Two-Gun Man is Suspect in Factor Kidnaping

29 Names Appear On Honor Roll For South Ward

The names of the pupils of the South Ward school who made an average of 90 per cent or more for the six weeks period ending Dec. 11 is as follows:
1B—Harry Andrews, Edith Allison, Julia Brown, Sara Meredith.
2B—Billy Jo Mayo, Gene Johnson, Kenneth Huffman, Sue Bender, Emma Lee Hart.
2A—John Halkias, Eloise Sheriff.
3B—Joeelle Coffman, Patsy Ruth Eubanks, Dan Hightower, Dorothy McGlamery, Mary Wright, Jack McDonald, Helen Lucile Lucas, Reuben Smith, Bobby Freeman, Patsy Sparks.
3A—Helen Virginia Pratlley, Pete Andrews, Audrey Clark.
4B—Gloria Reed.
4A—Billy Huffman.
5B—Jerry Russell, Gene Petros.
5A—Alma Williamson.

Two Die as Freight and Flyer Crash in Virginia

The cars jumped into a heap by the terrific impact, this was a view of the wreckage after a Florida-New York express plowed into a freight which had been derailed by a landslide at Quantico, Va. The engineer and fireman aboard the flyer were killed.

PASTOR CLAIMS SCHOOL GIRLS POSED IN NUDE

By United Press
BEAUMONT, Texas, Dec. 12.—Charges of Rev. A. C. Maxwell that Beaumont high school girls posed in the nude for photographs in the physical training department were investigated today by the grand jury.
A miniature nudist colony exists in our high school, the Baptist preacher shouted at a citizens' meeting, repeating the charge he had made in his Sunday night sermon. School authorities denied the accusation.
A few photographs were made of girls' spines as an aid in the correction of defects in posture, Superintendent Moore said. They were made in privacy by a woman nurse and the girls wore bloomers and their faces were veiled, the superintendent said.
Photographs taken at the school will be viewed by the Christians Layman league, organized at the meeting last night.
C. N. Ellis, grand jury member, is chairman of the league. He appointed the committee of men to view the controversial pictures.
Suggestion that the committee be composed of women was voted down. Fathers of high school girls would withdraw their daughters from school rather than permit them being photographed in any state of undress.

Fight Return To Chain Gang

Return to a Florida chain gang faces James Larue, 27, above, unless newly found friends in Chicago win a court fight against his return. Extradition has been granted by Governor Horner of Illinois for Larue, who escaped after serving six months of this five-year term for breaking into a deserted hut to sleep. He was arrested in Chicago on a gem theft charge, identified as a fugitive, and claimed by Florida.

THREE OF GANG ARE HELD IN SAN ANTONIO

Leader Sought After Shooting His Way Out of a Police Trap.
By United Press
SAN ANTONIO, Dec. 12.—A two-gun gangster who shot his way out of a police trap, wounding two San Antonio detectives, was believed today to have been en route to Mexico with part of the John Factor kidnap ransom money.
While the two wounded detectives, H. C. Perrow and Alfred Hartman, were in a hospital today, three alleged members of the gunman's band were being held in jail for questioning. One of them had \$1,400 in his possession when arrested after the gun battle last night.
Police Chief Kilday said he believed the group intended to exchange the alleged ransom money for Mexican gold, then later to convert that back into American currency.
Condition of Detective Perrow remained critical. He was shot in the temple when the gunman refused to heed orders to drop his weapon after the detective had covered him with a riot gun. Hartman, shot in the arm, was not in serious condition.
Those held in jail include a woman, with whom the gunman left a house guarded by the detectives.
Immediately after the gun battle San Antonio authorities sent descriptions of the men who shot the detectives to cities throughout the state and today was the object of a concerted search.

Lake Eastland Project Approved; To Cost \$7,000.00

What is known in Eastland as the Lake Eastland project has been approved by the state relief committee and a crew of 50 men has already been put to work on it.
A total of 67,000 has been appropriated for this project. The work will consist of cleaning out rocks, trees, brush, stumps of trees etc., for the surface of Lake Eastland. 2,500 working days will be required for the job.
Another project that has been approved and on which men are now at work is that of the Lake Eastland road. Other approved projects in Eastland's territory are the Flatwood road and the Eastland-Desdemona roads.
There are more than 800 men registered for work and relief in the Eastland district which comprises the west half of Commissioners' Precinct No. 1.

BUTLER TELLS OF ATTEMPT TO KILL BILL

AUSTIN, Dec. 12.—Representative George Butler of Bryan told the legislative committee meeting here today to investigate nepotism that a distant relative of his told him during the regular session of the legislature that his job depended on Butler's vote on a bill.
Butler said the relative had been employed under the railroad commission. While so employed he came to Austin to request Butler to vote against the bill to create a separate oil and gas regulatory body.
Butler voted for the bill. His relative later was dismissed, Butler said, but the dismissal occurred when many other railroad commission workers were "let out" for lack of funds.

RADIO LICENSE CASE ON TRIAL AT FT. WORTH

FORT WORTH, Dec. 12.—The trial of Dr. H. C. Allison, Fort Worth chiropractor, charged with operating a radio station without a license, went to a federal court jury today, after a heated plea by the defense counsel.
Allison's attorney, Clarence Farmer, former state representative, said that when a government attempted to regulate a station it was infringing on the freedom of the air.
The radio commission summed up its case in three points. It charged that signals from Allison's station, WYFO, had been heard in Oklahoma; that the station interfered with a Nebraska and Kansas City station, and that Allison was operating without license.

Three Are Killed As Ditch Caves In

KNOXVILLE, Tenn., Dec. 12.—The wall of a ditch being dug by road workers on a highway in Great Smoky Mountains national park, caved in today, burying nine men, three of whom were believed to have perished.
"There is no hope at all of them being alive," said Superintendent Eakin of the park, who reported that the other six men were dug out of the 15-foot fall of earth which buried them to a depth of more than five feet.

VIOLATORS OF CODE MAY BE PROSECUTED

WASHINGTON, Dec. 12.—The government today threatened criminal prosecution of cleaners who violate Blue Eagle price-fixing regulations.
Out of 100 summoned to a compliance hearing, only one man, owner of a shop in Indiana, promised to raise his prices high enough to meet NRA regulations.
William Davis, national compliance director, called the others "crazy." He said they were "fools" and promised to turn their cases over to the federal trade commission for investigation leading to prosecution.

State Testimony Rufutes That of Defense Witnesses

DALLAS, Dec. 12.—State counsel in the trial of Toy Woolley, charged with the slaying of his wife Dorothy, today struck a blow at the defense through introduction of Dr. J. H. Marshall as a rebuttal witness.
Marshall's testimony was in direct conflict with that of defense witnesses, who said Woolley was "broken down with genuine grief" after his wife was shot in the bedroom of their home.
"When I called at the Woolley home about 1:30 o'clock on the morning she was shot, I particularly noted the calmness with which Woolley accepted the situation," Dr. Marshall said.

Gold Price 'Leak' Is Still Noticed

LONDON, Dec. 12.—Investigation of the rapidity with which certain private financial concerns received the daily Washington gold price in advance of official announcement of the figure, was understood to center around one or more American brokerage houses.
The earliest flash on the Washington gold price, officially announced at 9:45 a. m., eastern standard time, arrived at a private financial house at 9:46:15 a. m., eastern standard time, beating the official messages by approximately 30 seconds.
Previously it had been as much as five minutes ahead.

Funeral Services This Afternoon for F. A. Simmons

Funeral services for Thomas A. Simmons, 43, who died at his home in Eastland Saturday afternoon following an illness of several weeks' duration, were conducted from the Eastland Baptist church this afternoon at 3:00 o'clock by Rev. O. B. Darby, the pastor.
Interment was in the Carbon cemetery with military honors, the burial ceremony being conducted by the Eastland American Legion Post.

Planes In Reach of All Is Aim of Fort Worth Firm

FORT WORTH — Airplanes within the reach of the average pocketbook, to sell at \$700 or less, is the object of a company formed here by E. G. (Swede) Rhenstrom, well known aviation official and World War flier.
A factory to be established here will start turning out the ships by next June 1, Rhenstrom said. The company plans to build 3,000 planes the first year.
The plane will be an all-metal, two-place monoplane with an enclosed cabin and an eight-cylinder air-cooled motor, Rhenstrom explained. It will have a top speed of 126 miles per hour and a low landing speed.
The ship will be along lines recently recommended by the United States department of commerce which sent questionnaires to 34,000 persons, licensed fliers, student pilots and mechanics, asking if there would be a market for a plane within the price range of the average automobile, Rhenstrom said.
Rhenstrom said he had been working on designs for a light, moderately-priced ship for two and a half years. His concern, known as the Rhenstrom Aircraft, Inc., was incorporated six months ago, he said.

Dry Texas Will Get \$3,500,000 In Gas Tax Decrease

HOUSTON.—Although Texas remains dry, prohibition repeal will bestow upon motorists of the Lone Star State a New Year's gift of \$3,500,000 yearly, the Texas Good Roads association pointed out today.
The special federal gasoline tax of one-half cent per gallon, levied by Congress this year as a revenue provision of the National Recovery Act, will be voided automatically on Jan. 1.
The act, which raised the federal levy on motor fuel from one cent to 1½ cents, stipulated that it would be returned to one cent "as of the first day of the calendar year following repeal of the 18th Amendment." Liquor tax income will make up the difference.
Thus, twice during 1933, the much-harried consumer of motor fuel has regained a little of the ground he has lost, of recent years, in his battles against heavy special taxation.
The first "break" for more than a million Texas automobilists came last March, when the state legislature struck a hefty blow at gas tax evaders with the new felony law against motor fuel "bootlegging." Comptroller Sheppard, by a hard work, is recovering millions in stolen revenues yearly, half of which go to improve state highways.
Taxes on motor fuel in Texas, as 1934 begins, will remain at 5 cents per gallon—one cent federal and 4 cents state. Yet only 2 cents of this total goes directly to the basic purpose for which the tax was conceived, construction and maintenance of highways.
The average Texas motorist pockets \$2.78 a year from the reduction, his annual motor fuel tax bill dropping from \$30.58 to \$27.80 for average consumption of 556 gallons, the road association estimated.

Trial of Wisdom on Murder Charge To Be Delayed

HUTCHINSON, Kan., Dec. 12.—Plans for a swift trial of Jack Wisdom, cowboy, who confessed to the slaying of a Wichita couple, were cut short today, apparently by order of Governor Landon, who feared a mob would seize the prisoner.
Authorities had planned to take the prisoner to Wichita from the state reformatory here for a trial before reformatory. When an attempt was made to remove Wisdom, officials said they had been ordered to hold him. It was believed the governor inspired or gave the orders.

Miss Melba Gamble Named Class Beauty

DENTON, Texas, Dec. 12.—Miss Melba Gamble, daughter of Mr. and Mrs. S. M. Gamble of Ranger, has been nominated class beauty by members of the junior class at Texas State College for Women (C. I. A.) here.
Nominations are held at the college each year and from the names submitted by the different classes, one girl is chosen representing each.
Miss Gamble, a junior majoring in journalism, is a member of the Mary Eleanor Brackenridge Literary society and is advertising manager of the Daedalian Annual, year-book of the college.

Mexican Slayer Dies In the Chair

HUNTSVILLE, Dec. 12.—Death which he had escaped three times before by last minute reprieves, today claimed Pantaleon Ortiz, 34, for the Refugio county slaying of his 18 year old sweetheart and a youth with whom he had seen her. He was electrocuted shortly after midnight.

One Candidate for Mexican President Leads Simple Life

EL PASO.—Gilberto Valenzuela, mentioned as possible presidential timber for Mexico, lives the life of an exile in El Paso, and keeps himself physically fit for politics by playing handball at the Y. M. C. A. He plans to return to Mexico.
Valenzuela won his political spurs in Sonora where at different times he was governor, supreme court chief magistrate, and speaker of the house of representatives.
He has served as Mexico's ambassador to Switzerland, the court of King Albert of Belgium, and the court of St. James.
Valenzuela said he would not be a candidate for president of Mexico unless his nomination was approved by the convention of independent parties in February.

Connie Mack Will Make Player Deal

CHICAGO, Dec. 12.—Connie Mack, manager of the Philadelphia Athletics, arrived here today with \$250,000 baseball deals concerning most of his star players under his hat. At 6 p. m. he was expected to announce catcher Mickey Cochrane, pitchers Grover, Earnshaw and Walberg and second baseman Max Bishop had been sold to rival clubs.

JAILER IS LONESOME

DURANGO, Colo.—Juan A. Medina, jailer here, is getting lonesome. He hasn't had a prisoner in his jail that he can chat with in a week. It's the first and also the longest time since he's been jailer that he hasn't had at least one prisoner, he said.

Candidates Are Asked to Vote Against Submission

DALLAS, Dec. 12.—Candidates for the Texas legislature today were called upon to pledge themselves to vote against submission of an amendment to repeal state constitutional prohibition.
In a statement signed by Mrs. Claude de Van Watts, State president of the W. C. T. U., Dr. Atticus Webb, superintendent of the Texas Anti-Saloon League, and Dr. W. R. White, executive secretary of the United Forces against the liquor traffic, the group accepted the challenge of liquor forces as recently voiced by Maury Hughes, to make the state dry amendment a Democratic party demand by placing it on the primary ticket.

The Story of Christmas

When the Wise Men spoke, saying that they had come to worship Him who had been born king of the Jews, having seen his star in the east, Herod was greatly troubled and all Jerusalem with him.

A BIBLE THOUGHT FOR TODAY

THE TWO GREAT COMMANDMENTS: Thou shalt love the Lord thy God with all thy heart, and with all thy mind; and thy neighbour as thyself.—Luke 10: 27.

JOHN D. ROCKEFELLER SAYS "BETTER DAYS ARE COMING"

John D. Rockefeller is 94. He celebrated Thanksgiving in his home away down in Florida. He is one of the most remarkable men the world has known. He was the first American billionaire. He has given to charity and education and welfare and philanthropic movements and the abolition or elimination of the ills which afflict mortal man more than \$700,000,000. He is enjoying life. He will spend the winter under the sunny skies of Florida. On Thanksgiving morning he declared that he was at peace with all mankind. Place his message to the living world in the record: "As I stated on my birthday I have just begun to live. Let us not forget that America has always been the land of plenty and opportunity, and that better days are coming. I have always been optimistic. This is the happiest Thanksgiving I have ever had."

John D. Rockefeller was a full grown man when Abraham Lincoln issued his proclamation striking the shackles from the limbs of slaves. He has lived in two or three civilizations. He was born in the civilization that came in with the birth of the American republic. He became one of the greatest industrial captains the world has known. He saw another civilization shot to death on Flanders' Field. He witnessed the passing of the ancient monarchies of the European as well as the world of the Orient. "Yes, 'better days are coming.' And the new civilization promises to be the most humane and justice loving mankind has known."

COUZENS OF MICHIGAN ON THE WARPATH

Sen. James Couzens of Michigan, an independent republican and one of the real battlers of the American congress, is on the warpath again. President Roosevelt has named Martin Conboy district attorney for Southern New York. Conboy is a noted leader of the New York bar. He is an independent democrat. He was a first and last supporter of President Roosevelt and his policies. He has been a regular in all the national and state campaigns. Senator Couzens will fight confirmation of Conboy. He has announced the reason why. Conboy has been attorney for Albert H. Wiggin, former chairman of the Chase National Bank. Conboy visited Washington. His friends, including many senators, congratulated him. Well, the Michigan warrior did not congratulate him. He very bluntly and very emphatically said as he shook hands with the New Yorker, "I shall certainly oppose your confirmation by the senate." Postmaster Gen. James A. Farley and Conboy have been close personal and political friends throughout the years. Senators Copeland and Wagner of New York are personal and political friends of the noted lawyer and leader. Now, just how far will Couzens go, or rather how far will he get, in his crusade against the choice of the President for the very important office of federal district attorney for the southern district of New York.

This hard-worked word, Inflation, is used in so many ways nowadays that one has to define it before talking about it. Some say that inflation means a rise in prices due to an increase in the volume of money. Our politicians have scores of ideas about inflating the currency. Some, no doubt, good—some bad—while the average citizen hardly knows what it is all about or what is going to happen.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

R. E. ROBERTS, editor of the Louisville (Ky.) Herald-Post, says:
"Did you ever stop to think that advertising is NEWS?
"It is just as important to the woman reader as the front page headlines. True, she probably reads the headlines first, but she doesn't consider she has really finished the paper until she has read the advertisements. And that goes for a great number of men, too. This is not fiction, it's fact, borne out by direct questioning of both men and women subscribers.
"Too often the advertiser does not take this into consideration when planning his advertising. He looks upon it as just another ad in the paper, when, as a matter of fact, his copy, handled properly, can be as attractive and interesting as the story which gets the eight-column headline on page one.
"There's romance in advertising just as there is in the day's news. There's human interest in every piece of well-written advertising copy. Just as the ad telling the story of modern home furnishings appeals to the woman, so does the proper presentation of Mickey Mouse or the Three Little Pigs appeal to the child.

Gift Suggestion For a Child To His Father

LET'S SEE NOW — WHAT ARE SOME OF THE OTHER GOVERNMENT ORGANIZATIONS?

Mummies Found In Oklahoma Are Of Much Interest

By United Press
AMARILLO, Tex.—Anthropologists are finding Cimarron County in the western section of the Oklahoma panhandle a fertile field for their work.
The theory rapidly is growing that some 2,000 years ago the district was populated by a highly civilized race of Indians of Mongoloid extraction.
A mummy discovered May 13 by W. E. Baker, county agent of Cimarron county, has done much to advance this theory. The mummy has engaged the attention of archaeologists and anthropologists in various sections of the south-west and the nation.
Baker discovered the mummy,

apparently that of a nine or 10 year old child, while searching caves along the Cimarron river. The mummy measured 47 inches in height and was in splendid state of preservation.
The hair was of Oriental texture unlike the hair of the modern American Indian; the eyes were of an Oriental type; the top of the head had been removed, and the brain taken out, and the top of the skull then replaced.
There were incisions in the arms and thighs, where flesh had been removed and embalming fluids used. The vital organs had been removed and the space filled with spices, similar to the Egyptian method of mummification.
Recently another mummy, a larger one, was found near the first. Enthusiastic but unexperienced workmen damaged it in their zeal to bring it from its burial place.
Evidence unearthed to date indicates the tribe that lived in that section was similar in appearance and mannerisms to the tribe of picture drawing Indians known to have lived in South Dakota.

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER
NEA Service Staff Correspondent
WASHINGTON—“Young liberals” of the Roosevelt administration are girding for a final fight. And the president himself has brought the matter of their revolt to a head.
The big issue, ramifying through NRA and other emergency agencies, is whether there shall be greater social control for industry, with safeguards against profiteering, or self-control for industry, without safeguards, under suspension of the anti-trust laws.
President Roosevelt, the other day, slipped the word to the AAA that it must rush through the food industry codes for his approval. That meant one thing to Assistant Secretary Guy Tagwell and other AAA liberals.
Previously they had been able to block codes from the food industries when they felt they were not fair to farmers or consumers. Now these codes, with price-fixing features and no provision for standards, would be jammed through over their disapproval.
So the “young liberals” decided that while they might be steam-rollered, it would not be without a fight. So, there will be fireworks.
PLAIN and fancy epithets aren't winning any battles under this administration.
Gen. Hugh S. Johnson of NRA has been licked definitely in his ambitious attempt to “crack down” on Henry Ford. Johnson is the administration's champion bestower of epithets, but the Ford fiasco only made him look silly.
On the other side, there's Al Smith, the opposition's most accom-

MYSTERY EXCURSIONS
MALMOE, Sweden excursions by train that is with unknown will be tried in Sweden, the management owned railroads that Last summer low extra travelers, sold out in advance system is expected more. The advantage excursion trains with lives is that no one paying for a regular definite locality.

THE TENDER YEARS ARE TOUGHEST.

ance met by current conventional types of trains or automobiles. Exhaustive tests in Washington have convinced Dr. Dryden and his associates that the most efficient train or automobile of the future will be thoroughly streamlined from stem to stern in order to reduce fuel consumption to a minimum while increasing speed, stability and ease of riding. Professor Klemm, of the Guggenheim School of New York University, agrees heartily with Dr. Dryden's findings. Figures which he supplies amplify the government scientist's statements. The most striking example of how the modern automobile combats wind resistance is contained in the fact that at 20 miles an hour the conventional car uses up 25 per cent of its power to overcome air resistance and drag. At 40 miles an hour, 60 per cent of the power is required, while at 60 miles per hour, 77 per cent of the automobile's horsepower must be expended to overcome the eddies and whirls of the air. "This tremendous air resistance makes automobiling more expensive on the one hand and it impedes the attainment of high speeds on the other, while vibration and discomfort result from a car being buffeted by winds,

and chair if you can find one, and please Santa, bring me a black board. I also want a doll. Please be good to all the little unfortunate children. I love you lots.—Gloria Lee Ringold.

Dear Santa: Please bring me a great big doll, a knife, some marbles and a little red train. Please bring me what I have written for. Love to Santa.—John Edward Eubank.

Dear Santa: For Christmas I want a baby buggy, table and chairs, boots, raincoat, iron, ironing board and a set of little dishes. Please bring me these things I have asked for in my letter. Love to Santa.—Frances Ann Eubank.

Dear Santa: I am a very good little boy. I go to school. Santa, please bring me a little set of carpenter tools, a dump truck, fruit, nuts and candy. Your little friend.—Jackie Luke Shelton.

Dear Santa: I am a little girl of six years old. I go to school. I have two little brothers. Their names are John Edward and Jack Ray. They are very sweet and Santa don't forget them. I want a doll and buggy and everything else you want to give me. With love.—Frances Ann Eubank.

Dear Santa: I am a little blond headed girl 6 years old, go to school every school day. I would like for you to bring me a desk

LETTERS FOR SANTA CLAUS

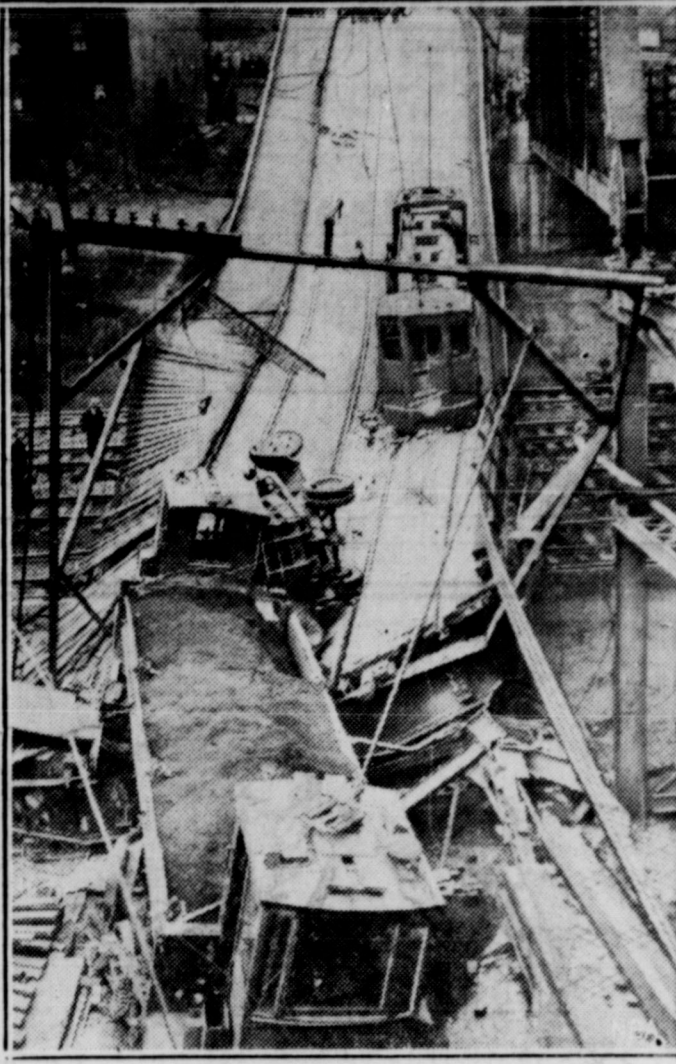

This paper will print any letters addressed to Santa Claus received from the youngsters of this part of the country. Just send or bring them to this office addressed to Santa Claus and they will be printed as soon as possible.

Dear Santa Claus: Will you please bring me a pair of skates and a little truck with some little lights and please bring my little sister a Bye-lo and a trunk with some clothes in it and dishes.

Dear Santa: I want a little red train, a sack of marbles, a great big ball, a knife, a little red wagon and an airplane that I can ride. Love to Santa.—Jack Ray Eubank.

Dear Santa: I am a little blond headed girl 6 years old, go to school every school day. I would like for you to bring me a desk

Bridges Crashes in Twisted Heap

Tons of steel, brick, and timbers crashed 40 feet into a twisted heap, carrying two street cars, loaded with sand and slag, and an oil truck with them, when 150 feet of this bridge approach in Pittsburgh gave way. The wreckage fell on the B. & O. railroad tracks, injuring four men. At the upper right is shown the level from which the span fell.

Santa Claus Letters

Dear Santa Claus: I am a little girl 22 months old and for Christmas please bring me a big doll and a little rocking chair and a little wagon, and if you have any little boots that will fit me please bring me a pair of boots too, and some candy and fruit. Yours truly—Arretta Jean Key.

11 years old. I happened to be down town last night and I saw you, and got two pieces of candy. It sure was good. Santa I want you to bring me a violin case, football and tennis racket and lots of fruit and nuts. Please do not forget the other little children. Your friend.—Eloise Packwood.

Dear Santa Claus: I am a girl

about the New Ford V-8 for 1934

Greater power at still lower cost through new Dual Carburetion . . . Increased motoring comfort because of simplified Clear-vision Ventilation . . . Easier riding through more flexible springs, deeper seat cushions and softer cushion springs . . . Distinctive new appearance . . . Many other features

1 More Miles Per Gallon—More Power, Speed and Efficiency with Dual Carburetion—Greater Oil Economy
The performance and economy of the 1933 Ford V-8 have been the talk of thousands of motorists. Owners said: "Leave it alone, don't change it." Dealers said: "Impossible to improve it!" But we have improved it—in every direction. We started with the engine. The Ford V-8 for 1934 is more powerful, more efficient, easier to start in cold weather, yet it is the most economical Ford to operate ever built—largely because of the new Dual Carburetor and Dual Intake Manifold. Even in the coldest weather the V-8 engine warms up quickly and maintains an efficient operating temperature because of new thermostats in the waterline. Added engine refinements—get the details about all of them from the nearest Ford dealer—reduce oil consumption and further reduce operating and maintenance costs.

2 Clear-vision Ventilation—and the Windshield Opens
There's nothing to obstruct the view in the new Ford system of Clear-vision upholstery, new mouldings, new cover-type headlining, new instrument panel, new arm rests and new hardware. Swivel-type sun visors in De Luxe bodies prevent glare from front or side. Fenders on all De Luxe cars are in color to harmonize with body colors. New enamel finish on all bodies and fenders has greater wearing quality and more enduring luster.

4 Transverse Springs—Comfort with Stability and Safety
Ford transverse springs provide the utmost stability and safety. Placed crosswise, they tend to prevent the body from tilting on uneven roads, and turns can be taken safely at relatively high speeds. Free and easy action of all four wheels is permitted because the outer flexible tips of the springs are attached to the axles. Thus the most sensitive parts of the springs receive road shocks first and absorb them before they reach the body. The advantages of the solid axle are retained.

3 Greater Beauty—New Radiator Shell and Grille—Fenders in Color
A car to be proud of, the Ford V-8 for 1934 has newly designed chromium-plated radiator shell and grille, and other distinctive features. Interiors are more attractive, with new tufted

Put It to the Test
Ride in this New Ford V-8 for 1934 and find out—personally—what it can do. It is the one sure way to find out which car gives you the most for your money.

Free Cooking School

At Montgomery Ward's Store—Second Floor

FOUR BIG DAYS

Wednesday, Thursday, Friday and Saturday

SCHEDULE STARTS AT 2:30 P. M., EACH AFTERNOON

It's a Revelation! Just What You Have Been Waiting For! An Opportunity to Learn the Ways and Means to Better Cooking. Actually with Less Cost and Less Work!

SCHOOL UNDER THE SUPERVISION OF

MR. A. R. ELMORE

OF THE NATIONAL COOKING SCHOOL

YOU WON'T WANT TO MISS A SINGLE DAY

THIS IS NOT A "DEMONSTRATION," but a COOKING AND CANNING SCHOOL conducted by a nationally known expert on the methods and results of pressure cooking. Planned to be a genuine value to the housewife. Be sure to hear Mr. Elmore's lectures daily—see him cook a complete meal in 12 minutes. He will explain fully the simple method that reduces the cost of cooking, canning, etc. . . . the safest, healthiest and most economical way of cooking known to science today.

Cook your Christmas turkey to delicious tenderness in 55 minutes.

Cook six different foods under the same cover without mixing flavors.

Cook a full course dinner for Christmas in 35 minutes.

Pressure cooking is the only safe way to can meats and non-acid vegetables and fruits.

Ward's new style Cooker holds more jars—equipped with handy canning rack.

HIS FRIENDS—By Blosser The Newfangles (Mom 'n' Pop)

Gritty Newsboy Overcomes Injury To Be Violinist

By United Press
OAKLAND, Calif.—Daniel Banskack Jr. is a cash-prize winning carrier newsboy who, after years of struggle and a successful battle against what were apparently insurmountable difficulties, attained his ambition to become a concert violinist.
The boy recently gave his first formal recital under the auspices of the Rockridge Women's club amid hearty applause, despite a severe injury to his left hand, the most serious a young aspiring violinist may incur, financial difficulties and other obstacles.
Years ago he became determined to be a violinist, but his first discovery was that money was needed for lessons. He solved

this problem by earning his way, and for more than four years he has delivered newspapers to do so. A year ago he sustained a crushing blow.
With a companion, he was experimenting with chemicals, when they exploded, nearly severing his left hand. A doctor examined the injured member and turned to the boy with: "I'm sorry, son. You'll never play your violin again. The nerves in this hand have been severed," he said.
Daniel was thoughtful for a moment, and setting his jaw in grim determination, said: "Sew them up again." The doctor complied. The hand was as good as new when he appeared in the first recital.
Music critics say his success is assured.
Now Greece would be glad to return Insull to America if it can find a way. Beware the Greeks bearing gifts!

THE HUMBLE OIL AND REFINING COMPANY

Restates a FACT:

HUMBLE MOTOR FUEL is second to none

Six months ago we promised: the Humble Oil & Refining Company will never allow its products to take second place. This promise has been kept. Humble Motor Fuel is second to none.

This is not an advertising claim. It is a statement of fact which you can verify in your own automobile. The value of Humble Motor Fuel is the value of performance in

the customer's car; it is a consumer-tested product.

We urge you to make a consumer's test of Humble Motor Fuel by comparing it with any gasoline selling at regular price. Try one tankful; check every detail of performance. Experience tells us that you will agree with thousands of other Texans who say, Humble Motor Fuel definitely delivers smoother performance.

Shop for your car with **HUMBLE** and buy more value

Stop for service where you see the Humble sign. Humble service is helpful, friendly, prompt, courteous and competent . . . Esso, the world's leading premium fuel more powerful than any gasoline, is sold at Humble Service Stations . . . Humble 997 Oil gives added value in the crankcase.

SISTER MARY'S KITCHEN

NEARLY everyone has a sweet tooth and during the holiday season it's all too easy to eat too much candy. Although candy is an excellent food when eaten in moderation, too much of it tends to satiate the appetite while furnishing only one body need—fuel. Consequently you will find a few confections made with dried fruits delicious and entirely satisfactory to mix with the usual Christmas candies. Dates, figs, raisins, prunes, apricots and peaches all can be used to make inviting "sweetmeats."

The UNKNOWN BLOND

BEHIND HERE TODAY DAVID GAVIN'S under-takes to find out who killed TRACY KING, orchestra leader found dead in his hotel apartment. Bannister, an author and former newspaper man, works on the murder case with GAINES, star reporter for the Post. Among those suspected of the crime are JULIET FRANCE, blond and pretty, known to have visited King shortly before his death; HERMAN SCURLACH who wrote King a threatening letter; and JOE PARROTT, down-and-out vaudeville actor. It is also known that MELVINA HOLLISTER, middle-aged spinster, had quarreled with King recently. King was engaged to wealthy DENISE LANG, MATHEW HOLLISTER, Melvina's brother, tells Bannister he believes his sister knows something she is keeping from the police. AL DRUGGAN, friend of King's, is found dead in a wrecked automobile. Bannister convinces POLICE CHIEF HENLEY that the best way to get information about Juliet France is to follow her and then watch her closely. He takes her to his own home, ostensibly as a guest. Later he learns that Joe Parrott has been found. NOW GO ON WITH THE STORY CHAPTER XXIX THE news of Joe Parrott's arrest had reached the Evening Post office by telegraph. Parrott had been picked up by St. Louis police and was being held there. Already Captain McNeal had announced he would send a man to bring Parrott back to Tremont. The detective was leaving on a night train. Parrott was wanted, McNeal said, for questioning concerning the Tracy King murder and "another serious offense."

NRA logo with text: Now IS THE TIME TO BUY! DO YOUR PART

Meat, Potatoes and Gravy--

MANY a meal is built around three standbys—meat, potatoes and gravy. Invariably they are the first dishes that come to your mind as you plan your dinner. But in spite of their hunger-satisfying and nourishing qualities, this time-honored triumvirate can become monotonous unless it is supplemented by other dishes. However, it is often a problem to find these "side dishes" in your own head. Of course you can quiz your neighbor, or ask the members of your family what they would like. But even this source of information is often lacking in ideas. The thing to do is read the advertisements in your newspaper. Every day your local markets display their foodstuffs on those printed pages. You'll read of new vegetables and fruits that have "just arrived." Your appetite will be aroused by the tasty creations of national food manufacturers. With pencil and paper you can make your market list and menus before you step out of the house. Speaking of monotony, consider this. There are 11 different cuts of beef, 9 cuts of veal, 7 of lamb, 10 of pork; there are at least 20 different breakfast cereals sold in every store, 16 different canned vegetables, 6 canned fruits, a dozen or more canned meats and fish, numberless varieties of cakes and crackers. Why should there be monotony in meals with such a variety of foods available at your store and so many of them advertised in your paper?
