## Eastland Echoes

By Casey

**THOUGHT FOR TODAY:** "I'd rather have no tombstone on my grave when I am dead and have folks wonder why... than have the greatest monument and have folks question why." — (Grady Cole)

It is an interesting — and gratifying — note to us to note how many people stop by the Telegram. They have been frank to tell us, on many occasions, that they do, particularly those who drop by the office here to pick up their papers, as we frequently come into direct contact with them. Indeed, it's a fine way to get the advertising message to folks of the territory, as many business people have long ago observed.

Overheard in a hardware store. Said the customer to the proprietor, "Do you have any four-volt, two-watt bulbs?"  
"For what?" asked the proprietor.  
"No, two."  
"Two what?"  
"Yes."  
"No." — (Gilcraft.)

There's activity going on around the postoffice exterior and, we learn, from Acting Postmaster Marene Johnson, it's going to result in a green lawn there all winter. Assistant County Agent R. S. Higgins has been serving as adviser and W. Q. Verner has donated the commercial fertilizer (Continued on Page 2)

COVERING EASTLAND COUNTY

VOLUME TWENTY-FIVE

EASTLAND, TEXAS, SUNDAY, OCTOBER 30, 1955

## United Fund Drive Opens Tuesday

### Marene Johnson Is Refugee Aid Chief

The appointment of Mrs. A. H. Johnson as local representative for the Governor's Committee for Refugee Relief Program has been announced by John H. Winters, committee chairman. Mrs. Johnson will act on behalf of the State committee in Eastland County.

The committee was appointed by Governor Allan Shivers at the request of President Eisenhower to inform the people of Texas on the Refugee Relief Program. In addition to Winters, who heads the State Department of Public Welfare in Austin, members are the Rev. Henry Herbst, pastor of SS. Peter and Paul Church, New Braunfels; the Rev. A. O. Rast, executive secretary of the Texas Lutheran Mission Board; Leonard L. Holloway of the Baptist General Convention of Texas; Sam W. Levy of Houston; and C. W. Pfleger, Jr. of Coupland.

Under the Refugee Relief Act of 1953, 214,000 displaced persons were declared admissible to this country. Recent figures show

slightly over 43,000 have obtained sponsors and have migrated to the United States.

Of this number it is estimated that less than 500 have been brought to Texas.

To be successful in helping displaced persons get a new start in life, the refugee program will need assurance from 300,000 to 400,000 sponsors by early in 1956.

A sponsor is required to give assurance that the refugee will be provided with employment and housing and will not become a public charge.

The refugee's qualifications to fill the job provided him are certified by overseas officials. The Governor's Committee noted that a large percentage of the refugees are classified as agricultural workers who could be absorbed easily in the farming and ranching regions of Texas. Many skilled craftsmen are also looking for new homes in America.

There refugees have escaped, in many instances, from prisons and concentration camps to wind up spending years in refugee camps waiting for resettlement," said Winters. "Texas is lagging in doing its part in this humanitarian program to which our nation has committed itself. Mrs. Johnson, as representative of the Governor's Committee for Refugee Relief Program in Eastland County, will give the details of the program to any employer or citizen interested in providing a new opportunity to a refugee."

**HAVE YOU SEEN?**—Hoping against hope, this German woman holds aloft a card bearing the photograph of her long-missing husband, Hermann Steinmetz. She seeks word of him from repatriated Germans arriving at Friedland, Germany, following their release from Russian prison camps. She is typical of those who hope when all but hope is gone, as crowds greet the flow of returnees from their years-long isolation behind the Iron Curtain.

#### Grid Banquet Reservations Open, Carbon

Reservations must be made by Monday, Oct. 31, by remitting to either Mr. Mullins, Mr. Browder or Mrs. Ed F. Willman for the Carbon High School football banquet, it was announced.

The Carbon High School pep squad and its sponsor will honor the football boys and their coach with the banquet at 7 p.m. Saturday, Nov. 5, in the school cafeteria.

All Carbon teachers and their wives and husbands are invited. If parents of the football boys, ex-football players of Carbon High School or other interested patrons wish to attend the banquet they may do so by paying a dollar a plate to one of the three persons listed above not later than Monday, Oct. 31.

### CHIEF LANEY ARRANGING FOR AUCTION

Details of Eastland's first United Fund financial drive were completed this week-end, with a kickoff breakfast set for 7 a. m. Monday at the First Methodist Church.

Newest feature of the campaign is an auction sale of cakes and pies which, at the request of Drive Chairman Bob Perkins and U-F President Tom Wilson, is being arranged by Police Chief Ray Laney. Tuesday is regular livestock auction day at Sig Faircloth's Auction Barn and Mr. Faircloth will have his auctioneers cry the sale of cakes and pies beginning at 2 p.m.

"We'd like to have six cakes and six pies contributed—and it also would be nice if somebody would donate a quilt or blanket, to be auctioned," said the chief. "If those who would like to give these articles will call me or the police station they will be picked up Tuesday morning. We think it was fine of Mr. Faircloth to shut down his livestock auction temporarily for the period of the cake and pie auction and greatly appreciate it."

With Homer Smith as chairman, the breakfast will be in the basement of the Methodist Church Tuesday and workers, under the supervision of Residential Chairman Mrs. Jack Frost and Business Area Chairman John Goode, will be given supplies and instructions.

Mr. Wilson said that the city is contributing to the cause, all coins of denominations over five cents, dropped in parking meters next week, the drive period being Nov. 1-5.

"This is the first time this has been permitted and we are very grateful," said the U-F head.

The goal of the campaign is \$6,500.

How the participating agencies will share in support from the United Fund were announced: YMCA, 20.6 per cent; Boy Scouts, 28.9; Salvation Army, 15.3; Red Cross, 28.3; United Defense Fund, 6.6.

## EASY WIN CHALKED UP BY EASTLAND

By NORMAN WRIGHT

The Eastland Mavericks came up like Hurricane Hazel Friday night and spread destruction and damnation all over Maverick Stadium skunking the Rising Star Wildcats 57-0.

It was practically no contest. The Mavericks made 30 points in the first half and despite efforts to hold down the score by playing every substitute on the bench including a few Dories, maybe, the second and third stringers came back in the second half to make another 27 points.

The Mavericks made 25 first downs to one (1) for the Wildcats and piled up 275 yards rushing against a MINUS 15 yards for Rising Star.

What the Mavericks didn't throw at 'em was what they didn't have. They scored by every method known to man. They even went so far as to get three touchdowns that didn't count on account of red flags, otherwise the score would have been 78-0 instead of what it was. Jimmy Martin ran 65 yards for one TD that didn't count, and ran 15 yards for another one that was nullified, and Larry Tankersley ran 12 yards for one that didn't get on the scoreboard.

Scoring in the first quarter was light, only 6 points. It started when the Wildcats kicked to the Mavs on their own 25. In a sustained drive Slotton, Martin and Cates reeled off one terrific gain after another to put the ball on the Wildcat 10 and from there (Continued on Page 6)

## Equipment Fund To Benefit By Policemen Ball

Eastland's Ninth Annual Policemen's Ball, calendared for 8 'til 12 o'clock Friday night, Nov. 25, at the American Legion Hall at Eastland, will benefit the police department equipment fund.

Ray Judia and His Belvanians of Cisco will furnish the music. Admission is \$1.50 a couple. The public is invited. Tickets may be purchased from any policeman.

Funds from the annual ball are used to buy such equipment as ammunition and other items.

Local policemen are expecting neighboring policemen and their families and friends from surrounding towns to attend the dance as well as those from Eastland.

Ray Laney, chief of police, expressed appreciation to the people of the community for supporting the dance last year and said the funds derived from it were used to pay for the shortwave radio.

## Countians Get Into Act

### Throng Entertained By Moslah's Show

It was Shrine Day in Eastland Thursday and the occasion wound up with what brought it about—the synecopated Moslah Temple Variety Show which strongly plugs the celebrated annual Shrine Circus, held in Will Rogers Coliseum in Fort Worth every autumn.

Sponsors of the show here—the Cross Timbers Shrine Club, made up of Nobles from this section—worked hand-in-glove with Moslah for the success of the local performance. T. C. Wylie of Ranger is president of the club and, illustrious Potentate R. M.

(Sharkey) Stovall of the Fort Worth Temple stated gratefully, local arrangements were directed by Larry McGraw and Carl Garner.

From noon on, the Variety Show and the circus had been ballyhooed by a corps of Shriners who brought a circus caliope and clowns, including a comical traffic cop, to Eastland. They headquartered in Shriners Henry Pullman's Sportatorium Building.

At supper time, the troupe and accompanying Fort Worth Shriners and the Cross Timbers Club were hosted by the temple at a palatable meal in the City Park.

Came show time and a crowd from all parts of the county filled spacious Eastland High School Auditorium. Mostly professionals, the troupe presented a show that drew clamorous applause. It was directed and produced by Herschel Gibbs, who also was leader of Moslah's 16-piece professional orchestra.

Much to the surprise and delight of the audience, three Cross (Continued on Page 2)

## Goblins List For Benefit Announced

The ghosts and goblins who will call at the doors of Eastland homes sometime between 6 and 7:30 p.m. on All Saints Eve to collect dimes—and dollars, too, of course—for CROP (Christian Rural Overseas Program) have been announced by Annette Sherman, president of Tri-Hi-Y.

The Tri-Hi-Y is sponsoring the collection here—which will take the place this year of the regular "trick or treat" observance. "CROP funds are to be used in purchasing government surplus powdered milk for overseas children, many of whom would otherwise starve. Just 10 cents buys \$2 worth of milk and \$1 buys \$20 (Continued on Page 6)

## Fishing To Pick Up Sharply

### 21 Farmers and Ranchers Of County Given Fish

Twenty-one farmers and ranchers of Eastland County received fish Thursday from the U.S. Fish and Wildlife Service. Fish were ordered for the farmers and ranchers by Soil Conservation Service technicians assisting the Upper Leon Soil Conservation District supervisors.

W. A. Latch, U. E. Brown, A. H. Perdue, J. H. Elam and Gordon Woods of the Cisco area received fish.

Farmers and ranchers of the Eastland area receiving fish were: Orville Rattenfield, J. F. Gilbert, and I. E. Echols, D. W. Boone and W. O. Dawson of the Ranger area received them.

Glenn Justice and Cleo Echols of the Carbon area received fish. Farmers and ranchers of the Gorman area receiving them were: Orville Rattenfield, J. F. Gilbert, and I. E. Echols, D. W. Boone and W. O. Dawson of the Ranger area received them.

Tass, bluegill (perch), and channel catfish were delivered, each farmer and rancher receiving the number of fish to properly stock his farm pond. A properly stocked farm pond, which is well managed, will offer benefits

both for recreation and as a food supply.

Two of the most important things in fish pond management are the control of the fish population (kinds and numbers) and the production of food for the fish. The most practical way to provide food for the fish is to grow it in the pond where the fish live. This will consist of plant and animal life found in the water, technicians say.

The production of microscopic plant and animal life often referred to as plankton or bloom is the first and most important step in the whole food chain. An abundant supply of plankton can be produced in water containing lots of food such as all fertilizers contain. This plant food normally finds its way into the pond by being dissolved from the soil as the water flows in from over the watershed.

The plant food in the water is largely determined by the fertility of the watershed over which the water flows. Poor land means poor water and poor water means little food for the fish.

"To increase the production of food in the pond, we now think in terms of fertilizing these acres of water as we fertilize land for crops. The principle is the same, and same kinds of fertilizer may be used," it was explained.

"Various mixtures of fertilizer may be used to fertilize ponds:

One recommended fertilizer is 200 pounds of cottonseed meal plus 100 pounds of 20 per cent superphosphate. The 300 pounds of this mixture is suggested for ponds of 1/2 surface acre of water or less, for one year.

"Apply as follows: First application 150 pounds broadcast over pond in early spring. Second, third, and fourth applications of 50 pounds each at four to six weeks intervals. Using the same method of application as with cottonseed meal and superphosphate you could use 300 pounds of a high grade commercial fertilizer or use 250 pounds of barnyard manure per application."

## Yank Gifts Project To Begin Monday

"Give for the gift shop at Veterans Hospital, Waco," is a program that will go into effect in Eastland Monday.

## Poe Floral In Flower Week

Poe Floral Shop at 608 West Main Street has announced that it will hold open house during the week of October 30 to November 5 in celebration of National Flower Week.

Also in recognition of the event, Mr. and Mrs. J. C. Poe are sending flowers to Eastland Memorial Hospital and will set up public displays of flowers in the Eastland National Bank, the Texas Electric Company, the Lone Star Gas Company, the Majestic Theatre, the Telegram office and at Hamner Funeral Home.

Mr. Poe explained that National Flower Week was an event celebrated nationally by florists and to point up the desirability of giving flowers for all occasions.

"Whether it is to say 'congratulations,' or 'I Love You,' we feel that flowers do it best," Poe said.

An invitation is extended to the public to visit the Floral Shop at any time during the next week and view the floral displays.

## Fun To Observe This One

Effective this very day, we're in the midst of good old Beef Week, so proclaimed by Gov. Allen Shivers.

The theme song, so to speak, will be "Eat More Beef." Which, kind reader, is a very good—and delightful—idea. Incidentally, the governor is eminently correct when he observes:

"The cattle industry is one of the oldest and greatest in Texas and cattlemen have always played important roles in the growth and development of our state."

The industry is one of the vital sources of revenue here in our own county.

So, to get yourself in the habit of eating this healthful, strength-giving and delicious food, how about stocking up right well for this period? You don't need to be told that it is one observance which will be most enjoyable.

Happy Birthday, Tom!

In case you don't know who Tom is, you ain't thinkin'.

Tom is the big black alley cat of questionable ancestry that hangs around Doc Davis' drug store all the time. Tom will be nine years old come November 2. And every day for the past nine years he's helped Doc open the drug store every morning.

The only times Tom has failed to help open up of a morning were on those occasions when he had been out romancing the night before, and even then he has always managed to show up for an early breakfast.

At the ratio of 7 to 1, Tom's nine years is cat-age for a man of 63. As a result Tom doesn't get around as much as he used to and he sleeps a lot more.

When the notion strikes Tom to hit the hay he sprawls out just anywhere he might be when he feels a nap coming on. If it is smack dab in the middle of the floor that makes no difference to

Tom, and customers have learned to walk around him or step over him. Even if they walked on him it would still make little difference because when Tom dozes off he's dead to the world.

A morning ritual with Doc Davis is to get Tom fed. Tom keeps following him around yowling until Doc finds a can of "Puss 'n' Boots" and there's little use trying to do anything else until the can is opened. At 15c a can Doc figures old Tom has eaten his way through \$492.75 worth in the past nine years outside of what he can mooch in the way of ice cream and such.

Tom's favorite time of the year is Halloween. Being a black cat himself, and being born so near the exact date of Halloween, somebody once told Tom a spook brought him and he's been believing it ever since.

Happy tom catin', Tom!

**Annual P-TA Halloween Carnival**

**Be Held Monday Night At Gym**

The traditional Halloween carnival, staged each year by the South Ward and West Ward Parent-Teacher Association, will be held again this year at 6 p.m. Monday, at the high school gymnasium.

Mrs. Charles Freyschlag is financial chairman for South Ward P-TA and Mrs. J. R. Lusk, for West Ward P-TA.

There will be a food booth for carnival patrons who care to eat there. Hot dogs, pies, other foods and beverages will be sold.

for the project and Eastland Feed & Seed has contributed the rye seed. So everything's all set to green it up, and keep it that way, come blow, come snow.

While on the topic of a pretty town, there are some weed - grown vacant lots far out West Main and some street property nearby that need clearing off. Owners of the property and the city will help make the scene more attractive if they'll see to it being trimmed up. And travelers entering our city will be much more favorably impressed.

In today's issue, you'll notice a statement from Sheriff J. B. Williams about the importance of the Dec. 1 Safe Driving Day. And Police Chief Ray Laney is quite interested, too, and attended the S-D conference in Abilene this week. It goes without saying that our Highway Patrolmen are tremendously interested. Now — if the public will get in the same frame of mind, maybe we'll make the occasion count for something!

will strive for one day's pay or one hour per month per year. Pledge cards will be distributed so that monthly pledges will be arrangeable and bank deductions will be possible if desired.

United Fund authorities have pointed out that it is five drives in one and urged that generous support be extended this first campaign so that the United Fund's continuing into future years can be assured.

It was pointed out also that Charles Freyschlag is treasurer and that while every effort will be made toward a complete canvass, if anyone should be overlooked he is invited to turn in a donation to Mr. Freyschlag or Chairman Perkins or President Wilson.

"It is our sincere hope," said Mr. Wilson, "that everyone in the community will wish to have a part in United Fund support."

Build a herd with high milk production. The present level of fluid milk prices received by the dairy farmer makes the use of whole milk to raise dairy herd replacement calves very costly. The problem is to find a feed which is relatively low in price, yet will adequately replace the milk diet. The underdeveloped eating habits of the calves and their special demands for feed with high levels of quality proteins, minerals, and vitamins make the problem rather unusual. A feed to adequately replace the mother's milk must be palatable, easily digested, and very carefully balanced as to nutritional factors. The protein quality and level must be high, and vitamins A, D, and those of the B-Complex group, together with antibiotics should be included as well as the major minerals, calcium and phosphorus, and trace minerals in lesser amounts.

**AFTER 5 DAYS FEED MILK-O-LIFE**

It is of the highest importance that the calf have plenty of the mother's colostrum or "first milk." Nature has provided this highly concentrated milk to meet the special needs of the calf for the first few days of life. It provides a higher percentage of solids than ordinary milk; a greater concentration of milk proteins, a higher percentage of Vitamin A and riboflavin; and last, but not least, a great concentration of antibodies which protect the young calf against bacteria and toxins.

RED CHAIN Milk-O-Life has been formulated to meet these nutritional requirements with the greatest possible economy.

Let's all go to the traditional P-TA Halloween carnival Monday night at the high school gym sometime during the evening. . . . It begins at 6 o'clock and there will be a food booth for those who care to come to eat. . . . The carnival fare will include hot dogs and accoutrements pies and candy. . . . and then comes the highlight of the evening at 7:30 when the Halloween costumes will be judged. . . . It will be a gala affair for young and old.

Charming CAROL ANN HURT, 3, with the big brown eyes, her brother, ALLEN NEIL, who will be 1 Nov. 25, and their mother, MRS. NEIL HURT, were Telegram callers the other day and Carol Ann is a glamor girl.

"I am enjoying my work here but miss my Eastland friends and want to keep up with them through the paper," MRS. FRANKIE LAMBERT, 4231 Armstrong Parkway, 5, Dallas, commented in her letter in which she remitted for the Telegram subscription.

CHIEF RAY LANEY would appreciate it if some kind-hearted good cooks would bake a few cakes and pies (6 each, that is) for him to turn over to SIG FAIRCLOTH for selling at auction Tuesday — help the UNITED FUND drive. . . . And if you want to put some dimes in the parking meters next week, all over the regular parking fee will go to the U-F.

Don't forget to enter the Sweepstakes contest, for which Van tells us — you'll find literature at the Majestic Lobby.

A group of Tri-Hi-Y members has been staying with the children during the various P-TA meetings so mothers with small children could take them along and leave them with the girls while they attended the meetings.

Timbers members — to their dismay — were drawn into the act. Pat Hutcheson's School of the Dancing girls from her studio several numbers, then the called to the stage Cross Timbers President Wylie of Ranger. Hamner of Eastland and Dean of Cisco.

Each of the home-talent trio, sporting apron and scarf, was directed to pick a cutie from the line and truck on down, to say nothing of baling the jack, while the orchestra jam-sessioned all over the place. That they did.

And Wylie — with red-flannels showing — was the winner, receiving as his reward a resounding kiss from each of the dancing maidens.

It was a show star-studded with talent and the show-stoppers including famed banjoist Marvin Montgomery, Vocalist Jo Ann Sciles and little Janet McEntire in her "Acrobatic Supreme," a combination of tumbling and acrobatic dancing. The production was built around the Moslah Orchestra, whose every number was enthusiastically received.

A side-splitter as the show drew to its close was a can-can number by two covorting Nobles dressed as buxom dancing girls.

Circus Chairman Houston P. Hutcheson told of dates — Nov. 18-27 — of the Fort Worth circus, a benevolence for the crippled children, and announced that Cross Timbers members would have tickets to it for sale. Patsy Pogue, local girl who was circus queen in '53, spoke briefly, giving the circus a verbal bouquet. Potentate Stovall was profuse in his thanks to all who had helped toward the success of the occasion.

At the conclusion of the performance, Cross Timbers leaders, discussing the circus, anticipated that a large contingent from Eastland County this year, as always, would journey over to Fort Worth to see a thrilling show and help worthy a cause.

The gifts may include anything appropriate for the Veterans to send home to their parents, wife, children, or other relatives, such as stationery, children's shirts, sweaters, socks, belts, dolls, men's toilet soap, shaving lotion, cosmetic jewelry, homemade items such as tea towels, pillow cases—anything that the Veterans might send as Christmas gifts.

Those giving presents to this cause are not supposed to wrap them because they are sent to the "gift shop" at Veterans Hospital and the Veterans select appropriate gifts from them to send home to their families.

### THE WILLIAMS ATTEND SMU HOMECOMING; SON MEMBER MUSTANG BAND

Mr. and Mrs. Ed F. Willman went to Dallas Friday night to attend the SMU Homecoming activities, which included the Pigskin Review Friday night, the SMU-Texas U. ball game Saturday afternoon and sermon Sunday morning by Dr. Umphrey Lee at McFarland Auditorium on the campus. Their son, Jim Ed, who is a senior there, played with the Mustang Band for the Pigskin Review Friday night.

### Mavericks-

(Continued From Page One)

Martin went around right end for 6 points. Harvey Lewis failed to convert.

In the second quarter, shortly after Martin went for one of his tallies that didn't count, Jimmy Cates took the ball on the Cat 19 and got 16 yards then another 3 for a touchdown and Lewis converted. Score, 13-0.

The third TD came after the Mavs had taken over on downs on the Wildcat 38. After working the ball down to the 5. Cates went over in a swarm of tacklers. The conversion was good but there was a flag down and the Mavs were set back 15 yards and from this point Jerry Lewis missed it. Score, 19-0.

After this, Rising Star was pushed back on their heels so far that a couple of safeties followed in quick succession. The Mavs picked up 2 points on a Wildcat pass play that went haywire behind the goal line, and pretty soon gathered in another 2 points on a punt when the kicker was forced to step out of the end zone. That made the score 23-0.

The next one came on a pass from Lewis to Herrera that was good for 10 yards and a TD, with Jarrett converting, and as the half ended it was 30-0.

As the second half started so did all the subs. There was no scoring in the third quarter but there was one whale of a play that brought on the loudest and longest cheers of the night. Larry Hollis, a freshman, who weighs 115 pounds soaking wet, received a punt much to his surprise on his own thirty and looking like a deformed circus midget in his big shoulder pads took off down the West sideline and went for 60 yards before a Wildcat could catch him. If you've ever seen a hound dog run square over a rabbit to knock him down before catching him, that's the way a

long, tall Rising Star Wildcat ran over Hollis to knock him off his feet.

In the fourth quarter, to make a long story short, Clinton Humphreys made a touchdown and Jarrett's kick was blocked; then Mike Manning made one and Jarrett converted; then Clinton Humphreys threw a pass to Johnny McMahan that was good for 12 yards and a score and Jarrett converted again; and after that McMahan went over from the 4 and Jarrett converted for the final score, 57-0.

There is an easy way to send your child to college!

This simple plan will do the trick—if you start right now!

Are you determined to give your child the benefits of a college education—yet worried about money? Then why not do what more and more farsighted parents are doing? Start getting that money together now—the safe, sure, automatic way—through the Payroll Savings Plan!

It's simple! Just tell your company's pay office how much you want to save—anywhere from a few dollars a payday up to as much as you want. This sum is then saved for you every payday. It is invested in U. S. Series E Savings Bonds which are turned over to you, and which earn good interest for you.

It's systematic! Just think—if you sign up to save \$3.75 a week, in 5 years you'll have \$1,025.95—in 9 years 8 months, \$2,137.30—and in 19 years 8 months you'll have \$5,153.72.

It's sure! Once you join, your saving is automatically done for you before you draw your pay. You don't have to do a thing. And your child's education will be provided for by money you don't even miss now.

Eight million working people are now on the Plan—saving for a home of their own, a college education for their children, or any of those things made possible only through systematic saving. So join the Payroll Savings Plan right now—or, if you are self-employed, join the Bond-A-Month Plan where you bank. Do it today!

Choose your own savings goal

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Each week for 9 years and 8 months, save	\$8.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save	\$3.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. Remember, you can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your Plan today!

**How Your Child Can Learn Thrift**

There's no better way for your child to learn thrift than by buying U. S. Savings Stamps at school. Because Savings Stamps provide a goal to save toward. As each album of 10c or 25c Stamps is filled, it can be converted into a valuable U. S. Savings Bond. Millions of children are learning to save in the U. S. School Savings Program. Why not start your child now?

Your baby's future starts today—when you save with United States Savings Bonds through the Payroll Savings Plan!

### Seeds of Hardy Flowers Can Be Sown This Fall

Many flowers, both annual and perennial, can be grown from seed sown in the fall.

The safest way for an amateur to sow either annuals or perennials in the fall, is in a seed box.

Not even a cold frame is needed to protect the box over winter though it is a good thing to have. The seed box can be set in a protected corner of the house, covered with leaves, and left until spring.

In a flat, the seeds will escape drowning in surface water, washing away in heavy rains, or being uprooted by alternate thawing and freezing.

Next to a flat, a raised bed surrounded by a wooden curb is a good place. Fill it with top soil and sow the seeds in rows, properly labeled so you can identify the plants.

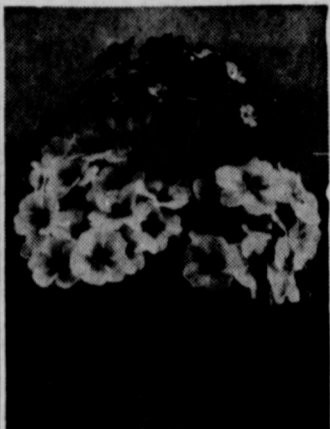

A flat for fall sowing is prepared just as for spring sowing. Prepare a porous soil, mixing one-third peat moss, one-third sharp sand and one-third sifted top soil. Put half an inch of sphagnum moss on top of the soil, sow the seed in this, and cover with sphagnum lightly.

Most of the hardy perennials may be sown in this way, at any time before the freeze-up.

Seeds which can be sown would be more limited in number. They must be hardy, and they must be varieties which sell in your locality and are easy to handle.

These are likely to include Cosmos, cyclamen, carnations, California poppies, snapdragons, callopsis, the fragrant tobacco, dianthus, candytuft, and petunias.

Annual larkspur and Shirley poppies are exceptionally good subjects, but are usually sown direct in the garden, because they are not easily transplanted.

Primrose seeds should be sown in the fall for best results.

Some perennials can be sown only in the fall. Examples are the perennial phlox and dictamnus, or gas plant. These require freezing before germination. Primulas also give best result when sown in the fall.

Do not try to keep your seed beds or boxes warm this winter. Let them freeze before you apply a protective mulch, which is intended to keep them frozen. Winter thaws do the damage rather than the cold.

If you have a cold frame, fill it with dry leaves with your seed boxes underneath, and put the sash over it. In the spring the mulch can be removed and some time gained by promoting early growth from the warmth of the sun.

If your seed boxes have spent the winter outdoors, do not remove the mulch until the deep frost is out of the ground, then place the boxes in the sun and water as needed.

### Christian Science

The way to overcome sin — its causes as well as its effects — through the understanding of God will be brought out at Christian Science services this Sunday.

Keynoting the Lesson - Sermon "Everlasting Punishment" is the

Golden Text from Ezekiel (18: "Divine Love corrects and gov- 23): "Have I any pleasure at all erns man. . . Every supposed that the wicked should die? saith pleasure in sin will furnish more the Lord God; and not that he than its equivalent of pain, until should return from his ways, and belief in material life and sin is destroyed" (6:3 only, 12-14).

Selections to be read from Scriptural readings include the "Science and Health with Key to following (Psalms 37:27): "De- the Scriptures" by Mary Baker part from evil and do good; and Eddy will include the following: dwell for evermore."

The proud owner of this large truck has two new SEIBERLING ALL TREAD truck tires (size 36 x 8) on the back of his truck and is showing his spare. The tires were bought, of course, from the Jim Horton Tire Service on East Main Street and this took place some 30 years ago. A good share of the truck owners bought their tires from Jim Horton in those days and now—30 years later—a great many truck owners of Eastland County still

buy their Seiberling Tires from Jim at the same place on East Main Street. We call it a real record of good service delivered over the years by both the Jim Horton Tire Service and the Seiberling Tire. The man in the picture grew up in Eastland. He is now a cement contractor out in California. 5 gallons of Premier gasoline to the first one in the Jim Horton Tire Station Monday morning with his correct name. This should be an easy one.

#### Remember Passing Events—

... like the first dime you ever made, the winning touchdown by the home team or the tears at high school graduation? Yes, we do, just little things and trival, but how they do linger in our memories! And we remember the big events, too, like the Texas City explosion, last June's hail storm in Eastland or the more recent tropical hurricanes on the coast. These familiar disasters pose another question, who pays for them? That's insurance. Don't get caught without it.
