

'BILL HOLIDAY FUND' GAINING MOMENTUM

Even though 25-year-old Bill Holiday is confined to a protective glass shelter in a Fort Worth hospital where he is being treated for severe burns over most of his body, he must surely know that his friends in Eastland County are remembering him with concern.

These friends started a fund, calling it the "Bill Holiday Fund" to raise money to raise money to pay for the expensive, intensive care that Bill needs in the hospital. Critically injured and burned in an automobile accident about a week ago, Bill is receiving special care at the hospital.

At such time as his physicians believe it is safe to move him, he will be taken to a veterans hospital. But for now, the fear of infections is too great, and special nurses and other specialized care are expensive.

Bill worked in Eastland grocery stores putting himself through high school and Ranger Junior College. A native of Olden, his mother is school librarian there.

His condition's listed as being "about the same" — and still the contributions come in. Donations of any amount are being accepted, addressed to "The Bill Holiday Fund", Box 29, Eastland, or maybe left with Gaylon Ashton, Eastland Supply, I. E. Talley, Talley Barber Shop, Olden or with Mr. Burl Proctor, Church of Christ minister, Olden, or Rev. Bruce Stovall, Olden.

Mr. F. M. Chisum of 208 N. Walnut St., the man who does such a good job breaking gardens, (and yards) reports that he has bought a lot over at Lake Cisco's North Shore and plans to build a cabin there. If we don't get grass growing on our lawn, it won't be Mr. Chisum's fault. . . The local Lions are expressing thanks to the public for the response to the light bulb sale. The club sold 22 cases of 18 packs (containing eight bulbs), or a grand total of 3,168 bulbs Tuesday night. Many people gave above what was being asked, and the club appreciates the support it has of the people in its sight conservation program. The glaucoma screening is set May 17th. It's free and recommended for everybody — especially those over 40. But if you're still "just 39" you'll want the test anyway. . . The club initiated two new members, Mr. Neal Edwards and Mr. Earnest Moore this week, and presented their retiring club sweetheart, the former Patricia Lilies, with a beautiful electric hair dryer.

C-C Membership Drive Closing In Two Weeks

The current Chamber of Commerce membership drive which has netted 36 brand new members, will close in about two weeks, Chairman Jim Parks has announced.

Launched recently, the drive was spearheaded by chamber officials and stimulated by the entire chamber membership.

Parks urged workers who still have prospects to contact, to try to finish the contacts within the next few days in order to close the drive on time.

Chamber activities have been increased the additional members add substantially to the talent available to work for Eastland, as well as giving the organization a broader financial basis, he said.

JAYCEE KARNIVAL OPENS APRIL 14th

BOARD OF WATER SUPPLY DISTRICT DISCUSSES NEW PUBLIC INFORMATION PLAN

The importance of periodic information releases for the citizens of Ranger and Eastland — the two cities comprising the Eastland County Water Supply District — was one of the major topics discussed during the monthly meeting — Thursday, Mar. 26 — of the ECWSD board of directors held in Ranger.

A spokesman for the board said the purpose of such releases would be "to afford the public a better understanding of the operation of their district."

The district was created by a special act of the Texas Legislature and operates under a Trust Indenture and the trustee of Mercantile National Bank of Dallas. All operations of the ECWSD board are strictly controlled by the trustee for protection of the bondholders.

All funds received by the district from the sale of water to Eastland and Ranger and the Lone Star Producing Co. are remitted to the trustee bank after operating expenses have been paid. The money is placed in a number of funds by the trustee and cannot be used for any purpose other than for paying bonds and interest.

The district has always been

prompt — never even a day late — in making bond and interest payments.

"The operation of Eastland County Water Supply District has been very good and the directors have been highly complimented on their capable and efficient operation by R. A. Underwood & Co., the brokerage firm which handled the sale of the bonds," a board spokesman said Friday.

The ECWSD board is comprised of eight members — four from Ranger and four from Eastland. The directors serve two-year terms with a referendum held each spring for election of two directors from each city.

The present board is composed of C. B. Pruet, E. H. Mills, James A. Smith and E. F. Arterburn of Ranger and M. H. Perry, T. M. Fullen, Charles Freyschlag and Tom Wilson of Eastland.

"At the time the District was formed it was thought that the money to construct the lake, filer plan and pipe lines could be raised throughout the issuance of Revenue Bonds, without having to assess a tax," it was explained. "However, prospective bond buyers would not consent to a revenue only trust bond and insisted that the Trust Indenture provide for the assessing and collecting taxes from the two towns in addition to receipts from the sale of water. Until all the bonds have been paid off it will be necessary for a tax to be assessed each year. The Board of Directors do, however, have the authority to lower the rate when it is apparent that enough money will be collected to meet bond and interest payments at a lower rate. This was done this year. Taxpayers for the 1964 tax year will be paying 20 per cent less for Water District taxes than in previous years."

"While the primary purpose of the lake is for municipal water supply, with recreational aspects being a secondary benefit," the spokesman continued, "the Board of Directors also, of course, control the recreational facilities of the lake and since money spent for such facilities can come only from receipts from the sale of licenses and per-

Omar Burleson: Man of Principle

(An Editorial)

Voters of the 17th Congressional District, which includes this county, will go to the polls four weeks hence in the Democratic First Primary election. And the important matter of selecting a member of Congress for the next two years will be settled.

The Honorable Omar Burleson, veteran of some 18 years in the House of Representatives, has offered himself as a candidate for re-election. As in his eight previous campaigns, Mr. Burleson is using his record of service as the basis for this year's race.

Congressman Burleson, while admitting that he makes as many mistakes as the average man, uses two principles to determine his voting record: (1) Is his vote consistent with the views of the majority of his constituents; and (2) Is the vote in the best interests of both the constituency and the nation.

Critics of Mr. Burleson charge that he sometimes votes with the minority or against the administration. His record will show convincingly that he stands for economy in government, opposes encroachment of the Federal government in state and local affairs, and advocates using the conservative approach in most matters affecting the nation. He stands for maintaining a strong national defense, and he favors policies of honest and straightforward dealings in all international affairs.

Omar Burleson was born and raised in Jones County. After attending rural schools, he studied at ACC and H-SU in Abilene, graduated with a law degree from Cumberland, and did graduate study at the University of Texas. He served as both county attorney and county judge in Jones County before World War II. After serving as an FBI agent, he volunteered for the U. S. Navy and spent three years on active duty in the Pacific Theater during the war.

Since his election to the Congress, Mr. Burleson has had important committee assignments and has served with distinction. He has faced many vital issues during his years in the congress. It is his credit that Mr. Burleson always faces issues and exercises his right to vote, facing each matter with courage and conviction. Mr. Burleson has always conducted the affairs of his office in a manner that reflects credit to him. "It has been my purpose to conduct myself at all times in a manner worthy of the trust and confidence which has been placed in me by the people who send me to congress," Mr. Burleson has said. "To violate that trust in any respect would be unthinkable, and it shall never knowingly be done."

It is our belief that Mr. Burleson has discharged the obligations of his position in a praiseworthy way and that he will be returned to the congress by an appreciative constituency.

A SAD STORY

FOR SALE

Behind many "For Sale" signs there is a sad story: A family borrowed more than they could afford to pay for a home, or payments and interest rates were too high; the home had to be sold, often at a loss. This tragedy could often be avoided if the families would seek help from a home loan specialist, such as our Association.

We work with you to arrange for a loan that's as easy to handle as monthly rent.

When you prepare hot meals

your kitchen stays degrees cooler

with flameless electric cooking

Flameless electric cooking units fit snugly against pan bottoms. They put their heat into the pans where it is needed, not into the kitchen air. The electric oven, being flameless, requires no flow of air into and out of it to support combustion. The oven is insulated all around, including the bottom, to keep heat inside where it belongs. Result: your kitchen stays degrees cooler when you are cooking hot meals. See your electric range dealer soon. Cook the cool, clean, flameless way . . . and live better electrically!

TIDBITS . . .

(Continued from Page 1.) are around to remind you. This week, we had calling: Dan Sullivan, former D. A. (Andrews) and former assistant to Sen. Ralph Yarborough, candidate for Congressman at Large. He quoted: "I feel that I will make the most effective member of President Johnson's 'Texas Team.'"

Judge Wm. Roy Bean, Springtown write-in candidate for governor, left a confusing card. It listed nine (or eight) things he pledges to work for. We're not sure he's still for legalized horseracing or not. Somebody had marked through it on the card.

According to the Farm Labor Bulletin of the Texas Employment Commission, Eastland County has 1,500 acres of wheat seeded; 12,000 acres of oats, 2,000 of barley and 3,200 of rye, for a combined total of 18,700 acres seeded to small grains.

Attorney Bill Hart, new advocate in our town, and son of the late Judge John Hart, tells us that he has sold his home in Midland, and will be moving his family here in about six weeks. They'll be moving into the Jay Elevins home which they have bought . . . Mr. Hood King admits that after 25 years of living in Eastland he finally took a train ride out of the town for the first time, only recently.

ECWSD

(Continued from Page One.) mits they must use the money available wisely in order to provide for the public facilities that will benefit the most people. They have provided four boat launching ramps, constructed two picnic areas and two separate rest room accommodations. They plan to do more in this line as money is available keeping in mind at all times that adequate reserve funds must be maintained in order to be able to meet emergencies that may arise.

"The Board is proud of the splendid safety record that the lake enjoys. There have been only two persons drowned on the lake since it was built, and there is some question regarding one of those instances as to whether death occurred from drowning or natural cause. Fees collected from the sale of licenses and permits are used to police the lake and adjacent shoreline, inspect the sanitary facilities and conditions, and to render aid and assistance, if necessary.

"The original Board of Directors comprised of C. B. Pruet, Dr. P. M. Kuykendall, Grady Pipkin, Dr. James C. Whittington, Wilson Guest, L. E. McGraw, F. P. Brasher and headed by C. B. Pruet as president with David D. Pickrell as secretary can be justly proud of their endeavors," the ECWSD spokesman said.

"Undertaking as they did, to build a lake costing \$1,500,000 in a community with a very poor bond record was a job that many thought was impossible was a tremendous task and called for a long hard hours of work and personal expense, as well as taking them away from their respective businesses for conferences with members of the Legislature, consulting engineers, and bond people. Fortunately for the people of Ranger and Eastland they persevered and as a result the two cities are assured of a wonderful pure permanent water supply, as well as a beautiful lake for recreation.

"The Bond Indenture makes it mandatory for the books and records of the district to be audited each year. This is primarily for the protection of the bondholders, but es also to protect the taxpayers of Ranger and Eastland.

"Ranger and Eastland have been very fortunate in having dedicated, capable men serving on the Eastland County Water District Board. These men are interested in every phase of the Water Board operation and welcome any questions or suggestions anyone might have regarding the operation," the spokesman concluded.

IT'S PREDICTION

One thing nobody predicted was that 1963 would break the all-time auto sales record set back in 1955. New car registrations hit 7,300,000! The boom also resulted in a record-breaking scrapage rate — 5,400,000 cars a year. Since the automobile industry is a good barometer of our economic climate, 1964 looks very promising, but the future belongs to those who prepare for it.

So we are preparing for it. The scrap Iron Market is continuing at a very strong pace. Some new orders are expected. In the meantime we are in the market for scrap Iron, Cast Iron, Oil Field Cable, Tin, (no whole bodies) Complete Cars, Copper Wire, Brass, Radiators, Aluminum, Batteries, Lead, Babbitt.

We did want you to have this information, to give you an idea of the trend in the Scrap Iron Business.

After all we have been in business for 38 years, and we value the many friendships this has brought us.
