Here's a note to all those hunters from Eastland County who are in Colorado hunting deer: Mrs E. R. Townsend got a kill Sunday afternoon near Lone Cedar Country Club. Now don't get excited. Mrs.

Townsend knows this isn't the season in Eastland County, but the deer didn't. It jumped from a pasture and ran into her car as she was driving to the club at about 6:30. The deer, killed Instantly, was thrown into the ditch. Mrs. Townsend's car came out a little better. The headlights and wiring were destroy-

After missing our first prediction of the year in District 7-AA matches on the Cisco-Ballinger game Friday, far be it from us to say that anyone can beat the mighty Cisco Loboes. It is amazing to us, however, that Cisco fans, after seeing their team win one district game, have decided that the Loboes have the district

and Truman Brown.

Since it is most doubtful that Eastland will win the championship, we would very much like to see an Eastland County team cash in. Cisco will very likely do that.

Jimmy Walker, Cisco sportsdefense in the Ballinger game, put it this way: "Another safe bet is that Eastland, Ranger, Winters, Coleman and Stamford observed the success of the Ballinger passing attack and will try to capitalize on the chink in To get to Stamford, the Loboes

will first have to beat other teams mentioned by Jimmy and win a bi-district game. Too much concentration on Stamford could easily get the Loboes a seat in the stands in that game. We can't help but recall the 1957 race when Coleman won nine games out of 10, but lost to lowly Ranger. That one loss cost them the crown.

Someone asked us the other how we got by with saying making someone mad. The answer: We don't. They do. So what?

We-ve just finished reading "The Day of San Jacinto," written by Frank K. Tolbert, colunist for The Dallas Morning News. The book was published by McGraw-Hill, and is excellent reading. It's something every Texan should read.

And while doing some free plugging, here's a vote for the new TV series which NBC began Sunday night. "American Heritage" is not only interesting, it's something we Americans are badly in need of.

We'd write more, but we've got a cold and have to sign off. This cold we have is both positive and negative. Sometimes the eyes have it, and sometimes the nose.

Announcing

THE INSTALLATION OF A CLEANER FOR FARMERS' STOCK PEANUTS

We are now able to custom clean your peanuts for you before they are graded. Peanuts which are not eligible for loan because of excess foreign material can now be made eligible by cleaning.

Here's the way it works. The peanuts are emptied into an elevator which takes them up to the cleaner. The cleaner will remove most of the sand, rocks, sticks, leaves, etc. They are sampled as they leave the cleaner. Another elevator takes them to an overhead bin which will hold them until the entire load has been cleaned.

The clean peanuts are then loaded into a truck and weighed prior to selling. Your grade and weight are determined on clean peanuts.

The cost of cleaning will be much less than the penalty for excess foreign material. It will pay you to see us before selling your peanuts.
