"It's unfair and untrue to say that all young drivers are show-offs. Unfortunately, a show-offs. great many are. Some kids think they're proving manlispeeding or going ness by through lights. Other kids feel the need to prove their courage by playing violent car games like "chicken."

"The only thing they prove is that they are kids, no diffrom babies playing with firecrackers.

Mature, responsible drivers don't have to prove anything when they're at the wheel. They know that a car, like a gun or a buzz saw, must be used wisely and kept under control at all times. And so they observe the speed laws, see to it that the car they're handling is in top shape, and respect the rules of the road and the right of other drivers.

MAHON ISSUES STATEMENT IN HIS BID FOR CONGRESS POST

Eldon Mahon, Abilene attorney and businessman, has issued the following statement concerning his candidacy for the office of U. S. Congressman from the 17th District:

"I feel that there is a definite need for a change in our district's representation Washington. If I didn't feel this way - and if I had not found a substantial amount of agreement among voters with n't be making the race.

"My reasons for feeling that we need a change are based on my belief that our district has not always been represented in the past with the kind of initiative and enthusiasm I think is required to get the results our district needs and deserves.

"If elected, I will start tees which deal with the probendeavor to get something concrete accomplished for it.

"The scene of action is now in the National Congress. We of the new 17th district must make our voice heard in Washington, stronger than it has been in the past. We need a representative who is truly concerned with the new 17th district's needs, one who will listen closely to all the people, then champion their interests in an aggressive, effective manner. If elected, I intend to be that kind of Congressman

'Although I have been a Democrat all my life, I will not be a 'rubber-stamp' Congressman for the Administration's programs. Nor, on the other hand, will I be a rubberstamp opponent of measures that mean real progress . saying 'no' automatically each time a worthwhile new proposal comes up.

"I believe that too much control of our government's affairs has passed out of the the hands of the regulatory and administrative agencies.

"One of my most important objectives is to get something done about our district's water situation. There is no greater problem facing the new 17th district than the need for adequate water, now and in the future. I will work for and support any feasible legislation that promises to create greater water resources for our area.

"The oil and gas industry is, of course, vital to all of us in the district and - as a Congressman - I would support legislation aimed toward putting it in a healthier condition. Oil and gas is a prime business - an indispensable business - and contributes heavily to the welfare of the district. I am in full accord with the 27½ per cent oil depletion allowance, and would resist any measure that

would seek to change it.
"As to my position on government spending, I might point out that I have always been opposed to excessive federal spending, and see no excuse whatever for the kind of waste in government that we have tolerated in the past. There is no justification for deficit spending except during times of national emergency. These are prosperous times and it is now that we should be paying the national debt. rather than creating more of it. After all, if we don't pay off our debt during good times, when do we pay it?

Australian Ambassador Ed Clark Is Subject for Las Leales Club Talk

Boney presented the following program for the Las Leales Club here this week. Her subject was Mr. Ed Clark, ambassador to Australia.)

Mr. Ed Clark of San Augustine is certainly one of the nore unusual ambassadors representing the United States today and, judging from Australian journalists reports, he may be one of the most successful. One of Texas' top financiers and lawyers, Mr Clark arrived in Canberra on August 15 and proceeded to nake it clear that he was a Texas style" ambassador: inormal, friendly and helpful.

Ed Clark lacks a knowledge of the technical aspects of their craft. Even they, however, concede that he does nore good with his freewheeling Texan manner than with the niceties of protocol. During the first five months he traveled over 13,000 miles. seeing more of Australia than diplomats who have been there for years. He explained, "LBJ can be a pretty tough boss and he said to me, Now, Ed. I'm not sending you to Canberra to sit around until your pants get shiny. You there and find out what the Australians are like,

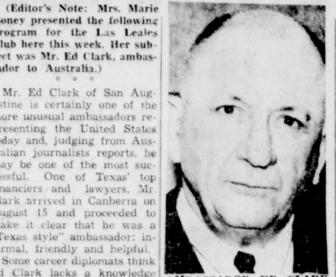

that they think. Mr. Clark has been President Johnson's personal attorney since the early 1930's, ac cording to Douglas Wynn, Clark's son-in-law. The President is godfather to Douglas

Mr. Clark is a man who "likes to get moving." He and his wife have already established a close friendship with Australian Prime Minister and Dame Pattie Menzies and the Prime Minister always leaves the American Embassy with a yellow rose in his lapel.

Although the Clarks have received permission to import bluebonnet seed to Australia, they have selected the "vellow rose of Texas" as their personal emblem. A container of roses is always in the Embassy fover, and everyone who enters must wear one. The ambassador has told his staff members, who were without a rose, to "go out and come in
