Japanese Announce Hostilities Will Cease

GRIPINGS

By GUS This column is published as a daily feature and may not be construed as representing the editorial views of this paper.

My suggestion to the committee which is to handle the anti-hoarding campaign would be to advise Mr. Barrett that if there is any money in Eastland it is hoarded.

The government should take charge of all slot machines and soon you'd see the said government with plenty of money in circulation.

Someone started the story that County Judge Clyde Garret would arrange to feed all the hungry folks who made application there.

Saw a lady going the rounds among the candidates trying to sell advertising space on fans.

I was just wondering how many candidates are really based up to do some tricks.

Tom Harris going around the village looking important and carrying a big book under his arm.

Will someone please tell this department where it can buy a Yo-Yo.

This is Sid Pitzer's birthday. He says he's 24.

Al Larson in Waco Hospital A. N. LARSON of Ranger has undergone an operation for appendicitis at Waco, according to information received in Ranger today.

Mr. Larson is reported to be recovering rapidly at the Provident hospital at Waco, where the operation was performed.

Wooden Nickels Are Okeh Now

The old expression, "Don't take any wooden nickels," doesn't go in the village of Tenino, Wash., near Seattle.

Someone started the story that County Judge Clyde Garret would arrange to feed all the hungry folks who made application there.

TEN INJURED IN CYCLONE NEAR HOUSTON

HOUSTON, March 3.—Ten persons were injured and several buildings blown down today by a small tornado that struck Deer Park, 15 miles south of here on the LaPorte road.

All of the injured were Mexican strawberry pickers. Ambulances brought injured to hospitals here.

John Meyers, storekeeper at Deer Park, estimated the wind velocity at 50 miles an hour.

Power lines of radio stations and the Houston Power & Light company were blown down.

CHINESE ARE AGREEABLE TO STOPPING WAR

Japanese Are In Control Of Entire Shanghai Area Today.

SHANGHAI, March 3.—Japanese military operations at Shanghai ended today with the Chinese driven 12 1/2 miles back from the city and Japanese holding all territory contested in bitter fighting here since Jan. 28.

The Chinese forts at Woosung were occupied by the Japanese shortly before the operations were halted.

"We have decided to order halting of our forces for the time being at points actually held and to stop fighting, provided the Chinese forces do not resort to further hostile action," the Japanese military commander said.

The Chinese refused to accept the Japanese idea of a neutral zone around Shanghai, demanding immediate and complete withdrawal of Japanese troops.

WASHINGTON, March 3.—The Japanese government through Ambassador Debuti today informed Secretary of State Stimson that fighting at Shanghai was ended and that Japanese troops would be withdrawn as soon as possible.

Depression Fails To Halt Luck To Sacramento, Calif.—Lady Luck seems to be skipping around the country yet—depression or no depression.

SACRAMENTO, Calif.—Lady Luck seems to be skipping around the country yet—depression or no depression.

The next flashing smile of the mythical lady was seen in the historic mining town of Cherokee, when Spencer Cling, veteran prospector, saw a glow in the sand at his feet.

And then there was the butcher in Chico who had turkeys for sale.

A woman had purchased one of the fowl and had discovered several nuggets and flakes of gold in the bird's crop.

THE DEMOCRATIC HOPE.

"I have no intention of making a declaration with respect to any question with which congress does not have an immediate concern," said wise old John Garner, neatly disposing of a demand of the Texas W. C. T. U. that he assert himself upon the prohibition question.

The democratic party, under the leadership of Mr. Garner has responded to the emergency with a nobility that shames partisanship. Answering the appeal of a harassed president, unhappy in the prospect of a legislative body controlled by opposing political forces, the democrats voluntarily surrendered their political alternative and joined hands with the administration in support of a program of reconstruction with a zeal and a spirit of unity that must have amazed the skeptical veterans of other bitter days.

John Garner is the one hope of the democratic party today. And he is its hope only so long as he sticks to his job, refusing to be diverted by any side-issues, setting an inspiring example of single-mindedness of purpose and political unity in which that party has stood so long in need.

ENLIST THE HOME FOR SAFETY.

The federal, state and municipal governments may legislate for accident prevention, the police may seek unremittingly to enforce it, schools may teach safety, and associations may advocate it, but really effective results can never be obtained until the American home is enlisted whole-heartedly in the cause.

The home is the keystone of the nation's safety arch. It is the first line of offense against an enemy which annually kills 100,000 persons, injures 3,000,000 or more and produces an economic loss running into the millions.

"Nearly one-third of the 560,000 accident fatalities of the last decade actually happened in the homes," says Dr. Herbert J. Stacks, safety supervisor of the National Bureau of Casualty and Surety Underwriters.

"There is an inescapable duty resting upon the heads of the nation's families. In the last analysis they have the responsibility of teaching safety habits and attitudes to the children. What the child absorbs in the home colors its after-life and if lessons there are lax, the child will be found deficient when it comes to safety problems of our modern civilization.

"Accidents are a serious menace to our national life and far reaching in their effects. Surely, something is wrong when in a single 10 years, the lives of more than half a million persons, one-fifth of whom are children, can be snuffed out. As bad as wars are, if we add together all the deaths of American soldiers on the battlefields during the combats of the last 200 years of our history, the total will not be that of the loss through accidents during the period named."

The Japanese war party had no trouble in winning Japan in the elections, but they found Shanghai a different story.

From the claims and counter-claims in the war in China, you would think the battles were being fought by a bunch of politicians.

Alfalfa Bill Murray says he will have a longer and happier life if he isn't elected president. Well, there are plenty to wish him a long and happy life.

Paris police are installing radios, after the fashion of the Americans. There's no use letting the cops be bored.

It looks as though Japan may have to send its whole army into China to protect itself from attacks by the Chinese forces.

The Prince of Wales is teaching boxing to his young nephews. Now some wisecracker will call him the Prince of Whales.

Hawaii has taken up basketball with a vim and hop. Twenty teams are entered in the Maui public schools league this year.

Come, Come, Boys! We'll Pin on the Medals When We Get to Shore!

FACTS ABOUT INCOME TAXES

No. 3. Who Must File Returns. Returns are required of every single person whose net income for 1931 was \$1,500 or more, every married person living with husband or wife whose net income was \$2,500 or more, and every person, single or married, whose gross income was \$3,000 or more, regardless of net income.

Husband and wife living together each may make a separate return of the income of each, or their income may be included in a single joint return. If separate returns are filed, each return must report income which belongs to the other, but must report only the income which actually belongs to each.

Editor Tells of Service That Won Baylor Award

(By John L. McCarty, Editor Dalhart Texas for the United Press.) DALHART, Texas.—A varied community service program involving almost every phase of community activity won the 1931 award of the journalism department of Baylor university for outstanding community service.

The Texan's Spring Round-Up attracted more than 10,000 persons to Dalhart. A greatly reduced fire insurance key rate, a summer irrigation rate, a rose planting drive, a high school athletic field and seats for 2,000, a daily mail route, an irrigation test well that resulted in proving a great shallow water irrigation belt, a landscaped and greatly improved city park, and a \$360,000 road bond issue which carried 4 to 1 were other items directly attributed to campaigns conducted by the paper.

Expansion of the Dalhart trade territory, community events, boosting nearby towns and communities and a general fight for progress and development were other projects carried to successful completion. A three-year campaign for freedom of the press in reporting city affairs was climaxed by a brilliant victory.

The report submitted by the editor carried 50 separate community service items. Submitted as a part was a report of the expenditures in Dalhart of the Texas showing it has the third largest payroll in the city.

A feature of the paper is that its editor places the community welfare ahead of any selfish or business motives.

The Texan has an even more ambitious program planned for 1932 and keeps some campaign or issue before its readers at all times.

CARLISLE — Construction of natural gas plant in Rusk county near its No. 1 R. Lacy, in local area, contemplated by Standard Oil & Gas Co.

Daily WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer

WASHINGTON. The fight for the Democratic presidential nomination which grows more exciting from day to day, has reached a point where the decisive breaks are anticipated in the approaching state primaries.

The breaks will be for or against Governor Roosevelt of New York, the leading candidate. Recent developments have strengthened the "stop-Roosevelt" movement.

The primary results may not mean success or defeat for the governor's candidacy, but the future is so cloudy that all interested bystanders and participants look eagerly forward to the voting not only to see who gets the delegates in states where there are primary contests but also to see what Roosevelt and other candidates can do as vote getters in other states than their own.

Dash Temporarily Blocked

SINCE Al Smith broke silence to aid and comfort the anti-Roosevelt forces it had become obvious that Roosevelt's dash down the field has been at least temporarily blocked.

And occasional reports come in that some state delegations the Roosevelt managers thought they had in the bag are not in the bag at all. To break the jam, Roosevelt must make a good primary showing. If he makes a poor showing the belief will increase that his goose is cooked.

The primary elections which seem important or potentially important at this time, with the number of delegates involved in each, are:

- MARCH 8—New Hampshire, 8.
MARCH 15—North Dakota, 10.
MARCH 22—Georgia, 28.
APRIL 5—Wisconsin, 26.
APRIL 26—Pennsylvania, 76, and Massachusetts, 36.
Other primaries, including about a dozen in May, can be considered when more information is available.

Alfalfa Bill Enters

NORTH DAKOTA and New Hampshire have small delegations, but Roosevelt will be taking a mean little smack on the nose at the outset. If he loses either, they were originally considered safe for him.

Farm Pays Way Through College

(By United Press.) ELY, Nev.—Jimmy Jensen, University of Nevada freshman, will go far in this world, if his early achievements are a criterion.

Jimmy put himself through high school and is now financing his way through college. He made his money farming.

He rented 30 acres from his father on a half-share basis and netted over \$800 the first year. The next two years he leased a much larger area on the same share-crop basis and again made a good profit.

Part of this money was spent on building up his farm. He bought five dairy cows, two heifers, a team of horses, a quantity of hay and grain, and other equipment. All this time he was paying all school expenses and putting aside a fund to finance his college education.

Jimmy now has enough money for his college education the first two years. His farm is a going proposition and he anticipates profits accruing from it will provide him with funds for the full course.

He will not sell any of his dairy herd, or other farm assets. Rather he will increase them, so that when he finally receives his degree, he will have the nucleus of a farm.

AUSTIN.—Two railroad commission races instead of one suddenly became the year's prospect when Commissioner Pat M. Neff was elected to the presidency of Baylor university. . . . That Governor Neff will take the place with the university he has served so long as chairman there was little doubt, as he delayed his answer. This was written before his acceptance or rejection had been announced.

Chairman C. V. Terrell of the commission has announced for reelection. Representative Ray Holder, Dallas; H. O. Johnson, Houston, and Roy L. Tennant, former board of control member, have entered the race against him. Representative E. T. Murphy of Livingston and J. W. DeWesse, former fire insurance commissioner, have said they intend to make the race.

Some of them may shift over to the new race.

Under the law, Governor Sterling will appoint a member to the vacancy for the rest of the current two-year period, and this year the democratic party will nominate the commissioner for the remaining four years.

First guesses were unanimous in naming Senator Henry Beck of Bowie county to the vacancy.

Dr. Beck, active in assisting the administration of the health side of martial law in East Texas, has been an active leader for the Sterling forces, and one of the strongest men in the senate. He is interested as an official in the conservation administration of the state, and his appointment would accentuate the commission's important duties concerning the oil industry.

Dr. Beck wanted to run for the railroad commission this year against Chairman Terrell, but decided against it because he wanted to remain in the senate to see that proper appropriations are made for his hobbies, the state psychopathic hospital.

His appointment to the commission would give him an important advantage and possibly preclude any race against his election, though Governor Neff had opposition of Senator Nat Patton and others when he ran after appointment at Governor Moody's hands.

So unanimous was the belief that Dr. Beck will be the choice that no second guesses were found in a hurried survey about the capitol corridors.

A long step was made in the state's suit against 15 oil companies when the last four, three of them Standard companies and the Shell Union corporation, came into court and filed answers under the decision of District Judge J. D. Moore that citation had been perfected against them.

A long fight against the preliminary legal attack upon the state's anti-trust statute.

The penalty and ouster suit was filed attacking legality of the companies having subscribed to the oil men's code of ethics and marketing practices.

Judge Moore quickly overruled requests that some of the Standard companies be allowed to make "special appearances" solely for the purpose of debating the validity of the ruling bringing them into court. Motion to quash was also overruled, and execution system for court for all purposes, according to Attorney General Alfred's view of the matter.

The retort perfect to the martial law decision, someone has suggested, would be the appointment of Martial Law Commander Jacob F. Wolters to the railroad commission to administer the proration law. . . . If Commissioner Neff resigns to take the Baylor presidency.

Should there be very much delay and a resignation by Commissioner Neff after June 6, a remarkable complication would parallel the accession of the present Chairman C. V. Terrell to the commission.

After that date, when candidates could not file for the railroad commission place to fill out the four-year term from next Jan. 1, the democratic state executive committee would have to select the nominee, the nomination being equivalent to election.

Dr. Walter Splawn had been nominated to the railroad commission and Senator Terrell to the office of state treasurer, when Dr. Splawn accepted the presidency of the University of Texas. The state committee then nominated Mr. Terrell for railroad commissioner and W. Gregory Hatcher of Dallas as state treasurer.

A billion gallons of water a day will run through Texas gicater new irrigation and power system in Maverick county along the Rio Grande.

An 80-mile canal will be put in service, the distinctive feature being that it is supplied entirely by gravity, and the huge project requires no reservoirs. Water is run alongside the Rio Grande at a higher level, then run through a power plant and back into the river. The power section, just completed, has cost more than \$5,000,000, and the total project will cost about \$9,000,000.

Austin Callan has announced a huge international celebration in Eagle Pass, April 7-10, when the power project is put into operation.

THIS CURIOUS WORLD. The SIGN LANGUAGE OF THE INDIANS HAS BEEN PRESERVED FOR POSTERITY, BY MEANS OF MOTION PICTURE SOUND CAMERAS. MAJOR GENERAL SCOTT AND FOURTEEN ANCIENT CHIEFTAINS HELPED IN THE FILMING, AND 1,300 SIGNS, WITH THE ACCOMPANYING "GRUNTS," WERE RECORDED. ZEBRA SERPENT STARS... ONE OF THE LATEST OF DEEP-SEA FISH TO BE BROUGHT UP. STEAM CANNOT BE SEEN, FOR IT IS AS CLEAR AS AIR. BUT AS IT COMES IN CONTACT WITH AIR, IT CONDENSES AND FORMS A MIST.

The ABC's of Gardening. Illustration of a person gardening.

Spring—A Time of Garden Enthusiasm for All the Family

The first indications that the plants are waking from winter slumber arouse renewed enthusiasm in garden-making. Pussy willows are inevitably associated with the first days of early spring, for they are among the earliest to show signs of life.

Then as soon as the weather becomes warm there are numerous charming perennials which are a joy to know—dianthus, bleeding heart, forget-me-not, sweet william, mertensia and pansies, to be followed by poppies, columbine, pyrethrum, thalictrum and veronica.

For color and magnificence in June there are three outstanding favorites that are among the aristocrats of the garden—rose, the queen of flowers, the stately delphinium and the fragrant regally. Lilies and delphiniums are a charming picture when planted together.

Gladioli offer a wide selection of colors and types for cut flowers in summer, and the many colorful annuals bloom extravagantly all summer long. Last of the flower parade are the dahlias, glorious mums and the sparkling colors of asters.

The first robin, the first warm wind, your first glimpse of a crocus bloom, and you will be all eagerness to be at work in the garden. But in your enthusiasm to add new plants and rearrange established plantings, don't forget that planting done hurriedly without regard for a definite plan will very likely have to be altered or completely changed another year.

Avoid these unnecessary alterations by first making a plan of the planting you wish to do this spring.

"We asked our depositors to come and get their money but to date we have at least one-third of the amount of deposits that we had at that date," McMillan complained.

The president is willing to close the world it is some job to tell a bank when it is solvent and is just merely trying to go out of business.

Some time ago, officers of the bank asked the depositors to come and get their money as they wished.

PEEPING THRU THE KNOTHOLE

with BILL MAYES

Yesterday the printer's devil passed us up by putting the long reading matter alongside the right cut. The picture showed me a lad in a high school up north somewhere who is a little over seven feet tall and whose regulation basketball is a pick-up type to go with the picture. The lad made a mistake and put a story about the typical American by next to the picture. Now we know that a 14-year-old lad has no seven feet five inches tall. Far from typical, but mistakes like this happen now and then.

B. E. Garner is going around now singing a little ditty that is out to run his associates crazy. The reason he sings it, as he explains it, is that he found out he wasn't in such a bad shape after all. Someone told him a hard luck story that made him feel that he was pretty well off. Here is the story:

POLITICAL ANNOUNCEMENTS

This paper is authorized to make the following announcements in connection with the Democratic primary election July 23, 1932:

for Judge 88th District Court: J. D. BARKER.
BURETTE W. PATTERSON

or Sheriff: VIRGE FOSTER (re-election)

or District Clerk: P. L. (Lewis) CROSSLEY

or County Clerk: W. C. BEDFORD

2—HELP WANTED, MALE

WANTED—Two or 3 men with experience about \$20 week while learning. Write Box AF, for appointment.

7—SPECIAL NOTICES

ERS. C. L. ERVIN, exclusive agent for Baldwin Piano Co. Phone 17, 411 Main st., Ranger.

MONEY TO LOAN on automobiles. C. E. MADDOCKS & O. RANGER.

BEAUTIFUL Permanent Waves, only \$1. Loflin Hotel, Ranger.

ANGLETTE OIL WAVE, \$1.00, guaranteed. Miss Johnnie Moore, 11½ North Austin st., Ranger.

9—HOUSES FOR RENT

22—POULTRY, PET STOCK

21—LEGAL NOTICES

No. 96497-A
SHERIFF'S SALE
THE STATE OF TEXAS,
County of Eastland.

By virtue of a certain order of sale issued out of the honorable district court of Dallas county, on the 16th day of February, 1932, by J. Balke, clerk of said court, upon a judgment in favor of Southland Life Insurance Company, a corporation, for the sum of Thirteen Thousand, Four Hundred Forty-seven and 59-100 (\$13,447.59) Dollars and costs of \$15.47, in cause No. 96497-A in said court, styled Southland Life Insurance Company, a corporation, versus U. M. Simon, W. H. Slay, W. P. Strawbridge, C. Q. Rogers, W. H. Huber, J. C. Huber, C. B. Huber, M. H. Smith, F. I. Clark, West Texas Electric Company, Norvell-Wilder Hardware Company and E. J. Barnes Lumber Company, all placed in my hands for service, I, Virge Foster, as Sheriff of Eastland county, Texas, did on the 23rd day of February, 1932, levy on certain real estate situated in Eastland county, described as follows, to-wit:

That certain strip of land 65 feet in width off the northerly ends of Lots Nos. 16, 17 and 18, in Block No. 28, in the town of Blundell survey, and more particularly described as follows, to-wit:

Beginning at the northwest corner of said Lot No. 18 on the southerly side of an alley in said block; thence eastwardly with the north line of said Lots Nos. 18, 17 and 16, and the south line of said alley, 150 feet to the northeast corner of said Lot No. 16; thence southerly with the east line of said Lot No. 16 and the west line of another alley in said block 65 feet to a corner; thence westwardly parallel with the north line of said three lots, 150 feet to the west line of said Lot No. 18; thence northerly with said west line 65 feet to the place of beginning, and levied upon as the property of said U. M. Simon, W. H. Slay, J. L. Chance, W. H. Arnett, W. P. Strawbridge, C. Q. Rogers, G. W. Huber, J. C. Huber, C. B. Huber, M. H. Smith, F. I. Clark, West Texas Electric Company, Norvell-Wilder Hardware Company and E. J. Barnes Lumber Company, and on Tuesday, the 5th day of April, 1932, at the courthouse door of Eastland county, in the city of Eastland, Texas, between the hours of 10 a. m. and 4 p. m., I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said U. M. Simon, W. H. Slay, W. J. Arnett, W. P. Strawbridge, C. B. Huber, M. H. Smith, F. I. Clark, West Texas Electric Company, Norvell-Wilder Hardware Company and E. J. Barnes Lumber Company, by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale in the Eastland Telegram, a newspaper published in Eastland county.

Witness my hand, this 23rd day of February, A. D. 1932.

VIRGE FOSTER,
Sheriff, Eastland County, Texas.
By D. J. JOBE, Deputy.

Alma Gives Up Wild Ways and Returns To Home

By United Press.
EL PASO, Texas.—Alma at last has returned to her mother, young Billy Means.

Alma, a beautiful cream colored mare, answered the call of the wild two years ago.

Young Means rode the ranges day after day in search of the mare. His quest led him over mountains, river and desert plain.

On his last search, the mare saw Means from a distance, walked slowly to him, and nudged his shoulder.

She seemed to be glad to be back.

DOG EXPERT ROLLER SKATER
NEWCASTLE, Me.—Frank Jacobs' dog is an expert roller skater. Jacobs made a special set of two-wheeled skates for the animal.

Secret Passage Leads To Still

By United Press.
FORT WORTH.—The policeman of mystery stories has come into reality.

The "tap, tap, tap" of a policeman's stick resounded through the house as Policeman Walter Dews and Joe Johnston carefully searched for a hidden vault.

On the second round of the house, Johnston's stick hit the right spot. A secret door opened, revealing a ladder. They climbed the ladder and discovered a small distillery, 34 gallons of whisky and 24 pints of beer in the secret room.

The dime-a-dance girl

Beautiful Ellen Rossiter, employed at Barclay's Department Store, works nights as a dance hall hostess. She lives with her mother Molly Rossiter, her elder sister, Myra, and her brother, Mike.

Steven Barclay, 57 and owner of Barclay's, is in love with Ellen. Twice she refuses to marry him because she loves handsome Larry Harrowgate, an artist she has met at the dance hall. She loves him despite the fact that his engagement to Elizabeth Bowes, a debutante, has been announced. Ellen agrees to pose for Larry. One night at his studio she sees a photograph of Elizabeth Bowes. Larry says casually that she is a friend.

Ellen decides to break with Larry but he comes to the dance hall and asks her to lunch with him and his mother next day. For the first time he kisses her. Next day Ellen receives a note from Larry saying he cannot keep the date.

In a newspaper she reads that Elizabeth Bowes is back from Europe. Broken-hearted, the girl flings herself into her work at the store and at Dreamland to forget. Gradually she comes to think less of Larry and more of Steven Barclay.

Ellen decides to break with Larry but he comes to the dance hall and asks her to lunch with him and his mother next day. For the first time he kisses her. Next day Ellen receives a note from Larry saying he cannot keep the date.

In a newspaper she reads that Elizabeth Bowes is back from Europe. Broken-hearted, the girl flings herself into her work at the store and at Dreamland to forget. Gradually she comes to think less of Larry and more of Steven Barclay.

The morning at the store had been a happy one for Ellen. The pleasantness of the evening before lingered through the opening hours of the day.

Noon came. Ellen and Lorene yawned, looked at each other interrogatively and began tidying up for lunch. Lorene tentatively suggested a newly discovered tea room with a banquet 75-cent luncheon. They set off and talked shop through the lazy, unhurried hour. Ellen found it pleasant to lunch in such a comfortable fashion. Afterwards when they were strolling back to the store, Lorene said suddenly:

"I've decided to let you try Blumstein's yourself this afternoon. I hear they have some cute sports dresses at \$9.10—a new line. Carney & Co. has a whole window display from there."

"Oh!" said Ellen, flushed and thrilled.

"Get three or four. Green is a good bet. I think. And nothing too fancy. Use your own judgment. Afterwards, if you want to, you can go on home and not bother coming back till tomorrow. Your lot won't be delivered till morning anyhow."

"You don't know how proud—" Ellen began inarticulately.

"Forget it! If you make any bloomers I'll come down hard enough! Not that I think you will."

It was 4 o'clock when Ellen finished with the manufacturers and walked up Pine street toward home. She reviewed the purchases she had made and found them good. Underneath lay the pleased consciousness that she was through with Barclay's for the day. Myra should be home from the library. Tea and muffins in the kitchen, perhaps. Ellen's steps hastened.

She entered the dusky hallway and had started up the stairs when Myra, wearing an old faded apron and bedroom slippers, her head wrapped in a towel, came flying down. Ellen saw disaster in her sister's eyes.

"Ellen! Mike's been hurt. An accident!"

Ellen leaned against the banister. Her heart seemed to stop. Her brain—everything—seemed to stop for a terrible, timeless moment.

"He's unconscious. They carried him in our bedroom."

Myra was gone. Ellen ran up the stairs and into the shabby familiar living room filled with silent people, women in dust caps

and aprons, a few coatless perspiring men. Mike's bicycle was propped against the wall. They were all looking at it.

"It's the other sister," Ellen heard someone say.

"Poor thing! Let her through."

Stirring, moving uneasily, they made a path for her, all the curious, kindly neighbors, but Ellen did not notice. She ran past them to the bedroom. Mike lay unconscious on the bed. Mrs. Clancy, concerned and anxious, was leaning over him. Molly sat still and white in a chair drawn close. She did not move as Ellen entered.

"Oh, Ellen, it's you! I thought Myra—" Mrs. Clancy turned and spoke quietly.

Ellen's breath came in great gasps. She could not speak.

"Sit down," Mrs. Clancy said. The Irishwoman left the bed and took her hands in an effort to force her to a chair. Ellen leaned against her, spent, exhausted, her eyes on the little motionless figure on the high white bed.

"What happened?"

"It was the bicycle," said Mrs. Clancy patiently. "At Pine and Chestnut. He was wheeling it across when a truck, a big truck—he pushed the bicycle clear but—"

"The doctor?"

"We've called him. Myra's gone to see."

Myra came in just then.

"Dr. Ellis in on his way," she said.

"Oh, Myra, Myra!" Ellen whispered.

"He—he's breathing. Ellen. We have to hope and pray."

Their fingers closed together tightly; their terrified eyes met and failed of reassurance.

Molly sat motionless, tearless, speechless. Myra tried to make her leave but she would not. Ellen knelt beside the bed, not daring to touch Mike except to take one of his tawny mailed hands, still grimy from play, she hardly knew what went on about her. She was not aware that Myra had at last succeeded in getting Molly into her own bedroom. She was aware only of Mike and his death-like pallor and his death-like stillness.

"Dr. Ellis came. Another doctor came. Ellen hardly understood that they had forced her from the room so they could make the examination. After a long while—it was dark outside now—the doctors reluctantly announced they still could not say how gravely the boy was injured. Internal injuries undoubtedly—the persistent coma due to that—one leg broken, perhaps his spine affected. The child should be in a hospital. They wanted another opinion before moving him."

"How soon will we know the best—or the worst?"

It was the ghost of Molly's voice.

"We'll," Dr. Ellis hesitated, "if he holds out through the night we should be able to move him by morning. An immediate operation would be too dangerous."

Ellen returned to her vigil beside Mike. Myra moved in and out, but most of the time she stayed in the next room with Molly who lay sleepless, staring, tearless. Sometimes Mike's breathing grew heavy and the strange, stertorous sound filled the watcher with panic. Yet never would Ellen allow her hopes to flag. Toward morning Mike stirred for the first time and murmured something incoherent about a bicycle. Ellen looked quickly toward Dr. Ellis at the other side of the bed.

"That's good," he said.

Presently the doctor gave a deep sigh. "You can tell your mother and Myra we'll be moving the young man to the hospital in an hour or so."

He bent and fumbled for Mike's pulse, looked across at Ellen and smiled wearily.

The ambulance came for Mike. There was a crowd on the street when they carried him out into the morning sunshine. Molly rode in the ambulance. Ellen and Myra followed in a cab and told each other with courageous lips and frightened eyes that everything would be all right. Dr. Ellis had said...

They reached the hospital and saw Mike wheeled away. In a long, white, brightly lighted hall, heavy with the smell of ether and iodoform, the three women waited. Again and again Myra or Ellen would impudently make a crisp, starched nurse for news that did not come. They started at every ring of the telephone and then sank back looking at each other with bleak eyes and faltering hearts.

The great hospital seemed to have swallowed up little Mike as though he had never existed. At 11 o'clock Ellen, haggard and heavy-eyed, remembered that she had not notified Lorene of her absence from the store. She whispered to Myra and slipped to the telephone, hunted by a vision of Molly's face. If anything happened to Mike she was afraid that Lorene...

Lorene answered the call and Ellen tore her thoughts from the unthinkable future. She explained what had happened and was back on the bench again. Hours had never been so long or so empty.

It was 12 o'clock. Then 1, 2, and nearly 3. Still no word. Dr. Ellis appeared but he could tell them nothing. At 3 o'clock he approached again.

This time Ellen read the news on his weary face before he spoke. Good news! She had not known until that moment how great her fear had been.

"He's going to pull through," the doctor told them. "We were afraid for a while that he wouldn't rally from the operation."

"Oh!"

Molly began to sob. She struggled to her feet, tears raining down her face, the first tears she had shed since the accident. Her cold, desperate fingers tugged at the doctor's sleeve.

"Where is he? Let me go to him—at once."

"I'm afraid you can't now," Dr. Ellis said gravely.

The nurse, standing at his elbow, intervened. "That will be impossible. The little boy is very tired now and sick. He's in a ward with a number of other children who also cannot be disturbed. Our visiting hours are on Tuesday and Thursday at 3 o'clock. In view of the circumstances if you come early tomorrow we might make an exception."

Ellen's eyes appealed to Dr. Ellis. "But won't Mike need a room by himself, special nurses and all those things?" she asked.

"I don't think it will be necessary," he answered slowly.

She knew that he was thinking of her poverty. She stepped nearer, said in a low voice that Mike must have every attention.

Recent Eastland Bride Is Honored With Lovely Affair
A profusion of Spring blossoms primarily of pear and peach dotted amid branches made more colorful by their own foliage, presented a lovely setting in the home of Mrs. J. B. Leonard of Eastland, early this week when she and Mrs. E. R. Townsend and Mrs. Milton Lawrence, entertained with a beautifully appointed 7 o'clock dinner and miscellaneous shower, naming Mrs. Galand S. Poe, recent bride honoree of the hour.

A three-course dinner as served at individual tables laid with dainty covers and appointed with choice service, of silver and crystal. After dinner bridge was played with the participated theme given more emphasis by the striking accessories.

During the evening Mrs. Poe was presented with a lovely array of miscellaneous gifts each enclosed in attractive wrappings. The young and popular honoree was the former Miss Mary Elizabeth Harris, society editor of the Eastland Telegram, before her marriage took place two weeks ago.

The delightful function focused in society's limelight is one of the prettiest to have been given in Eastland for several seasons.

Covers were laid for a number of close friends of the bride.

Mrs. Davis Presides at Lodge Hour
Mrs. Eva Davis, guardian of the Julia Alexander Grove No. 1954, presided at the Wednesday afternoon session at which time the minutes from last week's interesting and profitable meeting were read and approved.

One communication was heard during the hour, with four members reported ill. The visiting committee composed of Mrs. Barney and Mrs. Greer, rendered a report of members visited during the past month.

Mrs. Cash, past guardian, sent flowers and mailed cards to absent members expressing sincere good wishes from the organization. She is in recent receipt of a letter from the national president, Mrs. Mary E. LaRocco of Omaha, Neb., personally complimenting the grove on their active and successful work done throughout the New Year.

Mrs. C. C. Francis, junior supervisor asks every member of the junior grove to be present at the meeting announced for Saturday afternoon, 2:30. Number of lines through newspaper reports for the month of January marked a score of 321, for the Ranger Woodman Circle, Mrs. C. C. Cash, acts as reporter for the order. The impressive session was attended despite the influenza epidemic by 12 members.

Doreus Club Social To Be Held With Mrs. Avant
Mrs. W. R. Avant will entertain the Doreus Club at her home, 309 South Hodges street, Friday afternoon, at 2:30.

Director Announces Choir Rehearsal
Carl Brumblow announces a choir rehearsal to be held at the First Baptist Church this evening at 7:30. Members are urged by Mr. Brumblow to be present.

Preparations Completed For P. T. A. Social
Preparations have been completed for the Cooper P. T. A. social to be held at the school auditorium this evening at 7:30. A special musical program will furnish entertainment during the hour. Patrons and friends are extended a cordial invitation through the ward school's personnel.

Refreshments will be served and a pleasant evening is in store for the many who are reserving this evening for the occasion.

St. Patrick Color Motif In Pretty At Bridge Party
The St. Patrick color motif was unusually pretty throughout the decorations and bridge appointments last evening, when Mr. and Mrs. Ralph Herring entertained with one of the most delightfully arranged parties of early spring.

At tables reflecting notes of green and white Mrs. Noble Harbinder, won high score for the ladies, and Mrs. Harbinder high for the men. The cut was made by Mrs. J. B. Leonard.

A salad course with tuna fish sandwiches, lime jello and coffee was served with napkins designed in St. Patrick's Day emblems.

The latter part of the evening hours was spent in dancing. Party members included Messrs. and Mrs. J. B. Houghton, J. J. Russell, Kin Russell, Preston Burks, George Tidwell, Frank Ford, Noble Harbinder, A. L. Murrell, O. E. Samms and hosts, Mr. and Mrs. Herring.

Tip-Offs
ISN'T it a tip-off on the strength of the New York Yankees that none of the other American League clubs would let McCarthy have one of their pitchers, even though Marse Joe offered some pretty good ball players in exchange?

This may or may not be a tip-off on the payroll of the Pittsburgh Pirates. Bill Swift, pitcher purchased from Kansas City, returned half a dozen contracts tendered by the Pirate management. Bill explained that he expected more money in the National League than he had made in the American Association.

It's Bedtime, Boys
THE tip-off on Manager Maximilian Carey's directorship of the delightful Dodgers is currently suggested by that 11 p. m. curfew law which governs night measurements of the Brooklyn athletes at their Clearwater training camp.

The refusal of Miss Sonja Henie, Olympic figure-skating champion, to appear at Ottawa should be a tip-off to something D. P. Cruickshank, Ottawa club official, said that Miss Henie's demands for expense money were exorbitant. Miss Henie said the matter of expense money was not involved. To be kindly, the affair might be called merely a tip-off to the effect that somebody is wrong.

Hello, Dizzy!
HERE is a tip-off written especially for the benefit of Jerome H. "Dizzy" Dean, the strange new Cardinal pitcher. Gabby Street is a man who congratulates you AFTER you have done something worth while, and not when you just say you are GOING to do it.

The conquest of the Not-Son Young Stribling by Ernie Schaaf is a tip-off to two things already suspected. Stribling is very thoroughly scrubbed up. Schaaf still needs a lot of polishing but looks like a pretty good heavyweight prospect.

If it isn't a tip-off on United States strength in the Olympic games this summer, how might the recent promiscuous showing around the records have been taking be construed?

As a tip-off to the quick-change ability of Dame Fortune, consider that not quite nine months ago,

Reporter Turns Detective
JACKSON, Mich.—When Merritt C. Aten, recently appointed inspector of detectives here, makes out a report to superior officers, it may read thus: "The bullet torn body of an unidentified woman, her clothes splashed with blood, was found in a lonely section, etc." Aten is a former newspaper reporter, noted for his ability to assist police in the solution of crimes.

Lubbock Guest Complimented Wednesday Afternoon.
Mrs. Curtis Kimbrell was hostess and Mrs. Earl Thomas of Lubbock was honoree at a bridge party Wednesday afternoon at the Kimbrell residence on South Seaman street.

Bridge was played at five tables. The St. Patrick color scheme was featured in the decorations and refreshments.

Those present were Meses. Roy Birmingham, M. J. Pickett, Frank Hightower, Tom Wynn, Jones, Jerry Jerald, W. G. Geue, Joe Stephen, Francis Jones, Charles Fagg, J. O. Brothers, I. L. Hanna, L. Hanna, L. Nash, Towlins, W. S. Poe, Roy Allen, Tom Harris, James Watson and Earl Thomas, the honoree.

St. Francis Altar Society Met Wednesday.
Mrs. Paul Brown was hostess to the St. Francis Altar society at her home Wednesday afternoon at 2:30 o'clock. Rev. M. Collins opened the meeting with prayer. Mrs. Brown, vice president, presided in the absence of the president, Mrs. Frank Bida. Mrs. James Cheatham Sr. was elected treasurer. Two new members were received, Mrs. James Cheatham Sr. and Mrs. I. M. Price.

In a clever contest Mrs. George Wilkins was awarded the prize, a sandwich tray.

Refreshments of brick ice cream, salad, wafers, cake and coffee were served to Meses. T. L. Lemmert, George Wilkins, J. L. Laurent, W. T. Root, James Cheatham Sr., I. M. Price, Rev. M. Collins and Katherine Brown.

Scale Runners Club Met Wednesday.
Annie Jane Taylor was hostess to the Scale Runners club March 2, at her home, 702 South Bassett street. The president, Constance Lindley, presided. Rubye Lee Pritchard read the minutes. The program was opened with the Junior Club song by members. Piano solos were played by Mary Page, Emma Lee Hart, Johnnie Lou Hart, Marjory Murphy, Betty Jo Newman, Johnnie Mae Murphy, Frankie Mae Pierce, Wilma Dean Pierce and Constance Lindley. Biography of Bach was given by Annie Jane Taylor. The club members sang popular songs accompanied by Marie Plummer. Johnnie Hazel Resse, Jo Camille Lough, Sybil Patterson, Rubye Lee Pritchard, concert piano solos.

The Easter motif was carried out in the decorations. The dining room table was centered with a nest of greenery filled with Easter eggs, candy rabbits and chickens. The living room was decorated with near blossoms. Refreshments of sandwiches, iced tea and candy Easter eggs were served.

The club will meet with Johnny Mae Murphy Wednesday, March 16.

RANGER HIGH SCHOOL NOTES
MISS JEWELLE JUDD
Editor

Supt. Holloway Gives Interesting Talk on Texas in High School Chapter
Supt. R. F. Holloway gave a very interesting talk to the student body in chapel Tuesday. Mr. Holloway gave the history of Texas, presenting flags under which Texas had lived. Everyone present enjoyed this talk very much. The entire student body sang "The Eyes of Texas."

A few skits of the Junior College one-act play were presented.

Senior Class Held Meeting.
The senior class held an important business meeting at 3:10 today.

"Shopping Courtesy"
Subject of Study for Home Economics Club
Members of the Home Economics club studied "shopping courtesy" at their meeting in high school Wednesday. Myrtle Dodd and Mary Testament presided over this program. Many interesting programs are being planned for the future.

Miss Adrian Hagaman sponsors the Home Economics club.

All report cards will be given out Monday, principal H. S. Von Roeder announces.

All six weeks exams were finished Wednesday. Wednesday marked the close of the first six weeks in the second semester.

AT RANGER HOSPITALS

City-County Hospital
Mrs. H. S. Von Roeder is reported by Miss Kenney, superintendent, as resting quite favorably following an operation.

Mrs. M. E. Cope, nurse at the hospital, is recovering from an attack of flu.

Mrs. M. E. Frost has been removed to her home.

West Texas Clinic
H. C. Wilkinson was able to be removed to his home yesterday afternoon and is reported much improved.

Mrs. Truman Bohanan, who was operated this week is resting very nicely.

Joe Gallagher of Cisco is resting well.

CLIPPERS CARRY FULL LISTS
By United Press
HAVANA.—The two Clipper airships operating between Florida and Havana are declared to be carrying more passengers each month than any other international route in the world.

SISTER MARY'S KITCHEN

BY SISTER MARY
NEA Service Writer

WHEN meat is off the menu desserts made with eggs are most acceptable. Such desserts are high in fuel value and contribute protein to a marked degree. It is only when the dinner is light in food value that a pudding rich in milk and eggs is suitable.

Custard pie is a universal favorite but baked custards are rather more desirable when there are small children in the family and they furnish variety in flavor.

Caramel Custard
A perfectly made caramel custard is one of the most delicious desserts in a cook's repertoire and in a season when eggs are cheap she surely is justified in serving it often.

Use two cups milk, 3 eggs, 3-4 cup sugar, 1-4 teaspoon salt, 1-4 teaspoon vanilla.

Scald milk. Melt sugar in an iron frying pan until a light brown syrup. Stir sugar constantly while melting. Pour about half the caramel into the pudding mold, turning mold rapidly to coat entire surface. Add scalded milk to remaining caramel and cook and stir until melted. Remove at once from fire and add gradually to eggs slightly beaten. Add salt and vanilla and pour into prepared mold. Place in a bath of hot water and bake in a moderate oven. Be sure that the water does not boil during the baking. Test by inserting the point of a silver knife in the center of the custard. If the knife comes out clean the custard is done. It takes about thirty minutes to bake a large custard. Individual custards will bake in thirty minutes.

Monday's Menu
BREAKFAST: Halves of grapefruit, cereal, cream, baked eggs, rye muffins, milk, coffee.
LUNCHEON: Cream of onion soup, croquettes, lettuce sandwiches, rhubarb Betty, grape juice.
DINNER: Spinach timbals, beaten potatoes, panini party cakes, entree with hard cooked egg dressing, floating island, crisp cookies, milk, coffee.

When the custard is cold, unmold onto a chilled serving dish. The caramel will run down over the mold and form a sauce around it.

Floating Island
Use two cups scalded milk, 3 eggs, 2-3 cup sugar, 1-4 teaspoon salt, 1 teaspoon vanilla.

Beat yolks of eggs slightly with half the sugar and half the salt. Stir constantly while adding scalded milk. Cook over boiling water, stirring until mixture coats the spoon. Remove at once from heat and strain if not perfectly smooth. Chill and beat in vanilla. Beat whites of eggs with 1 tablespoon cold water and remaining salt until stiff. Fold in remaining sugar, two tablespoons at a time. Flavor with vanilla and drop from tip of spoon over the "boiled" custard which has been poured into a chilled serving dish. Serve very cold.

The custard can be served in individual glasses with an "island" of meringue. A freshman in the department of the egg whites topping each glass. A cube of jelly or a cherry can be used for garnish.

Daily Production of Crude Oil Shows Slight Decline With A Decrease Also In Gasoline Stocks

AUSTIN.—Daily average production of crude oil since Jan. 1 has been steadily declining. Although crude oil production has been slightly higher since the first of the year than it was during the same period of a year ago, yet at the close of the second week of February, 1932, crude oil production registered at the same low mark of exactly a year ago, according to the University of Texas bureau of business research. Daily crude runs to still in the United States since the first of the year have been about the same amount as in the corresponding period of a year ago, the bureau's report said. However, gasoline stocks at refineries since the beginning of 1932 have been slightly below what they were for the same period of 1931.

"The general tone of sentiment among representative persons associated with the oil industry, taking the country as a whole, has recently been wairly optimistic," it was stated in the report. "Also, it has been apparent to the oil industry that up to the middle of February the factors of crude oil production, considering the complex circumstances involved, have been under good control. Consideration of the long-time features involved in the production of petroleum and its products unmistakably point towards the economic necessity and importance of further conservation measures in the oil industry all along the line from the point of initiation of production itself, and refining, particularly encouraging are the trends and operations discernible in the Chicago district, which include new refinery expansion, pipe line extensions and preparations to produce higher class motor fuels.

"Concerning production, East Texas continues to dominate the attention of the oil industry not only in Texas but in the country as a whole; by the middle of February, the total number of wells numbered 4,160; during the second week of February, 88 completions and 109 locations had been made; the area of the Joiner well had been extended one and one-half miles south; and preparations are being made for the pumping stage in production as indicated by the large amount of pumping equipment already on the ground but at present being used. In addition to the oil public natural gas has been found in the Joiner area; the older of the gas wells is rated as a 60,000,000-foot gasser while the newer one tested last week was making more than 22,000,000 feet of dry gas. The intensity of the new gas in the Texas oil fields has made this producing area one of the most noted in the history of the oil industry; further exploration and drilling substantiate the claim that this is the greatest oil field of all time; it has a proven productive area of around 100,000 acres and within the proven productive limits of the field it has a record of not a single dry well.

"Elsewhere in Texas a steady pace of activity is in evidence. Considerable activity exists in Ward county; some of the new wells were staked in the past week in the Wichita Falls district. In the Panhandle district, gas areas are the most active because of the necessity of the gas companies to drill for a larger and continuous supply of gas to meet the demands of the long-distance pipe lines extending natural gas to cities of the Middle West.

"A report of studies that have been made of the Yates pool, in Pecos county, estimates that the pool would flow 14 more years, orderly management as practiced in the past together with the aid of repressuring Yates pool, from October, 1926 to January 1, 1932, has produced 137,000,000 barrels; the recent report estimates that during the next 14 years the pool will flow an additional 312,000,000 barrels and pump 155,000,000 barrels; this would make the total recovery from this pool more than 600,000,000 barrels.

"Activities in the southern part of the state include the opening up of a western extension of the Permian field, by plans for deeper drilling in Real county, by further drilling in the new Aransas pool in San Patricio county, and by the shallow production of oil and gas in the New Olmos pool in Starr county.

In other phases of the oil industry in Texas various activities are in evidence. Among these are included the topping unit of the Petroleum Refractionating company's new plant at Longview to which added improvements are to be added at an early date, and the Gulf production company's natural gas refinery east of Houston to be completed near London in Rusk county. Statements have been issued to the effect that the Shell Petroleum corporation plans to start construction before March 1 on the new Dubbs unit and auxiliary equipment which is to be installed at the refinery of Houston—this installation is said to be but a part of an extensive program of expansion planned for the Houston plant.

"Official figures on world petroleum for 1931 show that production of Russia and Sakhalin ranked second to that of the United States for the last year, thus surpassing Venezuela which has ranked second to the United States for several years; these figures show, also, that world oil production in 1931 was somewhat less than in 1930; this has taken place in spite of an increase of some 30,000,000 barrels in the output of Russia and Rumania; all the other important producing countries show a decrease in output.

"During 1931 the United States produced nearly 63 per cent of the world's oil output. Europe more than 15 per cent; South America, 13 per cent; Asia less than 7 per cent. In 1931 Texas produced about 24 per cent of the total oil output of the world for that year; California produced nearly 14 per cent and Oklahoma somewhat less than 13 per cent."

Road Graveled With Gold Nuggets
By United Press
DANBURY, Neb.—Nebraska has a 15-mile highway graveled with gold.

"That fact recently became known when it was discovered that an old gravel pit was in actuality a paying gold mine. The output of the pits, once sold to construction companies, for use on highways, now is being run through a flotation mill. It is said to assay between \$4 and \$16 per ton.

The gold graveled road is in Red Willow county, between Danbury and Indianola. Workmen noticed that the gravel from the Alec Brown pits glittered in the sunlight. Tests of the gravel were made and showed gold.

Chemists report that the average paying gold mine of the world assays from 50 cents to \$5 of gold per ton. The Danbury mine is assayed at upward of \$4 per ton. The world's richest gold mine assays \$24.23 per ton. So the backers of the mine believe it presents better than normal commercial possibilities.

If the \$4 per ton assay is correct, experts state, there was approximately \$20,000 of gold spread along the highway from here to Indianola, justifying the better than normal reputation for being gold pitated.

COP'S AUTO STOLEN
By United Press
RICHMOND, Va.—Automobile thieves stole a city-owned automobile from in front of police headquarters here.

Heads Jap Navy After War Row

Admiral Prince Hirofushu Fushimi, above, has been appointed chief of the Japanese navy's general staff, replacing Admiral N. Taniguchi, as a result of the dispute over handling of the Shanghai invasion. Fushimi is cousin of the late Emperor Meiji, famed grandfather of the present Mikado.

Keeping Up With Eastland County Students at C.I.A.

DENTON, Texas, March 3.—Kenneth Wier, daughter of D. and Mrs. A. K. Wier of Range and Frances Glazner, daughter of Mr. and Mrs. E. M. Glazner of Banger, are members of the college choir who sang at the First Baptist church in Sherman, Sunday, in the second of a series of spring concerts. The choir sang seven numbers, one of which was written by Dr. Ivan L. Schultz, an assistant professor in the department of English. The song entitled "Mother of Light," is set to music taken from Sibelius' tone-poem for orchestra, "Finlandia."

Miss Wier is a junior voice major at Texas State College for Women.

Miss Glazner, a freshman in the college, is majoring in education.

PARIS STYLES

By MARY KNIGHT,
United Press Staff Correspondent
PARIS.—For sport wear this year, a variety of linen material have been shown here, as well as a great deal of washable silk crepe. The colors shown to the best advantage are cream, rose, blue and green. For town the new tweed, which looks like a very soft crepe wool, heavy silk crepons, printed crepes and a reversible crepe that has a brilliant satin finish on one side and is dull on the other, are used extensively by Schiaparelli.

Black, red-brown, navy blue and beige are used for suits by many houses, and also for coats and dresses. A lovely heavy crepe and the new reversible satin crepe mentioned above are exquisite for evening gowns of the 1932 genre.

A Pittsburgh judge fined a woman \$5 for making goo-goo eyes at him. From now on, Pittsburgh women will insist on trial by jury.

PUT on your bib if you want be ultra.
