

## SENIOR CLASS BACCALAUREATE SERMON TONIGHT

### Plans For Courthouse Dedication Go Forward

**Politics**  
by Col. Hugh Nugent Fitzgerald

**Colquitt Is On the Job**  
Oscar B. Colquitt is on the job. He is a qualified member of the United States board of mediation. He will take down a salary of \$12,000 a year and expenses. Pat Morris Noff is practicing law. He will not take down a fixed salary and expenses. Colquitt led the anti-prohibition forces 25 years. Noff led the prohibition forces for many years. Colquitt was given the turkey; Noff the feathers. Now what will happen in the senatorial row in the year 1930? How many faces will be in the senatorial picture in the primary election contest?

**Fat Jobs Are Coming**  
Col. Rene B. Creager and his lieutenants are swinging around the circle. Maj. Leonard Withington has been re-elected party manager. All federal office holders are requested to send their contributions to the Dallas headquarters. Sen. Smith W. Brookhart has been told to go hide his ugly face thickly. Col. Creager has volunteered information that his committee will need \$100,000 in the campaign of 1930 and all the faithful G. O. P. are urged to shell liberally. All Hoover demonstrators are invited to remain and assist in the glorious work of rearing the state from the rule of greasy Goths and vandals.

There will be a census taken here, Texas has 29 districts. All are invited to the appointment of supervisors, enumerators and field employees. There will be hundreds of enumerators and field employees. A supervisor will receive on the average between \$1500 and \$2500 in full for his service.

**Lea Has His Backers**  
Mayor W. E. Lea of Orange, an applicant for a place on the American shipping board, hasn't hauled down his flag. Roland K. Smith of Louisiana is seeking re-appointment but the president will not act until the farm relief measure has been dispersed and the new tariff bill has been enacted by the congress.

It is claimed by the backers of Maj. Lea that practically every city and organization in Texas are behind him "and is doubling its efforts now that the time of appointment draws near." Colquitt was given a non-partisan place. According to law a Democrat must be the successor of Smith as a member of the shipping board. Sen. Thomas B. Love is said to have a candidate for the place. Why not be more specific?

**Building Activities in Texas**  
Houston is crawling along to the top. Houston set a terrific building record the first of the year. Permits for this year total more than twice as much as those of Ft. Worth. Now it is claimed that the total for the city for the first five months of the year is more than \$5,000,000, \$6,000,000 more than in Antonio, and \$10,000,000 more than either Ft. Worth or Dallas. Houston is over-built; Ft. Worth over-built; San Antonio is nearing over-built stage. Houston has a deep water channel to the Gulf. Houston has millionaires and millionaires. They send their money to make their city a deep water port.

**CAN "GROWERS" MEET POSTPONED**  
By United Press.  
Tex., May 25.—The meeting of delegates from the West to the national association of growers, scheduled for Sunday, has been postponed to Monday.

**All Committees Called to Meet On Monday Night**  
Complete Program, Including The Names of the Speakers, Will Be Announced Soon.

The committee to arrange a program for the dedication of Eastland county's new court house on May 30—Memorial Day—has completed all arrangements with the exception of the matter of speakers. This will be decided within the next few days, according to Earl Bender of Eastland, a member of that committee.

The parade, which will form at 9 o'clock a. m., at the Prairie Oil & Gas company building on South Seaman street and start moving at 10 a. m., will be a long one. Numerous entries having already been made in the contests in which cash prizes will be paid the winners. The parade will be in charge of Maj. Harry Brelsford of Eastland.

The band concerts will be one of the features of the program and it is possible that others may come in later. Many people of the county, who have not had an opportunity to inspect the county's new court house, will avail themselves of the opportunity to do so while the dedication program is on. The county officials have gladly agreed to remain in their offices and keep "open house" during the day of the 30th in order that the people who desire to do so may see inside the new courthouse as well as the outside.

It has been suggested that the business houses in Eastland close during the day, and many readily agreed to this. Other suggestions, however, have been made that Eastland business houses should be kept open that day in order that the town might be better entertained and serve the visitors. There will be another meeting of the general program committee—in fact all committees—at the court house in Eastland Monday night at 8 o'clock. All members of the committees are urged to attend this meeting.

**Public Extended Use Local Golf Course by Club**  
The stockholders of the Eastland Golf and Country club, at a meeting Saturday morning, voted to permit the general public to play on the club's grounds. This, of course, does not permit non-members to play in tournaments or represent the club in any match games. Neither are non-members permitted to play on the grounds on Saturdays, Sundays or holidays.

A green fee of 50 cents for each play will be charged non-members. This fee is payable to the green keeper at the grounds.

**Seeks Record in New Motorless "Sailplane"**  
The world's glider record is sought by Paul D. Chamberlin of Santa Monica, Calif., who has just completed this unique motorless "sailplane." It weighs only 175 pounds, has a wingspread of 32 feet and is 16 feet long. Chamberlin is shown in the cockpit; Curt Katzer, his backer, is at the left, and at the right is Joseph A. McKenzie, mechanic.

Another Special Session Coming

Another special session is coming. Another huge program awaits the lawmakers of Texas. This will be the second special session of the 41st. There is constructive work to be done. Are there constructive lawmakers to do it?

All the appropriation bills are hangers-on. All the taxation bills are hangers-on. Many of the important major proposals are hangers-on. Revenue must be provided for a continuous highway building program.

Joseph D. Sayers was governor more than a quarter of a century ago. Texas was a \$5,000,000 a year commonwealth when Sayers was at the head of the government. Cost of the biennium was \$10,000,000. Now Texas is a \$25,000,000 a year government exclusive of the millions spent on road building.

Texas has a population nearing 6,000,000 human souls. Texas is getting to be a great manufacturing and export state. Texas has added many colleges to its list of institutions since Sayers stepped aside. This is the auto age. This is the flying age. This is the gasoline and not the oxcart age. This is the age of large cities of 200,000 and beyond and the age where the map is dotted with many cities of 50,000 and fast growing cities ranging in population all the way from 10,000 to 15,000. This is the building, the developing age and the lawmakers should realize it.

All the reforms recommended by the governor are reforms that will come to pass in the history of the commonwealth. Many may come to pass before the close of the second special session. Those that fail of enactment will bob up again and the constructive men and women of Texas will see to it that the successor or the successors of Gov. Moody will carry on in a constructive sense in the enactment of modern laws and systems along modern lines for a great people who keep their eyes on the rising and not a setting sun.

The seed was planted; the sprouting has taken place and a harvesting season may come before the flag shall fall on the work of the second special session of the 41st legislature of Texas.

Abilene Man Had To Quit Work —Orgatone Restored Health and Weight.

"A medicine that will get a man on his feet and put him in condition where he can go to work again in a few weeks' time is certainly well worth talking about and I'm willing for the whole world to know that this is what Orgatone has done for me," was the characteristic statement made by M. L. D. Denman, living at 802 Graham st., Abilene, Texas. "Up to about three years ago," continued Mr. Denman, "my health was always good, but my stomach got in such a bad shape that my food would sour and I commenced to have bilious spells and indigestion. I finally got in such condition, I had to quit work about four months ago owing to the fact that I was so weak it was almost impossible for me to get about. And for the past two months, that is up until the time I got started on Orgatone, I had been living on bread and milk, my stomach was just in that terrible condition. I tried numbers of treatments and every kind of medicines I read or heard about, but kept getting worse all the time. "When I took my first dose of Orgatone I was in a pretty serious condition and had lost in weight and strength until my friends hardly recognized me—and when I finished my first bottle I had commenced to pick up and gain

till it seemed almost unbelievable. I can eat what I want now and am feeling so well generally that I am going to start at work again next Monday and in my opinion there's nothing equal to Orgatone." Genuine Orgatone is not a so-called patent or secret remedy but a new scientific bile preparation and is sold in Eastland exclusively by Tombs & Richardson, phone No. 263, who are the direct laboratory agents. ### NOW GO ON WITH THE STORY

Fear—for him—closed icily about Nan's heart. What if the writer meant this warning in all seriousness? Did she have any right to withhold it from him, let him go unwarned to the courthouse that morning? But—and she felt dizzy with conflicting reasoning—if she showed it to him, as she was duty-bound to do, he would scorn to profit by the warning, might, in fact, precipitate a terrible crisis by introducing the anonymous threat into the evidence.

And even if he believed or feared that the writer had "something on" his wife—as he certainly would not believe!—he would proceed with the Grace Cox case exactly as he had planned. She knew him well enough to be sure of that. So—why let him see the terrible thing? Spare him, shield him—

"Even if it was true I wouldn't want him to know it, not even if it meant—"

But she checked her thoughts with horror of herself. "I love him well enough to hope there is not an atom of truth behind that terrible letter," her heart cried. "But—if he goes blindly on at the trial today, will the blackmail make good his threat? There are ways of getting this highly interesting information into the court record—if necessary—oh, I don't know what to do!"

Her fingers were upon the clasp of her handbag when the door opened and John Curtis Morgan hurried into the room, smiling with confident cheerfulness.

"Hello, junior partner," he greeted her affectionately. "Going to be a great day today! Caught that Fleming woman just as she was skipping town last night. But it's in the paper—Say, where's that memorandum on McTeague? I couldn't find it in my briefcase last night—"

### CHAPTER V

Nan took his brief case from John Curtis Morgan, rifled thru a sheaf of memoranda and found—as she had known she would—the McTeague deposition. How helpless he was, how dependent upon her! And how happy she was to serve him. Would his next secretary be as alert and intelligent as herself, as eager to wait upon him?

He loathed detail, wanted to have his mind free for concentration upon the bigger aspects of the legal problems which he was called upon to handle. And yet incompetence in those who were responsible for detail made him nervous and impatient, even ill. It took a lot of understanding and patience and intelligence to work for John Curtis Morgan.

"If his next secretary serves

FRECKLES AND HIS FRIENDS

him as faithfully as I have done, it will be cause she loves him," Nan decided, and hot jealousy of her prospective successor flooded her already tortured heart.

Nan followed him into his private office, the anonymous letter tucked into the pocket of her blouse, the other mail, or such of it as required his personal attention, in her hands.

He lifted a warding hand, his black eyes pleading with her humorously for indulgence. "Haven't time to read a single letter, Nan. You handle all of it if you can, and let the rest ride. Nothing of life-and-death importance," I suppose.

Nan decided irrevocably then. The anonymous letter should stay in her pocket. She had her orders—"No, Mr. Morgan, nothing of life-and-death importance. Anything special you want me to do today?"

"Nothing special," Morgan answered absent-mindedly, his eyes on the memoranda in his hand. "Oh, yes! When the complete transcript of this Grace Cox case comes from the court stenographer this morning, I'd like to have you read through it carefully. I can depend upon you to see light where apparently all is dark. I'm pretty sure of making Brainerd look like a fool before the day is over, but I'm not taking any chances. That's a slippery crowd, I'll phone during the morning if I have an opportunity, and will come back here when court recesses for lunch."

"I'll order a nice lunch sent up from the Bellaire Grill, and you can eat it while you go over your notes," Nan planned cheerfully.

Of course she had had no opportunity to resign, when Morgan had departed for court. "Besides,"

she reminded herself, "I've decided to write him a note of resignation, but I'm certainly not going to bother him with it until this case is settled. It ought to go to the jury by Friday night, and Saturday morning will be time enough. Maybe if he finds out I held out the anonymous letter he'll fire me and save me the trouble of resigning."

She tried to forget the blackmailing letter, with its unspoken insinuation against Iris Morgan, but her mind tugged and worried at the thing, while her heart followed John Curtis Morgan to the courthouse.

Evans, the middle-aged, sour-mouthed clerk, arrived just as Blake, the young lawyer on salary, raced in and out again in time to catch his chief at the elevator.

If only she could go with him, could be there to ward off evil—if she, not that silly Blake, sat at his elbow, she could sense a trap before it was sprung, warn him, save him the ghastly humiliation which if the anonymous letter-writer was to be believed, awaited him at the courthouse today.

He had told her often enough that he counted on her intuition—

A messenger boy with the court stenographer's transcript of the case interrupted Nan's mulling thoughts. She seized upon the bulky manuscript, fiercely determined to winnow the prosecution's evidence so thoroughly that no clue to the real truth, however infinitesimal, might escape her.

The clue, when she did find it, almost escaped her, it was so tiny; just a name, an odd name, and for some obscure reason, familiar to Nan. The name occurred in the testimony of a chambermaid of the Riverside Country Club: Q. (District Attorney): How long have you been employed as

STINNETT, Texas, May 24.—Elections to decide the Hansford county seat, already at least a half dozen in number, may not be over yet as the result of four county residents contesting the recent election moving the seat from old Hansford to Spearman.

It is alleged in the petition that certain persons voted in the election who were not entitled to vote. A list of 107 persons alleged to be disqualified for voting in a county seat election was presented as having voted in the election, April 20.

All four of the plaintiffs are residents of Hansford. Hearing on their petition has been set for Aug. 19 by Judge Newton P. Willis.

The transfer of the county records to the Spearman city hall was accomplished five days after the election.

## GRADUATION

Graduation is an end and a beginning—the culmination of years of studious effort and the plunging into new work. It is a serious, yet glad, occasion and deserves recognition in more concrete form than mere phrases of congratulation.

The BUSINESS LIFE of this community is always interested in the school life, for it is from there that the new lives come into the business world and new faces are seen in the stores, offices and shops.

IF POSSIBLE, every graduate should go on with his or her education and finish college, for it is the shortest route to success, in that it prepares one to think things through and a conscientious student may learn in four years at college, what it would take an average life time to learn by experience.

WHATEVER STEPS you may have reached, whether you are to graduate from high school, Junior College or grammar school, you are to be congratulated on your effort to secure an education.

AND YOU'LL FIND that your entire life will be a series of graduations from one experience to another in order that you may take advantage of what you have already learned as well as what you will later learn.

WE WISH FOR YOU

FIDELIS MATRONS HAVE PLEASANT PARTY

Thursday evening, the Fidelis Matrons class of the Baptist church enjoyed a delightful gathering at the home of Mrs. W. T. Turner.

The porch had been prepared for the party but all the pretty furnishings had to be removed when the sudden rain came.

The house was lavishly decorated with bouquets of flowers for the occasion, which was hostessed by group two, Mrs. Claude Maynard, chairman, and group seven, Mrs. Eugene Tucker, chairman.

The clever games enjoyed, led with the "Party Line," a telephone game. The motor romance was read by W. D. R. Owen, with the missing parts of the auto story, told in rhyme, supplied by the audience.

This story hit on all four, and traveled not without many bumps. The tea party game required that all answers end with "ty."

During a brief business session conducted by their president, Mrs. Ansel Owen, a committee was named that will visit the new church tomorrow evening and select the classroom for the Fidelis Matrons and also determine the character of draperies to be used.

Personnel: Mmes. W. T. Turner, T. J. Pitts, Wilbert Irons and Ansel Owen.

Rev. Turner announced that the revival will begin on the day of the opening, and dedication of the new church, Sunday, June 2.

The program Thursday evening closed with a devotional by Rev. Turner, "Soul Winning," and with prayer.

Those present, Mrs. McFarland was a guest of the class, Mr. and Mrs. Frank Lovett, Mr. and Mrs. T. J. Pitts, Mr. and Mrs. W. D. R. Owen, Mr. and Mrs. B. M. Hayes, Mmes. A. O. Cook, J. M. McWilliam, Ansel Owen, B. W. Goulet, Mr. and Mrs. Wilbert Irons, Mmes. Linn Hibben, Ruth Hogue, Lillie Mac Herndon, J. A. Meade, Charles Seed, Eugene Tucker, Miss Jewett Sawyer, Miss Lios McAnally, Jack McAnally, Rev. and Mrs. W. T. Turner, to whom delicious refreshments were served at close of evening by the hostess committees.

# CROSS PLAINS AND STAR OWN CLUB JOINTLY

## 9-Hole Golf Course and Lake Included Property.

(Cisco Daily News)  
**CROSS PLAINS, May 24.**—Members of the towns of Cross Plains and Rising Star have completed the organization of the "Phil-pe-co Country club" midway between the two places. It has just opened its nine hole golf course, located in one of the prettiest and most picturesque spots in west Texas. The course winds its way over canyons and hills, along the lake's edge, and through dense groups of live oaks. There are numerous beautiful drives down long sloping hills, across canyons upward to greens over a hill, and across the lake's protruding necks of water. A number of amateur and professional players have just opened the course and have expressed opinion that it will be some time before a par is made on it.

The club's property includes a 65 acre lake stocked five years ago with 300,000 crappie, brim and perch. No fishing has been allowed on the lake until the first of the month. Since that time content large catches have been made. A fish hatchery has been constructed and stocked with 10,000 crappie. These will be raised and placed in the lake to replenish those caught. There are many ducks on the lake most the year around and great sport is promised the hunters in the fall.

Sand is being hauled and an artificial beach made on the south side of the lake. Bath houses will be constructed within a very short time.

The club has also completed two tennis courts and are laying the grounds for croquet courts. The professionals of Coleman and Sweetwater have been secured and are spending their time in the club giving instructions to new members. The golf course was laid and the work supervised by Harry H. Nichols, golf professional of Sanman.

The club is incorporated under the name of the "Phil-pe-co Country Club" and its name so chosen because of the courtesy of the Phillips Petroleum company in granting a lease on its property which includes a 65 acre lake, a filling station, and a refining plant.

The following officers were chosen by the stockholders at their first meeting: H. A. Dubey, president; Cross Plains; M. N. Harvey, vice president; Cross Plains; W. E. Taylor, secretary-treasurer; Rising Star; T. J. Smith, secretary-treasurer; Cross Plains; Robert Sprauls, assistant secretary-treasurer; Rising Star; E. D. Priest, T. J. Smith, R. B. McGowan, Cross Plains; Dr. J. H. Head, M. L. Seilers, Frank Robinson, Rising Star; and J. K. Gibson, Pioneer.

# WASHINGTON LETTER

BY RODNEY DUTCHER  
WASA Staff Writer

WASHINGTON, May 24.—Senator J. Boomboom McWhorter has had what is by all odds his brightest idea since first he proposed to save the farmers by turning the boll weevils and the corn borers loose on each other and letting them eat each other up.

The senator wants to divide Congress into rival cheering sections, with their leaders and megaphones and regulations. When members cheer now, as they did the other day when they heard how the police had killed a young man in a rum-running car, the noise is only spontaneous and disorganized, with none of the neat effect on the galleries which Senator McWhorter is sure could be reproduced with a little planning.

It must be admitted that McWhorter's interest is not altogether unselfish. Everyone knows that he can make more noise than an ambulance driver going home to lunch. The mere clearing of his throat is louder than the combined howling of six ordinary senators.

The Senator Is Silent

Thus the senator is really a born cheer leader. His magnificent voice has been going to waste lately because the young man who formerly wrote his speeches raised his rates, leaving McWhorter with only four or five speeches to his name. The senator has delivered the one about the flag and the one about the Bolshevik and the one about his political opponents so many times now that whenever he rises to speak two or three of his colleagues

promptly pretend to faint and the Senate is adjourned in their honor.

"But don't you go supposing that I am thinking only of myself," admonishes Senator McWhorter. "My program for organized cheering would benefit everybody in both houses of Congress.

"You know how important it is to keep on the right side of Bishop Cannon and how when Bishop Cannon says he wants anything he is sure to get it. Well, when they cheered in the House the other day about how that wicked rum-runner was killed, Bishop Cannon said it was one of the healthiest indications he had heard of in a long time. With Bishop Cannon on record to that effect you can just imagine the cheering and clapping and stamping that will be heard the next time any bootlegger gets shot. And if Bishop Cannon himself comes to the gallery on such an occasion everybody will be trying to outshout each other until we all get out of breath.

"But it ought to be organized. If it is important enough to organize a few thousand college boys at a football game for cheering purposes it is certainly important enough to organize the U. S. Congress. I am quite convinced that the louder our applause the more zealous will become the efforts of our prohibition enforcers because goodness knows they need encouragement.

"Of course, I would not always make cheering compulsory. When a bootlegger is sent to the morgue or the hospital it will be quite all right for his customers to remain silent. We will all understand the grief of such colleagues."

"The Helpful One" was the subject of the morning, and Christians realized that there were others than sinners who were powerless in God's Work in the world.

The house was well filled at night. The parable of the Lost Sheep was finely illustrated by the preacher.

He tells it different to other speakers. Be sure and hear him. The singing was good and the orchestra fine.

By BOB CANTRELL.  
 AUSTIN, May 24.—Fifteen members of the 1929 championship University of Texas Longhorn baseball squad and the student manager were awarded sweaters at a meeting of the athletic council Tuesday night. Of the 15 receiving letters, six completed their three years of eligibility in the Aggie series and will not return for the 1930 squad.

The men receiving letters were: Captain Meredith Hopkins of Fort Worth, Nono Rees of San Antonio, Oscar Peoples of Emory, Orville Rhoads of Dallas, Tommie Hughes of Texarkana, Arvie Walker of Blum, Frank Higgins of Dallas, Johnnie Raitton of Houston, Carter Bassett of Amarillo, Milton Browning of Tolay, Mike De La Fuente of Del Rio, W. A. Leach of Thornton, Van Lamm of Dallas, Bob Carr of San Antonio, "Wild Bill" Ford of Dallas and Gerald Scott of Brownwood, student manager.

The six men who completed their

 The century plant owned by Mr. and Mrs. C. A. Rinehart at 308 East Seventh street will be blooming in a very short time it appears. # Why You Get MORE FOR YOUR MONEY in Goodyear Tires

Tires represent a considerable item in the cost of driving a car. Many dollars each year are, however, saved by remembering a few facts about tires.

In 1915, Goodyear passed all other companies and became the world's largest producer of tires.

Goodyear has steadily widened this gap in the years following. Now, Goodyear alone uses almost 50 per cent more crude rubber than the next largest company.

"Advertising" is not the reason for this leadership. Advertising may induce you to TRY a product, but only SUPERIOR SERVICE will cause you to BUY IT AGAIN AND AGAIN...

There are few car owners today, who have not tried various makes of tires. Results, experience—these are

now the strongest guiding factors in the purchase of tires.

And more people—yes, MILLIONS more people!—ride on Goodyear tires than on any other kind.

This significant fact conclusively proves that you get MORE FOR YOUR MONEY in Goodyear tires.

The motoring public, traveling billions and billions of miles in millions and millions of cars, has discovered the truth of this by experience.

The logic back of it is simple. By reason of producing MILLIONS MORE tires than any other company, costs are lowered. This permits Goodyear to give you MORE FOR YOUR MONEY.

Goodyears cost no more to buy and less to ride on. Our watchful year round service—free inflation—free tread inspection—helps you to get all the extra miles Goodyear puts into your tires.

## Family Menu

**SISTER MARY**  
 At the picnic season upon us, the question of "how much" is important. How many sandwiches, how big a cake, how much salad, how much lemonade, coffee and so on—these quantities must be adequate but not too large for left-over picnic food means just so much waste. Good appetites are usually normal, and for service "a lot" larger quantities may be needed. But if the cook calculates on the basis of the needs of the family, she can arrive at a conclusion.

Following calculations are given for the average occasion that may help in gauging the quantities needed for individual occasions.

Large cake ten inches in diameter will serve 16 persons.  
 Loaf of sandwich bread will make 24 sandwiches which have 12 in half.  
 Thirds cup creamed butter spread both sides of 24 sandwiches.  
 Pint of sandwich filling will make 24 sandwiches.  
 Quart of salad will serve 16 persons.  
 Four-pound chicken yields 12 cups of diced meat.  
 2½ pound lobster will yield when boiled enough meat for quart of salad in combination with other material.  
 Half pound of coffee and parts of boiling water will serve 16 people.  
 One-half dozen lemons will make lemonade to serve 20 persons, depending largely on size and juiciness of the lemons.  
 Quart of a frozen mixture will serve 6 to 8 persons. When melted means the main part of the mixture.  
 Pound of salted nuts will serve 16 persons.  
 Pound of cold-boiled ham will serve 8 persons and one meat loaf will provide the same number.  
 Suggestions are made for balanced picnic meal in baked beans, potato salad, cold meat loaf, cheese sandwiches and cookies are lemonade, ice cream for the children and quantities should be

SAVE YOUR OLD PAPERS

The Parent-Teacher association of the South Ward school is still plugging busily away in their efforts to secure the necessary amount of material in newspapers and old magazines, to fill a freight car.

Over 1,000 pounds were collected last Thursday by P. T. A. members, who drove six cars on their trips, each one manned by

four boys to carry the stacks of papers from the house to the car.

Five thousand pounds more are needed to make the necessary quota. The material is being stored in the stone garage at 1200 South Seaman of the Mrs. Bula Connellee property.

Planes To Try Atlantic Hop!

Above: It's a big plane and a mighty fast one, and its glinting silver nose is to be pointed across the Atlantic toward Paris as soon as fair flying weather comes. The huge single-motored Bernard monoplane pictured above amazed aeronautical experts when it attained a speed of 150 miles an hour during a test flight over Roosevelt Field, Long Island, the other day, outflitting many smaller craft. Lower left are the French pilots of the projected ocean hop: Rene LeFevre (right) and Jean Assollant (center) and the flight's sponsor, Armeno Lotti, Jr. Lower right you see how a force of six men, pulling stout cables attached to a leather hood fitted over one end of the metal propeller, are required to start the 600-horsepower motor of the giant plane.

Below: The first trans-Atlantic hop from America to Rome and, simultaneously, a new long distance flight record, will be attempted by the Bellanca monoplane Green Flash, shown above. Pilot on the 4400-mile hop will be Roger Q. Williams, right, who was to have flown the Roma over the same route last year. Lewis Yancey, left, veteran navigator, will fly with him. They are to take off from Old Orchard, Maine.

NOTICE

After five years of pleasant dealings with the people of this district we take this method of thanking each and every one for the continued support and loyalty to the last.

We have just completed a most successful close out of our stock. The response to our offers has been most generous. We have made a sacrifice in order to close out within the required time. When this word was broadcast through the paper and by circulars that we were reducing the prices and going out of business crowds thronged our store until it was necessary to lock the doors at times.

This meant gratifying results in a financial way, but more than all it meant CONFIDENCE. There is where the real gratitude and real satisfaction was realized. Your confidence continuing to the very last brings us great pleasure for which we are very thankful.
