A BIBLE THOUGHT FOR TODAY

LIVE RIGHT WAY: Boast not thyself of tomorrow; for thou knowest not what a day may bring forth.—Proverbs 27: 1.

A SINGLE TAX LEADER AWAITS THE CRACK OF DOOM

William A. Black of the Alamo City is the executive secretary of the Single Tax league of Texas. For almost a third of a century he has been carrying the Henry George flag and ever going down in defeat. He was a democrat before he became a single taxpayer. He admits that he is a "truly scientific economist."

America is on the road to the demitition bow-wows. This is his funeral dirge: "When we ignore natural laws and go contrary to every principle the result is bound to be failure. When congress meets this winter it will be called upon to pack up the machine that has been built and lead us forward into the morass or else scrap the whole thing."

It appears that great minds come to the same conclusion. This time Herbert Spencer and Secretary Black are in hearty accord. It will be recalled that the great Englishman said "the great majority of mankind seem determined to exhaust every possible way of doing the wrong thing before they will consent to do the right thing."

Queer, it is not, that the tillers of the soil, the growers of things, almost to a man have ever been against the Henry George scheme of salvation. Citizen Black should face the issue. Bexar county under the new deal is a congressional district. He should make the race for a seat next year as the sole survivor under the skies of Texas of the Georgian plan for the uplift of the growing world and those who inhabit it.

THE CHEERFUL LITTLE EARFUL OF COTTON

New Orleans reports the departure of the first American ship to carry a cargo from a Gulf port direct to Russia since the establishment of the Soviet government. Its cargo was 13,000 bales of cotton destined for Leningrad.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

The other night I was sitting in the lobby of a leading hotel at Oklahoma City reading the evening paper. As everyone else, I always read the advertisements. Both papers were filled with ads. I noticed that many of the merchants invited the attention of the public to the new merchandise they had on display, and that city—like all cities that are up-to-the-minute—have well lighted, attractive display windows.

Just then my friend, Jim Barrett, managing director of the hotel, came along. I said, "Jim, let's go window shopping." He said, "O. K." So we started out and found the streets crowded with people that the advertisements had brought to town. Dazzling were the lights from thousands of electric globes. The continuous murmur of the crowds voicing their opinions of the window displays, an unending train of motor cars bearing beautiful women with their escorts, and on the walks were more beauties—and many who were once beauties—all getting an eyeful of the displays in the windows and incidentally, of each other's gowns and hats.

Above it all was the beautiful canopy of the starry sky with a delightful moon shedding its soft light. As we worked our way back to the hotel, I reflected, "This is an example of the power of newspaper advertising. There is no limit to what it can do."

## Representative of Pope Will Visit In Southwest

By United Press

PAMPA.—The first visit of the official representative of the pope in the southwest will be made Aug. 21 when the Most Rev. Amleto Giovanni Cicognani, D. D., Apostolic delegate to the United States will arrive in the Panhandle to accompany Archbishop-elect R. A. Gerken of Amarillo to Santa Fe.

The papal legate will install Bishop Gerken of the Amarillo diocese as archbishop of Santa Fe on Aug. 23. A special train from Amarillo to Santa Fe and return will carry prelates, clergy and the laity who will accompany the Apostolic delegates and Bishop Gerken. The train will leave Amarillo Aug. 22, arriving at Santa Fe the following morning.

Catholics from all parts of Texas are expected to attend the installation ceremonies. It is understood that Bishop Lynch of Dallas in 1917 will be present.

The archdiocese of Santa Fe is probably the most famous in the United States. Interest in the installation has been increased by the announcement that the apostolic delegate would officiate. The Santa Fe archbishop gained world-wide fame several years ago when Novelist Willa Cather published "Death Comes For the Archbishop," a historic novel dealing with Archbishop Lamy's resurrection of the Catholic church in New Mexico. Archbishop Lamy was the first to hold that office. Bishop Gerken will be the seventh.

Bishop Gerkin's rise to the see of Santa Fe in the 16 years he has taken the vows of priesthood has been compared with Archbishop Lamy's rise in New Mexico, Bishop Gerkin was created bishop in

1926. Before that time he was pastor of churches at Abilene, Ranger, and other towns in the Oil Belt district. He established a phenomenal record by building 10 churches in that time, dedicating one to the Little Flower. Since 1926, while bishop of the Amarillo diocese which comprises 76 counties, he built 35 churches, and the Catholic population of the Panhandle has multiplied several times.

In New Mexico, Bishop Gerken will continue his building activities. Not only will new churches be erected but old ones, many of which are now in ruins, will be restored.

## Lithuania Joins In Eastern Pact

By United Press

KOVNO, Lithuania.—Lithuania has decided belatedly to join the Eastern pact between Soviet Russia and her neighbors.

When the pact was signed in London, Lithuania remained aloof, because the other signatories refused to recognize certain reservations the Lithuanians wanted to make regarding their feud with Poland over the Vilna region.

In order to avoid complete isolation, however, Lithuania proposed to conclude a pact with Soviet Russia analogous to the eight-power pact. Thus, Lithuania will become a partner in that new international agreement without sacrificing her principles with regard to the Vilna region.

CLIMB- Other Prices Though Natural GAS Remains Your Lowest Priced Domestic Servant

PRICES are going up. So say the newspapers and business experts . . . so say the price tags in the stores. Food, clothing, commodities in general, are moving steadily to higher levels to meet changing conditions.

But Natural Gas Service, always your lowest priced domestic servant considering the value received, remains at its same modest price level. Instead of advancing to keep pace with other costs, it now becomes by comparison an even greater value than before.

Yes, you can still cook a dinner for three people, make 33 cups of coffee, or operate a gas refrigerator from 8 to 10 hours for a gas cost of only ONE CENT for each of these operations, because Natural Gas Service remains your lowest priced domestic servant!

Back of the blue flame at your gas burner are 4,000 miles of interconnected pipe line, 31 gas fields, and a trained organization . . . to enable you to have hot water for ten baths for only 5 cents.

## SPEDDY END OF STRIKES SOUGHT BY THE NRA

### GOVERNMENT'S ESTIMATE COTTON CROP

WASHINGTON, Aug. 8.—The department, estimating cotton production at 12,000,000 bales today said that the crop would be indicated by 10,000 bales but for the adjustment campaign of the administration.

Taken out of production this campaign was indicated at 4,237,000 bales, the department said.

The estimate was the first crop reduction campaign since the relief administration. Last year's crop was slightly above 13,000,000 bales.

The crop conditions as of August 1 was placed at 74.2 per cent normal, indicating a harvest of 10,000,000 acres compared with 10,000,000 acres in 1932.

NEW YORK, Aug. 8.—All options and including the cotton broke below the level on the New York exchange today, following the estimate.

Afternoon the list was 1/4 cent below the previous close after reopening slightly higher at \$1.50 a bale lower than the government report.

### Asks Million In Corn Deal

E. W. Backus, above, Minneapolis lumberman has filed a \$1,000,000 suit in Chicago against three men he accuses of manipulating a "corner" in corn in 1928. Backus claims he was forced to pay an extortionate price for grain he had contracted to deliver. Defendants are G. F. Swift Jr., Allen F. Moore and Herbert J. Blum.

### Interest Bearing State Warrants to Be Recommended

By RAYMOND BROOKS

AUSTIN.—Rep. Conde R. Hoskins will, at the September legislative session, bring forward his plan to take the burden of the state's deficit off those who receive its meagre pay, and to fund that deficit over into a less onerous cause for present worry.

Mr. Hoskins is having drawn a bill to provide for issuance of state warrants in \$5, \$10 and \$20 denominations, bearing interest from date until paid.

The interest payment is the kernel of his plan.

Such time warrants would not be money, but with an assured interest revenue they would be much like currency. They would be accepted at face value, and not hawked about, as are state warrants now, at a deep discount.

Mr. Hoskins will work out the necessary provisions as to time limit, as to priority of payment, and as to certainty and priority of interest payments.

Basically the interest on warrants plan would mean that the state from the time it issued its warrant for the debt until it could pay the debt, would pay 6 per cent interest. It would not require those who sell their services and their materials to bear that cost.

The difference in prices it could obtain would go far toward paying the interest toll. No longer would teachers and workers pay a heavy penalty because their employer happened to be the state government.

For the state itself, the pressure of demand for payment of the warrants would be relaxed, since holding them would involve no loss. In effect, the state could fund out its debt over at least the period of average delay in paying its warrants. This practice of spreading a public debt over a greater term is universally followed by bond-issuing agencies, such as cities and counties, who pay interest.

Mr. Hoskins began work on his plan of having freely-negotiable interest-bearing state warrants issued back in the regular session, but had not pressed the plan early enough for action then.

He believes the measure will be one of substantial justice to thousands who work for the state, and beneficial as well to the state itself. He will present this plan in the September session, and urge its passage.

This, he announced, in the light of statements made by officials that the state deficit threatens to be so big by next December that all state warrants will be subject to discount as high as 10 to 12 per cent.

### Claim Victory in Arizona Today

By United Press

PHOENIX, Ariz., Aug. 8.—Wetland a cut and dried victory as Arizona voters ballot on the 18th amendment, nominated a democrat Federal Budget Director Douglas as the state's representative in congress.

The ballot led anti-prohibitionists to notify James Buchanan as chairman of the democratic committee, that they were certain to become the majority to ratify repeal.

Prohibitionists were not represented on the ballot because they were not enough signers on names before the deadline.

### Healthy Farmer Hunts Kidnapers

OKLAHOMA, Aug. 8.—A healthy farmer today set out to frustrate what was an attempt to kidnap his dog and the odor of his shotgun fired four times at a man. The intruder dropped his gas gun and fled down the road. The man was covered with blood from the machine gun wounds in the head and arm.

### POPULATION INCREASED

By United Press

DENVER, Colo.—Denver has passed the 300,000 mark in population, according to an estimate by D. H. Osborne, publisher of a new city directory. He estimates the present population to be 302,130 compared with 287,861 in 1930 population according to the federal census.

### DAILY PAPERS SUBMIT CODE TO PRESIDENT

By United Press

WASHINGTON, Aug. 8.—Daily newspaper publishers submitted a code to the NRA at noon today which was described by Howard Davis, president of the American Newspaper Publishers association as supporting "in the highest possible degree" the recovery program.

The code would permit restricted employment of persons under 16 years of age for carrying newspapers where school attendance is not interfered with. Business office and clerical forces would be limited to 40 hours a week.

Mechanical employees not under contract would be limited to 40 hours a week except that they might work a maximum of not more than 44 hours for any six weeks in the six month period.

### Texas Failures Below Normal for Month of July

AUSTIN.—The record of commercial failures so far in 1933 compares favorably with that for more "normal" years, according to the University of Texas Bureau of Business Research.

"The record for July is certainly noteworthy, for these have been only three cases since 1920 when either liabilities or the number of failures for July were smaller than they have been this year," the bureau's report said.

According to weekly reports to the Bureau of Business Research from Dun and Bradstreet, there were only 41 commercial failures during the five weeks of July, or an average of about eight a week; last year during the five weeks in July, 70 failures were reported.

"Liabilities reported during July amounted to \$732,000, with two firms having liabilities of over \$100,000," the report continued.

"Last year in July, total liabilities reported by the 70 bankruptcies were \$2,595,000, and seven firms had liabilities over \$100,000. Average liabilities per failure amounted to \$17,844 during July, only 6 per cent greater than the average of \$16,888 for June, and less than half the average liabilities reported for July a year ago, \$37,071.

"There was available to creditors on the basis of the book value of assets of the bankrupt firms, an average of 53 cents on the dollar, as compared with 41 cents in June and 45 cents in July last year.

"Of the total failures reported, seven were groceries and meat markets, six were drug stores, five were women's specialty shops, and two each of men's shops, dry goods stores, general stores, manufacturers, and produce merchants."

### 'Gas Detectives' Recovery \$330,000 In Missing Taxes

AUSTIN, Aug. 7.—Comptroller George Sheppard's gasoline tax enforcement "army" of detectives and auditors, created by the legislature last March, recovered the record sum of \$330,000 in "missing" gasoline taxes during June, at an expense of but \$15,600.

This is the gist of a summary of June activities released to the Texas Good Roads association today by J. M. McReynolds, division chief at the request of the comptroller.

Comptroller Sheppard, elated, saw in the figures "proof" that if the people will help, Texas can save the predicted \$4,000,000 a year in gas taxes heretofore stolen.

"Consider what this means to the taxpayers," the comptroller said. "It means that in February, the month before this new law was passed we were headed for a \$2,500,000 decrease in annual gas tax returns; but now we have wiped that out and are moving at the rate of \$1,500,000 increase.

"Here's how: the state's gas tax income in February was \$207,514 short of the same month a year ago, or nearly 10 per cent. March was almost as bad. Thousands of cars were not being used and bootleggers were running wild.

Then this new law, making evasion a felony, went into effect March 21. Our staff went to work. In April the decrease over 1932 was very small, in May it had been turned into a small increase. These June figures show we collected \$122,370 more gas taxes than in June, 1932.

"The motorist nearly always pays this tax at the filling station whether it's passed on to the state or not; when it's not, the schools, the bond fund and the highways are being robbed. So is the taxpayer who must make up the difference. That's why we are asking the public to look for evaders."

### McGRADY WILL SPEAK TO TWO STRIKE GROUPS

The NRA drive to enlist all employees in the recovery drive within the next two weeks, was speeded up with appointment of a special board to pass on requests for modification of the terms of the presidential re-employment agreement.

Deputy administrator Whiteside, in charge of the temporary code for retail stores, received scores of telegrams from retailers in all parts of the country assuring him they would not make agreements to shorten store hours or stagger their employees in order to avoid hiring new workers.

### Texas Senators To Have Own Offices

By United Press

AUSTIN.—Senators will take on a new dignity when they attend the approaching anticipated special session of the state legislature. Each will have his own private office.

Opening of the new highway buildings furnished the opportunity to move many of these bureaus and boards out of the old capitol, so the senators' offices have been restored.
