## Questions Right of U. S. to Reject Bids

### MEXICAN TIP CAUSED FOUR TO BE ARRESTED

By United Press  
EDINBURG, Texas, Oct. 30.—A tip from Mexico led to the arrest of four men held here on charges of murder in connection with a four-year-old murder, attributed to Hidalgo county's bitter political war.

Information obtained in Mexico three weeks ago led to the arrests. Charges were filed here against Cam Hill of El Paso, former Hidalgo county clerk; Julian Ybarra, Mexican resident of Mercedes, Texas; a Weslaco street sweeper, and George Beck, Dallas peddler.

They are accused in connection with the slaying of Claude Kelly, 31, who was fatally beaten in 1929 while he slept in the home of his father-in-law, County Judge E. C. Couch.

Couch at the time was a candidate for county judge on the Good Government party ticket. The party leaders interpreted the attack upon Kelly as an attempt on the life of Couch.

### Funeral For H. C. Due Set For 3:30 P. M. Tues.

Funeral services for H. C. Duke, 33, who died at 2:55 this morning in the Payne & Lovett Hospital at Eastland from injuries sustained in a car accident, will be conducted from the Eastland Church of Christ Tuesday afternoon at 3:30 o'clock. W. E. Moore, pastor of the church, will officiate. Burial will be in the Eastland cemetery.

An employe of the Arab Gasoline Corporation for more than eight years, Duke was on his way to the plant seven miles north of town to go to work when the accident occurred at the top of the hill and in front of the J. R. Gilbreath home about one mile north of Eastland. Members of the Gilbreath family, aroused by the noise of the crash when the car failed to make a turn, skidded across the highway and turned over, went to the scene. They called an ambulance that rushed the injured man to the hospital.

### Frank Denison Will Appear At Grand Jury Probe

DALLAS, Oct. 30.—Frank Denison, of Temple, will appear before the Dallas county grand jury tomorrow to testify in connection with an investigation of alleged state job selling.

The district attorney's office was advised the Temple man, summoned to appear today, would not be able to reach Dallas in time to testify before tomorrow.

Denison was appointed by Governor Ferguson to the chairmanship of the highway commission, but the appointment was rejected by the state senate.

### Will Speed Up Wheat Allotment

FORT WORTH, Oct. 30.—Machinery for speeding up the federal wheat allotment in Texas was set in motion here today at a conference between Carl Robinson of Amarillo, wheat allotment director of Texas, and members of the wheat board of review.

This board will fix the wheat allotment for 120 Texas counties lying east of the 100th meridian. The allotment of each county will be fixed at conference and instructions will be given county agents as to making out contracts.

Stephens county was among those having appointments this week.

### Where Three Died In Plane Crash

### MILLIONS OF STORES UNDER PRICE CODE

WASHINGTON, Oct. 30.—More than 1,000,000 retail stores of the nation, with a total of 4,000,000 employes, were operated under a separate NRA code today which forbids sale of goods at less than cost.

The code applies to all retail establishments except grocery, tobacco, jewelry and a few other classifications, either under separate codes or due to be shortly.

In towns of less than 2,500 population stores employing five or fewer persons and not of the chain type were operating exempt from the code provisions.

Although the cost-sale provision became effective today, regulations were still being worked out which will fix the allowance above cost.

The code forbids sales at less than cost plus an allowance for store wages. This is expected to be set at approximately 10 per cent of the cost of goods.

### Attorney Named In Gate Rate Case

AUSTIN, Oct. 30.—Attorney General James V. Allred today named William C. Fitzhugh, 29, of Austin, as special assistant to represent the state in the prosecution of the Lone Star and United Gas rate cases.

Fitzhugh, formerly assistant district attorney in Fort Worth, conducted the railroad hearing on the Lone Star gate rate. The hearing resulted in a formal order reducing the 40 cents per 1,000 cubic feet gate rate to 32 cents. The utility appealed the case.

### TO SAIL WEDNESDAY

PARIS, Oct. 30.—Maxim Litvinoff, Russian foreign minister and emissary to the United States, intends to sail Wednesday, the United Press learned today.

### GRAND JURY MEETS

The Eastland county grand jury reconvened this morning for the purpose of completing their work for the term and making their final report.

### FOUR ARE HELD IN ROBBERY OF WEST BANK

WACO, Oct. 30.—Four men, including Q. R. Miller, identified by officers as sheriff of Foard county four years ago, were held today in connection with the robbery of the National Bank of West.

The bank was robbed Friday night of \$1,600. Sheriff Mobley said today the case was apparently completely solved. The cashier and four examiners were in the bank at the time of the holdup. Sheriff Mobley filed charges in justice court here yesterday against Miller and the other three, Tom Herndon, R. E. Flood and J. C. Elg, all of Dallas.

A fifth man, held in Dallas, is being questioned in connection with the robbery.

### Fourth Man Dies Of Injuries In Amarillo Crash

AMARILLO, Oct. 30.—Art Stude, 25, of Woodward, Okla., died here today, the fourth victim of a sensational airplane collision yesterday, which killed all three occupants of one plane.

Stude's plane, in which he rode alone, smashed through the roof of an Amarillo laundry building and shattered into splinters. The dead, besides Stude, were Ezra Wiggins, 28, of Hooker, Okla., pilot of the plane that collided with Stude's; Frank Clay, 23, Morrill, Neb., and Bill Tullis, 25, of Liberal, Kan.

### Breckenridge Man Indicted on Charge of Tax Evasion

BRECKENRIDGE, Oct. 30.—H. P. Downs, president of the Haskell Oil Refining company of Breckenridge, was under \$2,000 here today after two indictments were returned against him by the Stephens county grand jury Saturday. The indictment charged making false and incomplete returns on gas sold during May and June and subject to state taxation.

### MRS. MARTHA TAYLOR DIES

Funeral services were held at 2:00 o'clock Saturday afternoon for Mrs. Martha Taylor, 78, wife of the late T. P. Taylor, and who died Friday afternoon at her home in Cisco. Burial was in the Mitchell cemetery. Mrs. Taylor is survived by four children—three sons, Thomas of Los Angeles, Jim and Grover of Cisco, and one daughter, Mrs. Betty Tyson of Fort Worth.

### FRANCE MOURNS Her Late Premier

PARIS, Oct. 30.—France mourned today the last of her war-time premiers, Paul Painleve, and prepared to accord him the honor of burial in the Pantheon, reserved for her greatest men.

Painleve, three times premier of France, died yesterday after a long illness. His body will lie in state during the week and will be buried Saturday with full national honors.

### Income Tax of Wiggins Is Probed

WASHINGTON, Oct. 30.—Evidence that Albert Wiggins, deceased head of the Chase National bank, avoided income tax on vast profits of his securities was prepared to-day by investigators for the senate stock market investigation committee, it was stated today.

### PLANS CELEBRATION

MEDFORD, Ore.—Celebration of the 75th anniversary of Oregon's admission to the union will be observed here next year at the same time that Medford observes the 75th anniversary of its founding. Oregon was admitted to the union Feb. 14, 1859, and is sometimes known as the Valentine state for that reason.

### NEW ORLEANS, La.—The depression has another crime at its door. The Louisiana state board of health reported an increase in malaria cases caused by mosquitoes breeding in gutters and other places not kept as clean as usual, due to the economic depression.

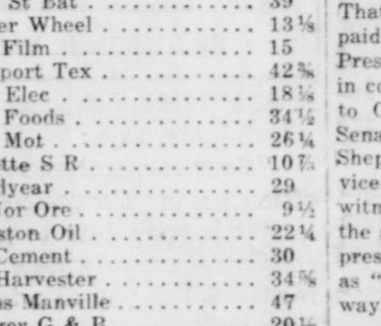

### MILK MEN URGED To Cut Down Herds

HARTFORD, Conn.—A plea to dairy farmers to butcher at least one in their herds and use the meat for home consumption has been made by the Connecticut Milk Producers association.

Cows that are not producing milk or which produce at a loss should be culled out and butchered. "Put the corned beef barrel back in the cellar," was the advice, "and have your own steaks, roasts, corned beef and dried beef."

### Explains Bank's Loans to Cuba

That the Chase National Bank paid \$55,000 to a friend of former President Machado for his services in connection with the bank's loan to Cuba was brought out by the Senate Banking inquiry at which Shepard Morgan, one of the bank's vice presidents, was a principal witness. Morgan here is shown on the stand as he challenged any impression that the bank had acted as "Lady Bountiful in any private way."

### FARMERS ASK PROGRAM FOR AGRICULTURE

DES MOINES, Ia., Oct. 30.—A three-point immediate national program for agricultural recovery and state embargoes on export of all farm products was asked by the National Farmers Holiday association today at a conference of 10 mid-western governors and a representative of the agricultural administration.

Welding the club of a farm strike now 10 days old, the holiday association, through its president, Milo Reno, asked for a national moratorium on evictions and farm foreclosures, a peg for farm prices at production cost levels, and immediate currency inflation.

### Questionnaires Expected From All Merchants

Properly completed questionnaires are expected, in the course of the national recovery census now under way, from every business establishment in the country, including those in which there are no paid employes, according to information just received from Washington.

A return from every business is essential, it was today pointed out by the national recovery administration in a statement requesting the owners of stores and other businesses in which the other does all the work, to be particularly prompt in filling in and returning the questionnaires now being distributed. Many cases have been reported where owners have mistakenly believed because they have no employes they need make no return.

Such owner-operators should insert the word "none" as the answer to questions asking for number of employes and amounts of salary or wages paid.

It was particularly pointed out that returns are also expected from non-commercial institutions, Churches, private schools, charitable organizations, social and fraternal groups, are also requested to answer the questionnaire and return it promptly.

### Pennsylvania Car Accidents Total 9,749

HARRISBURG, Pa.—There were 9,749 automobile accidents caused by "carelessness" in Pennsylvania during the first eight months of 1933, according to the department of revenue.

So far this year 196 pedestrians were killed and 2,317 injured, the department reported, because they failed to pay strict attention while crossing streets and highways.

"Driving an automobile requires the driver's undivided attention," Governor Pinchot's highway safety committee warned. "Walking across a street calls for the pedestrian's undivided attention. Alertness on the part of both will help reduce accidents."

### MOUNTAINS LURED GERMAN 6,000 MILES

DENVER, Colo.—Paul Max Weber, 23, of Berlin, Germany, traveled 6,000 miles to attend Denver university this year. It was the mountains that lured him. "They'll be grand for gliding and I'm more interested in gliding than anything else."

### COUNTY BAR ELECTS

At a meeting of the Eastland county bar association at the Eastland county courthouse Friday Earl Conner Sr., was elected president; Scott W. Key was elected vice-president and Mrs. C. C. Robey was elected secretary-treasurer.

### BLUE EAGLE POWER WILL BE ESTABLISHED

Firm Lost Contract Because It Did Not Fly The Blue Eagle.

WASHINGTON, Oct. 30.—The question of the government's power to refuse contracts to firms not flying the Blue Eagle was disputed in a suit filed in District of Columbia supreme court today.

The suit filed by George F. Driscoll company of Brooklyn sought to restrain Secretary of the Treasury Woodin from awarding a construction contract to other than the low bidder. The construction company asserted that although submitting a low bid for construction of a postoffice annex in New York the bid was not accepted because at the time the company was not flying the Blue Eagle.

The suit will bring a legal test of the validity of such action as that involving the Ford Motor company for automotive equipment. General Johnson holds that Ford is not eligible to bid, having no Blue Eagle.

The Driscoll company petition asserted that it submitted on Sept. 18 a bid for the contract which was \$112,800 lower than the bid accepted.

### Ad May Lead To Urschel Money

DALLAS, Oct. 30.—Department of justice agents were known to be investigating a want ad published in a morning newspaper at Fort Worth today on the theory it might lead to the recovery of part of the Charles Urschel ransom money.

The advertisement in the personal column was addressed "Well Digger, Wise County, Texas," and reads:

"Well Digger, Wise County, Texas; your letter about glass jar received. Will appreciate more details as to proposed well. Will guarantee square deal. No publicity and will execute contract to your satisfaction. Owner at present away, but I am his partner and can personally represent him. Address P. O. Box 1146, Oklahoma City, so that meeting may be arranged between us."

A BIBLE THOUGHT FOR TODAY

NEITHER POVERTY NOR RICHES: Remove far from me vanity and lies: give me neither poverty nor riches: feed me with food convenient for me.—Proverbs 30: 8.

A DEVIL'S ISLAND FOR DESPERATE AMERICAN CONVICTS

France had its Devil's Island on the coast of Giana. Uncle Sam is to have his Devil's Island on the coast of California. Atty. Gen. Homer Cummings has announced that Alcatraz island would be used to detain underworld characters who foster rebellion among prisoners, attempt to bribe guards and who have influential organized gangster friends at large constantly attempting to aid in their escape. Well an island off the coast of San Francisco has been selected for the purpose. Its description is interesting. Its rocky shores rise precipitately from San Francisco bay. It is more than a mile from the nearest mainland point. A swift, forbidding current swirls constantly around it. In all its long history as a military prison not one inmate has escaped. Harvey Bailey and George Kelly are to be confined there.

Well, the government appears to need a Devil's Island for its desperadoes. After killing the sheriff, four gunmen liberated John Dillinger a bank robber, from his cell at Lima, Ohio. They stole all the guns and ammunition in the jail "and raced from town in two automobiles."

Away down here in Texas the sheriff of Wichita county was slugged into insensibility and thrown over a bridge into the Wichita river by three whites and four negroes.

Sheriffs should be trained to shoot to kill. Jail guards should be trained. Police officers need training in marksmanship. Why should criminals be permitted to challenge the government, to override all laws, to terrorize the law-abiding and to break down the superstructure of the social order?

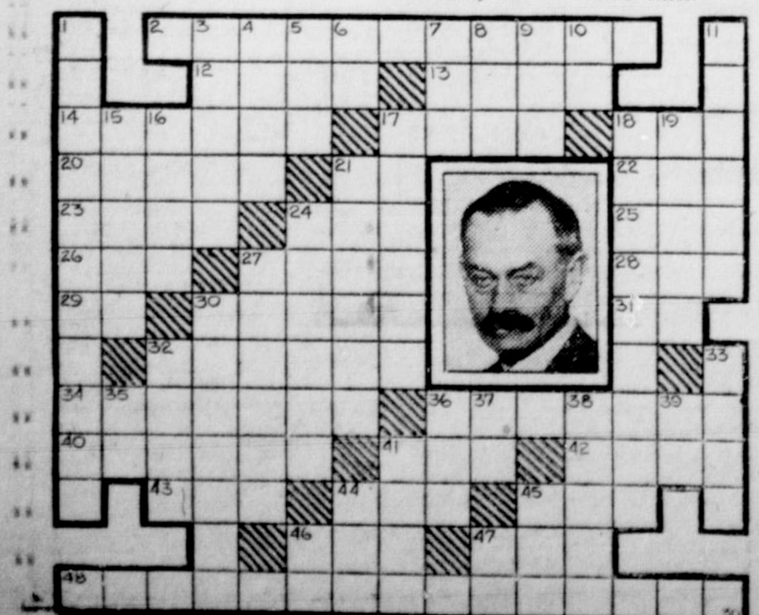

A WARNING TO U. S. LABOR AGENTS

Secy. of Labor Frances Perkins appears to be on her job. She has notified agents of the department of labor that they must not attempt "to interfere in any way with newspaper editors." She has warned them that they have no right to tell any editor what he may or may not print in his news or editorial column. And lastly, she has reminded the aforesaid agents of the labor department "there is nothing in the NRA or any other federal statute which gives you such a right." This action was taken for the reason that an agent of the labor department was charged with threatening an Alabama editor "that articles he was writing on labor unions were in violation of the NRA" and who had threatened prosecution.

Clothed with brief authority there are human atoms who puff up like pouter pigeons. Flowers for the lady commissioner. She hit the offender with an iron hammer.

OUT OUR WAY

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

F. A. MILLER, publisher of the South Bend (Indiana) Tribune, says:

"Your cooperation might, probably would, create more efficiency in your police department.

"It is your duty to give your police every reasonable cooperation with a view to creating that approach to perfection which you as a tax payer desire in your police department.

"Instead of always criticizing your police, take pains to be of service to them whenever and wherever possible.

"Such service would give your police encouragement to better service and therefore to greater efficiency."

DEMOCRATIC QUILT IS EXHIBITED

By United Press  
AZTEC, N. M.—Bedecked with 48 red, white and blue donkeys and an elephant, the recently completed democratic quilt of 72-year-old Aunt Sue McClanahan is on display here. Explaining the legend of the hand-stitched quilt, Aunt Sue said, "The donkeys are for the states, and that elephant, which I figure is without a state, is mostly blue, which also means something."

Michigan Oil Fields To Set New Record

By United Press  
MT. PLEASANT, Mich.—A new record for crude oil output in Michigan during 1933 has been predicted by operators in the Mt. Pleasant fields, the largest producing area in the state. They estimate that approximately 7,800,000 barrels will have been sent to the refineries by the end of this year, 1,000,000 more

barrels than the 1932 yield. An all-time monthly record was set in September when 903,750 barrels was produced. This figure is 159,750 barrels greater than the output in October, 1932, when the previous high was established.

U. S. BOUGHT 53,036 PIGS

By United Press  
DENVER, Colo.—A total of 63,036 pigs and sows have passed through the Denver stockyards in the government's hog-buying program. A ratio short of the government's original plan of buying one sow to every four or five pigs, failed, however, with the total number of animals having passed into the government's hands including 1,083 sows.

N. M. BUDGET BALANCED

By United Press  
SANTA FE, N. M.—During the fiscal year 1932-33, for the first time in three years, New Mexico operated on a balanced budget, figures prepared by State Treasurer C. P. Anderson revealed. Deficits were shown the two previous years. State receipts were \$12,400,792.61 for 1932-33 and expenditures fell short of that figure by \$291,339.08.

If the prohibitionists want to do any good at all, they should organize a campaign against beer for breakfast.

Only Two Died In Texas C. C. Camps First Period

FORT SAM HOUSTON, Tex.—With only two deaths in the Texas District, C. C. C., during the first enrollment period, District and Camp officials are beginning the second period with plans to reduce still further this exceptionally low mortality rate during the present period which commenced October 1. Approximately 4800 men were enrolled in the 24 work camps in the Texas District, but there were only two deaths, one accidental (due to an enrollee diving into shallow water) and the other from pneumonia. Although one camp in the District had a near epidemic of typhoid fever with 29 cases placed in the Station Hospital at Fort Sam Houston, there were no fatalities. There were no deaths in the first period due to accidents in line of duty.

Col. L. Brecheim, Jr., M. C., commander of the 2nd Medical Regiment, and Major J. D. Mings, M. C., are the District's medical officer and assistant medical officer, respectively. The medical officer for Sub-District No. 1, with headquarters at Lufkin, Texas, is Major Wm. M. White, M. C. Major E. G. Reinartz, M. C., is medical officer for Sub-District No. 2, with headquarters at Cleburne, Texas. Camp surgeons include regular army medical officers, reserve medical officers, and full and part time contract surgeons.

Four ambulances are employed in transporting cases of sickness or accident from the camps to the Station Hospital at Fort Sam Houston, Texas, or in emergencies to the Marine Hospital at Galveston, Texas, the hospital at Galveston Field, Shreveport, or to nearby civilian hospitals. A high degree of cooperation in hygiene and sanitation has been secured from the C. C. C. enrollees by camp commanders and surgeons. Talks and demonstrations

on first aid and personal hygiene are given frequently in each camp with gratifying results. Particular attention is paid to health conditions when reconnoissances are made of new camp sites, and no site is approved if any doubt exists as to its healthfulness. With District and Camp officials working towards a common end, the second enrollment period of the C. C. C. in the Texas District is expected to set another gratifying record of good health and low mortality.

FRECKLES and HIS FRIENDS

ANSWERS

to today's THREE GUESSES

COLUMBUS sailed on the SANTA MARIA with FIFTY TWO MEN. The X-RAY was discovered by WILHELM KONRAD VON ROENTGEN, German scientist. JACQUES CARTIER was a FRENCH NAVIGATOR who discovered the ST. LAWRENCE RIVER.

CLEAN FOOTBALL

IT TAKES HEALTHY NERVES TO RUN AT BILL

Steady Smokers turn to Camel  
"I know of no sport," says Erich Hagenlocher, "that places a greater strain on the nerves than tournament billiards. The slightest inaccuracy can ruin an important run. One simple rule for success is, 'Watch your nerves!' I have smoked Camels for years. I like their taste better. Because they're milder, they never upset my nervous system, and believe me, I smoke Camels." There is a difference between Camel's tobaccos and the tobaccos used in other popular brands. You'll notice the difference in taste and in the way Camels never jangle your nerves. You'll find this yourself. Begin today!
