A BIBLE THOUGHT FOR TODAY

THE GOLDEN RULE: Whatsoever ye would that men should do to you, do ye even so to them: for this is the law and the prophets.-Matthew 7: 12.

INCREASED GOLD PRODUCTION IN THE UNITED STATES

Grub stake miners are busy in the deserted gold fields of the Rocky mountain and Pacific coast sections. American gold production rose sharply in September. Output totaled 271,000 fine ounces, the largest in recent years. The September rise placed the United States in second place among the gold producing nations of the world, displacing Canada. South Africa comes first. Usually, the United States is third. The Roosevelt administration has a gold policy. It is popular in the capitals of the ancient nations of Europe? Hardly. It is condemned by the ruling statesmen but is very popular here at home with a vast army who believe hat this republic should blaze its own trails and devote a lot of time to minding its own

MORE MATERIAL FOR 'THE TRAGIC ERA'

Many broken lives and fortunesare covered in "the tragic era" of the crash of 1929. Mrs. Edith Rockefeller McCormick was "the wealthiest woman in the world." Her Chicago suburban home was a palace. It was more than a home. It was a baronial estate. It consisted of a 52-room mansion, a caretaker's house that was a little palace in itself, and 206 acres of ground. It was one of the show places of the American world. Its owner, a widow, was the daughter of John D. Rockefeller, Sr., and the divorced wife of a scion of the famous McCormick family of America. She died a year ago. Just the other day this Gold Coast playhouse and playground of the departed daughted of two famous American families was sold for \$51,624 to the American National Bank and Trust company of Chicago at sheriff's sale. It appears that when sky came down to earth the bolt "socked it to the rich" as well as to those who had failed to garner in their careers modest or huge

Chicago is a wonder city. The Stevens hotel is the largest in the world. It fronts on Michigan avenue and the lake. It is said to have cost \$25,000,000. It was built by the Stevens family-a father and two sons. Came the crash while the buildnig was on. Well, the father and son were prominent in the business and financial and insurance and social life of Chicago. They were the ruling executives of a powerful life insurance company. A year ago a grand jury indicted all three. One of the sons committed suicide. Sought for nine months in connec-Late in September the surviving son was sent to trial. His tion with the murder of Charles indictment charged that he had embezzled \$1,200,000 (King) Solomon, Boston and New from the funds of the insurance company. Aged and broken, the father obtained a continuance. Physicians testified arrest in Boston. Solomon was that his life would go out if he were taken to the temple slain in a Boston night club shortof justice. Well, the surviving son was found guilty by a ly after being indicted in connecjury of his peers. He is facing imprisonment. Minimum tion with a \$14,000,000 rum conpunishment is two years; maximum punishment 10.

Tragic tale to say the least. A son in a suicide's grave; another son facing the penitentiary. And the mighty genius, creator of the Stevens fortune, is on his death-bed awaiting the last call. "Why Should the Spirit of Mortal Be Proud?"

TEXAS LAWMAKERS ARE BLAZING A NEW TRIAL

Onward the flag of civilization and justice is carried by the marchers. Texas lawmakers have prohibited the sale of machine guns except to officers of the law. They have made kidnaping a capital crime punishable by death in the electric chair. They have served warning to the outlaws of the American world that kidnaping is an offense that merits death for those who engage in an infamous industry of the underworld. Federal Judge Edgar S. Vaught, who sentenced the convicted criminals in the Urschel kidnaping conspiracy, has advised that congress add the death penalty to the Lindbergh law; that is, substitute for life imprisonment death on the gallows high or in the chair. These are his words: "I believe in capital punishment. I would have sentenced Kelly and Albert R. Bates to the gallows as quickly as I would take them a drink of water." If the punishment is to fit the crime, why not the death penalty?

If you have been thinking of your home town and the welfare of the people thereni, now is the time to throw your hat in the ring and join your Chamber of Commerce.

You should be either for or against your home town. If you are for it, you should boost it. If you are against it you should leave it.

The way to secure business is to advertise just what you have to offer in the columns of this newspaper.

The classified ads are the "clearing house" of trade. Ues them and read them.

People will go miles to a good live city to trade.

So was a lot of store lighting

LIGHTING is like style. If it is not "good," it is not good enough. Any store that wants to impress its customers favorably should be sure that its lighting is as modern as its merchandise.

Lighting has made great forward strides in the past five years. New uses have been discovered that make it of even greater help in speeding up sales-attracting new business-cutting overheadbuilding store prestige.

How does your store lighting measure up to modern standards? We can give you the answer quickly.

By means of new, delicately balanced, scientific instruments, as sensitive as a doctor's thermometer, our lighting engineers can show you where your lighting is a help or a handicap in building sales and profits for you.

This demonstration will cost you nothing. It may pay you immeasurably. Phone at once for an interview.

(To Be Continued)

DO YOU REALIZE

WHAT A WORLD OF GRIEF

Advertising Saves You?

WE KNOW a seed house that proves each season's crop of seeds in their own trial gardens before they offer them to the public. Flowers and vegetables grown from these seeds must measure up to definite standards, or else the entire crops from which the samples were taken are

We know a manufacturer of dry batteries who tested a new product two years before he sold a single battery to a single dealer.

We know a manufacturer of an anti-freeze solution for automobile radiators who spent two years testing his product under all conditions before he said a word in advertising about the merits of his goods.

We know a manufacturer of household pharmaceutical products whose self-imposed standard of purity and efficacy is even higher than that laid down by the United States Pharmacopoeia and the National Formulary.

If we mentioned their names you would recognize them immediately. You probably would say, "Why! I plant those seeds," "I use that battery," "I use that anti-freeze," "My medicine cabinet contains those products."

The four instances cited are typical of every reliable manufacturer in America. Millions of dollars are spent annually to develop, to improve, to standardize, and to take the guess-work out of merchandise. Other millions are spent in advertising to tell you about them.

All of which is to say that in putting your trust in advertised merchandise you save yourself the bother, the expense, the disappointment -yes, the danger-of experimenting and discovering for yourself which make of soap, breakfast food, radio tubes, lingerie, gasoline, tea, electrical device, stationery-or what-not-gives you the most service for

The news columns of this paper keep you informed of the latest international, national and local happenings. The advertisements inform you of the newest, most advantageous, most reliable merchandise that America's most progressive makers are producing.

owned. Can't get the idea of payng \$3.00 fo rwater to drink and bathe in. There must be a reason. We would like to know it. Perhaps the new administration hasn't had time to get into this import

In some stores cigarettes are now 18c a package. In others they are still 14c. Too much difference there. We are wondering why. There should never be difference of 4c a package in cigarettes or any other item in one place over another. That's the funny part about the commercial channels of business. It's one thing that NRA is attempting to eliminate. The fellow that charges or must charge 4c more for any item than another is surely inviting his customers out instead of in. It is better not to handle them at all if that kind of discrimination is necessary. Something has gone haywire in Eastland.

"The Worst Woman In Paris?" Has Its Opening Here Today

Openin today at the Lyric Theatre, is "The Worst Woman in Paris?" with Benita Hume and Adolphe Menjou in the featured roles. It is the latest Jesse L. Lasky production under the aegis of Fox Film, and is scheduled to remain for an engagement of two
