#### A BIBLE THOUGHT FOR TODAY

GUARD YOUR THOUGHTS: Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things. -Philippians 4: 8.

#### WINE ESCAPED

Efforts of the Texas legislature to benefit a home industry the brewing of beer, did not have a high degree of success.

The body submitted a constitutional amendment to legalize both beer and wine, but in the act licensing and taxing the sale, limited the statute only to beer.

The result is, according to a ruling of the attorney general, wine may be sold without any tax whatever. According to a further ruling of county authorities at San Antonio, it may be sold without even procuring a license, such as required for dispensing beer.

Instead of excluding the wine business, the legislature apparently has let it in practically license-free, on easier terms than the dispensing of home-brewed malt liquor.

#### WOMAN IN NEW OFFICE

Mrs. Hal C. Peck of Amarillo has been confirmed as terms of profits. They will come the first woman appointee of the Texas game commission.

The game commission gives some attention to conser- causing any inconvenience to anyvation of wild life, but not in terms of the nature lover's body's pocket book. estimation-rather, in the terms of providing adequate hunting. It protects game animals and birds, exterminates predatory animals, operates fish hatcheries, regulates commercial fishing, collects sand and gravel fees, and is a closed incident. As said be- day

Mrs. Peck may bring its policies, if not its guiding statviewpoint and interest in wild life. The presence of a womutes, around a little bit to the naturalist's or nature lover's newspaper or otherwise. We do an on the commission should help broaden activities of with the newspaper business that of groceries, one tire, and some year an agency blamed for its lack of diversity and breadth of deserves consideration, just as viewpoint.

#### RELIEF POLICY EVIDENCE

The evidence is in now, as to policies governing bond public and not the individual to pass judgment. relief and the handling of bond relief money. This week, the legislature will begin to shape the policy, based on that evidence that will be adopted for spending such part interested in newspaper advertisof the \$20,000,000 bond issue as may be authorized.

There is as much difference of opinion now as before the first witness told of overhead costs or of this or that in which the newspaper is operatpolicy or system. What will be the outcome cannot be fore- ing. And the fact that we have seen with any clearness, further than that there is a very tion that we are above all carrying strong prospect of tightening up the machinery to avoid out the wishes of the government out-of-state experts' domination, and a rather free-hand federal dictation of practices, methods and amounts.

ably will run its relief administration, and the excuse-or defense -be no longer required that "it's in the last 10,-000 regulation we received from Harry Hopkins and Aubrev Williams."

And this much, at least, will be a most beneficial im- pensation according to govern provement, in the opinion of some of those lawmakers who heard 10 days' testimony on the subject.

## SUIT IS TILLU TO PREVENT **GATE RATE CUT**

AUSTIN, Oct. 5 .- A suit to enof Lone Star Gas company's gate rates was filed in 53rd district court here today by Assistant Attorney General Elbert Hooper. The commission ordered the

gate rate reduced from 40 cents to 32 cents a 1,000 cubic feet Sept. Nine days later the Lone Star company filed a bill of complaint in federal district court here and obtained a temporary restraining order against enforcement of the reduction.

Wheeler signed an order staying enforcement of the commission or der pending a final determination of the suit.

In effect, the suit also seeks to remove the rate dispute from the federal court to the state court.

BORN MEAGE FORM

BOR WESTON, son of p milflomaire, is decally attracted to
JOAN WARING, a pressy girl be
has seen on a frain can route to
Memphis. Both has come to Alemphis in connection with his fataer's new textile plant.

Joan is a member of an impoverished family with an aristocratic background. Her mother
longs for her daughters to have
the social position a rightfully
theirs. Joan has left college before graduation to assist in the

amusing himself and tries to warn ber sister.

BARBARA COURTNEY, a society girl whom Pat knew in New York, is scheming to win him.

MRS. WARING meets Bob and invites him to dinner. Joan, in a flurry of preparations, scarcely hears Pat's description of a "knock-out looking man" she has seen with Barbara Courtney. Pat opens the door when Bob arrives that evening and recognizes him as the man she saw with Barbara. NOW GO ON WITH THE STORY NOW GO ON WITH THE STORY

CHAPTER VII

BOB called for Joan early the next morning and they drove to the site of the new textile plant. As they rode along, the wind in their faces, he told her of the plans for the project. Two hundred and fifty acres had been purchased with a half mile frontage on the river.

Preliminary work on the water front was already under way. "Borings and sounds are now being made," Bob said, "and specifications will be ready for bids within

Joan understood little of the technical language he used but she was immensely proud that he

"Step right up, Ladies and Gen'm'n"

HAVE you ever heard a street-corner medicine man hawking his wares? Confess. Weren't you tempted to buy by his persuasive talk? Why didn't you? Wasn't it because you could feel no real confidence in his product? Wasn't that because, though he was here today, you didn't know where he'd be tomorrow?

How differently you feel when you buy an advertised product. Here is no human personality to persuade you. But, instinctively you know you can trust the word of "The salesman in type." Manufacturers and merchants who advertise are permanent. They stand back of their products! They spend millions of dollars to determine your needs and to perfect products that will satisfy those needs. Unlike the medicine man, their business is built on your continued good-will.

Research laboratories, with the wealth and resources of great industries behind them, are constantly seeking to invent and improve things to make your life simpler and more pleasant. They bring their discoveries to you in the advertisements. Advertised merchandise is merchandise of quality. Merchandise you can depend on. Let the advertisements teach you what's new and good. Let the advertisements guide you in spending your money wisely. Step right up, ladies and gen'm'n!
