Introduced to Move Appeals Court to Abilene

The Telegram Speaks

Abilene's Greed Unchecked Long Enough! County Must Fight Back

(An Editorial)

Instead of "Key City" maybe Abilene should adopt "Leach City" as a slogan. It has reached the point that Abilene is trying to steal everything in this part of West Texas.

Taylor County commissioners Friday adopted a formal resolution to "provide free quarters in keeping with the dignity and needs" of the court.

We urge every citizen in Eastland County to sit down today and write Rep. Scott Bailey and Sen. Tom Creighton and urge them to do all within their powers to fight Abilene's greed.

And if The Abilene Reporter-News thought Eastland was mad enough about the Highway 6 situation to merit half the front page of one of their issues, they certainly will want to send a reporter to find out how we feel about their city's efforts to step on a smaller neighbor.

The Reporter-News is Abilene's tranquilizer for the surrounding area. The Reporter-News works hard and long to build up its circulation here.

Abilene has pushed hard enough. It is time for us to start pushing back.

Roberts, one of 71 candidates for the U. S. Senate, filed House Bill 680.

Convictions Are Handed Down In District Court

Eastland County jurors stayed busy from early morning until late evening Monday in 91st District Court and at the day's end had handed down four convictions, all involving liquor violations of some sort.

Carey P. Harrison of Eastland was found guilty of driving while intoxicated and fined \$150 and given a 15 day jail sentence.

James W. Battles of Ranger was found guilty of two counts. He entered pleas of guilty to charges of possession of beer and possession of whiskey at the old Ranger Country Club.

The third case was against Jack Edmiston. He was charged with sale of vodka and pleaded guilty. He was fined \$100.

Lone Cedar Golf Course Plans Work Meeting

Directors of the Lone Cedar Golf Course have announced that they plan another work day for Friday, March 10.

There were sixteen workers with two pickups out at the last working and they got two fairways fertilized and ready for putting out fertilizer.

Every member of the Club was urged to be out Friday at 4 p.m. and bring a pickup if possible.

In the event that there is Rain Friday, another date will be set for the working.

Eastland and Carbon Teams To Play Here

Eastland and Carbon teams will play here Friday at 7:30 p.m. in the Eastland gym.

The Eastland Independent women's team will play the Carbon women at 7:30 p.m. and the Jaycees will play the Carbon men following the women's game.

Bill 680, Rep. Truett Latimer of Abilene and the Taylor County Commissioners Court immediately threw their backing behind the bill.

The Appeals Court already has free office space in Eastland. In fact, an additional floor was built onto the Eastland County courthouse to house the court.

The Abilene Bar Association has gone on record favoring the move. Tom Eplen, president of the group, announced the Bar's stand.

The Taylor Bar resolution states it favors the move "... so that the Court of Civil Appeals might be more centrally located and better able to serve the needs of the people of the 11th Supreme Judicial District."

The bill has been referred to the House Judiciary Committee, but no hearing date has as yet been scheduled.

Emergency Only Phone Is Asked

Fire Chief Guy Robinson today urged Eastland citizens not to call the fire department except in cases of fires or other emergencies.

Chief Robinson said the department has been receiving calls late-ly and when firemen answer the phone the person at the other end hangs up.

"This is an emergency phone and such calls could cost great property loss or even loss of lives," Robinson said. He also said that some people have made calls asking about the weather and other non-emergency subjects.

"We are asking that such calls stop," Robinson said, "and are going to take measures to see that the prank calls do halt."

Eastland Fracas Results In Assault to Murder Charges

Two Breckenridge men face four charges following a fracas which took place Friday night in Eastland. Hoy Parker and C. H. Parker were charged with "assault with intent to murder," "attempt to kidnap at gunpoint," "carrying pistols," and "disturbing the peace."

The complaining witness is H. C. Ables, who alleges that the pair pistol whipped him Friday night in front of the Truck Stop Cafe in Eastland.

The two Breckenridge men were charged with "assault with intent to murder" Friday and made bond Saturday afternoon. Ables lodged the three additional charges against the men Monday after-

noon. The two are each under \$5,000 bond on the assault charge. Witnesses told officers that the younger Parker got into Ables' car in front of the Truck Stop Cafe, Ables said the man forced him to move over, using a gun.

Then Ables said, he jumped the man and knocked the gun free. He charged the elder Parker then climbed in his car from the other side and pistol whipped him.

Ables was given emergency treatment at Eastland Memorial Hospital and then released. He said the Breckenridge men fled after police were called to the scene.

There has been trouble between the two families before. Several months ago Ables' son, Gailon Lee, was shot and seriously injured in Breckenridge. There is a civil suit pending in that case.

Crop Means \$3,500,000 to County

National Peanut Week Celebrated

Eastland County has a good reason to join in celebrating National Peanut Week March 5-11, a three and one-half million dollar reason to be exact.

That's what the peanut industry meant to this county in 1960 and prospects are that 1961 may be an even better year. Ross Wilson, manager of the Southwestern Peanut Growers' Association in Gorman, said that county growers had a crop of some 750,000 bushels during the past growing season.

This year promises to be another good year. There is good seasoning and prospects are for higher peanut prices in 1961. Peanut Week is sponsored by

the National Peanut Council. The Council states that the campaign to promote public interest in peanuts gets bigger and better each year.

Council President Bill Seals says the response of newspapers, radio and television this year has been record breaking.

Special displays featuring peanut products are being used from coast to coast this year in food markets.

The Council lists the following facts as some of the reasons why peanuts continue to enjoy more and more national prominence

and popularity: Peanuts are high in food value and are high respected by nutritionists.

A peanut concentrate has been chosen to sustain America's astronauts on their projected trips to the moon.

President Kennedy in his first executive order directed that peanut butter be added to foods for families of unemployed workers in distress areas. The Government immediately ordered 8,000,000 pounds of peanut butter.

Seals pointed out that only perfect peanuts are used for edible purposes. The balance is crushed into oil.

Refined oil is sold for shortening, deep-frying and salad dressing. The rest is marketed as crude oil for soaps and detergents," he explained.

"Peanut oil is ideal for frying. Because of its high smoke point, 450 degrees, it does not scorch easily. It does not absorb flavors and can be used repeatedly."

"Peanut oil is also a base for many cosmetics, such as face cream, shaving cream and hair lotion. It is also used for messaging polio patients because it clings and feeds the tissues by absorption."

Beattie Feathers Career at R. C. Very Short

Beattie Feathers, who had recently signed a two-year contract with Ranger College as Athletic Director and head football coach,

asked for and secured a release from the contract Saturday to take a coaching position at Wake Forest College in North Carolina. A representative at Ranger College said that the college was sorry that Feathers had decided not to take the job at Ranger, but that they didn't want to hold anyone to a contract if they were not satisfied with the position. The college representative said that they didn't have a statement as to who would be in line for the job. Jim Puryear, whose resignation created the opening, hasn't indicated where he will go when he leaves the college.

Cancer Education is Primary Aim of County Cancer Society

The American Cancer Society's primary object is to save lives from cancer. The Society's object is fourfold and includes public education, professional education, professional education, service and research. Cancer is a special problem because it grows and spreads in the body, in the early stages, silently. Symptoms of beginning cancer, when it is more curable, are usually very slight and painless. Increasingly, in its effort to cut delay, the Society emphasizes the vital importance of discovery of silent, symptomless cancer. No reliance is on a yearly medical examination for all adults, and such an examination would result in a great saving of life.

The American Cancer Society's the Society has available cancer pads in various sizes which have been prepared for use by cancer patients throughout the county. Mrs. Ernest Schaefer of Cisco will be glad to fill requests directed to her for the pads, for which there is no charge.

President of the Eastland County Unit is Mrs. Roscoe Hopper of Ranger. Mrs. Hopper reminds the people of Eastland County that all of the work of the Unit is carried on by volunteer workers. If anyone is interested in joining the unit's work as a volunteer, contact Mrs. Hopper.

ABOUT YOUR HEALTH

AUSTIN - Credit Bull Moser Teddy Roosevelt for starting what still stands as one of the most vital single phases of personal health protection. As President in 1908 he ordered periodic health examinations for all army officers.

A "periodic check-up" is simply a careful medical study of a presumably healthy person, performed regularly by the family physician to detect or body malfunction in an early stage. Early treatment reduces suffering and prevents some diseases from becoming chronic, and perhaps incurable.

Besides detecting disease before it becomes too deep-rooted, the check-up serves as a basis for better health practices for the patient and his family. The physician can discuss such problems as diet, exercise, rest, work and play habits, and other activities which affect health.

How often and what type examination should be given varies with the patient's age, sex, occupation, heredity, past health, place of residence, and economic status. Says the American Academy of Pediatrics:

"The normally healthy infant should be checked about every three weeks during the first year, every three months during the second year, and once a year from the sixth to twelfth year."

Most medical authorities believe that from about 12 to age 40 or 45, annual health check-ups are adequate. After 45 some doctors advise examinations every nine months. These time schedules, keep in mind are suggested for normal people without previous serious or chronic illness.

No single examination can be applied to all persons, but all check-ups include a medical history, the actual physical examination, and may include certain laboratory and x-ray procedures as determined to be necessary.

The medical history gives the physician clues as to what he should be especially alert for when he begins the examination. It will include such things as social and occupational habits, past illnesses, present symptoms. Armed with this advance knowledge the physician can frequently detect the possibility of disease long before abnormal physical signs become apparent to the patient. Sondra Ann Lipkin was flower girl.

The bride's mother was escorted to the altar by her son-in-law, Calvin Lipkin of Dallas, and the groom was escorted by his parents.

A reception and buffet dinner followed the ceremony at the Temple. Buddy Brooks and his orchestra presented the music for the ceremony and the dance following the wedding.

The couple left on a honeymoon to Acapulco, Mexico. They will live at 5803 Grassmere, Dallas.

INSTRUMENT STORAGE—One of the features of the new band hall is space. At last the band has space enough to practice and space enough to properly store instruments.
