## Hamilton, In His Glory, Assumes Hero Role

that reminds me...

Wednesday afternoon representatives of the Eastland School Board, the Chamber of Commerce and the New Deal Eastland Base Ball club discussed proposed plans for the coming sports and athletic events staged at Eastland in one convenient and suitable place. Welch field which has been the playing field of the New Deal Baseball games was pointed out as a most ideal place to make a permanent athletic center of.

Just what the venture will cost is not definitely known until the committee appointed make a complete survey and make their report. However, regardless of what it costs, anything worth while costs money, and this particular instance is one of the best moves that has been made. The baseball field of the Mavericks is about the worst on record, and any money spent on it would be wasted. The proposed new field is not only most ideal, but it is conveniently located on the main highway, and has all the necessary parking space and available ground for putting up grandstands and bleachers. If this plan gets the support of the citizenship of Eastland and it is well reserved, Eastland can eventually sell the world that they have something to be proud of. Now is the time to do it and now is the time to get behind the movement.

Everything is so beautiful right now, no matter in which direction you may drive on the highways and by-ways. It has been remarked that this spring is one of the most impressive than for several years. It does make life a successive thing of inspiration to see the lovely wild flowers, and note the brilliant hues of green upon the hundreds of varieties of plants. Patches of vegetable gardens show a profuse abundance of all kinds. No use for any one to go hungry right now.

Those who are now operating in an approved code of the NRA have been notified that when they will out and return the card enclosed with the notice that a special NRA Blue Eagle applying to their particular business will be mailed to them for display. This means that the government has set in motion a definite program and the hanging up of the new Blue Eagle means that the government is strictly to the code. Any violator will not only have the Blue Eagle stripped off, but will be subject to prosecution.

Eastland needs so many things that are possible to get, but one so badly as a bank right at this particular time. The necessity is being impressed more and more every day. The terrible inconvenience of sending money to go elsewhere to do business with an outside bank has cost Eastland citizens thousands of dollars and the expense continues and in some instances gets larger. It is something to think about seriously and should have a reaction of determination to see that we have one.

An out-of-town visitor, who makes many towns and cities over the nation during the rounds of his particular business after looking over Eastland remarked that he was decidedly impressed. He particularly remarked, "If I see you have a daily newspaper here, I go to towns all over the nation and many towns even larger do not have a Daily newspaper. The citizenship are aware I am sure of the advantage they have in this fast moving time people want everything done right now, and want their news on the spot. I hope that your daily paper is getting the support of the community as in it they have one of the best assets for the towns interest that there is."

Note where Sheriff Virge Foster "Robbed" a home brew joint the other day. That is a novelty in this day and time. From reports the offender must have had to drink it himself, as sales of home brew are about as scarce as hen's teeth. Even legalized 3.2 setting the town on fire no making anybody rich from what we can hear. Heard a wholesale distributor remark the other day that he was going to quit trying to sell it as profits were small and sales were slow. Oh, well, there isn't much as much romance to some in going right in and finding it there with no one giving a darn whether they have it or not as it is in "slipping" around and if they get by it giving the law the "horse laugh", on account of how they put it over.

H. E. Driscoll, local relief administrator has been exceedingly active to get the new program started for Eastland county. Mr. Driscoll has made several trips to

### "LAZY RIVER" SHOWS TODAY AND TONIGHT

"Lazy River," showing at the Lyric Theatre in Eastland today and tonight, is claimed to be one of the best shows to have been shown here in a long time.

Eastland federated clubs will participate in the proceeds from the sale of such tickets to this show as they actually sell. They do not get commission on tickets sold at the box office.

John Burke, manager of the Lyric, like all Texas theatres, is allowing the federated clubs of the state a 25 per cent commission on all tickets the women sell for this special Women's Day program.

Eastland club women have been busily engaged in canvassing for ticket sales. Also they have supplies of tickets at down town business houses where those who wish may purchase them.

The ladies wish the public to understand that they receive only a commission on tickets purchased from them and that this arrangement is entirely satisfactory with the theatre management.

### Kidnap Victim and Alleged Abductors

A kidnaping attempt in Texas was frustrated when Charles M. Kella, Jr., 28, above, was liberated from the turtle back of his car at the McKee Service Station at Winfield, after a trip that started at Fort Worth, went through Texarkana and doubled back to Winfield. James H. McCoy, above, right, and Joe Burleson, were captured and one man escaped.

### CANNON GOAL IS URGED BY THE JAPANESE

WASHINGTON, April 26.—Hiroshi Saito, Japanese ambassador proposed today that Japan and the United States deal with each other straight from the shoulder to end mutual suspicions and attain common goals.

He said Japan's so-called hands-off China policy is an honest effort to do that.

"We Japanese and you Americans are so much alike after all that we ought not to have much difficulty with each other," he told the United Press in an exclusive interview.

"Japan," he continued, "has restated its Chinese policy in a friendly but frank fashion so Japan's position might be known."

"I simply wanted to point out," he said, "that conditions in China are such that loans, military aid and other outside assistance are likely to increase political instability."

"There has been some disturbing indications of that recently. As a very close neighbor to China, with large interest at stake, we have said this: That we ought to be consulted when a distant country plans some advance to China that might provoke military activities or disturb the peace and order. That is a frank and fair statement."

### Scars of the Dillinger Battle

One of the windows of the Little Bohemia Lodge near Mercer, Wis., after it had been riddled with bullets in the machine-gun battle between federal agents and John Dillinger's gang. Two were killed and four wounded, none of them gangsters, in the fighting.

### TALKS FREELY OF HIS CAREER AS DESPERADO

Tells Officers of Robberies He Committed and of Break With Barrow.

DALLAS, April 26.—Obviously considering himself a hero, Raymond Hamilton talked freely of his escapades today in face of an announcement that they would seek the death penalty for Texas' second ranking desperado.

The 20-year-old outlaw was not a cringing, frightened boy, as he looked out from his cell on the heavily armed guard, determined to "bar any possible attempt at escape."

It was a "field boy" for the almost beardless youth who was captured yesterday after the robbery of the First National Bank of Lewisville. He was the most popular occupant of the jail.

There were newspaper cameramen, newspaper photographers, reporters and officers, all bidding for his favor. And he revelled in the attention.

Under the bright camera lights he posed like a veteran trooper. When asked to smile he flashed a grin that encompassed his face. "Well, they've got me now; but I can take it," he said.

Freely he discussed many of the crimes for which he received a 263-year sentence, the longest in the state's history. District Attorney Robert Hurt announced today he would ask a Dallas county grand jury to indict Hamilton under the habitual criminal statutes and would demand a death penalty. Hurt said he was positive of obtaining a death sentence.

Hamilton's capture climaxed one of the greatest manhunts in the southwest. The arrest followed a wild 40-mile chase over muddy roads after the bank at Lewisville had been robbed.

The chase ended at Howe, where Hamilton found a highway blocked by heavily armed possemen. He surrendered without resistance as did T. R. Brooks, 21, Wichita Falls.

Hamilton will be charged with the robbery Feb. 27 of a bank at Lancaster of \$4,138, Dallas officials said. Clyde Barrow and Bonnie Parker also are sought for the robbery.

It was over division of loot from this robbery that Hamilton and Barrow quarreled and terminated their partnership, Hamilton told officers. Barrow insisted on giving Bonnie an equal share. Hamilton objected and withdrew from the partnership.

Hamilton admitted he robbed a national guard armory at Ranger and obtained a machine gun which he later used in several robberies, including the Grand Prairie hold-up.

"In that job," he said, "two old heads helped me. I won't say who they were, but my brother Floyd was not one of them."

Raymond emphatically denied that Clyde Barrow and Bonnie Parker engineered his break from the Eastham prison farm last January.

### Local Athletic Interests Center on Playground

If plans for the improvement of Welch field for football play, which were presented at a meeting Wednesday of school trustees, directors of the Eastland hall club and a committee representing the Chamber of Commerce materialize, Eastland will have permanent grounds for athletic games of various types.

The plans include the erection of new bleachers, sodding of the ground and building of fences around what at present is known as Welch field.

Those attending the meeting were of the opinion that the plans were favorable and appointed L. E. Spalding, manager of the Eastland hall club, with the aid of carpenters, make an estimate of the cost.

As soon as the estimate is prepared it will be presented to a committee which was appointed Wednesday to investigate the financial end of the move. The committee consists of K. B. Tanner, president of the school board, Sam Butler, president of the Eastland hall club; Curtis Kimbrell, representative of Eastland merchants; H. C. Davis, secretary of the C. of C., and V. T. Seabery, representative of the athletic association.

### CONVICTS AT PRISON FARM MAKE ESCAPE

SUGARLAND, Texas, April 26.—Several prisoners escaped from the Central State Prison Farm here shortly after 8 a. m. today.

Capt. Buck Flanagan, in charge of the farm, could not be reached, but other officials said they believed "three or four men" had climbed in a empty truck and ridden to freedom.

Farm officials said it would be impossible to know exactly how many men had escaped until the crew could be brought in from the fields and the rolls checked.

### Hon. Cecil Lotief Is Candidate For State Legislature

Hon. Cecil Lotief, floral representative in the state legislature from Callahan and Eastland counties, and whose home is in Callahan county at Cross Plains, was in Eastland Wednesday looking after business matters and meeting as many of his constituents as possible. He is a candidate for reelection.

Mr. Lotief is a business man—just a plain business man—who made a splendid record for himself in the last legislature, and this fact will be a big factor in returning him to the legislature. In fact he will have no opposition—at least no serious opposition—for reelection.

Mr. Lotief demonstrated in the sessions of the recent legislature where you could always tell just where he stood and how he was going to vote on any measure. His frankness in telling those who ask just where he stood his firm stand on his convictions and his fairness and earnestness of purpose won for him the admiration of even those who opposed him.

### Eastland County Relief Set-Up Is Model For Others

Eastland was host Wednesday to County relief administrators and their co-workers from the counties of Jones, Shackelford, Taylor, Callahan, and administrative representatives from Palo Pinto and Parker counties. Miss Florence Mercer, state case worker and Miss Violet Farr, state case supervisor, were also present.

The purpose of the meeting was to hold round table discussions regarding relief work and to bring up any problems that confront the different counties in their work to be answered and solved.

These meetings will be held at various county seats every two weeks and H. E. Driscoll, county administrator of Eastland county, will preside at all meetings. Hunter George was appointed as chairman of the program committee for the occasions. There were 111 present at the Eastland meeting.

Judge Earl Conner, Eastland county relief chairman, gave the welcoming address. County Judge Clyde Garrett was also present. The meeting started at 10:30 a. m. and was in session until 4:30 p. m. Many important questions were brought up during the session and interesting talks regarding the work were made by Misses Mercer and Farr. The Eastland County relief set-up was pointed out as a model for all other counties to pattern after.

The next meeting will be held at Albany in Shackelford county, May 9.

### 'Better Homes' to Be Subject For Sunday Services

Better Homes Week will be featured in a special program Sunday night at the Methodist church. This program will introduce a series of Sunday night services entitled "Better Sunday Night Services." Sunday morning theme, "The Kingdom Within."

The Choral club of the Junior High school will furnish special music and be the choir Sunday night.

Mrs. W. K. Jackson will tell the origin of "Better Homes Week."

Miss Hunter will give a reading, "Texas Homestead Law."

Mrs. E. R. Stanford will speak on "The Atmosphere of the Home."

Rev. Rosemond Stanford will preach briefly on "Better Homes in Eastland."

All are invited to be present. The Civic League and the Thursday afternoon club are to be special guests.

### Reach Agreement On Rail Wage Scale

WASHINGTON, April 26.—The railway wage controversy was settled today when railroad labor and management reached a compromise.

The compromise provides for a two and one-half per cent restoration of the present 10 per cent reduction, five per cent January 1, 1935 and the remaining two and a half per cent April 1, 1935.

### Doomed Man Waits His Death Stoically

HUNTSVILLE, April 26.—Apparently calm, gray haired Charley Outlaw of Lufkin, stared away his last minutes before his execution scheduled for early tomorrow to square his debt with the state for the hammer slaying of Mrs. Frank McCall, 58, of Lufkin, in January, 1933.

Throughout last night the death watch guarded Outlaw closely, lest he attempt suicide. He has given no indication here that he would take his life.

### Rare Specimen of Spring Tail Lizard In Big Collection

NEW YORK.—An interesting collection of reptiles from Tehuantepec in southern Mexico, has recently been given to the American Museum of Natural History by T. MacDougal, of New York. Particularly interesting are the only specimens of the spring tail lizard which are now living in captivity. This lizard has been known since 1842, and only 21 specimens of it are on record. They are about 15 inches long and are related to the iguanas.

There also is one basilisk lizard, which is noted for its ability to walk upon water, as well as several specimens of a smaller Mexican relative of the pine swift lizard, which is common to the New Jersey pine barrens.

### Barrow Reported To Be Near Quannah

QUANAH, April 26.—City, county and federal officers patrolled highways in Hardeman and neighboring counties today on the lookout for Clyde Barrow, reportedly seen in Quanah late yesterday.

Donnelly was handed over by French police aboard the Washington just as it was ready to leave. Secret service agents said they believe he could enlighten them on the ransom for the Lindbergh baby.

### Think Confidence Man May Know of Lindbergh Ransom

HAVRE, France, April 26.—Information of importance regarding the Lindbergh kidnaping ransom may be obtained from Stewart Donnelly, international confidence man, it was intimated today as he sailed under arrest on the liner Washington for New York.

Donnelly was handed over by French police aboard the Washington just as it was ready to leave. Secret service agents said they believe he could enlighten them on the ransom for the Lindbergh baby.

### Houston Exports a Total of \$500,000 Worth of Junk

HOUSTON.—Houston's scrap metal industry, last year exported \$500,000 worth of "junk" to a dozen or more countries.

Along the curbing of the harbor are great piles of the rusty iron and steel collected from a radius of 300 miles about Houston. Most of the ships that enter the basin leave with a cargo which includes some of the metal.

Great Electro-magnets lift tons of metal from the piles and swing it into the holds of the ships.

Italy, Germany, England, China, Japan and Poland are among the principal importers. The scraps are melted and re-worked under patented processes which are said to make the new product as good, and in some instances better than, the original product.

Many an English farmer turns his soil with a plow made from steel railroad rails which once spanned western prairies, and many a Japanese housewife sews with a machine made from metal that once towered above a Texas oil well.

### BASEBALL NEWS

The 9:49 Bible class eked out winner of their game with the Chamber of Commerce team, Wednesday, by a score of 13-12.

The Chamber of Commerce ball team plays the Fire Department this afternoon at 6:15 p. m. at the old high school grounds.

Lions will play Rolling Station men at the high school football field, 6:15 p. m.

The old high school grounds have been dragged by the fire department which has made it suitable for soft ball playing.

### Soft Ball Leaguers To Meet Friday

Preliminary details surrounding the commencement of the official soft ball season, which starts Monday, will be made at a meeting of the soft ball team managers and enthusiasts, Friday night, 8 p. m., in the offices of the Chamber of Commerce.

### Famous Killers Are Usually Small Men

FORT WORTH.—Like the famous Billy the Kid, Clyde Barrow, fugitive killer, is but a "half pint" in physical stature.

But still like Billy the Kid, it is a half-pint of dynamite, ready to explode at any minute, law enforcement officers agree.

The physical measurements of modern Texas' peerless desperado read more like those of a high school sophomore. Barrow is slightly less than five feet six inches tall and weighs only 121 pounds.

He is so small, in fact, that he barely stands above the head of his diminutive gun-packing, cigar-smoking moll, Bonnie Parker, the modern Belle Starr of Texas.

Like Billy the Kid, New Mexico's famous outlaw who was killed when only 21 years old, with a record for one murder for each of his years of life—a total of 21, Barrow is young. He is only 24.

In some of his pictures he appears almost beardless.

His eyes are hazel with a glint of steel. His hair is dark blond, almost reddish. In some of his pictures he had a clean cut, even good-looking face. Other pictures taken under less favorable circumstances have a coarser finish.

Barrow has one distinctive identification mark—an anchor and shield bearing the inscription "USN" tattooed on his right forearm.

### French Have Cut Fatalities In Air

PARIS.—Three military aviators, or one for every two million kilometers flown, were killed in January and February of this year, according to the air ministry, which points out that this ratio is the lowest in the history of French aviation.

Two of the deaths were caused by failure of parachutes to operate and one by a landing crash. It is believed this is the first time the government has published figures on peace-time mortality among aviators.

The loss of one man for a distance flown of 50 times around the earth compares with 51 gravely injured and 41 killed in 1932 and 28 injured and 26 killed in 1933. That is, two years ago one man was injured for every 5,885 hours of flight and one killed for every 7,320 of flight.

The improvement is attributed especially to stricter examinations and increasingly more effective discipline in flying routine. It is noted with a sense of achievement that the number of planes and the operations of military aviation have been steadily increasing.

### O. D. Stevens In Death Cell Today

FORT WORTH, April 26.—O. D. Stevens, facing murder trial for the slaying of three men here last July, today was returned to solitary confinement in death cell at the county jail after an unsuccessful attempt to saw his way out yesterday.

The attempted break was discovered yesterday by the jailer who found back saw blades and an improvised rope in his cell.

He was uninjured.

### Abductors of June Robles Are Sought

TUCSON, Ariz., April 26.—Police today pressed a wide search for the abductors who kidnaped June Robles, 6, daughter of a wealthy pioneer Arizona family and demanded \$15,000 ransom.

The child was seized as she was returning from school yesterday. The kidnapers threatened death unless the money was paid in two days. The girl's family made no contact with the kidnapers, they reported.

Three suspects, a salesman and a university student, were released when officers were convinced they had nothing to do with the case.

### PIPE EXPLODED

MALTA, Mont.—Next time Bill Palmer of Content will be more careful when he smokes his pipe. Palmer was startled when his newly-stuffed had exploded as he lit it. Investigation showed him he had inadvertently stuffed a .22 caliber bullet in with his tobacco. He was uninjured.

### GOING TO BRECK

A number of Eastland oil men plan to go to Breckenridge this evening where they will attend a dinner being tendered Senator Clint Small at the Burch hotel by supporters of Mr. Small for governor.

**Swift's Heiress Weds 'Humbly'**

Instead of Chicago's elite, a window washer was the only witness when Geraldine Swift, above, 22-year-old daughter of G. F. Swift, packing plant magnate, and Albert F. Taylor, Chicago broker and former Yale football player, were married by a Joliet, Ill., justice of the peace. It was not an elopement, the Swift family announced.

At a meeting of administrators and their co-workers from many surrounding counties at which Mr. Driscoll presided it was brought out that the Eastland county relief set-up is one of the best in the state and that other counties were re-arranging their offices to conform with the system used in Eastland county. Such recognition gives us the assurance that we have nothing to worry about as far as future relief in Eastland county is concerned. It makes us proud and glad that such a condition exists and every citizen should cooperate and we are sure that they will.

**Huge Home With Stables for Many Horses Being Built**

**KERRVILLE, TEXAS.**—Extensive racing stables and a huge native-stone residence under construction 30 miles west of Kerrville for N. W. Hunter, Houston oil operator and turfman, are expected to be completed by late summer at an estimated cost nearing \$250,000.  
An immense native-rock barn, 240x41 feet, with 36 stalls and with corrals covering from one-fourth to two acres, is being built. A 50,000-gallon rock tank will be erected to hold water for stable needs.  
Hunter already has shipped 16 thoroughbreds here, including "Stratosphere," a five-year-old stallion formerly owned by the Waggoner Three-D stables at Arlington Downs. With him, came 15 registered brood mares, being cared for at a neighboring estate, the Seagraves ranch, until the Hunter project is finished.  
Three recently foaled colts have increased the 16 animals first brought here. Among the fillies Hunter has sent here from Epsom Downs, Houston, are "Brookstone," "Primrose" and "Milepost." Elmo Wilson, young Kerr county rancher and horseman, has been country manager of the Hunter stables.  
J. A. Nix and Hunter, associated in breeding and racing thoroughbreds, also are partners in the ownership of 30,000 acres

**BEAVERS BACK IN SWEDEN**

**STOCKHOLM.**—The beaver is returning to northern Sweden, from which it disappeared 80 years ago. In former years the beaver was quite plentiful in Sweden, but intensive trapping drove it away. Lately it has been protected and now is beginning to spread from the two or three places where colonies existed.

**You Ought to Know the Browns**  
MAYBE you don't know the Browns. They're a little family of four. There's Jim Brown, who sells life insurance, and Betty Brown—who was a Jones before she married him. And there are the two Brown children: Jim, Jr., and Griselda.  
Like a thousand other families, the Browns are just starting to lift themselves out of the count-every-penny circumstances which the past few years imposed on them. But they have one advantage.  
Betty Brown studied economics during that time. She didn't enroll at the University. She didn't take a special home-course by mail. She learned a great deal about buying from her daily newspaper.  
She followed the advertisements. She compared price and quality, and struck a practical balance between the two. Today she knows how to buy so that Jim's bank account can begin to grow again. And she hasn't got pinch-nosed by doing it. In fact, some of the Browns' greatest delights is planning the weekly shopping tour. They virtually make a game of it, and always a profitable tour.  
You ought to know the Browns. They haven't the money they once had. But it won't be long before they do. And in the meantime, they're living well!
