World Day of Prayer Service Is Planned Here

World Day of Prayer, sponsored in the U. S. by United Church Women of the National Council of Churches, carries with it a potential force worthy of the nuclear age in which we live.

From a day set aside back in 1887 at the suggestion of one woman of one denomination to pray for the success of its home missions and to bring gifts for their support, World Day of Prayer has grown into a giant interdenominational, international prayer cycle.

Now the people of 145 countries take part and their gifts help provide schools, colleges, hospitals, doctors, nurses, teachers, vacation church schools, day-care centers, mobile clinics, scholarship and spiritual nurture in America and in many lands overseas.

In Eastland, services will be held at the Church of God at 7:30 p.m. Friday, Feb. 17. This is the Diamond Jubilee Service marking 75 years of unbroken observance.

Christian Science Lecture Slated Tuesday Night

The availability of true freedom and harmony will be emphasized in a public lecture to be given here Feb. 14 at 8 p.m. by Elbert R. Slaughter of Dallas.

Slaughter will speak in the church auditorium, corner of Plummer and Lamar under the auspices of First Church of Christ, Scientist on the subject "Christian Science, The Open Door to the Kingdom of Heaven." The lecture is free, and local members have invited the public to attend.

A member of The Christian Science Board of Lectureship, Slaughter is a native of Edgewood. He became interested in Christian Science in 1936 when he accepted a friend's invitation to attend a Christian Science lecture. In 1945 he withdrew from a business career to devote his full time to the public practice of Christian Science healing.

CLYDE STRICKLAND — New Vice President of Worth

Clyde Stricklin Named Worth Vice-President

Clyde L. Stricklin of Fort Worth, division manager of the Worth Food Mart division of Food Mart, Inc., has been elected a vice-president of Food Mart, Inc., according to an announcement made this week to the Worth Food Mart staff by Robert H. Hoy, executive vice-president of Food Mart, Inc.

The action was taken during the quarterly meeting of the company's board of directors held Feb. 1, in El Paso, at which time the directors also declared a quarterly dividend.

Stricklin was appointed division manager in October, 1956 at which time the Worth Food Mart Division consisted of 28 supermarkets. During his administration this number has increased to 43, including entry into Dallas with nine stores, Weatherford, and Hillsboro. In addition, seven new supermarkets have been opened in Fort Worth, three of which were to replace older stores as a part of the company's broad-scale modernization program.

The total number of supermarkets operated by Food Mart, Inc. is 74. The company also has eight drive-in grocery stores. Thirty-one of the supermarkets are in the El Paso division which also has stores in Midland, Odessa, Pecos, Kermit and throughout Southern New Mexico.

Stricklin was advertising manager for Worth Food Markets and served as sales and advertising manager for the Worth division of Food Mart prior to his appointment to division manager four years ago.

Other officers of Food Mart, Inc. are J. Spencer Weed of New York, chairman of the board; Gordon W. Foster, president; Hoy, executive vice-president; James P. Tant, vice-president and secretary; Frank P. Feuille, vice-president; Herschel N. McPadden, assistant treasurer and assistant secretary; and Carrie Sloane, assistant secretary and assistant treasurer.

Directors are Weed, Foster, Hoy, Frank M. Harris (member of the advisory board of El Paso National Bank), David S. Henkel (partner, Sullivan & Cromwell, New York), H. Stanley Krusen (partner, Shearson, Hammill and Company, New York), and John D. J. Moore (vice-president, W. R. Grace and Company).

Foster, Krusen, and Henkel made an inspection tour of company facilities following the quarterly directors' meeting, including Fort Worth and Dallas area stores, grocery, produce, frozen foods, and general merchandise warehouse facilities.

Olden Organizes Community 4-H Club at Thurs. Meeting

Fifty people, 22 parents and 28 boys and girls attended the organizational meeting of the Olden 4-H Community Club held Thursday night in the Olden gym.

Wayne Brock, science teacher

of Olden, opened the meeting and introduced the assistant county agents who explained how a community club should be organized and how they function. The main reasons for changing the 4-H Club from a school club to a community club is to give the members more time for the four main phases of a 4-H club meeting which are inspiration, business, program and recreation and to allow leaders to work closer with the members.

Seventh Producer In
Joyce Oil Interests, Rising Star oil development firm, bought in its seventh Marble Falls producer in the Joyce pool southeast of Rising Star Friday with a spectacular display rarely seen since the early days of the Hilburn field northwest of here. The well, the Joyce No. 1 Oscar White, represents a half mile extension of the Joyce pool due north. It kept the Joyce record of not having drilled a dry hole in the new field intact to the present and extended the producing area to a distance of two miles.

Mrs. LaMance Buried Sunday In Gorman

Funeral services were held Sunday in the First Baptist Church for Mrs. Ben LaMance who passed away February 1 in California.

Mrs. LaMance was born March 22, 1874 in Arkansas as Rosa Raburn Perry, and moved to Texas at an early age. She devoted her life to her family and raised twenty children, thirteen of whom survive her and were all present for the service except two.

Mrs. LaMance was a long-time resident of Ranger and after her husband died in 1954 she continued to live in Ranger but spent a considerable part of her time visiting with her children.

Survivors include nine daughters, Mrs. Alfred McKinley of Pauls Valley, Okla., Mrs. Albert Grice of Gorman, Mrs. John Armstrong of Los Angeles, Mrs. J. C. Grice of Ranger, Mrs. Lois Gauger of Los Angeles, Mrs. Bill Orr of Los Angeles, Mrs. Thornton Bingham of Los Angeles, Mrs. Bill Basham of Ranger, and Mrs. Otis Welch of Gorman; four sons, J. A. LaMance of Los Angeles, D. E. LaMance of Odessa, B. R. LaMance of San Angelo and W. W. LaMance of Los Angeles; and forty-five grandchildren, ninety-one great-grandchildren and twenty-seven great great grandchildren.

Factors Other Than Agriculture Effect Prices

During the ten years since 1950, the average price of agricultural land has increased 67 percent in the United States and 17 percent in Texas. Total agricultural net income of the nation's farm operators during the same period, however, has shown a decline of 18 percent.

A. E. Wooten, associate professor, Department of Agricultural Economics and Sociology, says the persistence of these opposing trends has created a most unfavorable relationship between net farm income and market values of farm land.

In spite of the farm income picture for agricultural land in Texas, the upward pressure on land prices will continue in 1961, Wooten believes. This pressure will not be so great as in previous years, however, and it will come from areas outside agriculture.

United Fund Is Up to \$6,750 In Eastland

The Eastland United Fund goal is just short now by \$400, Dick Spalding, drive chairman, announced today.

The fund shot upward from \$6,250 to \$6,750 this week, leaving just \$400 to be raised to make the \$7,150 goal.

"We are pleased with the response to our pleas," Spalding said. "We know the citizens of Eastland believe in the united way strong enough to come through with this last \$400."

If you have not yet contributed to the United Fund drive you can do so by sending your check to the United Fund, in care of Eastland National Bank.

Seven agencies share in the United Fund here. They are the Boy Scouts, Girl Scouts, Salvation Army, YMCA, Red Cross, Gonzales Warm Springs and USO.

Mrs. Horace Horton Presents Art Program at Civic League Meeting

"All art reflects its period in history," Mrs. Horace Horton told members of the Civic League and Garden Club Wednesday morning in her talk on "Modern Art." She suggested that such things as the hustle and bustle of today's urban living, the noise and confusion, and the developments of science, cannot be expressed in the tranquil romantic scenes of a past era.

Mrs. Horton's own history has given her a knowledge of this controversial subject which made her remarks authoritative and stimulating.

After receiving her bachelor of arts degree from the University of California in Los Angeles, she received her masters degree from the University of Southern California.

She then did graduate work in ceramics at the University of California in Santa Barbara and later studied sculpture at the University of Southern California.

She has been creating models for the designs produced by Horton Ceramics since she and her husband started the business in 1945.

She was introduced by Mrs. James C. Whittington, program leader.

In introducing her subject, Mrs. Horton gave a brief history of the various purposes of art through the ages; those of use, associational value and design.

Since expression through design, rather than mere storytelling, has become the aid of the modern artist, she said that some might learn to appreciate modern design for its application in clothing materials, decorating fabrics and rugs.

Acknowledging the many jokes which have been made about modern art, she included several to the amusement of the audience.

Posters by modern artist decorated the walls of the Women's Club and were referred to by Mrs. Horton as illustrations for various aspects of her talk.

During the club's business session, February 22 was announced as the date of the monthly luncheon which will feature French foods. Mrs. Whittington will be luncheon chairman with Mrs. Varge Daniel as reservation chairman.

Mrs. Earl Conner Jr., vice-president, presided in the absence of the president, Mrs. Tom Stamey. Mrs. Conner also poured coffee for members upon their arrival.

Hostesses were Meses V. T. Seaberry Jr., Jack Frost, Billy Frost, Don Pierson and Jack Germany.

Bronze chrysanthemums decorated a small refreshment table near the entrance of the club room. It was laid with a brown linen cloth and copper appointments were used.

calling out of town

Here's the fastest and easiest way

FIRST, give the operator the name of the city you are calling and the Area Code for that city.
NEXT, tell her the telephone number you're calling.
LAST, when the operator asks, give her the number you're calling from.

It's easy and fast. For example, just say, "Dallas, Area Code 214, RI 2-1432," and then when the operator asks your number, say, "KL 5-2368." You'll not only save time yourself, but help speed along your call as well.

Uncle Sam, your bank, and you

How this 20-year-old partnership helps keep America strong

Since May 1941, America's banks have sold nearly 2 billion separate U.S. Savings Bonds at no cost to the Government or the purchasers. To give you some idea of the time involved: if you merely handed out that many Bonds at the rate of 1 a second for 10 hours a day, it would take you 152 years to reach the bottom of the pile.

Why have the nation's banks and bankers carried on this vast project of information, service, and issuance of U.S. Savings Bonds?

A winning team. For one reason, the Bond Program and the Banking business have grown together. Hand in hand, they've helped make Americans the saving-est people in the world.

Folks who **save** Bonds get the thrift habit. They soon learn other forms of saving and investment. They become better all-around

bank customers. And Bond owners are better credit risks.

Another thing bankers are interested in: Bond dollars help keep America strong. A good reason for the banking business or any business to get behind the Bond program.

What you buy at the Bond Window. When your banker advises you to buy U.S. Savings Bonds, he's recommending an investment guaranteed to grow: \$18.75 becomes \$25 in 7 years, 9 months, and grows to \$36.25 in another 10 years. They can be cashed in anytime with interest. And if they're lost or destroyed, the Treasury Department replaces them free.

Why not take this advice offered by the nation's bankers. Buy and hold U.S. Savings Bonds—for the things you want, and the Peace to enjoy them.

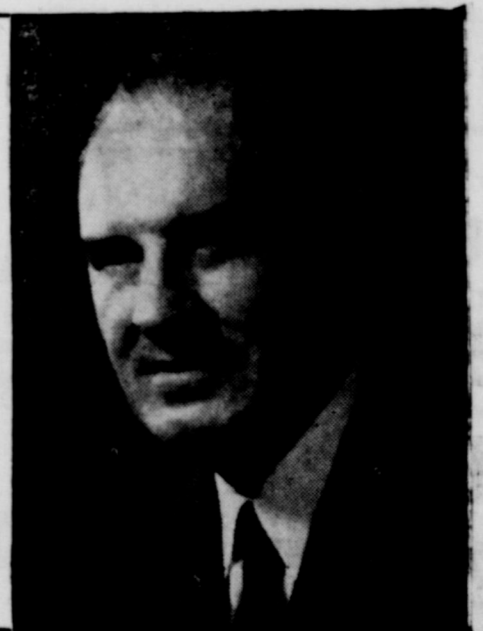

"America's Banks are proud to
be part of the Bond Program,"

*says Carl A. Bimson, President, Valley National Bank,
Phoenix, Arizona, and President, American Bankers Assn.*

"We believe it is good for America, an economic stabilizer; it is good for the individual and the community; and it is good for banking. The promotion of Savings Bonds has helped to make savers out of non-savers, to revitalize the American tradition of thrift, and to build savings in all forms to record levels.

"The American Bankers Association congratulates the Nation and the public on the 20-year success story of the U.S. Savings Bonds Program, and pledges its vigorous continued support."

Carl A. Bimson

You save more than money with
U.S. Savings Bonds

For 20 years America's newspapers have published U. S. Savings Bonds ads at no cost to the Government. The Treasury Department is grateful to The Advertising Council and this newspaper for their patriotic support.

AUSTIN REPORT

By SCOTT BAILEY REP. OF 76th DISTRICT

The House of Representatives is now fully organized and in full swing. Committees are meeting and hearings have been set for most of the pending bills. Each committee is allowed to adopt its own rules; most of them have adopted a rule that requires every bill to be automatically referred to a sub-committee. This insures that each measure will receive at least some careful study.

IT'S THE LAW in Texas A public service feature of the State Bar of Texas SMALL BUSINESS AND THE NEW FEDERAL TAX LAW

The 1958 Federal Tax Law has introduced a new factor in selecting or changing the form of a business organization, a change which can mean substantial cash savings and other benefits for the owners of a business. Every person in business, whether presently operating as a sole proprietorship, a partnership or a corporation, should re-examine his business form in the light of the new federal tax law.

If a business is now operating as a partnership or a sole proprietorship, it can be incorporated, and still be taxed, substantially the same as a partnership or sole proprietorship. In this way, it can avoid the federal corporation income tax, and pay only the tax on income to the proprietor.

The eyes of Texas and possibly the nation will be focused on the important Revenue and Taxation Committee. These 21 members may well hold the key that will solve our recurring financial problem. We shall all await their decision on a tax bill. It appears that 100 million dollars in new money will be needed each year, if we are to carry out the present program of state services. Texas, compared to our adjoining states, is now getting by fairly light on taxes. The people will know shortly if the Revenue and Taxation Committee has any surprise for us. The Texas Constitution places this burden on the House of Representatives.

Public hearings have been scheduled on many of the introduced bills. Some of these hearings prove to be very informative. It appears to be a good way to learn the facts about each pending item. If anyone in the 76th District is interested in coming to Austin and attending these hearings, I would be happy to inform you as to the time and place of such meetings. I extend an open invitation to everyone.

The West Texas Delegation meets today for a luncheon meeting. The West Texas Chamber of Commerce will be our hosts and I look forward to seeing any of the home folks who can attend.

Most Farmers Under Self-Employment Tax

Arthur E. Fogle Jr., Administrative Officer, of Internal Revenue Service, Abilene, said today that most self-employed farmers and ranchers are now under the Federal social security law and must pay self-employment tax. Rate of self-employment tax for the year 1960 is four and one-half percent. This is in addition to any income tax payable.

Under Federal social security S. S. taxes are paid by employees and their employers, and a tax known as the self-employment tax must be paid by persons who are self-employed. These taxes are kept in special funds by the U. S. Treasurer. They pay for old-age, survivors and disability benefits under the Federal S. S. program. A self-employed person is one who operates his own business. Farmers and ranchers who operate a farm or ranch either on their own land or land rented from someone else, are self-employed. This holds even though they may employ someone else to do the work and do not live on the farm or ranch themselves.
