One of the nicest features of built-in electric heating is temperature control. With

built-in electric wall insert or baseboard units, any room can have its own thermo-

stat and the temperature can be raised or lowered without overheating or under-

heating the rest of the house. The bathroom can be kept at 80° while bathing, then

turned down afterward. The living area can be kept at a pleasant 72°, a bedroom

at 65° for sleeping comfort. You use only the amount of heat you want, when and

where you want it, without waste or discomfort. You'll find electric heat is sunshine
