**ABOUT
Eastland**
By VIRGIL E. MOORE

You don't have to worry Mr. Showoff, it was only a dog. Just a little dog that never hurt anyone in its life. Sure, we know you can't help it if the dumb beast hasn't got enough sense to get out of the way. After all, you have been using West Patterson Street as a speedway a lot longer than he had been alive.

We know you had no intention of running over the dog mister. You are just like the next guy, you don't have a thing against dogs. Could you help it if he ran right out in front of your car? Certainly no one could expect you to stop in time to avoid running over him. After all, you were going 80 miles an hour.

Could be you didn't even see the dog. After all you had other things on your mind. The guy in front of you was about to pull away from you, and you surely couldn't afford to let anyone outrun you! Anyway it was just a dog.

Just a reminder though, mister. People out on Patterson are getting a little tired of our speed demon tactics. There are a lot of pessimists out that way. They keep thinking that next time it won't be someone's pet that lets out the blood-curdling scream. You know how these parents are—the get kinda fond of their kids after a while. Two or three of 'em even went to the trouble of getting your license number mister. Yeah, and the guy's in front of you, too. In fact, these Patterson Street pessimists have even been talking about finding out what the speed limit is out that way. Oh now, don't think they have anything personal against you, there are about four of you boys that put on a regular show out that way.

You were lucky, mister. You know as well as we do that you could have killed a child. The street has a score of children just the right age to wander out in the street. And the next street over, or even across town, isn't any better. Grow up boy, that car is for transportation—not for murder.

In case some of you were wondering about the official temperature readings during the last cold spell, you can quit. The instrument was checked last week and it was almost ten degrees off. That makes it get down just about with the rest of the mercury holders.

Say, what about Eastland's base ball program? We haven't heard a thing. Apparently we won't have Little League, Pony League, American League or any other kind of league—(well perhaps a sand lot league)—this summer. 'Tis a bad sign. Towns all around us, Cisco is a good example, are doing things while we stand still. Even little Olden is ready to start work-outs. It's not too late, but it's getting that way in a hurry.

Someone told us the other day that if you want to be seen, stand up. If you want to be heard, speak up. And if you want to be appreciated, shut up. Think we'll take their advice, at least until next Tuesday.

Eastland Girls Attend Meeting

"One Hundred Years of Home Economics" was portrayed by the Seymour students. They dressed as people did during the days portrayed.

At this meeting officers were installed for the 1954-55 office.

It Is Your Business

This is "Be A Good Citizen Month," which is sponsored by the lawyers of Texas.

It gives us an opportunity to remind you that your local government always holds open house and you're invited! Have you ever been to City Hall or attended a meeting of your City Commission? Have you ever been to a meeting of your County Commissioners?—or your School Board?

It's your city, your county, your state. In short it is your government. Take an interest in it. It's your business.

The Eastland City Commission meets tonight at 7 p.m., the County Commissioners Court meets each Monday morning at 9 a.m., and the School Board meets the first Monday of each month. Let's count noses.

A good citizen knows how his government operates and what it is doing. Good government is YOUR business, take an interest in it, speak up, make yourself heard.

Second Largest Circus In USA To Be In Eastland April 25

The Second Largest Circus in the U.S.A. is scheduled for a one day only engagement, at the old driving Range, the afternoon of April 25th.

Arthur W. "Art" Miller, General Representative for Al G. Kelly-Miller Bros. Circus, and Terrell Jacobs Wild Animal Exhibition called the Telegram office today in forming us that he had completed the preliminary arrangements for the visit of this famous Wild Animal Show, which is making its 36th annual tour.

The advertising cars, comprising six motorized units, with a crew of 28 advertising and publicity men will arrive soon notifying the coming event, by placing bright, colorful posters within the city and surrounding communities. In addition, newspaper space, radio time, boxholder mailing lists, and aeroplane broadcasts will have coverage for over an area of thirty-five miles, which should result in bringing a huge crowd to Eastland on April 25.

This will mark the first appearance of a big circus here in 15 years, and undoubtedly the very first one to bring such outstanding and unusual animals such as: Giraffes, Hippopotamus, and Rhinoceros. In addition a herd of 21 elephants, besides more than 200 animals including: 52 lions, tigers, pumas and leopards; numerous species of monkeys, apes, and baboons; Black, Grizzly, Himalayan, and Polar Bears; Hyenas, Baby Gorillas, Kangaroos, Man-

Anderson's Dress Shop, now located on the south side of the square, will move to the building formerly occupied by Cecil Hollifield, on the north side of the square.

The new location will give the shop more room, Mrs. Anderson said.

She also announced that her store will hold a one cent dress sale this week.

LEWIS TAKES NAME OFF OF CITY BALLOT

The Eastland city commission race ceased to be a race Wednesday when Blair Lewis announced that he was withdrawing his bid for election to one of the two posts to be vacant.

Lewis had filed for the race Saturday, just a few minutes before City Hall closed at noon. His withdrawal leaves the field open to Dr. M. A. Treadwell and Cyrus Frost, the only other candidates who filed to fill the post to be vacated by J. H. Rushing and W. W. Linckehoger.

PUBLIC INVITED TO ATTEND ALCOHOLICS ANONYMOUS MEET

An invitation to attend an area meeting of Alcoholics Anonymous to be held in Eastland Sunday, was given Thursday to Eastland counties.

A-A members from at least 11 cities will participate in the meeting, at which the Eastland-Ranger-Cisco club will play host.

The Eastland-Ranger-Cisco club is one of the oldest AA clubs in this area. It was organized five years ago with one member from each city. Now it has several members from each city and is very active.

Principal speaker will be a Corpus Christi man, himself an AA member. Other speakers will also make talks.

A spokesman for the host club said that members of the Non AA clubs from each town will also be represented. The Non AA clubs are composed of the wives, children and close friends of AA members. They have about the same number of members that the AA clubs have.

Alcoholics Anonymous has no dues, no fees, no charter, no by-laws. It is composed of men and women who have a "sincere and earnest desire to quit drinking."

Internal Revenue Having Difficult Time With Name

The tax collecting department of the Federal government has been having a difficult time in getting across the idea of using its new title, regional officials pointed out today. Since last July 1 the agency has been known as the Internal Revenue Service. It is no longer the Bureau of Internal Revenue.

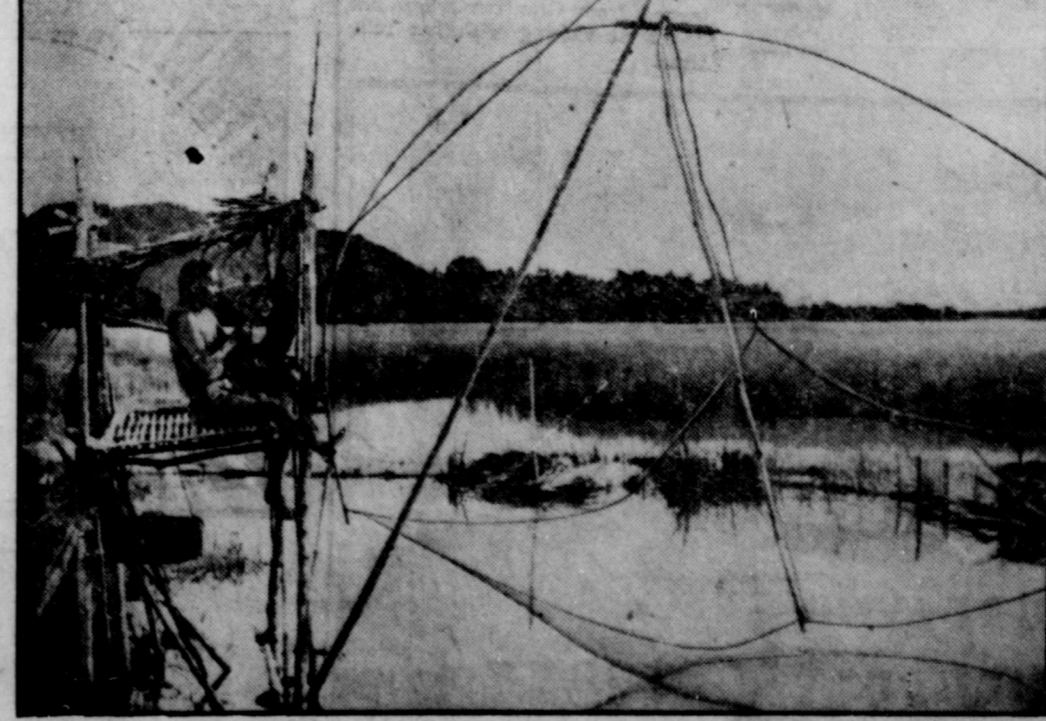

The man to whom the taxpayer pays his taxes and to whom he makes out his check or money order is the district director of Internal Revenue and no longer the collector of Internal Revenue.

Under the reorganization effected last year and still in the process of polishing up, the country has been divided into nine regions and 64 districts. In Dallas the district office is located at 2101 Pacific Avenue, Dallas, Tex. and is one of six included in the Dallas region which embraces the states of Texas, Louisiana, Oklahoma, Arkansas, and New Mexico. The district director is Ellis Campbell Jr. He is the man who collects your money which eventually finds its way into the national treasury and becomes a part of the national budget.

Eastland Rotarians Attend Mineral Wells Meeting

Several Eastland Rotarians and their wives attended the Rotary District meeting held at Mineral Wells over the weekend.

RED CROSS TO HELP GORMAN IN BIG LOSS

One thousand dollars has been allotted by the American Red Cross to aid victims of the Gorman tornado, it was learned today.

Mrs. Kenneth Jamison, Eastland county field worker, made the announcement. She said she believed the figure would more than cover the expense of claims made today.

So far \$208.48 has been disbursed and another \$475 is expected to be spent in the next few days. Mrs. Jamison said most of the victims were able to cover their own losses.

Meanwhile Mrs. H. B. MacMoy, Eastland, said the local fund drive is moving along at a steady pace. She urged volunteers to step up their efforts.

Rehabilitation work following a tornado is almost always more extensive, than in other forms of disaster, Mrs. Jamison said. The completeness of destruction and severity of injuries frequently make helping victims a big, expensive and long job. She said Gorman was extremely lucky that no one was killed.

Mrs. Jamison announced that in the future the Fort Worth U. S. Weather Bureau will warn the local Red Cross if any sign of bad weather develops.

A 7 a.m. breakfast served to the House of Delegates in the ballroom of the Windsor Hotel will start proceedings Saturday. Friday specials will consist of a Delta Kappa Gamma breakfast served by the Abilene Womens Club at 8:15 a.m., with Mrs. Edna Beck of Anson, presiding.

Landreth of St. Paul's Methodist Church, Abilene. Music will be furnished by the Abilene High School Eagle band with Robert Fielder directing.

Christian Science

The view that man's real substance is spiritual—abundant, and indestructible—will be discussed in the Lesson-Sermon on "Substance" to be read at Christian Science services this Sunday.

Selections from the King James Version of the Bible include the following: "I know that, whatsoever God doeth, it shall be for ever: nothing can be put to it, nor any thing taken from it" (Ecclesiastes 3:14).

Among the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be this definition of God:

"The great I AM; the all-knowing, all-seeing, all-acting, all-wise, all-loving, and eternal; Principle; Mind; Soul; Spirit; Life; Truth; Love; all substance; intelligence" (p. 587).

The Golden Text is from Psalms: "Thy name, O Lord, endureth for ever; and they memorial, O Lord, throughout all generations" (135:13).

County Agent Makes Report

By J. M. Cooper

"Hay is higher in price and not near so good for our milk cows as silage" says F. F. and Jim Sparks, Desdemona Dairymen, who are milking 23 cows, largely Holsteins at the present time.

The father, F. F. Sparks and son Jim, partners, have been in the dairy business since January, 1951. Their milk goes into the Dallas and Ft. Worth Milkshed.

They put down their first trench silo in June last year when they bought some "burned out" corn crops from some of their neighbors in a long trench. They later grew some Honey Drip cane and African millet. They started feeding it at once because of the need for roughage and the cows have never been off it they said. A total of 102 acres of the corn, Honey Drip cane and African Millet was put down. The corn and Honey Drip ran from 3 to 4 tons per acre while the Millet did not produce as much. The entire cost ran to about \$10.00 per ton.

At the present time the silage is being fed to 26 cows, ten heifers and ten goats. Around 1,000 lbs. of the material is fed per day.

"It has cut our roughage feed bill in half—every man who raises cattle should have one", said Jim. "If I cut off silage and feed only hay for a few days it dries up my milk production just like a well going dry," he continued.

The cows on the Sparks farm eat only 2 to 3 bales of dry peanut hay at night. That's all the entire herd will eat. They need some dry hay as a conditioner it was revealed.

We only wish that we had been making and feeding silage for many years, says the Sparks.

A bulletin on making and feeding silage is free and is available by calling or writing the County Agents office in Eastland.

There were more silos put down in Eastland County in 1953 than for many years.

A Double Holiday

Invite your new neighbors to dinner today to commemorate Brotherhood week, whose slogan was created by George Washington, making this a double holiday. The Gas Appliance Association suggests this popular menu: Grapefruit sections, baked meat loaf with creole sauce, scalloped potatoes, peas, pickled beets and the traditional cherry pie for dessert.

Start meat loaf 15 minutes before placing scalloped potatoes in the oven of your gas range; then wait 15 minutes more before starting to bake the cherry pie, which requires about 50 minutes. Raise temperature to 450 degrees the first ten minutes pie is in the oven, then reduce to 350 degrees the remaining 40 minutes. Everything will be ready at the same time, thrifly cooked by the same oven flame.

Texas Poll Tax
Requirements Outlined
During the past few months, citizens all over the United States have been exhorted by printed, radio or movie advertisements to be sure to "Register" in order to be eligible to vote in the November 4 election. To many Texans these ads have been confusing, some of them wondering whether the new Election Code passed by the last session of the Legislature may

have contained some requirement regarding registration.

This confusing situation has arisen because in a large number of states registration has replaced the poll tax. National get-out-the-vote campaigns were planned with the requirements of the "registration states" in mind, and campaign advertisements circulated in "poll tax states" along with the others.

Registration is not required by the Texas Election Code. Unless you fall within specified statutory exceptions, you must still have a poll tax receipt in order to vote. In some but not all cases persons exempt from payment of the poll tax must obtain exemption certificates from their County Tax Collector.

Under Texas law a poll tax is not just a license to vote, even though it is a requirement of voting. It is a tax which the statutes say shall be collected from every person between the ages of twenty-one and sixty years, who resides in this State on the first day of January preceding the levy of the tax.

Indians are not taxed, nor persons insane, blind, deaf or dumb. Those who have lost a hand or foot, those permanently disabled, and all disabled veterans of foreign wars (where such disability is forty per cent or more) are exempt from payments of a poll tax.

Those who are exempt from the payment of a poll tax, and who reside in a city of ten thousand inhabitants or more, must secure a certificate from the Tax Collector of their County of residence before the first day of February of the year when such taxpayers shall become entitled to said exemption.

This exemption is good for one

year. A new exemption must be secured for each year. Certificates of exemption are issued without cost to the person entitled to receive the same.

Those who reside in cities of less than ten thousand inhabitants are not required to secure this certificate of exemption before voting. These may make proof of their exemption at the time of voting to the presiding judge of the election where they are qualified by residence to vote.
