### RISING COMMODITY PRICES AND GROWING PUBLIC CONFIDENCE

Away down here in Texas rainbows are showing their rare tints. For instance the monthly business review of the Federal Reserve Bank of Dallas reports a further noticeable expansion of business and industry during the month of June. This the review states "was stimulated by rising commodity prices and growing public confidence." Heavy general rains during the latter part of May greatly improved agricultural conditions. There is a drouth area, and in the "afflicted spots" plants are deteriorating rapidly and a portion of the crops are unplanted. Over most of the districts moisture is generally ample for the present and row crops are in fair to good condition. Ranges and livestock have improved since the May rains and conditions "are generally good except in a few areas which are still dry." Wool and mohair led all other commodities in the general upward price trend. Top prices for wool touched the 28 cent level for the first time in several years. Yes, and served as a sharp stimulant to business and financial activities throughout the Texas sheep producing areas.

Another cheerful little earful taken from the survey: Construction activity was well sustained during the month. College Station publicity agents report weevils on upland farms are increasing. Wheat continues to soar on crop damage the country over and the grain belts of the middle west and the north west as well as those in the Dominion of Canada are being scorched to a fare-you-well. Watch the ticker. Read the newspapers. The ticker and the newspapers tell all the story in cold type on the printed page.

### JOBS FOR DEMOCRATS ON THE RIO GRANDE BORDER

Postmaster General James A. Farley very bluntly told Washington newspapermen that "federa employes who have been unfairly blanketed in the civil service should be removed." Among those he said he had in mind were 200, men riding the border in Texas to prevent the smuggling of aliens into the United States and who were given civil service status by Herbert Hoover, late president of the republic.

# SEBA Lends car for test-XAS LEAGU Gulf-lube cuts oil costs 281/2

MR. AND MRS. LOU MOORE, Ambassador Hotel, Indianapolis-owned one of the six cars borrowed for this daring test. Gulf-lube cut this car's oil consumption 28.3%, as compared with all other oils tested.

### New motor oil amazes AAA Officials\*

IN 6 borrowed cars, representatives of the Contest Board of the AAA tested 4 of America's leading brands of 25c oils . . .

And, when the 4-day run on the famous Indianapolis Speedway was over, Gulf-lube had beaten every oil in every car!

To the amazement of the Officials, the aver-

age of all the figures proved this . . . Gulf-lube went 281/2% farther than its competitors before a quart of oil had to be added-a clear-cut saving of over one-fourth!

Switch to Gulf-lube and start saving 2 ways! First, you'll use less oil. Second, you'll pay less for repairs-for the oil that gives higher mileage is a better buy. Prove it! Get Gulf-lube at any Gulf station. @ 1933, GULF REFINING CO., PITTSBURGH, PA
