Prefers Ice am Soda to 3.2 By United Press AUSTIN, Oct. 2.—The house, by resolution today, requested Gov. Miriam A. Ferguson to submit the farm moratorium pact of the regular session for amendment so the time of the moratorium may be extended. It will expire Oct. 27 for those who have not previously had an 180-day moratorium and filed application for extension.

### CLERK TELLS OF DEPOSITS BY FERGUSON

AUSTIN, Oct. 2.—W. R. Long Jr., American National bank book-keeper here, testified today before the senate that deposits made by James E. Ferguson to the Forum and Bosque Creamery accounts this year were the same as for past years. Long was returned to the witness stand in the senate relief investigation today. Saturday he testified deposits totaling \$22,774 were made to the Forum account and \$43,896 to the Bosque Creamery account since Jan. 1. Examined by administration leaders Long testified he did not mean, however, that either account had that much money to its credit at any one time. He also testified he did not know if any of the funds credited to the two Ferguson accounts had ever been transferred to the personal account of Gov. Miriam A. Ferguson.

### They'll Try for New Endurance Mark

They're going up in the air for an extended stay, and Viola Gentry (left) and Mary Samson declare they won't land again until they've captured the world endurance flight record for women. Their plane, the Outdoor Girl, is being conditioned at Floyd Bennett Field, N. Y., for a take-off early in October. The present record of eight days and four hours is held by Frances Marsallis and Louise Thaden.

### DRIVE TO SEND KELLY TO CHAIR STARTS TODAY

OKLAHOMA CITY, Oct. 2.—The government drive to send George (Machine Gun) Kelly and Albert Bates to the electric chair in the Urschel kidnaping started today. State charges of armed robbery were drawn against them. County Attorney Lewis Morris prepared the charges, accusing Kelly and Bates of robbing Charles Urschel of \$32 and Walter Jarrett of \$52, the night Urschel was kidnaped in July. Armed robbery may be punished by execution in Oklahoma. Kelly and his wife were brought here yesterday from Memphis by airplane.

### Earns Medal

First award of the air mail flyer's medal of honor will be to Mal B. Freeburg, mail pilot for Northwest Airways, shown here. His cool daring saved the lives of eight passengers when he was forced to drop a disabled motor from his plane, landing safely after the feat.

### AMBASSADOR IS ASKED TO LAND MARINES

Twenty Cubans Killed and 100 Believed Wounded In Skirmish Today. HAVANA, Cuba, Oct. 2.—One American citizen and at least 20 Cuban soldiers were killed and estimates of wounded ranged to 100 today when the government troops opened fire on rebel officers embattled behind the walls of the National hotel. Casualties to the defending forces of officers barricaded in the hotel were not known, although for more than five hours they had been subjected to a galling fire from all sides. Their demands intensified because of the unintentional killing of the American citizen, a committee of wives of the besieged officers visited the American ambassador and asked immediate landing of marines.

### YOUTH ADMITS SHOOTING GIRL AFTER A RIDE

MARLIN, Texas, Oct. 2.—A slaying as dramatic as the plot of Theodore Dreiser's "An American Tragedy" was investigated by authorities here today. Charges of murder in connection with the death of 13-year-old Dorothy Baugh were filed against Lee Francis, 19, said by officers to have been her escort on a Saturday night automobile ride. The girl, unconscious and near death, was found yesterday on a highway north of here. The child's grandmother, Mrs. Ethel Baugh, a nurse, with whom she had been living, said the girl died without regaining consciousness. The youth, in whose garage were found shells corresponding to the one which killed Dorothy, told officers he had not intended to kill the girl. "I only wanted to frighten the girl because she wanted to marry me," he was quoted as saying. Funeral arrangements were incomplete today. Mrs. Estes, her mother, left Mineral Wells yesterday on an automobile trip. Others surviving the girl include her grandfather, Mr. Bozell, a resident of Mineral Wells.

### Oil Code Director Once a Salesman For Insurance Co.

FORT WORTH, Oct. 2.—The regional NRA oil code director for Texas, New Mexico, Oklahoma and Kansas, deserted the insurance business in 1901 to enter the oil "game." It was when word of an oil strike in a marshy bayou at Beaumont, Texas, swept over the state that J. D. Collett abandoned his insurance and rushed for a lease in the Beaumont field. "You see, I got my feet wet in oil early," he smiled from behind his neatly kept desk. Collett does not like big office buildings. For 12 years he has made his office in a quaint little triangular building tucked in behind the public library. After the Beaumont incident, he returned for a short time to the insurance business, giving it up again in 1916 to become president of O'Keefe and Collett, corporation, an independent oil concern. He still holds that post. When Secretary of Interior Ickes named Collett as director of the fourth region's oil code, Collett's friends here pointed to his many-sided life as indicative he was a good selection. The regional oil chief is an expert surveyor and has practical knowledge of geology. He is president of the Midcontinent Oil and Gas association and a director in the American Petroleum Institute. His oil holdings are all in Texas, in Winkler, Crane, Ector, Maverick and Eastland counties, all acquired as an independent. Collett's private life is as varied as his public life and his activities are many despite the fact he observed his 64th birthday Sept. 26. He likes golf and is a veteran billiard player. His friends describe him as an "excellent" dancer. He is a lover of animals and frequently goes to a large ranch near Strawn, Texas, on which he holds mineral rights. His visits are more often to spend a day with the ranch horses than to look over his leases. Collett is married and lives in an attractive residential district here. His son, Davis, is on the engineering staff of the Atlanta Oil Producing company at Longview, Texas.

### ROOSEVELT TELLS VETS THE THREE POINTS IN HIS DEALINGS WITH THEM NOW

CHICAGO, Sept. 2.—The non-combatant war veterans must take their chances with other citizens in earning a living, President Roosevelt said today in a speech carrying his economy fight before 30,000 members of the American Legion. Mr. Roosevelt spoke boldly in his crucial address before the Legion convention which had potentialities of winning the veterans wholeheartedly or arousing revolt against the president's drastic compensation cuts. "The realization of our program cannot be attained in six months," he said. "Reemployment has proceeded only part of the way. From week to week there will be ups and downs, but the net result is a consistent gain. The freezing of credits has been stopped and the ice is melting. Farm income has been increased; it must be further increased. "Industry has picked out an increased purchasing power must be stimulated. Each of us must pay an individual part in our own field in dealing with these problems."

### Unionization of Workers Urged

WASHINGTON, Oct. 2.—Complete unionization of America's workers and opposition to monetary inflation were demanded by William Green in a talk today at the opening session of the fifty-third annual convention of the American Federation of Labor. He pleaded for a militant labor outlook and declared success of the national recovery act depended upon adoption of a 30-hour week and higher wages throughout the nation.

### \$13,683 Paid To Farmers For Cotton Plowed Up

County Agent J. C. Patterson Saturday received \$13,683 in cotton plow-up checks for Eastland county farmers, which makes a total of \$28,935 received on this account to date. The total number of checks received to date is 365. There are 417 checks totaling \$33,910 yet to be received by the county agent for Eastland county farmers on the cotton plow-up account.

### Anti-Gangster Inventions to Be Put On Display

DALLAS, Oct. 2.—Anti-gangster inventions will hold attention of delegates to the National Inventors' congress here November 21 to 25. A pair of metal mittens, chained together, prevent use of nimble fingers once the criminal is apprehended, the inventor explained. Tear gas from a gun concealed under a coat sleeve and strapped to the forearm would be a big surprise for a gangster, believes a Chicago designer. The gas could be released by a jerk on a string attached to a button in the wearer's hand. Gadgets to handle criminals will not complete the exhibit, early entries indicate. Tired dish washers will be interested in a new machine to do their work. A lever shoots a stream of soapy water onto dishes placed in a receptacle. Reversed the lever turns on clear rinsing water. An unbreakable faucet might be the answer to the landlord's big water bills and a pair of wooden tongs on which a patent is sought might be just the thing to save wash women from burning fingers while removing clothes from boilers.

### Vernon Bankers Trial Again Ends In Hung Jury

SEYMOUR, Texas, Oct. 2.—A hung jury was recorded today in the second trial of R. E. Martin, former official in the Farmers State bank at Vernon. The jury reported late yesterday it was unable to reach a verdict on a technical point without taking up the charge of false entry in the bank accounts. A year ago last June another jury disagreed on the first of several charges of embezzlement in connection with an alleged shortage of \$15,000. AMARILLO, Tex.—Return of legal horse races here brought 3,000 fans to the first race of a six-day meet. In the feature race the first day a long shot, Hesitation, paid \$48.50 for a \$2 ticket. He came home a nose ahead of Jean Mac.

### LARGEST CIVIL SUIT STARTED IN COURT TODAY

AUSTIN, Oct. 2.—District Judge J. D. Moore overruled special exceptions of the defendant oil concerns to the state's \$17,850,000 penalty and ouster suit in 98th district court here today. He set argument for this afternoon on whether the NRA act superseded the state anti-trust law under which defendant oil companies are being prosecuted. The suit is based on the attorney general's contention the oil code of ethics entered into by oil companies in 1929 was used in an attempt to eliminate independent filling stations. Right of 15 major oil companies, the American Petroleum Institute, and the Texas Petroleum Market-ers association to continue operating in Texas is attacked. Cancellation of permits and charter forfeitures are asked. Political destinies, too, are at stake. If Allied wins, his progress to governor or to the United States senate seems assured. Already it has brought a clash with former Gov. James E. Ferguson, chief adviser of Gov. Miriam A. Ferguson. "The suit should be stopped. It is a blow to national recovery. It will throw thousands out of employment if oil company charters are forfeited," said Ferguson. "We are not suing because of agreements to raise wages and spread employment," said Allied. "We are suing because we believe a code of ethics was used as a smoke screen to drive out independent filling stations and competition." Ignoring Ferguson's denunciation of the litigation, Allied has gone ahead preparing for the trial. Sixty witnesses have been summoned from 17 counties. They are expected to furnish new evidence for the trial. How the code was drafted, adopted, approved by a federal trade commission and put into effect is on record in preliminary testimony taken before a master. Included as witnesses are: C. H. Roesing, G. E. Barker, Charlie Mays and Claude Oden all of McLennan county; Frank Esmond, Bates Robertson, C. A. Forster, R. (Continued on page 3)

### Eight CCC Camps For Texas Named

FORT SAM HOUSTON, Tex. Eight new work locations for the Civilian Conservation Corps in the Texas District have been approved by the Director of Emergency Conservation Work at Washington, the Texas District Commander, General C. R. Howland, has been advised. The new locations are in the following Texas counties: Bell, Williamson, Bastrop, Nacogdoches, Trinity, Walker, Liberty and Jasper. Before work camps can be located in these counties, it will be necessary for a reconnaissance of each proposed camp site to be made by an army officer familiar with the requirements of the C. C. C. camps. Such a reconnaissance was completed last week at Bastrop, and the remaining reconnaissance will be made as rapidly as possible. It was also stated that the state park camps at Blanco, Lampasas, Hamilton, Stephenville, Mineral Wells, Karnack, and Palacios would not be continued. The Hamilton camp has already been abandoned, and Co. 882 which was formerly stationed there is now at Camp Bulles awaiting assignment to one of the new locations. How soon after October 1st, when the first enrollment period of the C. C. C. is concluded, the other six camps will be abandoned, was not stated. Seventeen of the original 24 camps in the Texas District will be maintained for the second six-months' period beginning October 1. These camps will be put into condition for winter by the erection of wooden barracks and the construction of a comfortable recreation hall, infirmary, and officers' quarters in each camp. In the new camps, essential construction will be completed before C. C. C. enrollees are moved to the camps. Several C. C. C. companies that have operated in Colorado and Wyoming during the summer will be moved to Texas in October and November, and additional approved locations for these companies are expected to be announced soon.

Senator A. P. Duggan and a committee of four will read and examine the lyric lore, and crown with mythical laurel wreath the one they choose as rhymsters' chief. Assisting Chairman Duggan there will be Senator Neal, or Miss Marjorie; J. C. Duvall of horse-back fame; G. W. Winnigham, the very same who pointed out the lobbying shame, and W. E. Jones of Jourdanton.

A BIBLE THOUGHT FOR TODAY

A NATION'S GREATNESS: Righteousness exalteth a nation: but sin is a reproach to any people.—Proverbs 14: 34.

GOD KNOWS ALL: O God, thou knowest my foolishness; and my sins are not hid from thee.—Psalm 69: 5.

DELIVERANCE AT HAND: I will be with him in trouble; I will deliver him.—Psalm 91: 15.

LET US PREPARE FOR SOME CHANGE

One of the most perplexing things about living in 1933 is that the world's leading thinkers seem quite unable to make up their minds whether we are approaching a sunset or a dawn.

If you nose through the books, magazine articles and interviews in which thoughtful men try to appraise the present situation you will find two schools of thought represented.

According to one school, the end of all things is at hand, and a great darkness is about to settle down over the waters. Capitalism is done for, western civilization is about to collapse and the world is about to enter a new dark age.

According to the other school, our present woes are just the birth pangs of a new order of life. We are going through a great change, and paying for it in misery and confusion, but when the change is finished things will be almost infinitely better than they were before.

Each crew of prognosticators can assemble a multitude of facts and a whole string of clever arguments to prove its case. You can get damnation with your morning coffee and salvation with your after-dinner cigaret if you like, and each forecast will seem to be absolutely foolproof.

Now all of this, however conflicting it may be, does seem to indicate one thing indisputably; that we have reached one of history's great turning points, and that no matter what the future brings us it is going to be something different than what we have had before.

Yet it is also quite possible that the seers are mostly wrong. The disasters they foresee may not be quite as bad as they expect; the improvements may leave us only a little bit better off than we were.

ECONOMICAL PARADOX

Uncle Sam's effort to help the farmer by plowing under cotton, limiting wheat acreage and killing several million hogs is economically unsound and morally wrong.

It is a verdict that a whole lot of people will accept. No part of the recovery program seems more contradictory than this destruction of the raw materials for food and clothing at a time when millions of people have neither enough to eat nor enough to wear.

Yet it is a contradiction that is not peculiar to the farm program. It lies at the very heart of the capitalist system, and it involves the fundamental conflict between production for use and production for profit.

It does not take much thought to enable one to see that destroying cotton, wheat and pork when millions are in need of clothing and food is precisely similar to letting great factories lie idle when millions need the things that those factories can make.

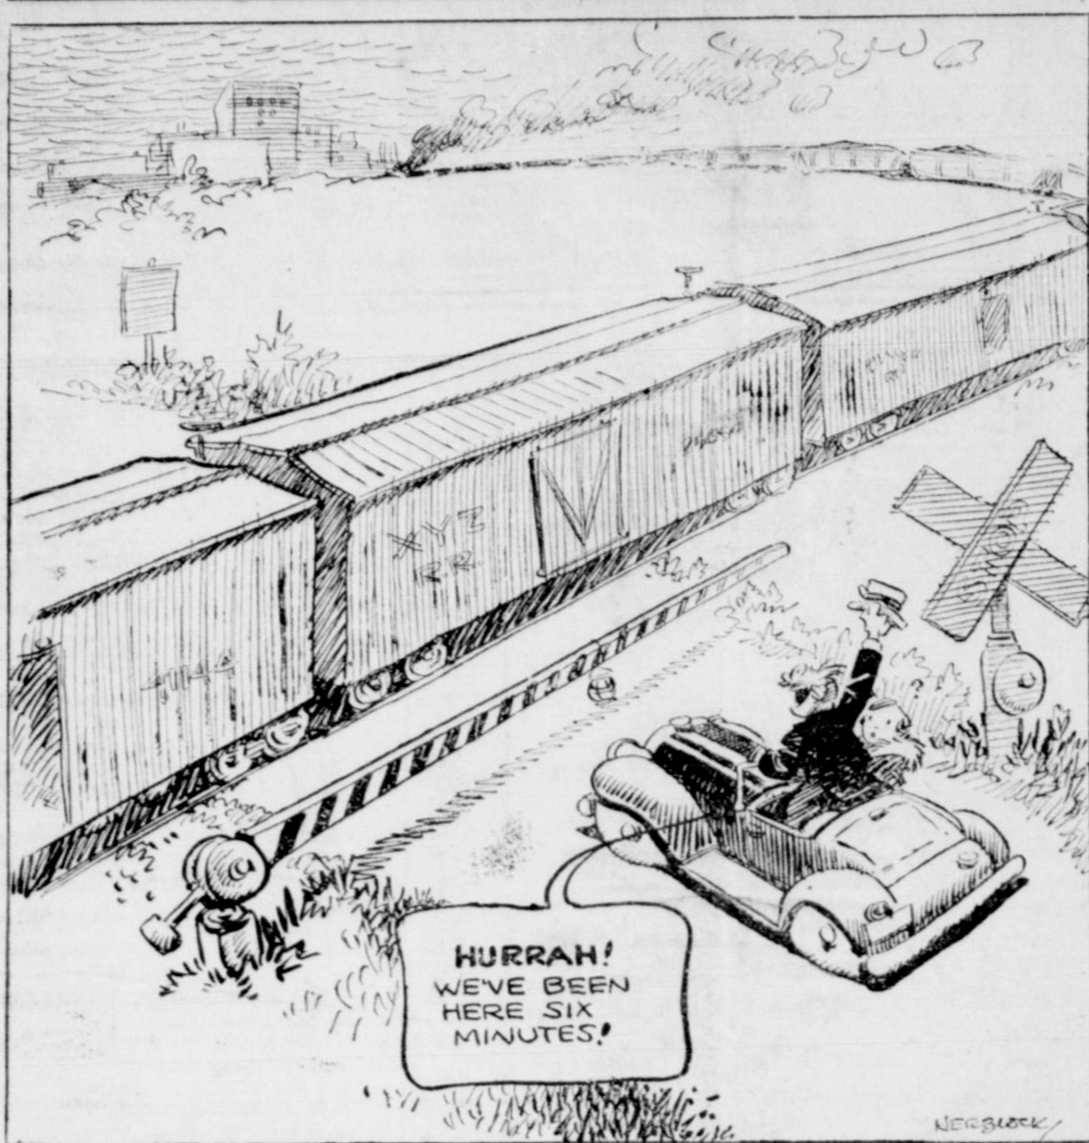

The farmer is as much a capitalist as the factory owner. If the factory owner cannot be expected to produce more than people will buy at a price which yields a profit, neither can the farmer.

But stating the parallel in this way does not really get us anywhere. It simply shows how fundamental these objections to the farm program are; how far they reach into the very essence of the structure of capitalism.

For if the farmer ought to keep on raising wheat and cotton and corn and pork even though he cannot do it profitably, so long as there are people who need these things, then by the same token the industrialist ought to keep his factory wheels humming so long as there are people who need the things he makes, whether they can pay his price for them or not.

The best thing about the whole farm program, perhaps, is that it makes this moral clear to us. It may work or it may not; while we are finding out we are going to get an education, and our future steps may well be taken in the light of the lessons we are learning right now.

School Fund Gets Additional Money

By United Press

AUSTIN, Oct. 2.—Things are looking much more cheerful for the state's school children and their teachers.

More than \$2,000,000 has recently been deposited in the state school fund. Approximately \$1,000,000 was added when Attorney General James V. Allred ruled the school fund was entitled to the cigarette tax increase...

The check was for oil rights exercised by the Mid-Kansas under a lease. Fred Turner Jr., young, broad-shouldered West Texan from Midland, discovered the land on which Mid-Kansas had three wells in the Yates field...

Turner got nearly \$1,000,000. He was in court when the judgment was rendered. Modestly he declined to discuss it or what he plans to do with the money.

The \$1,073,000 check was signed by Richard Berry, president of the Mid-Kansas. It was delivered after banking hours Saturday. Allred placed it in a little brown billfold and carried it until banking hours Monday. He displayed it with some pride.

The \$1,073,000 check has also been photographed. Reproductions
