A BIBLE THOUGHT FOR TODAY

THE ONE GREAT FRIEND: A man that hath friends must shew himself friendly; and there is a friend that sticketh closer than a brother.— Proverbs 18: 24.

SECRETARY WALLACE COVERS THE MIDWEST

Secretary Henry A. Wallace of the department of agriculture, returning from a 10-day trip in the Middle West, said to Washington correspondents that sentiment in the swine and corn producing sections was "ripe for another stage in the step to lift farm prices to pre-war levels."

In his interview he appealed to the cotton producers for immediate action in signing agreements to reduce acreage. He said "It is the hope of the administration that before the close of this week every cotton producer in the entire belt will have been given an opportunity to do his part in this effort to restore prosperity."

This Hawkeye statesman and economist has received many reports from his agents that there are cotton growers who are willing to gouge the government in their high estimates on the value of the cotton to be plowed under. He sounded another note—that a national conference of hog and corn products may be held in the Mid-West by the middle of the month of July. As for the farmers of America, the livestock industry and the producers of wool mohair, should do their full part in the contributions to this grand scheme or project for the recovery of America and the restoration of a fair purchasing power which hit its lowest evels in recent years.

An administration and its agents cannot do all the work. There must be fair play and square dealing on the part of those who are to be benefited by the extraordinary laws and sweeping innovations which have been resorted to for the rehabilitation of this nation and its people.

ROAD BUILDING ACTIVITIES IN TEXAS

Texas is the largest of commonwealths; Texas has been allotted the largest sum of money for road building purposes by the federal government. It calls for an expenditure of more than \$25,000,000. Money used for highway purposes, if not wasted or grafted, increases taxable value of community and commonwealth and ties the country to the city and the city to the country. It is a real investment in public highways which should be made durable and lasting. Rivers and creeks should be bridged and the bridges should not be makeshift affairs to be swept away when the torrential rains come or tumble in because of inferior material or workmanship. There should be no favoritism shown to sections. All the people of all sections, north or east or south or west, should be given ample recognition, there should be competitive bidding and the state should receive 100 cents in modern highways for every dollar paid for labor and material.

There are thousands of Texans who are in need of employment. Crack down and build during the summer and fall seasons of 1933. Furnish idle Texans paying jobs. Give them an opportunity to support their dependents and restore as far as possible the purchasing power of the commonwealth. Build for the future. Build state arteries of traffic and travel that will be monuments to their builders and of lasting service to the people who will make use of the highways and contribute in gasoline tax paying the cost of maintaining them.

AN ARMY OF IDLE TEACHERS ASKING FOR JOBS

Thousands of thoroughly equipped young men and women educated for teachers in the schools of the nation are seeking jobs and seeking in vain. Well, Texas has eight teachers colleges, and there is a large surplus of teachers just as there is a huge surplus of cotton. Just why an overproduction of teachers in a commonwealth where there is an army of idle teachers?

Did you ever notice that the advertising columns of the newspapers are read as eagerly as the news?

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

No matter how much governments or dictators may endeavor to camouflage the fact, no matter how seductive the peace talk and the vital necessity of reducing or abolishing the armament burden, there can be no escaping the fact that there is hardly a dictator or government but what is more or less war minded.

Under the thinly veiled guise of safety first or assured security, the nations are arming and in a more deadly manner than ever before. While the public of all countries are blinded by officially inspired propaganda, their pockets are emptied to meet the taxes which, far from decreasing, are increasing by leaps and bounds.

In the process, dictators in some countrys in Europe have virtually swept away the freedom of the press, which is practically the only safe-guard of the people.

CHANT ON ECONOMIC NATIONALISM

Business Outlook

(Continued from page 1)
statistical index corroborating the Dun and Bradstreet report. For the week ending July 12, they showed a gain of \$1,955,476 over the same period a year ago, and a gain of \$2,835,648 over the preceding week, according to the Dallas Clearing House association. The week's clearings totaled \$26,048,812.

Dun and Bradstreet said business recovery was spreading to so-called luxury lines. The report stated: "Increases of 20 to 50 per cent in the sale of jewelry and new automobiles within the past 45 days are particularly significant, reflecting the recovery that has spread into even those lines which have been most affected by the depression."

Facing all others in the climb upward was the textile industry in Texas, which last month recorded greater activity than in any June since 1927. More than seasonal expansion for the first six months of the year was indicated in an analysis of the industry prepared by Burt E. Blanton, Dallas consulting industrial engineer.

During June, Blanton pointed out, Texas textile mills operated at 82.6 per cent of their combined rated capacity, while in June a year ago they operated at only 50.8 per cent of capacity.

Comparative figures on total active spindle-hours showed June, 1933, was exceeded only once since 1924. In June, 1933, active spindle-hours in all Texas mills totaled 79,719,051, as compared to 39,970,474 a year ago and 61,871,540 in 1924. Only the 1927 figure, 88,432,776, was greater than for June this year.

"For the six-month period since Jan. 1 Texas' mills showed a 35.2 per cent increase in active spindle-hours per spindle in place over the same period a year ago," Blanton said.

Virtually all of the 20-odd mills have increased employment numbers and wages. Miscellaneous reports showed increased employment and activity in lumber mills, mounting rail traffic resulting in larger and heavier payrolls and a throng of new industrial and business enterprises, as gauged by charters granted by the state. During the past week the daily charter score as reported from Austin averaged around 10.

Unfilled orders at southern pine mills during June virtually doubled those of a year ago. The average per unit reported by the Southern Pine Mills association rose to \$27,867 feet, as against 427,176 at the end of June, last year.

Reflecting the increase of rail traffic was the report of freight loadings on Texas lines of the Missouri Pacific, which rose during June to 25,747 cars from 14,674 in June, 1932.

Increasingly conspicuous in the daily news were reports of municipal bond issues, individually small in comparison to other sums in the headlines, but significant of increased public confidence.

Items of industrial enterprise included plans of the Shamrock Oil & Gas company to establish a \$250,000 casinghead plant at Amarillo, the projecting of a \$150,000 paint factory at El Paso, and the opening of a \$25,000 egg-drying plant at Abilene. They were selected arbitrarily from a host of similar reports from communities all over the state.

Also typical of a general situation was the report of "new deal" construction planned at Amarillo, where four building projects now under way will represent what completed a money outlay of more than \$125,000.

THREE GUESSES

Dr. Robert A. Millikan is a leading AMERICAN SCIENTIST and winner of the NOBEL PRIZE for PHYSICS in 1926. P. T. BARNUM is credited with the quotation. THE HAND is the unit used in measuring horses.

Ferguson Urges Bond Issue Vote

By United Press
AUSTIN, July 17.—Texas must pass the \$20,000,000 bond issue at the special election Aug. 26 in order to relieve the distress a drouth ridden summer will leave in this state, former Governor James E. Ferguson said today.

He has just returned from conference with cabinet members and with President Roosevelt. The former chief executive of Texas emphasized passage of the bond issue was imperative for this state's full co-operation in the federal government program.

IT TAKES
HEALTHY NERVES
TO PUT A DRY FLY WHERE YOU WANT IT
— EVERY TIME

● ABOVE — ARTHUR J. NEU, of East Orange, N. J., pulls in a nice one! Few men know the importance of healthy nerves better than Art Neu does. He is national champion in dry-fly casting for accuracy. Just as a stunt, Mr. Neu has frequently flicked the ash off a friend's cigarette with a fly at 35 feet!
● RIGHT — A DAY'S SPORT is more enjoyable with plenty of Camels along, because you can smoke all you want—and still be ready for more when evening comes! Camel's costlier tobaccos never get on your nerves...never tire your taste! Camels are better for steady smoking. It is more fun to know!

Steady Smokers turn to Camels

ARTHUR J. NEU, champion fly-caster, says:

"Dry-fly fishing is a delicate art that takes the best a man's got in steadiness of hand and eye. To win the championship in accuracy at casting a dry fly, I had to have healthy nerves. And yet I smoke steadily—all I want to—without disturbing my nerves. That's because I prefer Camels. There is no question but that they are milder. And their rich, inviting flavor seems to say, 'Have another.'"

Turn to Camels. Like Mr. Neu you will find that Camels are milder...that their flavor suits your taste...that steady smoking never jangles your nerves. So begin today!

IT IS MORE FUN TO KNOW
Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. The more you smoke them, the more you'll like them. Costlier tobaccos do taste better.

Camel's Costlier Tobacco
NEVER GET ON YOUR NERVES
NEVER TIRE YOUR TASTE

OUT OUR WAY

BARGAIN BRIDE

BEGIN HERE TODAY ELINOR STAFFORD, 26, falls in love with 35-year-old BARRETT COLVIN, married to New York after years abroad. Barrett has made a name for himself as an architect. He is about to ask Elinor to marry him when her jealous, scheming mother, MRS. STAFFORD, interferes and succeeds in breaking up the romance.
