

When railroads are busy, I notice towns along the railroad are prosperous. The merchants put more ads in the newspapers.

Weareproudofrailroadachievements, appreciate the public's good will and increased patronage, and pledge continued prog-

## Our Motto: "A Position for Every Graduate"

Get your business training in a nationally known school in the Centennial City, Dallas the city of employment. Byrne College places more graduates than any other two schools in the Southwest.

There is no higher or nobler career than that of a well trained successful business man or woman. A business education will start you on the immediate road to success with good pay, while a college education will slowly start you on a professional career with two years of small earnings.

The famous Byrne System of shorthand, typing, and bookkeeping, which we own and control, together with our original individual advancement method enables us to give you a thorough training in half the time required elsewhere, therefore we are the only school in which you can enroll now and be on a payroll in from three to five months. (Post graduate work given in any system of shorthand or bookkeeping).

Reasonable terms given on tuition. Board and room \$5.50 per week or spare time work to earn room and board.

Fill in name and address and receive our literature describing our employment service, our sixteen business courses, the time required to complete, cost, etc.

## Delegates to Short Course Submit Reports of Things Seen and Heard

Growing Up With Your Children

By MRS. W. V. HICKERSON Allison H. D. Club

The family life of yesterday was very different from that of today. Then, each family was, in a sense, one unit to itself and co-operation between the members of a family was all that was necessary for the welfare of the individual.

We may take for instance the chores, or many of the daily duties made necessary by lack of present day conveniences. Pleasures as well as tasks were shared or participated in. The family felt a responsibility for educational progress. The mothers saw to it that the preparation of all lessons at home was strictly carried out. Lessons were prepared before bedtime and recited again in the morning as the hair was braided or curled for school.

Mary Ellen Chase in her book, "A Goodly Heritage," calls this the pioneer life. I fail to see it as such.

The mothers of 1890 were able to conduct their homes and bring up their children very much as they themselves had been brought up, but the pioneer period is a thing of the past; we are living in a very different age. We mothers of today cannot refer to our own childhood homes for guidance, or examples, because the problems were so different.

The ideals of the homes of our mothers, it is true, we may adopt, because after all we have the same hopes and ambitions as they had, but the methods by which we may attain these ideals have been changed.

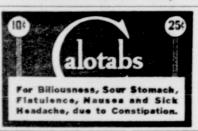

We again find ourselves on a frontier with problems more difficult to face than those presented by the unbroken soil, virgin forests, or treacherous Indians. In a true sense of the word we are growing up with our families.

The changes in family life are too familiar to everyone to need much attention. There has been a specialization of industry which has taken from the home many of the activities formerly engaged in there. The size of families has been reduced; many Course this year from my club, I mothers have been forced or chosen will say I enjoyed the trip very much to take a place in the commercial or and wish that every club member industrial world; education has been might have the privilege to attend relegated entirely to the school. some time. It fell my lot to write About the most a mother does to what I could about the kitchen and further the educational progress of the mess hall there. The building is her child is to say, "she is interested a cream color stucco with a brick and ready to help in any way she color top. It faces the south and has can." But teachers do not want or three principal entrances to the main need their help.

lenging task. We have much more to of 28 people to the table. Beal, the Tailor

radio. Unless an instructor can croon, wise crack, or lead a jazz orchestra in a pinch, his educational talk does not go over very well; but if the announcer says "Folks, we now give you one of our de luxe economic programs featuring the Ritz Roof Boys and Rudy Vallee," we listen in.

There are few parents who would not admit that parenthood is an education, but if we do not develop and change along with our children we cannot hope to be successful in dealing with them. The opportunity is before us to grow and develop as our children grow in every sense of the word.

One phase of the home today which needs more thought is the recreational life, or the use of leisure time. Leisure should mean self-enlargement or exercise for whatever creative ability we may have. Or perhaps we should have a worthwhile hobby. One of the things that happen to us when we fail to provide for leisure and recreation is that we lose our sense of humor. The ability to laugh is a precious gift. Laughter is a safety valve. Our troubles seldom weigh heavily upon us when we can laugh at the funny things we see and hear. Tired nerves relax and 30 bottles to the case, these were 1/2 life's discouragements go up in smiles. The family circle is an ideal place

to develop a sense of humor. Any mother who is keeping pace day; five barrels of cooking lard with her children and doing her job every two days; 25 boxes of apples well is getting a liberal education.

I am not opposed to women leaving day; 100 lbs. of onions; 20 bushels of the home and taking a place in the sweet potatoes per day. Of course business and professional world; they there were many other items that I are just as capable of doing it as failed to ask about such as butter, the men, but many who do are leav- sugar, breakfast cereals, syrup and ing a profession for a job. ## **Mobeetie Youth Dies** In Saturday Accident and Mrs. Harris

V. H. Reynolds Falls Under Wheels of Truck In Lamb County; Head Is Crushed

Friends of the J. I. Reynolds family of Mobeetie and of the young man in question were saddened when word was received of the death, late Saturday afternoon, of Vanis Hosey Reynolds, 20, a resident of Mobeetie community for some 10 years. Young Reynolds died from injuries received when he missed his footing and fell beneath a gravel truck while attempting to catch a ride on the vehicle. The accident occurred near Earth, in Lamb county, where the young man was visiting an aunt.

Reynolds was walking toward town with a cousin, it is said, and attempted to board the truck when he fell under it. A rear wheel passed over his head, crushing the skull.

Vanis Hosey Reynolds was born in Montague county August 2, 1916, and J. Vernon. died August 22, 1936, at the age of 20 years and 20 days. Surviving himare the parents, Mr. and Mrs. J. I. Reynolds; three sisters, Mrs. Madell Dixon, Geneva and Sylvia Reynolds, and four brothers, Lester, Dennis, Reuben and Joseph. They were all City. present at the last rites except Mrs. Dixon who lives in Arkansas, and Reuben of Montague county.

Funeral services were conducted Sunday afternoon from the Baptist church, with C. C. Ruff, Church of Christ minister, officiating. Interment was made in the Mobeette cemetery, under direction of Nathan Hunt Funeral home and M. M. Nix,

Pallbearers were F. P. Heare,

Out-of-town relatives attending the rites were Mr. and Mrs. H. W. Sigman and sons, Mr. and Mrs. L. H. Black and W. E. Blue of Earth, Mr. and Mrs. E. V. Vice of Nocona, and Mr. and Mrs. Sam Holley of Twitty. Friends present from a distance were Mr. and Mrs. Drake, Mr. and Mrs. Anderson, Paul Landers and Tom Smith of Earth.

## CHAPTER XII

It was in the afternoon at the end limbs and springing like a beheaded

on the steep hillside. "I reckon a body just has to look

sometimes when things get hurt and die. Does it make your stomach twist Fourteenth Annual Amarillo Event too? We both did it at the same time, and maybe you are not so different from other people just because your square mouth won't make any words."

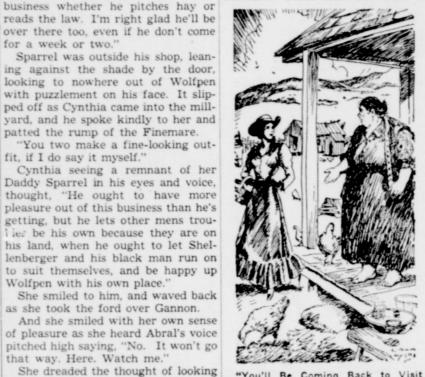

And Cynthia looked into the smoking brush piles and ugly stumps where 'possums used to crouch in the padded silence.

The Mason place was unaltered; the weathered paling fence where she left the mare, the chickens about the yard, the slightly musty smell of the house compounded of wood-smoke, unaired rooms, cooking and sickness. It dawned suddenly on Cynthia that it was this redolence of other people which had always made her vaguely unhappy at the Mason's.

The roof over the porch was still say goodby to Sarah Mason and incomplete. There was a hen in Doug. It was the first time in many Sarah's hickory-split rocker. Cyn-

## BEGINNING OF WORLD

MISSIONS Lesson Text: Acts 11:19-21; (Helps: Acts 11:19-26; 12-1-25). Devotional Text: Isa. 42:6-10.

### Approach

ciples, they had a natural viewpoint God has ordained us to that work. others did not have. They had come They Sailed to Cyprus in contact with the Gentiles and could more easily understand that

short of a miracle to convince Peter Holy Spirit. It is not to be won-dered at, then, when we see the Gre-and Barnabas were preaching. cian disciples being commissioned to Not Without Difficulty thus.

### Historical Setting

the coming of the Holy Spirit in (Hoh "wise") a law seems unto Paul in the Lord's work.

Cyrene, far away west of Egypt and the capitol of Libya. Antioch, a city of Suno ports of Syria, north of Phoenicia.

## THE HEART OF THE LESSON Introduction

When the refugees, who fled from Jerusalem upon the death of Stephen, came to Antioch, they preached to the "Grecians" only. These were not Gentiles, but Jews born in Greekspeaking countries. Such were Paul and Barnabas. These "Grecians" were "Hellenists."

Perhaps this is the reason Christ had to have Saul of Tarsus in His work of sending the Gospel to the Gentiles. The Jewish Apostles were so slow in taking to the work of preaching the Gospel to the Gentiles, that Christ must needs use the Grecian disciples for that work. So, Paul is designated, "the le to the Gentiles."

that the disciples were called Christians first in Antioch. Whether, or not, this name was given in derision, it does not matter. It was an appropriate name. Peter once said, "If any man suffer as a Christian, let him not be ashamed, but glorify God in this name."

The twelfth chapter of Acts tells us of Herod's design upon the life of Peter and of God's interventi of Herod's blasphemous words 1 of his shocking death. Be sur to read that chapter.

## Golden Text

And He said unto them, go ye into all the world and preach the gospel to every creature.-Mark 16:15.

You may wonder, "Why then was it so hard for the Apostles to understand that the Gentiles were to receive the Gospel?" The Jewish disciples could easily interpret that order thus: "The Jews are scattered into every nation. It is these scattered Jews Christ intends us to reach as we go into all the world. Put you and I, as disciples of Christ, have no excuse in this matter. We are to assist in the spread of the Gospel to every lost man and woman in the world; whether they speak this language or that, rich or poor, bound or free, cultured or uncultured.

## Acts 11:19-21

Those persecuted Jewish Christians, as refugees, preached to none but Jews. But some Jewish disciples who had the misfortune (?) of being born in a Greek-speaking country, preached to the Grecians. This is one step farther than the others seemed willing to go. Great companies of these Grecians believed. When the Church in Jerusalem heard of this, they sent Barnabas to investigate (11:22-26). Barnabas was well qualified for this work (see v.24). Through his work many more believed whom he admonished to be true to their newly-found Christ. Barnabas sought for Saul, and found him at his old home in Tarsus. They returned to Antioch and for a whole year conducted a most wonderful "revival."

Acts 13:1-3 "Prophets and teachers in the church at Antioch were used by the Holy Spirit in this new commission for the work "whereunto I have called them." So, if the Jewish Christians will not do it, God is calling and using Grecian disciples to carry forth "the work whereunto" He "had called them."

Among those named is Manaen the "foster-brother of Herod." In spite

called, trained and used of God in in the case of Sargius Paulus. the greatest of all works, as was this man Manaen.

Perhaps we might do better in this such. work, too, if we were to do some of Being Astonished that "fasting and praying."

## Sent Forth By the Holy Spirit

They were sent forth by the Holy through the prophets that were in Saul for missions

Our lesson carries us beyond Jeru- I think it may also be said that salem and Judaea. Persecution has we are sent into any work by the Gospel is preached, the Holy Spirit scattered the Jewish disciples and Holy Spirit when we are doing that now, going into other parts they car- which God has ordained we should and of righteousness, and of judgry their religion with them. Don't Send Your Child Back to School Handicapped With

# Poor Vision

Another school year is about to begin . . . Help to make it one of maximum accomplishment for your child . . . As soon as convenient, bring your school age child in for a complete examination of the eyes.

It may be the solution to poor report cards, to inattention, headaches, or one of the many things poor vision may add to the handicap your child may be under.

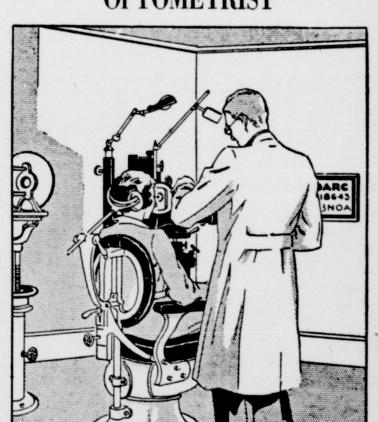

Should glasses be needed the expense is small . . . the great benefit cannot be measured.

66 2-3 Per Cent of All School Children Need Glasses! . . . 1935 School Survey.

# To See Correctly DR. V. R. JONES

**OPTOMETRIST** 

## The Eyes Carry the Big Load in the Classroom!

83 per cent of all that the school boy or girl learns depends on the eyes. Hidden defects may spell the difference between failure and good grades. Eye abuse or neglect ruins many report cards—puts many school children at the foot of the class when they should be leading their classmates. That is why, first of all, the eyes should be examined THOROUGHLY and SCI-ENTIFICALLY.

# Thank You Friends!

Truly, I can address as friends those voters of Precinct 1 who supported me in the recent run-off primary. Although I was not re-elected to the office of commissioner, I shall always cherish the memory of the fine women and men who remembered me so faithfully at the polls last Saturday.

Truthfuly I can say that I had rather lose in a glorious defeat than to win in an inglorious victory.

Again, I say thank you, my friends.
