SOME FACTS ABOUT TEXAS AND ITS CITIES

Texas has 81 operating petroleum refineries, of which 40 have facilities for cracking the oil at high temperatures and under high pressure, according to the Progressive Texans, Inc., bulletin. These refineries have a daily refinery capacity of 845,700 barrels of crude, or almost one-fourth of the total capacity of the United States—namely, 3,365,830 barrels daily. California ranks next to Texas; New Jersey is third, and Oklahoma fourth in refining capacity.

Texas has 7214 restaurants and eating places, according to census facts and figures. Texas has 2590 lumber yards and building materials stores. Texas has 15,855 grocery, meat and combination stores; Texas has 2031 motor vehicle sales establishments; Texas has 8740 filling stations; Texas has 3585 garages; Texas has 934 automobile accessory stores; Texas has 529 exclusive shoe stores; Texas has 3509 drug stores; Texas has 5187 manufacturing establishments.

Houston has 3486 stores of all kinds, with an annual business of \$185,470,000; Dallas has 3475 stores with an annual business of \$181,250,000; San Antonio has 3329 stores with an annual business of \$123,050,000; Fort Worth has 1190 stores with an annual business of \$108,760,000.

ANOTHER BLOW ON THE NOSE FOR THE PRESIDENT

A democratic bill to revoke the president's authority to make changes in import duties was passed by the senate on April 1. This was made possible by the old democratic-independent-republican coalition again in the saddle. By a vote of 42 to 30 the coalition stripped the president of all power in a tariff making sense and returned the measure to the house. Pat Harrison of Mississippi and Tom Connally of Texas led the fight for the stripping act on the floor of the senate. Six independent republicans from the West and the Northwest joined hands with the democrats. Their votes made possible the passage through the senate of the tariff act hammered into shape by the house majority. Now the president promises to veto the tariff measure and it is predicted that his veto will be sustained by the senate, where it requires a two-thirds vote to pass it over his head.

WRECKERS OF THE MATCH MONOPOLY

Ivar Kreuger is dead. He was the match king of the world. His confidential secretary is dead. He carried the secrets of the match king. Kreuger died by his own hand. His secretary ended his own existence. Now investigators are uncovering huge frauds and forgeries. Away back in 1925 the astounding irregularities and the issuance of forged bonds, "made in Italy," had its beginning. The government of Sweden may declare a moratorium relative to the affairs of the Kreuger companies until a most sweeping investigation has been made by public as well as private auditors. In the wreckage hundreds of millions are involved. In lonely graves sleep the two men who carried all the secrets. Truth is stranger than fiction.

IS DALLAS THE CHICAGO OF TEXAS?

Bank robbers have been very busy in Texas of late. Now the boldest of all holdups has been reported from Dallas where a lone bandit hijacked a bank messenger and relieved his victim of \$38,000 in loot. Of course the robber "escaped in a highpowered car." Perhaps the Texas bankers would profit by hiking their reward from \$500 to \$10,000 for every bank robber brought in DEAD. Of course, this may be the law of the jungle but jungle law appears to be necessary at times to rid the country of murdering outlaws who prey with impunity upon the law-abiding citizens of commonwealth or nation.

A NEGRO VETERAN WHO HAD NINE WIVES

Nine widows lost out on the \$10,000 life insurance policy of Clarence Holmes, a negro war veteran who was planted in a Chicago cemetery early in the year. Now one of the wives was his first and his tenth. She is dead. All the other wives, or rather the widows, must have been victims of a mock marriage. A decision was given by Associate Probate Judge Oscar Caplin of Chicago. He ruled that the nine alleged widows had no redress. He awarded the \$10,000 war insurance policy to the sister of the negro who must have been a remarkable lover as well as a fighter "over there."

WHAT DID LEITER DO WITH HIS MANY MILLIONS

Joseph Leiter, known to fame as "the financier-sportsman," is dead. He inherited an estate estimated as having a value of \$40,000,000 from his father who was a famous Chicago business man, merchant, and capitalist. His will has been probated. His estate is said to have a value of \$10,000,000, which includes 49,000 shares of a famous coal and coke company and is worth \$5,000,000 at present market value. Now what happened to the missing \$30,000,000 that were handed on from sire to son?

PEEPING THRU THE KNOTHOLE with BILL MAYES

Ranger's football fans were optimistic over the outlook for a good football team for the 1932 season when the Bulldogs defeated the Exes Tuesday afternoon by a score of 14 to 0.

Some saw material in the making that they had no idea could be found in this part of the country and all were enthusiastic over the spring showing being made by the team. Unless some of the players are lost to the team it is hoped by the fans, and Coach Curtis, that a better team will be produced this year than has been seen locally for several seasons.

Sunday morning, May 1, the fishing season will be officially and legally opened. Anglers in these parts are getting enthusiastic over the prospects for a good season and tales of the large fish still in the waters of Hagaman and other lakes are going the rounds. Soon the tales of the large ones caught will follow these tales of the big ones in the lakes.

Many anglers are working over their fishing equipment and adding needed items in anticipation of a large and successful season. It has been many years since we have heard as much talk of the opening of the fishing season as we have heard in the past few days.

So far we are a little hazy on the fishing laws, but we intend to find out something about them. We know that bass under a certain length are not allowed to be taken from the water, but we have never been troubled in this respect. We haven't caught a fish we have wanted to keep for so long that laws have come to mean little to us.

The last time we went fishing we caught one fish but didn't know it for a long time. We forgot that we were using worms and when we pulled up our line we thought the fish was a minnow and let him stay on the hook. Later we discovered our mistake and let him go.

Which reminds us that a couple of years ago our wife was acting as guardian of something of the kind to a bunch of Campfire Girls. They decided to go fishing, and when a bunch of Campfire Girls decide anything they usually do it. Anyway they went fishing. When they got home that night we asked our wife what luck she had.

"I caught one," she answered. "How large was it?" we asked. "It was about two inches long and about three-quarters of an inch wide," was the answer.

Which is about the size, shape and general description of the kind of fish we usually catch. Which is a fish story that anyone will be able to believe without any stretch of the imagination. However, according to our spies, the prevailing size of the fish this year is somewhat larger, being slightly smaller than the whale that swallowed Jonah.

We notice in the press dispatch that there may be a hitch in the Al Capone sentence.

It seems that the supreme court made some kind of a ruling on April 11, that has been kept as secret as possible, the effect that three years was the maximum sentence in some kind of tax evasion cases. Capone, it seems, was sentenced on the six-year ruling. Now his term of 11 years may be cut down to about three and seven-eighths on which he was convicted will have to be thrown out, or something. No one knows just exactly what it is all about.

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER

WASHINGTON—Let no reader be utterly flabbergasted if some of the more potent Democratic leaders, between now and the time a party presidential candidate is nominated, reach into the bag and pull out Mr. Owen D. Young.

There is a respectable segment of political opinion which holds that the real underlying political fight of the pre-convention season is between Mr. Young and Governor Franklin D. Roosevelt. He has always been friendly with Young and a couple of years ago it was widely believed that his choice would lie between Young and Roosevelt.

The available signs, though few, lead to the belief that his choice now lies between Smith and Young, accompanied by a realistic sizeup of his own poor chances.

THE wealthy, conservative Raskob and his able general, Shouse, are at least quite favorably disposed toward Young, although there is a lack of evidence that they are doing anything specific to promote his cause at this time.

There is no evidence, either, that Young is doing anything to seek his own nomination. If he gets it the theory will be that he is being "drafted" by his party, although in that case one trusts that there will be no blather about acceptance of the nomination at great personal sacrifice.

He would certainly accept, although one has heard naive Democrats express doubt, and there is no reason to suppose that he would not be positively delighted.

West Would Fight WHETHER Young, with his vast corporation affiliations, could be nominated in the event Roosevelt seemed definitely blocked is open to question. It would have to be done over the dead bodies of the western progressives and the anti-power trust element and it might be that no candidate backed by the Smith-Hague-Raskob group would stand a chance against the fury of the disappointed Rooseveltites.

But no one will be wanting a repetition of the long Madison Square Garden fight of 1924 if Roosevelt should not be nominated on an early ballot the delegates generally would start looking for someone else and many of them could be easily led.

And there is the chance that Tammany Hall, concerned chiefly with local elections, might swing New York's 94 votes to Young rather than take sides in a bitter Smith-Roosevelt fight.

DID YOU EVER STOP TO THINK

LEO A. SMITH, publisher of the Santa Paula (Calif.) Chronicle, Says: THAT despite the radio, folks today still rely on the newspaper to give them the real news. They get a smattering of news over the radio. It is only a sample. They are anxious to read all the facts that they know will appear in their newspaper.

The newspaper reader is aware that his newspaper is a known factor and that it places its reading matter in black and white on the printed page and is in fact on record for every word it publishes. Therefore, care is taken in the publication of all news matter to make certain that it is correct in every way.

Nothing can fully fill the place in our American life that is today held by the newspaper. It will always be the "old reliable."

Therefore, it will always be the only real time tried and proven medium for advertising placed with an idea of having it pay. It will always bring its advertisers results and, in most instances, TANGIBLE RESULTS!

"The Old Reliable," your newspaper, particularly your own home town daily or weekly, will live on and on, for it can't be beat as a news or an advertising medium.

FIGHTING BOB'S SON IS FACING HARD BATTLE

By WILLARD R. SMITH, United Press Staff Correspondent, MADISON, Wis.

Wisconsin democrats, who in the past have favored the LaFollettes, are rejoicing over the difficulties confronting Governor Philip F. LaFollette.

Democratic leaders credit the late Senator Robert M. LaFollette with enticing the members of their party into his own progressive faction in the 30 years preceding his death. His success in this direction was founded on their desire to defeat the plans of the regular republicans. It spared the strength of the democrats.

When the late senator's son became governor last fall he immediately attempted to deal a death blow to the democratic party.

First Message. In his first message to the state legislature, LaFollette told the lawmakers that there was ready and awaiting their consideration a proposed election law change which would declare finally elected to office any candidate receiving a majority of all the votes cast in a primary election. It further proposed that where no candidate in a primary received a majority of all votes cast, the two candidates receiving the largest number of votes, irrespective of party, would be voted upon at the general election.

Instead of dealing the democrats a death blow, the governor apparently blew a life breath into their party. He sensed his mistake quickly. The proposed legislation which he told the senators and assemblymen was waiting never was introduced.

A state-wide democratic conference subsequently attracted the largest gathering of party members the state had witnessed in a decade.

Deserted Party. In the recent delegate election preliminary to the national party conventions the democrats deserted the progressive faction. They voted for their own slate and piled up a total which surpassed the progressive vote.

Not only that, but their withdrawal weakened the LaFollette ranks and let the regular republicans wrest control of the state's convention delegation from the progressives for the first time since 1904.

Now the democrats are searching their ranks for a popular candidate and hope to defeat LaFollette in the fall.

Burning Ice Is Produced

By United Press.

CAMBRIDGE, Mass.—Ice hot enough to burn one severely has been produced by Prof. P. W. Bridgman, of Harvard University, according to the Industrial Bulletin of Arthur D. Little, Inc., for April.

High pressures are used to produce hot ice. Ice which melts at four degrees below zero is obtained at 30,000 pounds pressure and at 300,000 pounds pressure water remains solid at 190 degrees Fahrenheit.

Professor Bridgman's method of producing high pressures is described by him as "simple." Here it is:

"Take a large thick block of steel, bore a hole in it and put liquid into the hole. Then put into the top of the hole a plug which will not leak, and push on the plug. A limit of the high pressure obtainable is set by two things: the leaking of the plug and the yielding of the steel container."

In a few cases, pressures up to 600,000 pounds have been reached. The danger of the process is seen by the fact that it has been found necessary to set some pieces of apparatus behind boiler plate to protect the operators, for such tremendous pressures are 10 to 20 times those in long range guns.

A county down in Missouri reports it has more autos than hogs. But that didn't include the road hogs.

**In the Twinkling of An Eye Make Your Cookies, Salad, Pie.**  
The dame in the old folk-song who could "make a cherry pie while the cat winks her eye" had not a thing on the modern cooks who have learned to whisk up a batch of cookies in 10 minutes, concoct a delicious dessert in 15, or fashion a salad in shorter time than it takes you to speak of that Robinson fellow.

Emergencies, like the poor, we have always with us; "unexpected guests" always will be dragged home by husbands; friends always will drop in at meal time; wives always will play "just one more rubber of bridge before you go," and families always will howl for their meals on time! Just that long will we have need of recipes which require only a few minutes preparation time. Of course all good things to eat cannot be turned out in the batting of a feline orb, but there are some perfectly simple—and simply perfect—dishes that can be. You have to do a little preliminary planning—one cannot get something for nothing at all—but it consists merely of seeing that your pantry shelf keeps stocked with jars of fruit, of mayonnaise, packages of dates, and coconut, and the other staples necessary to emergency meals.

Circumstances will provide the emergency, you provide the jiffy; here are the recipes:

**10-Minute Chocolate Cookies.**  
1 1/2 ozs. chocolate, 1/2 cup condensed milk, 1/2 tsp. vanilla, 1/4 tsp. salt, 1/4 lb. pkg. shredded coconut.

Melt chocolate in a double boiler. Add milk, vanilla and salt. Stir in coconut. Drop by teaspoonfuls on a well-oiled baking sheet. Bake in a very moderate

oven for 15 minutes. Remove from pan while warm. 15 cookies.

**Cake Folderol.**  
6 thick slices sponge cake, 1/4 cup butter, 1 egg yolk, 1 cup brown sugar, 2-4 tbsps. cream, 1/4 tsp. vanilla, 1/2 cup coconut, 6 pasteurized dates.

Cream butter; add unbeaten egg yolk, then stir in brown sugar very gradually. Beat in cream a few drops at a time until mixture will spread easily. All vanilla. Cover top and sides of sponge cake (use purchased cake if desired) with this mixture; roll sides in coconut which has been toasted and decorate the top with slices of dates arranged in a conventional design. 6 servings.

**Three Jiffy Salads.**  
**Sunflowers.**  
4 seedless oranges, 1/2 pkg. pasteurized dates, 1/4 cup French dressing, lettuce.

Add dressing to the dates and allow mixture to stand in a cold place while preparing the oranges. Pare the orange as you would an apple, cutting a continuous circular peel which removes the outside membrane surrounding the sections. Then cut out each segment separately, leaving the center membrane in one piece. Place a mound of dates in the center of a lettuce leaf, and surround with radiating whole sections of orange. Add more dressing if desired. 6 servings.

**Endive De Luxe**  
1/2 lb. French endive, 1 2-oz. jar of pimientos, 1/4 cup crumbled Roquefort cheese, French dressing.

Separate the leaves of endive; wash; drain thoroughly. Form into bundles together with a band of pimiento. Sprinkle the crumbled cheese over the endive. Serve with French dressing. Use asparagus tips instead of endive if desired, garnishing with lettuce. 4 servings.

**Pantry Shelf Salad**  
3 cups shredded cabbage, 1 cup diced pineapple, 1/4 pkg. pasteurized dates, salad dressing, lettuce.

Soak cabbage in cold water until crisp. Drain thoroughly. Add pineapple (fresh or canned), slice the dates and add to French dressing or mayonnaise. Toss with two

### Sheriff and Stills He Seized

The picture above shows Sheriff Virge Foster of Eastland county and part of the large number of stills he has captured during his term of office. The largest still ever seized in a raid in Eastland county was taken last December by Sheriff Foster in a raid eight miles northwest of Cisco. The still had a capacity of 500 gallons, and is now on display at the Columbia Theatre, Ranger. Sheriff Foster is justly proud of his record in finding and confiscating stills throughout the county.

forks until well mixed. Serve in a cup of lettuce leaves. 6 servings.

**Minute Clam Broth**  
1 pint clam broth, 1/4 cup cream, 1 2-oz. jar pimientos, 1/2 tsp. salt.

Commercially bottled clam broth of good quality may be used in emergency; to each bouillon cup of hot, well seasoned broth add a spoonful of whipped cream to which has been added finely chopped pimiento and one-eighth teaspoon salt. Serves 4.

**Open Memorial Services At Masonic Temple This Evening.**  
Open memorial services will be held by the Ranger chapter Order of the Eastern Star at the Masonic temple this evening at 8 o'clock. An excellent program has been arranged for the hour and the public is cordially invited.

**Prominent Agents Attend Demonstration Club Meeting.**  
Miss Blair, specialty agent from College Station; Miss Malone, of Brownwood; Miss Brent, of Coleman, and Miss Ruth Ramey, coun-

ty home demonstration agent, all prominent associates of the home demonstration organization, were present at the meeting Tuesday afternoon, held at the home of Mrs. Owen Hinman.

Miss Blair gave an unusually interesting lecture on well-balanced meal, further emphasizing her lecture with a demonstration using garden and home-grown canned foods.

An authentic demonstration on table setting and general table etiquette was also included in the profitable demonstration.

The meeting was attended by a large group of members who enjoyed the hour immensely.

Other interesting spring programs are to be held regularly.

Mrs. Drago read the devotional, Psalm 84. Stewardship was given by Mrs. Davenport. This closed the program for the afternoon. Two clever con-

tests were enjoyed after which delicious cream and cake were served to the following: Ernest Crowell, Dulin, Marlow, Ernest Jones, Coleman, Bender, Mackall, Drago, Jonathan Jones, Leslie, Sparks, Gates, Davenport, Jobe, Newman, Stubblefield, and two visitors, Meses. E. L. Foster and Stokes from Mineral Wells.

**Community Program A Success.**  
The courthouse square was filled on the south side with people that massed the lawns and steps of courthouse and packed the streets with cars for the community entertainment under auspices of Better Homes committee, and arranged Tuesday night. Lights, music, flags and foliage decorated the platform contributed by Messrs. Harper and Lovelace and arranged by Mrs. A. H. Johnson provided a fine background for the performance by a group of junior high school students directed by Miss Verna Johnson and Miss Oneida Russell.

Ed Pritchard proved a professional announcer and ran in competition with George Harper. Two loud-speakers and electric music were used to advantage in broadcasting tap dancing by Misses Arnold and Day and the reading given by Kathleen Cottingham, "Home." The program was snappy and enjoyed by the audience. Announcement of the spirituals concert by colored singers in Christian church tonight was made by George Harper at the close of his interesting talk on "Music" and its essential use in the home.

Merchants kept their windows lighted for the evening and this, the first community program, held in Eastland for some years, went over big and pleased everybody.

THERE'S SOMETHING DIFFERENT about the flavor of CHESTERFIELDS—something about the blending and cross-blending of fine tobaccos—that gets to you, every time.  
THERE'S SOMETHING DIFFERENT about their mildness, too. It is the mildness that comes from the ripest, sweetest, mellowest Turkish and Domestic tobaccos. There is no bitterness in them... no harshness.  
THERE'S SOMETHING DIFFERENT about the taste. It is that good, pleasing taste that comes from the right kind of tobacco, cured in the right way—cured for two years or more. It means that to make CHESTERFIELD Cigarettes, millions of dollars are tied up in tobacco leaf—but it's worth it.  
THERE'S SOMETHING DIFFERENT about CHESTERFIELDS—THEY'RE MILD AND YET THEY SATISFY!
