ON STATE COMMITTEE

Mrs. Ida M. Darden today announced the names of those who have accepted an invitation to serve as members of her state campaign committee in her race for congressman-at-large. The announcement was made at Fort Worth. Among those who serve on the committee are W. J. Gardenhire of Frankell and James T. McCleskey of Ranger.

NEWCASTLE, Pa., May 23.—
Three men robbed the Mahoning twon, Mahoningtown, near here, of several thousand dollars today, killed Policeman Clarence Campbell as they were leaving, and escaped in a car driven by a fourth man.

The report of the robbery was broadcast over the state wide police teletype system. Varying descriptions of the bandit car were given.

GRINDING AN AX

President Hoover has around him a dozen shining lights of the newspaper publicity world. These busy gentlemen have taken time by the forelock. They know what to write and ho wto write it. They are the publicity trail blazers for President Hoover and his administration in this campaign. Among the aces of the tribe are Dr. Mark Sullivan and Walter Lippman, who are stars of the New York Herald-Tribune which is the republican party organ of the East and the North and the brilliant as well as poisonous literature ground out by these two eminent personages is syndicated to lesser newspapers the nation over. Of course, theirs is a perfectly legitimate cause. They are master players in this game of political publicity. They are close to the Hoover throne. Well, President Hoover is the leader of his party as well as chief magistrate. He is a candidate for re-election. He has been in public life a lon gtime. He knows the force of publicity which is valuable to the republican cause and poisonous to the donkey and the fodder fed to the donkey by the opposition.

President Hoover is able to reach the ear of the American public all the time. A president of the United States, if he knows his onions and his friends, ever has the best of the argument. President Hoover makes a very fervent and very lucid appeal to the people daily. Of course, he is playing for points, playing for sympathy, playing for the independent vote. And in his non-partisan messages he knows where to plant the poison where it will do the most

Speaker John Nance Garner retaliated the other day In the parlance of the man in the street, he took the president for a ride and gave that eminent personage a Garner skinning. This left an opening for Senator George H. Moses of New Hampshire, the keenest wit on the republican side and the most scorching master of invective as well as a political leader who knows when and how to strike at his political opponents above or below the belt. Senator Moses is the gentleman who in debate in the recent past referred to the senators and representatives from the West and Northwest and other so-called "hick provinces" or sections of the republic as "the sons of wild jackasses."

Yes, the New Hampshire iconclast turned his typewriter loose and proceeded to take the Speaker for a ride and a skinning. What he had to say about democratic incompetency and democratic inefficiency was plenty. Hoover passed the buck to Garner. Garner passed it back. Then the intellectual firebrand of New England vintage shot his bolt and now it is up to the democratic leaders, trainers of the donkey and the donkey program for 1932 to prepare their machine guns for action. It is a long road to Tipperary for the republican elephant, and it is a rocky road to Tipperary for the democratic donkey if the Eastern stoppers and their undercover allies deadlock the Chicago convention and in the last analysis trot out a good man whom defeat will not hurt.

Really, it is high time the statesmen under the big dome in Washington, and this regardless of party affiliation, toss aside their ambitions and their prejudices their personal ax granding and do something for the good of their country and the waiting millions who are hoping for patriotic action in the final legislative acts to follow before adjourn-

A BANK RUN IN A COAST CITY

Irresponsible rumors started a run on one of the leading banks of Port Arthur. Now starting the rumor that a bank will fail is an indictable offense and the grand jury of Jefferson county will be asked to investigate the run on the First National bank of the flourishing oil city. Officials of the bank paid out to every claimant that had run amuck. It is announced that the Texas company, the Gulf company, and the federal reserve bank of Dallas sent threequarters of a million dollars by airplane. Sister banks rushed to assistance in cold cash and the federal reserve bank in the city of Washington wired that it was releasing an additional half million dollars for the institution which had been endargere dby the malicious makers of irresponsible rumors. After the run was over the Porth Arthur News reviewed it. A ringing editorial returned this verdict: "Mass theory is a terrible thing because it is unreasonable, so determined, so heartless, so relentless. LET US DETER-MINE NOT TO LEND OURSELVES TO THE REPETI-TION OF SUCH A DUBIOUS AFFAIR.'

A GOLDEN SIGN OF THE TIMES

Lest we forget, the Telephone and Telegraph company declared their regular dividend of \$2.25 on the regular capital stock; the national employment commission of the American Legion has reported that 764,000 men and women now are back on payrolls as a result of the campaign made by the Legion to find jobs for a million unemployed; the American senate leaders promise a large appropriation for the assistance of the unemployed the country over before congress shall take a recess for the summer. Regardless of all this, the congress may continue to grind away tian and permit the national conventions of the major parties to do their own grinding. Why not? Senators and representatives are elected by the people and paid by the people to serve all the people by remaining at their posts until all important business has been transacted.

ANOTHER TEXAS WOMAN IN THE FIELD

Mrs. Alex Adams of San Antonio, leader among the club women of Texas, will make an active campaign for the democratic nomination for congressman-at-large. For years she has been active in the politics of the Alamo City and the congressional district represented by Richard M. Kleberg. Books will close in June and to date there are about 40 entrants seeking the three jobs. It is the open season for running. In July the voters may return o the lucky trio.

Chesterfield tobaccos are aged right

Made in factories as clean as your kitchen

TOWADAYS, when so many people are talking about purity...pure food, pure milk, pure water...it's worth a minute to tell you something about the purity of Chesterfield cigarettes.

All the materials that go into the making of Chesterfield eigarettes are tested again and again by expert research chemists. Just like the things you eat and drink.

The tobacco is pure-the right kinds, Domestic and Turkish both, mild, sweet, ripe. The paper is pure-clean, white, the best cigarette paper that money can buy. There is purity in every ingredient and cleanliness in every operation.

You can know, when you light a Chesterfield, that it is as pure as science can make a cigarette. And your taste will tell you it's milder, it tastes better.
