A BIBLE THOUGHT FOR TODAY

SELF DENIAL: Whosoever will come after me, let him deny himself, and take up his cross, and follow me. Forwhosoever will save his life shall lose it; but whosoever shall lose his life for my sake and the gospel's, the same shall save it .- Mark 8: 34, 35.

FAMOUS PROSECUTOR PUBLIC WORKS LEGAL ADVISER

Henry T. Hunt of New York has been named as general counsel to the federal emergency administration of public works. He has been practicing law in the city of New York 12 years. He has a marvelous record behind him. He began his career in the city of Cincinnati. He elected public prosecutor. He drove from power a rascal political ring. He cleaned house for the people of Cincinnati from top to bottom. This over they elected him mayor of the ancient Ohio city and as chief executive officer his record bristled with achievements along the lines of honest and efficient administration of public affairs. Then a guiding star whispered in his ear, "Go east, young man." He moved on to the city founded by the Knickerbockers in the long ago. Now he will give legal advice, from top to bottom, to the administrators of the public works program. 'Tis well. A legal watchdog with a record like that of the Buckeye will be needed the country over.

PRESIDENT BLEDSOE WAS MISQUOTED

President Bledsoe of the Atchison, Topeka and Santa Fe system early in the month of June saw rainbows in the sky everywhere in the territory covered by his lines. A Shaw vs. W. H. Garner; \$64.35. news-gathering association carried a purported interview with Col. Bledsoe. He was quoted as having said that the and wife to E. M. Curry, land in Van Sweringen brothers were not rail operators but spec- Eastland county; \$1 and other ulators, or words to that effect.

Well, the operators of the Missouri Pacific lines from Plan bank vs. Francis M. Kinney president down are real rail men. They were given a great etl al; \$247. shock by the alleged Bledsoe interview. All is well that ends well. Bledsoe, in a second interview, declared that the writer of the news dispatch misunderstood or mis- tion. quoted him. Let it go at that. Really, people who are living in glass houses-and today most the people are living in glass houses-should not throw rocks at the habitats of their neighbors.

inere is another iresh revival coming. Dunn and Bradstreet, in its weekly report on trade, says "that sub- consideration. stantial conditions still are being made for employment and payroll and the flow of orders and inquiries is quickening, rather than diminishing, with buyers being pressed sideration to action by the broadening sweep of rising markets." Referring to the recent flurry in the street called Wall, the Light to J. J. Berry, on 80 acres trade bulletin reads: "The technical reaction in commodity land, three notes of \$200 each. and security markets is due to temporary relaxation of speculative enthusiasm, which merely has paused to gather ment. strength for fresh revival." In other words, "now you see it, and now you don't."

GAULT MACGOWAN, managing editor of the Trinidad Guardian, (British West Indies) Writes:

"Some time ago I said that there was no hope of a return to prosperity until those who produced also learned to sell. I pointed ou that producers of primary products are the ones that advertise least. They let luxury manu- Gertrude Clayton, Ranger. facturers advertise to the trade, and forget that those who 'manufacture' crops need to advertise also.

"Now, I find cultivators of tropical products are responding to my appeal. From Martinique comes the re- Chevrolet master coach, from Butport of a movement among banana 'manufacturers' first ler-Harvey Chevrolet company. to find their market and then to produce for it.

"In the past, producers there-like producers most places-have first 'manufactured' and then looked for a Buick roadster. market. They planted in hope and reaped in sorrow. Now, 1928 Pontiac coach. realizing they can grow when they want to, they are aiming to reverse the process. First make your market, then grow for it. Production then automatically regulates itself J. V. Heyner, Cisco, 1926 to the xtent of prospective business.

"If 100 farmers gave ten dollars 'a year each, they George Karantonis, Eastland, 1933 Pontiac sedan, from Muirwould have a thousand dollars for a fighting fund to tell head Motor company. the world about the crops that are coming. If a few cents were collected on every bag of cocoa or coffee or other produce sold, then the fighting fund would swell into mil- Oldsmobile sedan, from Muirhead lions of dollars. BLOW-OUT PROOF* RIVERSIDE TIRES

Blowout Proof because of an extra patented process:

LATEX WELDED CORDS

which prevent Cord Separation ... the cause of blowouts

Blistering heat develops inside your tire every time you drive your car 35 miles an hour or faster! Heat so terrifie that in many tires it causes cords to separate. It weakens the tire from within, causing blisters you can't see. You hit a rock or a bump. Suddenly-BANG-a blowout! It may come today, tomorrow,

Riverside tires are built to prevent blowouts! Riversides' Cords-the heart of the tire-are made from extra strong, long staple, premium cotton. Every cord in every ply is dipped in LATEX-100% pure, liquid, virgin rubber. This welds the cords into a super strong unit! It gives Riversides the strongest tire carcass made! It prevents cord separation-the cause of blowouts!

Why We Save You Money

Of course Riversides are made in one of America's largest and best tire factories. BUTthey come direct to us-minus the manufacturer's selling and general overhead expense. That's a saving. The second saving comes from Wards low cost method of distribution. These two reasons explain why we sell high quality tires for less. It's simple to figure out for yourself why Riversides are better in quality, mileage, and safety than any other tire at the same price.

***RIVERSIDE TIRES**

will not blow out under normal road conditions during the life of the tread if they are kept properly inflated in accordance with the specified air pressures.

Wards Unlimited Guarantee

For your protection every single Riverside tire is guaranteed by Wards to give service that is satisfactory to you. No time limit! No mileage limit! A tire has to be extra good-has to be extra safe to be backed by the strongest tire guarantee ever written!

This shows cords that have been separated by heat in-side the tire. Cord separa-tion causes internal blisters and weakens the tire. blowout is the result!

Latex Dipping

By an extra process, cord in every ply in all Riverside tires is dipped in Latex. This welds the cords into a super strong unit that defies cord separation and blowouts!

Stale perspiration curds, cause of body odor, reached by deep-pore cleansing, instantly removed!

Chemists of an important research laden with offensive M.S. (medicine group now give you a new and tive way to end body odor. Millions have eagerly adopted it. Every specialist knows that objectionable body odor does not come from fresh perspiration but from stale perspiration deep in the pores. Stale perspiration contains calcium, salt and particles of fat. The thick and sticky lather of most ordinary toilet soaps is unsuited chemically to mix with this waste material and disperse it. Instead, it hardens into clogging curds!

That's why deep-pore cleansing is needed to remove the objection able curds-and it is a scientific fact that there is only one way to accomplish this. Kirk's Coco Castile-being a 100% pure vegetable oil soap mixes with the particles of peration curds, loosens them, then letely. Thus it ends ly odor instantly.

PAGE SEVEN

WASHINGTON, Aug. 12 .- The North American Radio Conference in session for more than two weeks in Mexico City, has evidently set out to make a record as the world's most secretive organization. Called for the purpose of agreeing upon a plan for reallocating broadcasting channels, it is holding its sessions behind closed doors, and the American people know no more of what is transpiring there than they know of what goes on when the partners of J. P. Morgan & Co. hold a business meeting.

To understand something of the power of this conference ,it is necessary to recall that when broadcasting was in its infancy, the need of international agreements governing allocation of radio channels was foreseen. These agreements are ratified by treaty and become the law of the world in so far as radio is concerned.

At the first international conference, 79 channels were given to the United States, Canada was allotted only a baker's dozen, and Mexico and the South American republics were ignored .They weren't even invited to send delegates.

Mexico, consequntly began demanding its proportionate share of the channels, and when its demands were ignored, it commenced issuing licenses, anyway. Powerful stations in Mexico have been operating on the channels allotted to the United States, with the result that in the South and Middle West the ether has been a shambles of interference.

In the first international conference, delegates representing corporation-controlled broadcasting stations in the United States were admitted and given a voice in the proceedings. These moncpolies have had representation in all subsequent international conferences. Th American communications companies, which operate international radio, telephone and telegraph services, are directly represented and have a voice in formulating and changing regulations. This means that Radio Corporation of America and the National Broadcasting Company have a pawerful influence. At all times they are thinking of broadcasting as a private business organized for the sole purpose of yielding fat prifits to themselves at the expense of the listening public

Having corraled these seventynine air rhannels for the United States, the private broadcasting organizations took rontrol of most of the rhannels. They hold this ower thr
