

Roosevelt May Head Oil Advisory Board

that reminds me...

After watching the progress for repeal for these many months it is startling to notice how outspoken some of the women were on the question, for repeal. If we remember correctly, way back yonder, when the 18th amendment became a possibility, many women may have been against the amendment at the time, but if they were they didn't say anything about it. Twenty-two states previously have voted unusual majorities for repeal, and every state carried against the 18th amendment. The women must have had a great part in bringing about the change. That is a miracle. We wonder why, and what to expect?

Continued showers bring glad smiles from everybody in Eastland and surrounding communities. It was very much needed and it is hoped that there will be plenty of them for the next few weeks. Despite the showers however the heat is very marked and the usual relief was not in evidence. But we can stand that, if it will only rain and rain plenty.

The entire day of election was quiet and orderly in Eastland. Everybody with a poll tax just went and voted and are leaving the results to the final count. This is as it should be in every election. All arguments should be settled by election time, and the day of voting left to the discretion and judgment of the voter. Nobody has yet been able to figure out just how it happened, after the election was over. It just happened, that's all. And we hope that after this one is over that there won't be a big howl from any quarter that the election was crooked and stolen. Which unfortunately has happened in the past. It pays to be a good loser, and is real sportsmanship. So in either event, let's make the best of it.

What we're thinking about now is Eastland... our town and your town. There is the matter of many community fairs to be held, and they need the support of everybody. Then there is the big Eastland county fair. That's important. Everybody should get behind that. Then there is the matter of making Eastland one of the best trading centers in this section. That's up to the merchants and is their vital problem. They should get behind that as a unit. Then there is the question of a bank still unsolved. That's decidedly important. Everybody should get behind that also, and still with more enthusiasm there is the matter of a live working Chamber of Commerce for Eastland. That should never be overlooked, and it should be membership supported, and not with tax money. Then there is Trades Day coming on Monday, Sept. 4, which is Labor Day also. That should be a real big day for Eastland. In fact there are plenty of things of importance to keep us all busy and when we are busy we are getting results. So let's get into the thing with all we've got, and go after that which we need most... a good will, fellowship, prosperity, and every good thing that goes with them.

Here's something we copied from Charles Wendell Kirsch, as to what the world needs: A little less knock, a little more ease, a little less rock, a little more please; a little less spite, a little more dear, a little less might, a little more cheer; a little less tax, a little more right, a little less kick, a little more fun, a little less fake, a little more give, a little less law, a little more love, a little less greed, a little more care, a little less speed, a little more fair; a little less graft, a little more deed, a little less draft, a little more head; a little more prayer, a little more calm, a little more dare, a little more Psalm; a little more faith, and a little more hope—AND THE SUN STILL SHINES.

The jealous, the hateful, the revengeful and vicious person wants to attack that which he cannot control, says Mr. Kirsch, and adds: "The man who desires to make money is a moral to do so than the man who desires to stay in business for the sole purpose of making money." Those who find that they must leave Eastland, no doubt do so with a heavy heart. There is something about it, and the people in it that just makes it linger in your heart, and why shouldn't it... it's your town and my town, now and forever?

DRYS STILL HOLD LEAD IN THE COUNTY

Despite rumors to the contrary, the county remained dry over the week-end, with the votes tabulated since Saturday night showing a larger majority against repeal, against the state beer law and against sale of beer in the county. All other amendments were carried in the county by a comfortable majority.

This tabulation was made today, with only three boxes, Furr, Long Branch and Dothan, unreported, with complete returns from all other boxes. The three boxes, in 1932, did not have enough votes combined to overcome the lead for local option and it was estimated that only about half as many votes as were cast in 1932 could have been cast in the election Saturday.

The total vote cast, with the exception of the three boxes, showed 1,493 votes for repeal of the 18th amendment, with 1,677 votes against; 1,975 votes for legalization of beer in the state and 1,602 against and 1,519 votes for sale of beer in the county and 1,673 votes against.

This tabulation gave a majority of 184 against repeal, 30 against the state beer law and 154 against sale of beer in the county.

State Employees to Begin Work Under New Law Sept. 1

AUSTIN.—To about 50 state employees the 25 per cent pay cut Sept. 1 appears so mild they would welcome it.

These 50 are to lose their jobs entirely. A few of them have left a little hope to swap places with other workers to stay on the payroll.

This week and next will see a scramble among those about to become victims of the new law that forbids two members of the same family from working in state positions. A few exceptions have been made. As it affects workers in the institutions, a man and his wife may both work in the same institution, if within low salary limits. Workers have been trying to regroup themselves so as to escape terms of the drastic law.

Six workers in the cigar tax division of the state treasury department are forced out Sept. 1, because the legislature appropriated no money for them.

At least three workers in the state Confederate home will go out, unless they can swap places so as either to go to other institutions or have members of their families transferred to the same institution.

For other workers who stay on, salary cuts ranging from 25 per cent to 35 per cent will be applied. A few, such as workers in the gas utilities division of the railroad commission, and state court judges, already have taken the cut. Constitutional officers alone, none of whom gets over the governor's \$4,000 a year, escape the reduction in pay.

Some of those, such as members of the railroad commission who are paid a constitutional salary that is supplemented by statutory additions, will get a reduction in the statutory excess.

The lowest-paid head of a department is Secretary of State W. W. Heath, who is limited to a constitutional of \$2,000 a year. Attorney General James V. Allred gets \$2,000 a year in salary and \$2,000 in fees of office. The treasurer, comptroller and several other constitutional officers are paid \$2,500 a year. Their compensation, which cannot be changed by law, already was lower than that of their chief clerks and chiefs of divisions.

Kidnapers Still Hold Wrong Man

DENVER, Aug. 28.—Relatives of Bernard Bitterman, a clerk whose kidnapers believed him to be the heir of Alfred Triefus, dry goods magnate, waited nervously today for further word from his captors. Bitterman was abducted Thursday. Only communication from his abductors has been received.

Seven suspects at St. Paul and Minneapolis, Albert Bates, held at Denver, and Harvey Bailey, in jail at Dallas, will be brought here this week to face arraignment.

Government authorities have chartered an airplane to bring Bailey here and secret removal from Dallas may be made any hour.

Two Men Die In Houston Blaze

HOUSTON, Aug. 28.—Two men, a rooming-house landlord who returned to save a roomer after already leading several others to safety, perished in a blaze here today.

The dead were H. C. Randall, 45, the landlord, and the roomer, whom he attempted to save, J. P. Hennessy, 75.

Firemen found their bodies lying near a kitchen window on the second floor of the blazing house. Apparently they had fought their way to the window and were overcome by smoke.

TEXAS JOINS WET PARADE, IS 23RD STATE

DALLAS, Aug. 28.—Texas today was number 23 in the parade of wet states, but the influence of the once dominant dry forces had barred sale of beer, legalized by the state-wide election Saturday, in a majority of the 254 counties in the state.

Incomplete tabulations of the United Press showed that 88 counties were in the dry column because of Saturday's voting and 62 in the wet column. When a county voted against beer its sale or manufacture in any part of the county is forbidden.

The dries had a majority of 26 counties. Latest returns of the Texas Election Bureau gave: for repeal 279,567, against 165,982.

For beer 283,725, against 155,419.

WASHINGTON, Aug. 28.—With only 13 states to go, wet leaders were confident today that national prohibition would be repealed by Dec. 6.

Beginning with Washington, which votes tomorrow, 15 states vote on repeal between now and Nov. 7. Repeal is not possible, however, until Dec. 6, when the last convention of the first 38 states to vote, is held.

Federal Relief to Be Extended To Aid Rural Teacher

AUSTIN.—Harry L. Hopkins, U. S. relief administrator in Austin Wednesday night, has opened the doors of hope for Texas schools closed by lack of money, in a re-employment plan for jobless elementary grade teachers.

He telegraphed Col. Lawrence Westbrook, state relief director: "Your relief commission is authorized to use federal relief funds... to pay work relief wages to needy unemployed teachers assigned to schools which have been ordered closed or partially closed for lack of funds."

"This applies only to rural counties. The state administration is also authorized and urged to pay for relief fund work wages to needy unemployed persons competent to teach adults unable to read and write English. This applies to cities as well as rural counties."

"Under no circumstances should relief funds be used to relieve counties of their proper responsibility for education, nor should these activities permit the substitution of relief teachers for regularly employed teachers." It was pointed out this plan can be adopted only if the state bond issue passes, to assure continued relief funds.

Mr. Hopkins said the regulations under which the teachers employed out of the relief funds for schools otherwise to be closed would be:

"To assign teachers to classrooms up through the eighth grade, provided, that these teachers are assigned by the relief offices to appropriate educational authorities who will have entire supervision over their activities."

Sleeping Sickness Cases Reported

AUSTIN.—Texas now has two cases of sleeping sickness, Dr. Charles D. Reece of the state department of health reported. One case is in Houston and one is in June county.

The state has had at least one case per month ever since the epidemic of the affliction following the influenza in 1918, Dr. Reece pointed out. During the winter, the state averages five cases per month.

"Sleeping sickness generally follows influenza," Dr. Reece said. "The cause of the disease is imperfectly understood, therefore the patient and attendant should be isolated. The virus which causes the disease has so far defied detection."

There was no strolling by honeymooners or vacationers on Atlantic City's well known boardwalk while the storm whipped at the famous New Jersey resort. Photo shows how the heavy planking was ripped up by the hurricane wave and wind.

Father of Miss Susie Naylor Dies At Strawn Sat.

Sam Davis Naylor died at his home in Strawn at 11:45 a. m., August 26th, after an illness of more than two months. Funeral services were held at the First Baptist church of Strawn at three o'clock Sunday afternoon with Rev. O. B. Darby, pastor of the Eastland Baptist church in charge. Rev. Naylor was the father of Miss Susie Naylor, who works for the Southwestern Bell Telephone Company in Eastland.

Sam Davis Naylor was born in Travis county, near Austin, on the first day of November, 1854. He grew to manhood in Rockwall county and went through the scenes and struggles of the Civil War. He later moved to Falls county, joining the Mountain Peak Baptist Church and was licensed to preach, preaching his first sermon in November, 1882. The following year he entered Baylor University, spending one year there and two years in the Paluxy Institute, after which he was ordained to the full work of the ministry.

He was married to Miss Mary Elizabeth Fowler on Nov. 15, 1888. To this union were born eleven children, five boys and six girls, all of whom live in or near Strawn, with the exception of L. H. Naylor of Abilene and Miss Susie Naylor of Eastland.

At the time of his death Rev. Naylor was 78 years, 8 months and 26 days old. He is survived by his wife and children, two sisters, Mrs. S. E. Custer of Fort Worth and Mrs. W. G. Jenkins of Midlothian; and by four brothers, R. L. Naylor of Midlothian; G. R. Naylor, Ada, Oklahoma; Dick Naylor, Denton, and E. V. Naylor, Memphis.

More Problems to Be Faced Before Early Sale of Beer

AUSTIN.—Plans for midnight beer-welcoming celebrations in the early hours of Sept. 15 will depend on keeping the courthouses and express company offices open through the night, official scrutiny of the beer bill has shown.

That is, unless the legislature, in the week before the law becomes operative, passes emergency measures to improve the crazy-quilt effect of the present law.

State Treasurer Charley Lockhart has ascertained that beer tax stamps cannot be issued until the 15th and until after licenses have been granted. Compt. George H. Sheppard's department, in charge of the licenses, has found the licenses cannot be issued before the 15th, and then can be issued only by the county clerk, after "hearing before the county judge."

Mr. Lockhart has determined he can ship the tax stamps by express to various points, where they will be available early on the 15th; but beer dealers cannot legally buy them until they have received licenses.

STOCKHOLM.—To save imports of coal public institutions in Sweden will be heated with wood next winter, the Government has decreed. Public credits will also be granted to factories for the making of charcoal briquette, which are expected to replace coke.

Raymond Moley To Edit Magazine

HYDE PARK, Aug. 28.—President Roosevelt reached the parting of the ways today with Prof. Raymond Moley, key man of the celebrated brain trust, who is credited with originating much of the program of the new deal.

Moley's reason for resigning as assistant secretary of state, was given as his desire to accept the editorship of a new national weekly backed by Vincent Astor, a close friend of the president.

WASHINGTON, Aug. 28.—Secretary of State Hull denied he made the "slightest suggestion" that brought about the resignation of Moley.

Farmers Take 8,000 Hogs To Ft. Worth Market

FORT WORTH, Aug. 28.—Despite previous warnings, farmers swamped the Fort Worth livestock market today with hog shipments reaching approximately 8,000 head as the federal government began its hog reduction buying campaign at noon.

Farmers had been warned only 2,700 pigs and piglets would be bought each day, but fear that the national quota of 5,000,000 head would be reached before they could market their supply led many farmers to rush their pigs to the market.

Those that cannot be bought today will have to be held over until later in the week. Shippers will have to bear the expense of holding the hogs for later sale, local Co-ordinator A. A. Lund said.

"There is no cause for rush," he said. "Shippers have plenty of time between now and Oct. 1 and a little forethought will save them money on holdover expenses now."

Texas Couple Is Ordered Released

AUSTIN, Aug. 28.—Florence Mathews, second cousin of former President Calvin Coolidge, and her husband of Nederland, Texas, were ordered released in a message from Adjutant General Hutchins to the Chicago police department today.

The couple was detained there when they were mistaken for a fugitive Texas banker and the girl with whom he eloped. The Mathews had been living here this summer attending the University.

Stephens County Wet By 154 Votes

Reports from Breckenridge today showed that Stephens county had voted wet by a majority of 154 votes, with all boxes heard from and all complete. It made Stephens the only wet county in this section of the country, as Palo Pinto showed a dry majority of 75 votes, with all votes tabulated.

Rumors of beer gardens at the county line, just three miles from Ranger, prevailed today, with reports that many had been seeking leases on property in Stephens county adjacent to the county line on the Caddo road.

Prison Guard Is Killed By Convict

CENTRAL STATE PRISON FARM, Texas, Aug. 28.—Officials of the Texas prison system today investigated the killing of Guard J. R. McCall, 44, shot to death, frustrating an attempted escape. Although he was mortally wounded, McCall fired until his bullets dropped Beaumont King, Wilbarger county convict, with serious wounds.

Reports that an outside accomplice aided in a plot to liberate 120 convicts were investigated by W. A. Paddock, chairman of the prison board, and Lee Simmons, general manager of the prison system.

CANVASS OF EMPLOYERS TO BE STARTED

70 to 80 Per Cent of Nation's Employers Now Operating Under Code Is Estimate.

WASHINGTON, Aug. 28.—Volunteers began a nation-wide canvass of small employers today as the government pushed its national recovery drive into a critical phase.

Approval of an automobile code brought all key industries under the blue eagle except coal. The threat of general strike by coal miners complicated discussion of a coal code.

On the eve of the drive to line up small businesses, administrator Johnson estimated that 70 to 80 per cent of the nation's employers were operating under codes or the president's re-employment agreement.

He told the canvassers "we cannot afford to fail and he besought them to refrain from intimidation and violence during the two week drive.

He said the government would collect evidence against violators and present it at a public hearing.

Bonds and Beer to Become Topics at Special Session

AUSTIN, Aug. 28.—Bonds and beer have definitely become topics for consideration at the special session of the legislature, Gov. Miriam A. Ferguson and her husband announced today.

The governor's husband said there is a pretty well defined feeling among legislators that some beer legislation will be necessary. There is doubt, he said, on the validity of the beer act which was passed provisional to adoption of the beer amendment in a subsequent election.

Bandits Hold a Banker As Captive And Rob Bank

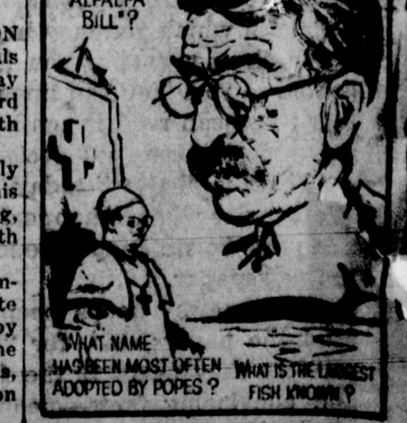

GALENA, Mo., Aug. 28.—After an all-night reign of terror in his home, Troy Stone, cashier of the Bank of Galena, early today was kidnaped by three bandits and forced to open the bank vault.

The bandits fled with \$1,700 after a hand-to-hand encounter with the bank president, whom they locked in the vault with Stone. The imprisoned men set off a burglar alarm and citizens released them.

A BIBLE THOUGHT FOR TODAY

YE WILL REAP WHAT YE SOW: Be not deceived; God is not mocked; for whatsoever a man soweth, that shall he also reap. For he that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting. And let us not be weary in well doing; for in due season we shall reap, if we faint not.—Galatians 6: 7-9.

BACK IN STEP

When the legislature last spring cut the pay of its workers 25 to 35 per cent, there was no Blue Eagle, no blanket and industry codes, and no visible start on the huge increase in the cost of food and clothing. All these have come on since.

The legislature alone can raise or lower state salaries. Generally, this is done for a two year period. For that reason, while costs were at their lowest during the past two years, state salaries had not been reduced. Just now, after a new administration brings new people into the state service, and after costs and prices have risen, a two-year period of drastically-lowered pay has been ordered. That period will start Sept. 1.

So, the state is not now to be blamed that its policy is in such direct conflict with the national government policy in the recovery program. The only agency with power to conform the state has not been in session.

The legislature will meet very early in September. It will hear much of these heads of families who would have to work for \$45 to \$60 a month unless the severe injustices of the reductions in the lowest brackets are remedied.

It is probable that the legislature could not readjust any of the salaries, no matter how low they have been cut, or how much below normal of decent living standards they are, until some new revenues are found to protect all state employes from an 8 to 10 per cent discount on warrants, and for other purposes. Saving this discount will be a degree of raising the income of state workers.

But there will be new revenue measures, either to pay the bond issue or to pay the relief bill. It is better for the state—President Roosevelt says, for all employers—to pay living wages rather than force people onto the relief rolls and into the breadlines.

Surely the legislature in September will give its best thought to taking out the harshest terms of the salary-cutting, particularly as it affects those who are paid so little that no margin is left above the actual necessities of life.

LESS BITTERNESS

Prohibition battles in past political life of Texas have been among the bitterest of all.

It is striking that this year the political campaign over the repeal and beer amendments showed nothing of the old mud-slinging spirit. On both sides, the appeal was to reason, and dealt with issues, rather than being personal and an appeal to prejudices and hate.

This is a sign of advancement.

We have a new law now to protect "suckers" from unscrupulous promoters who issue questionable investments. The investors who gave away good money for bad bonds in the boom years no doubt feel that the legislation comes much too late to do them any good.

Some cities under the name of "Economy" have cut off many of their street lights, making the work of the highjacker safe and causing many accidents and deaths due to poor street lighting. These cities should turn on the lights an dagain make the streets safe for motorists and pedestrians.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

BRUCE B. BREWER, vice president of the Ferry-Hanly Advertising company, says:

THAT buyers today want facts. What article have you bought recently without thinking it over quite a bit? That means you, and everyone else, will read MORE about some article in which you may be, or can be, interested.

In the newspaper you have these facts logically presented to you. You can linger on a certain point of advantage; you can read it again; you have the evidence there which to base your decision.

News is "hotter" today. Things are changing rapidly. We wonder what is happening now, and what might happen next. So we keep in touch with today's events through the newspaper.

"Hot news" keeps people reading newspapers. They read the papers, too, for "hot news" about products or services they need. If the facts are there—enough facts and convincing facts—people will buy. And that, after all, is the purpose of advertising. To make the sale. The newspaper has a big advantage because it presents those facts so that the purchaser may think them over, study them again, as he makes his decision.

Selecting Head of Confederate Home May Be Delayed

Naming of a superintendent of the Texas Confederate home at Austin will be delayed considerably, and may wait until after a vacancy develops, Sept. 1, in the transfer of Supt. R. R. Patterson to the state children's home at Waco.

Houses Crumbled as Sea Pounds Through Breakwater

Sea Bright, New Jersey, famous shore resort, suffered heavy damage in the four-day storm that lashed the Atlantic coast. Unusually high seas pounded over the breakwater and destroyed many shoreline homes, as shown in this picture.

There is a deadlock. The prospective vacancy was caused by the recent death of R. B. Walthall, who had been elected to the place from Sept. 1.

Mr. Patterson, who has devoted much study to administration and child welfare, is extremely happy over the prospect of taking charge of the Waco home, and will not be reassigned back to the Confederate home.

IT TAKES HEALTHY NERVES TO FLY THE MAIL AT NIGHT!

ABOVE—A. M. WILKINS, air-mail pilot for Transcontinental and Western Air, Inc., has flown the night air mail over 150,000 miles. It takes healthy nerves to hang up a record like that!

FRECKLES and HIS FRIENDS-By Blosser

WHEN they sang "Will You Remember" from "Maytime," Sam Holebridge who was crippled and had been sitting quietly in a corner of the room leaped up and joined in the singing, letting his voice ring out lustily. "Play it again!" he pleaded when the song was ended. But before the last notes of the chorus had been reached a second time Sam turned away abruptly. Freda Carter saw that his eyes were misted. "What's the matter, Sam?" she asked kindly. "It's that song-and what it brings back to me," he told her huskily. "I was in love with a beautiful girl once but it all turned out wrong. After that I thought I had to drink to bolster up my courage. I've been doing it ever since. Even tonight! I'm sorry I'm drinking to forget myself because I've got to be on the job myself to-morrow. ### Au Revoir For

Mr. and Mrs. Joe H. Jones

Mr. and Mrs. Joe H. Jones and their family leave Eastland today for their home in Dallas, where Mr. Jones preceded them a few weeks ago.

The family occupied a warm place in the esteem and friendship of Eastland and their friends deeply regret losing this congenial couple.

Mr. Jones arrived Saturday for the week-end, and to assist in the departure of his wife and two children, their young daughter a talented girl with great musical ability, Alice Jones, and their small son.

Friends have been entertaining informally for Mrs. Jones in au revoir and one of these very attractive affairs was the buffet bridge dinner given Saturday evening by Mr. and Mrs. Milton Lawrence, and also as a compliment by Mrs. Lawrence to her husband, whose birthday was celebrated.

The buffet table, laid in Madeira, was centered with a yellow iced angel food cake, decorated with icing roses, the birthday cake, and set in a wreath of yellow roses.

Three tables, linen surfaced, were arranged for the dinner and afterwards employed in contract.

The combination place and tally cards carried the yellow motif in flower designs, in harmony with the bouquets of yellow flowers that adorned the rooms.

The appetizing menu included barbecued rabbit, waffled potatoes, condiments, stuffed eggs, vegetable salad, iced tomatoes, hot coffee and iced tea, hot buttered rolls, and ice cream in the color note, served with the birthday cake.

At close of an interesting evening at the card tables, the high score favor a jar of strawberry preserves was awarded Mrs. Kinnaid.

Guests favors of handsome hand-made kerchiefs were presented by the hostess to the honor guests, Mr. and Mrs. Jones.

Personnel of party included Mr. and Mrs. H. E. Lawrence, Mr. and Mrs. Allen D. Dabney, Dr. and Mrs. E. Roy Townsend and their guests, Maurice Townsend of Del Rio; Mr. and Mrs. D. L. Kinnaid, Dr. and Mrs. W. S. Poe, Mr. and Mrs. J. B. Leonard, the honor guests, Mr. and Mrs. Joe H. Jones and host and hostess, Mr. and Mrs. Milton Lawrence, who were assisted throughout the evening by Miss Alice Jones and Miss Doris Lawrence.

# SISTER MARY'S KITCHEN

BY SISTER MARY  
NEA Service Writer

FROM the time the first golden pumpkin makes its appearance until the last one has been taken out of storage, there's no more universally popular dessert than pumpkin pie. Although canned pumpkin is available at all times and makes excellent pies, pumpkin pie enjoys a definite season and is most appreciated during the autumn months.

Everybody has his own very definite ideas of just what a pumpkin pie should be from color to taste. Different sections of the country follow their own traditions in the making of pumpkin pie, making it too dear a dish to be treated lightly.

### Canned Pumpkin

If you use canned pumpkin, cook it over a low fire until perfectly dry. Fresh pumpkin can be baked, steamed or stewed until tender and dry. Baking is perhaps the simplest method because the pumpkin is merely cut in halves, seeds removed and baked, cut side down in a dripping pan until tender. Then scrape from shell and force through a ricer or colander.

To stew pumpkin, wash and cut in narrow strips. Remove seeds and pare off yellow shell. Cut in cubes and put into a heavy aluminum or iron kettle. Add just enough water to prevent burning before pumpkin begins to cook. Cover and cook over a good fire until pumpkin is tender. Then remove cover and cook slowly until pumpkin is dry. It takes five or six hours to stew a pumpkin. When dry, force through a colander or ricer.

### Everyday Pumpkin Pie

One cup sifted pumpkin, 3-4 up light brown sugar, 1 table-

### Tomorrow's Menu

**BREAKFAST:** Cantaloupe, cereal, cream, corned beef hash, cornmeal muffins, milk, coffee.

**LUNCHEON:** Scalloped egg-plant and tomatoes, toasted muffins, apple dumplings, milk, tea.

**DINNER:** Swedish meat balls, baked sweet potatoes, beets in lemon sauce, stuffed tomato salad, pumpkin pie, milk, coffee.

spoon flour, 1 tablespoon molasses, 1-4 teaspoon salt, 1-2 teaspoon ginger, 1-2 teaspoon cinnamon, 1 egg, 2 cups rich milk, plain pastry.

Mix and sift flour, spices and salt and add to sugar. Mix and stir into pumpkin. Add molasses and egg slightly beaten with milk. Turn into a deep pie dish lined with plain pastry and bake one hour. The oven should be hot, 425 degrees F., when the pie is put in. At the end of ten minutes reduce heat to 350 degrees F. and bake fifty minutes longer. This rule will fill an eight-inch pie pan.

### Special Pumpkin Pie

Three-fourths cup sifted pumpkin, 3-4 cup light brown sugar, 2 eggs, 1-2 cups rich milk, 1-2 cup cream, 1-4 teaspoon salt, 1-2 teaspoon ginger, 1-2 teaspoon cinnamon, plain pastry.

Beat yolks of eggs with sugar and spices. Add pumpkin and milk and cream and mix thoroughly. Beat whites of eggs until stiff and fold into first mixture. Turn into a pie dish lined with pastry and bake as in preceding recipe. If a highly spiced pie is liked more spices can be added to either rule.

noon, at the home of Mrs. Fred Michael, was cancelled.

The Talahi group of Camp Fire Girls, announced for 7 p. m., Friday, was called off by their guardian, Mrs. J. L. Cottingham, and the Martha Dorcas lawn party was postponed until Monday.

### Class Party Tonight

If It Does Not Rain

The Martha Dorcas Bible class of the Methodist church has been unfortunate in having rainstorms prevent their meeting on their original day, Thursday, and then again on Friday the postponed date.

The hostesses stated it was impossible to hold a Century of Progress on a lawn that was soaked with water, and that the very nature of the entertainment demanded a dry lawn.

So, if it doesn't rain today, the party will be given on the lawn at 6 o'clock in the evening at the home of Mrs. F. M. Kenny, assisted by co-hostesses, Mrs. L. A. Noell, Mrs. Jack Dwyer, Mrs. R. E. Sikes, Mrs. R. L. Jones, and Miss Ma Coleman.

The hostesses as originally announced, were unable to serve on account of several being ill.

## Camera Catches "Dirty Work" in British Football Game

A mud-frieze unearthed from some ancient temple, do you suppose? No, it's just a jolly bit of action during a mud football match in Essex, England. The camera caught the play just as one team muddled through to victory, and the game, you might say, was in the bag. Because the group looked like a panel in bas relief, an artist helped out the illusion with the tricky border.
