WASHINGTON, Dec. 20 .- Organization of a NRA board to exindependent industrialist and business man in the present code setup has obtained administration approval, the United Press was informed today

Whether the board actually is created depends largely, it is understood, on congressional acceptance of the project as adequate protection for the small industrial and business units.

President Roosevelt is understood to have approved the plan Gen. Hugh Johnson.

The proposed independents' board would be similar to the NRA labor and consumers' board and would have the same relationship to the NRA organization. Its pur pose would be to hear complaints of the so-called little fellows in industry and to adjust their problems. Whether such a board, operating under Johnson's supervision, would have power to comdifficulties of small manufacturers was not evident.

Why should this Russian born talker and practitioner, ayed 109, advise the impossible.

There is a man doctor giving advice to the American people. Dr. William Guilford of Lebanon, Pa., is 101. He is a practicing physician. He is the dean of the physicians of Pennsylvania.
