#### MRS. ROOSEVELT WILL TALK FOR THE FORGOTTEN WOMAN'

Mrs. Franklin D. Roosevelt is going to make an appeal for "the forgotten woman", not for Mrs. Raymond Robins, because the colonel returned and the boys of the press are seeing to it that this faithful wife will not be forgotten or overlooked.

Mrs. Roosevelt will make an appeal for money-money to carry on the work of the Woman's Union Trade league of New York "of which many of the women she will be talking about are members." Mrs. Roosevelt is the busiest woman under the skies of America.

For many years she has been a member of the finance committee of the Woman's Trade Union league. She is the editor and manager of the magazine, "Babies." She teaches school. She is an active member of a dozen welfare ofganizations. She is the boss of a training school for girls. All-in-all, this is more uplifting and exhilarating than three sittings of bridge daily or a daily round of pink teas and like diversions by many of the sisterhood. Man was placed on this earth to work. Woman was given a mission. It was ordained that she should work too. All of this is a reminder there has been a lot of hustling on the part of those who came up "in the soft years" and after the crash made the discovery that "milk and honey" do not grow on

He had an anholy ambition to make Minority Leader Joseph Taylor Robinson of Arkansas "eat humble pie." He started his brass band ballyhoo campaign in Arkansas and the one gallused democrats of that commonwealth gave the Widow Caraway a vote that swamped the combined balloting recorded for six hungry sons of Andrew Jackson, who are ambitious to become trainers or guides of the donkey on the floor of the American senate. #### Montgomery Ward Opens Up Toyland

H. J. Barham, manager of the Ranger store of Montgomery Ward & Co., has announced the opening of Toyland on the second floor of the company's building on Main The entire floor has been de-

corated in Christmas style, with one special section of the second floor turned over to the display of wheeled toys, including trains, automobiles, airplanes and other toys that will delight the children. The rearrangment of the second floor has made the toy section much more available for the dis-play of toys and the youngsters of this section should get lots of enjoyment out of paying a visit to this toyland.

**During This Week** 

The Shoppe Moderne enters the last week of their stay in Range after several years of catering to the feminine tastes in apparel and objects d' art. After this week the shoppe is to be moved by its owners, Mrs. Howard Gholson and Mrs. C. C. Craig, to Lubbock. For the past two weeks they

have been doing a wonderful busi ness with their removal saie, and it is no wonder, since they are sell-ing merchandise at cost and below

It is with regret that Ranger as a whole sees this move as it takes away one of the citizens' loveliest places to shop and the merchant could ask for no fairer competi-tion nor better neighbors.

#### Killingsworth-Cox Has Toy Display For The Youngsters

The Killingsworth, Cox & Co in Ranger opened their Toyland on Saturday afternoon when they entertained more than 500 children who were present to see their di-play of children's playthings.

The windows and the store have been decorated for the holida; season in a manner that has al ready proved to be a special at traction to the youngsters. The children who did not get to visit the store on Saturday have been issued a special invitation to go to the store at any time and to look over the things Santa has put on display in the store.

# "MOTHER KNOWS BEST" . . . does she?

Guiding their inquiring minds and dynamic activities choosing their food, clothes, entertainment and health needs . . . the well-informed modern mother knows what is best for the welfare of her offspring. And it is safe to say that an incalculable share of her accurate information has had its beginning in the advertising columns of this newspaper.

Many of the advertisements of today bristle with ideas. They are more than catalogs. In the true sense, they are education! Scientific minds contribute to their contents. Their recommendations are based on deep thought. Their words are carefully chosen; their diction studiously formed for clarity and understanding.

Through advertisements the mother of today learns authoritatively about new methods in the care of children's teeth. About antiseptics and hygienics. About body building and health-giving foods. About new comforts, as well as new styles, in juvenile wearing apparel. About books and schools and vacation camps. . . . The advertisements pour innumerable hints and suggestions into her store of knowledge. They make her a more capable manager of the home and guardian of the family exchequer.

"Mother knows best"—is this expression heard about your home? Is it just an admonition? Or, is it founded on facts? Reading advertisements will help to make

Boy Scouts have a big opportunity this special Christmas son for community service that will count.

Not in years in the history of our nation has the Christmas season approached us and found us so illy prepared to meet its expec-

Now is the time when the Boy Scouts can prove their mettle and with their youth, initiative, and aroused interest accomplish great er results in the way of helping others to help themselves, than they have had the opportunity for

during their young lives.

If it is possible to please some boy with the gift of a book, what could be more delightful than "The White Leopard." a story about Africa, and full of adventure; or "The Painter Arrow" real adventure. "The Painter Arrow," real adventure story of outdoor life of the ill-fated colony planted for the French king at the mouth of the Mississippi river; then there's the story, "His Excellency and Peter," which tells of a peasant boy, and his adventures with the Siberian railway building. Perhaps of all these stores "Heroes and Hazards" would appeal the most to the average boy, for it deals with bridge builders, deep sea divers, fire fighters, and all kinds of modern

eroes that boys adore.

If these kinds of books are unavailable, then ask your friends if they have a set of magazines that have a set of magazines that have serial stories running through several numbers. Take out the serial section, collect the entire set, and bind them in your Boy Scout shop. You then have a ook of adventure which you have helped to compile, and can send to some children's hospital for the enjoyment of some little invalid or some little crippled child.

Yes, the Boy Scouts can teach others many ways in which to ex-press the Christmas spirit and make the Christmas gift, without leaving back of it a sorely burden-ed father and a worried mother, who had to provide funds for something which they could ill af-ford.

Now is the time for all goo men to spend their Christmas sav-

BEGIN HERE PODAY

AMOS PEABODY, elderly cousin of LINDA AVERHILL, falls to his death from the second floor balcony of the Averillis' Long Island home. Linda reaches him just before he dies, in time to hear him gasp, "He pushed me—!"

Linda, realizing her cousin had tried to tell her he was murdered, rushes upstairs to the balcony. Someone steps behind her, tries to strangle her and she falls in a faint. Her husband, TOM, sees her fall and rushes to her There are four guests in the house and they all appear. The guests are MR, STATLANDER, business associate of Tom's; CAPTAIN DE AOS, handsome Belglan; MARVIN PRATT, former suitor of Linda's; and LIAN SHAUGHNESSEY, frish writer. Each of them has quarreled with Cousin Amos.

reled with Cousin Amos.

DR. PARSONS takes charge. It is assumed Cousin Amos' death mas accidental and that Linda intelled from shock. When she is dually able to tell Tom what happened she persuades him that they must keep the four guests with them until they discover who is the murderer. There is no evidence on which to arrest anyone but Tom and Linda both feel that one of the four is guilty. Suspicion points to Pratt because he was first to reach Linda after she fainted, and to Shaughnessey because Tom met him on the grounds a few moments later. ### Vicks Company Increases Payroll to Handle Business

GREENSBORO, N. C., Nov. 26. 42 per cent!-a rise in volume of

sales of more than 35 per cent! That is the impressive record made by Vicks VapoRub, Vicks Nose and Throat Drops and Vicks Medicated Cough Drops for the first nine months of 1932-figures disclosed today by L. Richardson, president of Vick Chemical com-

The record is made even more impressive by the fact that the House of Vicks showed a healthy increase in volume of business and yment in the years of 1930 and 1931, too.

It's a story of business courage and of advertising faith. A year ago-running counter to the general current of business and against the judgment of advisers—Vicks more than doubled its appropriation for advertising, and introduced two new products. The bulk of this appropriation, as usual, went to newspapers. What has followed is an actual demon-

stration that sometimes the seemingly impossible "can be done."

Volume of sales of the Vick leader—Vicks VapoRub, the almost universally used treatment for colds-has increased steadily Rise of the two new products has been phenomenal.

Sales of Vicks Nose and Throat Drops-the new aid in preventing -exceeded estimates by more than 50 per cent. Sales of the unique Vicks Cough Drop—medi-cated with Vicks VapoRub—were little short of sensational-over 20 million packages the first sea-son. Already this season, President Richardson states, sales on this item alone exceed seven and one-

half million packages.

These new products, in combination with the famous Vicks Vapo-Rub, made possible the new Vicks Plan for better Control-of-Colds.In clinical tests among thousands last winter, this plan was proved suc-cessful in reducing the number, duration and costs of colds by half. In view of that success, President Richardson announces that it will be backed this season by an advertising appropriation substantially larger even than that of last
