Wheeler I.S.D. Receives Automatic External Defibrillator From TASB

Wheeler ISD is one of a second group of 116 school districts selected to receive automated external defibrillators (AEDs) from the Texas Association of School Boards (TASB) Risk Management Fund. These life-saving devices can dramatically increase the chance of survival for victims of sudden cardiac arrest. The Fund Board expanded its special loss prevention award to recognize member school districts that have maintained their participation in the Fund's workers' compensation or property casualty programs without a break in coverage for 20 or more years.

"Medical emergencies involving students, staff, and visitors could happen at any time on school campuses and at related activities. In the recent past, several student athletes have experienced suspected heart trouble and AEDs played a large role when there was

a positive outcome. We sincerely believe that providing these devices ensures that our members are better prepared for life-threatening situations as they integrate the AEDs into their first responder and first-aid programs," said Ed Thompson, TASB Loss Prevention Services director.

Last fall the University Interscholastic League mandated that all 1,300 Texas public high schools that are UIL members obtain at least one AED for their campuses and athletic events beginning in the 2007-08 school year. The UIL action followed several well publicized deaths and near-deaths by teenage athletes in Texas.

Automated external defibrillators offer a practical way to save more lives. These devices, used to restore normal heart rhythm in individuals experiencing cardiac arrest, automatically analyze the person's condition and advise the rescuer whether or not a shock is needed. Time is often crucial in these situations, because there is a very good chance emergency medical services (EMS) cannot respond fast enough to save someone in cardiac arrest. In fact, the national response time is 10-12 minutes, so even the best EMS responders could have difficulty arriving in time. "The Risk Management Fund Board received an extremely positive response to the award of AEDs to almost 300 of its members last December. Our members uniformly expressed the need for these life saving devices and deep appreciation to the Fund for providing them. This second round of loss prevention awards was made available as a way of again showing appreciation to our Fund members that have stood with us over the years. We see it as an excellent way of giving back to our members and providing them the tools to make a real difference locally," Thompson said.

The Fund is the largest risk sharing pool for school districts and the fifth largest public entity risk pool in the nation. Created in 1974, the Fund provides comprehensive risk management coverage and services in the areas of workers' compensation, property/casualty, unemployment compensation, and loss prevention.

Praise ye the Lord. Praise God in his sanctuary; praise him in the firmament of his power. Praise him for his mighty acts: praise him according to his excellent greatness. Praise him with the sound of the trumpet; praise him with the psaltery and harp. Praise him with the timbrel and dance: praise him with stringed instruments and organs. Praise him upon the loud cymbals; praise him upon the high sounding cymbals. Let every thing that hath breath praise the Lord: Praise ye the Lord. Psalm 150:1-6

O praise the Lord, all ye nations: praise him, all ye people. For his merciful kindness is great toward us: and the truth of the Lord endureth for ever. Praise ye the Lord. Psalm 117

The weather in Allison has been really nice and just beautiful. The trees are starting to bloom, you can see the buds at least. Sure hope it don't get our fruit this year. But with this beautiful sixty and seventy degree weather, what can you expect. Everything is starting to look green and pretty. Looks almost like Spring already and we are having temps like spring. But we usually have more cold weather so will have to see.

Wednesday, Aunt Billy gave her husband, Uncle Roma a birthday party on his eighty fifth birthday. Those helping him to celebrate were: Opal and Juanita Boydston, Vance and Carol Boydston, Ron Hall, Helen Forshee and Juanita Tincher. Uncle Roma received alot of phone calls on his birthday from his children, grandchildren and cousins and others. Uncle Roma and Aunt Billy also received several phone calls on their 63rd Anniversary that was on Friday, March 2nd.

Bennie Boydston and Louise Boydston enjoyed a homecooked meal in the home of Pearl Harrison on Monday.

Alice Kelley's niece Sharene Spilman and step mother, Debbie McDowell visited a couple of days last week in the home of Alice Kelley. Alberta Helton came and visited with them also and W.E. Helton of Checotah, Oklahoma was also visiting during that time. They attended a singing on Wednesday night to hear Gospel singer and songwriter Sharene Spilman.

Tuesday evening, Juanita Boydston and Juanita Tincher accompanied Vance and Carol Boydston to Reydon, Oklahoma where they enjoyed a very delicious meal at the Reydon Senior Citizen Building. They served chicken fried steak, gravy, hominy, baked potato, green beans and cherry cobbler for dessert. And of course you always have a choice of water, tea and coffee. Others there from Allison were: Virginia Puryear, Charlene Rainey and Rita Grayson. All had a great time and good fellowship.

Friday night the Allison United Pentecostal Church enjoyed a wonderful time at their Fellowship Meeting. There was people from Perryton, Amarillo, Tulia, Dumas, Clarendon and Borger. There was nine preachers counting our pastor. Our pastor led the service, but all the other preachers preached

THANK YOU

The family of Deanne Robertson would like to thank all the wonderful people of Wheeler and the surrounding communities for the love and care shown for Deanne during her battle with cancer, and for her family after she "went home to be with the Lord." Words cannot say enough for all the cards, flowers, e-mails, phone calls, hospital visits and especially the prayers given for her. They helped sustain her and meant so much to her during her illness and mean so much, now, to her family. A special thanks to all that came to Perryton for her funeral service and the burial service in Wheeler. Also a special thanks to the ladies that served a meal after her burial service. Not only for the family, but for the friends that came from Perryton and other areas.

We love all of you and may God bless you.

Alyssa, Billy, VonEva Robertson Keith, Shelly, Jeremy, Landry, Baylor, Mullins Steve, Pam, Katie Robertson

for awhile. It was a great service. After the service, everyone gathered in the fellowship hall where different kinds of sandwiches were served and chips and dips and then cookies and brownies for

dessert. Had different kinds of soda pop to drink as well. Had a great time of fellowship.

Louise Boydston returned home last Thursday evening just in time for church after a three weeks stay

in Sahuarita, Arizona with her daughter, LaQuinta and her husband, Mike Hulse. LaQuinta had major surgery on February 8th at the University Hospital in Tucson, Arizona.

Louise also got to see her grandchildren Michael Hulse of Tucson, Arizona and Michelle and Cory Phillips and son Conner of Queens Creek, Arizona. Louise spent Wednesday night with her daughter and family Kim Thompson in Amarillo, Texas after flying in from Arizona.

Last Friday night Virgil and Jean Stinnett came and spent two nights with Louise. Louise Boydston, Virgil and Jean Stinnett and Pearl Harrison went to Wheeler, Texas and enjoyed a delicious meal at Maxey's Steakhouse after Sunday School. After the meal the Stinnetts went on home to Dumas, Texas.

Saturday, Juanita Boydston and Juanita Tincher traveled to Shamrock, Texas on business and shopped some as well. Also enjoyed a delicious meal at Pizza Hut. Also shopped some in Wheeler, Texas.

May God Bless and Keep ya'll till next time.

To The Editor
The Wheeler Times
Wheeler, TX 79096

Dear Editor,

I would like to take this opportunity to express my appreciation to the Wheeler and Mobeetie Communities for what I consider to be the privilege of serving as Postmaster for the past 32 years. Public service through the post office has been my life's work, and in my capacity as postmaster, I have had the opportunity to not only serve through my job, but to share in the joys, accomplishments, celebrations and sorrow that have touched the lives of the citizens of Wheeler County. One of my deepest regrets will be not having the opportunity for a retirement reception to say goodbye in person, but please know how much I will miss you all. To those of you who have sent flowers, cards, or just stopped in passing to wish me well on this new chapter in my life—a sincere thank you. Wheeler County is and will always be my home, and the people here are the best in the world.

While I will no longer serve you as Postmaster, I will always remain your friend and neighbor.

The View of a Southern Woman

... Southern California that is.

Brother Johnson was kind enough to look in on our bantams and pick up the eggs while we were down south in Lufkin, Texas visiting our cousins Linda and Ray Hendrick. He said he stopped the violent attacks that Henry was doing to Glenn Forrest Frosty by showing Henry a Colonel Sanders chicken bucket, but the only difference we saw was Henry giving a Rebel yell when he attacked Glenn as he left the chicken pen with the eggs. For me he just gave a ear splitting crow when I got near him, but this is normal. And thank goodness that none of the hens were setting on eggs. I could just see them with dozens of baby chicks in the near future unless the eggs are removed. Thanks Brother Johnson.

On our first day with Linda and Ray, we all went fishing at Sabine Pass in the gulf of Mexico. Their son John Mark and his son Colton also went along for a fun day of ocean fishing. About 10 miles out, we started catching Black Drum and Red Drum along with a few blue crabs and a Sheephead fish that had horse like teeth. Not a pretty sight to say the least. Then I caught a huge fish that I fought for quite a while, but he was so big that he just snapped my line after all the fighting. We never got to see him and he gets bigger every time I tell how he felt on my line. I got a lot of people yelling encouragement - I think it was encouragement - but that fish will have to go into the big stories about the one that got away. We went by Keith and Ann Boydston's on the way back to Lufkin and

Keith took us and their daughters Jessica and Natalie all to dinner at a wonderful Mexican restaurant near them in Nederland. After dinner we all went back to Keith and Ann's for one of the best chocolate cakes I have ever had. It was a 10 out of a 1 to 10 score. The next day we went fishing at Lake Sam Rayburn which is so huge that we only used one end of it to fish and sightsee. I loved it except for the alligator area, but did not see one so it turned out fine. Maybe John Mark just made that up. I think he is way too much like our son Neal when it comes to playing games and having fun - also speeding. Now I know that boat we were in was airborne several times when John Mark was at the helm. It did touch the waves once in a while because I heard the slam of water against the bottom of the boat. But really he was a good driver and we had many safe boat trips with him. After a few days, Linda and I thought we needed a rest so we could go antique hunting in Lufkin and Nacogdoches. Lo and behold, we found several good buys that we just could not live without and dinner out without the men too. The men even joined us for antique hunt on the one day it was too windy for fishing and we had dinner at another great Mexican restaurant. Also got a real treat when we went to a huge pig and cattle judging show for the 4 H club. John Mark's daughter Heather had raised a huge white pig from a baby and was showing him along with many others. She came in better last year, but this time the judge said the pig's legs were too long. I did not think so as they all four reached the ground and held up a lot of weight. That judge was from Texas A & M and should have known that. I did enjoy watching the judging as this was all new to me. I guess they have these shows in California. I am always interested in something different. Really did not want to leave Linda and Ray's as they are such wonderful hosts with such a lovely home in the country. We had laughing contests while playing Spinners - a domino game. It was so much fun that we played late into the night and still we got up early the next morning. Now it is back to the real world with the dentist tomorrow morning and the eye doctor the next day. Yep, I would rather be fishing.

With love from this southern woman. **Betty Boydston.**

A big thank you goes out to Gayla Hathaway for not only donating 27 meals, but allowing them to dine together with their classes!!! MOBEETIE NEWS
 By: Sue Mayfield

So glad to hear that Amanda Salas is doing quite well with her recuperation and therapy. Still a little early for her to be walking on her own, but she is really pushing herself. Can manage about 6 steps at the therapy bars on her own though. She gets around quite well with her crutches and sometimes the walker. She has cabin fever and claustrophobia, so enjoyed watching the Little Dribblers games and helping when she can. Jayton, Garrett and Jarrett enjoyed having Mom at their basketball games. Next week the Fort Elliott students are looking forward to spring break. Will make it a little easier to adjust to the new time again. Nobody is too thrilled to have day light savings time starting so early. This Sunday, March 11th will be the first day for the change. Now we spring forward and lose an hour. Always a bit of an adjustment for everybody. I really doubt that we actually save that much energy to really justify the hassle. At least the people that are lucky enough to have "bankers hours" will have a little extra time in the evening for golf and other outdoor activities. The poor kids are back to catching the morning buses in the dark again. Don't imagine the bus drivers appreciate it much either. The farmers and ranchers work from daylight to dark anyway, so it doesn't save them any energy.

Monday March 5th was beautiful after Friday and Saturday being so cold and yucky. Sounds like we are all going to have a good case of spring fever before the week is up. Bob is trying to fix some wind damage on the roof while the weather is halfway cooperative.

A friend sent this to me and I thought I would share it with you. Happiness keeps you sweet. Trials keep you strong. Sorrows keep you human. Failures keep you humble. Success keeps you glowing. But God keeps you going.

Sure hope that Shelton May had a better week last week while he was in the hospital in Amarillo taking the double whammy chemo treatments. At least they can give him some extra help with the anti nausea medications. They got home a little earlier than usual for a change on Friday, so he can enjoy his own room and bed. They usually drag out getting everything done and release papers done until it is so late in the day that they don't get in until after dark. Even in the dark home looks good after 4 days in the hospital. He had to go back again today for another round of blood work and another treatment. Kellie is documenting all of Shelton's surgeries and the doctors and nurses involved in helping Shelton get better with scrapbooks for both of Shelton's adventures through the medical attack he is waging on the cancer. His scrapbook of their trip to Alaska last June brings back memories of an awesome trip in honor of the completion of his first attack on the "big C". That will be a trip that is hard to top.

The highschool boys and girls had a wonderful year on the court again this year. Congratulations for making it half way to state. You worked hard all season and really made them hustle. We are proud of all of you. You are why all of the Little Dribblers at Fort Elliot want to be COUGARS. Now it's time to focus on track and field, golf, and tennis. Good Luck. Never a dull moment at school.

Jackie and Fred Thrasher are getting rested up from their trip to Fort Stockton. They really enjoyed their time with their kids. Now they are looking forward to going to the Amarillo Little Theaters production of "A Fiddler on the Roof" the 14th, 15th, and 16th of May. Their granddaughter, Jordan Goodnature, is just 12 and she was one of the girls chosen to sing with the chorus. She is very excited. Congratulations Jordan. She isn't interested in playing a part, she just wants to sing. Of course, PePa and Naw Naw are planning on being there on opening night. Then they will have to get rested up for grandson, Cody's, graduation and the birth of their first great-grandson that is due June 12th. After graduation Cody will be going into the Army. He spent most of last summer doing his basic training and is looking forward to Army life. We are proud of you Cody.

Certainly hope that this finds our neighbor, Curtis Hendrix, enjoying your new "digs" and getting stronger everyday at the Wheeler Care Center. He was already acquainted with part of the staff and residence as his wife was there a few years ago. Hope you have made some good friends and can take advantage of some of the projects and entertainment that help round out their days. There is always something going on out there to make your days brighter.

Congratulations to Bill Dyson and Ella Cross for being voted the Valentine's King and Queen of the Wheeler Nursing and Rehab Center. They touch the lives of so many everyday and brighten their lives. We miss seeing you, Curtis, out and about on your chair on these nice days. Now you'll have a nice patio to enjoy and friends to visit with any time you are ready. Congratulation and all best wishes to Tamara Hefley and Chris

Gallagher on their up coming marriage. Tamara graduated from Fort Elliott in May of 2005. She is working on a nursing degree at W.T. in Canyon. Chris graduated from Wheeler in 2003. He is a surgical technologist and employed at Northwest Texas Hospital in Amarillo. They are planning an August 17, 2007 wedding at the United Methodist Church here in Mobeetie. Tamara's parents are Wanda Hefley of Mobeetie and Mark and Wanda Hefley of Elk City, Ok. Her grandparents are Jack and Bernice Hefley and Inez Moore all of Mobeetie, and the late Don Moore. Chris' parents are Mike and Rhonda Gallagher of Wheeler. His grandparents are Sue Gallagher and Fred Gallagher of Wheeler, and Louise Hall of Stephenville, Tx. Also the late Wayne Hogue.

It was good to visit with Orville Greenhouse. She is always so perky even when her arthritis is harassing her.

Virginia Greenhouse had cataract surgery in Dumas 2 weeks ago. She was sure glad to have a doctor from Amarillo that comes to Dumas twice a month to check eyes and do the surgeries. Such a nice convenience. Virginia has managed very well with her eye. She is also feeling quite well and stronger everyday from the heart surgery in November to replace both valve in her heart. She will

have the other eye done at a later date. Hope all continues to go well for you Virginia.

Orville is anticipating a visit from her niece and nephew, Annette and Jerry.

Our deepest sympathy to Joyce Edwards and the family and friends of Wayne Edwards of Wheeler. We are sure going to miss him. He and his wife, Joyce, have run the Wheeler Lumber for years. They have always been so helpful.

It was so nice to visit with Doris Finsterwald. She is always busy and still finds time for her friends and lots of projects. She does lots of hand work in her spare time. She and close friend and neighbor, Shirley Dyson, always have some projects going year round. They both enjoy embroidering when they take a minute to sit down. Shirley is doing quite well, recuperating from the surgery on her knee. Therapy is still quite a chore, but she is making progress. Things like this teach us all patience.

Sidney Mahan is moving to Moriarty, New Mexico with his son and family. They have purchased a nice little 3 bedroom trailer house with some acreage for Sidney and his radio equipment and Gata the cat. He is anxious to get things set up and going again. He will have the home healthcare people to

Wheeler Church of Christ

This article is by David A. Sargent, entitled "Are You Listening?"

Back when the telegraph was the fastest method of long distance communication, a young man applied for a job as a Morse Code operator. Answering an ad in the newspaper, he went to the office that was listed. When he arrived, he entered a large busy office filled with noise and clatter, including the sound of the telegraph in the background. A sign on the receptionist's counter instructed job applicants to fill out a form and wait until they were summoned to enter the inner office. The young man filled out his form and sat down with seven other applicants.

After a few minutes, the young man stood up, crossed the room to the door of the inner office, and walked right in. Naturally the other applicants perked up, wondering what was going on. They muttered among themselves that they hadn't heard any summons yet. They assumed that the young man who went into the office made a mistake and would be disqualified.

Within a few minutes, how-

ever, the employer escorted the young man out of the office and said to the other applicants, "Gentlemen, thank you for coming, but the job has just been filled." The other applicants began grumbling to each other, and one spoke up saying, "Wait a minute, I don't understand. He was the LAST to come in, and we never got a chance to be interviewed. Yet HE got the job. That's not fair!"

The employer said, "I'm sorry, but the last several minutes while you've been sitting here, the telegraph has been ticking out the following message in Morse Code: "If you understand this message, then come right in! The job is yours." None of you heard it or understood it. This young man did — AND — he responded to the message! The job is his."

There is a lot of noise and clatter in the world today. Confusion booms with the multitude of sounds, all of them beckoning for our attention. Yet in all of this clamor, God is calling us through his word. He is inviting us to him. Are you listening? Will you answer his call?

Shawn D. Johnson

sion was presented. After some discussion of the use of the generator Thomas Helton made a motion to donate \$1,000 to the LEPC. Dale Garner seconded the motion and the motion carried unanimously.

Ms. Fagan Cook presented a bid for repair of the floor in the shower in Assisted Living. James Batton made a motion to accept the bid and have the floor repaired. Thomas Helton seconded the motion and the motion carried unanimously.

Bid was received for the new emergency exit door for the laundry room. James Batton made a motion to accept the bid. Dale Garner seconded the motion and the motion carried unanimously.

Ms. Fagan Cook presented a bid from Phillips Medical for the purchase of additional x-ray cassettes for Radiology Room 2. This is necessary for use of this room when we have multiple patients in the Emergency Department. James Batton made a motion to accept the bid and purchase the cassettes. Dale Garner seconded the motion and the motion carried unanimously.

Ms. Fagan Cook presented information on an addition to the pharmacy system that would consist of a refrigerator and a narcotic cabinet. After considerable discussion Thomas Helton made a motion to accept the bid for the addition of the refrigerator at this time. Dale Garner seconded the motion and the motion carried unanimously. The additional narcotic cabinet will be considered at a later date.

Ms. Fagan Cook reported that the National Rural Health Association meeting would be in May 2007 in Anchorage, Alaska. As a member of the Rural Health Policy Board attendance at the meeting is required for Fagan Cook. She stated that she wanted to inform the Board before the purchase of airline tickets for the trip.

James Batton made a motion to allow Ms. Fagan Cook to attend the meeting. Thomas Helton seconded the motion and the motion carried unanimously. Chairman Tipps requested that Ms. Fagan Cook make a monthly report of travel expenses to the Board. This will be a line item under Administrative Expenses.

There will be twenty-two employees affected by the new law with an addition of approximately \$50,000 per year in direct hourly costs. There was some discussion regarding how this might affect other employees. Consensus at this time was that we could not afford to give any increases other than those mandated by the law.

Since we are no longer using film for the x-ray department Ms. Fagan Cook requested that the old x-ray film processor be declared surplus property and made available for sale. She reported that Dr. Ben Ed Hillhouse had made a request to purchase the processor if it became available. mously.

from Alan L. Bean Blvd. I was afraid they were going to just pave over it as they had done in the past. It will be nice to drive on the Blvd. without the 'Bump, Bump, etc.'

Do be careful though. We have been driving over the four lane street for so many years, it is easy to forget that it is only two lanes.

—cwe—

East Oklahoma Street is the same way.

—cwe—

I still do not know why we had to put in new curb and gutter on the boulevard or move it in 1'.

A 'Thank You' and a 'Tip of the Hat' to the groups and individuals who take the time to visit, entertain and worship with the residents of Wheeler Nursing and Rehab.

—cwe—

The weather has been so nice the past two days, it has been hard to stay inside. We had better enjoy it, as winter is not over yet.

And, you might should get that burning done. It is getting dry and the commissioners will most likely re-enstate the burn ban at their meeting Monday.

We did not get to play cards Monday evening.

Ms. Fagan Cook reminded the Board that our local physicians will have the opportunity to contract with Southwest to provide coverage if they so desire.

help him 2 or 3 times a week and his own radio equipment to keep in touch with his friends. That is his life line to the outside world. He doesn't have much faith in the truthfulness of the news reports on TV. Hope you enjoy your new life Sid.

Everyone stays so busy these days. Sure glad the weather is going to be a little more cooperative for a while. We have had lots of company between our trips to Amarillo. We have enjoyed Ralph Mayfield from Cheyenne, Ok. For a few days. Kenneth and Doreen Mayfield from Arnett, Ok., their daughter Debbie Taylor of Gage, Ok., Todd and Lori Mayfield of Richland Hills, Tx, and Erica and Jayden Mayfield from Pampa.

Dollie Dog thought it was enough to have to put up with the kids, but having to put up with the grandpuppies was a whole other story. Peanut and Dash just couldn't figure out what Dollies problem was. We took Erica and Jayden to Sayre on Friday afternoon to meet Nanna, Cindy Medley, so they could spend the week end at the lake. Tim and Jennifer went to Red River, New Mexico for a weekend of sight seeing and their first adventure with snow skiing.

They had a great time and are already making plans to take Erica and Jayden skiing next year during their spring break from school. I think we are finally done with Dr. Appointments and tests in Amarillo for at least three weeks.

Then it will be Robert's turn. He has quit smoking. I am so proud of him. After 50 years I know it wasn't easy, but he did it with the help of the new nicotine inhibitor pills. He still wants one sometimes, but he hasn't bought any. Thank you Lord.

The guys are getting antsy to get the boat ready for the lake. Surely one of these area lakes have a few fish with their name on them. These nice days are sure tempting. Cheyenne, Oklahoma is gearing up for the Old Settler's Reunion and the State Centennial Celebration. They have something going all week from April 17th to April 21st. Saturday the 21st is a day packed with activities. They also have the all school reunion for the Cheyenne/Strong City Alumni that week too. Should be a very interesting week. We are looking forward to the dedication of the Mobeetie Methodist Church as an historical building in the Texas Historical Society on March 25. It will be quite a memorable afternoon. Plan to join us. Have a great week.

Please keep our friends and neighbors in your prayers.: Don and Mary Edwards, Bill and Patsy Caswell, Jim and Kay Batton, Shelton May and family, Amanda Salas and family, Tim and Sallie Adcock, Joe Shelton, Leola Stuart, Bill and Shirley Dyson, Iona May, Alvern Hutchison, Curtis Hendrix, Marsha Richardson, all of our friends that are suffering through the allergy season, Leonard Hollis, Juana Benefield, Joyce Edwards and the family and friends of Wayne Edwards in his death, / Sidney Mahan, Clinton and Maurita Stribling, Louise Hogan, Delmar Murray, Orville Greenhouse, Lorene Rector, Virginia Greenhouse, Gary Morris.
