#### AUSTRALIA READY TO GO IT ALONE

Australia is one of the heavy wheat producing countries. Stanley B. Bruce is the Australian delegate at the world economic conference. Delegates from the United States and Canada and Argentina, all large wheat exporting countries, clamored for an agreement on world grain restrictions. Bruce threw a monkey wrench into the machinery. He declared very emphatically that Australia would not assocaite itself with any scheme for the restriction of wheat production as a solution for world difficulties. Just why a world conference?

Enthusiasm and faith in the future of a city by its citizens will always make it a more worthwhile city.

• IN ADDITION to their astounding endurance flight, Miss Marsalis (Left) and Miss Thaden hold many other flying records. Miss Marsalis is the women's champion stunt flyer of the world. It takes healthy nerves to fly ... doubly so to fly like these two young women. It is significant that both are enthusiastic Camel smokers.

# **STEADY SMOKERS TURN TO CAMELS**

MISS THADEN says: "Flying is a terrific strain at times. I frankly don't know what I should do without cigarettes. But I've found that different cigarettes have different effects on my nerves. For some years I've smoked Camels. They taste better. They're much milder. And I've noticed that they never upset my nerves.'

MISS MARSALIS says: "I started smoking Camels because most of my friends who were flyers seemed to prefer them. I've never changed because I can't afford to take chances with my nervous system."

3

Camel's costlier tobaccos do make a difference... in taste, in mildness. They never jangle the nerves. Your taste and your nerves will confirm this. Turn to Camels.

amolis

8

IT <u>is</u> more fun to know Camels are made from

finer, MORE EXPENSIVE tobaccos than any other popular brand. You will find Camels rich in flavor and delightfully mild.

• WHAT A THRILL! And how a good smoke adds to its enjoyment! Light up a cigarette. And for the sake of your nerves, make it a Camel... the milder cigarette that's made from costlier tobaccos.

# Why We Save You Money

Of course Riversides are made in one of America's largest and best tire factories. BUTthey come direct to us-minus the manufacturer's selling and general overhead expense. That's a saving. The second saving comes from Wards low cost method of distribution. These two reasons explain why we sell high quality tires for less. It's simple to figure out for yourself why Riversides are better in quality, mileage, and safety than any other tire at the same price.

## Booster Class

## Hears Fine Lessor

An inspirational lesson was brought by Rev. R. A. Walker to Booster Bible class of the Methodist church on Sunday evening, in the assigned study for the day, Samuel's Call. The speaker stated that children

may be trained as Samuel was, at the age of 3 by his mother, and that it was the home training from mothers that counted.

That when the priest Eli's son had disgraced his father and the temple the grief wrought was the outcome of the boy's lawlessness, A contrast was drawn between

the character and actions of the two boys. Rev. Walker then compared a nation unrestricted by law, to chil-dren unrestricted in the home.
